**The whole human race is suffering from repressed childhood and mind control.**

**Golden Rule: that one must always honour another's will as one honours one's own.**

**The Golden rule is: Never interfere with another's will.**

Pascas University is to lead the way for all of humanity to recognise how each of us have been suppressed throughout our forming years, our early childhood and how we continue to present to all around us a personality persona that our parents imposed upon us. We continue with the repression of our true personality throughout our adulthood life. We go on to live our childhood throughout all our lives.

Life is all about our experiences. Every moment is an experience. We are to embrace what each experience brings to our attention. It is these feelings emerging from our experiences that we are to express and long to know the truth of.

All through our daily child and adult lives we see how others impose their will upon us all, continually suppressing our true self expression, our true personality. In turn we do likewise. We are all addicted to control, control of others and our environment. This is so because we have been taught, coerced, directed and controlled to live through our minds. This is the underlying cause of all of the social ills that prevail throughout society. Our mind is a control addict!

We are to live through our feelings. Our feelings are always in truth. We are to embrace our feelings and have our mind follow in assisting in implementing what our feelings are guiding us to do. Our mind is to be no longer worshipped as our saviour. Our mind is to be recognised for what it is. Our mind cannot discern truth from falsehood. Our mind is addicted to untruth. Our mind is addicted to control of others and our environment.

Due to all institutionalised systems worldwide being the makings of man's mind, there is no possible hope for world peace, for worldwide health of people, of social harmony. We will continue to spend trillions on military and very little on humanitarian programs (2019 US\$2 trillion was spent on military whereas it was US\$50 billion on humanitarian programs worldwide).

We are each controlled by all facets of life through its many stages:

Early childhood forming years:	Parents and carers being typically close family
Schooling:	Pre-school, schooling, high school teachers / educators
Religion:	Numerous forms of religious institutions
Higher education:	University and technical education lecturers
Employment:	All forms of employment impose controls on personality
Various levels of government:	Local, state and federal governments
World at large:	Global institutions then impose their directives.

**New Feelings Way: learning how to live true to ourselves by living true to our feelings.**

**We are to express our feelings, both good and bad, at all times, and to long for the truth of them.**

**By living true to ourselves true to our feelings, we are living true to God. It's that simple.**

To bring about these changes, we will have to consider the two golden rules and embrace these three statements. Simple – no! It will take a concerted effort and the next 1,000 years!

**In a week in February 2021, here are some examples of humanity's addiction to control:**

### **BANK MANAGERS have NO AUTHORITY**

Bank manager of a major state branch within the CBD of a capital city has no authority or discretion to progress transactions and business on behalf of a 'big four bank'. What was required was essentially a two line letter confirming that a particular bank account is able to receive clean, cleared funds.

The manager of very significant experience and capability is beholden to unseen, unaccountable, mind imprisoned through suppressive education and 'higher up' technocrats who have no empathy of the needs at hand. Yes, the whole human race is suffering from repressed childhood and mind control.

A very minor outbreak of Covid-19 coronavirus closed the branch for five days, however two further weeks passed without the authority being provided to the manager.

What this single bureaucratic insanity, is doing in this case, is holding up and jeopardising several billion dollars of humanitarian projects including the support for distributions of vaccines throughout many impoverished countries. No, we have to insanely follow the dictates of procedures, however this is a unique event so there is no authority to proceed as this is precedent!

Through worshipping the mind, there is no way forward. Embracing our feelings then this matter would have been resolved on the spot!

### **ETHIOPIA NEW INVESTMENT FRAMEWORK – January 2021**

Anthony Giustini and Nadezhda Varbanova (from Clifford Chance, France) and Tadesse Kiros and Habtamu Hailemeskel (from Tadesse Kiros Law Office, Ethiopia) reviewed the new investment framework for Ethiopia.

The framework for 2021 for Ethiopia would be considered fifty years ago in Australia as being archaic.

From a foreign investors point of view, the SOVEREIGN RISK that this structure presents is intolerable. The discretions and interpretations would put at risk any foreign involvement in any segment of commerce and industry throughout Ethiopia. Any dispute and indiscretion could see the foreign investor being divested of his involvement.

This framework is presented with good intent and purpose, however the structure is the direct result of mind control domination that has no comprehension of growth and evolvment of its people. There is no empathy and understanding of what is required to lift the quality of life for Ethiopia's people let alone to lift their spiritual positions.

**All issues emanate from our control being exerted over others! We are to never interfere with another's will!**

**The whole human race is suffering from repressed childhood and mind control.**

## **PASCAS UNIVERSITY and Global View:**

Pascas University is to be the catalyst to passively but progressively shift Earth's humanity away from worshipping of the mind to Living Feelings First. To become feelings orientated and having the mind to follow. Humanity has for the past 200,000 lived mind dominant. This is the greatest event in the history of humanity – the beginning of the Great U-Turn.

While we are mind dominated, to put it simply, we cannot progress beyond 499 on Dr David R Hawkins' Map of Consciousness scale. That is the ceiling of the 1<sup>st</sup> spirit Mansion World. Yes, we can further perfect our minds and progress further in the mind Mansion Worlds but we then reach the end of the rabbit hole and hit a dead end. We then have to turn around and embrace our feelings and then our progression is to infinity – all the way to Paradise!

To bring about this awareness to all of Earth's humanity means that this agenda, at Pascas University, is a global operation.

The faculty and students are to become deeply involved in monitoring, guiding and participating in all aspects of this Great U-Turn in how humanity lives, from mind domination to feelings orientation. It is now 4,000 years since Machiventa Melchizedek physically walked on Earth implementing the seeds of this great event which is now manifesting into the fullness of the Avonal Age to be the next 1,000 years.

This endeavour will involve the greatest humanitarian program and activity ever envisaged. Fund flows will bring about great economic activity requiring constant monitoring to ensure inflationary pressures do not emerge. This will not only be monitored by economists within Pascas University but by Central Banks around the world, particularly that of Australia.

Projected skilled labour needs are to be monitored to ensure anticipate education and training needs are addressed. This will be a focus throughout education services as well as health industry sectors.

People resident within the community of benefactor countries, in which a project or projects are to be provided, are to be engaged to lead the introduction of what THEY consider appropriate and welcomed projects into their way of life and living. Nothing is to be imposed upon anyone. We are always to honour another's will as we honour our own. It is the community in which the project is to be installed that is to bring about the realisation of the project, not outsiders. A local champion is to drive the delivery.

The curriculum of all subjects offered throughout Pascas' educational divisions are to be visited and developed to embrace the potential of living through one's feelings having our mind to follow. This is to be undertaken prior to the formal opening of Pascas University as well for Chaldi TAFE and all other schooling options. It will also be done with the purpose of opening of additional campus around the world as well as through internet learning.

Further, all subject material is to be in a wide range of languages as well as audio visual presentation – hence Movie City to be established to produce the films and records.

All of these endeavours will be political and culturally sensitive, thus requiring the development of in-depth knowledge and understanding of each countries cultural, spiritual and political norms.

**Upon entering the Engine Room, the touch screen will reveal:**

- Dominant languages of country or region.
- Population and population of centres within each country.
- Legal issues and freedom restrictions to be considered, country by country.
- Cultural issues within each community and country.
- Proposed and established Pascas Care Centres – and style thereof.
- Books and Pascas Papers that are available.
- Editing stage in the English language of same.
- Translation stage for each language of same.
- Who is doing what on each of the publications.
- Where the work is being carried out.
- Audio and visual productions in progress.
- Audio and visual language conversions in progress and completed.
- Location and name of each University and Centre of Education.
- Location of Libraries.
- Other institutions and services that can be supported with publications.
- People that are actively engaged with Pascas in each location.
- Additional projects that are Pascas supported in each location.
- Generally, every aspect that is in progress in every location around the World.

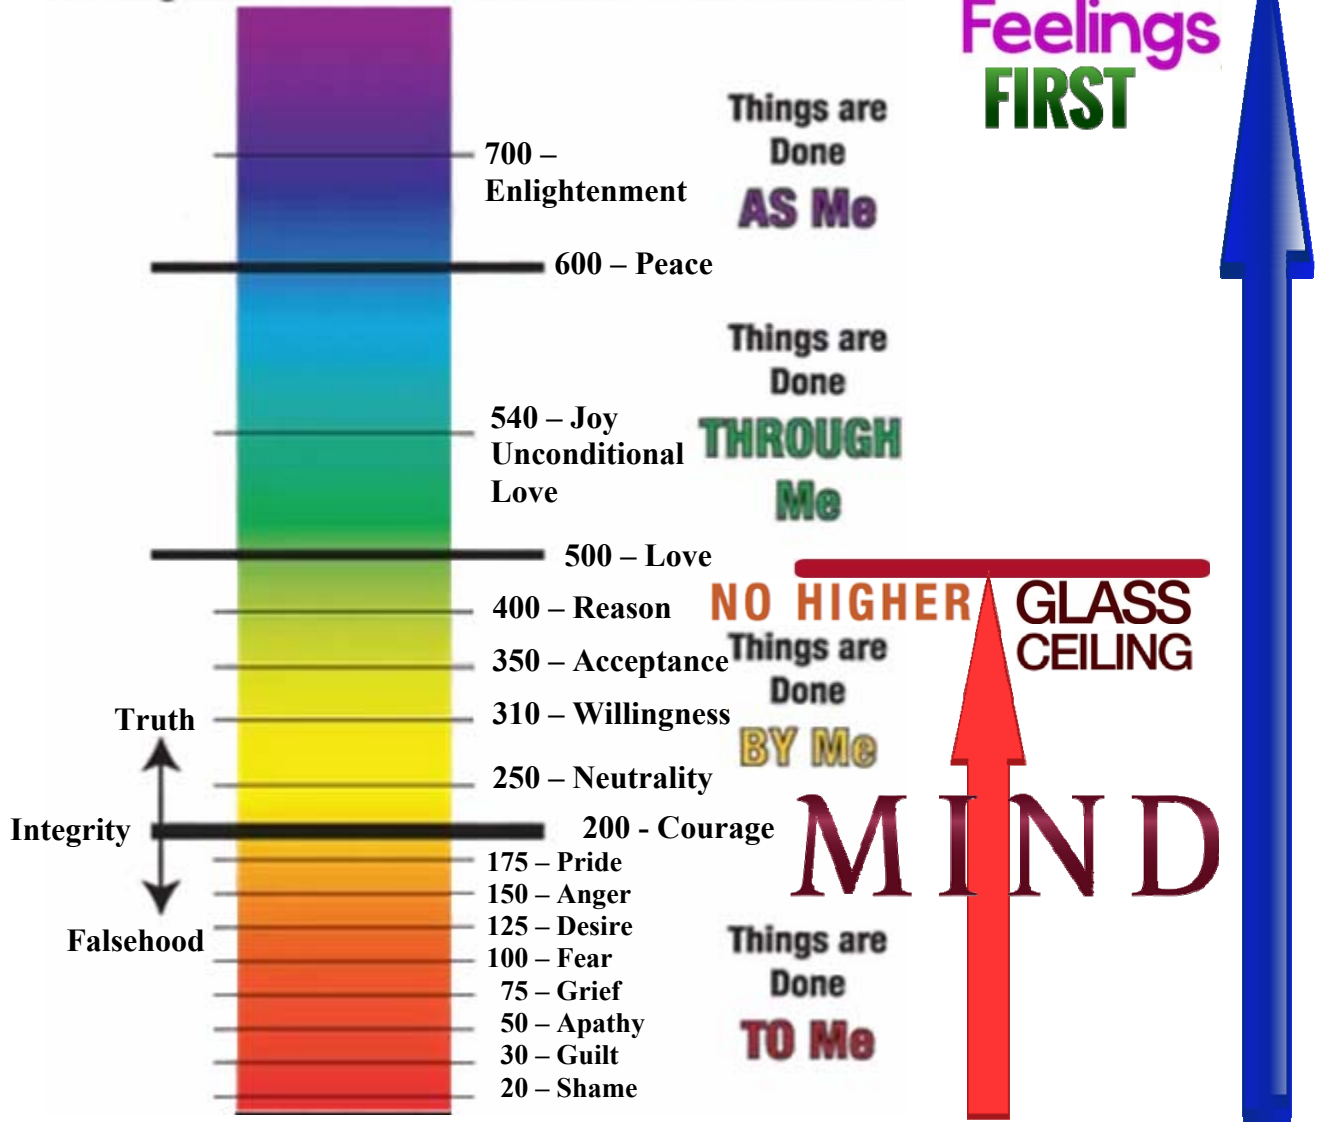

From day one, the Engine Room of Pascas Foundation, in conjunction with Pascas University, will work to deliver into every community in every country on the planet. This is a global program to bring about awareness – with no barriers.

## PERSONALITY TRAITS:

Less than two dozen people on planet Earth.

Would not pick up a weapon let alone use it. These people gravitate to the health industry and humanitarian programs.

Debate and implement resolutions without argument and delay. 470

Debate and implement resolutions in due course. 440

Debate and implement resolutions with some degree of follow up generally needed. 410

Management supervision is generally necessary.

Politics become the hope for man's salvation.

Cause no harm to others starts to emerge. Power overrides force.

Illness is developed by those man erroneous emotions that calibrate 200 and lower.

Armies around the world function on pride. Force is now dominant, not power.

Harm of others prevails, self-interest prevails.

Totally self-reliant, not God reliant.

Fear dominates all motivation.

Suicide is possible and probable.

At these levels, seriously harming others for even trivial events appears to be justifiable.

Poverty, unemployment, illness, etc., this is living hell on Earth.

### CONSCIOUSNESS vs LIFE EXPECTANCY:

“What nations of the Earth today vibrate to those things that they have and are creating in their own land, their own environment? Look to the nations where the span of life has been extended from sixty to eighty years.

“What is the spirit of a free nation? Most individuals proudly boast “freedom”. Freedom of what? Those nations who have taken those vows that man shall be free should also take those vows “He shall know the truth and the truth then shall make him free”.

The Map of Freedom reflects the findings of Freedom in the World 2014, which rates the level of political rights and civil liberties in 195 countries and 14 related and disputed territories during 2013. Based on these ratings, countries are divided into three categories: Free, Partly Free, and Not Free.

A Free country is one where there is broad scope for open political competition, a climate of respect for civil liberties, significant independent civic life, and independent media. Partly Free countries are characterised by some restrictions on political rights and civil liberties, often in a context of corruption, weak rule of law, ethnic strife, or civil war. A Not Free country is one where basic political rights are absent, and basic civil liberties are widely and systematically denied.

Seek **truth** from the cradle to the grave.

As will become apparent to all who become aware of what is being presented, the cause of all illness, social issues, conflict, disharmony, food scarcity, injustices, crime and everything that is unloving in how we live will become understood. The way to remedy these issues will then be available for each individual, in their own time and way, to personally embrace. Each partial embracement of Feeling Healing has flow on benefits for those around him or her.

## PASCAS UNIVERSITY Overarching Agenda and Global View

For 200,000 years, all of humanity has been guided to be mind dominated in how they live. This has been imposed upon us all, unknowingly, by high level personalities who rejected true and loving leadership. The consequences are now that all of humanity is living in some form of stupor, without any idea of true potential and purpose. We have always been meant to embrace our feelings, long for the truth that they are to reveal to us and have our minds to follow in implementing what our feelings are guiding us to consider.

Example of contrast can be considered in respect to scientific researchers. A life time of mind focused investigation may yield an innovation or discovery or maybe a few. Feelings led way of life yields innovations and discoveries at amazing rates – potentially weekly – so much so that it becomes the normal experience throughout the investigator's life.

As all of Earth's institutionalised systems have been established through mind domination, the only pathway to introducing feelings orientation is to establish core institutions from scratch and have all systems redeveloped focused upon living through feelings first and this requires the rewriting of all curriculum and systems platforms from a fresh start.

This is the purpose of Pascas University.

To bring this New Way into everyday living will require the establishment of:

Pascas University	with a global campus – potentially more than one million students
Chaldi College TAFE	technical and further education supporting skilled employment
Movie City	production of audio visual educational material in multiple languages
Journey of Humanity	a million years of history and then a million years into the future
Pascas School	feelings based curriculum – primary through to high school
Chaldi Child Care Centre	pre-schooling and child care embracing living through feelings.

Thus, the oversight of Pascas University will embrace all aspects of development and phases of one's life. This is educational, technological and spiritual development relating to every pocket of society throughout all communities, nations and continents.

Never before has the resetting of the direction of humanity been undertaken by one organisation and at a time in history when the world's population is approaching its largest number.

**This time, in the history of humanity, is the most exciting time ever experienced.**

**PASCAS UNIVERSITY Worldwide Participation through Global View**

# Pascas University Pimpama

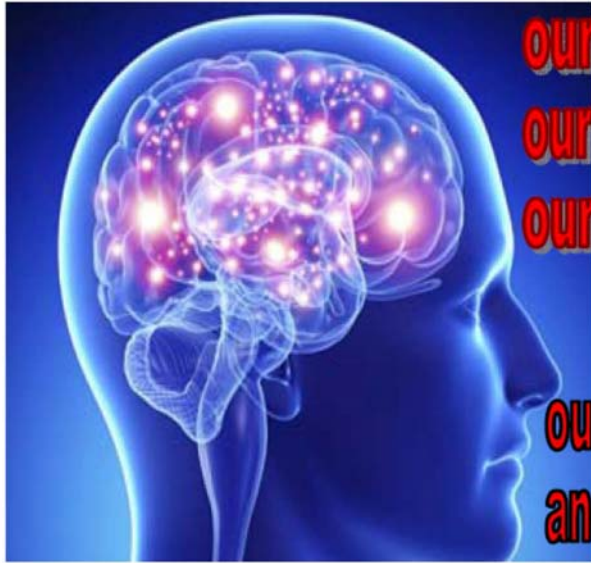

Instead of standing remotely and observing at a distance, Pascas Village which includes Pascas University, embraces and supports peoples from all corners of the world. It is their personal contribution of their homeland living experience being expressed in the understandings developed throughout Pascas University, Movie City, Chaldi College TAFE, Journey of Humanity, Pascas Health, Sanctuary Paradise Village and Pascas Village Hub that will bring about the vibrancy and awareness worldwide of the Great U-Turn through embracing Living Feelings First in all facets of our life.

Pascas University – Pimpama – PUP campus is the leader for many great satellite campuses.

Individuals and groups are to be welcomed to Pascas Village at Pimpama from all around the world. Many, if not most, will be sponsored guests and students. The Pascas Village Hub is to reflect this welcome with the cuisine reflective of visitor's culture being provided through the cafes and restaurants in the village hub. The Pimpama operations will be dominated by guests and students from all around the world as this endeavour is to be the leadership for comparable facilities to be subsequently established in the visitor's own country and communities.

# CHALDI TAFE COLLEGE

**Chaldi** is pronounced Kal-dee, from Chaldean, who provided free education for beggars to princes 26,000 years ago!

**Chaldi TAFE College** is the provider of technical and further education that assists in developing practical skills and work experience so as to gain meaningful employment with job security, potential for growth and personal healing.

Not just that, **Chaldi TAFE** can also be used as a pathway into **university**. In most cases, students

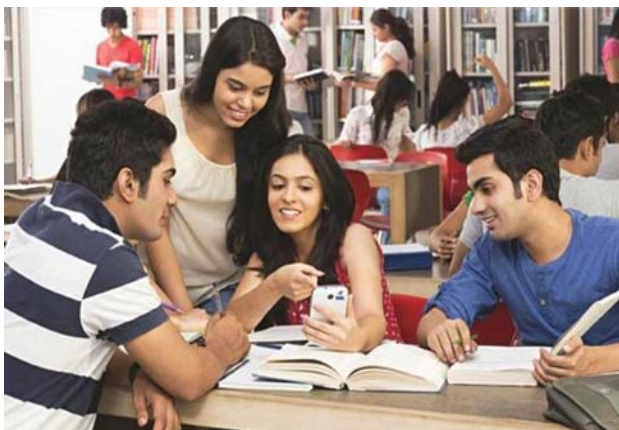

graduate from **TAFE** faster than **university**. A **TAFE** qualification can take six months to two years full time, whereas at **university** it's usually a three year minimum (full time) to complete a degree.

Decisions, decisions. It's a big one, TAFE vs university, and it can be quite confusing. To help you make an informed choice, here's some of the reasons why TAFE could work for you.

Firstly it depends on what career you want to pursue. If you hope to be a doctor, then a university medical school is a pretty clear cut decision. If you want to pursue a trade, then a TAFE building and construction course is going to be perfect. However if you are one of those people in the grey area, where both TAFE and university are both looking okay, then it can be a rather tricky conundrum.

TAFE is attractive for many people due to its accessibility. You don't even need to have finished high school. Not just that, TAFE can also be used as a pathway into university. If you plan to do this, it's worth checking how you can use your TAFE studies as credits to save money and time at university.

TAFE courses focus on skills, so you can walk into the workplace and know how to get the job done, whereas a university graduate is more likely to need on-the-job training.

Chaldi College is unique in many ways. It's coordinated with primary and high school curriculum and then leads into Chaldi University programs universally. Chaldi with Pascas is education from the cradle to the grave – and beyond!

For the first time students and participants are encouraged to live feelings first having their minds to follow. Our feelings are always in truth. Our minds are addicted to untruth as well as control – control of others and all of nature.

Further, through Dr David R Hawkins' Map of Consciousness, and using kinesiology muscle testing, one can test for the level of truth of anything.

Students throughout all of Chaldi's educational programs are encouraged to follow their passions and work according to their own pace while embracing their own feelings for guidance and investigate for truth.

We are to express our true personality, not the personality that our parents have imposed upon us. We are to realise our true passions – not the ones that our parents believe we must have. Through our feelings we will find truth and personal freedom.

Then through expressing our feelings, both good and bad, we will begin to heal ourselves of our childhood suppression and repression – then our true selves will emerge and the true wonders of life will begin to reveal themselves. Even our connection with nature spirits will open to us as we embrace our feelings and our Heavenly Parents' Divine Love.

A primary focus of a **Chaldi TAFE College** unit is to introduce and support the establishment of new and developing technologies within communities that are presently under serviced and in a low or poor economic state. New innovations could be within the essential industry segments of water security and potable water, energy supply and stability, communications, agriculture and food security, complementary medicine and health, housing, environmental collaboration and resources abuse. Paramount is the development of understanding that one's truth is within, through soul-based feelings and living feelings first brings about freedom for all.

# CHALDI TAFE COLLEGE

## Technical and Further Education

**CHALDI COLLEGE** and **PASCAS** from pre-school, through to primary school, middle school, high school, **TAFE** and university have the goals to prioritise its services for the female and that the male and female are supported through all age groups. Our journey of discovery and understanding of truth has no ending. We have been led to close off our soul-based feelings and we now live in a stupor through our minds – this is now changing – living feelings first will bring about vigour and vitality to our lives in a manner never before demonstrated.

As of a consequence of the ending of the Rebellion and Default, effectively on 31 January 2018, humanity now has access to higher spirits who are progressively releasing truths so that we can heal ourselves of the errors and injuries we have embraced for the past 200,000 years. Our healing will require all of the coming spiritual Avonal Age, being the next 1,000 years.

Our healing will require all of the coming spiritual Avonal Age, being the next 1,000 years.

Chaldi College and Pascas is the vehicle by which these truths will be shared to all communities on Earth as well as within the spirit Mansion Worlds without any obligations and expectations upon those who take the opportunity to become aware of what is unfolding for us all.

# REBELLION & DEFAULT

FOR 200,000 years ALL SYSTEMS are the WORK of the REBELLIOUS LANONANDEKS:

The rebellious Lanonandeks from within our local universe are these soul partner pairs:

## THE EVIL ONES

Lucifer pair  
Arrested and imprisoned 26 CE

Satan pair

Caligastia pair

Daligastia pair

Arrested and imprisoned early 1990s CE

## MIND MANSION WORLDS

### HIDDEN CONTROLLERS

### DEEP STATE

**SECRET SOCIETIES** The Illuminati, Freemasons, Bilderberg Group, Knights Templar, The Jesuits, Skull And Bones And Others

Following the spirit world imprisonment of the System Sovereign and then Planetary Prince being rebellious Lanonandek spirits, the Celestial spirits have blocked communications between mind Mansion World spirits and humanity on Earth. The Hidden Controllers and other controlling organisations are now without spirit world guidance, since 22 March 2017. Those controllers, in the physical on Earth, are without their long term guidance.

## EDUCATORS UNIVERSITY RELIGION

Educators at all levels and throughout all systems have had withheld from them that we are to Live Feelings First. This is to change!

“The education, for both women, men, girls and boys, is about how to live true to their feelings. How to embrace them willingly, how to work with them – express them, and the point of doing that, wanting to know the truth of them. That’s all.”

Marie, 1<sup>st</sup> Celestial Heaven: 11 August 2020
