GLOBAL CORPORATE DOMICILE:

Pascas WorldCare Ltd is to be domiciled in a neutral country with commercial and geographical security.

This is in keeping with the proposed establishment of Pascas Health Sanctuary in Brazil, Nigeria, South Africa and south east Queensland.

The global structure will be:

Pascas WorldCare Ltd – being Treasury – funded by share subscription in \$1,000 parcels.

Pascas WorldCare Ltd will fund each country of operation via way of Pascas Care (name of country) Ltd.

Within each country of operation, fixed assets (land and buildings as well as plant and equipment) will be isolated from the trading entities.

Special purpose entities (new health technology, new agriculture innovations, etc) will be funded directly by Pascas WorldCare. It is envisaged that many of these will be joint venture enterprises being driven by the passion and enthusiasm of the innovators behind the new technology initiatives.

With new innovations, shareholders will be offered the opportunity to invest directly into the new technology entity or by way of investment through Pascas WorldCare Ltd.

Those shareholders who have specific projects that they wish to pursue, that are in line with Pascas WorldCare capabilities and agenda, will be supported as though that particular project is a joint venture or as appropriate.

The skills and technologies and procedures, as well as ethos, are to be made available to all who wish to align themselves generally with Pascas, and we are to present a common face.

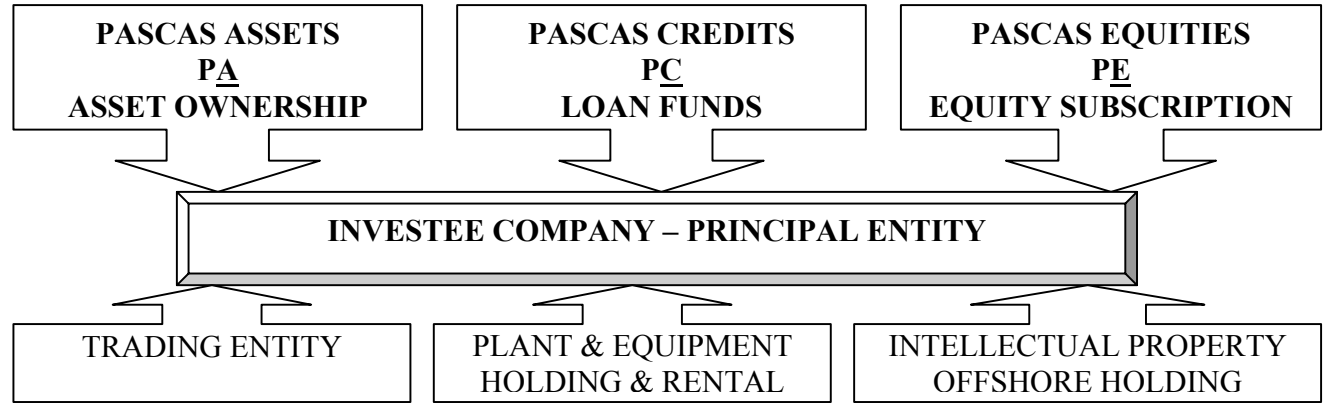

The new technology companies, overall, will be considered to be high risk with a high potential for significant profit.

Pascas Care operations within developed nations will be structured to be financially viable on the same bench marks for projected profits as with any other enterprise as you would expect within developed economic zones such as USA or Australia.

Pascas Care operations within emerging economies will be structured to be long term financially sustainable. That is, within three years, their incomes are to meet their operating costs. In the short term, funding is to be derived from within the global operations and ongoing shareholder support.

This is not a charitable structure. This is a long term financially sustainable enterprise.

OVERRIDING ETHOS:

In order for humanity to evolve, we must work together, not alone. We may not represent the mainstream elements of the Christian, Hindu, Buddhist and Islamic traditions, but we may be considered as evolutionaries by those who come in contact with us.

To succeed, we need to be supportive of common ideals. We must be all on the same page, so as to speak.

As we carry out this work, it is essential that those who come after us is always in our focus and in our hearts. We are asking you to make your story known, we asking you to be leaders in this sharing and to work with others who are willing to be teachers along side of you.

Further, we as a community will do much in our lifetimes that will change humanity forever.

Are we not committed to world peace, and eliminating world hunger; that we recognise the fruits on our Earth are gifts from God, and should be treated as such? Clean water, clean air, abundance of nutritious food and a safe haven are the birthright of every being on the planet.

The Great Tomorrow will evolve as such due to our collective focus on constructive and positive agendas, whilst maintaining an appropriate focus upon the growth of our soul condition, so that all agendas are delivered by awakened doing, not ego doing.

CHALDI KNOWLEDGE CENTRES – CHALDI COLLEGE

Education is the core to enhancing the quality of life, the levels of prosperity and soul condition one can reach. One of the fundamentals of education is that learning begins at the learners level. This means where appropriate, other initiatives in the PASCAS program will be aimed at ameliorating hunger and thirst needs for basic survival. With these basic needs met, an ability to learn and hunger for knowledge will prevail. The Chaldi Knowledge Centres will be guided by the most advanced souls within a given locale or community. Chaldi Colleges are to lead this agenda with the role of centralised management of documentation and a focus upon dissemination of the highest levels of truth in all forms possible, to reach the widest global audience.

The New Way: learning how to live true to ourselves by living true to our feelings.

PASCAS CARE CENTRE:

Entry to a clinic is via PASCAS CAFÉ which is an educational unit in nutrition, new technologies and the construct of spiritual wellbeing as being relevant to everyone's long term health.

Generally speaking, the Centre will appear to be much the same as any other clinic.

The Day Care treatment facility within each clinic is designed to deal with some major life threatening illness such as HIV / AIDS, tuberculosis and malaria. These programs will involve patients who will participate in programs twice a week for up to twelve weeks. During this involvement, much will be provided to support them including the dissemination of information which is essentially structured to remove fear (including fear of death) and reduce real or perceived boundaries as well as life support skills.

As a result of the treatment modalities, there will be a need to introduce to some emerging economies, new ways of job involvement and industries that lift standards of living will be made available via the education and training facilities associated with Pascas Café.

Utilising Vos Amo Ozone and Procell edible vaccines, or similar, cost of treatments are significantly reduced as well as avoidance of the use of drugs is achieved. Each clinic will be able to assist 7,000 HIV / AIDS, tuberculosis and malaria patients per annum on average. At the end of the first five years of establishing the clinics, this number grows to a sustainable capacity of 28,000,000 patients per annum. Research will underpin all treatments, education and care under the PASCAS umbrella to:

- validate holistic efficacy of treatments, educational pathways or clinical sequelae
- monitor and improve practices / methodologies
- help identify previously unidentified / unmet needs
- validate assessments, implementations and planning

NUTRITION

The discernment of nutrition is the core agenda of PASCAS CAFÉ.

CENTRE for ADVANCED TECHNOLOGIES (CATs)

CATs is the administration team, to make available technologies that are appropriate to achieve clean air, clean water, housing, and nutritious food. These technologies will create greater employment and economic sustainability within the communities where Pascas will establish itself. It is the Pascas Care Centre that will be the hub for introducing these opportunities.

URBAN RURAL TECHNOPATH (URTh)

URTh administration team is a professional consulting group or groups who have specialised in re-establishing or growing the infrastructure and economies of emerging communities. They are nation builders.

ECONOMIC LONG TERM SUSTAINABILITY

All of these initiatives, once established, are structured to be economically sustainable, long term. Not exciting for shareholders, it is the long term benefiting emerging communities that is the objective of these structured agendas.

PASCAS CARE CENTRES to be operating by years five to ten: 4,000

The program has now been expanded to embrace all communities within all countries.

 - **Dermatology**
- **Units will incorporate:**
 - **Pharmacy**
 - **Optometry**
 - **Physiotherapy**
 - **Radiology**

Day theatre capabilities will under take a wide range of procedures.

Ozone Therapy unit will have 12 beds / chairs available as well as the AIDs Serum unit will have available a further 15 beds / chairs. Treatments in both segments extends to a wide range of life threatening diseases.

Nutritional training for patients and their family will be facilitated through the attached training kitchen being adjacent to dining / training rooms.

Having extensive office facilities and meeting rooms within the Pascas Care Centre enables Pascas to support the introduction of new technologies to grow employment and skill levels for patients and their families.

The agenda is to treat the cause, not the symptoms as well as bring gainful employment and prosperity into the community which Pascas will be.

NEW BIOSPHERE AGRICULTURE

NEW BIOSPHERE AGRICULTURE (NBA) is a demonstration of capabilities in agriculture for others to emulate:

All phases of agriculture are organic in application.

All phases of soil management enhance the living nature and enduring quality of the soil.

All phases of water utilisation result in purer water and higher utilisation than ever envisaged.

All phases of power employment reduce atmospheric pollution.

All phases of site management lift the square metre yield to higher levels.

Unique technology employs:

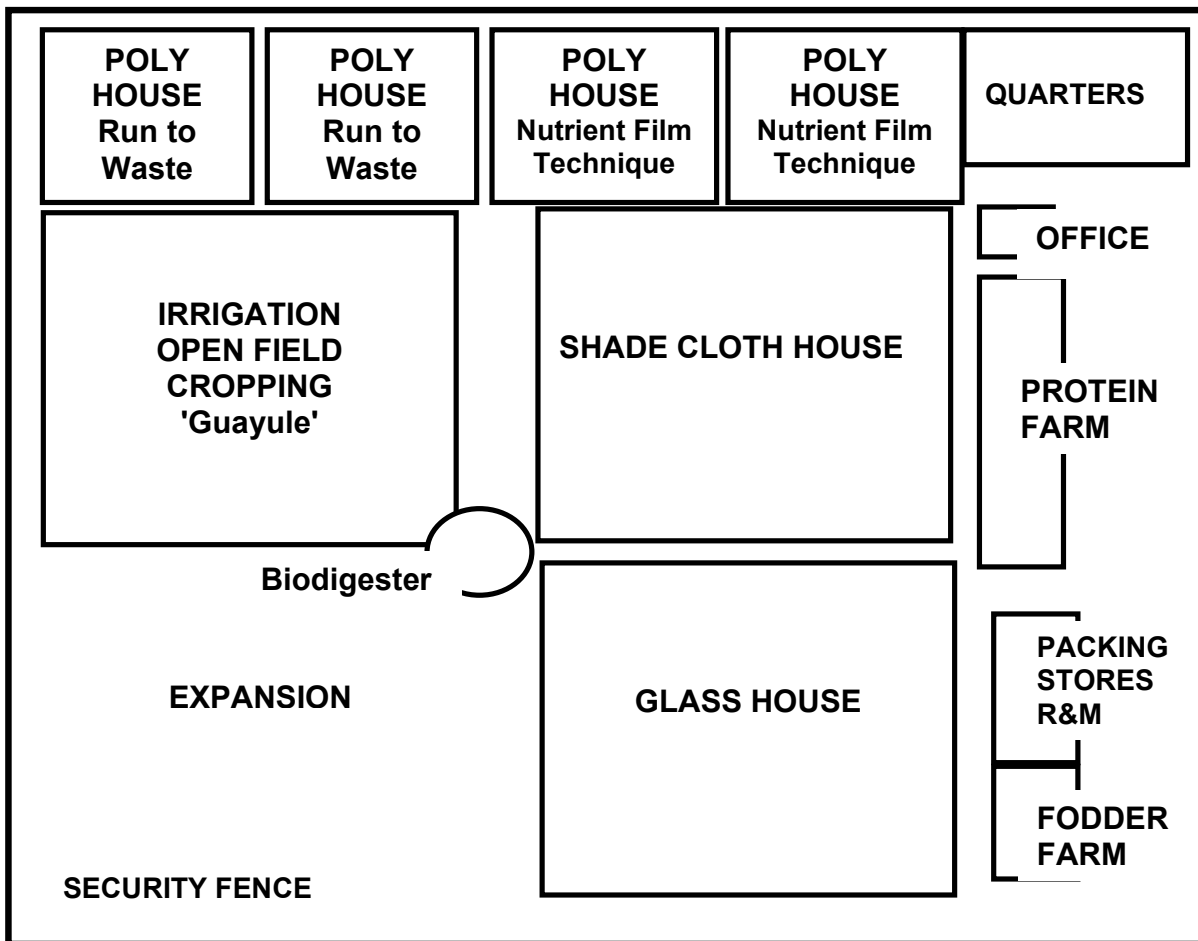

- **Electronically induced organic food in an environment where the oxygen, ions in the air, temperature, humidity, sunlight, water mist are all controlled.**
- **Aquaculture technology extends into hydroponic technology with aquaponics.**
- **Food production encompasses all small to medium crops.**
- **Water purification from source as well as recirculation creates efficient employment.**
- **Renewable power sources such as hydrogen and Zero Power based technology.**
- **Controlled atmosphere enables yields at exceptional levels per square metre and litre of water.**

All phases of New Biosphere Agricultural Management (CREAM) empower others to replicate elements or the whole concept as they so please.

Centre for Resource Education and Agricultural Management (CREAM) is the dissemination platform developed by **MUBEEN**, for the training and assisting of all who wish to avail themselves of what is possible within the global application of agriculture as it should be.

MUBEEN = That which makes things clear, evident and manifest.

URBAN RURAL TECHNOPATH Pty Ltd

Urban Rural Technopath Pty Ltd (URTh) provides multidisciplinary and comprehensive professional services that enables new technology installations in remote areas to succeed.

URTh is to rationalise existing resources within the remote community, its needs, and the opportunities available through the extensive range of innovations and technologies that have been assembled by URTh's companion entity, Centre for Advanced Technologies (CATs).

Given consensus on the program to be initiated, URTh is to project manage the infrastructure development and the installation and commissioning of the appropriate new technologies and industries for the remote community and region.

CATsberg symbolically is a good representation of the undiscovered potential in us all.

Most often it takes another person with an uncluttered but observant mind to see what has escaped many of us. A breakthrough concept or perhaps new approaches otherwise hidden from our perception.

It is common to reach for the telephone to call an associate for an opinion. Less common is the ability to feel completely at ease with a stranger who has our best interest at heart.

CATsberg is our symbol to introduce to you that the Centre for Advanced Technologies is here to share the journey through your business and personal life in a way that can make a difference to you and the way you feel as you grow your intellectual property.

PASCAS CARE CENTRE will facilitate the introduction of new technologies into communities where PASCAS has facilities. PASCAS will make available from within its regional premises, offices, communications and training facilities to enable growth of employment and prosperity to be accessible to its constituents, be they patients or local regional residents. New technologies will be introduced through the separate management of URBAN RURAL TECHNOPATH who will draw on new innovations from around the globe, such as CENTRE for ADVANCED TECHNOLOGIES.

Board of Directors: Passionate and experienced people.

Pascas Care Centre: Each clinic will establish an autonomous management team whilst being supported by regional administration located within a Pascas Health Sanctuary. Uniformity of culture, policy, practice and technology is paramount.

Pascas Health Sanctuary: Each major regional medical complex will establish an autonomous management team. Policy, technology and ethos development will be uniform throughout the network.

New Biosphere Agriculture (NBA): Each NBA unit will establish an autonomous management team whilst being supported by a global research and administration unit.

Urban Rural Technopath (URTh): This is a consulting team of specialists whose experience is focused upon nation building. They are to support the structuring and delivery of projects within remote and emerging communities.

Centre for Advanced Technologies (CATs):
 This is an incubator team to support the commercialisation of innovations that have appropriate application for introduction into remote and emerging communities as well as the global commercial markets.

At all times, the community in which we are to enter, is to be consulted. It is the knowledge and goals of the local community that we are required to embrace to ensure success with any initiative. Local management and employment is paramount.

The structure and management teams will evolve as the Pascas WorldCare agenda grows. The management of Pascas WorldCare will be expanded to embrace the interests and skills of the shareholders.

DIMENSIONS of ONE’S EXISTENCE:

Our SOUL IS NOT ENSOULLED IN OUR SPIRIT BODY. Our soul exists existentially in a whole different level or plane or place or dimension of being – ‘soul land’. It doesn’t exist in Creation, it’s not experiential like Creation is. The soul, all souls, help create their part of Creation by expressing their personalities into Creation, and then by having their personalities do things (further create) in Creation.

SOUL exists existentially

Our Physical Body and our Spirit Body are of Creation, being linked together by cords of light as are the two spirit bodies, male and female, to the one Soul.

One’s unique personality is soul based. Our unique soul expresses its unique personality through the two spirit bodies and physical bodies expressing both the male and female aspects.

P E R S O N A L I T Y

**Our soul is the centre of our personality.
We are children of our Heavenly Parents.
Our soul manifests a male and female personality - it is a duplex!**

WE ALL ARE BEING GUIDED HOME:

We need the Spirits of Truth of the Avonal Pair to Heal ourselves; then once Healed, (and for support (overshadowing) as well through your Healing), we need the Creator Pair, Mary Magdalene and Jesus’ Spirits of Truth to see us through the Celestial spheres, while at all times embracing our Heavenly Mother and Father.

Until Mary and Jesus died and liberated their Spirits of Truth, no one from any of the worlds could leave Nebadon, because no one knew the way to do so. Nebadon is our local universe containing some 3.8 million inhabited physical worlds and their associated spirit worlds.

When we embrace the truths Mary and Jesus are revealing, and start to do our Feeling Healing, or with Divine Love, Soul Healing, we are then freeing ourselves up from our parental and self control.

Thus our journey to Paradise, to the home of our Heavenly Parents, is of our choosing as to when we progress, however, there is only one way:

HUM: Humanity is to ascend. We are self contained. Our soul is always in truth and perfect at all times. **By living true to ourself, true to our feelings, we are living true to God. It’s that simple.**

We are to recognise that being engaged and dominated by our mind is the wrong way for us to evolve and grow in truth. We are to discard the mind enslavement that has been imposed upon as by all of our parents. We are to express our feelings, both good and bad and free ourselves of the indoctrination that humanity has embraced worldwide.

Live true to your feelings, and you ARE living true, not only to your own soul, but also true to God’s soul. So doing your Healing by honouring all your feelings, IS living the will of God. And being fully Healed, IS living even more truly the Will of our Mother and Father.

AVO: We are to embrace the truths and guidance of the Avonal Pair through their Spirits of Truth. It is the Avonal Pair’s guidance that will lead us through our Feeling Healing, and with Divine Love, we will be able to ascend through the 7 spirit Mansion Worlds and enter the Celestial Heavens where we also interact with other world’s spirits.

J&M: We are also to embrace the truths and guidance of the Paradise Pair, Mary and Jesus, who will then lead us through the 3 Celestial Heavens that are aligned with Earth, and then further on through Nebadon where we will then depart beyond on towards Paradise.

M&F: Beyond the universal zone of Nebadon, we will be guided by our Heavenly Mother and Father onwards through the universes to Paradise where we will be welcomed by them, home for us all, as we are all Children of God.

GOD

M&F

J&M

AVO

HUM

WE ARE Children of God

WE ALL ARE BEING GUIDED HOME – NOW, HOW TO COMMENCE THE JOURNEY:

GOD

M&F

For 200,000 years, we have been misled into embracing our mind's distortion of wisdom and truth. All such traditional understandings only lead us in the wrong direction, from which we must turn back from. Our soul based feelings are always in truth. Our minds are to follow our soul based truths and feelings, not the other way round, as we have been brought up to embrace.

We are to connect with our deeper repressed feelings.
 We are to long for the truth of what we are feeling.
 We are to live true to our selves; by living true to our feelings.

Use your surface day-to-day feelings to connect with your deeper repressed feelings. Express your surface feelings and your deeper repressed feelings to uncover the truth of yourself.

J&M

We all have feelings which we communicate and share with each other. And we all have deeper buried and hidden repressed feelings. Feelings from our early childhood we felt, yet weren't allowed to express. These feelings are still within us, waiting to have their say. These feelings, because they are repressed, cause us all our problems.

And as we look to uncover, bring out and accept these deeper feelings, so we're taken into new ways of looking at ourselves, our feelings, and our life. We're setting ourselves free of the controlling patterns that govern our unloving behaviour.

In this way, we progressively begin to express the personality that our Heavenly Mother and Father gave us, not the one imposed upon us by our physical parents and carers. We are to be our true and real selves.

By living true to ourself, true to our feelings, we are living true to God. It's that simple.

AVO

HUM

As we, humanity, long for the truth of our feelings, we can also be assisted by the Spirits of Truth of the Avonal Pair who are our spiritual teachers for Earth over this coming 1,000 years, to assist us through the Great U-Turn, away from mind dominance to being soul based feeling lead. They will assist us through the seven levels of the spirit Mansion Worlds.

Then the Creator Pair, Jesus and Mary, will lead us through Nebadon and into the greater universe. Then our Heavenly Mother and Father lead us home to Paradise.

Collectively, should we embrace them all, as we are to, then our pathway home is a journey in the hands of the Spirits of Truth of the Avonal and Paradise Pairs overseen by our Heavenly Parents.

WE ARE Children of God

HOW TO GET TO PARADISE:

Long for the Divine Love
 Long for the Truth
 Long for the truth of your feelings
 Don't deny any feelings: accept, express and want to know the truth of them
 Know your feelings are the key; your feelings are the Way
 Want to end your falseness and being untrue
 Want to understand the truth of your early life
 Use your surface feelings to move deeper into yourself, bringing up your repressed feelings
 Want and long to know the whole truth of yourself
 Want to do it all with God, your Heavenly Mother and Father – long to Them for help.

The Key

Our longing drives our life. We long with feelings. We can wish for things using our mind, yet long for things with our heart. These things in the pyramid are what to long for. Longing for them, when the longing comes naturally. Longing because you feel you really want them. Long to be true with all your heart. Long to live true to your feelings. Long to understand the whole truth of yourself.

CONCLUSION:

Individuality and fulfilment of the individual participant's passion and delivery of one's gifts for any community is to be supported by the people of Pascas whilst ensuring a harmonious and uniform message and quality of service.

With the introduction of new innovations and job creating opportunities into remote and emerging communities, the availability of clean air, pure water, nutritious food and a safe lodging will emerge.

The reduction of borders and the removal of fear are fundamental to enlightenment and freedom to evolve one's spirituality. Such goals are not possible should one be committed to applying all of one's resources to secure the fundamentals of air, water, food and housing.

By for the dominating aspects of Pascas WorldCare are to be found within Pascas Care, Chaldi College, and New Biosphere Agriculture. These agendas will be enhanced by the supporting and funding of new technologies as seen appropriate. These new technologies may be funded in parallel or through or in a combination of ways with Pascas. This is to be an individual decision upon each opportunity.

The long term goal is to establish financially sustainable services and industries in remote and emerging communities. This will take all the imagination and skills of this collective community to the edges of impossibility – but it will be done!
