#### VALUATION METHODOLOGIES

1	Discounted cashflow / net present value ("DCF/NPV")
2	Capitalisation of future maintainable earnings ("FME/FCF")
3	Valuation of net tangible assets
4	Notional realisation of assets.
5	Capitalisation of future maintainable dividends.

CAPITALISATION RATE is a factor of perceived risk.

Old economy projects with their proven track record have market capitalisation rates as outlined above.

New technology that is proven t	to work and has a well reseache	d marketing	plan require a	more conserva	tive				
assessment of capitalisation ra	tes, say:		20.00%	-	25.00%				
New technology that is still to be	e tested could require capitalisat	tion at:	40.00%	-	47.50%				
A valuation of untested technol	ogy could be valued with the dis	count rate b	ased on "capita	al asset pricing	model":				
ER =	RF + Beta(RM-RF) where:								
ER =	The expected return from equi	ty after the o	corporate tax ra	te					
RF=	The pre-tax risk free rate of ret	turn							
RM=	The expected return from the r	narket portf	olio						
RM-RF=	The risk premium of the marke	et portfolio re	elative to the ris	k free asset					
	(commonly referred to as the	"market risk	premium")						
Beta= The measure of a risky asset's level of risk to the market.									
ER = 6.00% + .97(47.5%-6.00%	6) per annum = 46.25% (high ris		8.98% (low risk						
It is assumed RF to be 6.00%,	which represents the 10 year go	vernment be	ond rate.						
It is assumed the market risk pr	remium to be between a range o	of 40% (low)	to 47.5% (high)	) for new techno	ology.				
The beta could be:	All industrials	0.93	lower	0.88	upper	0.97			
beta greater than 1, more	Miscellaneous Industrials	1.49		1.21		1.77			
risky than ASX, e.g.:	Tourism & leisure	1.19		1.02		1.36			
Source:	Building materials	1.12		0.91		1.32			
Centre for Research in Finance	e Gold	1.10		0.77		1.43			
Bs 02 9931 9200	Telecommuncations	1.08		0.84		1.32			
Fx 02 9662 1695	Engineering	1.06		0.92		1.20			
	Media	1.00		0.66		1.34			
	Energy industries	0.97		0.73		1.21			
	Healthcare & biotechnology	0.86		0.68		1.04			
	Chemicals	0.86		0.67		1.06			
	Infrastructure & utilities	0.76		0.57		0.95			

	Transport	0.68	0.47		0.90	
	Food & household goods	0.47	0.23		0.71	
HURDLE RATES:	Term of investment is typi	cally 3 to 7 years. Fundir	ng stages typically o	consist of:		
			Australian Ventur	e Capital ind	d results 200	0
				No deals	Av deal\$m	Av hurdle
SEED CAPITAL	required rate	50% + per annum	Seed	82	0.9	105%
ROUND ONE / TWO	rates between	35% to 50% per annum	Startup / Early	97	1.2	67%
EXPANSION	rates between	28% to 35% per annum	Early Exp (\$4+m)	102	1.6	47%
			Expansion	202	2.2	35%
Why? Because funds are com	peting against lower risk opp	oortunities, eg:	MBO/MBI	17	9.5	29%
ASX Top 100 (last 40 year a	verage)	15.55% per anm	Turnaround	14	2.6	26%
RISK FREE GOVERNMEN	Г BONDS 5 yr	6.00% per anm

Personal income tax in Dominica

Dominica has a progressive income tax scale: **15% on the first EC\$20,000 (US\$7,400) of income**; **25% on the next EC\$30,000 (US\$11,100)** of income; **35%** on the rest of the income. Residents are entitled to a standard tax deduction of EC\$30,000.

Saint Lucia, Saint Kitts and Nevis, and Dominica recognised as the most renowned CBI programmes (citizenship by investment) in the GCC, while Portugal, Malta, and Spain among the most widely known RBI programmes (residency by investment).

St. Lucia's tax laws are also appealing. In St. Lucia, there is no tax on capital gains, inheritance, wealth, global income, and assets. The country's government has concentrated on tax rules that endorse foreign direct investments, and as a result, it has been able to use the spillover benefits to introduce new technologies and improve infrastructure in order to become a globally competitive nation.

## Minimum Wage Comparison in the OECS

https://stlucia-analyzer.medium.com/exploring-minimum-wages-in-st-lucia-3b722314b1e8

Multiple countries within the Caribbean already have minimum wages established for workers

· Saint Lucia — Minimum wage for some sectors; EC\$300 per month (EC\$1.875 per hour) for office clerks;

EC\$200 (EC\$1.25 per hour) for shop assistants; EC\$160 (EC\$1 per hour) for messengers

- · Antigua and Barbuda EC\$8.20 per hour
- · Dominica EC\$4.00 per hour.

Dominica has a Skilled Labour Force. Dominica's minimum wage was last raised in September of 2021. It varies according to the category of worker, with the lowest minimum wage set at about US\$1.33 an hour and the maximum set at around US\$2.03 an hour.

· Grenada — Minimum wage schedules set pay by occupation; for example, the minimum wage for domestic

workers, for example, was EC\$4.50 per hour, while that for a security guard was EC\$8.00 per hour.

- · Saint Kitts and Nevis EC\$9.00 per hour.
- · Saint Vincent and Grenadines Set sector by sector; for example, **EC\$7 per hour** for agriculture workers

(shelter not provided); EC\$5 per hour for industrial workers; and EC\$3.125 per hour for household domestic workers.

### Rate of Poverty

Poverty in Eastern Caribbean countries remains relatively high with official poverty rates ranging from 18% to 30%. The lack of up-to-date socioeconomic data is a key area of concern in the OECS, with Grenada and St. Lucia being the only two countries with recent poverty and inequality data.

Dominica is a small island nation located in the Caribbean. With 29% of Dominica's population below the poverty line, poverty rates have slowly decreased since the early 2000s. Nevertheless, the country continuously faces setbacks that perpetuate the cycle of poverty for its people.

#### PASCAS FOUNDATION (Caribbean SIDS) Inc ORPHANAGES

	\$ = USD	30 Jun
AUD1.00 =	USD 0.70	XCD 1.90

Nearly 200,000 Dominican Republican children are officially considered orphans.

Approximately 25,000 children in Haiti live in orphanages.

Roughly 73,000 children on the island of Jamaica are orphans.

In Cuba, about 400 children without family protection are currently living in institutions.

Throughout the Caribbean, **35.4%** of the population in main urban areas are poor and **7.7%** are extremely poor.

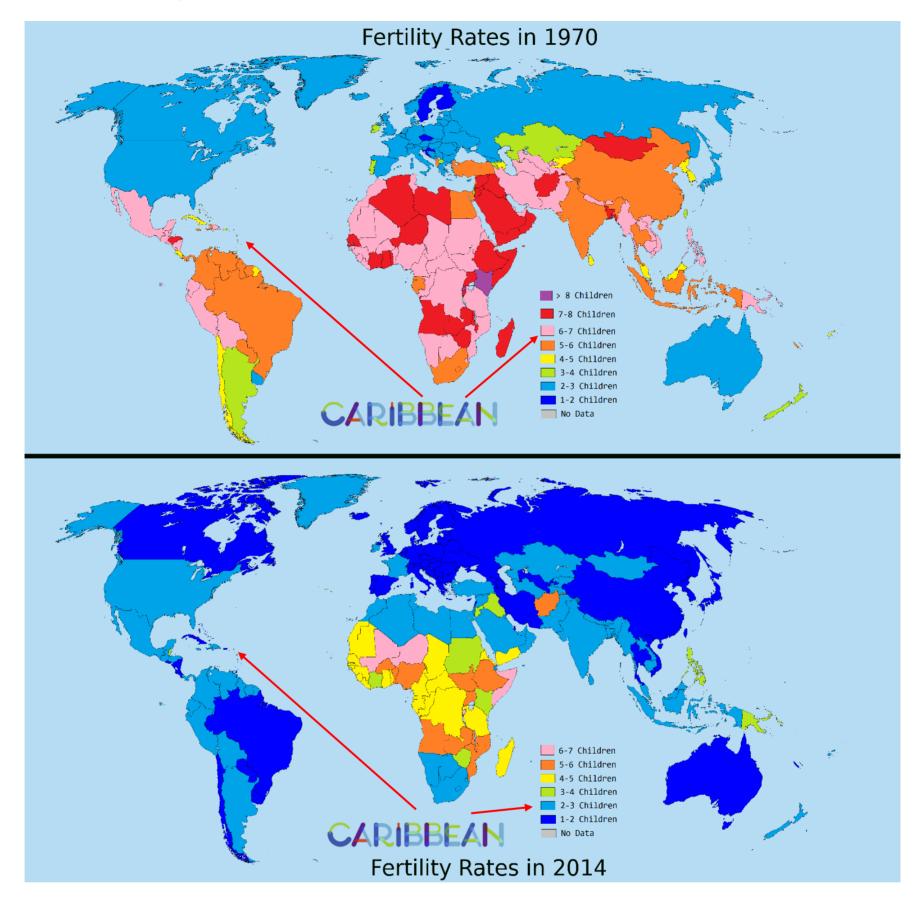

## Support for Orphanages may expand throughout Caribbean

SCHOLARSHIP GRANTS	AUD1.00 =	USD 0.70	XCD 1.90

Doctors require a three- to four-year undergraduate Bachelor of Medicine program and a four-year postgraduate degree. They then spend up to two years interning and training as a resident before spending up to four years training as a fellow in their chosen speciality.

In Australia, you can expect to pay between AU\$11,000 and AU\$60,000 per year for your studies, depending on whether you have a Commonwealth Supported Place (CSP) or are paying full-fees in an accelerated program. Typical tuition fees for undergraduate medical programs are around AU\$57,760 to AU\$71,488 (February 2022). (Consider AU\$70,000)

The fees for an undergraduate (bachelor's) nursing course may range between AUD \$27,000 to \$35,000 per year. The Bachelor of Nursing is 3 years, full-time under the standard study plan. By fast-tracking you can complete the degree in 2 years, including clinical placements. For a traditional four-year bachelor of science in nursing (BSN) program, students can expect total tuition costs of at least \$40,000 (or much more).

Master of Teaching (Secondary) Indicative first year fee AU\$30,976 Indicative total course fee AU\$63,500

University of Melbourne 2022

Secondary school teachers are responsible for teaching students in Year 7 through 12, who are generally between the age group of 12 and 18. These typically include four-year courses for individuals with a good Universities Admission Index (UAI) score and who have successfully completed Year 12. The courses combine practical and theory to give a well-rounded teaching experience.

	Construction Costs (per m2)	Descriptors
GENERAL LEARNING AREA (Prep)	AUD Feb 2022	
	\$2,550	Includes general classroom or multipurpose area, teacher work areas and general storage.
GENERAL LEARNING AREA (P &S) GENERAL LEARNING AREA (C) WITHDRAWAL / STORAGE AREA	\$2,410 \$2,410 \$2,380	
FLEXIBLE LEARNING AREA	\$2,650	Includes wet areas and/or additional storage/joinery.
HEALTH and PHYS ED	\$2,380	Includes basic gym areas and equipment stores and basic change rooms.
		*Excludes amenities.
SCIENCE	\$3,370	Includes laboratories and project/research labs, preparation rooms (high service costs), storage for laboratory equipment and chemicals. Basic building also reflects adjusted materials.
TECHNOLOGIES: - Design and Tech./Digital Tech. Laboratory	\$2,990	Includes provision for increased technology capability in an adaptable workspace including equipment storage and associated joinery, such as for robotics or other practical activities.
TECHNOLOGIES: - Food and fibre production - Food specialisations	\$3,260	Includes basic kitchen, pantry, laundry, storerooms and associated joinery.
TECHNOLOGIES:	\$3,890	Includes higher density of building services and extraction system, industry relevant fit out, as well as food store, laundry, storerooms and associated joinery.
- Hospitality Practices (VET and/or Applied Syllabuses)		*Excludes cold/cool room.

Functional Areas	Construction Costs (per m2)	Descriptors
TECHNOLOGIES e.g.: - Engineering principles and systems - Materials and technologies specialisation	AUD Feb 2022 \$2,630	Includes workshop areas, machine bays, spraying bays, wash areas, storerooms, materials storage/racking space and associated joinery. *Excludes dust extraction system.
TECHNOLOGIES e.g.: - Engineering Skills (VET and/or Applied Syllabuses)	\$2,630	Includes workshop areas, machine bays, spraying bays, wash areas, storerooms, materials storage/racking space and associated joinery. *Excludes dust extraction system.
THE ARTS:	\$3,140 \$3,140 \$3,140 \$3,140	Includes acoustic treatments and additional services, such as dance floors, as well as practice rooms, band rooms, recording studios, green rooms, sound booths and storage rooms.
- Dance - Drama - Media Arts - Music - Visual Arts	\$2,650	Visual Arts includes storage, associated joinery, wet areas and display areas. *Excludes associated COLA.
ADMINISTRATION (P) ADMINISTRATION (S) ADMINISTRATION (C)	\$3,070 \$3,040 \$3,040	Reception, site server room, school management, business/finance and clerical support offices, work areas, secure and unsecure storage, board room/meeting rooms, staff room and amenities, sickbay, finishes and fixtures of appropriate quality, internal travel and other areas deemed necessary for the operation of the school.
AMENITIES (P) AMENITIES (S)	\$4,330	Includes toilets, urinals, disabled/ambulant toilets, showers, sinks, and cleaner rooms. NOTE- rate for 2020 includes higher proportion of open space.
APPLIED TECHNOLOGIES	\$3,890	Higher density cabling for electrical and communications purposes resulting in a high heat load (such as a server room or comms space) requiring provision of air- conditioning. May also require acoustic treatment, due to the technology-based activity occurring within, such as Media Arts or Film and Television and New Media. *Excludes wi-fi service.
COVERED LUNCH AREA	\$1,130	Attached or detached (close proximity to other serviced structure), on ground, paving, tilted roof.

#### **PROTECTING CARIBEAN TEACHERS**

There are six official languages spoken in the Caribbean and many more unofficial languages. Among the official languages are Dutch, English, French, Haitian Creole, Papiamentu, and Spanish. There are six official languages spoken in the Caribbean and many more unofficial languages. Among the official languages are Dutch, English, French, Haitian Creole, Papiamentu, and Spanish.

Most languages spoken in the Caribbean are either European languages (namely **English**, **Spanish**, **French**, **and Dutch**) or European language-based creoles.

A 'one-size-fits-all' approach is not always best in the Caibbean, particularly for education.

Lessons in the Caribbean schools are held in English as it is an official language of the region.

You might be surprised to know that only about **15%** of people in the Caribbean speak English. According to a 2001 census, 62% speak Spanish, 25% speak French, and 5% speak Dutch.

The Digital Dictionary Code (DD-CODE <sup>™</sup>) is a program to teach reading and speaking skills to students of all ages and ability levels and regardless of mother tongue. DD-CODE<sup>™</sup> translates the international phonetic symbols into a coloured letter and number code format which is universal for the visualisation of syllables and the sound to letter associations required for written English. The DD-Code can be applied to ANY language.

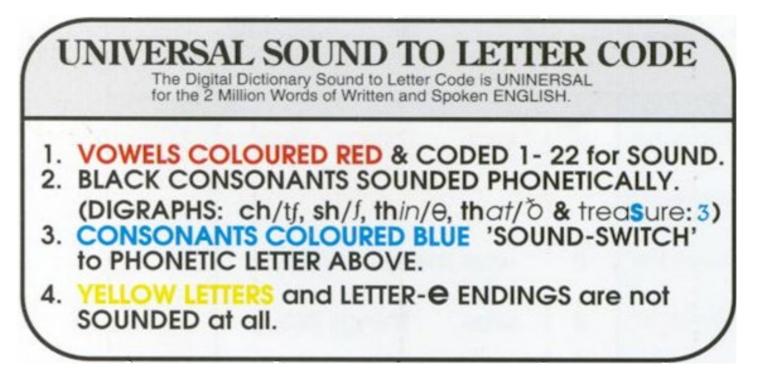

The product imparts adult-learned reading ability, which is normally learned over many years, to very young children.

The DD-CODE is the only discovery, which can and is eliminating illiteracy all over the world, virtually overnight.

The DD-CODE (Digital Dictionary) is a 1 to 1, sound to letter correspondence without any exception to the rule.

1. Training of educators to enable them to teach the reading writing of English takes ONE WEEK.

2. To enable ANYONE to read and write English fluently takes TWO weeks of full time education (5 hours a day for two weeks).

coperative enterprise

Cooperative arrangements within communities may be focused upon small area enterprises through to whole of nation endeavours to bring to the global markets high volumes of quality goods derived through value adding processes applied to natural resources and regional produce from the land, river and sea, encapsulating all elements of farming and animal produce.

Microfinance typically engages a cooperative of around five women when financing home enterprises. A cooperative is particularly useful when local fishermen bring their catches together at canneries for preparation to market their fish to foreign markets.

The introduction of 'Craft Creations' is to enliven the community's recognition of their high quality traditional skills and then enable their customary craftware to be globally marketed through a cooperative of their own making.

This is all about cooperatives to bring to the fore traditional and innate skills that fulfil needs for people around the globe, not just the local village. A cooperative may embrace several nations.

Natural resources that may be used in producing high quality goods in large volumes include:

Forrest logs processed into high quality furniture in volume for large distribution chains.

Timber offcuts for high strength laminated beams and reconstituted timber products.

Local building systems utilising local resources for durable housing – local market solutions.

Hydroponics particularly for produce that is not native to the area and its climate.

Aquaculture in rivers, estuaries and sea to mitigate depletion of ocean resources.

Traditional home produce being increased in volume to provide famine relief worldwide.

Hemp production to be on scale to enable volumes sufficient for manufacturing processing.

Cocoa, coffee, moringa, sandalwood, tea, vanilla, plus others, cropping to be of commercial scale, cooperatively run. All farming and animal produce come into the equation for cooperatives.

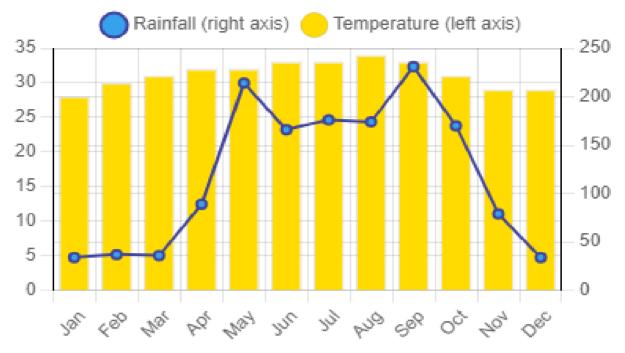

Funding availability per quarter AU **\$20,000,000**

#### PASCAS FOUNDATION (Caribbean SIDS) Inc CARIBBEAN WEATHER

\$ = USD	30 Jun			65
AUD1.00 =	USD 0.70	XCD 1.90	USD1.00 =	XCD 2.70

The Caribbean climate is tropical, moderated to a certain extent by the prevailing north-east trade winds. Individual climatic conditions are strongly dependent on elevation. The long rainy season lasts from May to October and the dry season from December to March.

The most extreme form of weather in the region is the tropical cyclone. In the Caribbean, tropical cyclones are called hurricanes. This is a powerful storm with winds of 74 miles per hour (120 kilometres) or more.

#### **Climate Change Knowledge Portal**

Dominica's climate is characterized as tropical maritime with dominant influences being the Atlantic Ocean, the Caribbean Sea, and the northeasterly trade winds. As a result of its mountainous terrain the island possesses a number of micro-climates. Rainfall is distributed between a dry season from December to May and a rainy season from June to November. The western Caribbean coast is in the rain shadow of the various mountain ranges and average rainfall along that coast is significantly less than in interior locations. Dominica's rugged topography results in considerable amounts of orographic rainfall making the island susceptible to landslides particularly in mountainous areas. The dry season is from February to April and the rainy season is from June to October. The spring months, from February to April and the rainy season is from June to October. The spring months, from February to April and the rainy season is from June to October. The spring months, from February to April and the rainy season is from June to October. The spring months, from February to April, are the driest. The heaviest rains fall during late summer and fall (August to December). The average yearly rainfall ranges from about 1,900 mm (along the coast) to 5,000 mm (inland). Hurricanes coming in from the Atlantic Ocean can be expected during summer months, usually between June and October. The peak of hurricane season is late August to early September. The island's climate is characterized by consistently warm year-round temperatures with a daytime average of 26°C in coastal areas decreasing to 19-21°C in mountainous areas, while night-time temperatures vary from 18-22°C on the coast and 10-12°C at higher elevations. Average annual temperature is 27°C.

These Hospital Cats are all fully self-contained with live on-board accommodation for the medical staff as well as the crew. Vessels come with standard fit out as below and can be fitted with state of the art medical equipment (at additional cost). These vessels are both modern in the Naval design as well as being a fully functional Hospital on the water. The 60-metre vessel has been designed for coastal use as well as being able to travel up rivers to isolated communities. Construction time for this vessel is approximately 9 months.

Uses: As a fully functional modern Mobile Hospital. Disaster relief such as for Flooding, Cyclone, Tsunami, Volcano and Earthquakes. As a training centre, working together with local land-based Hospitals. Assisting the Navy as emergency and rescue vessels. Assisting search and rescues operations on or near the water.

Standard 60-metre Hospital Cat Fit-out

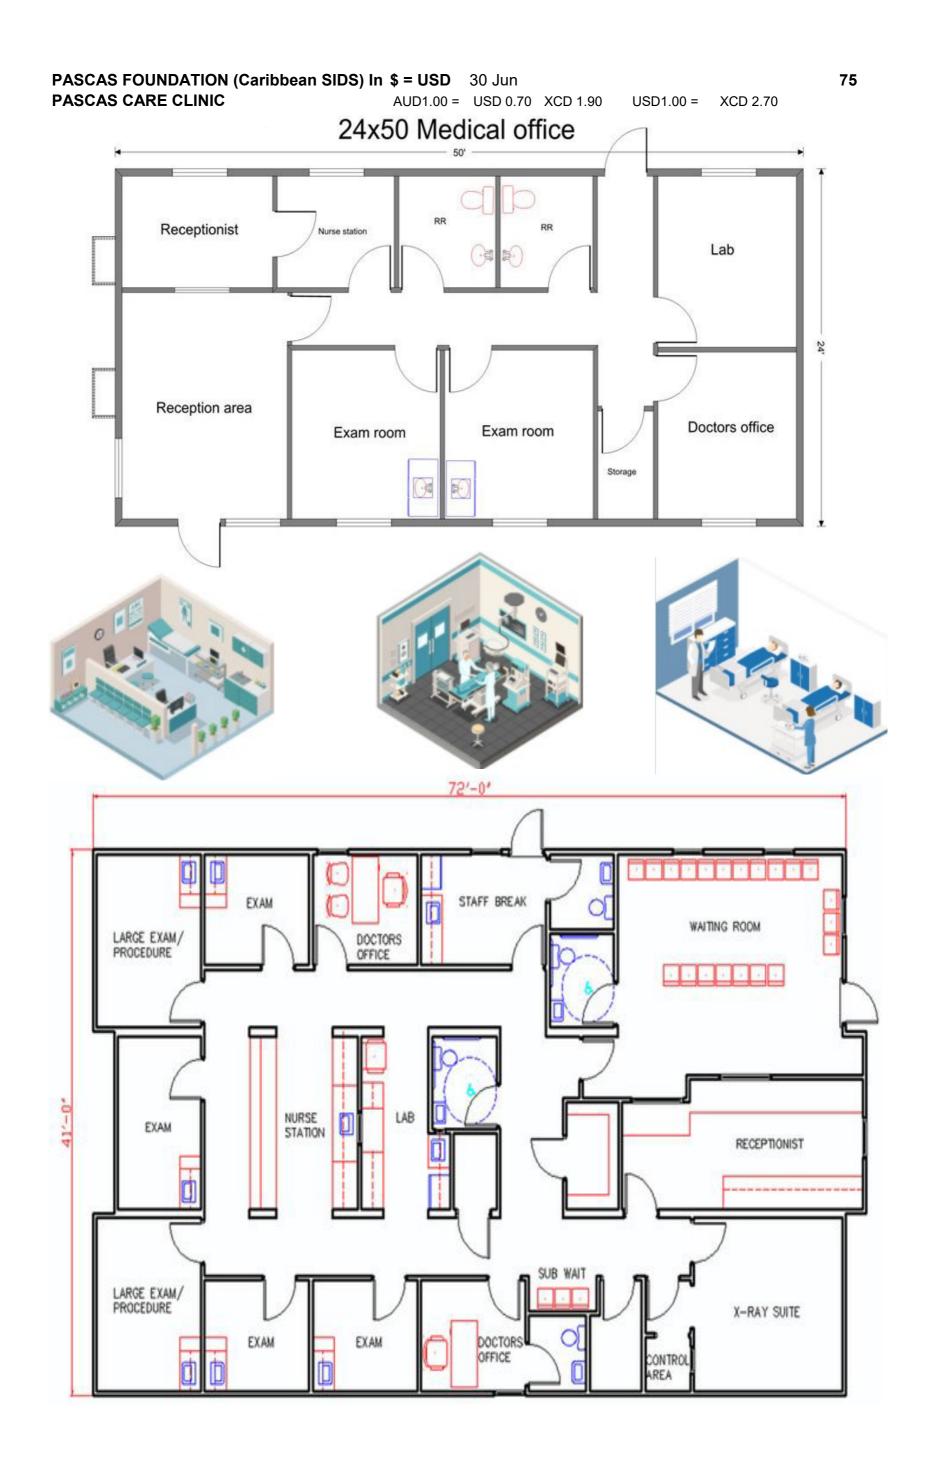

Operating Theatre x 4 Scrub Rooms x 2 Sterilization Room x 1 X-Ray Department x 1 Laboratory x 1 Dental Clinic x 1 Gynaecology x1 Ophthalmology x 1 Phlebotomy Station General Medicine x 4 Pre-op and Post-op 4 + 4 Overnight Ward x 8 patients ICU x 6 Patient Waiting Room Medical + Crew Dining Area Medical + Crew Galley Administration Office Helipad (Helicopter is additional) **Elevator Twin**

In a general sense, the Caribbean can be taken to mean all the nations in and around the Caribbean Sea that lie within an area that stretches from The Bahamas in the north to Guyana in the south, and Suriname in the east to Belize in the west. This is an expanse (mostly of ocean) which measures about 1,000 miles (1,600 kilometres) from north to south, and over 2,500 miles (4,000 kilometres) from east to west.

Distance from Nassau to Trinidad and Tobago 2,331 km

Distance from Havana to Trinidad and Tobago 2,632 km
