UNIVERSALLY FREE EDUCATION:

Dear Peter, Peter and John,

4 June 2021

LOOKING TO DEVELOP EDUCATION WANTS LIST

Can we all prepare an Education WANTS List over the next TWO (2) weeks please?

Education, in my view, is the Foundation for the present and future growth of mankind.

Tentative WANTS List to be expanded:

1. What benefit is delivered by providing FREE ACCESS to Education for ALL,
2. University and TAFE education to work hand in hand with industry to delivery skilled workers,
3. Provision of Breakfast and Lunch for ALL from kindergarten through to University / TAFE – we could buy in bulk from Sanitarium, milk cooperatives, orchards, quality sustainable foods, etc.,
4. Provision of school uniforms and books for ALL,
5. Early learning,
6. Lap-Top computers + Wi-Fi,
7. Apprenticeship and trainee-ship programs to work hand in hand with industry – we need a commitment from industry to take on additional apprentices and trainees which we could provide financial support along with Government(s); local, state and federal;
8. Medical industry – Tourism Industry – Religious Faculties – Agriculture – Defence Department and Defence Industry; we do not let any off the hook;

Do not look at the cost, we look at how **we deliver the SUPPORT in CASH and/or In-Kind.**

Feel free to discuss with your colleagues in development of the WANTS LIST, we could also call the List the WISH LIST – Dreams for the Community and for Humanity.

You ALL have the network and ability to develop the WANTS LIST and with release of Funds we put a Team together with a Budget to develop the FREE EDUCATION PROGRAM FOR ALL as a Model for the World. Note: we have Funds in each Country to support each Country.

Should you have any questions and/or you have People you believe would be suitable to be placed into the Development Team please do not hesitate.

NOTE: We do not want the broadcast to the Community what we are planning, we need to develop the Policy and keep our powder dry and then hit the Government; Local, State and Federal along with Industry.

Yours faithfully,
ECO SDG Australia Pty. Ltd.

Jeffrey W. Elliott
Regulator
Director of Strategic Development

Firstly, let us consider what education has achieved for humanity:

Engaging kinesiology muscle testing with Dr David R Hawkins' Map of Consciousness, as per his book "Power vs Force", research reveals this of Earth's humanity:

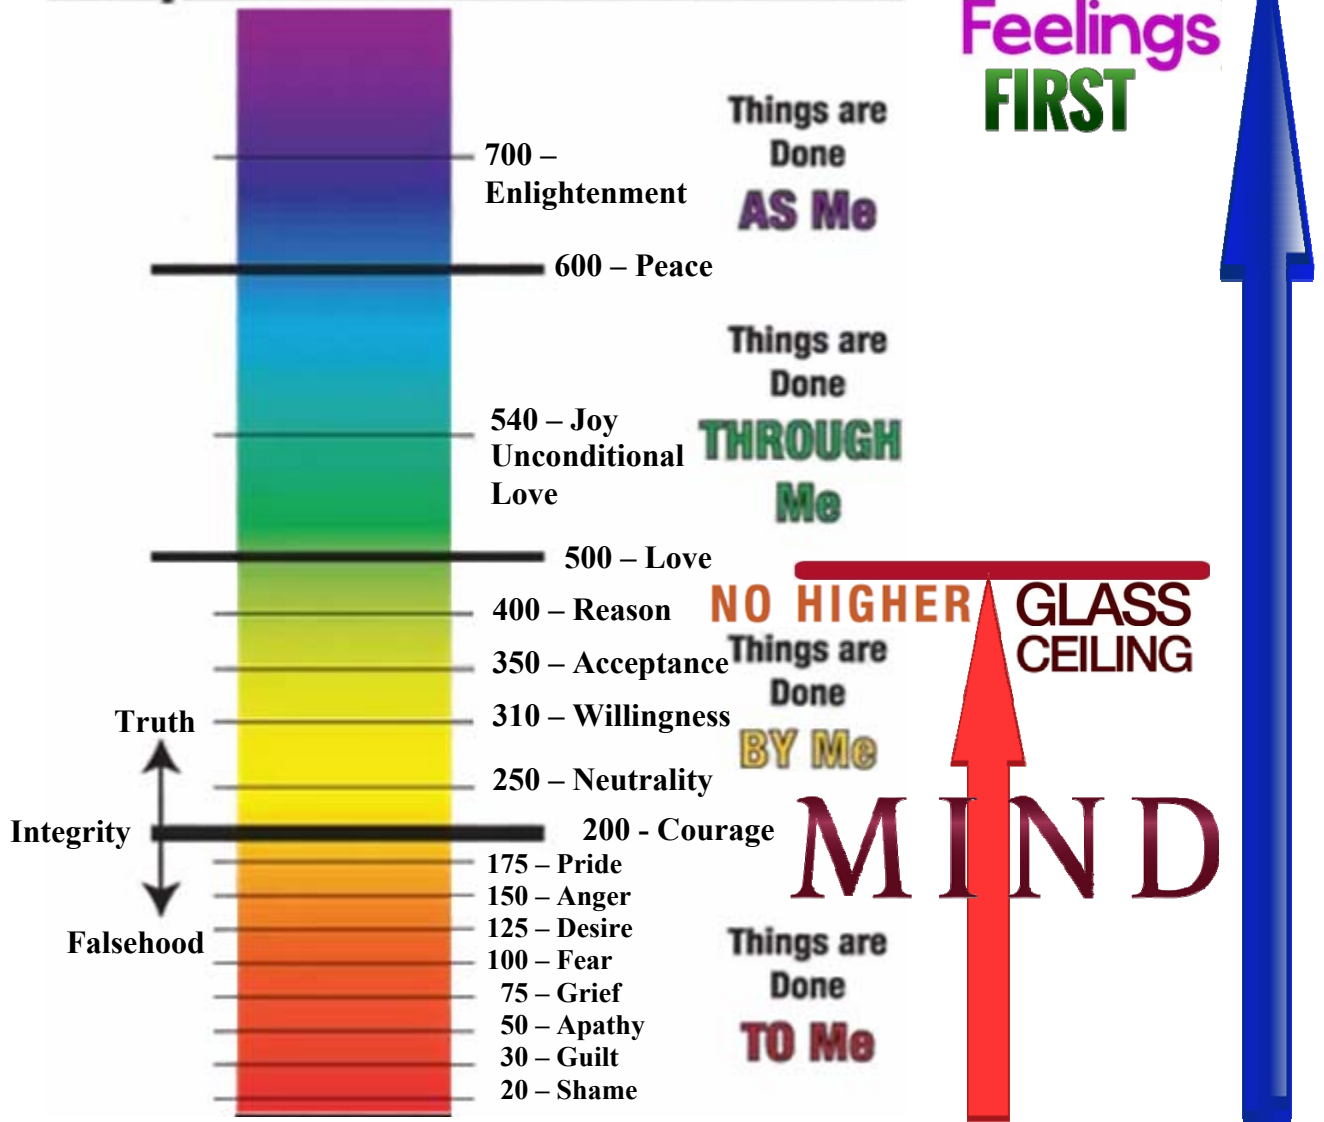

Correlation of Levels of Consciousness – Soul Condition – and Society Problems				
Level of Consciousness	Rate of Unemployment	Rate of Poverty	Happiness Rate "Life is OK"	Rate of Criminality
600 +	0%	0.0%	100%	0.0%
500 - 600	0%	0.0%	98%	0.5%
400 - 500	2%	0.5%	79%	2.0%
300 - 400	7%	1.0%	70%	5.0%
200 - 300	8%	1.5%	60%	9.0%
100 - 200	50%	22.0%	15%	50.0%
50 - 100	75%	40.0%	2%	91.0%
< 50	95%	65.0%	0%	98.0%

MoC	No. of Countries	Average MoC	Average Life Expectancy	Human Development Index	Happiness Index	Education Index	Per Capita Income 2020
400s	10	406	78.50	0.939	6.8	.861	US\$54,010
300s	13	331	71.77	0.798	5.9	.684	US\$17,827
200s	10	232	69.45	0.759	5.8	.648	US\$16,972
High 100s	18	176	69.00	0.724	5.2	.639	US\$9,900
Low 100s	7	129	61.88	0.653	4.7	.567	US\$2,628
Below 100	11	66	52.73	0.564	4.2	.488	US\$2,658
WORLD		220	70				US\$10,900

Consciousness Calibrations Worldwide	
Level of Consciousness	Percentage of population
600 +	1 in millions
540 +	0.4%
500 +	4%
400 +	8%
200 +	22%
200 -	78%
World wide average	220

Map of Consciousness

The Learning Pyramid

Trying to learn using this often presents many 'barriers'

Effective Learning requires a great deal of this

100% retention is **Natural Self Expression**

Spiritual Healing:

Our childhood *is* us; we *are* our childhood.
 We are to uncover the truth of our childhood.
 We are to uncover the truth of our childhood through our feelings.
 By longing for the truth of them.

While we are dominated by our minds we:

Cannot discern truth from falsehood.
 We are addicted to untruth – yes, our minds are untruth addicts.
 We are addicted to control over others and our environment.

Ten ducks in a row, but one always misleading!

Suppression & Repression = *Universal Depression*

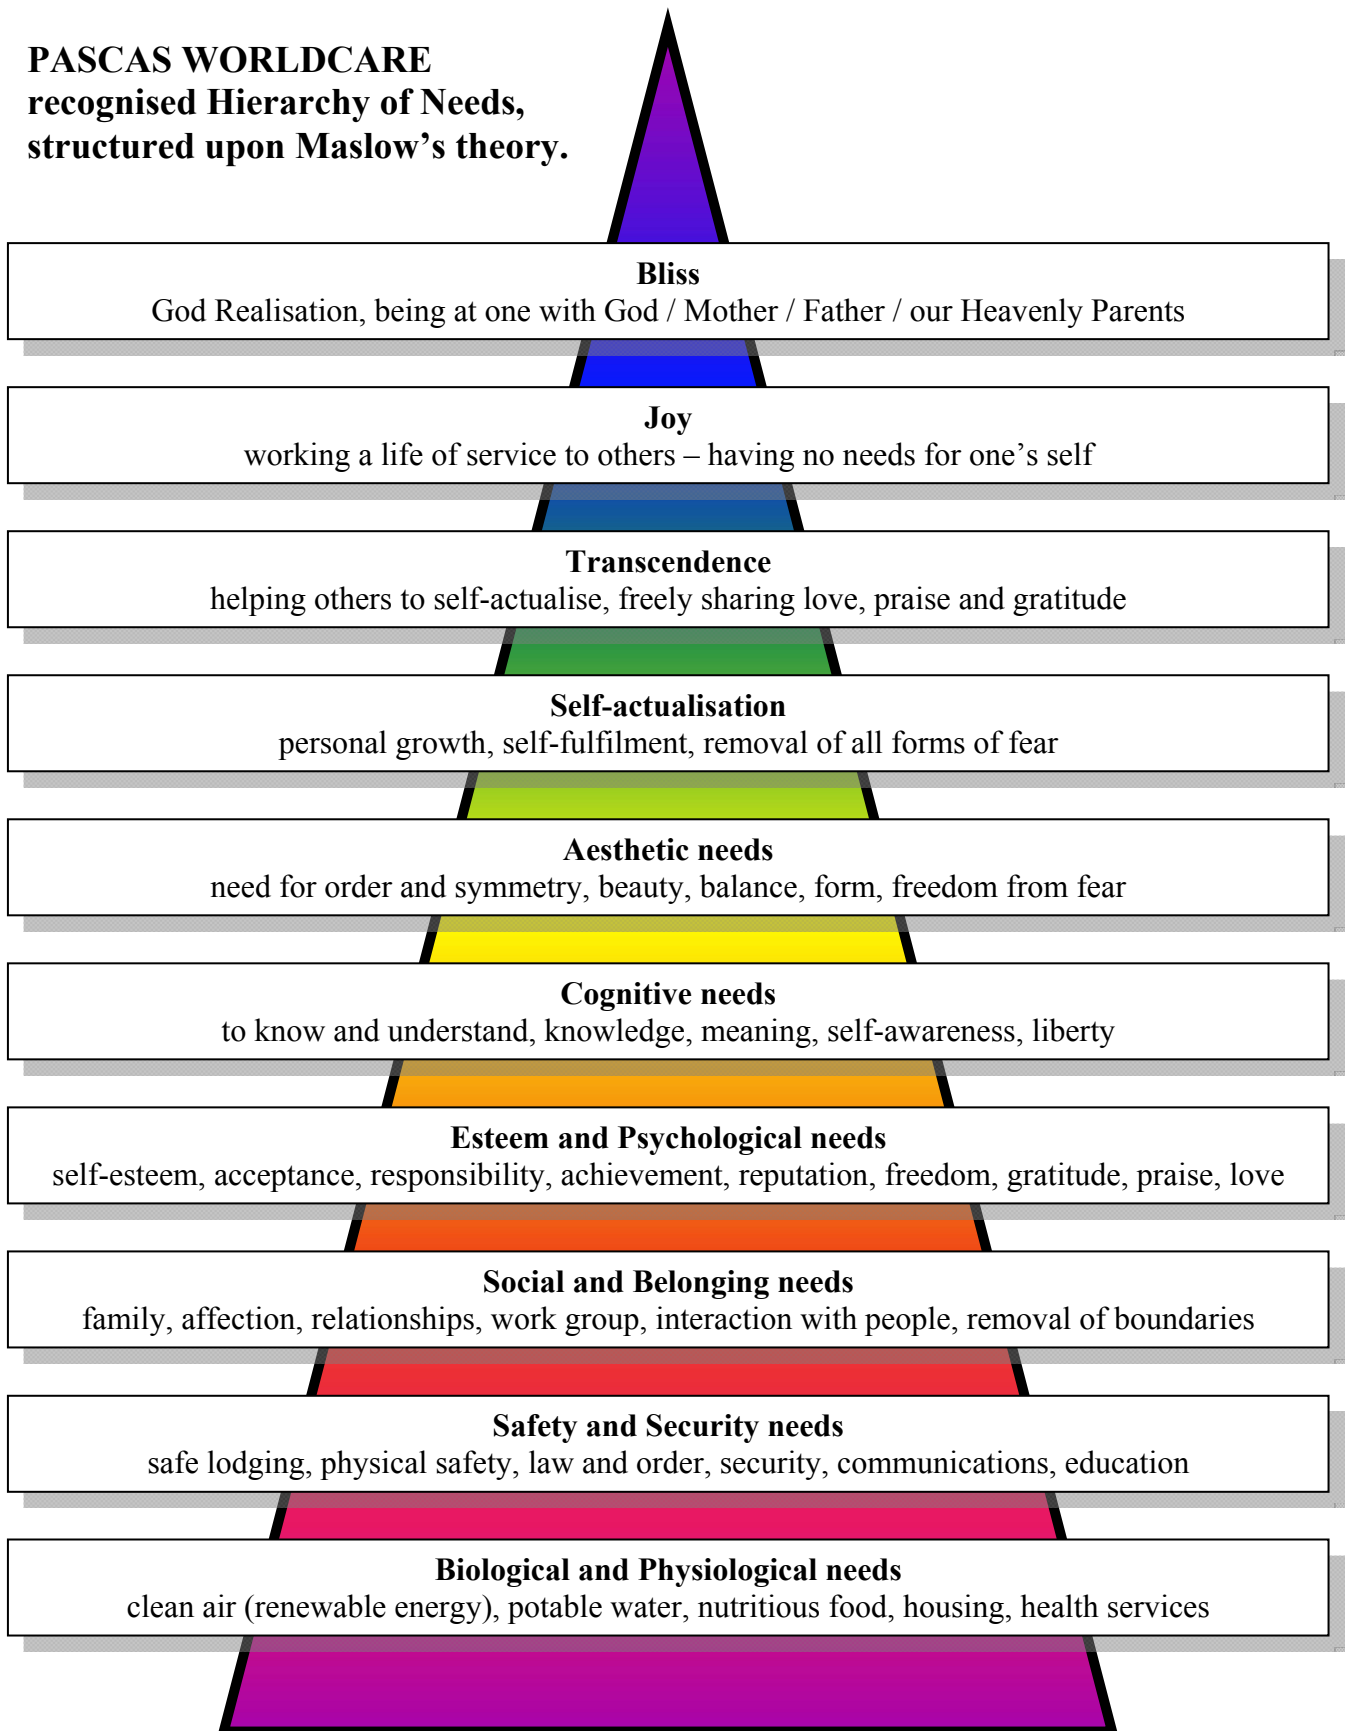

THIS IS HUMANITY stupidified!

Getting the Hell out of here!!

PASCAS WORLDCARE
recognised Hierarchy of Needs,
structured upon Maslow's theory.

Consider asking yourself this question: Who hurt me when I was a child?

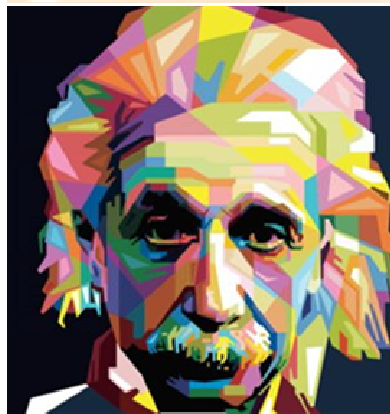

Getting the hell out of here is the question.

What has unfolded and continues to unfold has confounded everyone and the answers in how to address the plight of humanity has not been recognised by anyone – until now!

Earth's humanity, unknowingly to themselves, has been subjected to erroneous persuasion to live through its mind. This persuasion has been imposed upon Earth's humanity through the directives of higher level spirit personalities from within our local universe. Consequently, the pathway out of being mind centric could not be understood until spirit personalities of a higher ranking and level show the way which they now have done.

The way forward has now been revealed and it is now documented and demonstrated in a manner that confusion is not to unfold. We are to live feelings first and have our minds to follow, to implement what our feelings are guiding us to embrace. Further, we are to long for the truth that relates to the feelings that arise, both good and bad.

NO PROBLEM CAN BE SOLVED
FROM THE SAME LEVEL OF
CONSCIOUSNESS THAT CREATED
IT.
- ALBERT EINSTEIN

“The definition of insanity is doing the same thing over and over again—but expecting different results.”

- Albert Einstein

The definition of insanity is doing the same thing over and over again – but expecting different result.

Should we continue with our education system as it is, any and every one of the education systems found around the world, then we will be “insane”. We will be continuing with the mind centric platforms that were imposed upon humanity by the rebellious high level spirits and expecting different results.

What is required is the re-orientation of what has been imposed upon us. We are to embrace a Great U-Turn.

It is the case of ten ducks in a row with one always having been misleading. Now we can put aside the misleading duck and progress beyond, way beyond the hurdle of mind domination, and embrace prosperity and the vibrancy that we are meant to display through our true personality, the one that is bestowed upon us by our Heavenly Parents and not the one imposed upon us by our physical parents.

Our FEELINGS are our SUPREME GUIDES:

Feelings!

Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

Using our feelings to uncover the whole truth of our negative or anti truth and anti love state.

Kevin, 1st Celestial Heaven: **So whilst we're of an untrue state, then all we have got to help us understand why we feel bad, why we are wrong, why we are negative and anti love and truth, is our feelings. So if we focus on our bad feelings, they will lead us to the truth of why we're feeling bad. Which will be the truth of what happened to us to make us be this wrong way, and how we took on the wrong way and keep it going making us feel bad.**

FEELING HEALING

Note: The vital difference between emotion and feeling is that emotions have their roots in the past, and feelings relate to the present moment. Emotions represent our feelings which were not previously expressed, and these accumulate with time.

Note: **Our feelings are soul-based. Our soul is always in truth. It is our soul based feelings, that when allowed to be freely recognised, we will begin to express and be who we are. This takes time and perseverance as we have encrusted our souls with layers upon layers of errors and false beliefs, it is these layers that will confuse the truth that our soul is conveying to us. Only by our progression with our Feeling Healing will our soul's expression of truth become clear and free of all cloudiness and contamination.**

“What our soul needs in accordance with our own, individual, **Soul-Light-Plan-Of-Destiny** (your life's true destiny plan). They, being our Mother and Father, will give you as required. The only way we can know truly what we need is to honour and follow our true feelings. They, springing from our soul, literally telling us what we need, and so when we genuinely feel we need something, we apply our will to get it. The hard part is knowing if our feelings are true, and until we have done our whole soul-healing, they won't be clear and totally true.” James – Introduction Course to Divine Love Spirituality

By living true to ourselves, true to our feelings, we are living true to God. It's that simple.

For 200,000 years, our control addicted minds have held our personalities hostage, at gun point! Our mind cannot discern truth, yet all of our guidance and education is dictating to us that through our mind we can achieve wonders. Well, look around! Wars, disease and gross misery prevail and that is after 200,000 years of boloney!

We have been given a crack in the armour of the mind. Our heartfelt feelings are our soul based truths. Our connection with our Heavenly Mother and Father is through our heartfelt feelings. Our way home is by our feelings, so let us all begin the journey.

POTENTIAL to BENEFIT your CHILD through our own FEELING HEALING:
This steps down each seven years as the child matures

From conception to age 6 or 7

From 8 to age 14

From 15 to age 21

From 22 to age 28

As we heal, we directly heal our children similarly.

The Indwelling Spirit arrival for the child around age 6 or 7 starts their independence.

We currently parent negatively influencing our children on seven whole worlds worth of truth. Which means our children, as do you, has seven whole worlds of truth it's denying in life, all of which cause untold numbers of problems. And consequently, should we wish to do our Healing, so it will take us the Healing of all seven worlds, as represented by the seven spirit Mansion Worlds, to complete it. The Rebellion and Default has evolved to include all seven spirit Mansion Worlds in rebellion by default. We have taken the Rebellion on by Default through all these levels and have to heal them all through our Healing. And once Healed, we are free of our parental influences, free of our parents, free of our wrongness, free of the Rebellion and Default, true and perfect to the Celestial level of truth.

Opening ourselves up to living Feelings First further requires us to long for the truth of our feelings.

Without looking to our feelings and wanting to uncover the WHOLE truth of them, we can't heal our errors of belief and injuries. It's as simple as that despite what anyone does with their emotions and feelings. And many people in their endeavours to heal themselves have done some real Healing, if they at any time looked to their feelings for their truth, and this truth would have been forthcoming. So humanity has gained a little truth over the years. However, because of the feeling-denying forces of the Rebellion and Default that have been in play for some 200,000 years, the level of truth has remained very low.

The New Way, living Feelings First – Feeling Healing – which is now being revealed, will have many people wanting to follow it, looking to their own feelings for their own true power and freedom. As a

consequence, they will no longer want to be dictated to by bogus religions or politician's corrupt social and educational systems or deep state hidden controllers or mind spirits or anyone else.

Once humanity collectively understands what has happened to them on the higher spiritual level, how the people have been controlled, and that it's over, that control is no longer controlling, it's just legacies of it, all of which the average person can deal with by destroying it in themselves, things will change markedly for the better. And as the people change, so too will how they want to live, it will be a great time of revolution, nothing will be the same. So what you are currently living through is the end of the Rebellion and Default, it literally is, and so once the end is fulfilled and the New starts, then all how it currently is and has been will cease to be.

Nanna Beth 3rd Celestial Heaven, 20 March 2018

Nothing that ails humanity can be solved or healed until we embrace our feelings!

Some of the best educated, are often the most indoctrinated. This is because their pride and academic ego, won't let them look outside the box and question whether what they were taught, could actually be wrong.

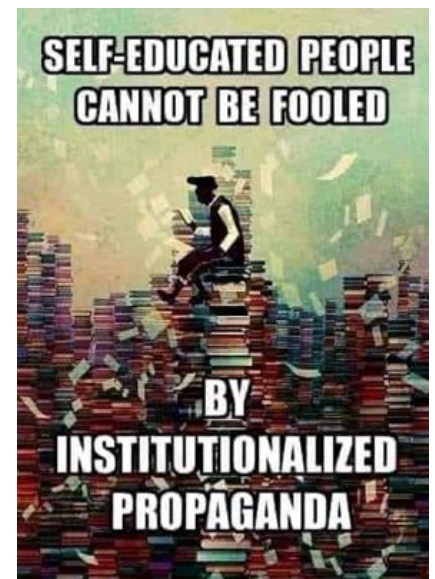

Their cognitive dissonance kicks in and the shutters come down, no matter what evidence you present them.

Institutionalised propaganda prevails throughout EVERY institution worldwide that has been established during the Rebellion and Default up until the formal ending being on 31 January 2018. No institution on the planet is without the contamination and errors imposed throughout Lucifers Rebellion and subsequent Adamic Default.

Our minds cannot determine truth from falsehood. Our minds are addicted to untruth. Only our feelings, our soul based feelings are in truth. Our feelings are our truth and they are all we need to embrace.

Many have looked outside the dictates of the invisible controllers, being those who were vested with the authority and capability to lead us to expressing our true personality and potential, however, until someone of higher consciousness shows us the way, then all fall short and the outcome is more of the same. We continue to repeat the errors of our parents, and there parents and back through the generations.

Consequently, ALL of humanity is mind centric. ALL of humanity cannot heal itself of its Rebellion and Default until someone of a higher consciousness than those that brought about the Rebellion and Default demonstrates the way. So, presently we as parents impose upon each of our children our own Rebellion and Default and this is infused into each child commencing at the moment of their conception and ongoing throughout their gestation period, then throughout their early forming years until the age of six years when their Indwelling Spirit arrives.

We, as parents through our personal Rebellion and Default infuse errors that are energy issues that manifest in the embryo and bring about deformities and childhood illnesses. We as parents impose upon our children all the structures and issues that emerge throughout the child's adult life as illness and social ills that are represented by all the countless issues that need to be addressed by all the social services and health care institutions of the world.

Most devastating is the error of suppression of the child's true personality. Upon becoming aware that a child is forming in the womb we begin to plan the child's future and life (mostly unconsciously). This continues progressively more in earnest through to birth and then as the child becomes a toddler then it is literally open aggressive suppression. Researchers observe that the child is told, on average, 20,000 times a year NO, don't do that, stop, etc. Observe any group of mothers with their children. While the mothers sit together drinking their coffee, you may witness a continual barrage of controlling directives reigning upon the children.

Say it again mum - louder!

Hey kids - let me show you!

Childhood suppression progresses into repression by the child of its true personality in capitulation to the erroneous guidance of its parents because the parents believe they know what is best for the child, they believe that the personality it is bringing about for the child is better than what the child's true Parents bestowed upon it. Parents believe they know better than our Heavenly Mother and Father, our true Parents! How arrogant can we be? Yes, I have three daughters and I have stuffed up badly.

Thus we all have been induced to live mind centric. We have been guided, coerced and directed to put our minds onto a pedestal in the belief that we can become all powerful and reach heights and capabilities that are the goals and aspirations of all. We ignore our feelings, our truth is to be found in our feelings. We do all that we can to ignore our feelings, our guidance and protection is to be found through our feelings. We suppress our feelings progressively more and more as we mature to the detriment of our relationships with those close to us – we do not present our feelings for others.

By living mind centric we restrict our potential to that which we see around us. We have all imprisoned ourselves into the control addiction of mind imprisonment. We cannot escape from our mind's control and restrictions until we embrace our feelings and live in the way that our feelings prompt us to consider. Our minds are to help us implement what our feelings are leading us to consider, not the other way around as it is now for everyone, worldwide.

There is now a well defined pinnacle that we can evolve to through living mind centric. On Dr David R Hawkins' "Map of Consciousness" scale, it is 499. The MoC scale is based on the common log of 10 and is a scale from 0 to 1,000. A 1 point jump is a 10 fold increase in energy – and truth. Reason peaks at 499 on this MoC scale, that is the limit for Reason. The world's most renowned scientists calibrate at

499. While you are imprisoned within your mind as the centre of your belief that the mind is the pathway to all possibilities you cannot grow beyond 499.

When we pass into the spirit worlds, upon the death of our physical body, we all arrive on the 1st spirit Mansion World. The peak calibration of its residents is 499. Many later progress into the 2nd mind Mansion World, however that is only because they have marginally progressed. Mind centric development can take you to the 2nd, 4th and 6th mind Mansion Worlds where you eventually realise that you have gone the wrong way and need to backtrack to the 1st and then enter the healing worlds then progress 3, 5 and 7. It is upon completion of our healing of what we personally take on of the Rebellion and Default that we then transition into the 1st of the Celestial Heaven spheres. Our minds have drawn us all into the lowest condition of 7 spirit worlds that we now all have to heal ourselves of. All seven spirit worlds plus physical Earth are quarantined from all other humanities, we are in isolation and will remain in these hells until we heal ourselves of our personal Rebellion and Default and transition into the Celestial Heavens.

That is what our minds have done for us – or we have done for ourselves through our minds!

This crime against humanity is embedded throughout all of our institutionalised systems. Any system that has been established on Earth throughout the term of the Rebellion and Default is perpetrating this crime against us. That is any system created before the 31 January 2018 before the formal ending of the Rebellion and Default is extolling the directives of the fallen Lanonandek spirits who brought this error about.

Our parents impose their mind centric way of living upon their children. We, as parents, do not allow the child to freely express itself. We then impose upon the child a way of life that is false to them. We impose a life structured upon what we believe is ‘best’ for them. The child pretends to be what we want them to be only to appease us and to lesson their personal pain of suppression. There is not a person on the planet that is not suffering some level of depression.

REBELLION and DEFAULT formally ended 31 January 2018:

All in keeping with the **outworking of the Rebellion and Default**. Humanity is so shut off to anything that one’s feelings provide, we are all but minds robotically carrying out instructions; nothing is fluid, intuitive nor feeling-free. Our whole world can’t change as it is, because everyone and everything is so bogged down in the mire of artificial laws and procedures.

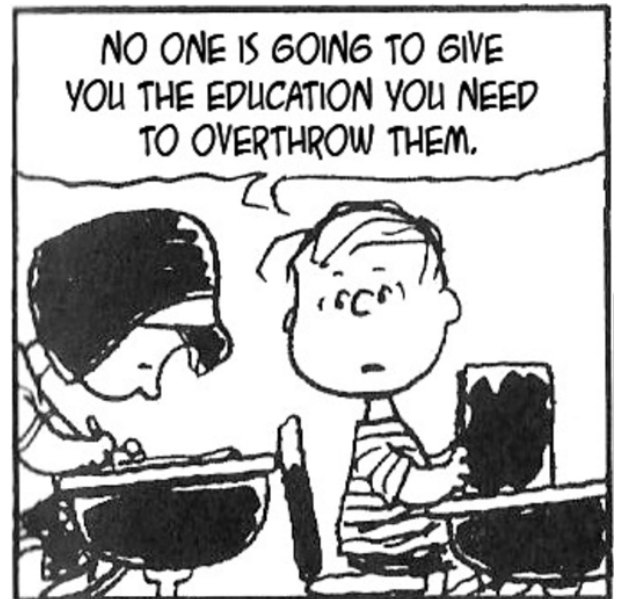

**WE’VE BEEN SCREWED BY
LUCIFER REBELLION**

Then we have the education system that exonerates mind centred living throughout all levels of education, from child care, pre-school, kindergarten, primary school, middle school, high school, technical and further education, university, etc.. This all unfolds when it is understood that our minds cannot determine truth from falsehood, our minds are addicted to untruth and our minds are addicted to

control over others and our environment. The foundations of the education systems worldwide are grossly flawed through it perpetrating the mind as the way to greatness – being mind centric.

Consequently, when we look closely at the education system then we find pyramids of tightly centred control. The chancellor of a university is the ultimate autocratic leader having such wide powers with far reaching impacts on the lives of those who are yet to become wise enough to see the folly of the systems.

Then we have the few that recognise that our truth is through our feelings, that all we need to know is available to us through our feelings. We are too long for the truth of what our feelings are drawing our attention to, both good and bad. Our soul based feelings are our truth, all we need is within. We are to live feelings first with the mind to follow.

The schools that we go to are reflections of society that created them. Nobody is going to teach you that which will set you free.

We leave the education and enter:

Military Service: The personality that our parents imposed upon us is then taken apart by the military and we are moulded into what they consider makes us a team player. Pride is paramount; we must be willing to die for the flag. Pride calibrates from 175 to 199 on the Map of Consciousness – we are now functioning in untruth for the nation.

Workforce Employment: Our personality is now moulded to contribute to the corporation's ethos, principals and goals of rewarding the shareholders. The pinnacle of power in the corporation is vested in the pyramid of unquestionably excessive salaries for a few without any or little form of bottom-up democracy – freedom of expression from and by the employees.

Democracy: Where it exists, it separates the population into those who are for and those who are against, marginalising those who are against for the term of office of those who are for. Then amongst those who are elected, we have the few who become the cabinet and they may then anoint a leader – creating a short term to medium term dictatorship. Those within the inner circle cabinet who show any promise are moved to new port-folios so they cannot learn the truth of what they are confronting well enough to threaten hidden control and manipulation. Government is so well crafted that it cannot threaten the power of the hidden controllers who pull the strings.

Religions and Clergy: They present the truth to the population. They hold the truth. But there are some 3,400 significant religions around the world. When you add on all small breakaway denominations then you have 50,000 religious institutions. They purport to present the truth. There is only one truth! This truth we all will eventually find through our feelings, our soul-based feelings are always in truth. Women are closer to their feelings than men. If women are allowed to blossom through their feelings then they will soon put this folly aside. Look at the leadership of religious institutions, where are the women?

Now that we have considered the major institutional elements we find that the overarching factor is control and subsequent suppression of all of humanity through the instilling of mind centric ways of living. We long for truth. We are truth loving people. We strive for human perfection. But we are induced to be mind centric with the consequence of:

- Control of wealth in the hands of less than 1% of the population.
- More than a third of the world's population not having any tangible form of freedom.
- Health industry only able to suppress illness and pain without any ability to cure.
- Education systems that have peaked in potential and are now stagnating.
- Addictions now in pandemic status as the pain of childhood suppression is now intolerable.
- Autocratic governments posturing aggressively bring about the circumstance for world war III.
- Living situations requiring parents to both work depriving children of adequate parenting.
- Mass entertainment is diminishing in substance due to audience need for relief from suppression.
- Social media systems are dopamine fixes of gratification whilst eliminating personal contact.
- Intuitive innovation has been globally stifled shutting down spontaneous growth and development.
- Laws are incredibly draconian and legislated control is being extended every day.
- Police states are emerging throughout seemingly free societies.
- Medical services are over taxed, over priced and ineffective.
- Courts and jails are over loaded and no one is being assisted to avoid re-offending.
- Education systems in developed economies have peaked in potential and now degrading.
- Unhappiness, despair a depression prevails throughout all societies.

Within Australia, there is a support website to assist those in dire need of help, it is Ask Izzy – <https://askizzy.org.au/> Find the help you need, now and nearby. Search over 370,000 support services. That is right, they have 370,000 support services listed to help the Australian population of 25 million. What is difficult is to comprehend is that there are so many support services.

But what is most wonderful to consider is that there are the people who willingly, lovingly, without remuneration and reward are available and do assist all who they can. These people are the foundations for an evolution of truth and love because they see the difficulties, they see the problems and what they need is the Great U-Turn to slowly shift communities away from the underlying cause of all that ails humanity and that is being mind centric. We are to live feelings first with our minds to follow assisting with the implementation of what our feelings are guiding us to embrace. Further, we are to long for the truth, ask for the truth of what our feelings are prompting us to understand, comprehend about our feelings both good and bad.

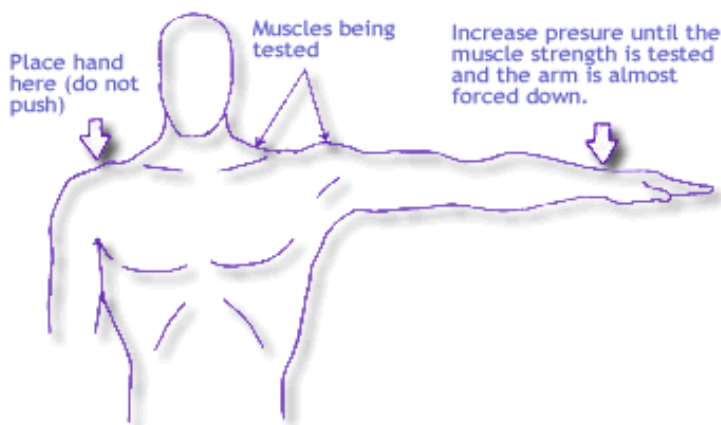

Doing the same thing over and over again, but expecting different results, is insanity.

Demonstrate the Way!

- **The greatest gift you can give your child, is allowing it to be freely able to express itself, helping it to feel good about being able to say and express and communicate all it feels. THERE IS NOTHING BETTER FOR A CHILD TO FEEL THAN KNOWING ITS PARENTS COMPLETELY WANT IT TO BE EXACTLY HOW IT FEELS IT WANTS TO BE. To be completely unconditionally accepted for all that it is. Then it feels loved.**
Mary Magdalene, 13 May 2003
- We each lived our early forming years, from conception through to six years of age having
 - Parents who have NO understanding of Love.
 - Parents who have NO understanding of the Law of Free Will.
 - Parents who have NO understanding of blocking emotions.
 - Parents who have NO understanding of causal / core emotions.
- The implications of living mind centric is not understood by any of the medical and scientific world, least of all by academia.
- Childhood suppression is not addressed by universities as students would confront fee paying parents about their oppression in their early forming years. Universities sell degrees for fees!
- Let us focus upon Dr David R Hawkins' Map of Consciousness (MoC) scale which is based on the common log of 10, going from zero to infinity. An optimum management team will be found in the field of 'Reason', scale 400 to 499. 499 is the 'glass ceiling' for those who are mind centric – while dominated by our minds we cannot progress beyond 499. Characteristics of management calibrating in the 400s can be recognised as follows:
 - 470 Debate and implement resolutions without argument and delay – immediate action.
 - 440 Debate and implement resolutions in due course – a couple of days.
 - 410 Debate and implement resolutions with some degree of follow up generally needed – only moderate.

These are managers – they do not need management of themselves. Their mode of conduct is self-evident and will be confirmable by using kinesiology muscle testing which can be done typically in a minute.

Kinesiology Muscle Testing

Basics of muscle testing

- Pascas Care Kinesiology Testing can be downloaded as a Pascas Paper from www.pascashealth.com by going to the Library Download and then scrolling down to Medical to then click on  [Pascas Care Kinesiology Testing.pdf](#) and the PDF file will open.

- Kinesiology muscle testing was extensively used as a method of research by Dr David R Hawkins, a renowned psychiatrist, who published “Power vs Force” and numerous other books. We can quickly determine the truth of anything and anyone and the level of that truth within seconds.
- Consider the annual report of a corporation. Calibrate the level of consciousness of each of the directors and then the executive team. If all calibrate around 470 on the MoC (Map of Consciousness) then you have the most wonderful corporation on the planet – there presently is no such organisation.
- If you calibrate the directors and executive of a corporation and they come in around 200 or less, you then call the liquidator, it is going to fail.
- Consider any and each of your local universities, technical and further education units, schools, pre-school, child care centre executives and staff, calibrate their levels on the MoC, calibrate the school, etc., as a whole. The higher it is then the more in truth and potential is available there for you and your child. This research will only take a few minutes.
- Does a teacher have empathy for the students, is the teacher an appropriate educator? Again, kinesiology muscle test these question and then calibrate in reference to the MoC.
- Educational material, the school books, the reference material, all can be tested. Hold the book over your solar plexus and calibrate. Same process for any written material. Test before you read. Yes, once you read the material the test result will be more accurate.
- Audio files, DVDs, movies, they all can be calibrated in relation to the MoC.
- Progressively, you will find that you may throw out half of your books. The level truth of what you gravitate towards will rise and rise dramatically. Calibrate these writings!!!
- Now calibrate each of your politicians.
- You can test the level of truth of anything. If you can hold it in mind and verbalise it as a simple statement you can determine if it’s in truth and the level of that truth. You cannot use kinesiology muscle testing for naughty business!
- We are not to impose our will upon another person!
- Education subject choices by the student. It is paramount that the aspirations and personal desires of the student are reflected in their subject choices. Never is it more damaging to a student child for it to be induced to adopt subjects that are not its life long passions. The influences of the student’s parents and carers surface above the students longings in capitulation to childhood suppression patterns. Again, kinesiology muscle testing may assist in these deliberations.
- The greatest error that we all fall for is the assumption. When you next consider a research paper of any description, count the number of assumptions upon which the findings are based upon. We might first ‘assume’ there may be a couple or so – it is typically many more. The error rate of assumptions is 98%, at best 96%. The other 2% are flukes. If the material that you are reviewing is based on one assumption then you are already in trouble. But as you read, it will have follow on assumptions. All educational material needs to be re-evaluated! More work for kinesiology muscle testing to assist and guide the review.

**Show the Way,
Then Get Out of
the Way .**

- So, let us look at technical and further education – TAFE training. Many businesses and corporations in commerce typically excel in skills, practices and methodologies well in advance of TAFE educators and programs. A more comprehensive marriage between employers and TAFEs will be beneficial to all. A major learning tool is the practical hands-on doing of the task. Integrating part-time employment of students with firms that may or may not become the student's full time employer can be a win-win for all.
- TAFE courses may involve industry experts. Leaders in specific fields can prepare a student to be aware and engaged with practices years ahead of the typical firm within many fields thus preparing the grounds for generally across the board higher standards of professionalism and expertise. When we personally engage with a mentor that has empathy and leadership in our field of choice, the outcomes are dynamic and create the foundations of life long prosperity and security.
- Society is being unsettled by a continuous array of 'disruptors'. The complacency that we have enjoyed for decades is to be no longer. Humanity is being disturbed to bring about the need to find a better way of living from within us all. We are not to continue living through our minds while suppressing our soul-based feelings. We are not to live mind centric as we have been induced to live these past 200,000 years. Same ol', same ol' is gone! Should we embrace the change to living feelings first then life will blossom, should we hold onto the past mind centric way then it will become progressively more and more difficult. This is why we are to re-point our education systems universally from the foundation of feelings.
- Firstly, Earth changes are coinciding with cyclical patterns that lead to nova events of suns. The increasing frequency of the Sun is being absorbed by a central antenna within the core of Earth which in turn has marginally increased the rotation within the core of Earth generating more earthquakes and volcanic activity, mainly within the oceans where the crust is thinnest. This in turn is increasing, hurricanes, cyclone, lightning and extremes of weather such as draught, bushfires, flooding and previously unrecorded temperature extremes.
- Governments are becoming more dictatorial. Being mind centric, addicted to control, the only apparent option is for 'law makers' to further suppress their populations. Such draconian steps will ultimately result in civil unrest and civil uprising, unless their controlling approach is altered.
- Anxiety is the most common mental illness. Mental illness is now being reported at extreme levels with hospitals unable to cope. Why are mental health admissions being put in fully equipped hospitals where such is causing further over capacity and seemingly not providing desirable outcomes? Answer:
 - They have nowhere else to put them.
 - There are no facilities fit for purpose which would also achieve better outcomes.
- Health systems of all persuasions are only suppressing the symptoms. There is no understanding of how to cure an illness. Consequently, more and more costly technology is being engaged with minimal increases to life expectancy. The infusion of controlling attributes of parents and carers is disrupting etheric body energy flows and systems that slowly emerge in the physical body to create discomfort, pain and eventually physical illness. Until we express our childhood suppression, illness of all styles will inflict us all.
- Commerce is addicted to ever increasing wealth accumulation with no or little understanding and regard for customers' welfare. The processed food industry delivers products devoid of life enhancing substance whereas "fresh is best". Entertainment panders to instant pleasure and suppression of feelings (personal pain) thus not assisting in participants need to express their feelings and discover the truth behind what they are avoiding.

- Religious systems are taking their congregations deeper into their minds, away from their feelings and subsequently further away from our Heavenly Mother and Father. Religious institutions continue to ignore the fact that our souls are duplex, that our soul manifests two personalities, one a female and the other a male – ALWAYS – and that the female is equal to the male, all being in the image of our Heavenly Parents.
- Financial systems are control centric. Wealth of the world is controlled by a few private and hidden families.
- It is a scary thought that just as inflation is being de-prioritised (2020), fiscal and monetary policy is being coordinated in ways the world has never seen. Recent stimulus (2020-2021) has been extraordinary and economic forecasting, which is difficult at the best of times, is becoming harder by the day. Fractured politics amplifies the problem. Needless to say, the range of global outcomes over the coming years is wide.
- When central banks are eventually forced to act on inflation, they will find it themselves in a difficult, if not untenable, position. They will be fighting the increasingly-ingrained perception that high levels of debt and higher inflation are a small price to pay for achieving progressive political, economic and social goals. That will make it politically difficult for societies to accept higher unemployment in the interest of fighting inflation.
- Eventually, though, any social priorities that policymakers have will be set aside if or when inflation returns in earnest. Rising prices will touch everyone. The effects could be devastating, particularly for the most vulnerable in society. Sadly, when central banks do act at this stage, they will be forced into abrupt policy change which will only make it harder for policymakers to achieve the social goals that our societies need.
- Low, stable inflation and historically low interest rates have been the glue that has held together macro policy for the last three decades (until 2020ish). If, as we (Deutsche Bank of USA) expect, this starts to unravel over the next year or two, then policymakers will face the most challenging years since the USA Volcker / Reagan period in the 1980s.
- Meanwhile, global political and trade tensions continue to escalate between the world's largest economies with many mid range powers being drawn to take sides. The hallmarks of impending military tension are wide ranging. This may result in a great mess being created in the northern hemisphere.
- People throughout all societies are engaging in practices and lifestyle to do everything to avoid their feelings, to repress their childhood suppression. This is extending to substance abuse, party drugs of all descriptions. Few are realising that verbal abuse is showered upon all children throughout their early childhood forming years in the process of suppressing their true personality. We go on living our childhood experiences throughout all of our adult life. When we truly allow ourselves to feel and express our childhood upbringing then we can all see the great tragedy of living mind centric. Now it is time for the Great U-Turn, we are now to embrace our feelings and have our minds follow to implement what our feelings are guiding us to engage in. We are then to long for the truth of our feelings while expressing what we feel, both good and bad, in all that we feel and do.
- There is only way through and out of our Rebellion and Default and that is by embracing Feeling Healing in every facet of our life – the New Way!

The outline to introducing 'Feeling Healing' and 'Living Feelings First' within primary school settings are these eight Pascas Papers:

In this series, to be found at www.pascashealth.com in the **Medical – Emotions** section of **Library Download are:**

-  Pascas Care Living Feelings First Adult
-  Pascas Care Living Feelings First Children
-  Pascas Care Living Feelings First Children Annexures
-  Pascas Care Living Feelings First Children Discussions
-  Pascas Care Living Feelings First Children Graphics
-  Pascas Care Living Feelings First Drilling Deeper
-  Pascas Care Living Feelings First Drilling Deeper Structures
-  Pascas Care Living Feelings First Reference Centre

Participation by parents and carers with children within the 'Feeling Healing' classes and sessions is of paramount benefit to all.

Additional modules and programs have been evolved to address specific wide spread social issues such as:

Integrated Therapy Services through Act for Kids which incorporates Speech Therapy, Occupational Therapy and Psychological Services.

Fathers who use violence: Shifting the focus toward the perpetrator, also through Act for Kids.

Child sexual abuse prevention in schools: through Bravehearts Foundation.

Additional programs are to be and will be embraced.

UNIVERSALLY FREE EDUCATION:**CHALDI COLLEGE – EDUCATION:** Nanna Beth – 3rd Celestial Heaven and James 28 July 2017

James: John has been wondering about how to set up schools and schooling under a tree, in keeping with it all being opposite to what we're all used to, can you give him any suggestions or point him in the direction he should look?

CHALDI COLLEGE

Nanna Beth – 3rd Celestial Heaven: These are some ideas he can consider – just suggestions John, we won't say it has to be this or that way, as you know, it's for you to work things out. So basically, what would you like John – how would you have liked school to be?

Schooling is voluntary. It should be made to be something children want to do, not something that's forced on them.

It should be fun, as in keeping the whole focus on making them feel good about all they are doing. Not artificially praising them or praising them over their peers, but just supporting and being personal with them, allowing them to respond and find their own way.

It should not be separated into classes based on age. Classes should involve all ages, for example, the younger ones can learn and watch and be helped by the older ones, but not forcing the older ones to help the younger, all voluntary and what would naturally happen, more like in a big loving family rather than segregated because of age or whatever. Perhaps the 5, or less, to 10 in one group, 11 to 16 in another.

Teachers are to be able to deal with children of all ages, and work to allow the student to progress at the students own pace. Special or extra schooling can be provided when necessary to students that want more.

The subjects should all be practically oriented. Everything offered and so accepted voluntarily. Reading, writing and basic arithmetic, all so as to help the child deal with the real world. Other subjects like psychology – morals and ethics, love and friendship, acceptance and tolerance of ALL feelings, particularly bad ones, resolving disagreements, expressing feelings and yet not necessarily acting on them – particularly the bad ones, all based around how to respect and treat other people how you'd like to be treated. And how if you hurt by infringing upon another's will, then you will have to suffer that same amount of hurt, either now or in spirit. And about the Feeling Healing, what happens when you feel bad feelings, how to look to your feelings for their truth, so as to grow in understanding of yourself, nature, life, other people, and God – the whole spiritual aspect, including the Divine Love and Mother and Father, yet no religious indoctrination. The history, culture, place in the world. How to integrate with the modern world, computers, phones, internet, etc. Sport, play, arts, creative lessons and involvement. How to live and respect nature, the natural world, the environment, hygiene, natural health, sex, contraception, abortion and so on – about the person, the body, things to dispel myth and falseness, general science. Trades, technical work, hands on experience – building stuff, ways to use one's mind to do what one wants to do.

Duration of classes, half a day, longer when older for those wanting to learn more, homework voluntary and at the child's initiative – wanting to do it.

School is just part of life, not separate to life. Part of the family, tribe, society, not separate from it. Inclusion of other adults, parents, family members, as aides, helpers, teachers, together with professional

teachers. Lots of people, and in particular older people (who also have the time), are natural teachers and should be encouraged even though they've not been specifically trained. One can only learn a certain amount being taught to be a teacher, yet in reality, very few trained teachers have any real natural feeling for it. The more the 'teacher' makes their pupil feel the pupil is the important one, and the teacher is only there to help them if they need their help, and not to stuff it down their throats whether they like it or not, is where to begin. And how a child of differing ages learns, is as varied as the children themselves. So the more 'teachers' the better, and that means the child can gravitate to the 'teacher' that best suits them, rather than having to spend a whole year with someone you hate and you feel hates you.

University for higher learning, full on, voluntary, free, all information on any subject available with competent teachers. So the student can excel should they want to.

It all being with the focus on the person, offering them things which they can try and see if they like. Things that will help them in the world; and how to be a person living true to themselves – true to their own feelings; and how to respect another as one respects oneself.

James: Nanna Beth, John would like any comments on the Council of Elders continuing to contact people on Earth after he's croaked it.

Nanna Beth: It's as James said, there will be an increasing number of people opening up to us Celestials for all sorts of help, once they understand who we are and how we can help. So yes John, there will always be some main people on Earth we'll work with. And should it all keep needing to move along with one entity in control, such as what you're starting out with, then yes, that is how we'll engineer it. Should it break up or be broken up into many entities, then we'll be ready for and going with that. As much as we say we are in control, we mean that we are in control instead of the mind spirits. But still we are to work with humanity, in as much as humanity leads and we augment.

James: And Nanna Beth, I thought I'd ask you about the Religion of Feelings, as John is against a religion of any sort because of all that religions have done to us all, do you have any thoughts on it?

Feelings First Spirituality, New Feelings Way

Nanna Beth: It's all up to you James, what you want. Of course you're not wanting to go and instigate yet another religion in which people have to adhere to a set of rules because you know what will happen to that, **any rules allowing people and their controlling agendas to take control over others, is something to be avoided at all times.** However the notion of a 'religion', and one based on feelings, with no fixed agenda, no rules, just founded on truths, will allow people to have some sort of structure to relate to should they need that, but one in which they are entirely free to do whatever they feel based on their feelings. And with the Feeling Healing and Soul Healing being at its core, then those people intent on that will be able to work on themselves and it won't matter to them whether they are part of something or not.

As you understand, some people will like the idea, others won't like the word religion and will want to do it alone, so do whatever you feel you want to do. We don't call it anything over here other than Our Healing, yet we all had embraced the Divine Love before we began our Healing, however potentially that won't be so for a lot of people on Earth, and to say that people have to embrace the Divine Love to do their Healing would cancel out a large amount of people and is putting a rule in place, which doesn't need to be there and would only get in the way.

So to call it a Religion and yet to make it as free as you are intending James, is something for you to decide for yourself, which really just gets down to using the word religion. And I know it appeals to you because it is a religion that is not a religion, yet more a true religion of truth than any of the existing religions are, so you're showing up those religions for the untruth that they are.

Anyway, it's what you want to do James, it's not for us to say one way or the other. And you will do what you want to do, you'll hear people's complaints or if they like the idea, weigh it all up, and still do what you want to do.

James: So you don't force or coerce anyone to do anything they don't want to do. Because who wants to be treated that way – no one!

Feelings First is a way of living without any dogmas, creeds, rituals, cannon laws, hierarchy or controls of any kind.

It takes a village to raise a child

EDUCATIONAL SEGMENTS and SUPPORT:

DESTINY RESCUE – Liberating Child Girl Slaves

Sunshine Coast

More than one million young girls are presently held in child slavery for prostitution. The support for them commences with the liberation of these girls, their subsequent re-unification with their families and then their support with housing, food and education until they are safely engaged in meaningful employment. These children and all victims of slavery are to be provided with comprehensive support to ensure their safe return and integration into society anywhere in the world.

MEN OF BUSINESS ACADEMY (MOB) – Building Better Men

Gold Coast

MOB personally develops young men along the journey to manhood through role modelling and mentoring. For the last ten years the MOB Academy has been developing leadership and mentoring programs to create bright futures for our young men (this is 2021).

Together with education they are fusing life skills, mentoring and the community to create well rounded, employable and inspired men. The founding primary roles of the MOB Academy are community, leadership, ownership and well-being, all of which are deeply integrated into the program to build better men.

The Men of Business Academy is a senior secondary school that focuses on empowering young men with the skills, knowledge and confidence to be happy, healthy and successful in life after school.

The MOB Academy caters for boys in Years 11 and 12 who are looking for alternative learning from mainstream schooling. They promote workforce and career focused education in addition to a formalised health and well-being program. They emphasize the development of the key life skills of literacy, numeracy, health, resilience, commitment and respect. Importantly, students receive extensive specialised and individualised support to address any barriers to learning and personal development that may hinder their success.

A key strength of the MOB Academy is the existing deep engagement with the community mentors and the business community who have inspired the vision for the school. This large group of members and supporters have consistently provided mentorship to young people in MOB programs together with conducting events and raising significant funds to enable this opportunity. The deliberate integration of the young men with their community is witnessed through work placement opportunities and volunteering at local events providing a complete experience for the young men and their families.

They have designed the program to target individual student needs and interests whilst building student resilience and confidence through a wide range of education programs. This includes optimising the training facilities both on-campus and the neighbouring TAFE College (technical and further education). They aim to further develop existing community partnerships to provide the students with extensive extra-curricular activities such as playing fields, yoga, swimming, gym and the arts.

LADIES OF BUSINESS ACADEMY (LOB) – Building Better Ladies

A sister program is now to be established.

(Many educational programs fit into a free education system.)

CRECHE, CHILD CARE, PRESCHOOL

The average daily cost is AU\$125. Parents on low incomes, and in particular single mothers or fathers, are typically living a life of stress and deprivation while endeavouring to raise a child or children.

Child Care Centres are generally located in the residential suburbs. Few are within high employment centres or employment organisations. The child needs as much parent contact as possible, thus crèche arrangements within organisations of parent employment is preferred with liberal opportunities for child and parent interaction as possible.

Nevertheless, facilitation of child care is to be provided with due regard to the income levels of the parent or parents while not encouraging industry care fees to rise.

TEACHERS' EDUCATION and TRAINING COLLEGES / UNIVERSITIES

Training of educators, teachers and carers needs to be mapped out to match the perceived needs to meet the demographics of cities, towns and regions. Thus training facilities need to be developed and supported to ensure the numbers undertaking these careers are fulfilled. The standards to be met and the empathy for children needs to be understood by each potential teacher / carer.

PRIMARY SCHOOL, MIDDLE SCHOOL, HIGH SCHOOL

As with all education systems, breakfast and lunch meals may need to be made available. This is also to be done in a manner that the nutrition being provided is understood by the students so that their eating preferences are supportive of their health. This can be done through canteens and part of school fees.

The student's subject choices are to match their personal aspirations and goals.

As with all levels of education, pre-school through to university, education is to be potentially free. There will always be systems that may be private that a student may participate in that have fees, however, benchmark education is to be provided free even if it is via scholarships.

Should students need to travel then transport can be subsidised. Books and uniforms can be free.

TECHNICAL AND FURTHER EDUCATION (TAFE)

As with all levels of schooling, scholarships can deliver education for free.

Again, the student is to choose what courses he or she aspires to.

UNIVERSITY

As with all levels of schooling, scholarships can achieve free education.

Again, the student is to choose what courses he or she aspires to.

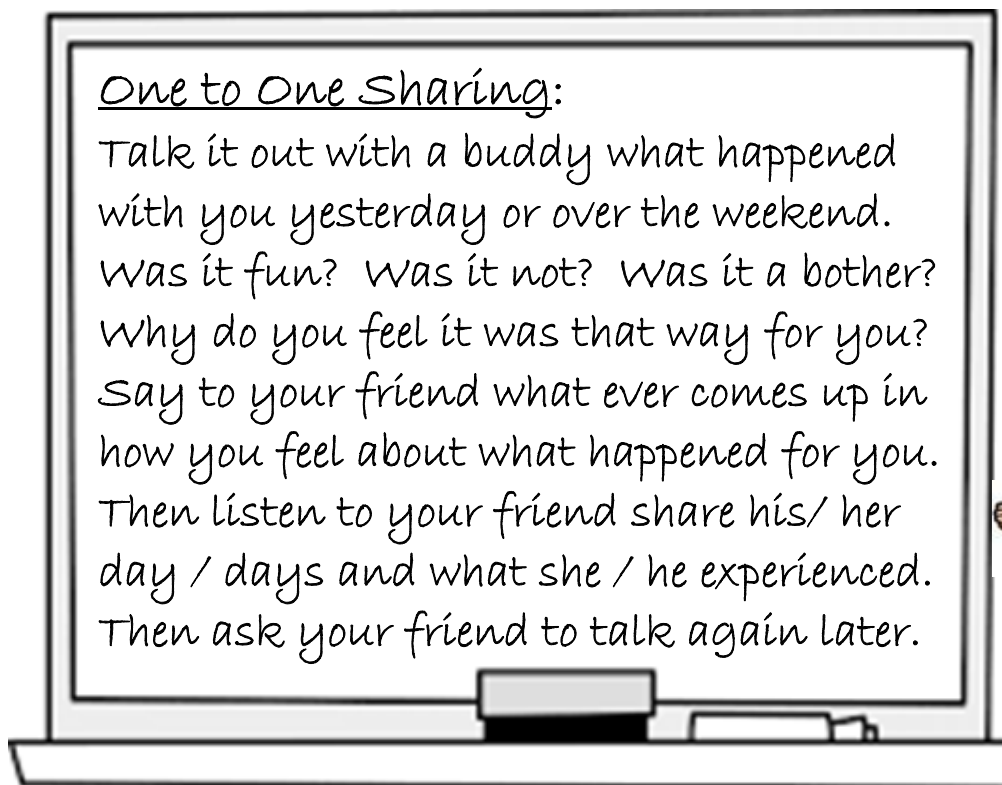

DELIVERY of FREE EDUCATION

Each country will have its own pre-existing education programs and methodologies. Presently, all will be mind centric. Each jurisdiction is to be considered in its special environment, customs and laws.

We are not to support the continuation of the limitations of mind centric education systems. ALL participating students are to be availed the opportunity to understand and comprehend Living Feelings First and what Feeling Healing is about. It is their choice to embrace or put aside for the time being. This is awareness, as is most education. Educators and students alike are to comprehend the differences. There will be no examinations on the topic and there are no controlling elements associated with the awareness. There is nothing for the educators or teachers to join and there are no dogmas, creeds, rituals or controlling elements to be adhered to.

It is the awareness that our potentials through our feelings are starkly higher and more vibrant than the mind centric way of living that has been imposed upon us all these past many thousands of years.

That being now said and hopefully understood, then comes the many variables of introducing of financial assistance in amongst existing educational services and systems.

Junior school classroom with a student assisting. Students to form into pairs and discuss their feelings about their experiences.

LEARNING to LIVE the NEW WAY throughout every SECTOR of OUR LIVING

The Learning Pyramid:

All institutionalised systems are biased towards the suppression of women in compliance to hidden influences that wanted a submissive humanity. The control of humanity is through mind centric living that cannot discern truth from falsehood, is addicted to untruth and control over others. Humanity has always been suppressed to be at the begging of our Planetary Prince and his System Sovereign, Lucifer.

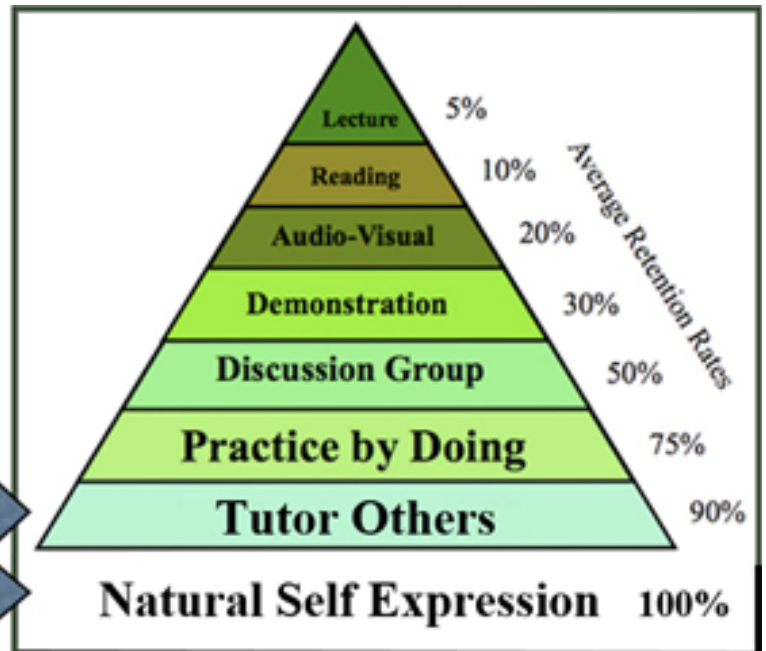

Consequently we find teaching methods mostly employed are the least effective.

Humanity worldwide has looked to religious guidance. The distortion of the one truth has resulted in maybe 50,000 denominations around the world. The consequences are appalling. The Anglican Church of Australia published in June 2021 its own survey which has found 22% of its congregation experience family domestic violence, many quoting chapters of the bible in justification for their abuse, whereas the overall Australian population report 15%. Of those from within the Anglican Church enduring domestic violence, 88% do not seek help from within their own church. You may ask why!

In recent years, the New Testament of the Bible has been rewritten noting recent transmissions from Matthew, Mark, Luke, John, Paul, Judas, Jesus and very importantly, Mary Magdalene. These can also be downloaded by going to www.pascashealth.com then to the Library Download page to scroll down to Medical – Soul Condition & Health, then by clicking on the PDF the file will open for you:

-  [Bible New Testament Matthew Peshitta Lamsa.pdf](#)
-  [Bible New Testament Revelation Mary Magdalene.pdf](#)
-  [Bible New Testament Review - Part I.pdf](#)
-  [Bible New Testament Review - Part II.pdf](#)
-  [Bible Old Testament Revisited.pdf](#)

The Learning Pyramid

Health Care: Our physical health reflects the emotional injuries impressed upon us by our parents and carers during our formative years, from conception through to age six years. It is through our energy flows being interfered with or damaged throughout our etheric body that ultimately manifest discomfort, pain, illness and disease in our physical body. Deformities that emerge with a new born are of the direct result of our parents infused emotional injuries. Medical treatments suppress the malfunctions of the physical body – there is no curing of the health issue. Feeling Healing releases emotional injury and its associated energy constrictions.

It is only when we begin to express our emotional issues, both good and bad, and long for the truth we are to understand behind our emotions that we begin to heal.

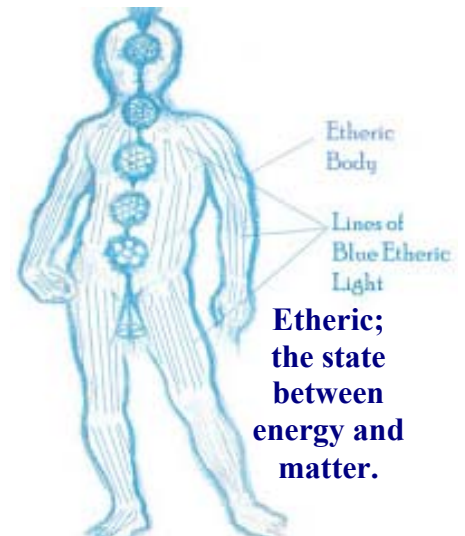

Thus, it is only when we begin to live Feelings First and embrace our personal Feeling Healing that the potential for health begins to come about – albeit slowly.

Presently our health care industry, nurses, doctors, hospitals and all auxiliary health care sectors are overwhelmed and at a loss as to how to manage the issues before them is because they deny the existence of the etheric body and the implications of held emotional issues, errors and injuries.

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

Legal System: The mind is addicted to control over others. We have legislators working around the clock creating more and more draconian controlling laws and regulations. We have over stretched police forces. We have court systems with backlogs of cases to be heard. We have jails that are over crowded and always more being built. The financial cost of all this is a massive burden on society.

It is via the spirit etheric body that emotional issues and viruses emerge in the physical body as illness.

Australia spends more than AU\$110,000 a year per prisoner. A conservative think tank, the Institute of Public Affairs (IPA), said despite spending an estimated AU\$16 billion a year on our criminal justice system, Australians felt less safe than the citizens of many comparable countries. Australia's AU\$4 billion prison system had created a "class of persistent criminals" because it is failing to reform inmates. Almost 60% of prisoners had been imprisoned before and 45% of prisoners released during 2013-14 returned to prison within two years. Incarceration rates are growing rapidly — there are now 36,000 prisoners in Australia, up 39% from a decade ago.

Again, there is no understanding of the root cause of such delinquency. Consider a thorough investigation into the criminal's childhood upbringing. Have the parents explain their full pattern of parenting. When taking into consideration the true personality of the prisoner and the controlling patterns and impositions imposed by its parents, from conception through to the age of six years, the actions by the criminal will become understandable.

It is only by engaging the prisoner in his or her Feeling Healing and bringing to light the truth of their being that they can only then start to step away from their pain of suppression and seek to prosper.

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

Commerce and Industry: All aspects of commerce and industry are driven by control. Employees are essentially enslaved to receiving a salary / wage that is absorbed by the costs of housing, living and taxation. Overarching this is the 'need' for increased profits for the few wealthy investors. Nevertheless, businesses fail or longevity is fragile. It is an insidious existence that has no spiritual growth or personal development. We believe we are prospering – but to what end?

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

Scientific Research and Technology Development: Academic careers are the epitome of 'mind imprisonment'. The mind cannot determine truth from falsehood, and the mind is addicted to untruth, yet universities and many, many academics pursue a frustrating and fruitless life long career to achieve the odd break through and development. Whereas, those who follow their feelings have such bountiful and frequent developments that are merely routine. The source of all truth is our soul and our soul delivers through our feelings willingly and continuously should we open ourselves to our feelings.

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

Peace and Harmony: We are not to impose our will upon another! It is that simple. As we emerge to embrace our feelings and begin to recognise the gross pain and suffering that we impose upon others, the environment and ourselves through our controlling addictions, we will begin to live the way we have always been intended to live, by living true to ourselves, true to our feelings, we are living true to God. It's that simple.

As we grow to persistently respond to our feelings, our patterns of causing harm to others will be able to be put aside. The overloaded courts and overtaxed policing systems will progressively find less and less breaches of the many man-made controlling laws that will later become unnecessary. Yes, this will take many, many generations but living Feelings First is the only pathway that will raise humanity worldwide away from its propensity of confrontation and conflict. Look at the world's growing antagonism centring on authoritarian nations – the risk of world conflict is apparent to all!

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

Political Systems Worldwide: Worldwide, political systems have brought about improvements in quality of life for constituents. However, as they are all man-made and have been introduced throughout the era of the Rebellion and Default, they all bring about control and suppression of the voters, where voting is allowed, and the delegation of the control of the population into the hands of a few. Where elected representatives excel in their authoritative positions for the true benefit of the people, they are typically then shifted to portfolios where they are unskilled and ineffective or simply voted out. Quasi dictatorships are possible within most systems.

The qualifications and calibre of candidates for election are inadequate and inappropriate on many occasions.

Bottom-up democracy and universal input is not facilitated. Party systems pit half the population against the other half. People endure their elected representatives in the hope of better outcomes at the next election, only to be disappointed yet again. Meanwhile the country flounders when prosperity and harmony could be emerging.

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

All Institutionalised Systems: Every establishment around the world is of the consequence of the impositions of the Rebellion and Default. The Rebellion and Default has been governed by a Universal Contract which has only recently formally ended, that being on 31 January 2018. It was officially ended on the 31 January 2018 and the guidance of Earth's humanity was on that date passed into the hands of the Celestial Spirits who reside within the Celestial Heaven spheres 1, 2 and 3. They will not impose their will upon Earth's humanity, however, they can and will guide us to better choices. As we embrace our Feeling Healing, their interaction with people on Earth will become more and more obvious and transparent. This is a long and slow journey of breaking and putting aside the ways of Lucifer and his associates who were being assisted by the billions holding to their sway residing throughout the mind Mansion Worlds 1, 2, 4 and 6. This is the most exciting time in the history of humanity.

All systems around the world will now begin to be restructured. The old ways are to end and new prosperity with harmony and peace is to unfold, however in the meantime the disruption of entrenched ways of living will be very painful and disturbing for most.

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

What is Child Abuse?

Verbally abusing a child

Teasing a child unnecessarily

Exposing a child to pornographic acts or literature

Touching a child where he/she doesn't want to be touched

Forcing a child to touch you

Breaking down the self-confidence of a child

Hitting or hurting a child – often to relieve your own frustration

Manipulating a child

Not taking care of a child for example: unclean, unclothed, unfed child

Using a child as a servant

Not listening to a child

Neglecting emotional needs of a child

Making your own child a 'servant', depriving of time for education / leisure

Hitting and ridiculing a child at school

Neglecting a child's medical needs

Neglecting a child's educational needs

Leaving a child without supervision

Ex-Premier tells: how to become electable:

<https://indaily.com.au/news/2021/06/11/ex-premier-tells-how-to-make-labor-electable/>

Friday, 11 June 2021

Former South Australia State Premier, Jay Weatherill, says social policy is “the new province for economic reform, to make Australia the best place in the world to be a parent, and the best place in the world to grow up”.

“The electorate would respond to a platform that reduces pressure on families and put children at the centre of our national project.

“I believe family policy – and specifically reform to the early years’ system – is the economic and social agenda that our nation is looking for.”

He said such a platform would simultaneously “remove the false dichotomy between social and economic policy, build a bridge across disparate constituencies and unite and powerfully activate women”.

“All this could be described in a way that is as meaningful to suburban Australia as to those of living in the bush, as compelling to the female Chief Executive as it is the casual hospitality worker, and as important to a pregnant mum as to her tradie husband,” he said.

He took up his Thrive By Five role a month after that review was published, and now says the Left “need a different intellectual and public policy framework, one that is both economically sound, and socially consequential”.

“Early learning reform is the seed from which we meet this challenge,” he said.

“The modern childcare system was conceived as a child-minding service when subsidies replaced direct government funding. At the time, the system was designed with the central goal of encouraging parents to return to work. Learning opportunities for children were a secondary consideration.”

Now, however, he argues, “the current system does not reflect the importance of the early years to a child’s lifelong success, nor does it do justice to the importance of early learning to our national competencies on which a secure and prosperous future will be founded”.

“Reducing or removing costs of early learning would encourage larger families, with obvious implications for population and economic growth.

“But during the current coronavirus Covid-19 pandemic, attitudes to the role of government have changed – people’s vision of government as the source of security has been renewed.

“People now want, and expect, governments to step up, be active and intervene in their interests.”

This guidance is continuing the ongoing suppression of the child’s true personality, restricting its true expression and separating the child from its loving environment, all of this creating life long social ill. Only when parents undergo their personal Feeling Healing will we truly know how to bring up a child and how child care centres are to truly function for the benefit of the child.

This is a reason to bring about the awareness of Feeling Healing through all levels of education.

Right to Education – the situation around the world:

<https://www.humanium.org/en/right-to-education/>

Situation of children's right to education worldwide

2020

Today, education remains an inaccessible right for millions of children around the world. More than 72 million children of primary education age are not in school and 759 million adults are illiterate and do not have the awareness necessary to improve both their living conditions and those of their children.

Causes of lack of education

Marginalisation and poverty

For many children who still do not have access to education, it is notable because of persisting inequality and marginalisation.

In developing and developed countries alike, children do not have access to basic education because of inequalities that originate in sex, health and cultural identity (ethnic origin, language, religion). These children find themselves on the margins of the education system and do not benefit from learning that is vital to their intellectual and social development.

Factors linked to poverty such as unemployment, illness and the illiteracy of parents, multiply the risk of non-schooling and the drop-out rate of a child by 2.

Undeniably, many children from disadvantaged backgrounds are forced to abandon their education due to health problems related to malnutrition or in order to work and provide support for the family.

Financial deficit of developing countries

Universal primary education is a major issue and a sizeable problem for many states.

Many emerging countries do not appropriate the financial resources necessary to create schools, provide schooling materials, nor recruit and train teachers. Funds pledged by the international community are generally not sufficient enough to allow countries to establish an education system for all children.

Equally, a lack of financial resources has an effect on the quality of teaching. Teachers do not benefit from basic teacher training and schools, of which there are not enough, have oversized classes.

This overflow leads to classes where many different educational levels are forced together which does not allow each individual child to benefit from an education adapted to their needs and abilities. As a result, the drop-out rate and education failure remain high.

Overview of the right to education worldwide

Most affected regions.

As a result of poverty and marginalisation, more than 72 million children around the world remain unschooled.

Sub-Saharan Africa is the most affected area with over 32 million children of primary school age remaining uneducated. Central and Eastern Asia, as well as the Pacific, are also severely affected by this problem with more than 27 million uneducated children.

Additionally, these regions must also solve continuing problems of educational poverty (a child in education for less than 4 years) and extreme educational poverty (a child in education for less than 2 years).

Essentially this concerns Sub-Saharan Africa where more than half of children receive an education for less than 4 years. In certain countries, such as Somalia and Burkina Faso, more than 50% of children receive an education for a period less than 2 years.

The lack of schooling and poor education have negative effects on the population and country. The children leave school without having acquired the basics, which greatly impedes the social and economic development of these countries.

Inequality between girls and boys: the education of girls in jeopardy

Today, it is girls who have the least access to education. They make up more than 54% of the non-schooled population in the world.

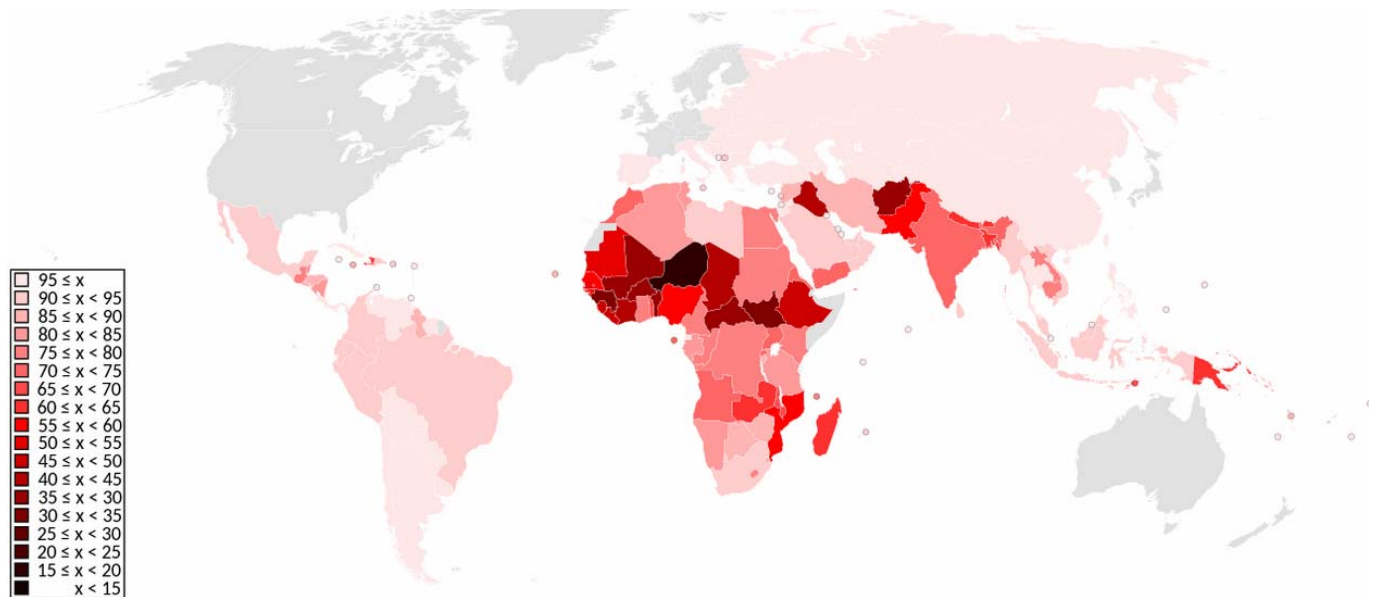

This problem occurs most frequently in the Arab States, in central Asia and in Southern and Western Asia and is principally explained by the cultural and traditional privileged treatment given to males. Girls are destined to work in the family home, whereas boys are entitled to receive an education.

In sub-Saharan Africa, over 12 million girls are at risk of never receiving an education. In Yemen, it is more than 80% of girls who will never have the opportunity to go to school. Even more alarming, certain countries such as Afghanistan or Somalia make no effort to reduce the gap between girls and boys with regard to education.

Although many developing countries may congratulate themselves on dramatically reducing inequality between girls and boys in education, a lot of effort is still needed in order to achieve a universal primary education.

World map of countries shaded according to the literacy rate for all people aged 15 and over:

The global literacy rate for all people aged 15 and above is 86.3%. The global literacy rate for all males is 90.0%, and the rate for all females is 82.7%. The rate varies throughout the world, with developed nations having a rate of 99.2% (2013), South and West Asia having 70.2% (2015), and sub-Saharan Africa at 64.0% (2015).

Over 75% of the world's 781 million illiterate adults are found in South Asia, West Asia, and sub-Saharan Africa, and women represent almost two-thirds of all illiterate adults globally. The global literacy rate for all people aged 15 and above is 86.3%. The global literacy rate for all males is 90.0%, and the rate for all females is 82.7%. The rate varies throughout the world, with developed nations having a rate of 99.2% (2013), South and West Asia having 70.2% (2015), and sub-Saharan Africa at 64.0% (2015). Over 75% of the world's 781 million illiterate adults are found in South Asia, West Asia, and sub-Saharan Africa, and women represent almost two-thirds of all illiterate adults globally.

If a girl spends only 2 years at school, she is likely to have more than 7 children. If she spends 6 years at school, she is likely to have around 4 children. If she spends 12 years at school then she will have only 2 children. World poverty is best averted by the tool of education in the first instance.

Overview:

For 200,000 years, humanity has been induced to live mind centric, and as females are closer to their feelings, the male has been seduced to dominate the female and suppress her true position of equalness with the male. The consequence is that all of Earth's humanity has been subjected to suppression and control by a few high level spirit personalities through their minion subordinate oppressors, both spirit and physical. This has now been ended with these rebellious spirits now in spirit world prison and those within the spirit mind Mansion Worlds with their controlling ways now blocked from any interference with Earth's physical humanity. Guidance of Earth's humanity is now with Celestial Heaven spirits with assistance of the Melchizedeks from within our local universe of Nebadon, as from 31 January 2018.

For humanity to step out from under the imposts of the Rebellion and Default, they are to become aware of Feeling Healing and how to live Feelings First. It is everyone's free choice. There is no imposition and expectation, only that awareness provides the option to consider when one may choose to do so.

The consideration here is that to provide free education without providing this awareness is perpetrating the imposts of the Rebellion and Default. Providing or subsidising free or freer education without this awareness is continuing the Rebellion and Default with all its draconian impositions on humanity.

Added to each scenario in providing free or freer education are the characteristics of each community, society, governmental system of each nation and customs of the people, in relation to each of the following:

Child Care Centres

If you choose a daycare centre, your child can be there from birth and can do the pre-school kindergarten program without having to go somewhere new and different. If you choose a kindergarten that is affiliated with the school your child will attend, this can make the transition to school easier. Other considerations, such as whether food is provided, what facilities and equipment is on offer, and so on, often depend on individual centres.

Until this time, childhood suppression and ongoing repression has not been recognised as the most dramatic and life forming phase in one's entire life. From the moment of conception through to around the age of six years we are crunched into being a personality that our parents and carers want us to be, not the personality that we truly are, the personality that our Heavenly Mother and Father created us with.

This crunching of our personality can simply be described as 'child abuse'. Some of us experience the worst of it in a form that comes to the attention of authorities, something greater in number than one in five children. However, that is what is reported. EVERY child suffers from child abuse. Not one single child escapes from being verbally abused during their forming years. Not one!

Safe Houses for Abused Children

When Graham Golding and John Doel met with Sara O'Meara and Yvonne Fedderson during the first few days of July 2007 in Las Vegas, Sara and Yvonne outlined that Childhelp USA had by then assisted more than four million abused children. They also outlined that it was equally as important to assist the abuser as well as the abused.

The cycle of abuse is typically generational. Parent to child and as the child does not know any other way of living, so the child becomes a parent and treats their children in the same manner as they were previously treated.

Major crime is child rearing: “For as you understand, there is no better way to further your wrongness than to have children. Really it is the worst most evil thing you can do. A serial killer, even a mass murderer, isn’t as bad as a parent, as each parent will find out through his or her feelings as they do their Healing. So how does that make you feel?”

“With the serial killer being sorted out in the hells for such actions against another’s will, and with all us parents and non-parents alike, being sorted out as we do our Healing. Time in the hells is nothing on a spiritual level compared to what you go through during your Healing. The ‘hell’ time allows you to become fit enough spiritually to enter into life in Mansion World one. The Healing, which deals directly with yourself as a child and your relationship with your parents, and your own child / children if you are a parent, ascends you in truth up through all the Mansion Worlds. So, as you can see, there is a hell of a lot more to being a parent and a child.”
Nanna Beth, 3rd Celestial Heaven – 2 June 2018

Not one child has ever experienced true love. Because no parent has ever experienced true love, then they simply do not know how to give or express true love.

Until some parents to be complete their Feeling Healing, no one will know how to bring a child up with true love. Presently, a few are completing their Feeling Healing and eventually there will be parents who will be able to bring up children with true love and commence the ending of the cycle of ongoing child abuse.

By living true to ourselves, true to our feelings, we are living true to God. It’s that simple.

Child Slavery – Destiny Rescue

There are an estimated 1.2 million children trafficked each year – the majority of them being lured, bribed or forced into the sex-trade. That’s one child every 26 seconds! Slavery affects more than 40 million people worldwide – more than at any other time in history. Almost three quarters (71%) are women and girls. Children make up 25% and account for 10 million of all the slaves worldwide.

Universally free education will be instrumental in reducing slavery. For those who are to be liberated from slavery are to be supported with all levels of education as well as housing, food and ultimately meaningful employment. Their security is to be assured to create all the circumstances of such liberated people from becoming entrapped again.

Primary School, Middle School, High School

To want to live true; true to how you feel, is to want to be perfect. And your feelings are the way. We are to be true to our soul by living true to our feelings. We are meant to grow up living fully connected with our feelings in our physical reality, and at the same time with full feeling awareness of spirits and life after death, because after all, God is the greatest Spirit of us all.

We, being ensouled humanity, are to live through our feelings, respond and act upon our feelings, we all are, and so based on our feelings we bring our mind into play, and then things happen which affect our feelings and so our mind adjusts accordingly.

We are to apply our longing, apply our will, but not with our mind, although it can help one to determine what you want to do, but with and through one's feelings. We can't long with our mind, we have to FEEL-long. Our longing is an expression of what we feel. We feel we want God's love, so we express that feeling in our longing.

Healing is the feeling and expressing of childhood injuries and erroneous beliefs. They will be expressed progressively through one's healing process.

The Rebellion is against love, the Default is all the difficulties we have in our relationships because of our rebellion. Healing the Default is becoming true – to ourselves and in our relationships, and ending our unlovingness – our rejection of love, so ending the Rebellion.

Technical and Further Education

“The True Liberation of Women is Through the Truth of Their Feelings.”

As with everything else, it is now appropriate to review all curriculum subjects and reposition subject material from mind centric to feelings orientation. The changes in how we live will be reflected in all we do.

University

New Feelings Way: learning how to live true to ourselves by living true to our feelings.

We are to express our feelings, both good and bad, at all times, and to long for the truth of them.

By living true to ourselves true to our feelings, we are living true to God. It's that simple.

Golden Rule: that one must always honour another's will as one honours one's own.

The Golden rule is: Never interfere with another's will.

As with all curriculums' throughout all levels of education, universities around the world can be the fountains for introducing the New Way, this being orientated throughout all subjects and create the potential of awareness that Feeling Healing is the consequence of Living Feelings First.

Internet Education

All aspects of communication are platforms to be considered to introduce the New Way of living through our feelings. Movies, music and audio presentation are mediums for the communication of what has unfolded these past 200,000 and now for the Great U-Turn to commence, leading us onto the one and only pathway to Paradise.

Adult Education

We are to express our feelings, both good and bad, at all times, and to long for the truth of them.

To liberate one's real self, one's will, being one's soul, is begun by embracing Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.

Generally Unstructured Education

All of life is about learning. Experience is the great teacher. Now, after 200,000 years, we can begin to learn how to live true to our feelings, to enter the one and only path that we have been diverted away from, to bring about the joy and harmony that we have been deprived of by others imposing upon us that our minds are our salvations whereas this is very untrue. We are to live through our soul-based feelings.

We currently parent negatively influencing our children on seven whole worlds' worth of truth. Which means yours and my child, as do you, has seven whole worlds' of truth it's denying in life, all of which cause untold numbers of problems. And consequently, should you wish to do your Healing, so it will take you the Healing of all seven worlds, as represented by the seven Mansion Worlds, to complete it. The Rebellion and Default has evolved to include all seven Mansion Worlds in rebellion by default. We have taken the Rebellion on by Default through all these levels and have to heal them all through our Healing. And once Healed, we are free of our parental influences, free of our parents, free of our wrongness, free of the Rebellion and Default, true and perfect to the Celestial level of truth.

Substance Abuse Recovery

Few have identified that childhood suppression is the foundation from which we gravitate to the avoidance of our inner pain through anything that deadens the pain of not being loved during our childhood forming years.

The gateways to the recovery path are to be open 24/7 and the arms of support to be available, without question, with accommodation for three or four years. No one can assist a substance abuser until he or she decides it is time to heal. And then patience is required so that permanent healing surfaces.

Life is about experiences. Life is all about experiences and feelings. Then we are to express our feelings. It is through the continuous expressing of our feelings to a companion that we begin to release our inner pain, our childhood suppression. We ask ourselves time and time again, who hurt me when I was a child. Our parents have not loved us. Our parents did not and do not know how to love us. We do not know how to love. All throughout society there is lack of love. Understanding of what love is will remain hidden to us until some complete their personal Feeling Healing.

Incredibly, our life on physical Earth, in this hellish condition, is preparation for what we are to achieve in our spirit lives. Our soul has wanted for us to have this hell-hole of an experience in preparation for the wonderful work that we will proudly and willingly embrace.

Experience is the only great educator. Jesus and Mary Magdalene could not show us how to heal ourselves of our Rebellion and Default BECAUSE they remained free of it. What they did is prepare the way for appropriately high enough level spirits to later come to Earth, take on all that the Rebellion and Default is about, proceed through their personal healing over three decades, and then show us the way. And for this Avonal Pair from Paradise to show us the way we now have the financial resources to do so through the provision of universally free education!

How is it that Free Education Funding is NOW available?

It is considered that following the successful conveyance of writings through James Padgett during the years 1914 to 1923 of the Padgett Messages by many Celestials, that higher level spirits and with the guidance of Machiventa Melchizedek, the plan then evolved which resulted in the Bretton Woods Conference in 1944 where at the financial system for the trading of new governmental bonds was instigated with a margin from each trade to be accumulated within what is now referred to as a humanitarian fund. Those funds are now being released and are partially to be used to implement what is required to introduce the Avonal Age of 1,000 years. Kindly visit www.pascashealth.com and in the Library Download page within the Pascas Introduction Notes, click on and download this PDF:

 [Pascas Care Letters Funding for Change Over.pdf](#)

From within the funds accumulated under the Bretton Woods Conference will come the capability to have universally free education as this also part of the overall plan for the Avonal Age.

Contrasting those who have completed their Feeling Healing with those who are to begin

Presently, we cannot comprehend the contrast between us in the physical world who are yet to even contemplate Feeling Healing and those who have completed their Healing of their personal Rebellion and Default, however, kindly consider visiting www.pascashealth.com and in the Library Download page within the Pascas Introduction Notes, click on and download this PDF:

 [Pascas Care Letters Education through Feelings.pdf](#)

When a few, even a dozen, complete their personal Feeling Healing and also embrace our Heavenly Parents' Divine Love, their profound, yet humble guidance will be like enormous beacons of strength and wisdom for all of humanity so that no one will be left in any doubt as to strength and potential that is within us all to be realised. Our true personality fully healed of its childhood suppression is an incredibly beautiful and wonderful personality that we will each wonder why we have endured the Rebellion and Default for all of these thousands of years of oppression to only discover the incredible life and potential that awaits each of us.

Education Universally Free

Education and learning founded on our feelings with our minds to follow whilst longing and asking for the truth that is to be revealed regarding our feelings is our never ending journey whilst evolving in truth and love. Truth is love. Feelings orientated education takes us to truth. Mind centric education takes us away from truth and love. This is the Great U-Turn for Earth's humanity. MoC 1,000

Feeling Healing is the fountain head to the one and only pathway to Paradise. MoC 1,000

This is why our Heavenly Parents have set the way for universally free education. We all now become aware of our pathway Home! MoC 1,000

Each of the above three paragraphs calibrate on Dr Hawkins' Map of Consciousness at 1,000

Closing

We are not to impose our will upon others. Our free will is sacrosanct. As we bring about the awareness of universally free education to governments, nations, states, regions, cities, towns and villages, we are to consider the aspirations and desires within those places. Each government and location will have its own scenario, its special characteristics, its unique culture and needs.

The people at the 'coal face' will always know what is best for their community. So we are to ask them.

It is the people within their communities that will be delivering this evolution in education and the introduction of revelations that can bring about a slow but most incredible change in direction for them and their people – to grow in truth and love. So, we are all to listen to each other and discover a way forward that would elude us all without this dialogue unfolding.

This time, in the history of humanity, is the most exciting time ever experienced.

Feeling Healing is a change in the way we live – the New Way. We are part of nature which lives through the mind. However, humanity is ensouled and we are to be feelings led having our mind to assist in the implementation of what our soul based feelings are guiding us to consider. For 200,000 years, humanity has been misled by rebellious high level spirits, however they are now incarcerated and we now are to evolve in the truth and love that flows through our soul based feelings.

Feeling Healing and Living Feelings First is not a religion, it is a way of living in contra-distinction to being mind centric. Living through our Feelings does not require any dogmas, creeds, cannon laws, rituals, special books, unique apparel, hierarchy of any kind, there is no institution or organisation to join, there are no controls of any kind.

By living true to ourselves, true to our feelings, we are living true to God. It's that simple. We are to express our feelings, both good and bad, at all times, and to long for the truth of them. The New Way is learning how to live true to ourselves by living true to our feelings.

Aspiring to Living Feelings First

10 reasons why Finland’s education system is the best in the world

<https://www.weforum.org/agenda/2018/09/10-reasons-why-finlands-education-system-is-the-best-in-the-world>

From tests to teachers.

10 September 2018

Education, Skills and Learning

Reading performance (PISA) Boys / Girls, Mean score, 2015

[Explore the latest strategic trends, research and analysis](#)

Time and time again, American students continually rank near the middle or bottom among industrialised nations when it comes to performance in math and science. The Program for International Student Assessment (PISA) which in conjunction with the Organization for Economic Cooperation and Development (OECD) [routinely releases data](#) which shows that Americans are seriously lagging behind in a number of educational performance assessments.

Despite [calls for education reform](#) and a continual lackluster performance on the international scale, not a lot is being done or changing within the educational system. Many private and public schools run on the same antiquated systems and schedules that were once conducive to an agrarian society. The mechanisation and rigid assembly-line methods we use today are spitting out ill-prepared worker clones, rudderless adults and an uninformed populace.

But no amount of pontificating will change what we already know. The American education system needs to be completely revamped – from the first grade to the Ph.D. It's going to take a lot more than [a well-meaning celebrity project](#) to do that...

Many people are familiar with the stereotype of the hard-working, rote memorisation, myopic tunnel vision of Eastern Asian study and work ethics. Many of these countries, like China, Singapore, and Japan amongst others routinely rank in the number one spots in both math and science.

Some pundits point towards this model of exhaustive brain draining as something Americans should aspire to become. Work more! Study harder! Live less. The facts and figures don't lie – these countries are outperforming us, but there might be a better and healthier way to go about this.

Finland is the answer – a country rich in [intellectual and educational reform](#) has initiated over the years a number of novel and simple changes that have completely revolutionised their educational system. They outrank the United States and are gaining on Eastern Asian countries.

Are they cramming in dimly-lit rooms on robotic schedules? Nope. Stressing over standardised tests enacted by the government? No way. [Finland is leading the way](#) because of common-sense practices and a holistic teaching environment that strives for equity over excellence. Here are 10 reasons why Finland's education system is dominating America and the world stage.

No standardised testing

Staying in line with our print-minded sensibilities, standardised testing is the blanket way we test for subject comprehension. Filling in little bubbles on a scantron (a company name which is more commonly used for a type of multiple-choice test answer sheets) and answering pre-canned questions is somehow supposed to be a way to determine mastery or at least competence of a subject. What often happens is that students will learn to cram just to pass a test and teachers will be teaching with the sole purpose of students passing a test. Learning has been thrown out of the equation.

Finland has no standardised tests. Their only exception is something called the National Matriculation Exam, which is a voluntary test for students at the end of an upper-secondary school (equivalent to an American high school). All children throughout Finland are graded on an individualised basis and grading system set by their teacher. Tracking overall progress is done by the Ministry of Education, which samples groups across different ranges of schools.

Accountability for teachers (not required)

A lot of the blame goes to the teachers and rightfully so sometimes. But in Finland, the bar is set so high for teachers, that there is often no reason to have a rigorous “grading” system for teachers. Pasi Sahlberg, director of the Finnish Ministry of Education and writer of *Finnish Lessons: What Can the World Learn from Educational Change in Finland?* Said that following about teachers' accountability:

"There's no word for accountability in Finnish... Accountability is something that is left when responsibility has been subtracted."

— *Pasi Sahlberg*

All teachers are required to have a master's degree before entering the profession. Teaching programs are the most rigorous and selective professional schools in the entire country. If a teacher isn't performing well, it's the individual principal's responsibility to do something about it.

The concept of the pupil-teacher dynamic that was once the master to apprentice cannot be distilled down to a few bureaucratic checks and standardised testing measures. It needs to be dealt with on an individual basis.

Cooperation not competition

While most Americans and other countries see the educational system as one big Darwinian competition, the Finns see it differently. Sahlberg quotes a line from a writer named Samuli Paronen which says that:

“Real winners do not compete.”

— *Samuli Paronen*

Ironically, this attitude has put them at the head of the international pack. Finland’s educational system doesn’t worry about artificial or arbitrary merit-based systems. There are no lists of top performing schools or teachers. It’s not an environment of competition – instead, cooperation is the norm.

Make the basics a priority

Many school systems are so concerned with increasing test scores and comprehension in math and science, they tend to forget what constitutes a happy, harmonious and healthy student and learning environment. Many years ago, the Finnish school system was in need of some serious reforms.

The program that Finland put together focused on returning back to the basics. It wasn’t about dominating with excellent marks or upping the ante. Instead, they looked to make the school environment a more equitable place.

Since the 1980s, Finnish educators have focused on making these basics a priority:

- Education should be an instrument to balance out social inequality.
- All students receive free school meals.
- Ease of access to health care.
- Psychological counselling.
- Individualised guidance.

Beginning with the individual in a collective environment of equality is Finland’s way.

Starting school at an older age

Here the Finns again start by changing very minute details. Students start school when they are seven years old. They’re given free reign in the developing childhood years to not be chained to compulsory education. It’s simply just a way to let a kid be a kid.

There are only 9 years of compulsory school that Finnish children are required to attend. Everything past the ninth grade or at the age of 16 is optional.

Just from a psychological standpoint, this is a freeing ideal. Although it may anecdotal, many students really feel like they’re stuck in a prison. Finland alleviates this forced ideal and instead opts to prepare its children for the real world.

Providing professional options past a traditional college degree

The current pipeline for education in America is incredibly stagnant and immutable. Children are stuck in the K-12 circuit jumping from teacher to teacher. Each grade a preparation for the next, all ending in the grand culmination of college, which then prepares you for the next grand thing on the conveyor belt. Many students don't need to go to college and get a worthless degree or flounder about trying to find purpose and incur massive debt.

Finland solves this dilemma by offering options that are equally advantageous for the student continuing their education. There is a lesser focused dichotomy of college-educated versus trade-school or working class. Both can be equally professional and fulfilling for a career.

In Finland, there is the Upper Secondary School which is a three-year program that prepares students for the Matriculation Test that determines their acceptance into a University. This is usually based off of specialties they've acquired during their time in "high-school".

Next, there is vocational education, which is a three-year program that trains students for various careers. They have the option to take the Matriculation test if they want to then apply to University.

Have you read?

- [How equal are the world's education systems?](#)

Finns wake up later for less strenuous schooldays

Waking up early, catching a bus or ride, participating in morning and after school extracurriculars are huge time sinks for a student. Add to the fact that some classes start anywhere from 6am to 8am and you've got sleepy, uninspired adolescents on your hands.

Students in Finland usually start school anywhere from 9:00 – 9:45 AM. [Research has shown](#) that early start times are detrimental to students' well-being, health, and maturation. Finnish schools start the day later and usually end by 2:00 – 2:45 AM. They have longer class periods and much longer breaks in between. The overall system isn't there to ram and cram information to their students, but to create an environment of holistic learning.

Consistent instruction from the same teachers

There are fewer teachers and students in Finnish schools. You can't expect to teach an auditorium of invisible faces and breakthrough to them on an individual level. Students in Finland often have the same teacher for up to six years of their education. During this time, the teacher can take on the role of a mentor or even a family member. During those years, mutual trust and bonding are built so that both parties know and respect each other.

Different needs and learning styles vary on an individual basis. Finnish teachers can account for this because they've figured out the student's own idiosyncratic needs. They can accurately chart and care for their progress and help them reach their goals. There is no passing along to the next teacher because there isn't one.

A more relaxed atmosphere

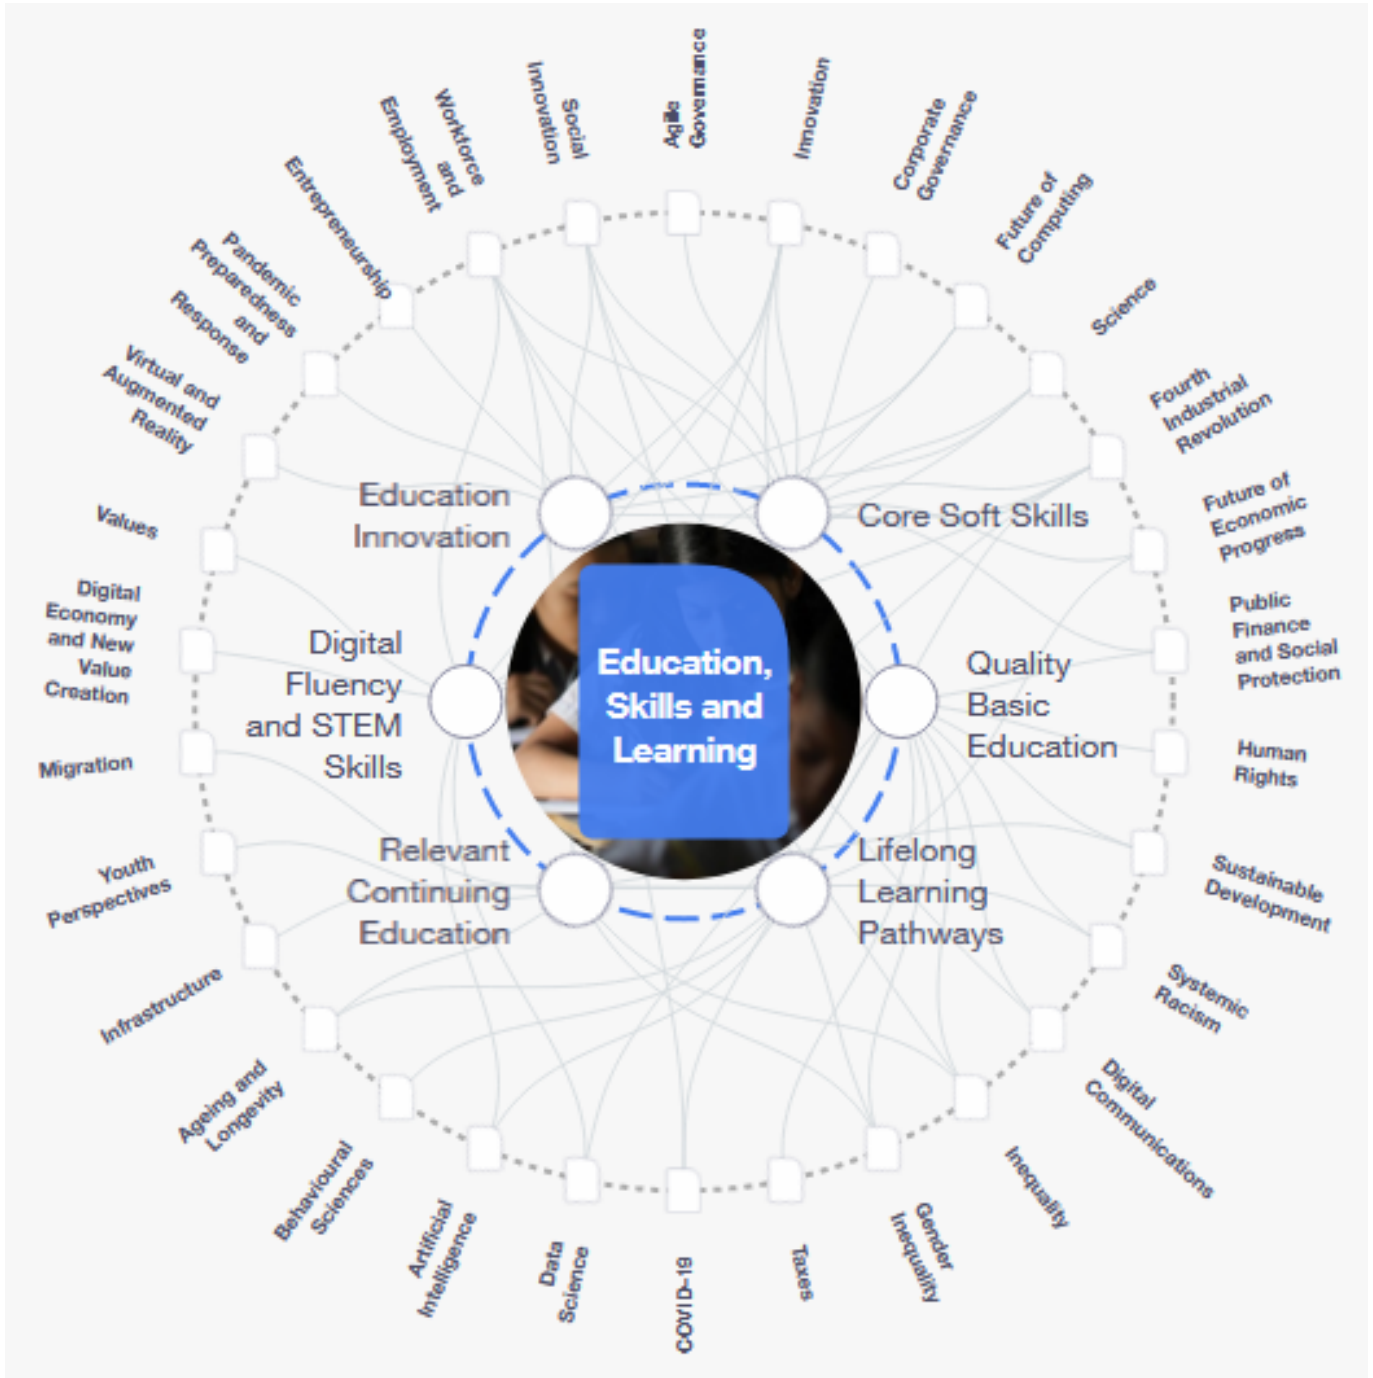

There is a general trend in what Finland is doing with its schools. Less stress, less unneeded regimentation and more caring. Students usually only have a couple of classes a day. They have several times to eat their food, enjoy recreational activities and generally just relax. Spread throughout the day are 15 to 20-minute intervals where the kids can get up and stretch, grab some fresh air and decompress.

This type of environment is also needed by the teachers. Teacher rooms are set up all over Finnish schools, where they can lounge about and relax, prepare for the day or just simply socialise. Teachers are people too and need to be functional so they can operate at the best of their abilities.

Less homework and outside work required

According to the OECD, students in Finland have the least amount of outside work and homework than any other student in the world. They spend only half an hour a night working on stuff from school. Finnish students also don't have tutors. Yet they're outperforming cultures that have toxic school-to-life balances without the unneeded or unnecessary stress.

Finnish students are getting everything they need to get done in school without the added pressures that come with excelling at a subject. Without having to worry about grades and busy-work they are able to focus on the true task at hand – learning and growing as a human being.

Shenzhen IMOON Technology Co., Ltd., a high-tech enterprise. It is professionally engaged in: tablet computers, mobile phones, Bluetooth devices, smart wearable products, and educational terminal products. And there are a variety of configuration options to meet customer needs for customised products in the automotive, education, police, exploration, finance and other industries.

STARLINK

INTRODUCING STARLINK

The world's most advanced broadband internet system

With a global network that exceeds the performance of satellite internet, Starlink will deliver high speed internet to locations not possible before.

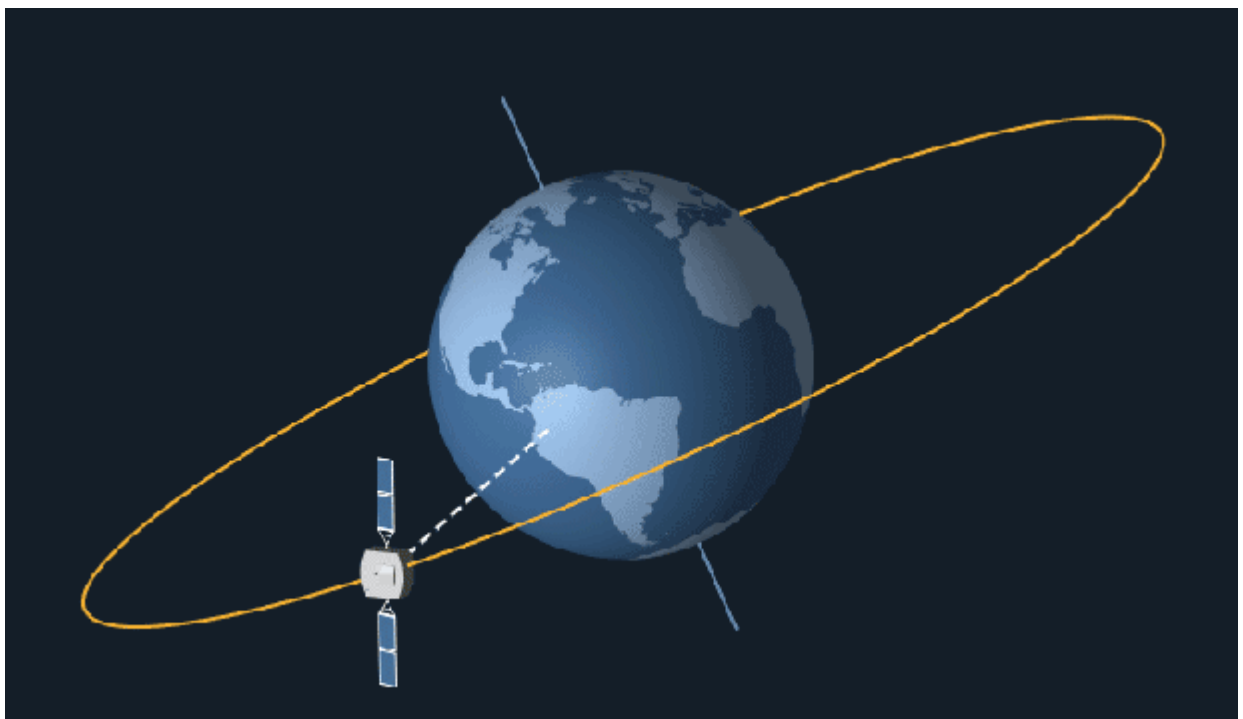

The constellation will consist of thousands of mass-produced small satellites, working in combination with ground transceivers. SpaceX also plans to sell some of the satellites for military, scientific, or exploratory purposes.

At end of life, the satellites will utilize their on-board propulsion system to deorbit over the course of a few months. In the unlikely event the propulsion system becomes inoperable, the satellites will burn up in Earth's atmosphere within 1-5 years.

Elon Musk's SpaceX to spin out and pursue a IPO for its space-*internet* business Starlink. SpaceX Starlink will provide low-cost *internet* to the most remote Places on earth.

What is Starlink?

Starlink is a complex network of Low Earth Satellites (LEO) organised into a constellation to provide continuous connectivity to people all over the globe. Once completed, many thousands of satellites will work in harmony to provide a continuous connection any place you might be from the equator to +/- 80° latitude. If you live on the North or South Poles, you will continue to be under served.

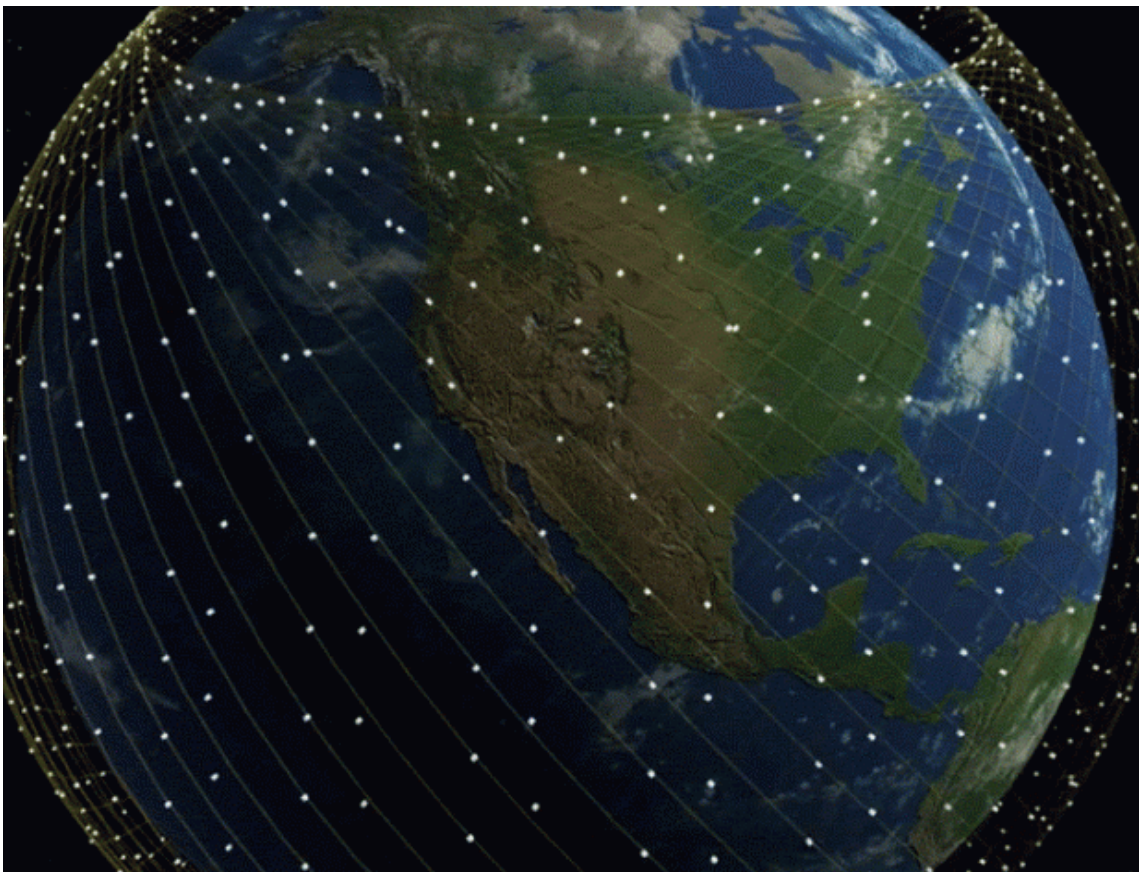

Legacy Satellites

Older VSAT satellite systems used satellites that appear to be fixed in the sky and are said to be ‘geostationary’. With a broad ranging signal footprint, these GEO satellites aimed the beams at specific parts of the landmass – think of them like car headlights, so the signal rolls off at the edges and gets weaker if you are not in the focused areas. Larger antennas are needed to capture these distant satellites – 1.2 meter to 3.8 meter in size, depending upon your location and the satellite connection. With much lower data rates costing much more compared to these new LEO satellites, the business case was hard to justify. As an example, my own personal VSAT used on my motorhome for remote connections when travelling offer the following data rates and prices (in Canadian dollars) – 1.5 Mbps downlink / 256 kbps uplink – costing about \$90.00 CDN per month with \$5,000.00 automated antenna system. A fixed antenna system would have been lower cost but demanding rigorous alignment and pointing requirements every time I parked the motorhome.

LEO Satellites

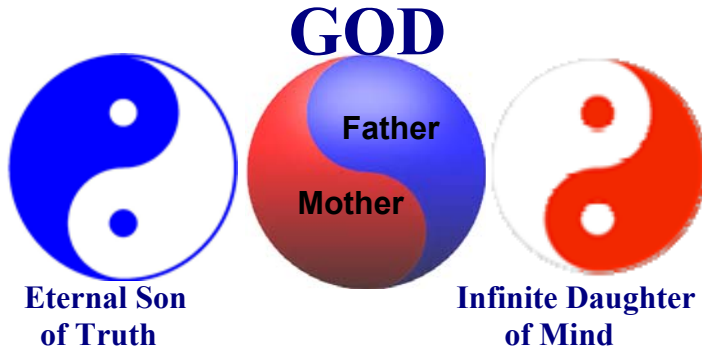

With the advent of the Starlink solution based upon LEO satellites, it is a new form of satellite internet delivered from space. Internet is normally a terrestrial technology, but coverage is not ubiquitous as we need for educators. Quality terrestrial internet connections are only available for about 70% of Canadian schools. Now with these LEO satellite connection is a constellation – hundreds or thousands of small (300 to 800 lb.) satellites flying at 500+ km, on polar and equatorial orbits, working in harmony as one interwoven fabric of space relay connections from multiple uplink teleports provide comprehensive service everywhere we need it in Canada. Supported by sophisticated technology on the ground with antennas that operate as arrays to track many satellites at one time and integrated to a compact set-top box with a Wi-Fi hotspot built-in, these terminals can provide substantial connections to schools or students at home.

Elon Musk has created Starlink to provide quality internet connections. He is targeting 1,440 satellites by the end of 2021. Initially approved for 12,000 satellites, he is now requesting over 30,000 more LEO satellites to be placed into 72 orbital planes using three orbital shells – 340 km, 550 km, and 1,100 km. He is already redesigning his satellite constellation and is requesting to move 1,100 km down to 550 km. Currently, Starlink is placing 60 satellites into orbit per launch on SpaceX Falcon 9, but they are also targeting to use the Starship rockets with an extraordinary capacity of 400 satellites per launch. Early tests of the Starlink service is seeing 100 Mbps downlinks to schools and a ultra low 10 to 20 ms latency. Users are being told to expect 50 to 150 Mbps in the testing phase and a promise of 1 Gbps once the constellation is deployed to sufficient coverage saturation levels. With unlimited data, but limited availability, Starlink terminals are already sold in Canada with fully licenced approval by the Canadian government.

School Integration

How will Starlink be deployed for commercial users or is it targeted for consumers? Can we get a static IP address? Can we use SD-WAN native connections? How will VPNs run over Starlink? We are told that every connection is already fully encrypted – so are VPN tunnels and software defined routing possible – likely, yes! During the test period and until sufficient numbers of LEO satellites are deployed into orbits, users should anticipate periodic service outages. During the testing phase, the Starlink costs are running at US\$99.00 per month for connection, US\$499.00 one-time fee for equipment. However, what will prices be once fully operational and how will Starlink support school boards with multiple locations with package deals? Only time will tell.

CREATION of SOUL and SPIRIT:

God is *The Paradise Trinity* — the eternal Deity union of the Personalities: the Universal Mother and Father; the Eternal Son of Truth; and the Infinite Daughter Spirit of Mind.

The soul of each human personality (sons and daughters of truth) is existential, driving our personality expression in the experiential. The soul of each human finds truth by embracing one’s feelings and longing for the truth of them. We are to attain the Eternal Son of Truth. We are a creation of Truth.

The soul of angels is experiential, evolving through their experience by continually progressing in mind development. Angels are to attain the Infinite Daughter (Spirit) of Mind. Angels are a creation of Mind. Our soul is duplex (we have a soulmate / soul partner) and is created by our Heavenly Parents. Through our Feeling Healing we perfect ourselves, enabling the union with our soulmate, as we progress in truth up through the Mansion Worlds, celestial heavens and all the way to Paradise.

The soul of angels is also duplex, yet of the mind, and they progress in mind evolution to Paradise. Animals, plants and nature spirits are also creations of Mind.

Neither we nor animals reincarnate. We never die; upon death, we move into the spirit Mansion Worlds on our journey to Paradise. When animals and plants die, be they the tiny microbe to the mighty elephants of the land and the whales of the ocean, their spirit energy returns to the Spirit Collective Energy. And from this energy are drawn other animals and the nature spirits, who then in turn move onto becoming angels through increasing mind experience.

A nature spirit is an angel in waiting.

Feeling Pathway

Mind Pathway

Soulmate Pair

Angel

Spirit Person

Nature Spirit

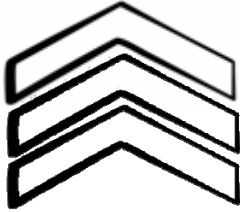

The CHOICE is OURS to MAKE:

Celestial Truth:

Truly all-loving;
Living true to oneself;
Mind supporting Feelings;
Living with the Divine Love;

Fully Healed of the Rebellion and Default.

THE FEELING WAY

Feeling – Ascendance

Unlimited progression

- Living true to your untruth;
- Honouring all your bad feelings;
- Expressing feelings to uncover their truth;
- Healing the Rebellion and Default within yourself;
- Feeling unloved; being unloving;
- Feeling as bad as you can feel;
- Feeling like you are no one special;
- Longing for the Divine Love.

THE MIND WAY

Mind – Transcendence

Limited progression

- Enlightenment, Nirvana, feeling all-loving;
- All false, mind-contrived. Anti-truth, anti-love;
- Still evolving the Rebellion and Default within yourself;
- Feeling and believing you are the Superior One;
- Living with your mind in control of your feelings;
- Living rejecting all your bad feelings;
- Living with your mind contriving you feel loved;
- Rejecting the Divine Love.

All religions, New Age, agnostic,
atheists, no spiritual interest,
Living the Rebellion and Default.

Hell:

Exploiting the Rebellion and Default.

The Feelings are the doer; the Mind the teller. So we are to go with our feelings, which we can't be told to do with our mind. So the longing for the Divine Love, doing our Healing by expressing our feelings and longing for their truth, are all feelings and doing it with longing. Whereas the mind just wants to tell us what to do and how to be, no feelings in it, all how our parents have treated us.

EXPERIENCES, FEELINGS and TRUTH:

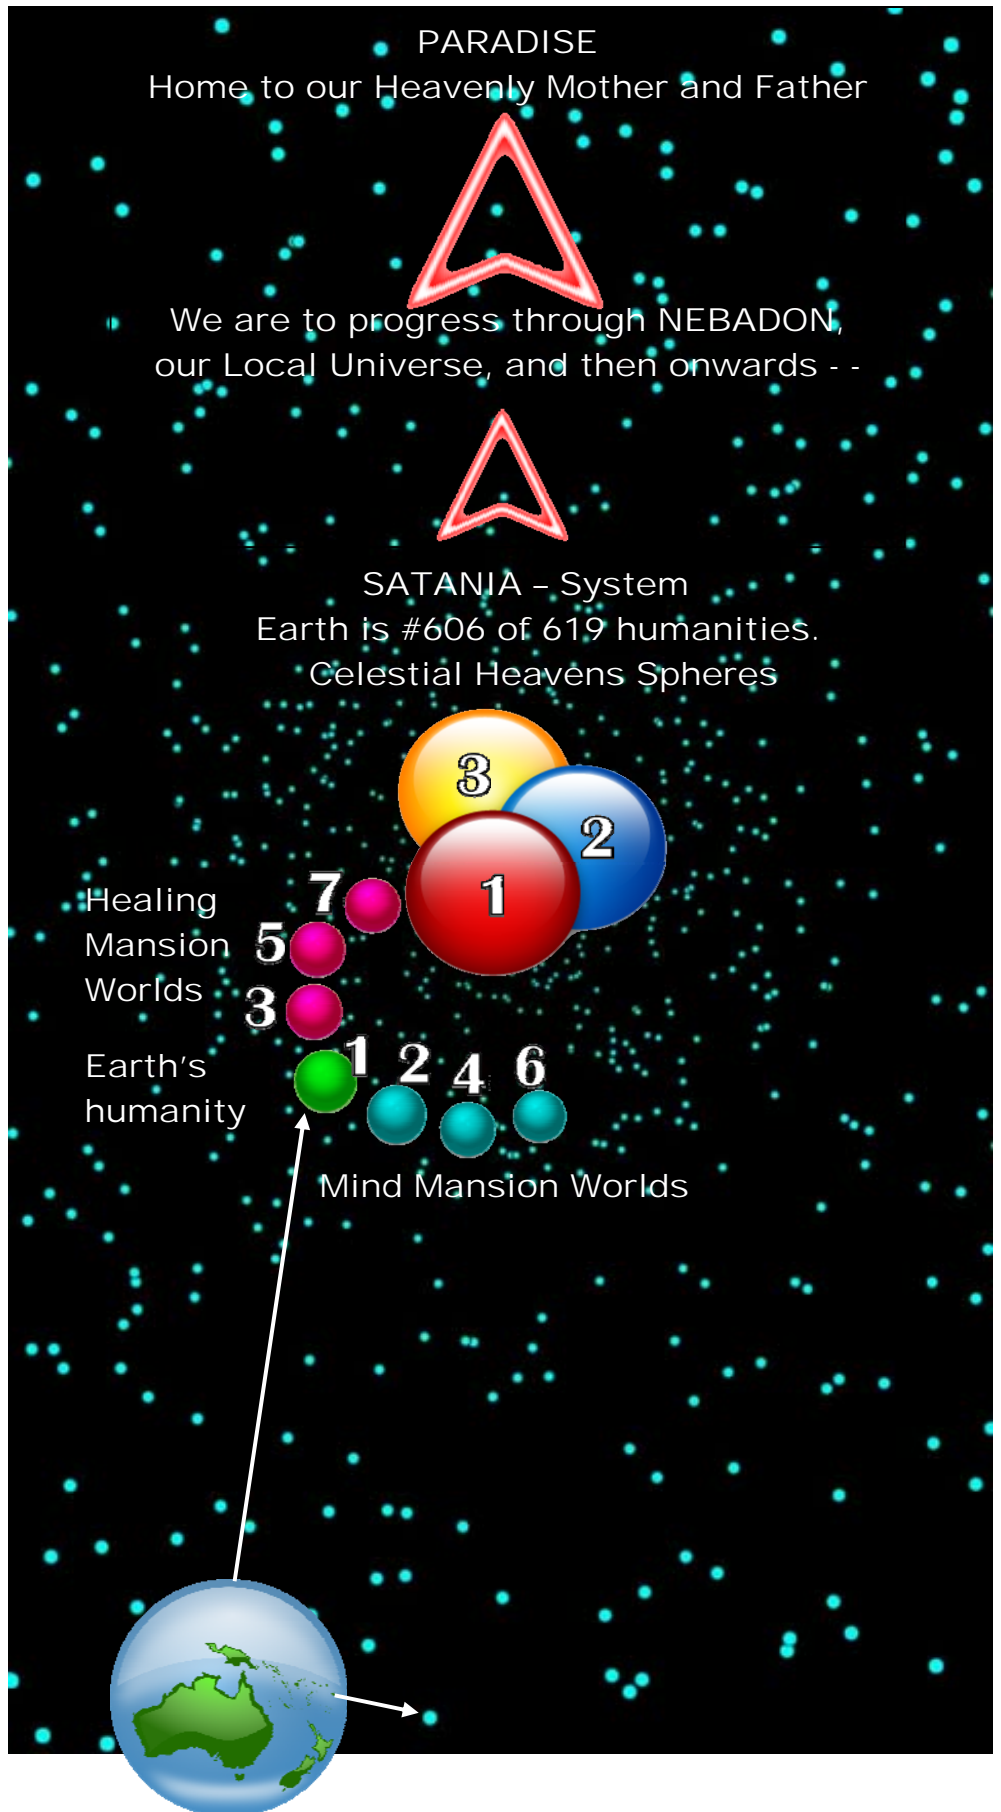

We look into the night sky and see around 1,000 stars that possibly are the hosts to the 619 humanities of our local system, Satania. Earth is on the outskirts of Satania.

When we ‘die’, and shed our physical body as we are spirits having a physical experience, we all arrive on the 1st spirit Mansion World.

If we continue to live through our minds, then we may progress to worlds 2, 4 then 6 and no further – dead end!

Should we embrace Feeling Healing with Divine Love, we will start our journey of Truth and Love, progressing through Healing Mansion Worlds 3, 5 and 7, then through the Celestial Heavens and onwards out through our Local Universe of Nebadon and on to Paradise, the home of our Heavenly Parents.

The spirit worlds are within a different dimension to the physical stars and earths. However picturing the spirit worlds within the centre of our local system is only a visualisation aid and not necessarily accurate.

MUSEUM of JERUSEM – 1st Celestial Heaven

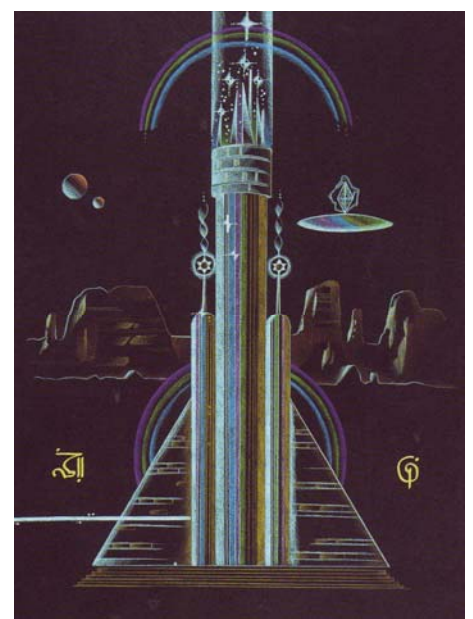

Note previously from Nanna Beth, 3rd Celestial Heaven – 20 November 2017 – relating to a ‘museum’ at Jerusem on the 1st Celestial Heaven: “And as far as concerning where The First Parents are now, they have moved on with the old guard, having been released from such duties that being The First Parents required. You can see and even in a sense ‘meet’ with them when you come into the first Celestial sphere, we have a museum sort of arrangement, it is a massive and highly complex and covers every aspect of humanity’s history on Earth and in the Mansion Worlds. And you can sort of interact with the exhibits – if I can crudely call them that. You literally walk into say the Atlantean times and explore using your mind for whatever aspect of such times you care to. You can even in a sort of holographic way meet with people from those times, speak with them in a sense, although it’s all automated, it’s not the real person who is now a spirit, although the whole experience being so real and amazing makes your mind believe it is the real person or spirit. So we can even talk to Mary and Jesus like this, which a lot of Celestials do when they first arrive, it all helping them to get to know them better and know what they were all about. It’s a massive learning centre and contains all the knowledge of humanity’s experience, so anything and everything is kept there like ‘living’ archives.” (Thus you can see all of history is recorded and can be researched and studied.)

For example: Others believe they have transcribed messages from Jesus but that is not so, that is not Jesus from Nazareth of the Bible but typically a Jesus from the Celestial Heavens who is fully versed through researching and engaging in the very amazing museum at Jerusem on the 1st Celestial Heaven. Other Celestials with names akin to the Apostles of Jesus have from time to time done the same thing.

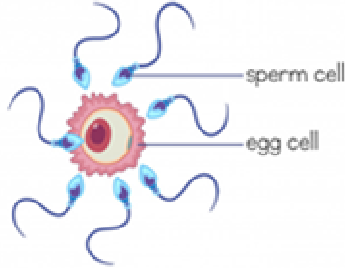

First parents are Andon and Fonta (Aman and Amon) who lived 993,500 years ago – not Adam and Eve who came to Earth 38,000 years ago.

Rebellion and Default officially ended
31 January 2018

REBELLION & DEFAULT

FOR 200,000 years ALL SYSTEMS are the WORK of the REBELLIOUS LANONANDEKS:

The rebellious Lanonandeks from within our local universe are these soul partner pairs:

THE EVIL ONES

Lucifer pair
Arrested and imprisoned 26 CE

Satan pair

Caligastia pair

Daligastia pair

Arrested and imprisoned early 1990s CE

MIND MANSION WORLDS

HIDDEN CONTROLLERS

DEEP STATE

SECRET SOCIETIES The Illuminati, Freemasons, Bilderberg Group, Knights Templar, The Jesuits, Skull And Bones And Others

Following the spirit world imprisonment of the System Sovereign and then Planetary Prince being rebellious Lanonandek spirits, the Celestial spirits have blocked communications between mind Mansion World spirits and humanity on Earth. The Hidden Controllers and other controlling organisations are now without spirit world guidance, since 22 March 2017. Those controllers, in the physical on Earth, are without their long term guidance.

EDUCATORS UNIVERSITY RELIGION

Educators at all levels and throughout all systems have had withheld from them that we are to Live Feelings First. This is to change!

“The education, for both women, men, girls and boys, is about how to live true to their feelings. How to embrace them willingly, how to work with them – express them, and the point of doing that, wanting to know the truth of them. That’s all.”

Marie, 1st Celestial Heaven: 11 Aug 2020

PEOPLE OF EARTH

WE ARE TRUTH SEEKERS

*From our head to our toes,
what our feelings say goes!*

Feelings, good and bad, are to be expressed.

Talk it Out!

Heartfelt feelings are our truth.

*Then we are to continue by longing for
the truth that our feelings are to reveal to us!*

**LONG to KNOW ABOUT what you are FEELING!
Long to understand the truth behind
what your feelings are pressing upon you.**

**Ask to know the truth about that which you feel.
It is knowing the truth of that
which you feel that sets you free!**

**Always be true to your feelings
because they are your truth
and truth is love and our way home!**

talking

**Express your feelings to those who matter to you.
Suppressed feelings bring about pain and illness.
Talk it out to a friend!**

WHOLE DIFFERENT Way of Life.

**THE GREATEST
THREAT
TO
HUMANITY**

GREAT
V-Turn

CONTROL of HUMANITY CHANGEOVER

1. Mind Mansion World Spirits, of worlds 1, 2, 4 and 6, complicit to the guile of rebellious high level Lanonandeks, Calligastia and Dalligastia, being spirit world imprisoned during the early 1990s, continued to guide and support the Rebellion and Default imposed upon Earth's humanity by Lucifer and Satan commencing 200,000 years ago. **THE EVIL ONES**

Early 1990s: The arrest of the Caligastia and Daligastia soulmate pairs.

22 March 2017: Negative mind-spirit influence now blocked by Celestial Spirits.

22 May 2017: Law of Compensation quickening.

2 December 2017: Psychic Barriers maintaining the Rebellion and Default were cracked.

8 December 2017: Bring on the money to 'house the future of humanity'.

31 January 2018: Earth and the seven associated Mansion Worlds (including the two Earth planes) are **officially** now fully under the control of Celestial spirits. This marks a tangible and real end to the Rebellion and Default

Oversight and control of Earth's humanity is now within the hands of Celestials from the first three Celestial Heavens with some 30 billion Celestials engaged, assisted by 3 Melchizedeks soul-groups and countless angels. Transfer to "Council of Elders" personalities is from mind orientation to feelings first – soul based truth – with the changeover becoming openly known when the Avonal pair commence their public work.

2. Earth based hidden controllers being dominated by family groupings mainly out of Europe, with some in various parts of the world such as USA and Asia. Their "chairmen" control the world's finances and passively enslave humanity without being known. Their funds are to be removed from their control and their power collapsed.

hidden
CONTROLLERS

3. The "chairmen" are from the long-term families, generationally passing down power over humanity. These family groups may number less than twenty with their worldwide dominance.

4. The medium-term families numbering around thirty are generally unaware of the long-term families. These are personalities who come to fruition during their life and generally, but unknowingly, fit into the overarching evil agendas of the hidden controllers.

5. Short-term members are those who are typically invited into the Bilderberg Meetings and unknowingly are subordinate to the medium termers who are subordinate to the hidden controllers.

6. Secret societies that dominate commerce and sciences provide the feedstock of subterfuge.

7. Deep State are people that subterfuge governments and influential people who would otherwise work against the hidden controllers.

8. Regional, state and national governments are short-term well intentioned representatives of the people, whilst being unknowingly controlled.

SUBSERVIENT
CONTROLLERS

9. All Earth based institutionalised systems as well as religions are the product of the Rebellion and Default of 200,000 years ago that continue to do the work of the Evil Ones, the rebellious Lanonandeks, through the guile of the hidden controllers.

10. The few hidden controller families control the world's finances through financial systems that enslave all of humanity with debt systems extending to education loans, credit cards, etc.

11. Health systems do not address the cause of all illness, being childhood suppression and repression.

12. Religionists perpetrate the indoctrination of living through the mind, suppressing feelings.

13. Education is a dictatorship; chancellor, professor, doctorate lecturer, teacher, student – no latitude to allow one's soul-based feelings to be expressed – all controlled by the subservient chancellor.

14. And the most subservient of controllers are parents who perpetrate the Rebellion and Default through suppressing the child's true personality, bestowed by our Heavenly Parents, and having the child submit to their carers impositions by the child repressing its feelings and living through the mind.

Culture of the mind must
be subservient to the heart.

Mahatma Gandhi

NEW FEELINGS WAY

**Finding the Truth of Our Childhood
Through our Feelings Way**

**Feelings First Spirituality, New Feelings Way
Feelings are our own Truth and Personality**

Feelings First Spirituality, The New Way Feelings are your own truth and personality

Pascas University, Pascas TAFE, Pascas College, all through their many avenues, are to make available the understandings and guidance of Living Feelings First, being our Feeling Healing, throughout every community within every country in their diversity of languages, in as many differing formats, as appropriate to enable everyone to be able to consider Living Feelings First.

Through the psychology departments associated with **Pascas Care Centre** clinics and the education facilities, research programs are to expand the understanding and application of our Feeling Healing. This is to enable an evolving development of life through Living Feelings First and longing for the truth of our Feelings, Feeling Healing, and ultimately with Divine Love being then Soul Healing.

Governments will be invited and encouraged to consider these evolutionary developments. Within the ambit of governmental authorities, universities, psychology research teams and schools from pre-school through to higher education will be supported to embrace this way of living and the making available this guidance.

Governmental departments and agencies such as social services, children's services, police departments and all associated welfare departments are to be introduced to this guidance and research. Domestic violence and children's courts may realise the attributes of Feeling Healing when it begins to mitigate the numbers they have had to consider and assist. Progressively all aspects of social services and health services may find their work loads and demands that have been put upon them begin to subside. This is an evolutionary shift for humanity.

CHILDCARE CENTRE COSTS:

Day Care Centre cost	Brisbane	AU\$130 per day	26 February 2020
	Melbourne	AU\$143 per day	
	Sydney	AU\$160 per day	

An Australian family on the average wage typically spends close to AU\$6,000 out of pocket per year on child care, a new analysis from the Mitchell Institute shows. This is more than the average cost of sending a child to a private primary school.

Unlike the school sector, families don't have the option to choose a low cost publicly delivered childcare service. Childcare costs in Australia are among the highest in the OECD, eating up around 27% of families' incomes. Many families are being forced to choose affordability over quality.

Governments contribute a far lower share for early learning than what they contribute to schools. A two-parent, one-child Australian family on an average income of AU\$85,000 will typically spend around AU\$6,000 a year on childcare fees, with the government contributing about the same amount.

If that child then goes to a public primary school, the government contributes close to AU\$12,000, with minimal costs imposed on the family. Even a private primary school would typically cost the family less than they spend on child care, thanks to almost AU\$10,000 per child in government funding.

The early years of life are the most critical period for brain development. Yet Australian governments are under-investing in early learning, preferring to spend millions remediating gaps once children reach the government-funded school system.

Investing in parental workforce participation

About half of the increase in Australia's investment in early childhood services can be explained by the increase in children attending them. Since the early 1990s, the number of children in childcare has increased five-fold. Our analysis shows since 2008, participation in childcare has increased by around 80%.

Changing family structures have fuelled this rise in demand. In the 1980s, most two-parent families had only one adult in the paid workforce. Now, more than one in five Australian families with young children have both adults in full-time work.

It's not feasible to say this is a private choice, and that the costs of childcare should therefore be borne by the family. For many Australian families, costs of living can only be met by both parents working, and accessing childcare as cheaply as possible.

The impact of childcare costs is greatest for Australia's most vulnerable children and families. Low-income families are likely to spend a much bigger proportion of their discretionary income on childcare than high-income families – meaning less is leftover for other family essentials.

Other families combine care for children with part-time work. Australia has the fourth-highest rate of part-time work in the OECD, and numbers of part-time workers are growing.

The Australian government recognises that helping families balance work and family life is a worthwhile investment. The childcare subsidy is designed to make it easier for families to work, especially working parents on lower incomes.

One problem with subsidies to working families is that children miss out if either parent is unemployed. These children stand to gain most from quality early childhood services, which deliver greatest benefits for children from lower-income homes.

More money to families also enables childcare providers to charge more. Education minister Dan Tehan has acknowledged the benefits of the 2018 change to the childcare subsidy on costs for families have been swallowed up by fee increases. This suggests Australia needs to invest in early learning more wisely.

Investing in children

A smarter investment in early childhood education and care focuses on the benefits for children's learning. This kind of investment ensures all children gain access to quality early childhood services, regardless of what their parents can pay.

In 2009, governments committed to 15 hours of preschool for children in the year before school, recognising this would yield strong public benefits in the long-term.

This investment logic is similar to schools: governments pay, children learn, and the economy and society benefits. Parents can pay extra if they choose, but every child is guaranteed a quality education.

Other countries do this better. Australian families might look longingly to Sweden, which provides over 500 hours of free education and care for children aged three to five, and low fees for younger children, matched to families' income. Sweden is in the top five countries for working mums, and top ten for economic competitiveness.

A shift from private to public investment is possible even in early childhood systems more similar to Australia. In Canada, a major review of early childhood funding concluded free preschool from age 2.5 was the fairest solution, above all other options.

The review also found tax deductions (a solution proposed in Australia) favoured middle-income families, but left low-income families behind. This is because they wouldn't earn enough for tax credits to cover the costs of quality education and care.

Whatever the solution, something has to change. As annual government investment in early childhood approaches AU\$10 billion, and families still struggle under the burden of costs, the longstanding "barbecue stopper" of childcare costs needs to become an evidence-based debate about smarter investment.

Early childhood education and care Key findings

- In 2017, around 3 in 5 children aged 0–4 (925,900 children) usually attended some form of child care.
- In 2017, nearly 296,000 (90%) of eligible children were enrolled in a preschool program in the year before full-time school.

How many children aged 0–4 usually attend child care?

In 2017, around 3 in 5 children aged 0–4 (59% or 925,900 children) usually attended some form of child care:

- 30% (less than 1 in 3) for infants under the age of 1
- 62% (2 in 3) for 1 year olds
- 72% (almost 3 in 4) for 2 year olds (ABS 2018a).

Children, in 2020:

- There were 334,823 children aged 4 or 5 years old enrolled in a preschool program.
- Around 80% of children enrolled in a preschool program were aged 4 years and 20% were aged 5 years.
- Over 81% of all 4 year old and 17% of all 5 year old children were enrolled in preschool programs.
- Over 95% of children enrolled were enrolled for 15 hours or more per week.

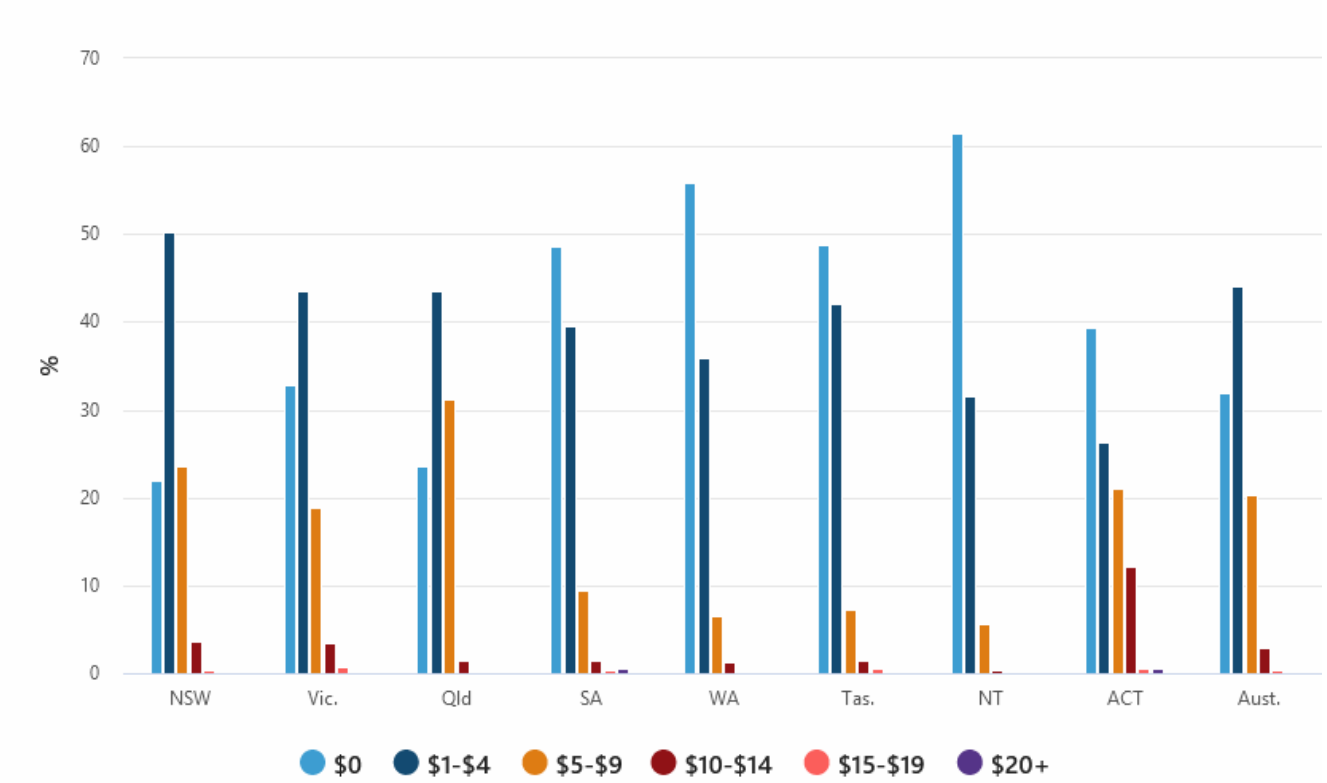

Enrolments by sector

Preschool programs are delivered through centre based day care services, or through dedicated preschools. In 2020

- There were 168,695 children enrolled only in preschool programs delivered by centre based day care services, representing 50% of all children enrolled.
- There were 134,056 children enrolled only in preschool programs delivered by dedicated preschools, representing 40% of all children enrolled.
- There were 32,074 children enrolled in preschool programs across more than one provider type, representing 10% of all children enrolled.
- In dedicated preschools 39% were enrolled in government preschools, 59% were enrolled in non-government preschools and the remaining 1% were enrolled in more than one preschool.
- Enrolments across service delivery models varied by state and territory. Western Australia (74%), Tasmania (62%), and the Northern Territory (62%) had the highest proportion of children enrolled in dedicated preschools, while Queensland (69%), New South Wales (66%) and Victoria (46%) had the highest proportion of children enrolled in preschool programs in centre based day care services.

States/Territories	Service Type	Educator to Child Ratios
Children from birth to 24 months		
All States and Territories	Child care centre	1 educator to 4 children
Children aged 24 to 36 months		
Generally	Child care centre	1 educator to 5 children
Children aged 36 months and older		
Generally	Child care centre/preschool	1 educator to 10 children
Children over preschool age		
All States and Territories	Outside school hours and vacation care	No national ratios however state and territory ratios may apply
Children aged birth to 13 years		
All States and Territories	Family day care	1 educator to 7 children with no more than 4 children pre-school age or younger including educator's own children younger than 13 years of age at home

Graph 3 - Hourly fees, children enrolled, 2020

Service providers, in 2020:

- There were 12,416 service providers delivering a preschool program to children aged 3 to 6 years
- Around one in three (34%) preschool program providers were dedicated preschools
- Nearly two out of three (66%) preschool program providers were centre based day care services
- Service delivery models differ across the states and territories. New South Wales and Queensland have largely centre based day care delivery models (accounting for 80% and 73% of preschool program providers respectively). Dedicated preschools made up the highest proportion of providers in Tasmania (61%), Western Australia (57%), and the Northern Territory (54%).

PROGRESSION TOWARDS the NEW SPIRITUAL AGE – 2020 is the YEAR!

Dr David R Hawkins researched and developed the application of kinesiology muscle testing for more than 20 years prior to publishing *Power vs Force* and the Map of Consciousness (MoC) table in 1995. As per the table below, what he came to understand that prior to the conception of Jesus of Nazareth and Mary Magdalene, humanity calibrated overall at 101 on the MoC. Following Jesus' life and that of the Apostles, humanity calibrated around 190 on the MoC at which humanity continued up until around the 1960s. During this era the world population grew from around 300 million to 3 billion, however the MoC calibration for all of humanity remained around 190.

Worldwide Level of Consciousness based on the Map of Consciousness

see *Power vs Force* by Dr David R Hawkins

6,000 years ago	72
At the time the Vedas were written	74
At the birth of Buddha	90
Prior to the conception of Jesus of Nazareth	100
After the birth of Jesus of Nazareth	147
When Christ was taken from the cross	148
At the Last Supper	150
At the death of the last apostle	182
At the birth of Charlemagne	182
In 827 AD (at the death of Charlemagne)	190
When Abraham Lincoln took office as President 4 Mar 1861	190
Lincoln was shot and killed 14 Apr 1865	193
1944: birth of almost 200 Homo-Spiritus children	194
1987: At the time of the Harmonic Convergence but not necessarily related to it, consciousness of humanity jumped	207
2008: Current observation as we move forward to an apparent evolutionary jump, which will be a slow, steady process	212
2020 January 3: World population is now 7.8 billion. Humanity as of this date calibrates overall at	219
This increase is wholly attributable to two soulmate pairs who have significantly progressed with their Feeling Healing	
2021 March 31: 3 people have completed Healing	220

For nearly 2,000 years humanity has not been able to progress with their evolutionary development. For all of that time, with humanity calibrating below 200 on the Map of Consciousness; at the level of 190, the potential for total self-destruction prevailed. Only at a level greater than 200 is humanity able to survive. We are not going to self-destruct. We are going to move into the next spiritual age. However as we are to leave behind all the systems and way of life that has prevailed these past 200,000 years of Rebellion and Default, everything will change. We will not be allowed to fall back to the ways of living that we are accustomed to. Thus our environment will change. This we experience through the marginal increases of temperature worldwide and other changes and events. Nothing will remain the same. All institutions and ways of living will collapse around us as we need to now evolve.

Spiritual growth on Earth evolves connectivity! Spirit connectivity is relevant to level of truth.

Early 1990s:	The arrest of the Caligastia and Daligastia soulmate / soul partner pairs, being rebellious Lanonandek spirits – Earth’s planetary prince and deputy.
22 March 2017:	Negative mind-spirit influence was blocked by Celestial spirit.
31 March 2017:	Angel assisted healing will become available upon the Avonal pair completing their own Feeling Healing, being with Divine Love, thus it being Soul Healing.
22 May 2017:	Law of Compensation quickening.
2 December 2017:	Psychic Barriers maintaining the Rebellion and Default were cracked.
8 December 2017:	Bring on the money to ‘ house the future of humanity ’.
31 January 2018:	Earth and the seven associated Mansion Worlds (including the two Earth planes) are officially now fully under the control of Celestial spirits. This marks a tangible and real end to the Rebellion and Default.

Three people on Earth are of high 7th Mansion World condition - this is what has unfolded:

As of November 2020, due to three people on Earth progressing through their personal spiritual healing and progressing into the equivalent of the 7th spirit Mansion World, have enabled the above events and milestones. Two high level spirits have led the way. These two personalities have needed to incarnate into the physical and unaided have had to find the way to heal themselves of the imposts of the Rebellion and Default which they voluntarily took on. This is the most exciting time in the history of Earth’s humanity.

When they move into Celestial Heaven soul condition while living on Earth then:

Upon becoming of a Celestial soul condition, then these two personalities will have Celestial soul level truth and will be able to directly convey such truth in person. Having then done so, Celestial Heaven spirit personalities will be able to follow and directly communicate with personalities in the physical on Earth in a similar manner. Presently, Celestials can only prompt people and not converse.

The level that the two high level spirit personalities progress to while living in the physical will set the ceiling for those on Earth in what they can grow in truth and love to. We can only follow.

Further, the conditions that prevail throughout the 1st spirit Mansion World may progressively be earthed. In the Mansion Worlds, the operation of the Law of Compensation is instantly imposed through the vigilance of Angels. This is likely to be imposed on physical Earth from the coming 1,000 years.

For Humanity to go through a spiritual upliftment, such as now, high level spirits must lead the way!

The Rebellion and Default was imposed upon Earth’s humanity by high spirits from within our Local Universe of Nebadon. To end the Rebellion and Default, higher level spirits, being an Avonal pair from Paradise have had to lead the way out of the Rebellion and Default. This they are now doing!

Feelings first

Peace

Humanity that is above 500 on the Map of Consciousness scale is Feelings First orientated.

Below 500 we have: ↓

Conflict does not occur amongst these people. They engage with their soul based truths. Below 500 one is predominantly mind orientated!

Presently, humanity calibrates overall at around 220 and is engaged with their wayward, controlling, addicted minds. Through living feelings first with one's mind subordinated thereto, humanity will universally progress beyond conflict of any kind, particularly war.

MAP OF CONSCIOUSNESS

Map of Consciousness from Dr David R Hawkins, M.D., Ph.D. "Power vs Force".

Level	Log
ENLIGHTENMENT	700-1000
PEACE	600
JOY	540
LOVE	500
REASON	400
ACCEPTANCE	350
WILLINGNESS	310
NEUTRALITY	250
COURAGE	200
PRIDE	175
ANGER	150
DESIRE	125
FEAR	100
GRIEF	75
APATHY	50
GUILT	30
SHAME	20

PERSONALITY TRAITS:

- ← Less than two dozen people on planet Earth.
- ← Would not pick up a weapon let alone use it. These people gravitate to the health industry and humanitarian programs.
- ← Debate and implement resolutions without argument and delay. MoC 470
- ← Debate and implement resolutions in due course. MoC 440
- ← Debate and implement resolutions with some degree of follow up generally needed. MoC 410
- ← Management supervision is generally necessary.
- ← Politics become the hope for man's salvation.
- ← Cause no harm to others starts to emerge. Power overrides force. Illness is developed by those man erroneous emotions that calibrate 200 and lower.
- ← Armies around the world function on pride. Force is now dominant, not power.
- ← Harm of others prevails, self-interest prevails.
- ← Totally self-reliant, not God reliant.
- ← Fear dominates all motivation.
- ← Suicide is possible and probable.
- ← At these levels, seriously harming others for even trivial events appears to be justifiable.
- ← Poverty, unemployment, illness, etc., this is living hell on Earth.

WE have SUCCUMBED to our MINDS and IMPRISONED OURSELVES:

Yes, we have been seduced into believing and, consequently, living through our minds. This error has permeated into all aspects of our life. As parents, we have focused upon our children's mind development and this has continued through all levels of education that we have imposed upon them.

**A LIFE
BEHIND BARS**

No level of education has progressed beyond the level of 500, as per Dr David R Hawkins' Map of Consciousness (MoC). 'The transformative energy fields from 500 up are calibratable, nonlinear, self-effulgent, radiant, and beyond verifiable scientific definition.' This is further confirmed in that only a few scientists have calibrated marginally above 500 due to them embracing their feelings. The greatest scientists have typically calibrated only at the level of 499. The mind development hits an iron braced ceiling at 500.

Note:

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.

A calibration increase of 1 point is in fact a 10 fold increase in energy.

A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.

Thus the energy differentials are in fact enormous!

Opening ourselves up to living Feelings First further requires us to long for the truth of our feelings.

Without looking to our feelings and wanting to uncover the WHOLE truth of them, we can't heal our errors of belief and injuries. It's as simple as that despite what anyone does with their emotions and feelings. And many people in their endeavours to heal themselves have done some real Healing, if they at any time looked to their feelings for their truth, and this truth would have been forthcoming. So humanity has gained a little truth over the years. However, because of the feeling-denying forces of the Rebellion and Default that have been in play for some 200,000 years, the level of truth has remained very low.

The New Way, living Feelings First – Feeling Healing – which is now being revealed, will have many people wanting to follow it, looking to their own feelings for their own true power and freedom. As a consequence, they will no longer want to be dictated to by bogus religions or politician's corrupt social and educational systems or deep state hidden controllers or mind spirits or anyone else.

“Once humanity collectively understands what has happened to them on the higher spiritual level, how the people have been controlled, and that it's over, that control is no longer controlling, it's just legacies of it, all of which the average person can deal with by destroying it in themselves, things will change markedly for the better. And as the people change, so too will how they want to live, it will be a great time of revolution, nothing will be the same. So what you are currently living through is the end of the Rebellion and Default, it literally is, and so once the end is fulfilled and the New starts, then all how it currently is and has been will cease to be.”

Nanna Beth 3rd Celestial Heaven 20 March 2018

MAP of CONSCIOUSNESS CALIBRATIONS reflect the nature of the TOPIC:

The level of truth of a topic or subject is reflected in the calibration through employing Dr David R Hawkins' Map of Consciousness with kinesiology muscle testing. A publication or movie about manufacturing food would be around 200, whereas meals prepared in a loving home would be around 500. The subject of pornography through to war would be less than 200, whereas natural love topics can readily be over 500 and up into the 800's plus. Material introducing Feeling Healing with Divine Love, by its nature, will range between 1,480 to 1,500 on Dr David R Hawkins' Map of Consciousness (MoC), in its purest form of presentation. This has never been previously achieved.

MAP of CONSCIOUSNESS	MoC	calibrations
God, our Heavenly Mother and Father	Infinity	Location being Isle of Paradise
Celestial Heavens peak	1,500	3 rd Celestial Heaven (10 th spirit Mansion World)
Feeling Healing / Divine Love teachings	1,480 – 1,500	3 rd Celestial Heaven spirit guided
Now at one with Heavenly Parents	1,081	1 st Celestial Heaven entry at Jerusem
Feeling Healing with Divine Love	1,080	7 th Divine Love transitional sphere to Heavens
Natural Love peak	1,000	6 th spirit Mansion World peak– can't go further!
Pascas WorldCare (as a platform)	880	5 th spirit Mansion World healing + Divine Love.
Lamsa Bible (minus the Old Testament and Book of Revelation, but including Genesis, Psalms, and Proverbs)	880	4 th spirit Mansion World equivalent being natural love orientated, the Bible is taking one away from truth – their soul based feelings.
Koran	700	4 th spirit Mansion World equivalent.
Torah	550	First five books of the 24 books of the Tanakh.
Cookies made for Family	520	Made with love (this supports cooking shows).
Enter EITHER natural or divine pathway	500	2 nd natural love OR 3 rd Divine Love spirit world.
Peak of mind total orientation	499	1 st spirit Mansion World peak.
King James Bible (from the Greek)	475	
Roman Catholic Church	450	Church (worldwide) – mind controlled – reason.
Home cooked sea fish + organic salad	410	
Home roasted free range chicken + salad	410	
Wine or Beer	330	(in moderation!)
Roman Catholicism administration	305	As an institution in year 2004.
Tea green	300	
Humanity	220	The population of the world overall year 2021.
Vegetarianism	205	
Muesli	205	Above 200 is pro-life – positive.
Food	200	At this level and above food is life enhancing.
Food, Commercial Cat	192 – 202	Below 200 is anti-life – negative.
Food, Commercial Machine-made	188 – 200	Energy dense but nutrition poor.
Black Tea	185	Refining of most foods removes nutrients.
Percolated Coffee / Cappuccino / etc	165	
Corn Flakes	85	
Fish (living in ocean)	20	
Bacteria	1	

CONSCIOUSNESS vs LIFE EXPECTANCY:

“What nations of the Earth today vibrate to those things that they have and are creating in their own land, their own environment? Look to the nations where the span of life has been extended from sixty to eighty years.

“What is the spirit of a free nation? Most individuals proudly boast “freedom”. Freedom of what? Those nations who have taken those vows that man shall be free should also take those vows “He shall know the truth and the truth then shall make him free”.

Freedom in the World 2014 Findings		
Freedom Status	Country Breakdown	Population Breakdown
FREE	88 (45%)	2,826,850,000 (40%)
PARTLY FREE	59 (30%)	1,822,000,000 (25%)
NOT FREE	48 (25%)	2,467,900,000 (35%)
TOTAL	195	7,116,750,000

The Map of Freedom reflects the findings of Freedom in the World 2014, which rates the level of political rights and civil liberties in 195 countries and 14 related and disputed territories during 2013. Based on these ratings, countries are divided into three categories: Free, Partly Free, and Not Free.

A Free country is one where there is broad scope for open political competition, a climate of respect for civil liberties, significant independent civic life, and independent media. Partly Free countries are characterised by some restrictions on political rights and civil liberties, often in a context of corruption, weak rule of law, ethnic strife, or civil war. A Not Free country is one where basic political rights are absent, and basic civil liberties are widely and systematically denied.

**Living Mind dominated is
claustrophobic and suppressive!**

The Glass Ceiling

The Mind presents a treacherous glass ceiling!

The

Couch

Psychology and Feeling Healing

Who hurt me when I was a child?

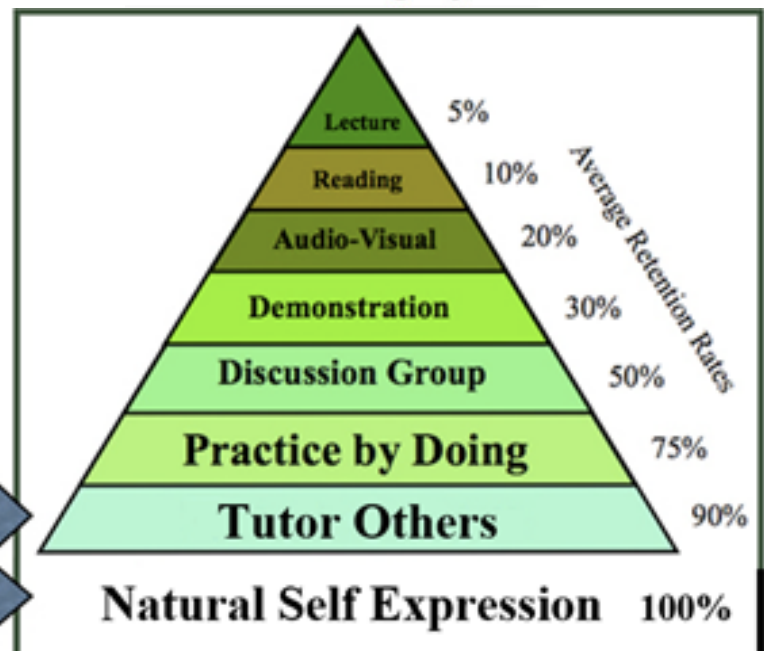

BLUEPRINT

We are our Childhood

The Learning Pyramid

our MIND is a CONTROL ADDICT!
our MIND is addicted to UNTRUTH!
our MIND cannot discern TRUTH!

our MIND is within our SPIRIT BODY
and orchestrates our physical BRAIN.

ASSUMPTIONS are the product of our MIND!

HEALING ends
MIND-CONTROL!

our SOUL is our TRUTH!
our FEELINGS are our TRUTH!
FEELINGS FIRST, mind to follow!

all we need is WITHIN.
our MIND suppresses FEELINGS.

ASSUMPTIONS *and the* **MIND**

Whenever a principle or platform of truth is formed around an assumption, then as further truth is revealed, the error may become obvious.

A great deal of custom and passed down practices have evolved through handwritten records which have been copied and re-copied and have then been injected with assumptions that have become the core belief and customs by which people have lived by for many generations.

These platforms need to be revisited and addressed. We will find that these mind derived assumptions have a 98% error rate. We will further find that the mind's propensity to have control of others has distorted matters and that all systems worldwide are in need of rebuilding.

Education, health, science, commerce, legal, governmental and all platforms have evolved through the mind and are all taking us further away from our feelings, our soul-based feelings of truth and are suppressing our true personalities. There is not a man-made system on Earth that is presently founded on truth, the truth that we all long for.

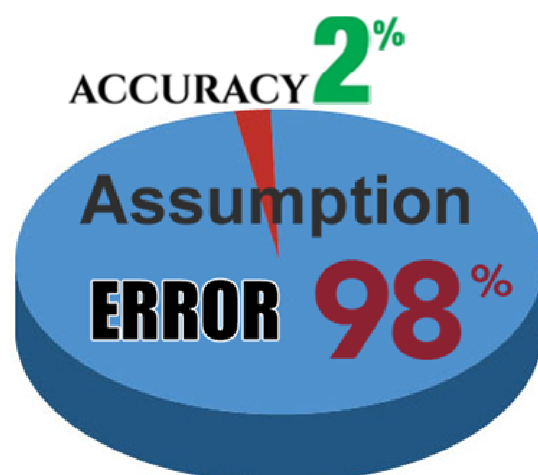

Meanwhile, hidden controllers have seized the moment and have achieved global domination, hoarding massive wealth to the detriment of humanity. Only will it be through a change in the way of living will this and other power bases crumble. We may disturb hidden controllers but if we do not change our way of living they will reassemble their controlling power!

It will only be through the New Feelings Way emerging as a way of living, that education, health services, science, commerce, legal, governmental and all other platforms will be appropriately restructured.

The revelations of Living Feelings First, Feeling Healing and the New Feelings Way have been provided to all of humanity, from the highest authority, to enable each and every one of us to consider the options and possibilities. Our freewill continues to remain sacrosanct.

This revealing has been in the planning and preparation for thousands of years. It was two thousand years ago when the foundations for the arrival of these possibilities and revelations took place when on 31 May 1914 the first writings commenced through James Padgett in what is known as the Padgett Messages. The primary auxiliary writing is The Urantia Book (1925-1935).

The major and most important writings are those of James Moncrief commencing in 2002. This is the focus of the publications that are to be made available in numerous formats and in all of the important languages so that every community, worldwide, will have access and potentially become aware of the teachings and revelations.

**Feelings shine with
Truth and Love!**

Root Cause

Highly esteemed Lanonandek spirits from within our local universe of Neadon were assigned as System Sovereigns of our local system to oversee Earth's humanity and their spiritual development. 200,000 years ago they, the Lucifers, became infatuated with their authority and turned against the regents of Neadon, Mary and Jesus, as well as rejecting God. Through their Planetary Princes, also Lanonandek spirits, they had taken the humanities of 37 worlds within their local system into their Rebellion.

Through living through our minds, suppressing our feelings, we on Earth will continue to be at war with each other, illnesses of all descriptions will continue from our feelings suppression, famine and inequalities prevail, control of others is the core of all systems, we cannot determine truth from falsehood and life on Earth is a living hell. We have been continually seduced by mind Mansion World spirits and we live life in a stupor – nothing more than zombies doing the begging of the evil ones, the rebellious Lanonandek spirits.

Through living through our minds, suppressing our soul based feelings, we have been progressively going further and further away from our Heavenly Parents, now to the point that we cannot go any further. Through working cracks in the Universal Contract governing the Rebellion and Default, this control has been ended formally as of 31 January 2018.

Pathway Forward

To liberate one's real self, one's will, driven by one's soul, moves one to embrace Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.

God's Divine Love: Pray for it, ask for it, and receive it.

The Golden rule is: Never interfere with another's will.

Golden Rule: that one must always honour another's will as one honours one's own.

New Feelings Way: learning how to live true to ourselves by living true to our feelings.

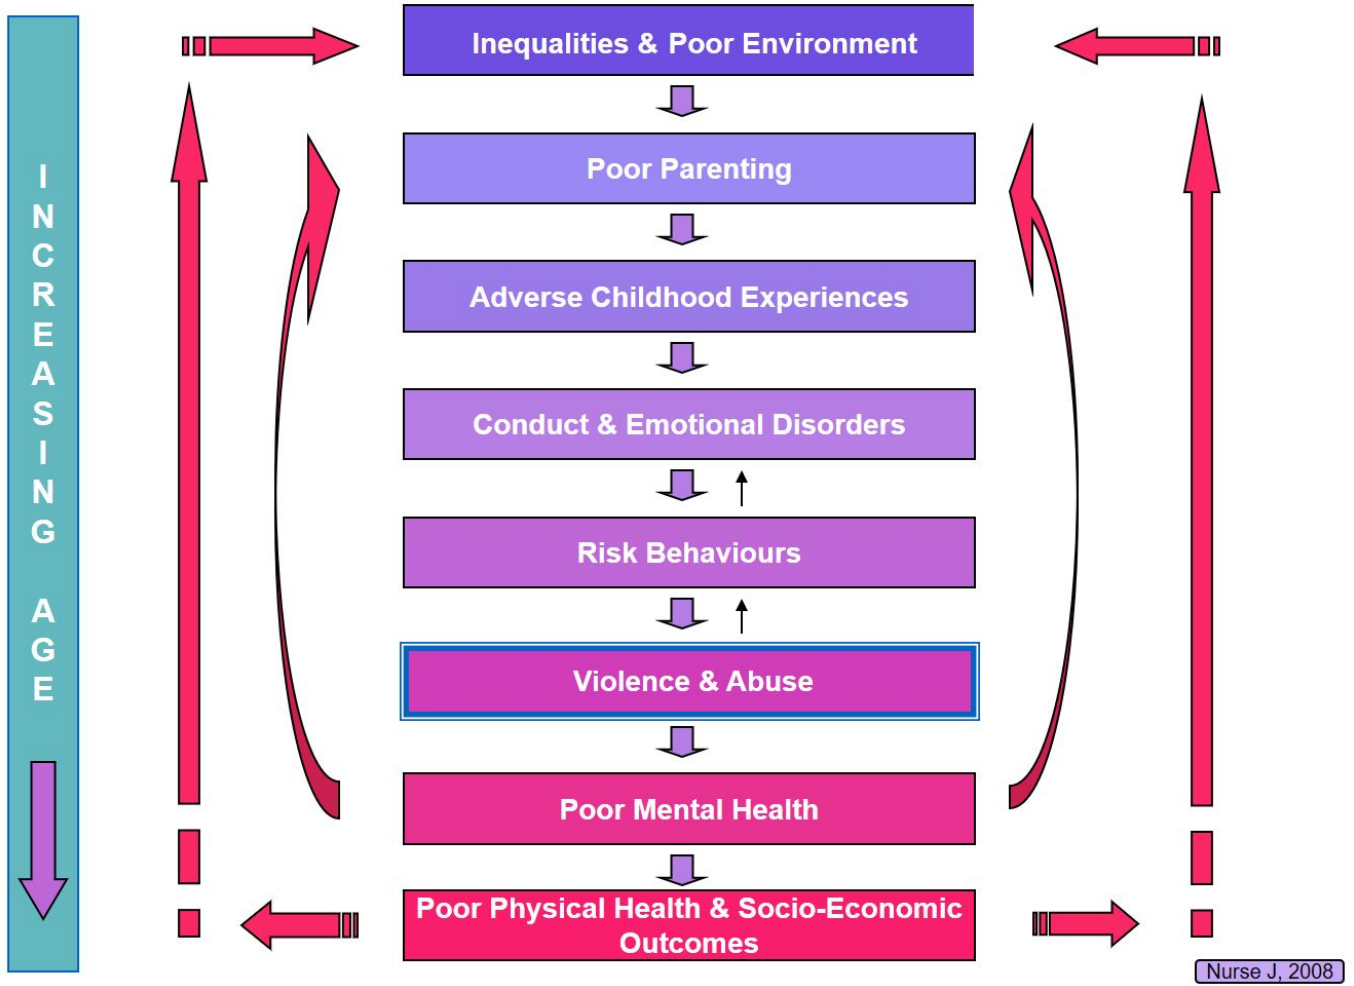

We are to express our feelings, both good and bad, at all times, and to long for the truth of them.

By living true to ourselves true to our feelings, we are living true to God. It's that simple.

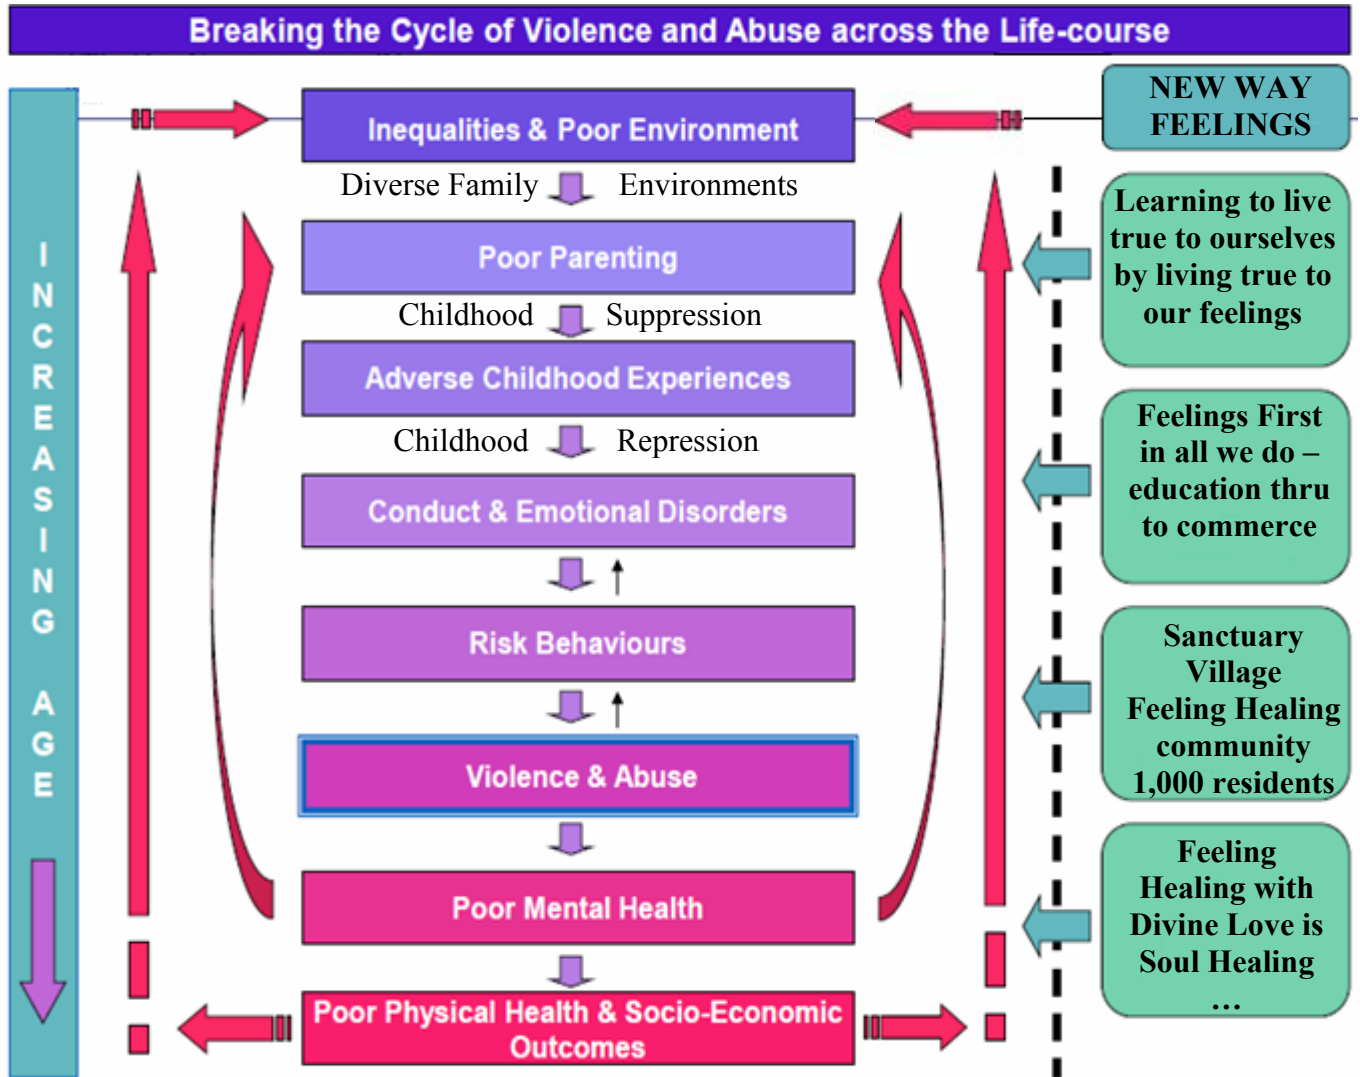

LIFE IS FOR LEARNING

The Cycle of Violence and Abuse across the Life-course

Seek **truth** from the cradle to the grave.

It's all about
Experiences
 &
FEELINGS

BE FEELINGS EXPRESSIVE!

The New Way

Living True to Your Feelings

We live denying many of our feelings, which is not good or healthy for us.

Early in our childhood our parents, families and society in many ways tell us that expressing certain feelings is not right, it's unacceptable, forcing us to block them out.

“Stop crying, you're too old to cry”. “If you carry on behaving badly, you'll be punished”. “Smile, stop looking so miserable, what have you got to be unhappy about!”

We are told many of our childhood bad feelings (and often good ones too) are not welcome, which is saying, you are not welcome as you are, you must change yourself and be as we say you are to be. It's not loving to be treated that way.

And by forcing ourselves to change causes us to suppress and then keep repressed many bad feelings. And all those repressed bad feelings fester away inside us making us sick and unhealthy.

To be made to stop expressing any feeling means we are being stopped from expressing the whole of yourself. And that is very damaging.

Living by not expressing ALL our feelings fully means we can't enjoy fulfilling relationships, it causes problems, unhappiness and all illness.

So all our problems and difficulties stem from the fact that during our childhood we were stopped from expressing all of ourselves, by not being allowed to express all of our feelings. And this is how the whole world lives. Some people, families and societies being more or less feeling-expressive than others.

And The New Way seeks to end any repression of feelings. It's to understand that we should live fully expressing all we feel and not with our mind heavily in control of ourselves limiting our self- and feeling-expression.

The Old Way is living the Mind way of feeling repression. An unloving way of being.

The New Way is living the **True Way** of feeling expression. A loving way of being.

OUR INDUCTION into PHYSICAL LIFE:

At our conception, we are welcomed by a relentless infusion of errors and injuries, unknowingly, carried by our parents and carers!

Our physical parents do not realise that even before our incarnation we have taken on board their combined emotional errors and misbeliefs. We are now suffering their pain!

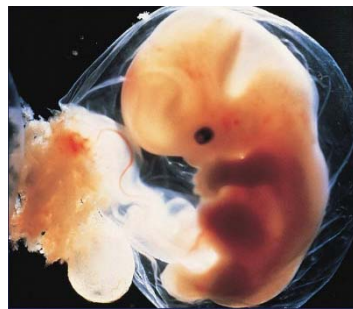

We are conceived perfect. Our childhood illnesses, deformities and personality distortions are all a cocktail of their injuries. The onslaught is so great that worldwide around 50 million miscarriages occur annually.

Only by embracing Feeling Healing will miscarriages, deformities, childhood illnesses and abortions abate worldwide – and then childhood delinquencies will also abate.

OUR FORMING YEARS are MOST DYNAMIC and TRAUMATIC:

Age-group	Age
Gestation	conception to birth
Newborn	0 days to 1 month
Infant	1 month to 1 year
Toddler	1 to 3 years
Preschool	3 to 6 years
School age child	6 to 12 years
Adolescent	12 to 18 years

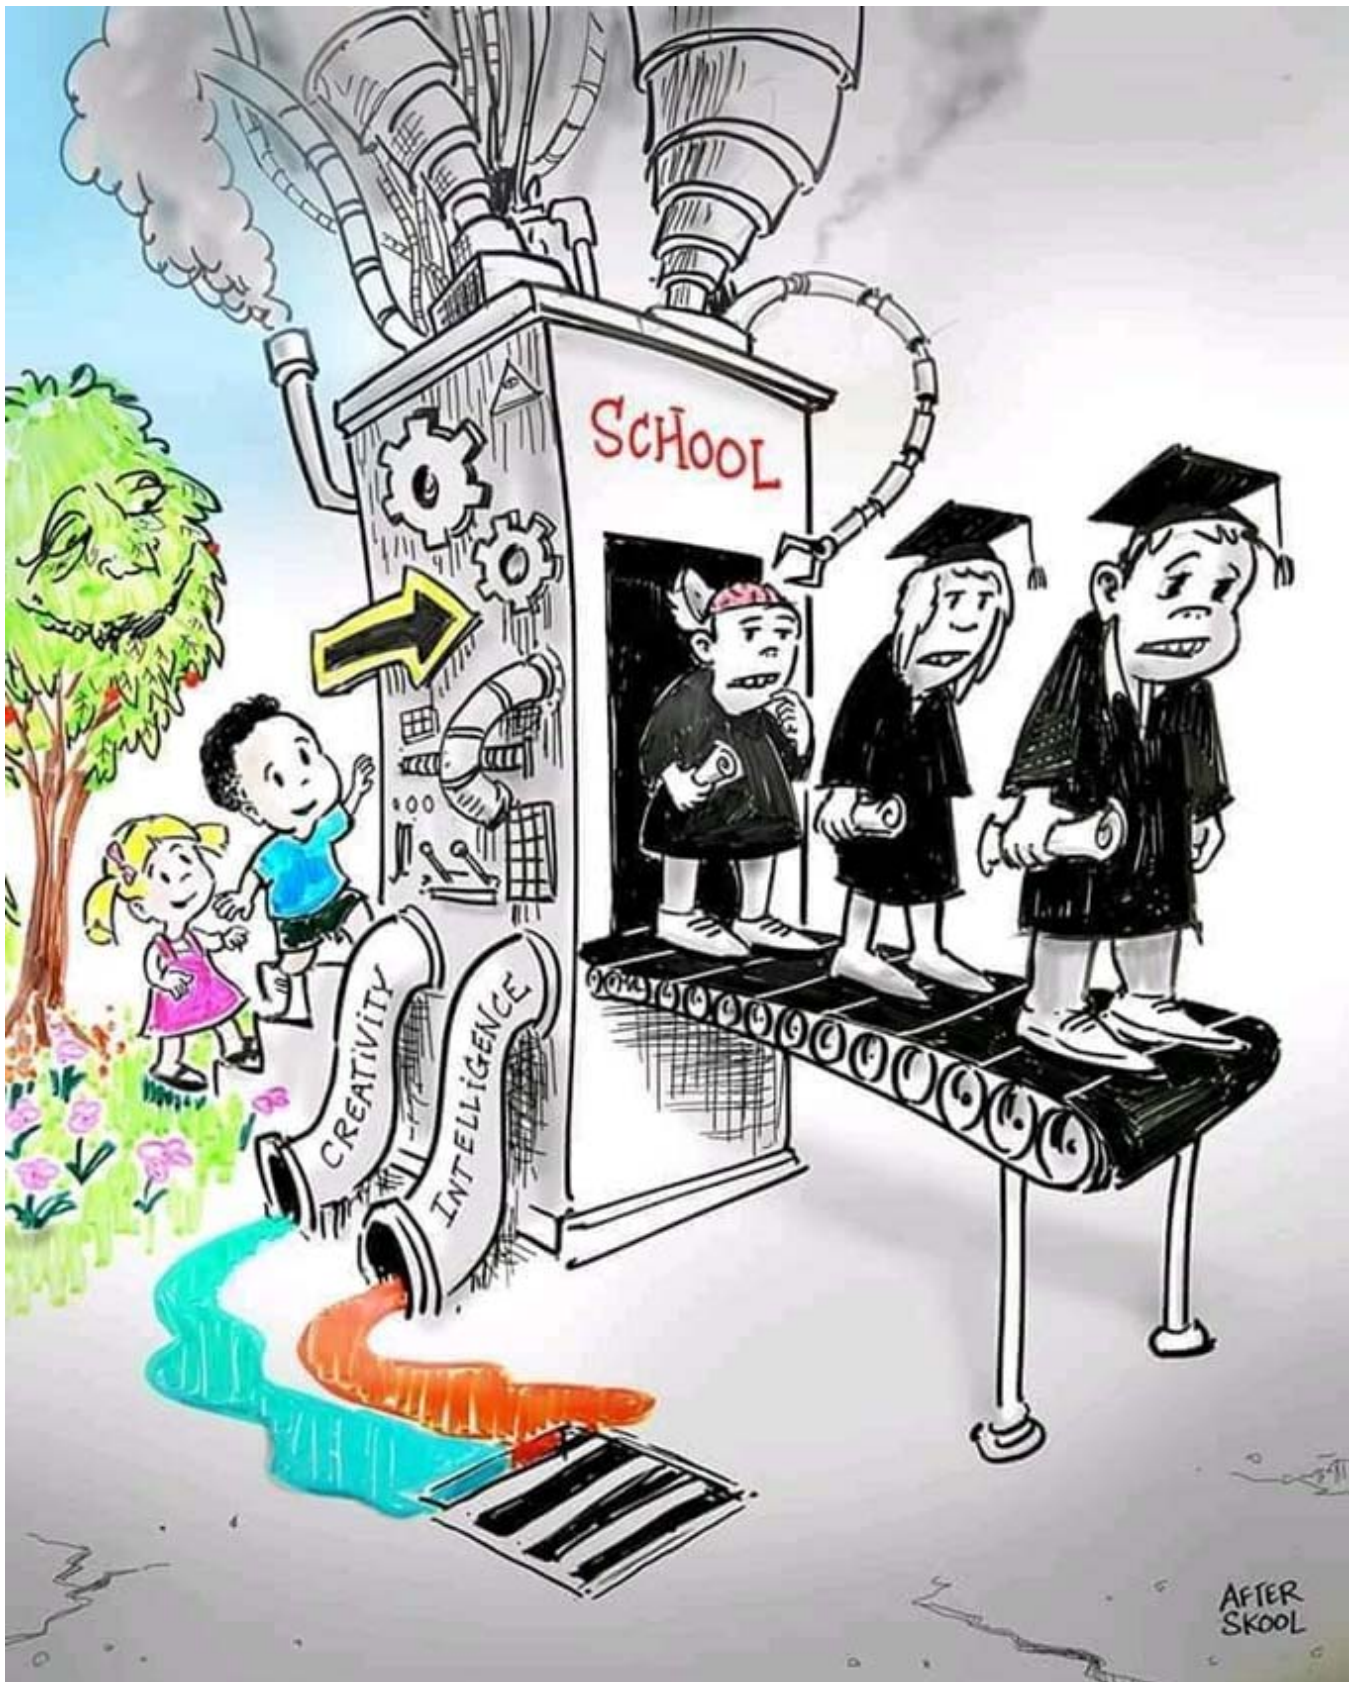

Our childhood formative years are from conception through to age of 6 years. Commencing at conception, we begin to take on all of the injuries and errors of belief of our parents and carers. We capitulate to adopting the 'personality' that our physical parents impose upon us, to the detriment of our true personality.

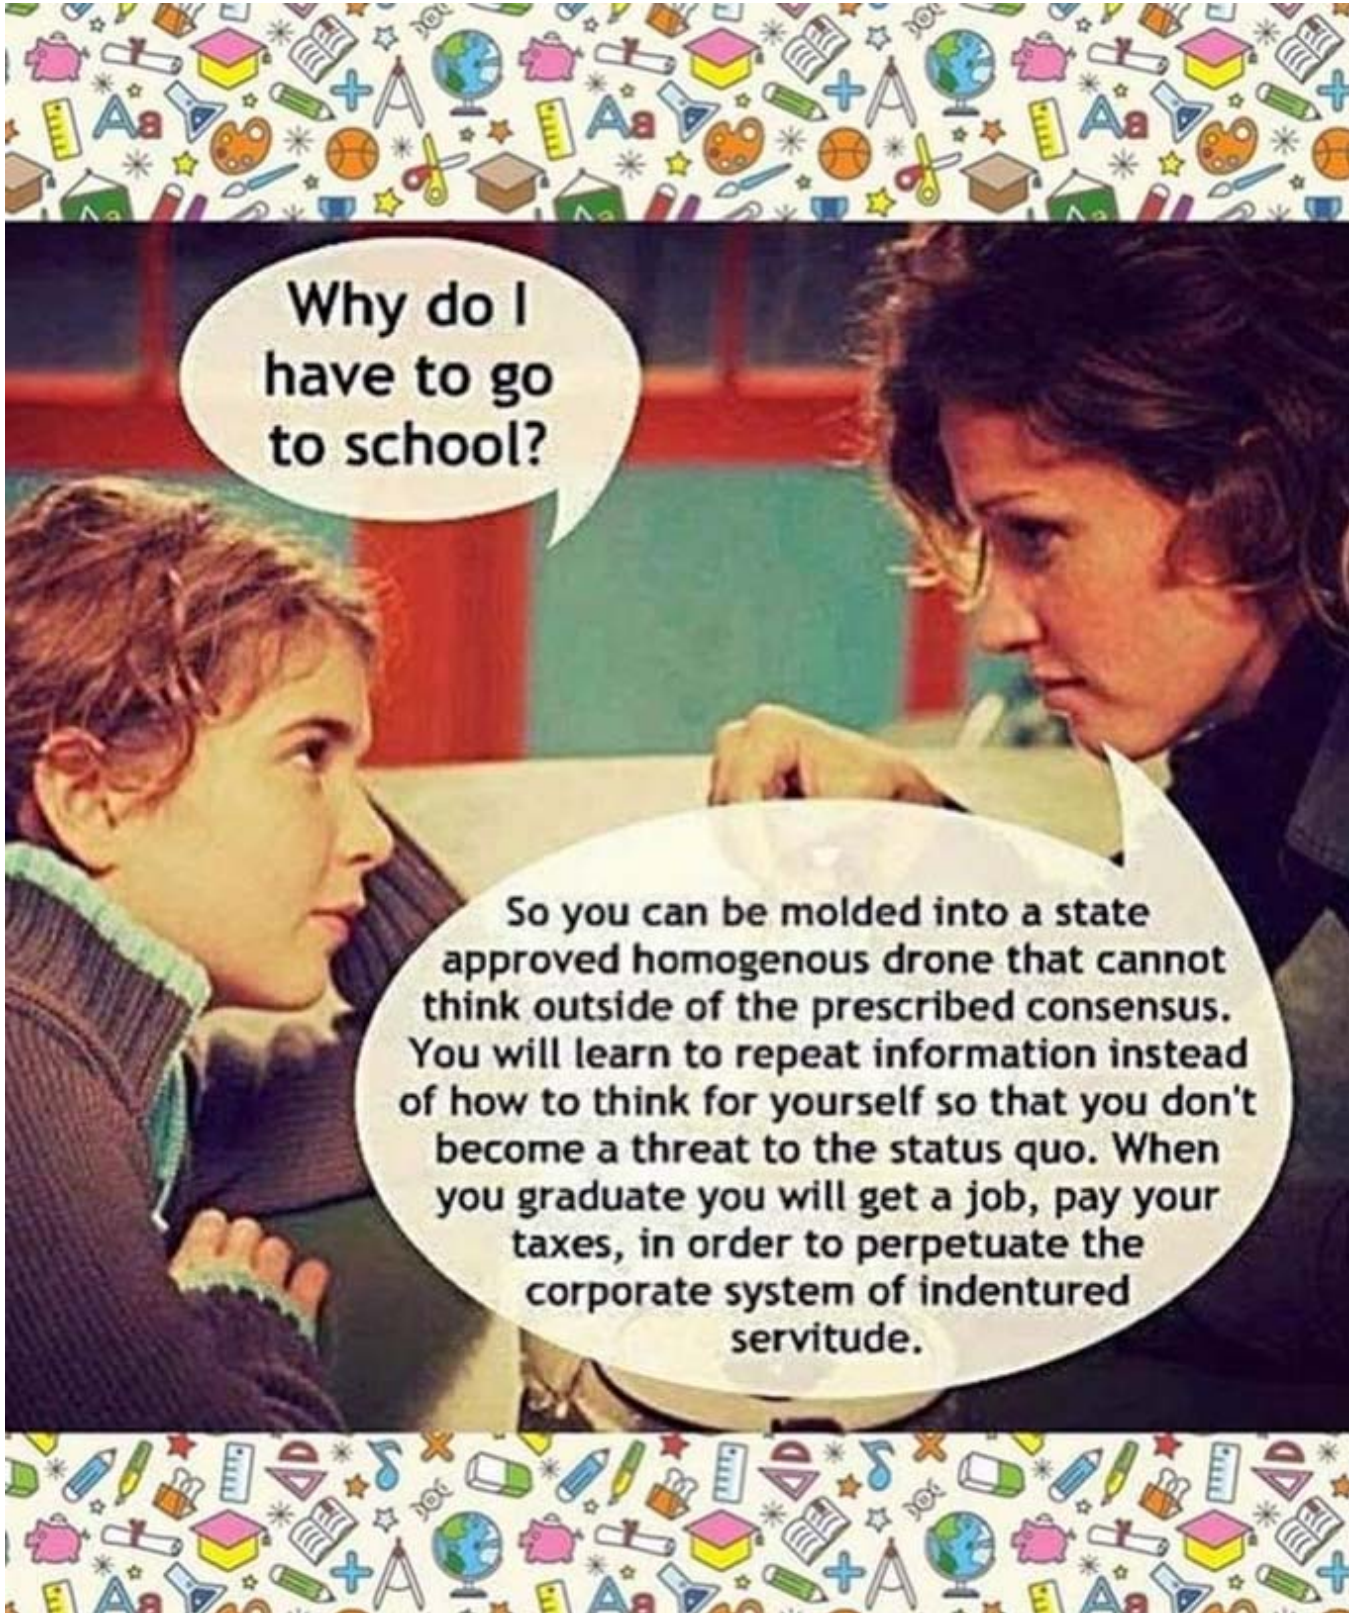

Somehow, we go on smiling and laughing...

and then ...

We do everything possible to avoid our Feelings!

We embrace the controlling natures of our mind to fill our day with activities that avoid our inherent truth to arise through our feelings and then having to express them and seek the truth behind them. We submit to imprisonment within our minds and willingly allow our life to roll on in a retarded and aimless manner that we can continue in earnest even when we transition into the spirit mind Mansion Worlds. Everything we may do is to avoid meaningful communication with another person and to distract ourselves from allowing our feelings to bring forth the vibrant and incredible true personality that we are that has been suppressed throughout our early forming years, from conception through to six years of age. Eventually our soul will say enough is enough and we will be confronted with a crash to open ourselves to our feelings and heal our Rebellion.

200,000 years of UNFETTERED DOMINATION! by wayward High Level Spirits

OUR MIND CONTROLS US!

Feelings Way or the Mind Way

The rebellious Lanonandeks, led by the Lucifer and Satan soul partner pairs, instilled upon Earth's humanity, countless platforms of mind domination institutionalised systems. Even throughout remote regions, such as for the Australian Aboriginals, the mind Mansion World spirits imposed themselves so deeply into the psyche of the Aboriginals that they are profoundly impacted by mind platforms through their traditional practices, so much so that they may take longer than most to realise the freedom that comes from Living Feelings First and begin to heal themselves of 200,000 years of living and going in the wrong direction through mind domination.

The Rebellion mind dominance maintained the environment of conflict throughout all facets of living life on Earth. Where ever you have mind domination you have conflict and war! It is as simple as that.

Truth is always truth. There is only one truth. So instead of having one spiritual platform for and throughout Earth's humanity, we have 3,400 significant religions and when you add on the small denominations that are offshoots of all the major religions, you have around 50,000 religious communities professing to embrace the 'one truth'!

While we live through our minds, conflict at all levels will unfold. Only through Living Feelings First and having our minds to follow will harmony eventuate. This is a change in how we have been living for 200,000 years that is now to be embraced by the overwhelming majority of humanity during the coming Avonal Age of 1,000 years.

To aid this transition, the quickening of the Law of Compensation is to unfold for humanity on Earth. It will be earthed in the same way as it is applied throughout the spirit Mansion Worlds.

The problem with humanity is that:

We accepted our parents as being 'gods'!
Then we accepted our teachers as supreme educators
Then university professors implied all knowing
3,400+ Religions ALL hold the only truth!
Now only our employers are to be obeyed!
Over all of these are numerous government layers!

All direct us to worship our minds
All suppress and ignore our feelings
None allow our true personality to be expressed
We are all in some form of depression and stupor!

We are to aspire to and live Feelings First
and long for the Truth that our Feelings show us!
And long for the Love of our Heavenly Parents!

Avonal Revelation

- We are to live Feelings First.
- We've been made to use our mind to live against many of our feelings.
- Our mind control commences at conception and is developed through our childhood.
- All the bad feelings we didn't express as we were growing up are still repressed inside us.
- And all such hidden, buried and unwanted feelings have to come out.
- And whilst they remain repressed within us, they will continue to make us feel bad and unloved.
- We get sick, depressed, suffer, have bad things happen to us because of our repressed childhood feelings.
- Humanity was brought into this state of living against itself by higher rebellious spirits.
- These Evil Ones caused the Rebellion and Default.
- We are made to rebel by default – as we have no idea we're doing it through our parenting in wrongness.
- We are all parented unlovingly – against ourselves, against our will.
- Some parenting in the wrongness is done with more love, yet it's all still wrong.
- To heal this unloving state within ourselves we have to do our Healing.
- Our Healing is our Feeling-Healing or Soul-Healing with the Divine Love.
- We can long to God for Their Divine Love, and this will help us with our Healing.
- God is our Heavenly Mother and Father, the Feminine Aspects of God having been kept hidden from us by the Evil Spirits.
- All humanity's religions and spiritual systems are designed to keep the wrongness going, to keep us away from God.
- Only by living Feelings First Spirituality, The New Way, can you become right, and truly find God.
- Long for the Divine Love.
- Long for the Truth of your Feelings.
- Accepting all you feel is accepting all of yourself, it's your greatest act of self-love.
- And wanting to know the truth of your feelings, is your next greatest act of self-love.
- Love yourself through your feeling-acceptance, and the Truth will set you Free!

31 May 1914 and ongoing

ENOUGH IS ENOUGH

Andon and Fonta, our first parents to long for our Heavenly Parents, lived nearly 1,000,000 years ago. Naïve humanity was seduced by high spirits, the Lucifer pair, to believe they could be gods through their minds, thus men subjected women to subordination 200,000 years ago. Also added to this was the default of the Adamic pair more than 38,000 years ago when they failed in their mission.

REBELLION & DEFAULT **200,000** YEARS

When Jesus with Mary achieved their full Regency of Nebadon, in 26 CE, they immediately had the Lucifer and Satan soulmate pairs assigned to a spirit world prison. Since then, the Creator Pair have been preparing for the ending of the Rebellion and Default for humanity of Earth. The Avonal Pair now on Earth, once commencing their Healing, brought about the imprisonment of the Caligastia and Daligastia pairs in the early 1990s. As the Avonal Pair advanced with their Healing they brought about the formal end of the Rebellion and Default, on 31 January 2018. It is now for all of humanity to embrace the Spirits of Truth of the Avonal Pair and undertake their healing of the imposts of the Rebellion and Default.

Avonal **AGE 1,000** YEARS

Spirits of Truth of the Avonal Pair will guide us through our Feeling Healing and into the Celestial Heavens with Divine Love, then the Spirits of Truth of the Creator Pair will lead us through the Celestial Heavens and out through Nebadon towards our Heavenly Mother and Father in Paradise.

Each generation of 25 years or so will see marginal embracement of Feeling Healing, however in 1,000 years it will achieve universality.

A few will complete their healing during their lifetime, but for many it will be incremental.

Universality of Feeling Healing with Divine Love will see the mitigation of discomfort, pain and illness as well as the imposts of global warming and Earth changes. These events are to ensure that each of us embrace our feelings, both good and bad, down to the very core, so that we fully come to know who we truly are. Sciences will endeavour to remove pain only to see disease manifest in different forms. Earth disturbances are a result of the Harmonic Convergence of the late 1980s, increasing the rotation of the Earth's central core. This will only abate when humanity has universally embraced Feeling Healing. These influences are only imposed upon us so that we do not step back into the Rebellion and Default through complacency. Live Feelings First so that we become the true personalities we are, that being daughters and sons of our Heavenly Mother and Father.

MIND vs FEELINGS

Mind vs Feelings – Your Choice.

And now is an appropriate Time To Make this Choice!

Everyone is to choose: The Mind Way;

or The New Feelings Way.

Which way of living do you choose: Mind Way?

or the Feelings Way of living?

Do you continue in your Mind Way?

or do you embrace The New Feelings Way?

Do you choose the Dead End Mind Way?

or the Eternal Happiness Feelings Way?

Times up for the Mind Way;

the Feelings Way is taking over.

False Spirituality – The Mind Way;

True Spirituality – The Feeling Way.

The End Times and Final Judgment; or Paradise – the choice is yours to make:

Continue in your soul-destroying feeling
and truth denying Mind Way;

or embracing The New Feelings Way
by doing your Spiritual Healing;

Maintaining the mind's imposed façade of a robotic,
retarded individual, in a stupor, perpetrating the
errors of generations gone by;

or The Feeling Way which is the discovery pathway
to releasing your true, vibrant personality

The Mind Way – rejecting the truth of yourself
by denying feelings, restricted forever to the
mind Mansion Worlds;

or The Feeling Way – uncovering the truth of
your feelings and ascending to Paradise.

THE GREATEST SHOW

is ON EARTH

The Golden rule is: Never interfere with another's will.

God's Divine Love: Pray for it, ask for it, and receive it.

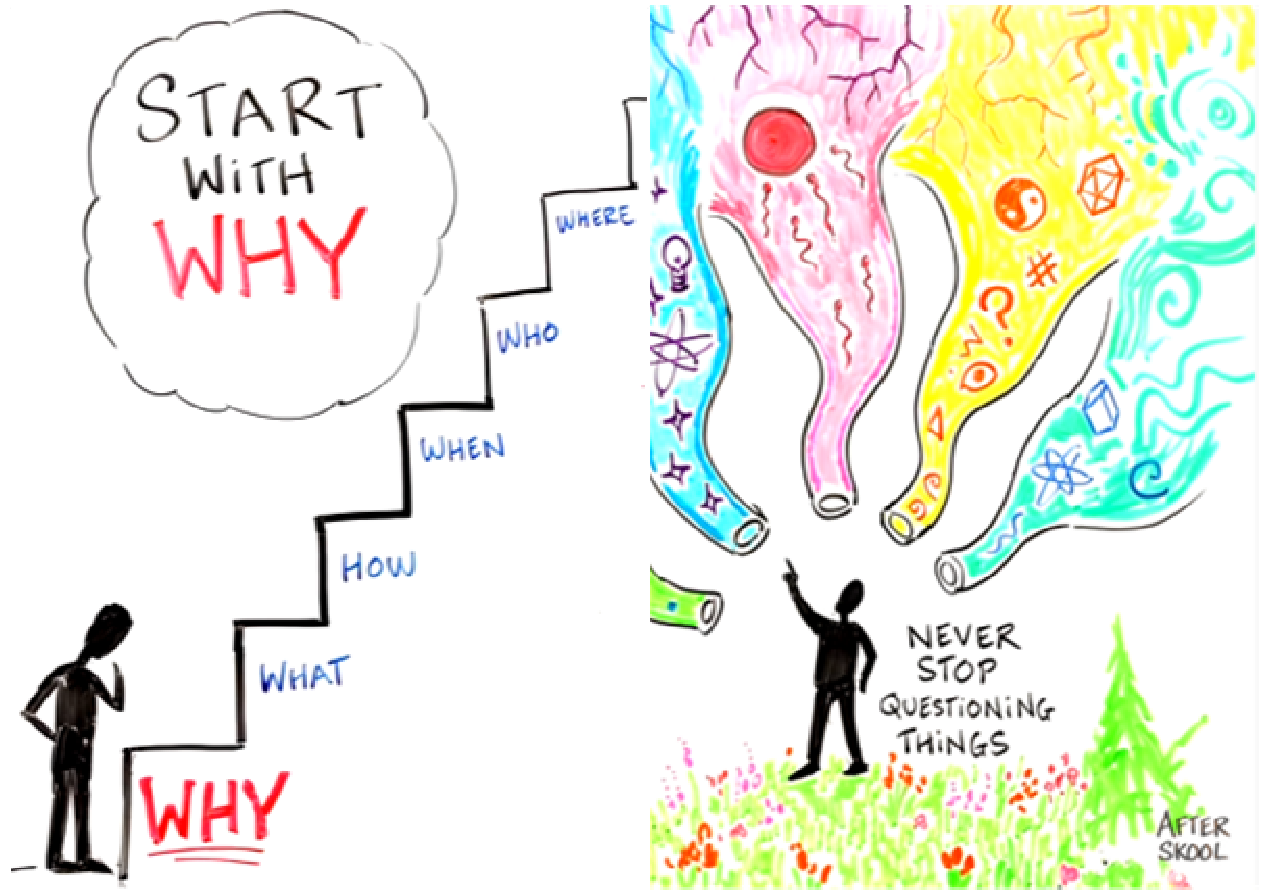

Our Heavenly Parents simply desires for us to ask for Their Love.

The New Way: learning how to live true to ourselves by living true to our feelings.

We are to express our feelings, both good and bad, at all times, and to long for the truth of them.

By living true to ourselves, true to our feelings, we are living true to God. It's that simple.

WE ARE TRUTH SEEKERS

Avonal Revelations for all of Humanity

Worldwide spending on education in 2019 was US\$4.7 trillion.

The Failed Promise of Malaysia's New Economic Policy and its Education

https://murrayhunter.substack.com/p/the-failed-promise-of-malaysias-new?utm_campaign=post&utm_medium=web&utm_source=copy

Asia Sentinel 7th May 2021. Murray Hunter 9 May 2021

The affirmative action program should have embraced entrepreneurship, not cronyism.

In 1971, still smarting from disastrous race riots in 1969 that are believed to have taken the lives of hundreds of people on both sides, Malaysia's government implemented a revolutionary affirmative action program for its ethnic Malay majority to attempt to bring them up to the commanding economic heights occupied by the minority ethnic Chinese.

This is the fiftieth year the so-called New Economic Policy has been in existence. It was supposed

to end in success in 1990. But today the NEP's goals remain unmet and instead it has sharpened racial tensions, distorted the economy, stultified business development, warped the education system and fostered depressingly prevalent corruption.

It is also the third rail of successive governments, with touching it risking political suicide. The previous two prime ministers Abdullah Ahmad Badawi and Najib Razak (commendably, despite his own immense corruption) both came into power determined to iron out its inefficiencies and inequities, only to learn that reducing Malay privilege was not politically possible.

The country's massive – and misguided – focus on education has not created the externalities that the economy needs to move forward and maintain its relative place in the world. The Organization for Economic Cooperation and Development in its most recent ranking puts Malaysia's education system at 63rd out of 93 in the world.

The original objective of the NEP was about creating wealth, rather than redistributing it, and under the early stewardship of Prime Minister Tun Razak Hussein, set out on a quest to build rural infrastructure and develop sustainable incomes for poor Malays through agencies like the People's Trust Council, known by its Malay acronym MARA, which offers loans to Bumiputera entrepreneurs, and the Federal Land Development Authority, or FELDA, which opened new lands to settlers, initially very successfully.

Prime Minister Mahathir Mohamed, who ran the country with an iron hand and who was the architect of the ruinous change in direction, went on to industrialise the country by fostering what later became known as unproductive white elephants. Like his predecessor, Mahathir held the belief that state participation was the best way forward and focused on getting Malaysia's resources back into Malaysian hands.

The dawn London stock-market raids on the colonial plantation companies Guthrie and Sime Darby, with nationalistic undertones, set the pace for the formation of Government Linked Companies (GLCs) to lead across a number of industries. Mahathir went into steel, automotive industry, the financial, and the petrochemical sectors, building a massive network of GLCs.

From the 1980s onwards, Mahathir wanted to move away from sweatshop type manufacturing towards high-tech industries like semi-conductors. In order to develop the skills of local workers, a number of colleges, which were later designated as universities, were set up across the country.

These new universities were shaped on the premise they would provide “skilled human capital” rather than being centres of intellectual learning. Universities were strictly controlled by the Ministry of Higher Education, which selected and approved higher office bearers and dictated what courses should be taught.

The ministry also specified, in the first year, a swath of unrelated compulsory curriculum subjects, unrelated to each core degree be taught to every student. At the beginning of the millennium, the government focused on the precept that “big is beautiful” in higher education, and rapidly expanded the size of local public universities. **Malaysia now has 20 public universities and 91 private university-colleges, universities, and foreign branch campuses, many in very poor financial condition.**

The universities have overproduced graduates relative to the corresponding jobs available in the economy. There is a mismatch between geographical areas, graduates’ qualifications and available jobs, contributing to high youth unemployment, now standing at 11.72%, with more than 200,000 new graduates entering the labour pool each year.

The rise of the mega-university didn’t bring educational excellence. Actual courses have been aimed at the lowest denominator. Textbook culture has overtaken teaching, with students able to run to online essay mills for quick-fix assignment fulfilment. Teaching compliance systems like Objective Based Education (OBE), and faculty-based ISO accreditations have turned teachers into administrators, erasing teacher preparation, research and teaching time.

The education system is leaving students unemployed and in a crisis of debt to the government. Outstanding student debt to the government stood at RM39 billion (US\$9.46 billion) in 2019, according to reports. The building up of the prestigious image of going to university and receiving a degree has raised student expectations beyond what current opportunities within the workforce can provide.

Taking up jobs now done by foreign workers is not an option, due to both the social stigma around the foreign worker sector jobs, and the low pay and poor conditions employers are willing to offer.

This leaves many youths idle. The traditional Malay route where children would take over small farm holdings or follow their fathers in the fishing industry is partly gone due to inheritance laws which have made farm plots uneconomic, and to high youth expectations of a post-graduate career in services or industry.

The system has failed to install a culture of independence and critical thinking within graduates although it has created two generations of students with unfulfillable middle-class aspirations.

While the push to industrialisation did make Malaysia one of the world’s prime semiconductor manufacturers, it has failed to catalyse downstream industries such as information technology or

telecommunications. The bulk of manufacturing industries rely on foreign labour, thereby bringing few benefits to local economies, especially with the long tax holidays most investors were given.

Malaysia developed a two-tier manufacturing economy, one side dominated by GLCs and the other by indigenous Chinese families who invested in mostly manufacturing industries to supply industrial and consumer products to primarily local markets. Former International Trade minister, Rafidah Aziz did develop Chinese manufacturing clusters to export specialty products like furniture, to some success.

Mahathir Mohamed and his then-deputy Prime Minister Anwar Ibrahim, pursued a policy of attempting to create successful Malay businessmen in the hope they would nurture a generation of Malay entrepreneurs, both downstream and upstream. These chosen Malays took over companies like Perwaja Steel and Malaysian Airline System, but failed dismally in Mahathir's goal. The foray into trying to develop entrepreneurs only led to the development of a kleptocratic crony class.

The result of this was the creation of a derelict Malay business culture, full of middlemen, who crave a cut of the action, without adding any value to either the product or enterprise. This rent-seeking group became predators of hardworking Malays, with connections to politicians and civil servant, with access to government tenders, and/or difficult-to-get licenses and import permits. Who you know became the key to success rather than business acumen, creativity or innovation.

This has prevented Malaysia becoming any sort of innovative or knowledge-based economy, Talk of industry 4.0 is unrealistic in an economy based on crony connections. Some elite crony businessmen are so risk-adverse in their business decision making, large investments are often made without thoroughly evaluating markets.

This reckless practice has led to business failures, leaving creditors in debt. Bankruptcies in Malaysia numbered 945,000 in 2019, with 80,000 new cases each year. Malay bankruptcies make up 60% of this figure. Corporate debt is running at 93.3% of GDP, leaving a financially lethargic economy, with normal business to business payment terms out to 120-180 days. High debt and frugal lending practices by the state-controlled banking sector has the local economy under a continual credit squeeze.

The Malay political leadership bypassed its own cultural practices to espouse the benefits of western management and marketing gimmicks like Balance Score Card and Blue Ocean Strategy. Universities and technical colleges have ignored the fundamentals of how to start up, grow and manage an enterprise. Very few university graduates have been grounded in the practical side of entrepreneurship, and thus lack the skills and knowledge to become entrepreneurs.

The real core of the Malaysian economy are micro and SME enterprises, which make up 98.5% of businesses. Together they contributed 36.6% to 2016 GDP. SMEs also employ 66.2% of the workforce and are responsible for 17.3% of the nation's exports. They have been ignored in favour of the Malay elite, smothered by the activities of the GLCs, restrictive trade legislation and difficult-to-navigate bureaucracy.

It's time for a major shift for the NEP if the Malaysian economy is to move forward and the people who it was meant to favour actually benefit. The SME sector is the future of the Malaysian economy. It's the only driver in sight. The sector must be encouraged and entrepreneurship developed over cronyism and the current higher education framework. Markets must be freed of restrictions to develop a level playing field.

The higher education system needs urgent overhaul, with the big universities decentralised and re-aligned to teach relevant skills of entrepreneurship, trades, and appropriate technology for SMEs, rather than dreaming about the fallacy of industry 4.0, another inappropriate adoption from the west, in a still developing economy, where infrastructure and mindset not yet exist to develop these concepts. Education should go back to colleges and vocational schools to create new entrepreneurs, particularly among the ranks of the youth.

The obsession with big-is-beautiful must be swapped with small-is-the-most-appropriate. The GLCs have only created a privileged Malay professional class. The kampong (village) and daerah (district) must be reframed as a sustainable community, where entrepreneurs are nurtured to create businesses to serve locals in the district for food and other consumable needs. Trades can be re-created to add value in the kampongs and towns. Food must once again be seen as something derived locally, so smallholders can develop micro-businesses, rather than just work land and sell produce onto middlemen, who reap the profits.

Rather than trying to develop massive beef production systems and dairy farms, build operations that serve local communities. Successful concepts can be scaled up within the private sector. The public sector produced white elephants like the National Feedstock Corporation (NFC) which benefitted politicians and their families before failing in its mission, with millions diverted into luxury cars, condos, trips overseas and other unproductive perks.

The government can't pick winners. Developing entrepreneurship is the best strategy to nurture more creativity and innovation into the economy to create value. This strategy is well suited to grapple with growing youth unemployment and growing poverty. Entrepreneurship would eventually develop much more egalitarian society. The class gap will close as those in no-income and lower income groups become more affluent.

There has been much controversy about how aggregate equity figures are measured. Although much data is concealed through the Official Secrets Act, there is evidence the original equity goals for Bumiputras', set at 30%, have well been surpassed. Economist, Lim Tech Ghee found that on 2007 Bursa Malaysia figures, Bumiputra equity was around 45%, in sharp contradiction of government figures. Thus the basis of the whole NEP and its derivatives is based on a continuing lie, in order for the elite to enrich themselves at the expense of the poorer Malays.

The consequences of not changing the NEP or scrapping it all together for another approach would see Malaysia slide back further in its relative position within the ASEAN region. The economy is now unbalanced with lack of diversity, thus susceptible to any downturns. Reframing the education approach of the country towards entrepreneurship and vocational training in appropriate technology for SME startup will help create more value where the economy is currently weak.

This change in economic approach, if successful, will put pressure on the structure of Malaysia's neo-feudal social structure for change, as the Malay mindset will be liberated.

[Hatish Mayer](#) comment:

Well, whatever is written in this article and thousands of other similar articles, they will just remain articles probably read mostly by the non-Malays and the fact remains that nothing is ever going to change. That's already the mindset of the Malays and the government here. Country will just go into a doom and gloom and they're aware of it but no affirmative action plans have been laid out. Their concern is only about the Malays, not Malaysian. Malay mindset apart from probably 2% cannot be liberated at all. I'm being real here.

FEE STRUCTURE 2021

Non-denominational school, 1,500 students
Gold Coast, Queensland, Australia

- To apply for a place at A.B. Paterson College*

Application Fee	\$100 per student (non refundable)
-----------------	------------------------------------

- To confirm a place once an offer has been made*

Enrolment Levy	\$750 per student (non refundable)
----------------	------------------------------------

Foundation Levy	\$150 per student (non refundable)
-----------------	------------------------------------

- Ongoing fees once your child starts at A.B. Paterson College*

Fees are set annually by the College Board. Fees can be paid annually or by term.

ANNUAL FEES **Annual fee paid in advance (due by 5 February 2021)

Inclusive Fee (Prep - Year 6)	\$10,420.20
-------------------------------	-------------

Inclusive Fee (Years 7 - 12)	\$12,796.20
------------------------------	-------------

** Annual in advance 5% of tuition fees (included) (plus 5% due date discount)

PER TERM FEES

	*By term due date	After term due date
--	-------------------	---------------------

Inclusive Fee (Prep - Year 6)	\$2,749.78	\$2,894.50
-------------------------------	------------	------------

Inclusive Fee (Years 7 - 12)	\$3,376.78	\$3,554.50
------------------------------	------------	------------

Total Fees for the year (Prep - Year 6)	\$10,999.10	\$11,578.00
---	-------------	-------------

Total Fees for the year (Years 7 - 12)	\$13,507.10	\$14,218.00
--	-------------	-------------

* Paid by Due Date 5% of tuition fees

DUE DATES:	Term 1 5 February 2021	Term 2 30 April 2021
	Term 3 23 July 2021	Term 4 15 October 2021

Payment Conditions: There are four terms per year and tuition fees and charges must be paid in full by 5.00pm on the due date each term to be eligible for the discount.

Please note that it is possible to arrange payment of fees through our two providers, Edstart and Futurity Education Loans, who are external agencies that can individualise payment plans to suit family needs.

Discount Structure:

These discounts have been incorporated into the fees above.

2nd Child - 5% of tuition fees	3rd Child - 20% of tuition fees
--------------------------------	---------------------------------

4th Child - 30% of tuition fees	5th Child - 50% of tuition fees
---------------------------------	---------------------------------

The sibling discounts are dependent on individual circumstances and will be applied to the fees shown above as applicable.

Full Fee Paying Overseas students:	Annually:	Prep-Year 12 \$23,317.00
---	------------------	---------------------------------

Discounts do not apply to full fee paying overseas students.

- ***Building and Friends of A.B. Paterson College (FAB) Levies:***

Building Levy:	\$125 per term per student	\$500 Annual
Friends of A.B. Paterson College:	\$10 per term per family	\$40 Annual

- ***Optional Tuition Items***

Independent specialist tutors offer a range of additional tuition including instrumental, speech and drama, vocal coaching, dance and martial arts.

- ***Before & After School Care and Vacation Care Prep to Year 6 students***

Before School Care operates from 7.00am-8.30am.

After School Care operates from 3.15pm-6.00pm.

Vacation Care is available other than over the Christmas/New Year period. Dates are advised annually by the College and bookings are essential.

Price List for OSHC 2021

Before School Care:	\$16.00 per day
After School Care (more than one hour) <i>with</i> booking	\$30.00
After School Care (more than one hour) <i>without</i> booking	\$50.00
Vacation Care <i>with</i> booking	\$70.00 per day, includes surcharges
Vacation Care <i>without</i> booking	\$90.00 per day, includes surcharges
Late Fee	\$15.00 per 15 minute or part hereof.
Additional Fees	
Security Fob	\$15
Waitlist Fees	\$25 per child
Bond and Fob Levy	\$250 per family (non refundable)

- ***Withdrawal of a Student from the College***

As budgets are based on enrolments, parents are required to give one academic term's notice* of withdrawal of a student. If such notice is not given, parents must nevertheless pay to the College one full term's fees plus GST. The College commits resources on the basis of confirmed enrolments and will most likely suffer loss from early termination, as it may have difficulty filling the student's position at such short notice.

* One academic term's notice i.e. If a student is to be withdrawn on the last day of a given term, written notice must be provided by the first day of that same term. One academic term's notice does not include any part of a school holiday period.

INDIA – LOOKING TO DEVELOP EDUCATION WANTS LIST

14 June 2021

Education is the Foundation for the present and future growth of mankind. Tentative WANTS List to be expanded:

1. What benefit is delivered by providing FREE ACCESS to Education for ALL;

If free education is given it will not be of any value. We do not want to create a sense of beggary among the society. We could offer scholarship on the basis of their performance in the class and also special scholarship to financially weak families in India. Free education to all means giving education to all caste and creed. We could offer free education to girl child as in the Indian Society today people do not want to educate women and if they come to know during pregnancy that it is a female foetus then they get it aborted.

2. University and TAFE (Technical And Further Education) education to work hand in hand with industry to deliver skilled workers;

In India we have two types of colleges one is academic and the other one is vocational college. In a Vocational college children are taught skills so that later on they can make their career.

3. Provision of Breakfast and Lunch for ALL from kindergarten through to University / TAFE – we could buy in bulk from milk cooperative, orchards, quality sustainable food, etc.;

In India we do not offer lunch or breakfast. We could open a subsidised canteen in which we can sell the stuff from a whole sale market which will be cheap.

4. Provision of School Uniforms and Books for ALL;

We could provide them school uniform and books.

5. Early learning;

Yes. In India child is taken in primary classes 2+ at the age of so that a child can learn to read and write small sentences and words when they go to grade one at the age of five.

6. Lap-Tops + Wi-Fi;

We could provide the students with the Laptops when they go to grade six at subsidised rate and we could offer them free Wi-Fi in the campus.

7. Apprenticeship and Trainee-ship Programs to work hand in hand with Industry - we

need a commitment from Industry to take on additional Apprentices and Trainees which we could provide financial support along with Government(s) – local, state and federal;

The students coming out from our vocational schools and colleges could get and Trainee-ship Programs to work hand in hand with Industry according to their trade and we can get the commitment from Industry to take on additional Apprentices and Trainees for which we could provide financial support.

8. Medical industry – tourism industry – religious faculties – agriculture – Defence Department and Defence Industry – do not let anyone off the hook;

We could work for medical industry, tourism industry, agriculture and other sectors. There is no such defence industry. Defence department could train our students who all opt to take NCC (National Cadet Core). We cannot open religious facilities to teach religion. We can teach philosophy that will include their understanding of all religions.

Do not look at the cost we look at how *we deliver the SUPPORT in CASH and/or In-Kind*.

We cannot deliver them support in CASH and/or In-Kind. We could provide them the facilities which we have already included in the above.

Comments provided by Archbishop John Augustine – Church of India.

The general rule in India is that if something is free it is not valued.

There is a liability risk (of being sued if meals are provided and kids get sick). Better to have a canteen operating so the children buy their own food at very favourable prices. If it is free it is not respected. Compassionate consideration is given for very poor families. No one is turned away or left hungry. Most importantly all receive the same high quality education based on willingness to learn.

Early learning in India starts at age 2+. The older children in the school teach reading and writing to the 2+ year olds under paid teacher supervision. Basic numbers included.

Defence Industry is not a feature of India. Joint venture between branches of the forces direct with other countries. Leasing submarines or attack aircraft is common procurement practice – nuclear submarines and the best fighter aircraft. They update the fleet by overhaul in the country of origin. In the brief war with Pakistan the Indian Air Force devastated the Pakistan US equipped Air Force. India does not hesitate to cross its borders and blast terrorist camps. Military service provides huge employment opportunities. The Indian military is friendly until provoked. Many schools and colleges have a military corps for all the vocationally interested students. Lucknow has a very large military service population.

I feel Village-ism is totally supportable, feasible and doable here. The Augustine education set up is like a Pascas Village in many respects. By doing we learn as we go what works best for the local culture, of which India has more than its share.

India will not go down the free everything trail. Nor the one size fits all road either. Respect for the dignity of every individual is practiced. Dependency on God, not freebies or hand outs. The dignity of work in education and education in work. In God we Trust actually applies in India.

FEELING HEALING and SOUL HEALING with the DIVINE LOVE:**James Moncrief Publications:****all publications are free downloads:**<http://divinelovesp.weebly.com/my-free-books-and-free-padgett-messages.html>

It is suggested for one to consider reading as follows:

Speaking with Mary Magdalene and Jesus – books 1 – 4

These four books encapsulate the second of the revelations with the first having been introduced by James Padgett one hundred years previously. These four books provide a wide range of guidance that has never previously been made available.

Paul – City of Light

As a gentle intro into the Divine Love and Healing; being James Moncrief's first novel and it's been criticised as being too heavily clichéd, but that's the point because it's a reflection of how he was back then.

Ann and Terry

An example for people who might want to immediately start working on themselves and doing their Healing.

Feeling Bad? Bad Feelings are GOOD

For more understanding about our denial of our feelings and why we should not deny our feelings, and it includes how it all came about for James, using himself as an example.

Feeling bad will make you feel BETTER – Eventually!

This includes specific examples of Marion and James working on expressing particular bad feelings, again with the hope that it will help others gain something of an idea as to what's involved in doing your Feeling Healing.

Sage – and the Healing Angels of Light

Through Sage who's 13 years old, the story is primarily about the two aspects of healing; that being, with the help of our angels, and the full Healing we can do by looking to our feelings for their truth.

Religion of Feelings**Welcome to LOVE – the Religion of Feelings****Feeling Healing****you can heal yourself through your feelings**

So these books, including the four Speaking with Mary Magdalene and Jesus books, provide the essence of it all and are examples of James' work. Then it's up to whatever takes one's fancy. Other reading to consider may include:

The Padgett Messages being published as:**The True Gospel Revealed Anew by Jesus volumes 1 – 4****Book of Truths by Joseph Babinsky****The Urantia Book****Release one's pain through expressing one's feelings.****in conjunction with****Longing for the Truth when also longing for Divine Love.**

FEELING HEALING with DIVINE LOVE is SOUL HEALING:

A collection of 'papers' that draw together specific topics including all of the above and more from other sources of information and revelation designed to help increase one's awareness about why we have the problems we do and how to heal them, all whilst living a more healthy and sustainable life. They provide a brief snapshot of the more complicated topics and issues.

Firstly, consider discovering the truth of your emotional pain through Feeling Healing. Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing. Primary and most important readings are the writings of James Moncrief. Then consider the Padgett Messages, and then The Urantia Book.

Pascas Papers, being free, are located within the Library Downloads www.pascashealth.com
