PASCAS DELIVERS!

Pascas, as an integral cog within many wheels, will peacefully bring freedom from boundaries and fears imposed by centuries of erroneous teachings and ways, by continuing to evolve and always bring forth the highest truths and learnings, which are infinite. All truth and growth emanates from our Heavenly Parents, it is through Their helpers that we have gifts to share.

Pascas is about bringing together the masculine with the feminine, to share the many gifts we have with those who are willing, and about empowering many to share their experiences and knowledge in a way that is continuously evolving. It is about sharing the highest truth and sharing it willingly and with love to all those whom our community embraces.

To do this for the ensuing 100, if not 500 + years, our financial structure will achieve ownership of appropriate property and technologies to underpin ongoing delivery of services. The Pascas Foundation will benefit from the surplus income derived from these core activities and financial management operations. Pascas Foundation will be established to support the impoverished and needy.

The nature of Pascas WorldCare attracts innovators and inventors from around the globe, thus providing the opportunity to share unique technologies within economically deprived communities and then exporting to the first world markets. **Everything about Pascas is back to front.**

Pascas has the potential to bring services and facilities that will lift standards of living and quality of life in all ways imaginable – water, air, nutrition, housing, education, health, communications, and financial sustainability. These are seen as basic rights for all people sharing life on this planet.

Paramount to every phase of Pascas is education, via a Chaldi College, with the capacity to teach people of all ages to read and speak a language within a short time span, the emphasis being on English. Plus mathematics, at a level that would normally be considered suitable only for mid-school children. In addition, basic bookkeeping skills to be taught that are necessary for micro-credit enterprises to be successful.

The Pascas hub is around a Pascas Care (health clinic) Centre, with entry via Pascas Café and exit via Chaldi College, and holistic medical services in the middle. There are many health platforms and modalities, all efficacious with low delivery costs. Thus we are able to assist patients / friends dealing with life threatening illnesses of a diverse range. Capacity will initially reach 28 million patients / friends yearly. Whilst supporting them through such illness episodes, we are to support the family with various ways to enhance the economics of the household via Chaldi College which will have access to Pascas Finance Micro Credits whilst introducing potential technologies to be employed by the community. Later phases will encompass every community within every state, worldwide.

Pascas will only go into a community when invited and members of the community being willing to drive the implementation of any of the Pascas modalities. Pascas is there to give support and advice.

Pascas is about long-term delivery and financial sustainability – not about profits. Profits will come from time to time whilst supporting various new technologies. Pascas is about us, ALL of us.

PASCAS WORLDCARE NATIONAL and REGIONAL HUMANITARIAN SUPPORT:

Pascas WorldCare has been provided with understandings and ways that introduce to those who long for truth to evolve thus providing the platforms to mitigate social ills that confound all societies. In the process of bringing this way of living awareness about, interaction with social leaders in various countries provides for engagements such as:

LETTER OF UNDERSTANDING

“In consideration of Pascas WorldCare providing the executive with administration funds and ongoing support, a program to be establish will proceed throughout India, Pakistan, Burma and Ceylon. The executive agrees to the construction of a Hospital on land in New Delhi, and all ancillary works such as Medical School, technical and further education (TAFE for training in various trades), community facilities, family housing modeled on the Pascas Village Concept with schools for children with internet access, at no charge to families, funded by Pascas WorldCare during the development construction and implementation. In due course the whole complex is to revert to total ownership and administration by Indian nationals living on the actual sites in community based on the Pascas Team System of self-governance. Pascas WorldCare does not look for cash reimbursement.”

Living feelings first is in contrast to the way generations have been guided to live by being mind dominated. From conception, parents impose their agendas upon the newly forming embryo and unborn child. From birth the child’s carers suppress the child’s true personality and consequently the child represses its true personality in compliance to its parents and carers desires to impose what they believe is better for the child rather than what the child’s Creator and Heavenly Parents provided the child with. Educators from pre-school, primary, middle and high school impose their ways of mind domination living upon the child. Religious instructors add their version. Then comes higher education and university lecturers adding to the mind way of living error and personality suppression. Employers impose more of the same with commerce dictating. Overarching all of this is the various layers of government. There is not a person living that is not suffering to some degree from depression.

All of the ills that society are confronted with and cannot resolve all stem from childhood suppression and repression. The health industry does not address the underlying cause of illness because they do not know what generates illness. The legal system cannot address recidivism because they do not recognise the rebellion against parents and society is the result of childhood suppression. All social issues have been subjected to repeated reforms all representing living through the mind. The mind is addicted to untruth, it cannot discern truth from false and, further, is addicted to control. Truth emerges through feelings and it is these feelings that we are to live by, with our minds supporting the implementation of what our feelings are leading us to engage in.

Pascas WorldCare has the capabilities and comprehension of the way to living feelings first and thus introduce an evolution jump for humanity. Kindly consider reviewing the www.pascashealth.com and in particularly Library Download, all Pascas Papers are PDFs for free dissemination.

PASCAS WORLDCARE – and 500 + years!

Introduction: www.pascasworldcare.com www.pascashealth.com

PASCAS (Peace And Spirit Creating Alternative Solutions)

Pascas is Love.

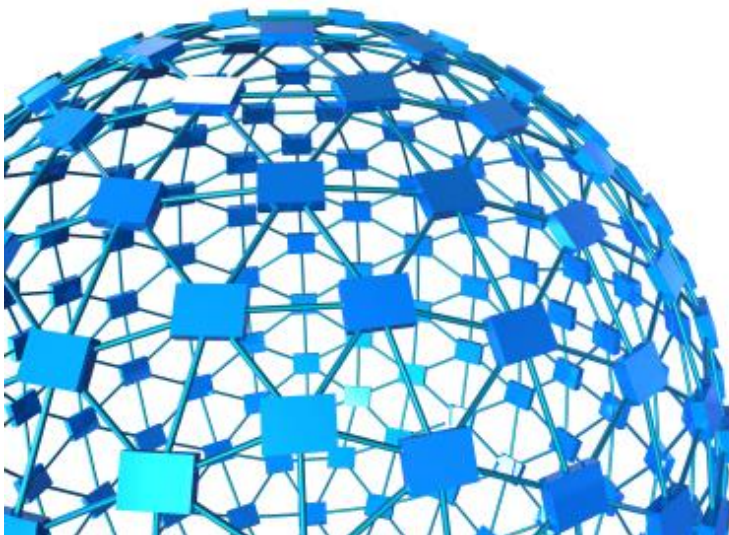

Pascas premises everything on truth and love. Every aspect of Pascas is benchmarked on this high energy level that is fundamental in determining everything that it embraces. From there, all else follows. Love means mutual respect of all people regardless of race, sex, creed, colour, age, beliefs, education, or else. Love is the very essence of the Universe and, in perfect love, all are our brothers and sisters.

Pascas is Global.

It is a network of many who embrace the passions of Pascas with like heart, and soul. It is the many who drive and strive to share the gifts that have endowed Pascas with incredible capabilities. It is this network of like minded individuals that will grow in numbers and steadily enter all corners of this beautiful planet.

Pascas is Empowerment.

Pascas encourages all to go inside themselves and to discover the desire within – trust and believe in your feelings. Pascas asks what it can do for you. It is up to you to tell Pascas what you wish to do should you embrace Pascas in any of its many aspects. Go inside and listen to yourself to discover aspects of your considered involvement with Pascas, you may discover that your pathway is not what you anticipate as being obvious for you with Pascas. Follow you feelings and long for the truth of them. We are all on interesting and ever changing journeys.

Pascas recognizes that education can contribute to spiritual growth. Thus, all forms of education that are fundamentally true are encouraged and supported globally, bringing new opportunity to all who Pascas reaches. In this regard, it becomes clear that all day, every day, is a living prayer. With new truths and revelations, come new education, and new opportunities.

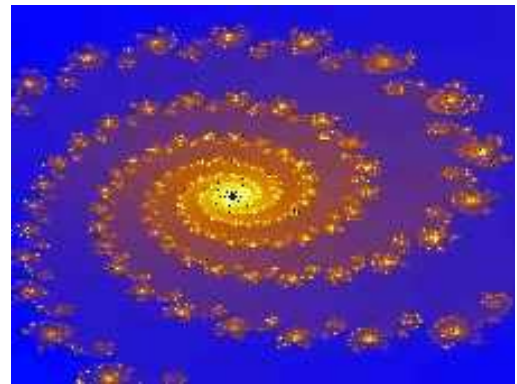

Pascas is a web reaching out to all and leading all to their Truth, which is within, to their Freedom, with love and without fear or favour.

Pascas has no membership.

You cannot join Pascas for all are embraced. It has no book, no hat, cap, facial appearance, frock or footwear. You are simply encouraged to look within and find your own desire and truth, the truth of your feelings, of all of your feelings.

Pascas has no boundaries.

Pascas is about removing boundaries and reducing fear and believes that all people are equal and deserve equal opportunity and equal share of wealth.

Pascas is about balance.

Masculine and feminine qualities are in balance within all aspects of Pascas' agendas and goals. Restoring a balance of masculine and feminine qualities within each of us will lead towards greater goals and harmony as we work together appreciating the relative qualities.

Pascas is to be financially sustainable.

For itself and the communities it serves. Pascas is not about growing 'profits'. It is about ensuring long term viability so that it can deliver its services and share its capabilities. Within wealthy communities, it will function on a commercial basis. In remote and emerging communities, it will depend upon revenues generated elsewhere whilst commercial viability emerges within.

Pascas is uniform, yet individual.

The many Pascas Care Centres will have common platforms. However, the make up of each centre will reflect the capabilities and gifts of the many who will work within. This diversity will see a high variation in the modalities employed and the services provided. The needs of each particular community will be the focus upon which the services will be provided.

Pascas is about innovation.

Pascas embraces the innovator. The innovator is endowed with guidance that can be deployed within remote and emerging communities and thus raise significantly the quality of life there. Many of these innovations can be commercialised to the world from within these impoverished communities.

Pascas is about decentralisation.

A Council of Elders oversees and monitors the core administration team and through its guidance Pascas will stay on course for the many years to come and achieve every new goal based on the tenants of equality for all humanity and always offering the highest truths available.

Pascas is about evolution

As new truths, new skills, and new technologies emerge, Pascas will continuously evolve and challenge accepted norms. Pascas welcomes your desires and passions as integral to this evolution. This reverse approach applies to all aspects of Pascas.

Pascas recognises regional needs.

Autonomy will be vested within various designated areas. These regions will all have major demonstration centres of what can be achieved with innovations and collective operations with the deployment of technologies that are environmentally sensitive, in line with responsible global environmental stewardship and suitability according to regional needs.

Pascas is about spirituality.

God is love. Love is one of many aspects of God / Mother and Father. Pascas is love. Pascas recognises God as our Parents of all and the growth in our soul condition as the prerequisite for healing and growing in love. Pascas, itself, does not hold to any dogma, rites, cults, doctrines, organisation, practice, book, uniform or anything outside of oneself. Pascas embraces the truth in all religions. Religion is the mortal's or the spirit's own relationship to God / our Heavenly Parents. Religion, therefore, is a relationship soul to Soul, personal and very individual in its character for each person.

Pascas is Truth.

Platforms considered by Pascas are tested for levels of truth and effectiveness – the documents and materials, the processes and systems, the products, everything that is taught in education, everything that is used in Pascas health, and the many aspects of new technologies. The methodology used is kinesiology as described by Dr David R Hawkins in his book Power vs Force. Representatives working with Pascas use and advocate this methodology. The Map of Consciousness outlining these levels is attached to this document. In this way everything can be tested for truth and the level of effectiveness.

For example anything calibrating over 400 greatly assists in learning, anything which calibrates over 600 enhances healing. Anything calibrating between 1,000 and 1,500 is Divine Love in truth and directly affects the growth of our soul condition, leading to complete healing through Feeling Healing.

Pascas and children.

Pascas is a protector of the most vulnerable – especially women and children.

“Children are the most vulnerable members of society.”

When we consider the case of children, their soul condition is affected in the initial stages of their physical incarnation, throughout pregnancy until birth and continues throughout early childhood. They cannot physically survive on their own and require the guidance and teachings of more developed souls to achieve any type of spiritual progress. Taking care of the children on our planet is a number one priority for Pascas and those who have the desire to help humanity evolve.

PASCAS Care – KIDS of the WORLD will be substantially funded through PASCAS FOUNDATION, a humanitarian trust that will financially support the agendas for the underprivileged; and also supported by profits generated from the commercial sides of PASCAS WORLDCARE.

Pascas Care – Health Clinic.

The focus of Pascas Care is to **treat the cause** of the disease and emotional processing is the key factor in bringing about permanent healing. Assistance with emotional processing will be provided free of charge, \$donations welcome. Pascas chooses healthy life enhancing wellness solutions that are sustainable to the human body, spirit and soul, as well as the community and the environment and balances this with allopathic / western solutions as required.

Western or allopathic medicine provides emergency relief for acute conditions. Complementary treatments, including all physical, eastern and metaphysical methods provide short term and temporary relief from accumulated pain. Emotional clearing provides long term and permanent healing for all conditions and improves soul condition and spiritual development.

Generally speaking, the Clinic will appear to be much the same as any other clinic. Entry to a clinic is via PASCAS CAFÉ which is an educational unit in nutrition, new technologies and utilizing locally produced fresh produce for maximum life enhancing qualities.

The Day Care treatment facility within each clinic is designed to deal with many major life threatening illness such as HIV / AIDS, tuberculosis and malaria. These programs will involve patients / friends who may participate in programs twice a week for up to twelve weeks. During this involvement, much will be provided to support them including the dissemination of information which is essentially structured to remove fear (fear of death) and reduce real or perceived boundaries as well as enhance life support skills.

New community industries based on new technologies, micro financed home business and job involvement, will provide financial sustainability and lift standards of living. This will be facilitated via the education and training and finance facilities associated with Pascas Café and Chaldi College.

Utilising processes such as Vos Amo Ozone and Procell edible vaccines, cost of treatments can be significantly reduced and the use of drugs is largely avoided. Each clinic will be able to support 2,640 HIV / AIDS, tuberculosis and malaria patients per annum on average. At the end of the first five years of establishing the clinics, this number grows to a sustainable capacity of 10,000,000 patients per annum.

A Pascas Care centre is an outpatients day care treatment centre. Profiles of each clinic will vary according to the needs within its region of support. Typical profile is structured around these numbers:

Average number of employees per clinic including medicos	25.
Day care treatment facility employees	20.
Nutrition cafe and community services	<u>15.</u>
Thus, a standard Pascas Care clinic contingent may involve	<u>60</u> people.

The diagnostic modalities of western / allopathy medicine provide the basis for setting the programs to **treat the cause** of the illness episode.

The treatment modalities of eastern or complementary therapies are slower, however, more effective and less intrusive on the physical body, and at a lower cost than allopathic medicine. Accessing and clearing emotions is fundamental to the way to health. **People look for miracles to cure disease which is ONLY the removal of the effect of the emotion. This is achieved through one engaging with their Feeling Healing.**

Light body (spirit body) health science is emerging and is essentially underlined with an appreciation of one's own energy level and that the higher one raises one's energy level or soul condition, one transgresses the levels where illness may prevail.

Medical practitioners, particularly therapists, will be assisted with an understanding as to how to raise their own energy / soul condition and subsequently the energy of those they treat. Ensuring outcomes that are continually observed once the energy level of the modality as well of those of the therapists is above a specific and easily identifiable level.

In support of these structures and initiatives are many innovations which are not drug related that are available. These are to be part of the Pascas Care centre's platform. For instance, Dr Sherry Rogers has had reported success in treating allergies, depression and a host of seemingly impossible scenarios relating to pain, all without drugs. She continually trains medical therapists in her platforms.

Emotional clearing of childhood repression is the only guarantee to ensure that healing is total and permanent and will therefore be a key part of all treatment programs. This is dependant upon the person's dedication to this pathway.

A larger format of the Pascas Health clinic is a hospital configuration for acute care. A regional Pascas Health Sanctuary is a much larger centre with training and support modalities for the Pascas Care centres within its zone.

Pascas Five to Ten year Plan.

Pascas will develop rolling five year plans with emerging policies and objectives extending out to longer periods.

PASCAS WORLDCARE is to function as a financially sustainable entity. That is, assets are not to be depleted by the work undertaken, but managed so that the work can go on indefinitely. Some elements will be profitable and these will be within advanced economic communities, these fund flows will assist with work in the economically deprived communities that we elect to enter. Also the **PASCAS FOUNDATION** will be focused upon financial support for related humanitarian programs.

The board will prioritize projects. Such projects will be funded in a manner that the major portion of the funds can never be at risk. That is, the land, building, and plant will be separated from the intellectual property and all of these capital growth assets will be separated from the trading elements. Different

corporate entities within each specific project will hold different groups of assets. Thus, the only portion that can be at risk is the trading part of the business. This is basic asset management.

We have devised and structured two support management teams:

Centre for Advanced Technologies (CATs) is a team of management specialists who are to assist new technology development enterprises in bringing their innovations to market. There are many new technologies in our midst that have been investigated and warrant financial support. They all have application in emerging and commercially deprived communities.

Urban Rural Technopath (URTh) is a specialist management team to grow emerging communities, it is a team of nation builders. Team members will implement the technological innovations within emerging communities.

Thus we have top management and support management for those passionate people who want to realize any part of our global Agenda. From here we will go out into the world in a very organized and constructive way with full security for our resources and realize our visions.

To further summarise the **Pascas Care** centres' programs:

A Pascas Care clinic is generally configured to support any community, however, where required, it will focus its energies upon regional needs and issues. A standard Pascas Care clinic may employ around 60 folks to deliver a host of other health modalities and treatments:

Accessing and processing emotions is fundamental to addressing the cause of any illness.

Annual patient treatment programs per clinic = 7,000pa.

The initial program is to establish 4,000 such clinics in remote and emerging communities over the next five to ten years. When you calculate the numbers it is difficult to comprehend what is now possible. The ongoing phases will extent to all communities, worldwide.

These treatment programs need to be supported by nutrition management. Part of the clinic is a Pascas 'Café' to raise the local understanding of appropriate nutrition and support the community in raising the quality of its nutrition. Nutrition is just as important as the treatment programs.

Equinox Equities Group is a collage of unique technologies to introduce employment opportunities (through the Pascas Care centres). Some of the capabilities of these low cost opportunities are:

Treatment of waste water and effluent to deliver high quality potable water and energy to the village.

The energy source may enable access to communications – wireless hub can connect 20,000 sites – this enables the introduction of global interactive education via satellite, embracing innovative, interactive, teaching agendas and methodologies.

Technologies encapsulate education, water, food, housing, communications, agriculture, resources, etc.

Pascas Park is a park for humanity, to bring freedom to humanity through truth, promote peace for humanity, and provide joy. They are focused upon the removal of boundaries and the elimination of fear.

Major proposed PASCAS PARKS will accommodate up to five million visitors per annum. Over a ten year full operational period, that is possibly 500,000,000 visitors. It is observed that the consciousness / soul condition level of each visitor will rise by 60 points and subsequent return visits will add a further 20 points, averaged. Given that during one's lifetime, the average increase has been 5 points as per the Map of Consciousness, the Pascas Park's contribution is profoundly important.

The ripple effects flowing from those who attend PASCAS PARKS will be substantial, thus expanding the effectiveness numerically, globally, consciousness-wise. The positive effects will not be just the "Hey – guess what I did and found to be absolutely wonderful!!", but more importantly through one's improved consciousness / soul condition, a resultant improvement in temperament, gentleness, patience, morality and more. This will be observed by those who did not attend but know someone who did, such as family members, workmates and others around the attendees. They too will begin to mirror and demonstrate some of these higher qualities. Even if they do not choose to attend themselves or learn any more about the PARK, they can not help but being positively impacted.

Incorporated within each park will be several elements, each introducing various elements of spiritual information, having every day application to their lives, in an exciting and interactive way with audience participation and involvement.

In addition to the full size edu-tainment Pascas Park destinations, there will be smaller modules that introduce the concept of Pascas Park through regional venues.

Pascas is about love, Pascas is about raising one's soul condition, by living true to one's self!

Aspiring to Living Feelings First, *John.*

**PASCAS
HEALTH**

**Feeling
Healing with
Divine Love is
the key!**

TOGETHER WE CAN DO IT ALL!

Consider an underprivileged community anywhere in the world and visualize what we, as a collective group of focused organised people can do, acting in our aims and desires.

This may be a small exercise that supports the growth of few, and then again, why stop there, let us see what we can do with a national psyche that is yearning for attention and has antagonistic neighbours.

Recognising that there are only two emotions, love and fear, and that fear is of a result of the absence of love, then all that we share is love.

We must support the availability of basic human needs for all humanity in a way which is self sustainable, this is loving, namely:

- Clean air – this is the need for renewable energy supplies
- Potable water
- Nutritious food – without pesticides and weedicides
- Safe lodging

The access of hydrogen energy (as well as scalar energy) is being withheld as the fuel stations endeavour to make it the next generation of products through their petrol bowsers.

Later, scalar energy power units will provide electric power to drive everything. This technology may only be months away. The power supply is free and continuous.

So we go to one of these communities with a couple of these stand alone engines, and then we start pumping the water to where it is needed – no more walking to carry water.

Another engine is used to produce electricity. Lights and heating is now available, no more burning wood (getting clean air).

With these power sources, access to the internet, via satellite, becomes available for education. Now, from all the corners of the planet we can share with them educational programs that assist with all their local issues, health, crop management, communications, etc.

We have met hundreds of innovators with their many innovations that can and will benefit these communities. Most innovations cannot be commercialised because there has been no risk capital funding available. We can assist the innovators whilst at the same time introducing these innovations directly into these communities. These repressed communities can lead the world with new technologies and industries. We can take them to the top of the tree in one step. Amazing!

As we become known for supporting the commercialisation of innovations, inventors from around the world will find us. What will come will be continually amazing. Everything that is to be known is already known. We only have to recognise it.

Previously, the community was spending countless hours on mundane issues, they can now start to look to why they are here. We are here to grow our spirituality, our soul condition.

The lowest cost health management program ever is the raising of one's spirituality / energy level / soul condition. This is free and the benefits are permanent, that is, for eons.

Education is where it starts and where it finishes, without education nothing can be achieved.

With education that removes fear and reduces boundaries then we can dissolve armies (this might take a few extra days).

Chaldi Colleges were free to all and they proliferated thousands of years ago, so it is time for them to return.

Chaldi Colleges will offer education from pre-school through to adult education, covering literacy, numeracy, health through food, and programs that are short course that contribute to personal growth. Job creating opportunities through new technologies will be provided for adult development. Chaldi College is about raising the quality of life in all its aspects, all enlightenment leads to a raising of one's soul condition.

There is currently a massive development in light body (spirit body) health sciences (addressing childhood repression), these steps will dramatically change the methods of health care and lower costs. The life threatening diseases that prevail within repressed communities can be addressed.

The only structural benefit of 'global warming' is that the world's governments are realising that they must all work together. This is a first time in history. This will bring common platforms and uniformity in how to approach issues.

We are moving into a new era and you can be part of it.

Together, we can do it all!

Pascas envisions a world where everyone is a powerful and creative, compassionate and loving soul in a partnership with equals for the purpose of spiritual growth ... a world of individuals who are universal humans – beyond nation, culture, race, economics, and sex – and whose goals are harmony, cooperation, sharing, and a reverence for Life.

Each and every one of us is a beacon of light around the globe.

Pascas is us, all of us.

By living true to ourselves true to our feelings, we are living true to God. It's that simple.

The New Way: Learning how to live true to ourselves by living true to our feelings.

Golden Rule: that one must always honour another's will as one honours one's own.

PASCAS WORLDCARE
recognised Hierarchy of Needs,
structured upon Maslow's theory.

YOUR DREAMS MULTIPLIED EXPONENTIALLY:

Pascas is about sharing. It is in this sharing that the endeavours of all that Pascas touches will grow to not only realize your own dreams and desires but multiply them exponentially.

Accordingly, you are asked to share your dreams and desires with Pascas. Pascas, in return, will share your dreams with other like minded dreamers. In this way we can then create and implement an enormous agenda for the well being, prosperity and happiness of all of humanity. This agenda flourishes by your endeavours and the collective efforts of many like you. With the ability to collaborate resources, knowledge and experiences we can all embrace the incredible light, love and energy of each other, therefore arriving at our destination much sooner.

As the flagship of an ever changing armada, Pascas will use its own dreams, goals and addenda to attract the best and the brightest. It can then share these tools and resources with anyone who has a dream for the betterment of all. It is the belief of Pascas that a thousand small projects accomplished by a thousand small dreams can and will be what changes humanity. It is not a billion dollar government welfare program that changes people, it is the ten dollar loan to the basket weaver to buy raw materials that changes humanity or the bed nets in every home that ends a disease.

It is for Pascas to embrace and assist in any way possible. At times, Pascas may play only a supporting role, such as sharing experiences to assist in avoiding the pitfalls. In others, the agenda may become embraced within Pascas. Then there will be other times when Pascas will simply initiate introductions to others with the same dream to create collaborations. Mostly, Pascas is here to share and encourage the delivery of the seemingly impossible for humanity in all corners of the world.

Consider the image of ships travelling the oceans. All are going in different directions, coming and going from different places, flying different flags. Some crossing paths or stopping at the same port, sharing supplies and spreading information. The only things they have in common are a successful voyage and a captain's log with the logo of Pascas printed on the front.

Goals of Pascas WorldCare are lead by our desire to:

**Treat the cause of illness rather than the symptoms, this is the focus of Pascas Care.
People look for miracles to cure disease which is
ONLY the removal of the effect of the emotion.**

Further stated policy, Pascas Care – Kids of the World:

**The greatest gift for our children that we could possibly
provide is to enable for them to grow up without fear.**

Pascas Declarations:

Pascas is Love! Unselfish Love!

Together we unite all hearts through God's Truth and facilitate a new world of Love.

Each and every one of us is a beacon of light around the globe.

Pascas is us, all of us.

The New Way: Learning how to live true to ourselves by living true to our feelings.

Golden Rule: that one must always honour another's will as one honours one's own.

Release one's pain through expressing one's feelings.

in conjunction with

Longing for the Truth when also longing for Divine Love.

Childhood Suppression

The soul does it all. The soul is a duplex, two personalities being manifested into the physical by our soul.

Soul light continually flows from the soul through our spirit body levels and into our physical.

Return light being the experiences of our physical existence.

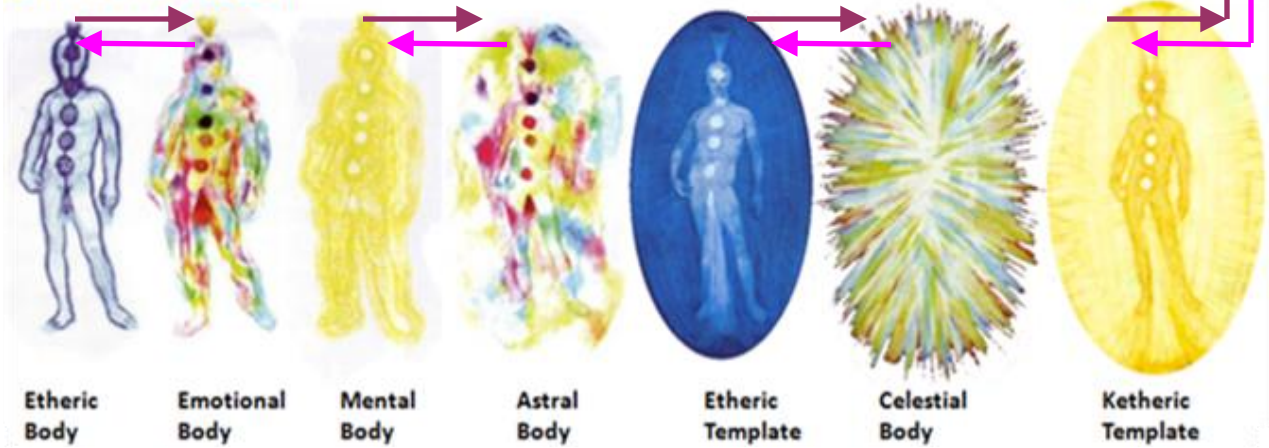

SOUL

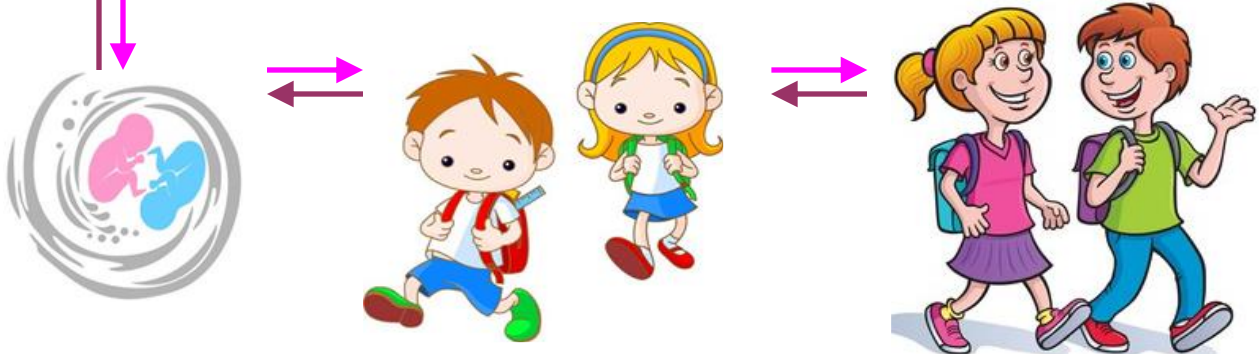

Childhood suppression imposed upon us by our parents and carers causes retarded light to return to our soul bringing about imbalance, reflecting emotional injuries and errors of belief. This imbalance is the cause of all our difficulties throughout our adult life and also all of our health issues.

SPIRIT BODY

Brennan Model of the 7 Levels of the Human Energy Field

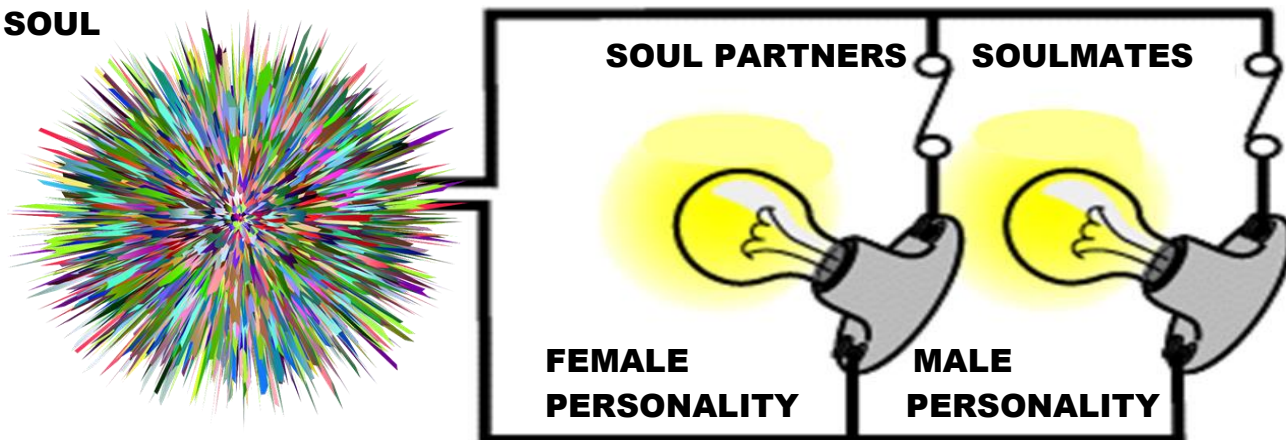

Every experience is recorded through the light returning through our spirit body and back to our soul. What emotional injuries we experience, commencing from conception, has to be expressed emotionally to heal the imbalance in soul light so that harmony and health can be achieved in our spirit and physical bodies. Childhood Suppression is the underlying cause of disease, illness, etc.

SOUL LIGHT emitted is to be BALANCED by the LIGHT RETURNED!
Two separate personalities on parallel 'circuits' having the same soul.
What impacts one personality does not impact the other personality.

SOUL

The elephant in the room is our Childhood Suppression, from conception through to age six years. This impedes the circulating flow of soul light thus bringing about imbalances throughout our spirit and physical bodies. This manifests as discomfort, pain, illness and disease throughout our lives. All 10,000 identified diseases are of the consequence of Childhood Suppression in its numerous formats.

We are to express our feelings, both good and bad, to a companion who is open to hear what is coming to surface for us. We are to long to know the truth behind those feelings. What enters us emotionally is to be expressed emotionally. This is our Feeling Healing. This is the one and only pathway to bring about healing and harmony throughout all of our bodies, including physical.

Feelings First with Mind to follow in support.

Light of Truth of PASCAS

Throughout the evolution of Pascas, Pascas has been gently guided and supported by its Council of Elders from within the Celestial Heavens. All documentation, all concepts, all who have interacted with the forming of Pascas WorldCare and the various arms, have been in response to the guidance from our Celestial Council of Elders – from within the 3rd Celestial Heaven. Throughout the coming millennium, our Celestial friends will be guiding and assisting Pascas WorldCare.

COUNCIL of ELDERS

Council of Elders now around 20 soul-groups from the 3rd Celestial Heaven

Communications between the Celestial Council of Elders and those within the physical administration of Pascas WorldCare will be via those who complete their Feeling Healing on Earth, as years go by.

Avonal PAIR Oversight

The administration of Pascas may be also supported in their interconnectivity with our Celestial guidance through those within Pascas and its administration who are sensitive in their nature and are able to perceive guidance from our Celestial companions on this journey of delivering the Great U-Turn. It is through the nature of sensitivity that Celestial Spirits have interacted with Pascas during decades of formative years and the establishment of the foundations for Pascas for the next 1,000 years.

LIGHT OF TRUTH

Pascas as an entity, due to the contributions from our Celestial friends, appears to be functioning within the 5th Divine Love spirit Mansion Worlds level. Further, the Pascas Papers that are designated as references for Feeling Healing and Divine Love are within the level of Truth of the highest of the Celestial Heavens. Pascas will be supported in this manner for the coming millennium.

The Only Prayer That Man Need Offer to our Heavenly Mother and Father:

Prayer for Divine Love

Long to God for Their Divine Love

Begin with the understanding that God, your Heavenly Mother and Heavenly Father, are offering you Their Divine Love. And all you have to do is want it, want Them to give it to you, to love you. So when you feel you want it, you long directly to Them for it, asking them through your feelings (with longing) to fill your heart and soul with Their Divine Love.

You can long for Their Divine Love, anywhere and at any time. It can be a formal prayer – longing, such as sitting in meditation or prayer, opening your heart to Them, and longing to Them for Their Divine Love. Or you can do it spontaneously on the go, when the desire to long to Them for Their Divine Love comes over you, or when you remember to do it.

Wanting God’s Divine Love in your soul is about wanting to develop a very personal relationship with your Heavenly Parents. Speak to God as your real Parents. Tell Them all you are thinking and feeling, as you would your earthly parents (provided you had a loving relationship enough with them to do that.) If you feel angry with God, hating Them, express all your negative unloving feelings to Them too. Don’t hold back, share and give all of yourself to Them, They want to get to know you, as you want to get to know Them. And keep longing for Their Divine Love.

We have to long, reach out wanting Their love through our feelings and with the full will of wanting it, which doesn’t involve any words, so with the mind staying out of it. It’s a yearning from your heart wanting to be loved by Them, so wanting Them to give you Their Divine Love – to love you, and to make you feel loved by Them. So it doesn’t involve words, it’s an inner yearning, longing, desire to partake of their Divine Love that is required by us. Then we can support this longing using our mind by saying actual words (praying). So say whatever words you want to say to Them, whilst you are longing with your heart for Their Divine Love.

Just be yourself, say whatever you want to Them, as you long for Their Divine Love. The more personal, open and honest you can be with Them the better your relationship with Them can develop.

And once you've longed, which can take only a moment, then give yourself time for Them to love you. You might feel the Holy Spirit coming about you, and then Their Divine Love coming into you, gently, very subtly, or strongly, even very strongly in a whoosh. It's different for each of us, and different often each time we long. And if you have previously longed to God in any way yet not specifically for Their Divine Love, when you do specifically ask Them for it, it will be a very familiar experience you'll have receiving it.

If you are sitting formally in meditation or prayer, once you've longed to Them for Their Divine Love, and you feel the Holy Spirit bringing it to you, you might find your head wants to move upwards as if looking into Heaven. Allow it too, but if it wants to keep going, don't stress yourself by hurting your neck, bring your head forward again. It's a lovely feeling sitting in the Light of the Divine Love, feeling it coming into your heart and soul. And you might find that you enjoy sitting for five minutes or half an hour, then suddenly the 'light goes off' and the prayer is over as you've received enough Divine Love for the time being.

Also, don't be surprised if at first you can feel the Love readily coming into you but as the years pass it seems to get less and less and you feel less inclined to long for it. This is naturally meaning you have received enough for the time being, you will need to do more of your Spiritual Healing before your soul is ready to receive more.

Summary:

Long with all your heart to your Heavenly Mother and Father for Their Divine Love.

CONSCIOUSNESS and EMOTIONS:

Consciousness = Soul Condition. One’s Soul Condition is equal to the average of all of the held emotions. Soul condition is the sum total of all of the different emotions, desires, passions, etc., all wrapped up together in terms of how much love there is in every one of those.

MAP OF CONSCIOUSNESS

	The beginning of the Nonlinear Realm 500
	The beginning of Integrity 200

Note: **The Map of Consciousness scale is from 1 to 1,000**
 The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.
 A calibration increase of 1 point is in fact a 10 fold increase in energy.
 A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.
 Thus the energy differentials are in fact enormous!

NATURAL LOVE or HUMANITY's ERRONEOUS EMOTIONS:

Your soul, being your real you, is an emotional being. Your soul, though a thought of God, does not possess anything of the divine within it. It existed in a state of bliss, in a natural love state, pending individualisation which is achieved at conception which is the time of incarnation. Your soul is endowed with natural love emotions noted within the top section of the Map of Consciousness scale, being those emotions calibrating above 200.

MAP OF CONSCIOUSNESS					
God-view	Life-view	Level	Log	Emotion	Process
Self	Is	Enlightenment	700 1000	Ineffable	Pure Consciousness
All-Being	Perfect	Peace	↑ 600	Bliss	Illumination

Enabling	Satisfactory	Neutrality	↑ 250	Trust	Release
Permitting	Feasible	Courage	↑ 200	Affirmation	Empowerment

Humanity's erroneous emotions are those calibrating below 200 on the Map of Consciousness. The environment around a newly conceived child progressively degrades the condition of that child's soul. When the child reaches about the age of 7, the child's soul condition will reflect the parent's condition. These negative emotions are like a crust around the pure soul it has within.

GEMS for ALL PEOPLE of all AGES to EMBRACE:

The GOLDEN AGE!

Cause No Harm < to OTHERS
to MYSELF

Strive to love others as I am to love myself

At any time, any where, and in any way you so please:

Approach our Heavenly Parents, in reverence, without fear or trepidation, just as we, as a child, approach our earthly parents knowing that open loving arms are extended to receive us at all times. As one’s love grows for our Mother and Father in the Heavens, we come to know with absolute clarity and certainty that our Heavenly Parents, loves you and me and everyone in return, at all times, and that fear is an illusion created by man’s mind.

God, who is our Heavenly Mother and Father, is almighty, all powerful, infinite, and all loving. The love of the Heavenly Parents for Their children, man, has been and is always infinite and ever present. As one’s faith evolves, one’s love for our Heavenly Parents will have no limit. As we grow in Their love, so will we grow in love for all of God’s creations and our fellow man.

The Source Soul, our Heavenly Parents, simply desires for us to ask for Their Love.

God's Divine Love: Pray for it, ask for it, and receive it.

“I love you Father.” “Let the Divine Love flow its energy into my soul.”

“Mother Father, I desire your Love and I am loving you.”

“Soul God, I love you and I love receiving and experiencing your Divine Love.”

“True Soul God, I am here, I am aware of your Love. Please hear my aspiration for your Love and as I approach you from my soul, I can feel your Love in the way that you are loving my soul.”

“Please Father and Mother, may I receive Your LOVE.”

Maybe we could simply long for and ask:

Please, Father, I want some more of your Love!

WE ALL ARE BEING GUIDED HOME:

We need the Spirits of Truth of the Avonal Pair to Heal ourselves; then once Healed, (and for support (overshadowing) as well through your Healing), we need the Creator Pair, Mary Magdalene and Jesus' Spirits of Truth to see us through the Celestial spheres, while at all times embracing our Heavenly Mother and Father.

Until Mary and Jesus died and liberated their Spirits of Truth, no one from any of the worlds could leave Nebadon, because no one knew the way to do so. Nebadon is our local universe containing some 3.8 million inhabited physical worlds and their associated spirit worlds.

When we embrace the truths Mary and Jesus are revealing, and start to do our Feeling Healing, or with Divine Love, Soul Healing, we are then freeing ourselves up from our parental and self control.

Thus our journey to Paradise, to the home of our Heavenly Parents, is of our choosing as to when we progress, however, there is only one way:

HUM: Humanity is to ascend. We are self contained. Our soul is always in truth and perfect at all times. **By living true to ourself, true to our feelings, we are living true to God. It's that simple.**

We are to recognise that being engaged and dominated by our mind is the wrong way for us to evolve and grow in truth. We are to discard the mind enslavement that has been imposed upon as by all of our parents. We are to express our feelings, both good and bad and free ourselves of the indoctrination that humanity has embraced worldwide.

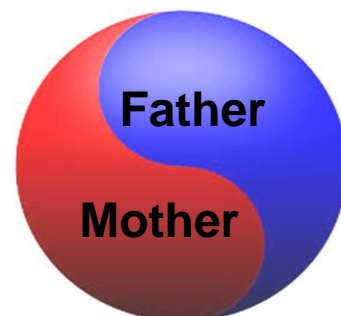

Live true to your feelings, and you ARE living true, not only to your own soul, but also true to God's soul. So doing your Healing by honouring all your feelings, IS living the will of God. And being fully Healed, IS living even more truly the Will of our Mother and Father.

AVO: We are to embrace the truths and guidance of the Avonal Pair through their Spirits of Truth. It is the Avonal Pair's guidance that will lead us through our Feeling Healing, and with Divine Love, we will be able to ascend through the 7 spirit Mansion Worlds and enter the Celestial Heavens where we also interact with other world's spirits.

J&M: We are also to embrace the truths and guidance of the Paradise Pair, Mary and Jesus, who will then lead us through the 3 Celestial Heavens that are aligned with Earth, and then further on through Nebadon where we will then depart beyond on towards Paradise.

M&F: Beyond the universal zone of Nebadon, we will be guided by our Heavenly Mother and Father onwards through the universes to Paradise where we will be welcomed by them, home for us all, as we are all Children of God.

GOD

M&F

J&M

AVO

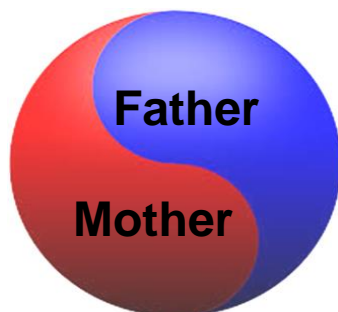

HUM

WE ARE Children of God

WE ALL ARE BEING GUIDED HOME – NOW, HOW TO COMMENCE THE JOURNEY:

GOD

M&F

For 200,000 years, we have been misled into embracing our mind's distortion of wisdom and truth. All such traditional understandings only lead us in the wrong direction, from which we must turn back from. Our soul based feelings are always in truth. Our minds are to follow our soul based truths and feelings, not the other way round, as we have been brought up to embrace.

We are to connect with our deeper repressed feelings.
We are to long for the truth of what we are feeling.
We are to live true to our selves; by living true to our feelings.

Use your surface day-to-day feelings to connect with your deeper repressed feelings. Express your surface feelings and your deeper repressed feelings to uncover the truth of yourself.

J&M

We all have feelings which we communicate and share with each other. And we all have deeper buried and hidden repressed feelings. Feelings from our early childhood we felt, yet weren't allowed to express. These feelings are still within us, waiting to have their say. These feelings, because they are repressed, cause us all our problems.

And as we look to uncover, bring out and accept these deeper feelings, so we're taken into new ways of looking at ourselves, our feelings, and our life. We're setting ourselves free of the controlling patterns that govern our unloving behaviour.

In this way, we progressively begin to express the personality that our Heavenly Mother and Father gave us, not the one imposed upon us by our physical parents and carers. We are to be our true and real selves.

By living true to ourself, true to our feelings, we are living true to God. It's that simple.

AVO

HUM

As we, humanity, long for the truth of our feelings, we can also be assisted by the Spirits of Truth of the Avonal Pair who are our spiritual teachers for Earth over this coming 1,000 years, to assist us through the Great U-Turn, away from mind dominance to being soul based feeling lead. They will assist us through the seven levels of the spirit Mansion Worlds.

Then the Creator Pair, Jesus and Mary, will lead us through Neadon and into the greater universe. Then our Heavenly Mother and Father lead us home to Paradise.

Collectively, should we embrace them all, as we are to, then our pathway home is a journey in the hands of the Spirits of Truth of the Avonal and Paradise Pairs overseen by our Heavenly Parents.

WE ARE Children of God

HOW TO GET TO PARADISE:

Long for the Divine Love

Long for the Truth

Long for the truth of your feelings

Don't deny any feelings: accept, express and want to know the truth of them

Know your feelings are the key; your feelings are the Way

Want to end your falseness and being untrue

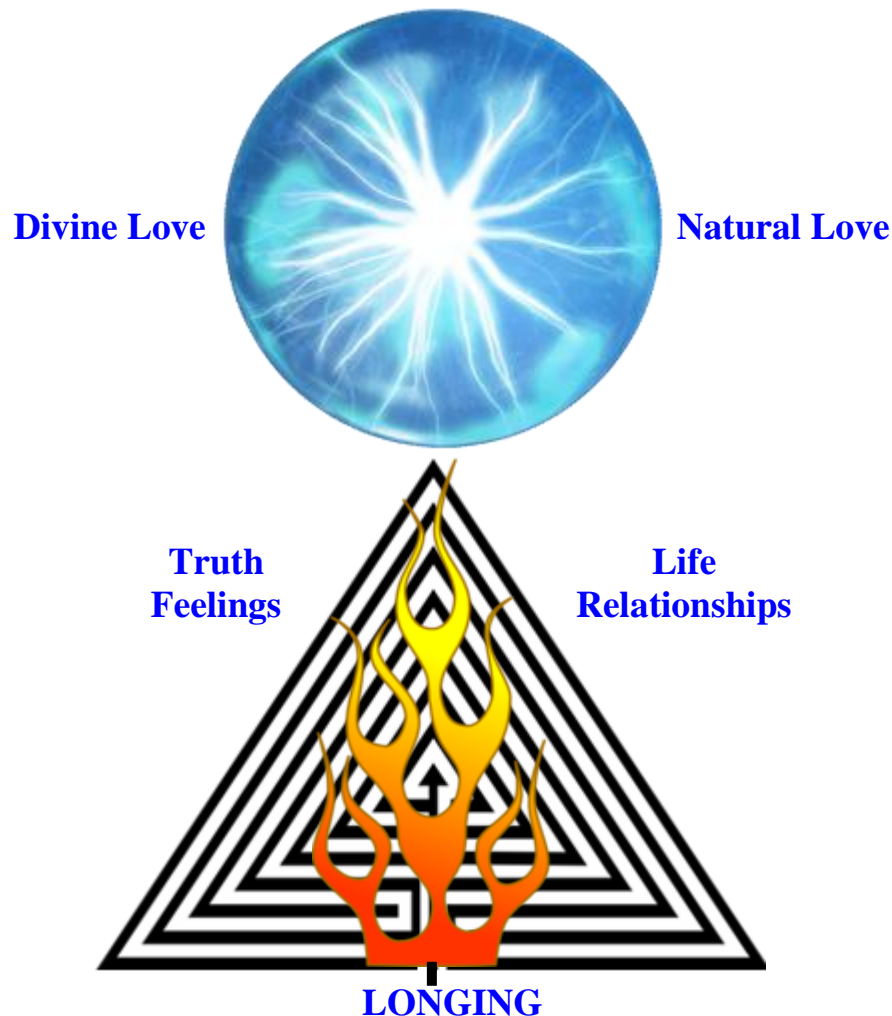

Want to understand the truth of your early life

Use your surface feelings to move deeper into yourself, bringing up your repressed feelings

Want and long to know the whole truth of yourself

Want to do it all with God, your Heavenly Mother and Father – long to Them for help.

The Key

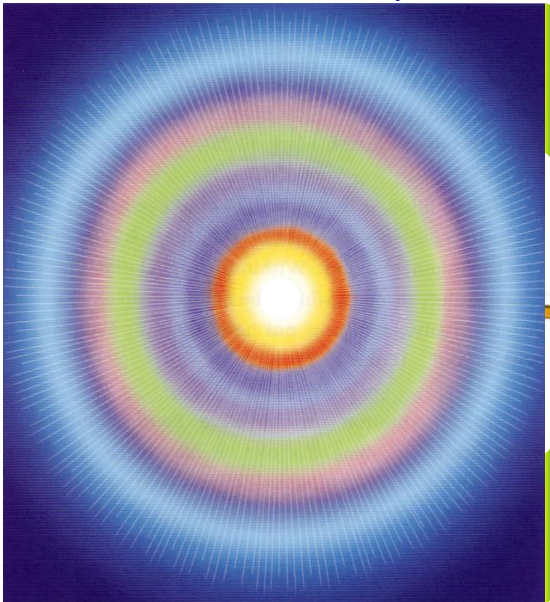

Our longing drives our life. We long with feelings. We can wish for things using our mind, yet long for things with our heart. These things in the pyramid are what to long for. Longing for them, when the longing comes naturally. Longing because you feel you really want them. Long to be true with all your heart. Long to live true to your feelings. Long to understand the whole truth of yourself.

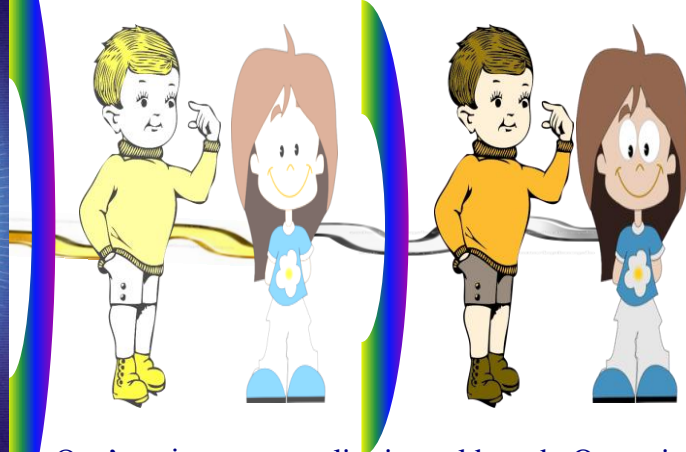

DIMENSIONS of ONE'S EXISTENCE:

Our SOUL IS NOT ENSOULLED IN OUR SPIRIT BODY. Our soul exists existentially in a whole different level or plane or place or dimension of being – 'soul land'. It doesn't exist in Creation, it's not experiential like Creation is. The soul, all souls, help create their part of Creation by expressing their personalities into Creation, and then by having their personalities do things (further create) in Creation.

SOUL exists existentially

Our Physical Body and our Spirit Body are of Creation, being linked together by cords of light as are the two spirit bodies, male and female, to the one Soul.

One's unique personality is soul based. Our unique soul expresses its unique personality through the two spirit bodies and physical bodies expressing both the male and female aspects.

PERSONALITY

**Our soul is the centre of our personality.
We are children of our Heavenly Parents.
Our soul manifests a male and
female personality - it is a duplex!**

Cause No Harm < to OTHERS
to MYSELF

Strive to love others as I am to love myself

To liberate one's real self, one's will, driven by one's soul, moves one to embrace Feeling Healing so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.

Divine Love
is the key!

**God's Divine Love:
Pray for it, ask for it, and receive it.**

Feeling Healing with
Divine Love is the key

to enter the
Celestial Heavens:

The real you is your soul.

SOUL  SPIRIT BODY  PHYSICAL BODY

Prayer: is emotional exchange with God.
