The AGE of INDIVIDUALITY

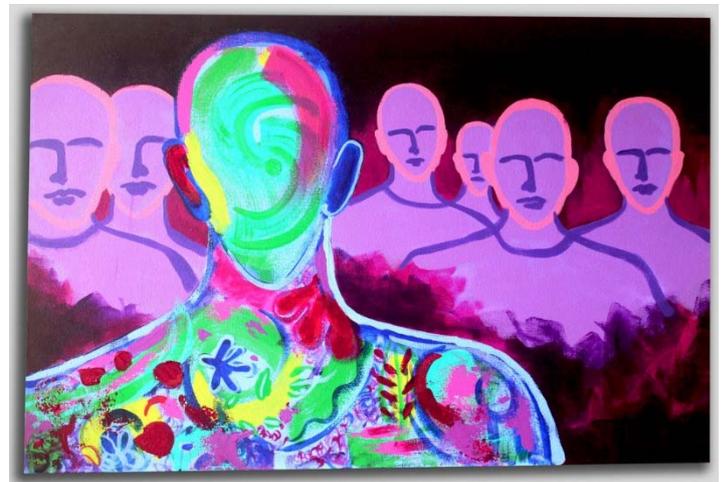

12 April 2022

Never has Earth's humanity become so zombie-ised through universal control addiction being imposed to 'unify' cloned style responses to the dictates of few having overt control over many.

We see all around us people seemingly functioning in a kind of stupor without any spontaneity or initiative.

Our pattern of same ol', same ol' repetitive living is now being disrupted in all sectors and at all levels. These 'disturbances' will continue for decades to come. The old ways will not be allowed to return.

We each are unique personalities and we all are to learn to put our façade aware that has been imposed upon us throughout our early childhood forming years. We are not the personality that our parents have imposed upon us and all other systems have strengthened our belief to be. The disruption are to have us seek a different way of living and that is to be through our feelings and no longer to being mind centric mind worshippers.

Living Feelings First

Brian Iverach, Graham Golding, Jim Baker and John Doel

Pascas Foundation (Aust) Limited

**Doing your feeling-healing is telling your story.
It's telling the truth of your whole story.
And it's all for you.**

HUMANITY is within a kind of dormancy, or even more like a stupor!

We, all of humanity, have been reduced to the barest of self-expression, having been reduced to the least creative life we can all live, that which the Earth is currently reflecting with everything and everyone trying to be the same. The pressure to keep going this way is to end. Steadily the pressure to go the opposite way, to increase creative expression, and this is not only meant through the creative arts, but in every aspect of life, socially, collectively and individually, is going to open things out enormously. It's going to be an explosion of light, that which is to end the darkness, something that's never been seen before.

It's the light in our souls, it's the light that comes from the truth we are to be living that will change us – that changes us all, light from our soul. **If one applies themselves to their Healing, thereby ending their unconscious self-denial, they will as they Heal, change and start expressing all the buried attributes, characteristics and talents, any natural part of themselves that's been denied because of their unloving parenting.** We are nothing like how we should be due to our self-denial. So many people are living completely false lives, so when they become true, they will almost be the complete opposite to how they have been.

We are to be alive and vital, real expressions of our soul, to be living fully Healed lives as Celestials while living on Earth. Continually coming to terms with all we have been through, we all take a long time to integrate and understand it all, but we will virtually be New People.

We on Earth are used to our anti-self conditions. For the people who knew us before Healing, we will seem like completely different people, although with the same basic personality traits and characteristics. However all the self-hating, denying patterns and consequential behaviour will be gone, with all our loving self being expressed. **We are all but the living dead, whereas the Healed are the living living. And there's a huge difference.**

We and those who are Healed are like chalk and cheese, we can't relate to them anymore, and they certainly can't relate to us. **Healing is taking someone who was all but crippled right the way through their childhood and undoing all that retardation within them.** Doing one's Healing is changing the whole programming of every structure within you, all in keeping with getting older and naturally ageing with your mind and feeling systems ageing as well, working right down on the deepest will levels, it all changing, all to rid you of your wrongness and make you become right. It's a huge undertaking.

Yet it all follows on, it's not like you'll be so different from the old you that may as well not have existed, it's all there, all the new you to become, with only snippets currently being exercised and expressed, with **the rest of you in a kind of dormancy, or even more like a stupor.**

Once you have finished your own Healing, you'll be like a new person.

Notes derived from Celestial Nanna Beth 20 – 23 April 2018

Nanna Beth, 3rd Celestial Heaven, John's grandmother: **Many people at this time want something new, and something Really New, not just new yet which is more of the same old stuff. Many people can see that things don't work, that over and over again over the years people try to solve the world's problems and yet it might be a patch up job for a moment but then the same problems reassert themselves. So when you (Pascas) start 'reaching out' then people will begin to realise that this is Very Different and within it there might be some chance of real change.** Saturday, 14 December 2019

“The age of individuality”

Musings of Peter M

Sunday, 22 August 2021

It's early Sunday morning and that provided good thinking time. A number of recent articles have been appearing regarding China President Xi and his clamping down on some very rich company floats and individuals in China.

This got me thinking as there is often layers upon layers of deeper issues to such occurrences.

On first blush I considered that it was perhaps about the enormous inequality in China and his means of dealing with one of their more serious issues confronting him as much of the country remains impoverished and he is saddled with the economic challenges of increasing labour costs, (as the former cheap labour cost advantage that enabled him to achieve labour cost efficiencies through continual internal mass migrations towards the cities) whilst continuing to have China emerge and take “its rightful place in the world”. No doubt that is a driver as well as his legacy and ensuring that he survives past his next internal test period 2022. Clearly he operates on many levels.

But much more is happening on the world stage and perhaps I postulate, indeed, that capitalism is being tested and needs to evolve! So, Xi at a higher level is setting about addressing on his terms of what is the system of government for the new world order

In the age of individuality is Xi right or wrong with his strategies?

But essentially is he addressing this issue for the reason of his own survivability and his legacy or is it deeper. Has he identified and tapped into a key aspect of an issue that is truly worldwide and has chosen to deal with it his way for his own and China's benefit? Has he identified a fundamental weakness in the capitalist system that needs fixing and perhaps he postulates that because capitalism is not evolving to deal with it that our ignorance can be exploited as he better positions himself and the Chinese economy?

I identify the issue as “The age of individuality” so having identified the issue is Xi right or wrong in the manner in which he is dealing with it OR am I just over thinking the issues?

Hopefully this assemblage falls on fertile ground for thought and feedback

I conclude by thinking that over all Xi is really very much addressing an inherent Chinese problem which if ignored could well be fatal for him and that is why he is now focusing on it. He is not being altruistic (but considering his origins perhaps that is part of it).

Capitalism however must and will evolve to produce a new “social contract” recognising the need to encourage and reward individuals with ability to strive for success both financially and for the benefit of society whilst giving weight to the significance of the individuality and this right of individual in our society, where information and knowledge (the ultimate most valuable commodities) are freely shared and not utilised for one's own and exclusive benefit.

Xi Jinping just sent a bleak message to China's super rich

<https://qz.com/2049109/xi-jinping-just-sent-a-bleak-message-to-chinas-super-rich/>

By [Jane Li](#) China tech reporter

18 August 2021

Chinese president Xi Jinping yesterday sent a stark message to the country's wealthy: It is time to redistribute their excessive fortunes. At a meeting of the Party's Central Committee for Financial and Economic Affairs, Xi emphasised that "common prosperity" must be a core feature of Chinese-style modernisation. The government must promote this goal while maintaining high-quality development, he said, according to a summary of the meeting published by state news outlet Xinhua.

The Party has good reason to worry about inequality, which increased over the decades of economic reforms that created a richer and more capitalist society. Last year, China's richest 20% had 10 times more disposable income than the bottom 20%. Public concern about the difficulty of getting—and staying—ahead appear to be contributing to major structural problems, such as a plunging birthrate as parents worry about rising educational and property costs. Some young people are also adopting passive forms of resistance to what increasingly seems like an unwinnable rat race, such as the "lying flat" philosophy, essentially opting out and doing the bare minimum.

Another reason for the Party's focus on outsize wealth is to reduce rival centres of power and influence in China, which has also been an impetus for its crackdown on the tech sector, a major source of new wealth in recent years. In fact, the regulatory storms it has unleashed since last year have already wiped out a great deal of paper wealth for China's billionaires.

Yesterday's meeting pledged to carry out "reasonable adjustments to excessive income" and encourage high-income groups and enterprises to give more back to society. At the same time the government will improve education and opportunities for more people to become prosperous, with the aim of having an "olive-shaped" society with a large middle class and few who are extremely rich or extremely poor. Policy makers also vowed to "clean up and regulate unreasonable income, rectify the order of income distribution, and firmly eradicate illicit income," according to the summary. That could be a possible nod to the entertainment industry, which has been the focus of major tax evasion campaigns in recent years.

Xi's remarks are not to be taken lightly, and the latest ones could signal that higher taxes or more philanthropic requirements of the super-rich are on the way.

China already has fairly high income tax rates for its wealthiest. That includes a top income tax rate of 45% for those who earn more than 960,000 yuan (\$150,000) a year as wages, while the top rate for taxable personal income from a privately owned business stands at 35%. Meanwhile the corporate tax rate is 25%, though some tech enterprises qualify for a preferential rate of 15%.

Upcoming moves could include rolling back the preferential tax rate for internet companies, while a push for a nationwide property tax has also been accelerating. Some Chinese tech moguls including the CEO of food delivery giant Meituan have already donated company stakes worth billions of dollars to charity, a move seen by many as trying to appeal to the authorities.

However, in what is likely an effort to moderate the uneasiness the remarks will generate, the meeting also reaffirmed the value of the idea of allowing some people to become richer than others, a reference to a 1978 speech by Chinese leader Deng Xiaoping that kicked off China's economic opening up. It also said legal income is protected, and that the government supports the development of small and medium enterprises.

FEELING HEALING COMPLETE

Tuesday, 12 April 2022

James Moncrief, on this day, 12 April 2022, advised and outlined that his personal Feeling Healing process was now complete.

In so doing, he had been observing that nothing new had been coming up for him to consider, that he had nothing further that he had to personally resolve and that the process was for all intents and purposes fully completed.

It could be said that he started his journey in 1993 when he had obtained a full publication of the “Padgett Messages” which introduced the availability of Divine Love to him and Marion. It was several years later that he commenced, what he calls Feeling Healing, through Marion’s promptings and strivings.

As both Marion and James have engaged their personal Feeling Healing from different ends of the spectrum, both now can be said to have finished their Feeling Healing process with different completion experiences.

Further, James now sees that his ceiling of personal growth is or will be the equivalent of the 3rd Celestial Heaven while he is on Earth. This will also set the pinnacle of growth for the rest of Earth’s humanity while living in the physical on Earth.

Apart from this all being very important for all of Earth’s humanity is what this means for our present day activities. James is now in a state of completion of his understandings of what is required to be shared with all of humanity. He does not have any outstanding questions to resolve. That is, the state of truth now within himself and his Spirit of Truth is the foundation to commence interacting and sharing what is to be revealed. Until this condition was reached, James refrained from general conversation and public discourse until Truth was understood.

So, again let it be said, that on Tuesday, 12 April 2022 the Feeling Healing of a soul partner pair has been achieved and that is the first time in the full history of Earth’s humanity, all 993,500 years of it, that a pair have while living in the physical here on Earth have completed the healing of what they have taken on of the Rebellion and Default which has prevailed these past 200,000 years.

NOW, the rest of humanity on Earth can follow and achieve their personal healing or progress as they please. What needs to be understood is that we can all only follow the lead of higher level spirits.

Samantha in England is the closest in completion of her Feeling Healing. As an aside, a couple of days ago she contracted Covid-19, she is not vaccinated, however, this experience may now provide her with the ability to travel as her personal immunity will be at higher level than what any vaccine can achieve.

“The age of individuality” IS now to Unfold!

So, what is living an individuality? It is being true to ourselves. It is living and expressing our feelings. It is being who we truly are. It is not being the personality imposed upon each of us by our parents, our carers, our teachers, our spirituality and religion, our employers, our local and federal governments!

We are not to impose our will upon another. By living feelings first while longing to know the truth behind what our feelings are bringing to our attention we begin to express our true personality – our real self!

Golden Rule: One must always honour another’s will as one honours one’s own. Never interfere with another’s will. By living true to ourselves, true to our feelings, we are living true to God. It’s that simple. The New Way: Learning how to live true to ourselves by living true to our feelings.

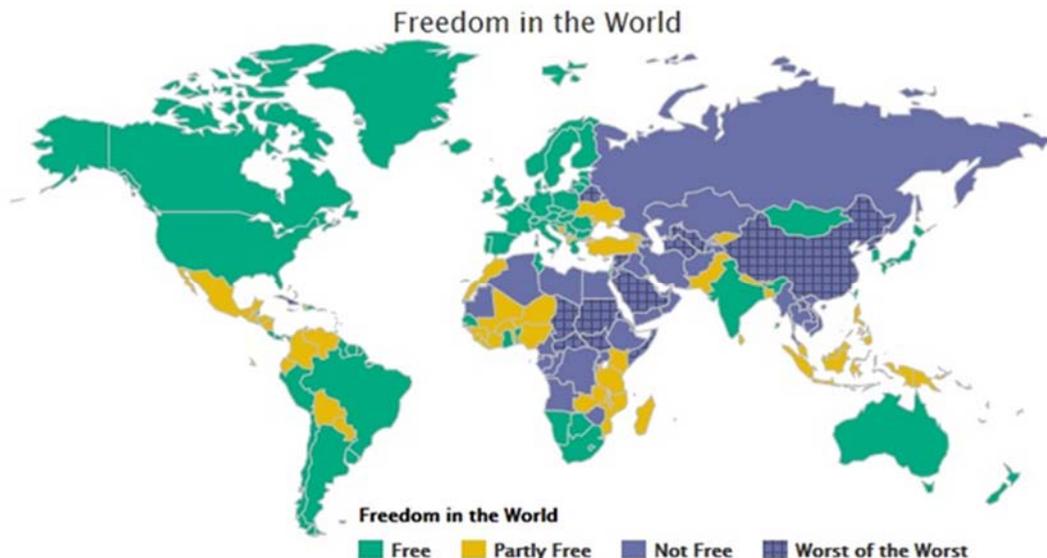

Our True Parents’ Divine Love: Pray for it, ask for it, and receive it.

To liberate one’s real self, one’s will, driven by one’s soul, moves one to embrace Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we’re feeling them, express them fully, all whilst longing for the truth they are to show us.

The True Liberation of Women is Through the Truth of Their Feelings.

All very simple, yet for 200,000 years we have lived through our addictions of our minds, strived to control others as well as our environment and by living mind centric we have established all the possible ways and means to suppress and ignore our feelings. As parents, we all instil into our children the pattern of living mind centric with the worshipping of our mind to the detriment of our true feelings and personality.

This era is not about some norms, some circumstances changing. This is a time when EVERYTHING IS TO CHANGE! Nothing that was established during the 200,000 era of the Rebellion and Default is going to be allowed to continue. NOTHING!

We are going to see ALL authoritarian administrations end.

Citizens of authoritarian regimes tolerate their leadership while their employment grows, their income increases and their standards of living improve. This is particularly the case for China and Russia. When these improvements are being delivered the autocratic leadership is tolerated.

China's regime is particularly sensitive to this reality. Consequently they are provoking social issues and developments to distract their people from recognising their inability to sustain ongoing growth.

A review of the political and economic environment that prevailed before the commencement of World War II in 1939, we can readily recognise similar pathway and issues prevailing now in China as well as a few other autocratic regimes in the northern hemisphere. The build-up of military as well as alliances presently underway suggest that shortly there will be one almighty mess made of the northern hemisphere.

Then the suppressed people of those authoritarian regimes will assert themselves with the removal of their autocratic leaderships. Meanwhile the mess will be greater than that of World War II.

All supply chains would collapse under these circumstances. Strategic supplies of essential items need now to be established outside of the northern hemisphere.

What we have now is the confluence of a number of events; the Shift, the End Times, the End of the Rebellion, Jesus' Truth in the Padgett Messages and some enlightening information in The Urantia Book.

The Padgett Messages (1914 – 1923) brought about the awareness to the world (well for those who have closely read these writings) of the availability of our Heavenly Parents' Divine Love. One soul manifests two personalities – one female and one male always. God is both Mother and Father. Some 250 Celestial spirits wrote through James Padgett. Matthew, Mark, Luke, John, Paul, Judas, Mary Magdalene and Jesus have addressed about significant errors throughout the New Testament of the Bible and, yes, nothing of significance was correctly written about.

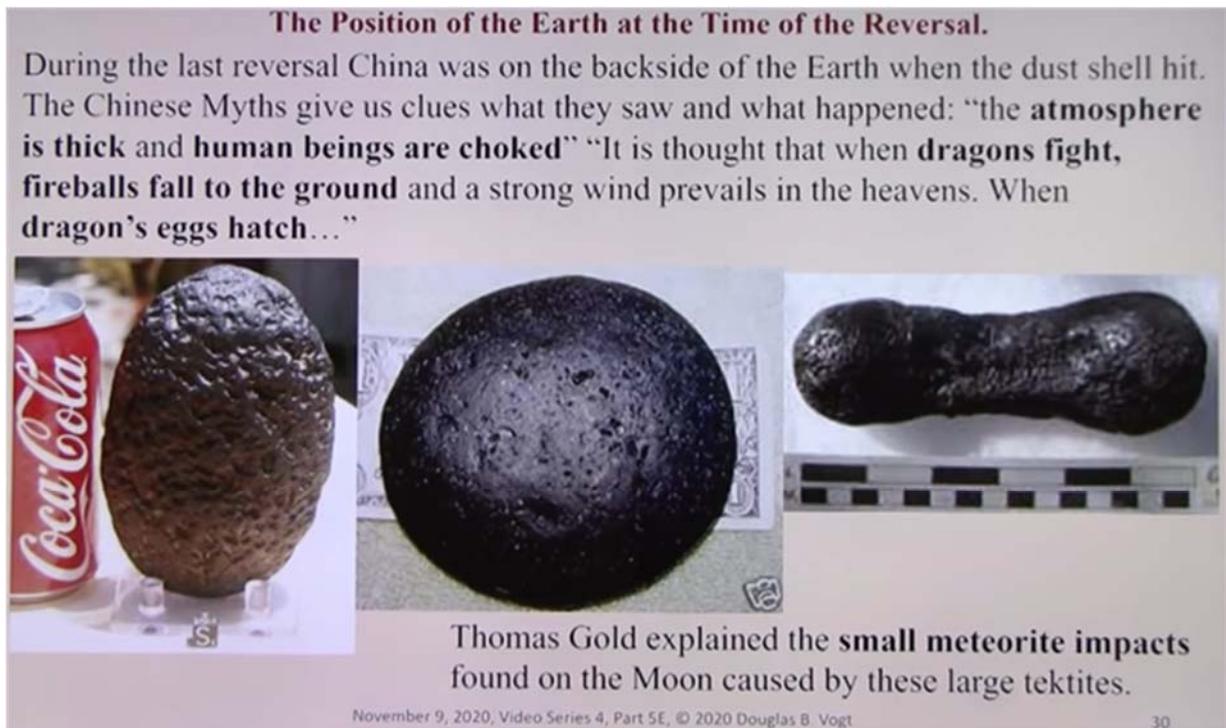

The Urantia Book (1925 – 1935) was delivered by high level spirits from within our local universe and it is not only a history book of Earth's (Urantia is the spirit name for Earth), but also a road map of the universes.

The End Times, which we are in the final days of, is the completion of Mary Magdalene and Jesus' direct involvement with Earth's humanity. Their involvement was always to be only 2,000 years and now the preparation is underway for the handover to the Avonal Pair who are presently on Earth. The Avonal Age will be for the coming 1,000 years and this is what you, the reader, is now directly involved in!

The Shift is the cyclical pole shift that occurs every 12,000 to 13,000 years. The lead up to this involves surges of energy flowing along the energy lines throughout the universes. The Sun receives and increases activity. The emitting energy from the Sun is received into the centre of its planets. Thus the core of Earth has marginally increased activity and rotation, slightly increasing the spin of the Earth, slightly tilting the planet as well as increasing the spread of the oceanic plates thus causing mild submersion of some islands. The rotation increase is agitating the surface, firstly increasing the temperatures of currents and then the surface temperature of the continents.

What all the phases are is yet to be understood. The climax is the nova event of the Sun. It 'blows' its dust shield off thus showering the side of the planet closest to the Sun with glass type beads – tektites.

As we all may recall, from 20 July 1969 through to 11 December 1972 there were six moon landings. Apparently we went there to beat the Russians from being first to land on the moon. Then why did we go six times when we won through the first landing?

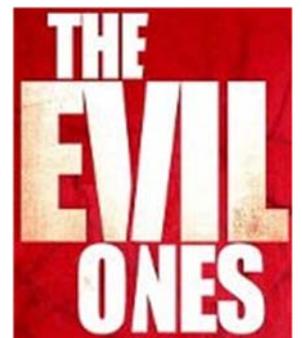

Evidence was required of the cyclical Sun nova events and that required finding tektites on the moon.

Also, now you know why there is such dubious support by many governments to ‘fight global warming’ because the increasing surface temperatures are coming about from within the planet, not from man’s endeavours to pollute the atmosphere. Yes, we do have an impact, something well under 1%!

Nanna Beth, 3rd Celestial Heaven – John’s grandmother – 4 October 2019: “That’s about what it comes down to. It’s the Changing of the Age on the physical and spiritual, and that’s never happened before, not in such drastic ways. So the physical Pole Shift will be a major physical change, affecting humanity psychologically in a major way; and then you have the Spiritual Change being in many ways even a more drastic change than the physical shift.

“With a physical Pole Shift such as you are considering, certainly the world is physically changed, and a lot in some places, yet nature rebuilds and restores the natural world and life goes on. Humanity deals with the cataclysm the best it can, and rebuilds and life goes on. And up until now, that has been rebellious life, by default, it being rebuilt after each Shift. So each successive age has moved to reflect yet another expression of the Rebellion and Default. However that pattern ends this time round. The Spiritual Change will be too overwhelming to allow the Rebellion and Default to simply regroup and re-express itself. It is going to continue to die and fade away. It will try and rebuild, yet everything, we Celestials, the whole Spiritual climate, the Spirits of Truth, will be against it. There are no longer the higher Evil Spirits ensuring that their Rebellion will carry on, so those people left in the Aftertimes wanting to rebuild and make it business as usual, will find it increasingly difficult, and eventually they will see that they can’t bring back the Old Ways and will never recover. They won’t understand that their failure will result from the light of the Spiritual Truth on the world, it being just too bright, but that’s what’s going to happen.

“Certain people are going to flourish in the lead up to the Change as they embrace your work (the Avonal revelations), and then even more so during the Aftertimes as they seek to do their Healing and live true to their feelings. They are going to be in a way like a new ‘race’ of people. As yet they have not been seen on the world. Samantha in her small way is a forerunner to them. And they will want to dedicate their lives to themselves, to Healing themselves, to living true to themselves, living as you and Marion want to do. And as I’ve told you, they will be supported in it, so in a way it will be easier for them to do their Healing. Sam is doing it completely alone and devoid of all help. She doesn’t have that much of our support, nor directly from the Avonals’ Spirits of Truth, nor just the all-pervading new Spiritual Light. She has nothing. And how unique she is, because once you and Marion come into your full light, then everything changes and no one will be able to do it as hard and alone as Sam is doing it, because you and your angels will provide more light, as too will we Celestials be able to move closer and help.

Now, to consider the coronavirus Covid-19. Yes, man ‘weaponised’ the virus and now the world is experiencing it in full flight – but it is being managed by the angels and nature spirits in the same manner as the several thousand viruses in circulation today.

What can we do to not get this virus or any other virus? Nothing EXCEPT live true to our feelings. The only reason we experience a virus or any other disease is for it to cause us to seek to understand why we are having this experience. Life is all about experiences and what our feelings reveal to us!

If our soul wants us to have an experience of a particular nature then should it be a coronavirus then we will get it! If we are to have the experience then we will ‘catch’ the virus.

We have achieved something. Earth’s humanity is the worst of the worst in depravity. We truly know how to be evil. **All illness results from our inner levels of discontentment – BECAUSE WE DON’T FEEL LOVED.** Childhood suppression (which starts from conception) is the underlying cause of all physical illness and social issues seen throughout society.

The whole human race is suffering from repressed childhood and mind control.

Health systems do not address the cause of illness – they suppress the symptoms so consequently we remain paying customers throughout our lives. Only Feeling Healing can mitigate our childhood suppression and bring about harmony throughout our bodies. The health sciences do not recognise the etheric body – that being the bridge between the spirit to the physical. All illness emanates from our childhood suppression, disrupting energies within our spirit bodies that emerge in the physical. **Disease**, like cancer, and the breakdown of the physical structure is wholly physical however they **are the physical manifestations from the breakdown of our spiritual light in our spirit systems.**

We all can go and get vaccinated and that will mitigate the severity of the experience, but the vaccine will:

- Not prevent us from ‘catching’ the virus.
- Not prevent us from incubating the virus and passing it on.
- Not prevent us from mutating the virus for others to receive in the form required by them.
- There are long term negative issues emerging with mRNA based vaccines.

The vaccine is for the physical body. Every person who has a Covid-19 experience receives a mutated variation to specifically match what that person requires. The mutation is not visible to science.

Viruses are more of the spirit in nature. It is transmitted through our etheric bodies and medical science does not even acknowledge the existence of the etheric body.

The etheric body

Barbara-Ann Brennan Hands of Light Chapter 7 (Bantam US, 1987).

Our spirit body forms before our physical body. It is the etheric body of our spirit body that is the template for our physical body. Our physical body looks the same as our etheric body. When we arrive in the 1st spirit Mansion World after separation and death of the physical body we look exactly the same as we do now in the physical. We can then use our spirit fingers and pinch our spirit body and it will feel exactly as we feel now in the physical. We separate from our physical body and the death of the physical body follows – we do not experience death!

When medical scientists start on a new and improved vaccine for Covid-19 or any other health issue, our Nature Spirits, under direction from Angels, will immediately mutate the present Covid-19 form to negate the vaccine. This is also the case for all vaccines against any disease. If we need a particular experience then we will be presented with that experience to help us go deeper into our wrongness which we are good at doing, or to come out of our wrongness which we find mostly difficult to consider.

We are aware that most ‘eliminated’ diseases are now back in circulation. They have become ‘drug resistant’ or they are in a more aggressive format. Embrace our Feeling Healing and we will be fine. That is what this present environment change is all about.

The Rebellion is against love, the Default is all the difficulties we have in our relationships because of our rebellion. Healing the Default is becoming true – to ourselves and in our relationships, and ending our unlovingness – our rejection of love, so ending the Rebellion.

And this present environment we are experiencing is about the ending of the Rebellion and Default that has prevailed these past 200,000 years. It has been administered through a Universal Contract. The ending has been in steps and these steps have presently been opened up by the Avonal Pair progressing with their personal healing of what each of them had taken on of the Rebellion and Default:

| | |
|------------------|---|
| Early 1990s: | The arrest of the Caligastia and Daligastia soulmate / soul partner pairs. |
| 22 March 2017: | Negative mind-spirit influence was blocked by Celestial spirit. |
| 31 March 2017: | Angel assisted healing will become available upon the Avonal pair completing their own Feeling Healing, being with Divine Love, thus it being Soul Healing. |
| 22 May 2017: | Law of Compensation quickening. |
| 2 December 2017: | Psychic Barriers maintaining the Rebellion and Default were cracked. |
| 8 December 2017: | Bring on the money to ‘house the future of humanity’ . |
| 31 January 2018: | Earth and the seven associated Mansion Worlds (including the two Earth planes) are officially now fully under the control of Celestial spirits. This marks a tangible and real end to the Rebellion and Default. |

Also recognise that:

Tuesday, 12 April 2022 marks the day that funds planned for, through banking systems instigated by the Bretton Woods Conference in 1944, then subsequent accumulation of funds over decades, that the first nominal release may now been achieved, so that we can commence physical preparation for the earthing and dissemination of The New Way and Feeling Healing around the world.

Tuesday, 12 April 2022 marks the day when the physical preparations for the technical commencement of the Avonal Age that is to follow, can now actually commence.

Tuesday, 12 April 2022 is the first day upon which it can be considered that those who have been flying blind, so to speak, can actually consider that all that has been subtly unfolding is now crystallising upon solid foundations.

Tuesday, 12 April 2022 marks the beginning of people coming together to commence the bringing about of The New Way, Feeling Healing and the welcoming of the coming Avonal Age, worldwide.

The disconnection of mind Mansion World spirits from physical people is revealing the incompetence of many. This and all the changes are bringing about the ending of the power of the hidden controllers throughout all facets of society.

Nothing will remain the same. Those who seek for a better way and long for the truth will find what is unfolding being invigorating to being even exciting.

Global hyperinflation may attribute to the redistribution of assets between all people. As a reflection, today's Sunday paper costs AU\$3.00 whereas in 1970 it was 5 cents – 98% devaluation!

This moment in history is the ousting of all that represents the Rebellion and Default and that requires the dismantling of all systems, norms, practices and institutionalise platforms. Nothing remains – all of the old must go!

When we consider the psychic profile of the people of Australia in relation to the people of other nations, then it is recognisable why it begins here.

Our feelings are our supreme guide. **Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides.** Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we**

are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.

John's brother-in-law – Kevin 26 September 2017

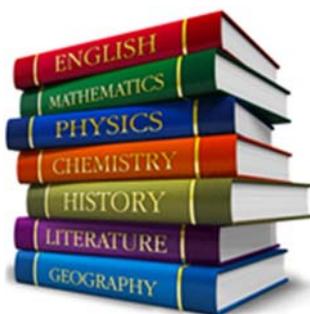

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

The complacency and 'stability' of past decades are not to return. Humanity will now continue to be disturbed and disrupted until we begin to look for a better way, a new way of living. And the New Way is embracing and having our feelings lead and guide us with our minds in support to implement what our feelings are showing us while always longing for the truth of our feelings.

And for this to unfold, with the support of a vast array of Celestial Spirits, a very small group of people are being provided with the resources to begin the physical changes required to enable all of humanity to become aware of The New Way, Living Feelings First.

This time, in the history of humanity, is the most exciting time ever experienced.

Central Banks are Now in the Endgame

<https://goldswitzerland.com/central-banks-are-now-in-the-endgame/>

Thursday, 19 August 2021

Authored by Egon von Greyerz via GoldSwitzerland.com,

Central bankers were handed the Midas curse half a century ago. Midas turned everything that he touched into gold— even his own food. Exactly 50 years ago (15 August 1971) central bankers were handed a much worse curse by Nixon. But instead of turning everything into gold, their curse was to turn all real assets, including gold, into worthless paper, creating the perfect setup for this central bank endgame.

Nixon had of course not studied history. Because if he had, he would have understood that his lie was \$100s of trillions worse than the Watergate lies:

“THE EFFECT OF TODAY’S ACTION will be to stabilise the dollar”

Hmmmmmm!

As the chart below shows the dollar has lost 98% in real terms (GOLD) since 1971. Just a one hour history lesson would have taught Nixon that no currency has ever survived in history since all leaders without fail have done what Nixon did.

Reminds me of the line in Pete Seeger’s song **“Where have all the flowers gone”**:

“WHEN WILL YOU EVER LEARN, WHEN WILL YOU EVER LEARN?”

Well, they will never learn of course. History has taught the very few who are willing to listen that there is no exception.

Every single currency throughout history has been debased until it has reached ZERO as I outlined here.

It seems incomprehensible that presidents and central bankers have not learnt they will all play the role that their predecessors have, in destroying the nation's currency.

With their arrogance, they are all obviously hoping that they can pass the baton on so that it won't happen on their watch. And because most leaders have a relatively short reign in relation to the lifespan of a currency, they often escape even though guilty.

Nixon for example believed that he committed a good deed and stabilised the dollar. If he is looking down from above, he will now 50 years later, see that his actions have created a "mere" 98% fall so far.

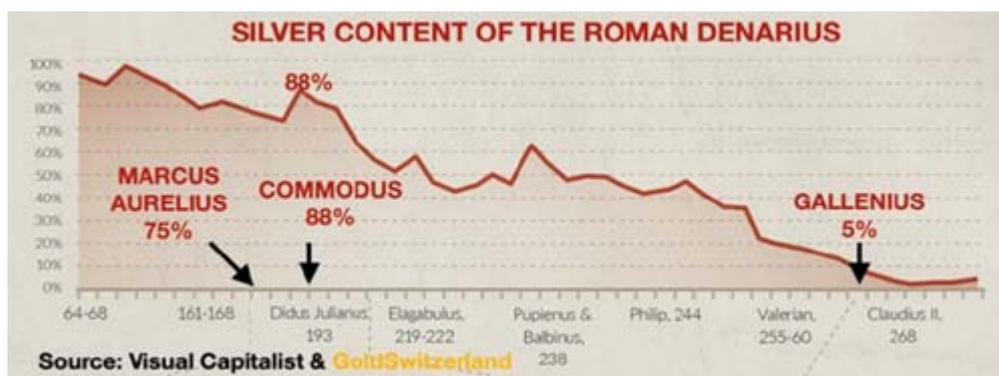

So Nixon saved the dollar very briefly with the consequence of killing it forever! When will they ever learn?

A DYSFUNCTIONAL GLOBAL ECONOMY

The period after I was born at the end of WWII was followed by a long chapter of law and order in the West. This was not just in society at large but there was also order and discipline as well as courtesy in schools and families.

Today in many countries there is no respect for teachers, parents or even the police. All eras go through cycles and the worst part of the cycle is what we are experiencing now.

Moral and ethical values are gone and crime is rampant. This is not new in history and regularly happens at the end of major eras or cycles. This happened for example at the end of the Roman Empire as Rome disintegrated economically and morally. Decadence was rampant then as it is today. So were debts and deficits.

The emperor Commodus started it all and was the ancient USA President Nixon. Gallienus finished it off and was the Greek version of USA President Biden.

So dissolution of values and principles are clearly a consequence of financial and economic dysfunction.

The fact that the US for example has increased the federal debt every year since 1960 (with four minor exceptions) is a sign of chronic disease and total dysfunction.

If the US government for over 60 years has become increasingly more decadent, both economically and morally, how can we expect the people to behave differently?

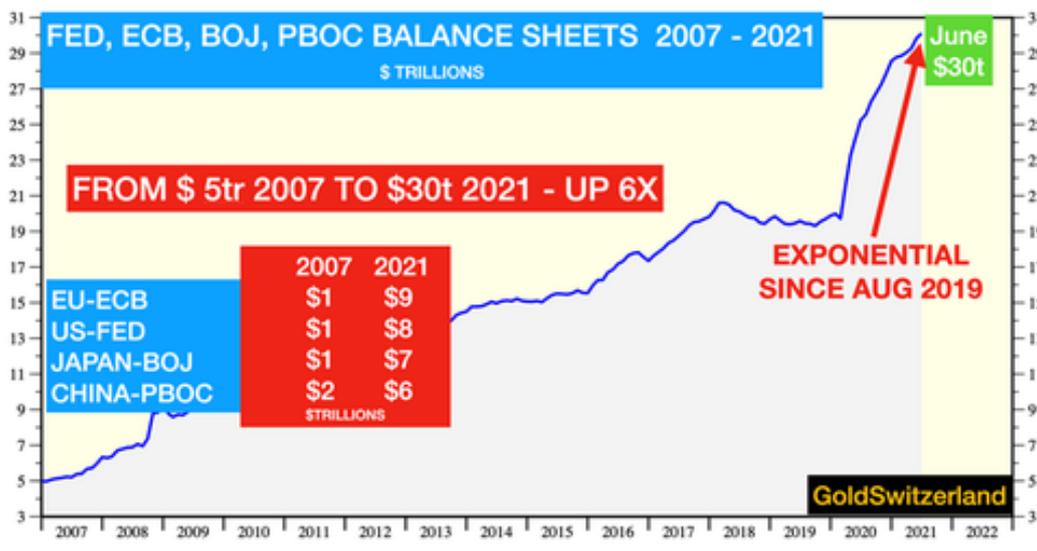

Many countries in the world have fared in a similar manner but because of the size of the US economy and the reserve currency status of the dollar, the consequences are considerably more significant.

WE ARE NOW IN THE CENTRAL BANK ENDGAME

The song “I am forever blowing bubbles” was written in 1918, not long after the creation of the US Federal Reserve Bank (the Fed). Clearly the composer saw it coming:

*“I’m forever blowing bubbles,
 Pretty bubbles in the air,
 They fly so high, nearly reach the sky,
 Then like my dreams they fade and die.”*

It will be no different with the current bubbles. They have already flown so high and reached the sky. Just look at central banks’ balance sheets which are now going exponential:

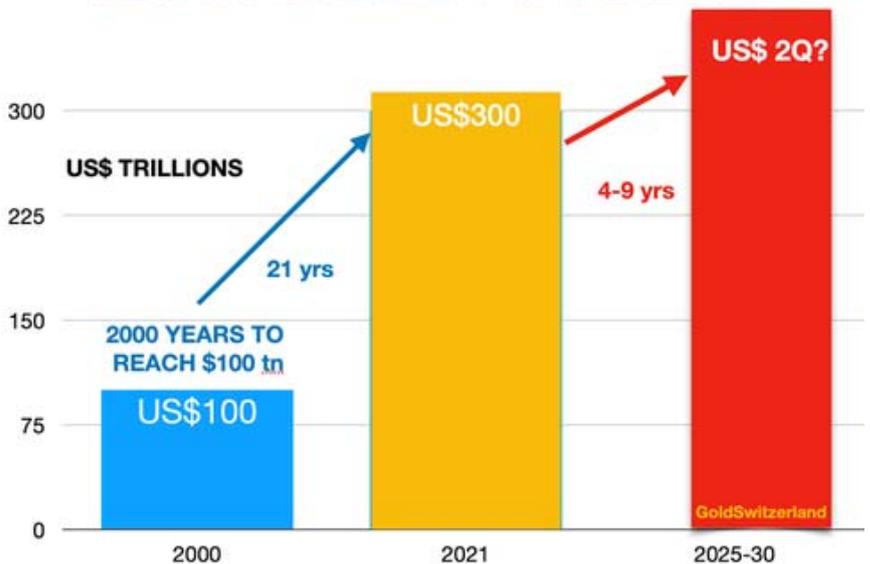

As the graph shows, since the Great Financial Crisis started in 2006, the balance sheets of the four biggest central banks have gone up 6X. Since the current crisis accelerated in 2019, the growth is now **EXPLOSIVE!**

But it is not just central banks blowing bubbles. Because the whole world has become a bubble:

It took 2,000 years to reach US\$100 trillion global debt and most of that is accumulated since 1971. Then 50 years later global debt trebled to US\$300 trillion.

GLOBAL DEBT BUBBLE

As you can see in the graph above, I am projecting US\$2 quadrillion or more in the next 4-9 years. Sounds massive and sensational but the math is simple. If we add unfunded liabilities of at least \$200 trillion globally plus total derivatives of at least \$1.5 quadrillion, that takes us to US\$2 quadrillion.

As the derivatives bubble explodes, or rather implodes, in the next few years as we hit the central bank endgame, all that money will be printed by central banks in a futile attempt to save the financial system.

15 August 1971 was **the beginning of the End** for the current economic era and currency system.

The Great Financial Crisis in 2006 was the start of **the End of the End**.

In August 2019 when central banks panicked and stated they would do whatever it takes, **the final stage of End of the End** started.

In the graph above I have indicated that this very final stage and endgame of our current monetary system will end between 2025 and 2030. The end of a major economic era is of course impossible to forecast.

Normally things take longer than we expect. But when the hyperinflationary central bank endgame starts (followed by a depressionary implosion), things normally happen very quickly. Hyperinflationary periods are typically 2-4 years.

CONSEQUENCES – CONSEQUENCES

We have invested seriously in physical gold since 2002. We had the years leading up to this century studied global risk and carefully researched the best way to protect against this risk. Our conclusion was the financial and currency system was unlikely to survive based on our risk analysis which also included understanding history.

We are not gold bugs but see owning physical gold as the best protection against the consequences of another failed financial and currency system.

As we discussed in our MAMChat last week discussing the gold flash crash, the attempt to depress the gold price by dumping US\$4 billion of paper gold was just the final part of a normal correction.

Our interest in gold is purely for fundamental reasons but sometimes it is interesting to look at technical patterns.

The chart above shows that the corrective C-wave reached support at \$1,680. That was probably the end of a minor correction and gold should soon start the move to the next target of \$3,000. Rising above \$1,900 will be confirmation of the resumed uptrend.

Gold is in a secular uptrend since 1999 and no action by central banks

can stop the move to levels that are unthinkable today.

But investors should not focus on what price gold could reach but instead how far their assets (stocks, bonds, property) measured in dollars or euros can fall. In my view the falls will be much more than 50% and probably more than 90%.

Physical gold, securely vaulted in a safe jurisdiction such as Switzerland, has always been the best protection against a failed currency and financial system.

This time will not be different.

COVID-19 – AFGHANISTAN – DOW JONES INDEX – USA MONEY SUPPLY = WORLD WIDE HYPERINFLATION and CIVIL DISOBEDIENCE!

It is now August 2021:

What was the Dow Jones in March 2020?

On Monday, March 9 the Dow fell 2,014 points, a 7.79% drop. On March 12, 2020, the Dow then set another record by falling 2,352 points to close at **21,200**. It was a 9.99% drop, and the sixth-worst percentage drop in history. Finally, on March 16 the Dow plummeted nearly 3,000 points to close at 20,188, losing 12.9%.

The Dow Jones Industrial Average (DJIA) index dropped around 8,000 points in the four weeks from February 12 to March 11, 2020, but has since recovered to 35,625.40 points as of August 11, 2021. In February 2020 - just prior to the global [coronavirus \(COVID-19\) pandemic](#), the DJIA index stood at a little over 29,000 points.

From below 25,000 in March April 2020, the Dow Jones Index is over 35,000 in August 2021:

36% Crash Ahead for S&P500?

17 August 2021

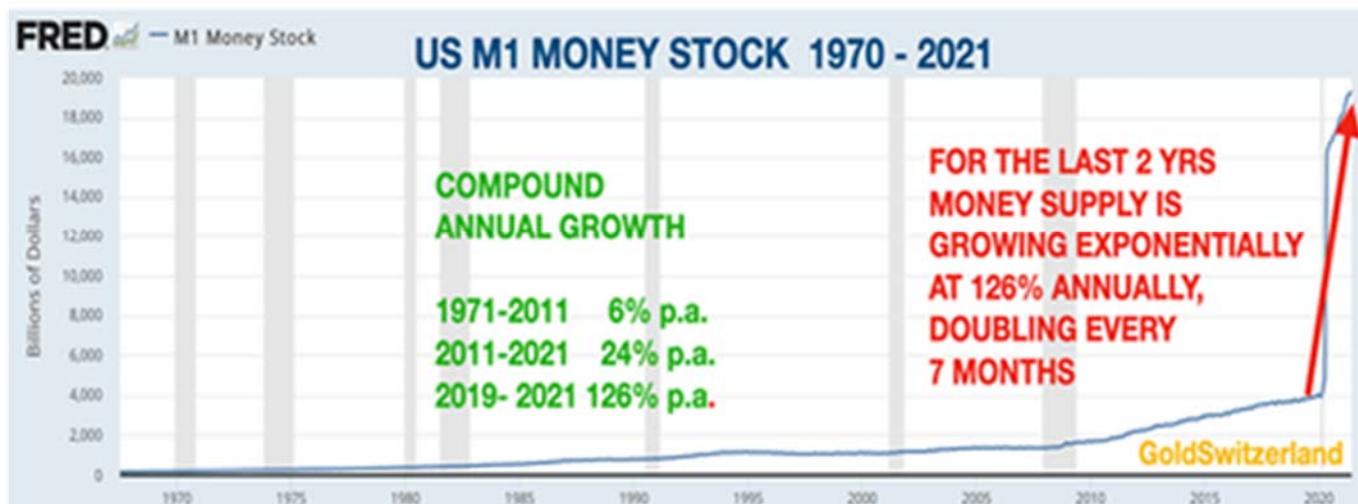

There is a sense of growing uncertainty in US equity markets despite, or maybe because of, their hitting all time highs this week amid growing concerns around the Fed's next move and growth concerns. Last night saw a correction of nearly 1% ostensibly on the back of poor retail sales data joining a host of disappointing economic data potentially signalling weakness ahead. We look at a number of metrics screaming warnings to investors right now and what they say about gold.

¹ The dosing may be updated as further scientific studies emerge. The safety of ivermectin in pregnancy has not been definitively established. Use in the 1st trimester should be discussed with your doctor.

² To use if a household member is COVID-19 positive, or you have prolonged exposure to a COVID-19 positive patient without wearing a mask

³ For late phase — hospitalized patients — see the FLCCC's MATH+ Hospital Treatment Protocol for COVID-19 on www.flccc.net

⁴ Some individuals who are prescribed fluvoxamine experience acute anxiety which needs to be carefully monitored for and treated by the prescribing clinician to prevent rare escalation to suicidal or violent behavior.

⁵ Nasal rinse – 3 x daily. Use 10% povidone/iodine wound wash. Take 1ml (1/4 tsp) mix with 9ml saline solution (2 tsp). Use nasal irrigation bottle or syringe.

Please regard our **disclaimer** and further information on page 2 of this document.

Behavioral Prevention

WEAR MASKS

Wear a cloth, surgical, or N95 mask when in confined, poorly ventilated, crowded indoor spaces with non-household members.

KEEP DISTANCE

Until the end of the COVID-19 crisis, we recommend keeping a minimum distance of approx. 2 m/6 feet in public from people who are not from your own household.

WASH HANDS

We recommend, after a stay during and after outings from home (shopping, subway etc.), a thorough hand cleaning (20–30 sec. with soap), or also to use a hand disinfectant in between.

Summary of the Clinical Trials Evidence for Ivermectin in COVID-19

Ivermectin, an anti-parasitic medicine whose discovery won the Nobel Prize in 2015, has proven, highly potent, anti-viral and anti-inflammatory properties in laboratory studies. In the past 4 months, numerous, controlled clinical trials from multiple centers and countries worldwide are reporting consistent, large improvements in COVID-19 patient outcomes when treated with ivermectin.

Our comprehensive scientific review of these referenced trials on ivermectin can be found on www.flccc.net/flccc-ivermectin-in-the-prophylaxis-and-treatment-of-covid-19/

Pulse Oximeter (usage instructions)

In symptomatic patients, monitoring with home pulse oximetry is recommended (due to asymptomatic hypoxia). The limitations of home pulse oximeters should be recognized, and validated devices are preferred. Multiple readings should be taken over the course of the day, and a downward trend should be regarded as ominous. Baseline or ambulatory desaturation < 94% should prompt hospital admission. The following guidance is suggested:

- Use the index or middle finger; avoid the toes or ear lobe.
- Only accept values associated with a strong pulse signal.
- Observe readings for 30–60 seconds to identify the most common value.
- Remove nail polish from the finger on which measurements are made.
- Warm cold extremities prior to measurement.

We, as parents, were born into the Rebellion and Default, having no idea it existed or what it was about. The Rebellion and Default formally ended on 31 January 2018. We now understand that through suppressing our children's true personality, having them live through their minds rather than through their soul-based feelings, this suppression and repression practiced world-wide has induced universal depression. Only through Feeling Healing, longing for the truth behind all feelings, both good and bad, and expressing all that comes to us, will we free ourselves of these errors and heal ourselves. Vibrancy and truth is our destiny!

Suppression & Repression = Universal Depression

Childhood Suppression is the underlying cause of all physical illness and social issues seen throughout society.
