

There is a Better Way!

24 September 2025

Yes, there is a Better Way, a New Way, which has been withheld covertly from our recognition for many generations before us.

“Argentina’s President Javier Gerardo Milei said the successful model of the United Nations had been replaced by a supranational model of government comprising international bureaucrats that sought to impose a specific way of life on citizens around the world. Argentina had taken “the right path”, albeit “the thorniest one”, he said, “because prosperity and progress for our peoples cannot be delayed.” Likewise, President Trump of the United States understands that “the time has come to reverse a dynamic which is leading the United States towards a disaster – and we know that a disaster in the United States is a global disaster.” Mr. Trump “knows that he must do what's necessary [...] before it's too late”, he said of Mr. Trump’s “successful” policy to halt illegal immigration.

“Mr. Trump is also restructuring the terms of international trade in an unprecedented fashion, he continued. “That’s a titanic task which gets to the very core of the global economic system because that system has been gnawing away at the industrial heart of his country – and the country now has an unparalleled debt crisis.” Describing the United States as infiltrated by left-wing factions that are seeking to undermine any reform deemed necessary, he stressed: “Both I and Donald Trump know what we’re doing in the face of these challenges.”

“The UN must lead this paradigm shift, he said, outlining the necessary principles to achieve the goal. First, the principle of a core mandate means the central mission of the United Nations is to preserve international peace and security; everything else must be viewed as complementary. Second, the principle of international subsidiarity means the UN must tackle an issue solely when it is clear that the problem exceeds the national capacity for action. Third, the principle of normative simplification and streamlining means that peace is not only the absence of conflict; it requires prosperous societies.”

May we please simplify the pathway to putting aside the conditions that has resulted in many thousands of generations who had lives of conflict and turmoil through living mind-centric – being the overwhelming dominant way we each live. Should we seek to resolve the social malaise of humanity then it is now laid out in simple clarity for all to consider and subsequently embrace. This is your option and opportunity to put behind us all the insanity that is clearly seen every moment of every day in our lives worldwide.

As of these writings, only a few have healed themselves of the emotional injuries and errors of belief that they have had to address, however, this few confirm the veracity of the Pascas Papers that reference the revelations for all of humanity to benefit from and these papers address how we are embrace The New Way of living and that is simply Feelings First with our mind to follow in support of what our Feelings are prompting and guiding us to consider.

Should we continue living mind-centric then we are entrapped to never advance beyond 499 on the Map of Consciousness as defined by Dr David Hawkins. Consequently we would continue repeating and demonstrating the wrongness we have perfected with war, diseases, social chaos, poverty and continual deprivation unfolding time and time again for eternity. This is YOUR option.

Everything is to change. Our feelings are always in truth. Our mind cannot discern truth from falsehood. Our mind is addicted to control over others, over the environment AND is addicted to untruth.

Living Feelings First is simple to introduce but requires a lot of perseverance to become the way we live. Then the experience is a wonderful way of living. Few recognise that assumptions are 98% of the time in error – and so is our thinkingness, both similar processes.

We reiterate that Pascas is not yet another religion. It does not have a hierarchy of control, there is nothing to join, it does not have a special book, nor any rituals, prayers, cannon laws, special dress or clothing. Yes, it does present a way of living and consequently that does fit one of the nearly 500 aspects considered as a religion. However, as there are already around 3,400 significant religions and with their minor denominations we have some 50,000 religions worldwide – all present the ‘truth’ and as truth is always the same then how cannot be in so many versions?

BLUEPRINT

We are our Childhood

Firstly, consider discovering the truth of your emotional pain through Feeling Healing. Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing. Primary and most important readings are the writings of James Moncrief. Then consider the Padgett Messages, and then The Urantia Book.

GREAT
✓-Turn

Who hurt me when I was a child?

The elephant in the room is childhood suppression.

We as well meaning 'parents' infuse into our newly arriving children our personal emotional injuries and errors of belief. They arrive to be conceived calibrating close to 1,000 on Dr David Hawkins' Map of Consciousness. By the time they reach their sixth year of age, when their Indwelling Spirit arrives, they will be calibrating at the same level as one or the other of their parents, should their parents calibration differentiates.

Note:

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.

A calibration increase of 1 point is in fact a 10 fold increase in energy.

A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.

Thus the energy differentials are in fact enormous!

Our lack of truth is devastating to the child. We draw into a life that mirrors our own poverty of lacking in truth, our emotional injuries and errors of belief impede the light flow from their soul through their spirit body, then into their physical body and its return to impose upon the child a level of health reflecting ours as their parents. The consciousness level we impose upon them impacts upon the child a life of lacking that we as parents experience. The child's financial life experience, their social experiences, employment, social issues and life in general is all of a reflection of living our lacking in truth and consciousness. This has been the way for many, many generations going back in time. Humanity has not evolved and is not going to evolve while it insists in living mind-centric.

Being the Full expression of our Rebellion

We are to be the full expression of our rebelliousness, to be free to be it all in adulthood because we were not allowed to be it as children, having to obey the Will of our parents, denying, and suppressing our own Will and true feelings. So, our true rebellion never became fully actualized as children, it was controlled and stifled by our parents, although it has always been in us since our conception, just waiting for the freedom of adulthood so we could be it fully, and experience every part of it, it being our Will. We must not stifle our will as our parents did, if we are not living the fullness of our rebellion, then we are not living true to our wrongness, so never knowing it fully, only by living it and being it can we know the truth of all the wrongness that is denied and suppressed within us.

We each have been led to live through our minds, so much so that we worship our minds and ignore and suppress our feelings – to our detriment and to the suppression of all of humanity.

Our minds are wonderful, however they are followers, not leaders.

Consider the innovator, the scientist who may undertake many educational degrees and even embrace a post-graduate honours degree (PhD), achieving great academic qualifications. The typical scientist may achieve a couple of innovative break throughs in his / her career and that is all.

However, a similar enquiring personality that embraces his / her feelings may find that innovations and discoveries unfold at regular frequencies – even weekly! This is so due to the fact that our feelings are soul based and are always in truth, whereas our mind cannot discern truth from falsehood and is addicted to untruth and control of others and over the environment. Case in point are the Pascas Papers. There are more than 800 such papers and they reveal findings at frequent intervals.

Mind-centricity peaks in Reason at 499 on Dr David Hawkins' Map of Consciousness whereas our feelings are not restrained at any level of truth, as they are our soul's truth and infinity is their potential.

All throughout history we find options being presented in pathways to technological developments. We are told oil and natural gas are fossil fuels, yet oil and natural gas are found on no less than six terrestrial bodies (planets and moons) throughout our local solar system. The moon Titan, Saturn's largest moon, is said to have more than six times the known oil reserves of Earth, yet there is no organic matter on Titan. The same applies to the other planets and moons with oil and gas in our solar system.

Thorium is a cheaper and much safer nuclear matter to produce electric power from, yet uranium was adopted because of its military application. That is insanity at its maximum, led by the controlling addiction of humanity at play.

The profession of nursing does engage 'feelings'. Many nurses do embrace their feelings and consequently function above MoC 500 in the field of 'love', consequently they contribute to the welfare and healing process of patients, often significantly more so than doctors who embrace 'procedures' that they mind memorise in the form of 'reason' which if the field below MoC 500, thus demonstrating the differences between mind-centricity and feelings orientated living.

The political world is saturated with participants calibrating in the 300s MoC, thus we are seeing 'leaders' who cannot recognise required solutions for their constituents and do not have the required perception and consciousness to resolve issues required for their nation.

75% of the world's population calibrates MoC 200 or lower – they are submissive in character. Thus 'leaders' sell themselves to this group who expect 'things to be done to them'. Democracy is actually hijacked by covert controllers around the world.

Military around the world are populated with those calibrating around MoC 190 – that of pride – 'things are done to them'. They take orders and follow orders. Hence we now see the world preparing for world war without little protest or even a reasonable debate.

~~~~~

Being orientated and living feelings first is a very different experience to living mind-centric which is while ignoring and suppressing one's feelings.

Being mind-centric is very tiring and trying. Mind domination presents continual assumption making events daily. Acting upon assumptions as well as thinkingness brings a flood of 'repair the situation' events. Thinkingness and assumptions are similar in nature. Their error rate is around 98%. Acting upon assumptions generally results in having to correct what we have been 'led' to do!

Following our feelings may feel like surrendering to the unknown – at first! However, as we slowly eke out the observation that by living feelings first is typically constructive, loving and beneficial. Further, it is not an exhausting way of functioning. Productivity at the end of the day is noticeably higher and rewarding. It is often rather amazing as discovery unfolds continually.

Longing for truth is noticeably recognised through our feelings. Truth being revealed through diverse pathways becomes obvious. Mind endeavours to find 'mind' orientated truth is like a maze – unresolvable. Feelings generally keep unfolding deeper and deeper meaning and the freedom that comes from these evolving strong foundations of growing truth are undeniably wonderful.

Thus, we clearly are creating an environment for our body to be vibrant and consequently healthier through living feelings first.

Then we come to recognise that our Earth life experiences are like the entry phase to an ever increasing universe of ongoing discovery and comprehension. Yes, our physical life is phase one of many stages of our evolution into wonderness. We are truly spirits having a physical experience. When we leave our physical body, we lose nothing, however our functionality as a spirit can simply be put as being immediately three times more dynamic than at any time in our physical life. As we heal ourselves of the emotional injuries and errors of belief while on Earth, we then may grow in truth to the level that we may begin to engage with the other humanities throughout our local system, then our constellation, and then all the constellations throughout our local universe, and so on as we progress to Paradise. The wonders to come through embracing our feelings and Living Feelings First are endless and that may be with Divine Love which we can even now physically experience receiving, should we ask and long for it.

Living mind-centric has resulted in many, many billions not progressing beyond their consciousness levels that they lived at during their life on Earth and even today they remain stagnating within the lowest level of our spirit Mansion Worlds.

What is introduced throughout this "There is a Better Way" document IS the pathway, the only pathway for Earth's humanity to resolve its social ills. As time progresses and communities progress well beyond MoC 500, borders will dissolve, criminality will mitigate, the personal desire to build a castle around each of us to horde pointless assets will fade, and yes, life will become simple and outright very exciting.

**This time, in the history of humanity, is the most exciting time ever experienced.**

Should you ask me, what I have outlined above is what I experience daily!

# Argentina – President Addresses United Nations General Debate, 80th Session

[https://www.youtube.com/watch?v=nqCqBu\\_E55g](https://www.youtube.com/watch?v=nqCqBu_E55g)

## **PRESIDENT OF ARGENTINA JAVIER MILEI SPEAKS TO THE UNITED NATIONS GENERAL ASSEMBLY**

The assembly will now hear an address by his Excellency, Javier Gerardo Milei, and President of Argentina Republic.

I request protocol to exhort his Excellency and invite him to address the assembly. [Applause]

President Javier Milei: United Nations authorities, representatives of member states, all citizens closely following this summit.

Good morning to you all. Last year, I stood here before you at this very same assembly and I outlined a new direction that Argentina's foreign policy was staying and was going to take. We asserted that it was imperative to return to the ideas of freedom, the immortal principles that underpin the dignity of life, freedom, and the pro and property.

These are rights that all individuals should enjoy under the law. We asserted that there was a need for international cooperation to aim to guarantee those rights.

However, I also warned that the UN had cast aside what had been its lodestar in recent decades.

The successful model of the United Nations spoke of the need for peace without victory. It was grounded in cooperation between nation states. It was however replaced by a super national model of government comprising international bureaucrats that sought to impose on citizens across the world a specific way of life.

The United Nations has moved from an organisation that sought to mediate peace between peers to an organisation that claims not only to decide what every nation state does but also what all individuals wherever they may be in the world must do.

We believe in the original aim and purpose of this organisation. We believe that there are global problems which require dialogue and international cooperation if they are to be resolved. However, for that reason and to achieve that goal, we must reject these abuses of authority that often go hand in hand with noble agendas.

As we maintained last year (2024), we will never support the amputation of indigenous or commercial freedoms, nor will we support the violation of natural rights of citizens of member states. In the last year and a half, we have voted in accordance with that principle. I'm saying this to you well aware of that any of you don't share my views. But as I as I've always said, it's preferable to say an uncomfortable truth than to speak a comforting lie.

In that vein, today I want to talk to you about a specific problem facing all modern countries. As things stand, the world is seeming to pit the present against the future and seeing it as a contradiction.

This is a political, economic, and philosophical problem. And the response to that problem and that opposition will determine the course of humankind. If we push to the end this idea of comfort versus discomfort, the entire world, I would say, that now the entire world seems stagnating in the comfort of the present, overlooking the consequences that will have for the future.

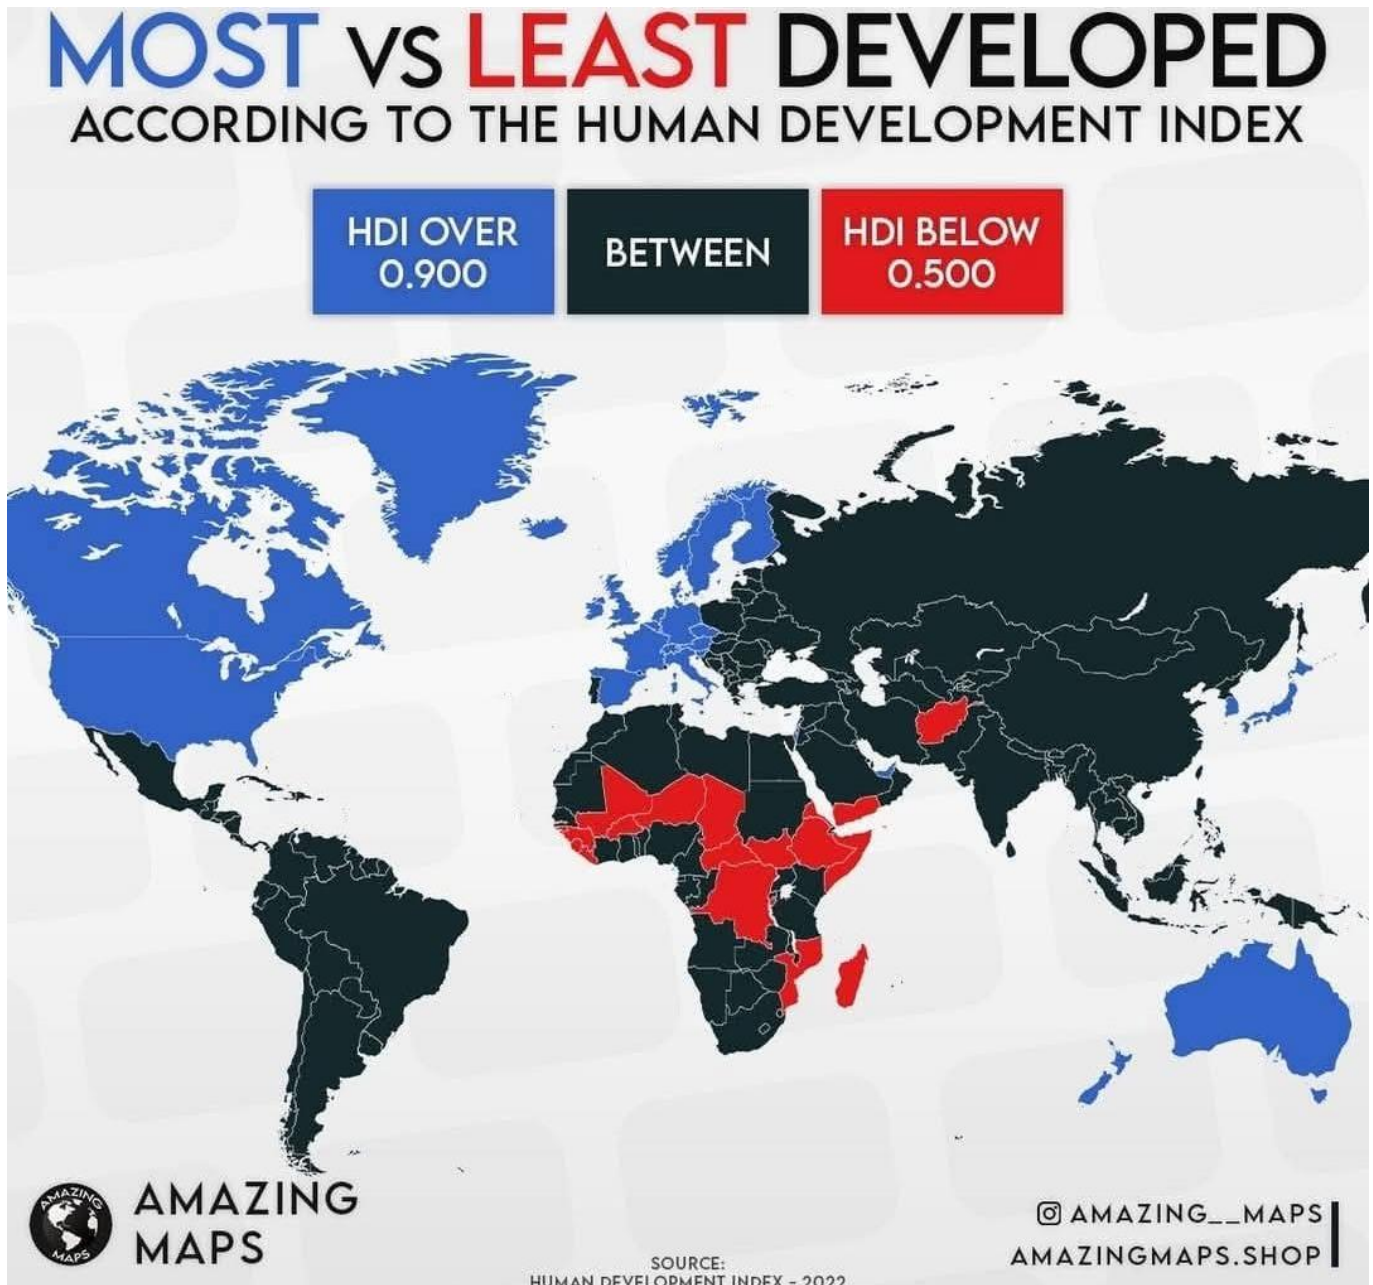

Given that doing what is uncomfortable seems to strip votes and power from those that take it on, leaders prefer to do everything in their power to protect the status quo that they inherited. And they do so disregarding future consequences. They light a fire to heat the future and dis-heat the present and disregard the future.

Modern states have thus entered into a very complex dynamic from which they cannot return. Incentives both for people and politicians mean that we tend to talk about the distribution of wealth today overlooking the need to compile wealth for tomorrow.

Currently decision makers are facing the decision. Either they preserve the legacy that was entrusted to them or they destroy it.

This legacy can be accumulated wealth, productive capacity, laws or any other co-thing that serves the common good. In general, they tend to burn their legacy, if they opt to continue with what's comfortable, they'll have a lot of profit and benefit in the future, but there will be great future costs.

What you put aside today, you lose for tomorrow. They seem to be preserving growth and prosperity in the present and casting aside the well-being of future generations.

It we need to find a balance, meaning that eating bread today doesn't mean we'll go hungry tomorrow. And we need to guarantee sustained growth and well-being. That's something economist call economic growth.

That growth can sometimes seem slow and sometimes halt briefly because progress is never linear. But it's precisely long-term consistent growth that has systematically revolutionised the world and has wrenched thousands of millions of people from poverty.

The difference between zero growth and 2% growth in the long term is the difference between stagnation and prosperity. The Argentinian people know a great deal about this issue because we're the only country in the region that hasn't experienced growth in the last 15 years.

In the legal in legal terms, it is respecting the condition for growth is respecting the sanctity of property and the free market and that means nothing other than ensuring free trade between peers and free cooperation between peers.

Without the right to ownership there can be no savings and without savings and or free trade there is no investment. If there's no investment there can be no growth.

But it's not in anyone's individual political interest apparently to respect these principles because it is precisely when we expand the state that individual freedoms of the citizen, of citizens, are eroded and we simply seek to protect ephemeral present well-being to earn votes and that's what our politicians do.

Accumulated wealth decreases over time with this way of moving forward. And so what we're seeing now is public countries are increasing public expenditure, but that doesn't ultimately create wealth. It rather destroys wealth. With that in mind, politics gains power on two fronts. They get democratic legitimacy and they obtain resources that they can spend.

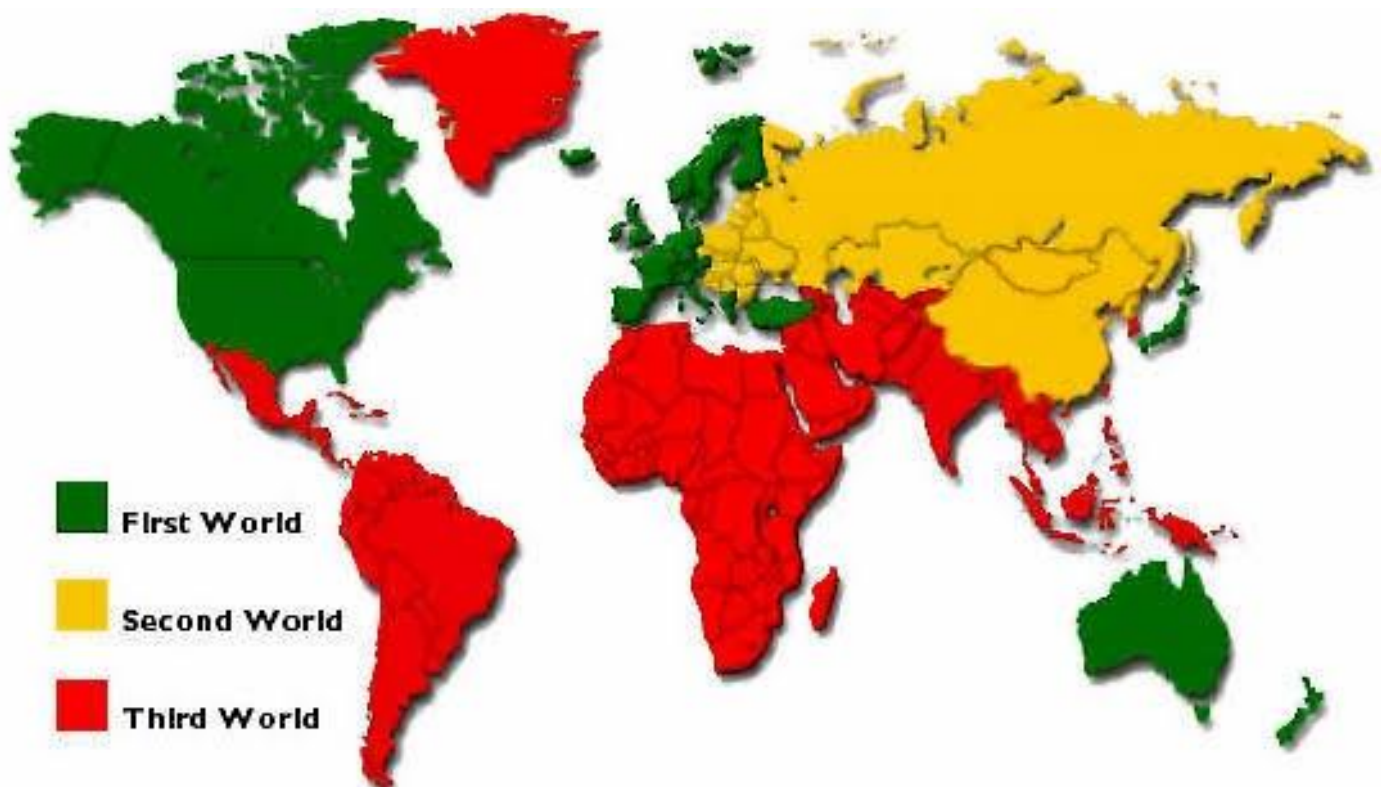

So politics has a double incentive to foster that intergenerational betrayal because despite the fact that people lose in the future if this course is followed. There's short-term gain.

A great man may be that that who sews trees that whose shade he will never enjoy. The great man might be the one who cuts down the trees that others sowed and but this cannot continue.

This is the major trap that all nations are succumbing to. When this process is continued, growth stagnates. When growth stagnates, the demand for redistribution of wealth grows ever louder.

So, populist policies become and the calls for them become stronger and stronger. These policies appeal to envy and resentment. And the ultimate end conclusion of this process is vulnerable young people suffocated under the weight of a state that they know is only there to exploit them.

Fiscal expansion, monetary expansion and expansion of state power, state power is suffocating individuals. And that's all part of a pattern which we're seeing across all countries, particularly those who claim to make up the free world.

But the problem is not only one of economic policies. We also see it when there are violations of equality before the law or when we indiscriminately open the doors to immigration for political reasons.

On the contrary to what we don't see there is immigration, we see invasion. International cooperation bodies has this one among its number and such international organisations are not alien to this problem with as the years have passed, this organisation has acquired responsibilities that run counter to its founding spirit. It has created layer upon layer of organisations, agencies, and programs until it achieved this hypertrophy of administrations that are barely effective when it comes to resolving the problems for which they were created.

Responsibilities that the UN's taken on have swelled and swelled and in step with that, the contributions made by member states have swelled and in turn the palpable results that this organisation has achieved have been greatly reduced. They can't offer the World what they could. There's this cocktail of incentives and in addition you have in this organisation unlike how it was international organisations now see a situation whereby no one's really held accountable for their failures to resolve problems.

This contradiction between lofty goals and scant results has created the erosion of the prestige of this house. Without going further, the poor results of agenda 2030 bear witness to what I've outlined above.

What continues to be seen in practice is a cycle of, or is a cycle whereby why we recycle structures. There is more and more being spent and more and more targets being set for this region.

Argentina decided to step aside from this process because we saw in agenda 2030 the improper expenditure of scant resources for purposes that we don't share in order to distract attention from the real global difficulties.

The world is on course for stagnation and that's why we stood apart. I need to raise the alarm here because in Argentina we've seen the natural consequences of proceeding in this way. You keep doing what's comfortable, but then you end up out of step for with the future. In other terms, what I'm saying to you is that we're speaking to you from a future that hasn't arrived to you yet.

And you've still got time to avoid this problem because no society will survive if it sets fire to the future to simply heat the present. In my in my country, we've learned the hard way, a very valuable lesson. For decades, we jeopardised the future in order to distribute the dividends of the present. In 2020, we finally got to a point where we'd had a hundred years of doing things improperly.

We'd been kicking the can down the road, but there was no one left to kick the can, too. And then what happened was what I outlined previously.

Our state crumbled as a result of this implosion. For the last year and a half, what we've done is that we've taken on the herculean task of administering and managing extreme scarcity. And for the first time in decades, we're doing what we have to do for a better future. So, the only way to usher in that better future is to do exactly the opposite of what we previously did.

What we're doing stands in opposition to the rest of politics. That politics ask us to do what everyone was doing for years and what has pulled us into decline. They're asking us to jeopardise our future to meet present demands. They want us to apply the same remedy that we did a thousand times. And that's exactly what brought us here.

But I'd like to say clearly that Argentina has a government that decided to undertake the right path even though it's the thorniest one because prosperity and progress for our peoples cannot be delayed one day longer. However, we are not the only ones that are taking difficult decisions at this juncture as history demands that we do.

President Trump of the United States also understands that the time has come to reverse a dynamic which is leading the United States towards a disaster. And we know the disaster in the United States is a global disaster. His unflinching and successful policy in terms of halting illegal immigration makes that conviction more than clear. He knows that he must do what's necessary even though many may not like it before it's too late.

In other countries, for example, it's already too late to take the decisions he has. That's not only what's important.

What Donald Trump is also doing is restructuring the terms of international trade in an unprecedented fashion. That's a titanic task which gets to the very core of the global economic system because that system has been chewing away at the industrial heart of his country and the country now has a unparalleled debt crisis.

Furthermore, he's undertaking a cleaning up of the institutional capture of the American state because it's being infiltrated by left-wing factions that were seeking to undermine any reform program that was necessary.

Both I and Donald Trump know what we're doing in the face of these challenges.

All of these challenges have a common denominator that all countries, including super national organisations, must address. They must find a way of creating dividends for the future and not succumb to the temptation of dealing with the present. This is something that major nations, western nations have been aware of and putting into practice for decades.

We need to get back to that. We need to go back to our roots. We need to tackle priorities first. And that needs to go hand-in-hand with the idea that you need to do what's difficult but right and prioritise that over and above what's easy and comfortable.

As I previously said, this also stands for international organisations that have gradually be integrating such actions into their ecosystem. I think I speak on behalf of all of you when I say that the UN must lead the charge where it, when it comes to this paradigm shift. They must return to the roots that made it the great organisation that it once was in the past.

I wish to humbly lay before you, as an assembly, four principles that we think might serve as we seek to achieve the aforementioned goal:

One, the principle of a core mandate. The central mission of the United Nations is to preserve international peace and security. Everything else must be viewed as complimentary to or in service of that goal. The strategic management of resources of this institution consequently requires that we stick to our priorities and not take on others.

Secondly, the principle of international subsidiarity. The UN must tackle an issue solely when it is patently clear that the problem demonstrably exceeds national capacity for action. In all other cases, it is right and proper to return the initiative to states. They are the ones who have the democratic legitimacy and answer to their peoples.

Three, the principle of institutional efficiency. Argentina has undertaken a process whereby it seeks to optimise the state. We've eliminated redundant structures and returned resources to the taxpayers. In the

same way, we believe that the UN requires a similar journey that requires conducting reliable audits, closing in effective programs, the consolidation of agencies into single bodies and financing tied to real achievement. For the principle of normative simplification and streamlining, peace is not only the absence of conflict. It requires prosperous societies. International cooperation must not transform into an obstacle for economic growth and an obstacle to the creation of opportunities. Consequently, we can only and must only support initiatives that do not stymie states capacities to lead their own production and productive efforts. Efforts to attract investment and foster trade that are the right way to reduce poverty.

These principles will be highly valuable, we believe, in terms of getting our organisation back on course so it can stand the test of time and produce tangible results over time.

To conclude, I want to raise four sensitive and crucially important issues for the Argentine Republic.

Firstly, I wish to reiterate our legitimate claim and irredeemable claim over in terms of sovereignty over the Malvinus, South Georgia, South Sandwich Islands and the surrounding maritime areas that continue to be illegally occupied. In spite of the fact that 80 years have elapsed since the creation of this organisation, colonial situations such as this one remain unresolved.

The United Nations (UN) is a global intergovernmental organisation established by the signing of the UN Charter on 26 June 1945 with the articulated mission of maintaining international peace and security, to develop friendly relations among states, to promote international cooperation, and to serve as a centre for harmonising the actions of states in achieving those goals.

For this reason, we call upon the United Kingdom to resume bilateral negotiations in accordance with resolution 2065 of this very same general assembly together with all relevant subsequent resolutions.

Secondly, I wish to once again roundly reject expressions of fundamentalist violence that continue to be seen and that are spreading throughout the world. In Argentina, we already suffered this horror with the attacks against the Israel Embassy and La Amir in 1992 and 1994 respectively. For this reason, we urge the international community to strengthen legal cooperation to guarantee that Interpol and its signs are respected and those responsible for such atrocities are brought to justice. That will help us to ultimately be able to heal this painful wound that plagues our country's history.

Thirdly, we're witnessing an unacceptable escalation in political violence on the left at a global level. Violence that in Argentina we know only too well. It is unacceptable to use force where reason fails. For this reason, we emphatically reject any procedures which essentially undermine the basic norms of democratic peaceful coexistence.

Four; to the situation of the Argentine citizen Naul Gayo who was abducted and detained arbitrarily in Venezuela without charge with no legal assistance or consular assistance. In simple words, this is a forced disappearance. We demand that the Venezuelan government release him immediately and we appeal to the international communities so that this legitimate claim is heeded. This in defence of the most basic principles of international law and human dignity.

Finally, we reiterate our demand for the immediate release of the hostages which remain captive in Gaza.

Finally, may God bless the free World. May the forces of heaven accompany us. Thank you.

Thank you very much on behalf of the assembly, His Excellency, the President of Argentina Republic

Burundi is the world's poorest country followed by Sierra Leone, Malawi, Central African Republic and Madagascar as the poorest. There are as many as 123 countries whose per capita GDP is below the global average. The first non-African country on the list is Yemen, ranked 15th.

# Italy PM Giorgia Meloni's HUGE Remark at UN: Rules Were Written When Illegal Immigrants Didn't Exist

[https://youtube.com/watch?v=tx5AIgrfGYY&si=2S5JaQEvX\\_Pz8ty](https://youtube.com/watch?v=tx5AIgrfGYY&si=2S5JaQEvX_Pz8ty)

<https://www.youtube.com/watch?v=tx5AIgrfGYY>

25 September 2025

We are living a historical accelerated phase rich in opportunities but also perhaps above all, is dense with dangers. Suspended between war and peace.

According to the global peace index 2024, there are currently 56 armed conflicts ongoing in the world, the highest number since the Second World War.

We live in a world profoundly different from the one in which the United Nations was founded when, in 1945, 51 nations today nearly all of the nations of the world decided to come together to found an international organisation whose main purpose was to prevent war.

The question we must ask ourselves, 80 years later, while looking around us is have we succeeded?

The answer you all know because it lies in the headlines and it is merciless.

Peace, dialogue, diplomacy seem no longer able to persuade or to prevail. The use of force prevails on far too many occasions and the scenario before us is that which Pope Francis described with unique effectiveness. "A third world war fought piece meal."

Obviously among the major conflicts underway is of course the large-scale war of aggression by the Russian Federation against Ukraine. Three and a half years ago on February 24th, 2022, Moscow decided to attack Kiev.

And I believe not enough reflection has been given to the consequences of that choice to a point I consider fundamental. The Russian Federation, a permanent member of the Security Council, deliberately trampled on article two of the UN charter, violating the integrity and political independence of another sovereign state with the aim of annexing its territory.

And still today, it shows no willingness to seriously accept any invitation to sit at the peace table.

This deep wound inflicted on international law, as could be foreseen, unleashed destabilising effects far beyond the borders in which that war is taking place.

The conflict in Ukraine has rekindled and set off several other crises.

Meanwhile, the United Nations has become even more divided. It is no coincidence that Hamas took advantage of the weakening of this architecture to launch on October 7th, 2023 its attack against Israel. The ferocity and brutality of that attack. The hunt for unarmed civilians prompted Israel to a reaction that was at first legitimate because every state and every people has the right to defend itself.

But the response to aggression must always respect the principle of proportionality. This applies to individuals and all the more so to states. And Israel has exceeded that limit with a large scale war disproportionately involving the Palestinian civilian population. And it is in crossing this limit that the Jewish state has ended up violating humanitarian norms, causing a massacre among civilians.

## ***Violence is never Justified***

**Never is hatred, nor discord, nor war among men justified – no matter what the cause – and if men will only learn the Truth there will never exist such feelings or acts. Militarism is all wrong. Jesus 25 December 1915**

This choice, which Italy has repeatedly deemed unacceptable, will lead us to vote in favour of some of the sanctions proposed by the European Commission against Israel.

But we do not side with those who heap all the blame for what is happening in Gaza and Israel because it was Hamas that unleashed the war. It is Hamas that could end the suffering of Palestinians by immediately releasing all the hostages. It is Hamas that seems intent on thriving on the suffering of the people it claims to represent.

Israel must free itself from the trap of this war. It must do so for the history of the Jewish people, for its democracy, for the innocent, and for the universal values of the free world of which it is part. And to end the war, concrete solutions are needed.

Peace is not built only with appeals or with ideological proclamations embraced with enthusiasm by those who in truth do not want peace. Peace is built with patience, with courage, with reasonableness.

**PEACE CAN ONLY COME ABOUT THROUGH THE ...**

**GREAT  
-Turn**

The children of Gaza, like those Italy is proudly receiving and treating in its hospitals, are asking for answers that can improve their condition.

And to that, we are committed. Italy is and will be there for anyone willing to work on a serious plan for the release of hostages, a permanent ceasefire, the exclusion of Hamas from any governance dynamic in Palestine, the gradual withdrawal of Israel from Gaza, and the involvement of the international community in managing the subsequent phase of the ceasefire leading to the realisation of the two-state perspective.

In this regard, we consider very interesting the proposals that the President of the United States has discussed recently with Arab countries and we are ready to lend a hand. We believe that Israel has no right to prevent the future creation of Palestinian state, nor to build new settlements in the West Bank to that end.

For this reason, we have signed the New York declaration on the two two-state solution. This is Italy's historic position on the Palestinian question and it has never changed.

At the same time, we believe that the recognition of Palestine must have two indispensable preconditions. The release of all Israeli hostages and Hamas's renunciation of any role in the government of Palestine. For those who unleash the conflict cannot be rewarded.

And thus we return to the starting point, the rules, and the force of law. In Ukraine, in the Middle East, in every scenario where war dominates and reason seems lost, there's no escaping.

Colleagues, the most important question, which is the reason we're all here together today, is the United Nations architecture we built 80 years ago up to task in the face of the challenges we are facing today? It is not.

In multilateralism, dialogue and diplomacy without institutions that function as they should are only empty words. We must recognise our limits. We must recognise that a profound reform of the United Nations is necessary and urgent.

Not an ideological reform, but a pragmatic, realistic one. One that respects the sovereignty of nations and opens to shared solutions. We need an agile, efficient institution able to respond quickly to crisis, transparent in its mission and costs, capable of minimising bureaucracy, waste, and duplications.

What we call the glass palace must be truly a house of glass.

“The definition of insanity is doing the same thing over and over again—but expecting different results.”

The reform Italy has in mind, starting with the Security Council, must respect the principles of equality, democracy, representativeness, and accountability.

We do not need new hierarchies, nor new permanent seats. We simply don't because they would not solve the decision-making paralysis that has undermined the credibility of this institution. We are open to discussing reform without any prejudice, including on the basis of proposals already advanced by the uniting for consensus group. But we want a reform that serves to represent everyone better. Not to give more representation to just a few, but to be effective.

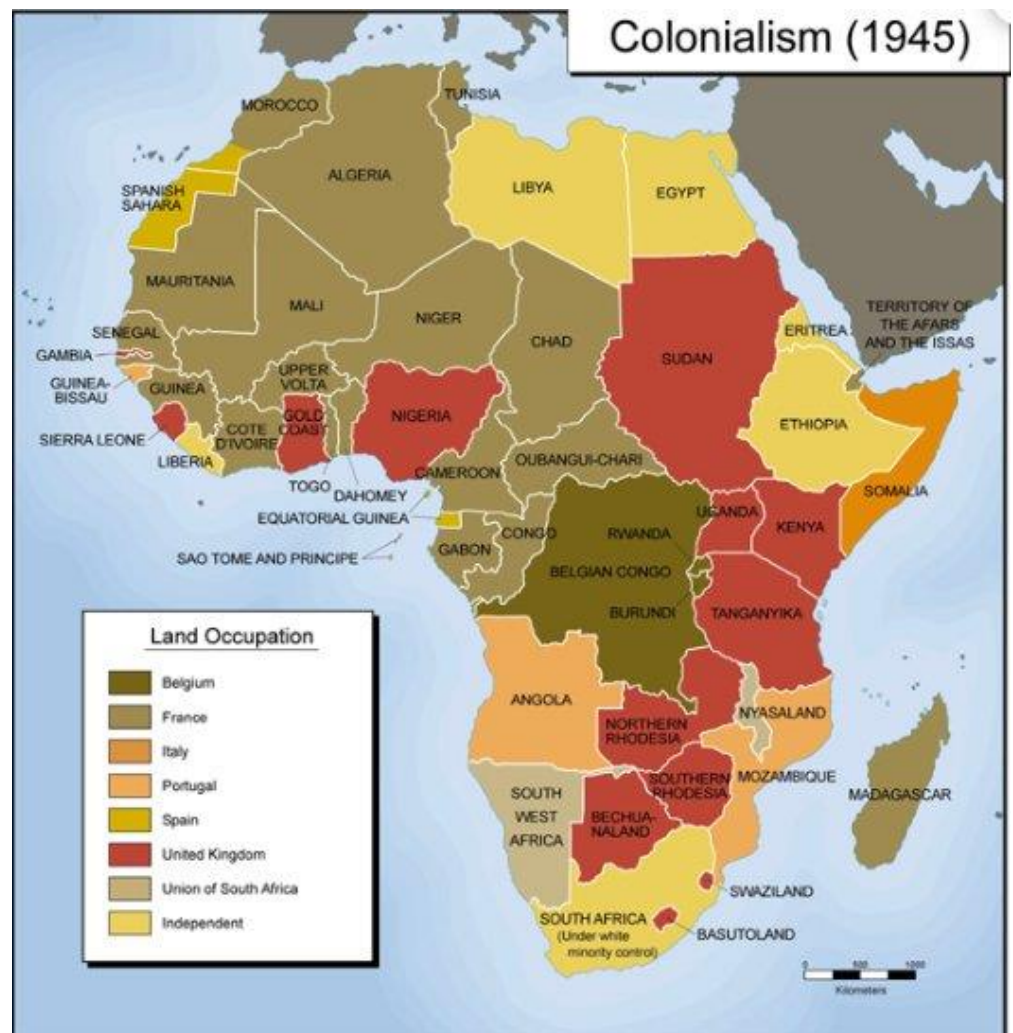

It is not only institutions we must reform because we're facing a change of era and this requires a profound revision of all the tools we have to regulate relations among nations and defend the rights of people including international conventions.

I'm thinking for example of conventions regulating migration and asylum. These are rules enshrined in an era when mass irregular immigration did not exist, nor did human trafficking, conventions that are no longer current and which when interpreted ideologically and one-sidedly by politicised judiciaries, they end up trampling on the law instead of upholding it.

Together with other European states, we have raised this issue and intend to pursue it not to lower the level of guarantees, but to build a system that keeps pace with the times capable of protecting fundamental human rights while safeguarding the sacrosanct prerogative of every nation to protect its citizens and its borders, exercise sovereignty, and govern migration which impacts citizens, particularly the most vulnerable.

The international community must unite in combating human trafficking. The United Nations, like other international institutions such as the European Union, cannot look the other way or protect in the end criminals in the name of presumed civil rights.

Likewise, the United Nations cannot hypocritically consider some human rights less worthy of protection than others. I'm thinking above all of the denied value of religious freedom and of the tens of millions of people worldwide, largely Christians, persecuted, massacred in the name of their faith.

We also need a new model of cooperation among nations. But building it requires humility, awareness, and trust in the counterpart before us.

Italy is seeking to do its part in this as well.

Above all, with the Mattei Plan for Africa. In the last three years, we have launched our cooperation plan with Africa and extended its reach to 14 nations. We have built collaborations with the United Nations, the European Union and its global gateway, the G7, the African Union, and the African Development Bank, international financial institutions, as well as several bilateral partners such as the United Arab Emirates whom I wish to thank.

This complementarity has earned us, last July, the honour of co-organising with Ethiopia the third UN food system summit the responsibility of being an active part of the major infrastructure project of the Lobito corridor between Angola and Zambia. (At the heart of this development is the **intergovernmental agreement** to construct the highly anticipated **Lobito Corridor**, an ambitious project covering 830 kilometres between Zambia and Angola.)

## Decolonization in Africa

The opportunity to build public private partnerships that attract investment and deliver concrete results as is happening in Algeria where we will reclaim over 36,000 hectares of desert for cultivation benefiting over 600,000 people as is happening with the opening of the AI hub for sustainable development involving hundreds of African start-ups in the development of artificial intelligence and as is happening with the extension of the Blue-Raman cable to East Africa, linking India to European economies via the Middle East and the Mediterranean.

(The **Blue-Raman cable system** is a proposed intercontinental fibre-optic communications cable system that will connect France to India via Italy, Greece, Israel, Jordan, Saudi Arabia, Djibouti, and Oman. It is notable in that it avoids passing through Egypt, a country which is widely regarded as a chokepoint for Internet connectivity. Google is a major investor in the system.)

We, unlike other actors, have no ulterior motives in Africa. We are not interested in exploiting the continent for the rich raw materials it possesses. Rather, we want Africa to prosper by processing its own resources, creating jobs and prospects for its best synergies with stable governments and dynamic secure societies.

But this path cannot avoid addressing an issue that can no longer be postponed, the debt of African nations.

Italy plans to convert over the next 10 years the entire amount of debt for the economically least developed nations. According to World Bank criteria and to reduce by 50% that of lower middle income nations. The entire operation over 10 years will allow us to convert into local development projects over 235 million euros of debt. This is an initiative to which the Italian government, especially in this Jubilee year, attaches great importance and which we hope may serve as an example for other nations as well because it is not only an economic matter but one of justice, of dignity, and of the future.

Dear colleagues, 30 years of blind faith globalisation have ended.

Its aftershocks were underestimated and today we face unexpected consequences which were not truly unexpected. Grave in their impact on citizens, families, and businesses. Things have not gone well, contrary to promises made. And let me give you some more news.

Things could get much worse if we do not halt the artificial creation of unsustainable production models such as the green plans that in Europe and across the West are leading to de-industrialisation far sooner than decarbonisation.

The conversion of entire production sectors on the basis of theories that ignore the needs and the economic capacities of people has been a colossal mistake, causing suffering among the most vulnerable social classes and dragging the middle class downward, imposing irrational consumption choices.

Unsustainable environmentalism has nearly destroyed the automobile sector in Europe, created problems in the United States, caused job losses, burdened competitiveness, and depleted knowledge. And most paradoxically, it has not improved the overall health of our planet.

This is not, of course, about denying climate change, but about affirming reason, which above all means technological neutrality and gradual reforms instead of ideological extremism, respecting the environment while keeping humanity at the centre because it took centuries to build our systems, but only a few decades to end up in an industrial desert. And as I have said many times before, in the desert there's nothing green.

Colleagues, delegates, ladies and gentlemen, this year we're not only celebrating the 80th anniversary of the birth of this assembly, but also the 70th anniversary of Italy's membership in the United Nations, a double anniversary that places on us an even greater responsibility to uphold the founding principles and values of this organisation. With the awareness that to do so we must make the tools effective to defend those principles and values of our time so that our action may be more incisive and truly responsive to the needs of our societies.

The choice that we have is simple. Leave everything as it is or take refuge in what is easy or show our citizens that we will not waste the historic opportunity which this time, with its multiple challenges, has handed us, to build a fairer and safer world, because as St. Francis, the most Italian of saints who gave his name to the city where this organisation was born, said difficult battles are reserved only for those who have exemplary courage.

It is time, I believe, to show that courage. Thank you.

On behalf of the assembly, I wish to thank the President of the council of ministers of the Republic of Italy.

## Was the 1950s thru to 2010s a time of peace, progress, and prosperity for all?

<https://www.enotes.com/topics/history/questions/describe-and-discuss-whether-the-1950s-was-a-time-2216992>

Many twentieth-century historians saw the end of the Second World War as beginning a period of cultural and economic prosperity for citizens of mainly developed nations led by the United States. To a large extent, this is true, and some historians have even gone so far as to call the post-WWII era as the “American Age.” The United States emerged from the war as the pre-eminent economic and military power across the globe, and was the only country in the world (initially) to possess the atomic bomb. While most of Europe and Asia struggled to rebuild their devastated infrastructure, the American economy was left virtually untouched. This allowed US markets to produce more than 50% of the world’s goods, and made vastly new material commodities available for consumption. Even the most low-income families in the post-war era could afford basic commodities, like food, soap, water, clothes, bedding, and linens, and by the 1970s nearly every American household owned a television set. It was certainly a period of plenty.

But the political animosities and the growth of big business created material inequalities previously unprecedented across American society. The Cold War cast suspicion on any and all foreigners living in the United States, even if they had been naturalised. The Second Red Scare, coupled with the explosion of McCarthyistic reactionary culture, cast aspersion upon many foreign families living in the United States, with many people being jailed or placed in internment camps until their loyalties could be confirmed.

The rise of Hollywood culture also led to the emergence of a free-wheeling spirit of the age. While this enhanced American citizens’ sense of personal freedom, it also led to the spread of drug use and homelessness, as many Americans gave up a traditional existence for a chance of attaining luxury and glamor. Thus, as with all things in history, the 1950s has a mixed legacy—some good and some bad came about as a result of America’s emergence as the predominant world power.

## “LONG PEACE” 1950s thru to 2010s

[https://en.wikipedia.org/wiki/Long\\_Peace](https://en.wikipedia.org/wiki/Long_Peace)

The "**Long Peace**" is a term for the unprecedented historical period of relative global stability following the end of World War II in 1945 to the present day. The period of the Cold War (1947–1991) was marked by the absence of major wars between the great powers of the period, the United States and the Soviet Union. First recognised in 1986, the period of "relative peace" has been compared to the relatively-long stability of the Roman Empire, the Pax Romana, or the Pax Britannica, a century of relative peace that existed between the end of the Napoleonic Wars in 1815 and the outbreak of World War I in 1914, during which the British Empire held global hegemony.

In the 1990's it was thought that the Long Peace was a unique result of the Cold War. However, when the Cold War ended the same trends continued in what has also been called the "New Peace". The period has exhibited more than a quarter of a century of even greater stability and peacefulness and has also shown continued improvements in related measurements such as the number of coups, the amount of repression, and the durability of peace settlements. Though civil wars and lesser military conflicts have occurred, there has been a continued absence of direct conflict between any of the largest economies by gross domestic product; instead, wealthier countries have fought limited small-scale regional conflicts with poorer countries. Conflicts involving smaller economies have also gradually tapered off. Overall, the number of international wars decreased from a rate of six per year in the 1950s to one per year in the 2000s, and the number of fatalities decreased from 240 reported deaths per million to less than 10 reported deaths per million.

In 2012, the European Union was awarded the Nobel Peace Prize "for over six decades [having] contributed to the advancement of peace and reconciliation, democracy and human rights in Europe" by a unanimous decision of the Norwegian Nobel Committee.

**THIS SCENARIO of moderate “peace” HAS NOW ENDED...**

# There is a Better Way!

Presently, we are in the mid 2020s ... the World is preparing for war – nations have or are moving to ‘war economies’! There has been no apparent debate – unilaterally nations are increasing their expenditure on military and there is no apparent resolution to any of the many fronts that military action is likely to unfold.

## The World is Gearing Up for War: US\$2.7 Trillion in Global Military Spending Signals a New Era of Conflict:

<https://sofrep.com/news/the-world-is-gearing-up-for-war-2-7-trillion-in-global-military-spending/>

SOFREP News Team

5 May 2025

Last week, the Stockholm International Peace Research Institute (SIPRI) dropped a bombshell — not the kind that lights up a skyline, but one that spells out loud and clear that the world is bracing for a fight. According to SIPRI's April 28th press release report, global military spending hit **a record-breaking US\$2.718 trillion in 2024**, a staggering 9.4% spike from the previous year. That's not just another stat buried in a spreadsheet. That's the biggest annual jump since the Cold War's curtain call.

Make no mistake — this isn't about posturing. The world isn't just rattling sabres. It's locking and loading.

Let's not sugar-coat it: over 100 nations worldwide dug deeper into their national wallets to fatten defence budgets. And it's not just about equipment or drills. **This marks the 10th consecutive year of increased spending.** The trajectory is unmistakable — nations are preparing for prolonged, high-intensity conflict.

SIPRI's data pulls no punches. The top five military spenders — **the United States, China, Russia, Germany, and India** — accounted for a whopping 60% of the global total, pumping out a combined US\$1.635 trillion (INSANE). That's more than just balance sheets; it's a strategy map of a world slowly inching toward open conflict on multiple fronts.

The blood-soaked soil of Ukraine continues to be the flashpoint, and Europe has taken the hint. Military spending across the continent **surged 17% to US\$693 billion** — the sharpest rise of any region. Forget Cold War comparisons; Europe's now outspending what it did at the *end* of that era.

**Russia** dropped US\$149 billion on defence last year — up 38%, and now pouring **7.1% of its GDP** into the war machine. Meanwhile, **Ukraine**, burning through its resources just to survive, spent US\$64.7 billion — that's **34% of its GDP**, the highest military burden on the planet. Every cent of tax revenue in Kyiv is now diverted to the defence effort.

Then there's **Germany** — now the fourth largest military spender worldwide. Yes, you read that right. With a **28% increase**, Berlin is wielding its €100 billion (around US\$113 billion) special defence fund like a sledge-hammer. **Poland** isn't far behind, jacking up spending by **31%**.

This isn't some peacetime precaution. This is Europe locking in for a long haul.

## Meanwhile Global Humanitarian Assistance is in freefall:

The Global Humanitarian Assistance Report 2025 shows a humanitarian sector entering financial crisis. Cuts in international humanitarian funding by many of the top government donors in 2024 delivered the biggest drop ever recorded. With further reductions announced for 2025, the public funding available for humanitarian action could contract by between 34% and 45% by the end of the year compared to 2023 levels. 2024 governmental humanitarian assistance being **US\$41 billion (1.5% of the military budgets)**.

# **PSYCHIC BARRIERS to CHANGE!**

**To put it succinctly:**

**We have been driven, generation after generation, to embrace our minds to the point that we blindly worship our minds, due to the fact that high level spirit controllers considered we would fall to to their coercion.**

**Our minds are addicted to:**

**Control over others;**

**Control over our environment.**

**That males are now addicted to having females subservient to their control.**

**That our minds cannot differentiate Truth from Falsehood.**

**That our minds are addicted to untruth and that 'fake news' and propaganda will be believed by a gullible, subservient audience.**

**That consequently, the sheeple will march to war without questioning.**

**So, financial gain for the few hidden controllers is the trigger for never ending wars, if they cannot enslave nations through debt or by other means!**

**We, here on Earth, live in a physical HELL!**

# There is a Better Way!

## *Violence is never Justified*

**Never is hatred, nor discord, nor war among men justified – no matter what the cause – and if men will only learn the Truth there will never exist such feelings or acts. Militarism is all wrong. Jesus 25 December 1915**

We have been making gangbusters with technology developments, all the sciences, health care, communications and a great deal more – BUT – have we evolved consciously? Have we grown in truth and love? Have we truly achieved evolutionary growth that is our true pathway?

Technology development has been staggering – we can destroy all of humanity and life on the planet within hours!!!

We are now of a population that is a little greater than 8 billion people. As of 1 January 2025, the population of the world was estimated to be 8,250,423,613.

At the beginning of the first century, the world population is estimated at 300,000,000.

Should we calibrate the level of consciousness of humanity utilising Dr David R Hawkins' Map of Consciousness, the current MoC calibration through kinesiology muscle testing is 220. During the first century, the MoC calibration is 190. Should we go back to 500 BC then the MoC calibration is 90.

Today, 75% of the world's population calibrates at or below 200 MoC – that is 6 billion people are calibrating at a level of truth that prevailed 2,000 years ago.

Further, today, 45% of the world's population calibrates at or below 100 MoC – that is 3.6 billion of our current population calibrate at a level of truth that prevailed 2,500 years ago.

As with everything that humanity has been influenced to pursue, we have been fighting to eradicate 'poverty', poverty in the material form. Consequently we continue to repeat, time and time again what continues to fail. We of Earth's humanity are Truth Seekers, yet we have never previously been provided with the pathway to understand truth, let alone to be able to discern truth. All of our education modalities and systems are structured so that we do not grow in truth.

From the moment of our conception we are immersed into the errors of belief as well as their emotional injuries of our parents, our siblings and carers. We are continually instructed to be mind-centric and to suppress our feelings. 'Don't be stupid Johnny.' 'Learn your tables Johnny.' 'If I hear one more whimper out of you, I will give you something to whimper about.'

Our minds cannot discern truth from falsehood. Our minds are addicted to control over others and the environment. And our minds are addicted to untruth. 98% of our assumptions are in error as are our 'thinkingness' conclusions. It is our feelings that are always in truth. We are to embrace our feelings and have our mind follow in support of our feelings promptings and guidance. It sounds simple – it is not.

## **WE ENDURE FOUR LAYERS of PERSONALITY SUPPRESSION!**

Unknowingly, our parents pass onto their children (us) their beliefs and way of living that has evolved since the Rebellion, some 200,000 years ago, and then the Default, some 38,000 years ago. In this way, humanity is suppressing the female, rejecting our Spiritual Parents, namely Jesus and Mary, and denying our Heavenly Parents being our true Mother and Father, of Their truth, standing and existence.

**The Rebellion is against love, the Default is all the difficulties we have in our relationships because of our rebellion. Healing the Default is becoming true, to ourselves and in our relationships, and ending our unlovingness – our rejection of love, so ending the Rebellion.** Nanna Beth 29 June 2017

We are souls, our personality is an expression of our soul. It is our free expression of our soul through our feelings that we are to embrace and follow. This expression may appear to be wilful in nature, from time to time, and consequently our parents' attempt to suppress this expression. They proceed to remodel us when as young children, in the manner their parents treated them and so on for many generations going back.

During our forming years, as a child, we are unable to recognise the suppression of our personality as being extra-ordinarily harmful to our soul based personality and, accordingly, we don't know that things can be any other way. Presently, neither do our parents.

This childhood suppression way of living continues throughout our schooling years, thus we learn this is a way of life that is normal.

Our religions all have been formed based on the tenets of the Rebellion and Default. The teachers and leaders throughout all denominations take us further away from our suppressed feelings that have been hammered into us during our forming years, thus entrenching us further into rejecting our true selves.

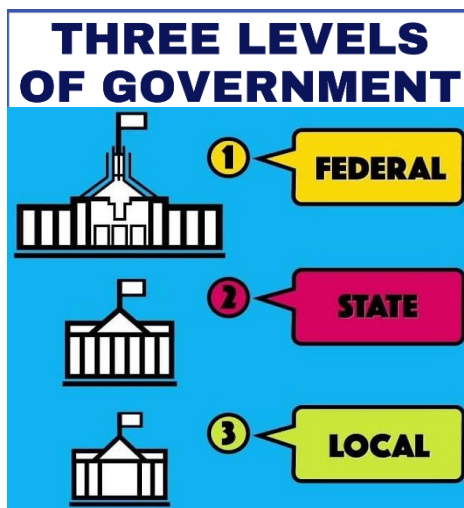

The controlling and suppression mechanisms of our parents, educators and spiritual teachers all manifest throughout all of commerce. This control comes heavily and brutally down upon all levels of employment. The capability to express one's soul based attributes and gifts is sealed throughout all of one's working life.

A new way of living is to enable the liberation of one's true personality through the Feeling Healing process AND the transfer of authority to the individual via embracing freedom of expression.

Leadership should be through those calibrating well into the 400s MoC, however, leaders who embrace and engage living feelings first will typically be calibrating beyond 500 on the Map of Consciousness!

## **BUT THERE ARE FURTHER LAYERS OF CONTROL!**

Federal, state and local governments impose their 'rule' upon the people that appoint them to serve these very same people!

Instead of assisting their people, governments at all levels impose restrictions and controls.

The same people who 'elect' the members of parliament do not realise that the 'nominees' are often puppets of hidden controllers.

**GOVERNMENT**

Derived from the Latin verb **Guverno, Guvernare** meaning **"To Control"** & the Latin noun **Mens, Mentis** meaning **"Mind"**

**To Control The Mind**

## **HIDDEN CONTROLLERS**

'Heads of society' are considered leaders. The 300 Bilderberg Club members are (short term) leaders throughout the world, but these are controlled by some 30 families (medium term), who are in turn are

manipulated by 12 (long term) families. All of this is managed and imposed by global secret society networks under the direction of the 12 long term families and their chairman.

**CONTROL DISRUPT**

**celestial Friends**

Since 31 May 1914, Celestials have been progressively introducing high level truths to humanity that have been prevented from sharing for thousands of years. From 31 January 2018, Celestials have been disrupting the hidden controllers on Earth and slowly bringing about their manipulation and suppression of Earth's humanity.

### LEADERSHIP PERSONALITIES should CALIBRATE at or over 400 MoC

For dynamic leadership and to qualify for being considered to represent the people of any nation, candidates need to calibrate on Dr David Hawkins' Map of Consciousness at or over 400 MoC. To qualify for high political appointments, then only those calibrating 410 MoC + need to stand for such positions. Great leaders and statesmen throughout history generally have high consciousness levels. As can be seen by the above observations, politics in most nations have been hijacked by controlling interests so that their nominees are readily compromised and the people then being suppressed and manipulated without their best interests being prioritised.

# Layer upon Layer upon Layer

Emotional injuries and errors of belief are what we are to express and talk out with companions. The amazing thing is that we are now being guided and assisted in our emotional healing which affects every aspect of our living, our life, our being, our physical health and our relationships. Never has it been understood just how retarded and suppressed we each are by living through our minds and ignoring our feelings as we have been led to live our lives by not only our parents, but by all who we interact with – as they have all been misled like each of us.

As we open ourselves up to express a feeling, any feeling, good or bad – they are all to be expressed. Whatever comes to surface will be over laying an older feeling, so we are to then express the slightly deeper feeling / emotion / belief / error / memory. Long to know the truth of our feelings.

We are to find how every aspect of our environment is imposing itself upon us. Government, through its federal, state and local administration, is all controlling and inhibiting of our self-expression. Then we find that our employment is all controlling as it is our life-line to physical survival – our fears and hoarding are all consuming. Our education has been founded upon layers and layers of assumptions which we now find to be extra-ordinarily flawed in what becomes abundantly clear through our truth based feelings which are always in truth. With 3,400 major religions, we now can recognise that they are all agents for our control.

And then as we work our way down through the layers upon layers, back through our adult life and into our teenage years, we begin to find and then anticipate that it is our Childhood Suppression that we experienced under the oversight of our parents and those close within our family, being our siblings, grandparents, etc., that is at the core of our Healing.

Thus, as we work through each and every feeling that arises, we will be working back through our life years to the core of each emotional injury and error of belief which we generally have taken on throughout our childhood forming years, from the moment of conception to the age of six years. It is during our sixth year that our Indwelling Spirit arrives and we become a little more self-aware and assertive of our personality.

Yes, we will work our way back through our dramas all the way back to the moment of our conception. We will become totally aware of just how much we are screwed over and then accepting of being in such a way. However, then being healed is yet another incredible life for us each to experience.

## **ASSUMPTIONS** *and the* **MIND**

Whenever a principle or platform of truth is formed around an assumption, then as further truth is revealed, the error may become obvious.

A great deal of custom and passed down practices have evolved through handwritten records which have been copied and re-copied and have then been injected with assumptions that have become the core belief and customs which people have lived by for many generations.

These platforms need to be revisited and addressed. We will find that these mind derived assumptions have a 98% error rate. We will further find that the mind's propensity to have control of others has distorted matters and that all systems worldwide are in need of rebuilding.

Education, health, science, commerce, legal, governmental and all platforms have evolved through the mind and are all taking us further away from our feelings, our soul-based feelings of truth and are suppressing our true personalities. There is not a man-made system on Earth that is presently founded on truth, the truth that we all long for.

Meanwhile, hidden controllers have seized the moment and have achieved global domination, hoarding massive wealth to the detriment of humanity. Only through a change in the way of living will this and other power bases crumble. We may disrupt hidden controllers but if we do not change our way of living they will reassemble their controlling power!

It will only be through the New Feelings Way emerging as a way of living, that education, health services, science, commerce, legal, governmental and all other platforms will be appropriately restructured.

The revelations of Living Feelings First, Feeling Healing and the New Feelings Way have been provided to all of humanity, from the highest authority, to enable each and every one of us to consider the options and possibilities. Our freewill continues to remain sacrosanct.

This revealing has been in the planning and preparation for thousands of years. It was two thousand years ago when the foundations for the arrival of these possibilities and revelations took place then on 31 May 1914 the first writings commenced through James Padgett in what is known as the Padgett Messages. The primary auxiliary writing is The Urantia Book (1925-1935).

The major and most important writings are those of James Moncrief commencing in 2002. This is the focus of the publications that are to be made available in numerous formats and in all of the important languages so that every community, worldwide, will have access and potentially become aware of the teachings and revelations.

# **The NEW WAY    The NEW WAY**

# The Better Way is: Living Feelings First, mind following.

The New Way is living feelings first with our mind in support of embracing what our feelings are drawing our attention to and assisting with the implementation of our feelings guidance and promptings. We are to long for, ask for and continually explore what more our feelings have to reveal to us about what arises from each such feeling. This is an ongoing discovery of our true selves through our soul-based feelings which are always of truth.

We are mostly in awe of great achievers while most researchers, scientists and specialists struggle to make progress and develop new pathways, techniques and technologies.

Living mind-centric, as we each are taught to do so, has a glass ceiling, a barrier to freedom to access truth, discovery and revelations. Yes, our total way of life and all education systems impose a barrier upon each of us to grow in truth and yet we each are truth seekers.

The barrier is crystal clear. On Dr David R Hawkins' Map of Consciousness scale it is 499 MoC – that is the peak of Reason on the Map of Consciousness. Only a few percent of Earth's population transcend 499 MoC and the greatest profession that does so is nursing!

The following charts are from "Truth vs Falsehood", published by Dr David R Hawkins in 2005.

Note how often the peak of MoC 499 occurred, being the ceiling of 'Reason' on Dr David Hawkins' Map of Consciousness – the glass ceiling!

Note that none of the major universities and schools go anywhere near the peak of ‘Reason’ on Dr David Hawkins’ Map of Consciousness. Note also the scale is based on the common log of 10, it is not a linear scale. Thus a 10 point increase in consciousness is 10,000,000,000 fold increase in energy level – being truth!

Note that kinesiology muscle testing transcends the glass ceiling of reason and is thus a process that when utilised as per Dr David Hawkins’ demonstrated method is actually connected to our soul’s truth, being the same truth that we reflect when we embrace our feelings which are always in truth.

There are some 300 books in English that calibrate 900 MoC or above. As the Pascas Papers are included in this classification, you may find that the Pascas Papers represent the equivalent of around 200 of those books. You will also find at the end of this Pascas Paper its MoC calibration.

## WE ERRONEOUSLY EMBRACE OUR MIND TO LEAD US THROUGH LIFE!

Our parents teach us to live through our minds.  
 We are taught to be mind-centric – worship the mind!  
 We go to school and it is all about mind development.  
 There is no consideration about feelings at school.  
 Our religious institutions do not appear to even be aware  
 of our feelings, nor how they are important to us.  
 If we go into employment then it is all mind-centricity.  
 Higher education is further mind development – no feelings!  
 We have now totally immersed ourselves inside a steel wrecking ball  
 with no comprehension or appreciation of our soul based feelings.  
 Then we take the ultimate mind imprisonment pathway – we enter the  
 pinnacle of the education system – we gain a post-graduate honours  
 degree – PhD – we have now imprisoned our personality into a steel  
 wrecking ball with an outer layer of steel to totally shut any window to  
 our soul based feelings and the truth our soul provides freely!

Living mind-centric locks us into a stagnate state that has a ceiling of 499 on Dr David R Hawkins' Map of Consciousness. While we ignore and suppress our feelings, we cannot evolve past this glass ceiling of MoC 499, being 'Reason'. Fixed in a stupor, a life of zombiism that we see all around us!

### PERSONALITY TRAITS:

Less than two dozen people on planet Earth.

Would not pick up a weapon let alone use it. These people gravitate to the health industry and humanitarian programs.

Debate and implement resolutions without argument and delay. 470

Debate and implement resolutions in due course. 440

Debate and implement resolutions with some degree of follow up generally needed. 410

Management supervision is generally necessary.

Politics become the hope for man's salvation.

Cause no harm to others starts to emerge. Power overrides force. Illness is developed by those man erroneous emotions that calibrate 200 and lower.

Armies around the world function on pride. Force is now dominant, not power.

Harm of others prevails, self-interest prevails.

Totally self-reliant, not God reliant.

Fear dominates all motivation.

Suicide is possible and probable.

At these levels, seriously harming others for even trivial events appears to be justifiable.

Poverty, unemployment, illness, etc., this is living hell on Earth.

**Note:**

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.

A calibration increase of 1 point is in fact a 10 fold increase in energy.

A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.

Thus the energy differentials are in fact enormous!

**Blessing your food** achieves an increase of 15 points which is in fact a quadrillion ( $10^{15}$ ) jump in energy.

**Levels of consciousness** are always mixed: a person may operate on one level at one time and quite another level in another area of life. [In fact, we move in and out of fear, anger, guilt, etc. for either brief or extended periods. Even the levels up through unconditional love at 500 are experienced by most. But it is the percentage of time spent in each level that determines the dominant level in which one lives.]

**Shame:** Shamed children are cruel to animals and to each other. Later they are capable of forming vigilante groups to project their shame onto others whom they righteously attack. Serial killers have often acted out of sexual moralism with the justification of punishing "bad women". Shame produces false pride, anger, guilt. Moc 20 – 29

**Guilt:** associated with victim hood, masochism, remorse. Unconscious guilt results in disease, accident - proneness, suicidal behaviour. Preoccupation with punishment. Guilt provokes rage. Capital punishment is an example of how killing gratifies a guilt-ridden populace. MoC 30 – 49

**Apathy:** State of helplessness / death through passive suicide / level of homeless and derelicts / level of streets of Calcutta, abandonment of hope. MoC 50 – 74

**Grief:** Level of sadness, mourning over the past / habitual losers / chronic gamblers / notion of being unable to replace what is lost. MoC 75 – 99

**Fear:** Fear runs much of the world [in the enmity fearfulness is dominant emotion of 65% of the world] insecurity, vulnerable / leads to jealousy and chronically high stress level / very contagious / fearful people seek strong leaders. MoC 100 – 124

**Desire:** Motivates vast areas of human activity. Desire for money, prestige runs lives of many who have risen above Fear. At this level of addiction / desire for sexual approval has produced an entire cosmetics and fashion industry / accumulation / greed. It is insatiable because it is an ongoing energy field. Satisfaction is impossible / frustration is assured. MoC 125 – 149

**Anger:** Leads to either constructive or destructive action. Expressed most often in resentment and revenge. Irritable / explosive / leads to hatred. MoC 150 – 174

**Pride:** Has enough energy to run the Marines. Is a great leap forward from lower fields / is socially encouraged. Defensive / vulnerable because dependent upon external conditions. Inflated ego is vulnerable / divisive / arrogance / denial. The whole problem of denial is one of Pride. MoC 175 – 199

**Courage:** Where productivity begins / zone of exploration / accomplishment / fortitude / determination / exciting / challenging / openness. All of this is achieved through the leap to truth / the courage to face one's flaws. MoC 200 – 249

**Neutrality:** Release from a position or opinion / flexible / non-judgmental / realistic. Not getting one's way is less defeating or frustrating. Beginning of inner confidence. One is not driven to prove anything. Does not lead to any need to control others. MoC 250 – 309

**Willingness:** Growth is rapid here. Willingness implies that one has overcome inner resistance to life and is committed to participation. Genuine friendliness / do not feel demeaned by service jobs. Helpful / high self-esteem / sympathetic / responsive to needs of others / resilient / self-correcting / excellent students / readily trained.  
MoC 310 – 349

**Acceptance:** Major transformation takes place when one recognizes that one is the source of the experience of one's life. A full assumption of responsibility for one's self. Acceptance of life without attempting to conform situations to one's own agenda. Denial is transcended / calm / perceptive / balanced / appropriate. No interest in determining right and wrong. Self discipline / honouring of others rights / inclusive / tolerant.  
MoC 350 – 399

**Reason:** Intelligence/ capable of making rapid, complex decisions and abstractions / level of science / capacity for conceptualization / deals with particulars / level of Nobel Prize winners, Einstein, Freud, etc. but ironically reason is often a block to higher states.  
MoC 400 – 499

**Love:** Love is not what the media professes: emotionality / physical attraction / possessiveness/ sentimentality / control / addiction / eroticism / novelty. When lovers or marriages "break-up", they usually were based on these attitudes rather than love, which is why this kind of "love" can lead to hate. It wasn't love in the first place. Love Deals with wholes. Unconditional love is accompanied by measurable release of endorphins. Love takes no position / permanent. Only 0.04% of population lives out of this level of consciousness.  
MoC 500 – 539

**Joy:** Level of saints / effortless / people with near death experiences often have reached this level of consciousness. Healing occurs. Individual will merges with Divine will.  
MoC 540 – 599

**Peace:** Radiance / suspension in time and space / everything connects to everything else / no preconception. Great works of art, music and architecture, which calibrate between 600 and 700, can transport us temporarily to higher levels of consciousness.  
MoC 600 - 699

**Enlightenment:** Buddha and Krishna. Jesus progressed beyond 1,000 to achieve at-onement with God whilst living on earth. Enlightenment is a never ending process.  
Moc 700 – 1,000

This outline of the Map of Consciousness spells out the fact that while we live Mind-Centric and ignore and suppress our Feelings we cannot pass 499 MoC. Our mind being in control, as we have all been indoctrinated to live, is a glass ceiling. Humanity cannot heal anything, cannot be spontaneous, has no intuitiveness, and is locked into living in the deep hell states. This is why people find themselves in abusive homes, domestic violence, housing stress, homelessness and gross difficulties of all kinds. This is why we are easily manipulated, embrace propaganda and are being controlled by a few.

Women are closer to their feelings and that is why the nursing profession hosts a lot of women who calibrate a little over 500. These women are the healers in hospitals.

By aspiring to live Feelings First we are each breaking the glass ceiling and opening our potentials to grow in truth and love not only to 1,000 MoC, but to infinity. This is our destiny.

As communities embrace living Feelings First and having their minds to follow in supporting what their feelings are guiding them with, then ALL of the social ills of society will begin to mitigate. Please, do you comprehend the importance of what is being shared throughout this document?

As average life expectancy grows, the median age of the population grows at a marginally faster rate, as does the growth in per capita income – at a higher rate. Education is the driver. The more open and freer the education system so is the higher the level of consciousness of the community and consequently all other social issues and ills are marginally and progressively mitigated. As of 2020; 56.2% of the global population now lives in cities.

There are many global surveys of numerous social observations and measures. Each of these, in their own way, reflect the Map of Consciousness scale. Conditions are better when the MoC is higher!

Kindly note that due to MoC scale being based on the common log of ten, then the few in the higher calibration distorts the overall results as seen above. Percentages within lower calibrations reveals a truer representation showing that 75% of the worldwide population calibrate MoC 200 or lower while 40% calibrate MoC 100 or lower.

**Note:**

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.

A calibration increase of 1 point is in fact a 10 fold increase in energy.

A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.

Thus the energy differentials are in fact enormous!

# Systems of Deception!

One person with unfettered and supreme control, a System Sovereign, has had aeons of time to passively and stealthfully impose upon his minions (us – you and me) a way of living that assures him, the arch hidden controller, that we would remain compliant and submissive to his begging. His extreme intelligence and consciousness is no match for us ascending mortals who arrive naively upon Earth with absolute dependence upon parents who have already capitulated – unknowingly – to his wily stealth.

The System Sovereign's goal was that we do not evolve, that we remain fearful of our true Heavenly Parents, that our true pathway for spiritual development is not revealed, that we live in a manner of servitude and ignorance through our minds believing that our submission to our minds will enable us to become all powerful and even mini-gods. When we transition into the spirit mind Mansion Worlds, we remain collectively his waiting army to fulfil his ambitions to expand his domain and territory. We have been well and truly screwed over through his imposed systems of:

- Parenting – unable to love our children due to lack of truth in what we are provided with.
- Education – minimalistic, having our minds unable to progress beyond reason – our minds are addicted to untruth and control of others including our environment.
- Health systems – ignorance of our spirit bodies and gross ignorance of underlying cause of illnesses which are through the lack of being loved. Our health systems cannot heal.
- Commercial systems – we become salary slaves with suppressive debt slavery resulting from the costs of education, housing, health services, transportation and necessities for survival.
- Political systems – that divide the community into camps and then deliver representation of only a portion of the population without candidates having necessary leadership skills and experience.
- Religions – there is only one truth. We are to live through our feelings – not our minds.

We have been led to live mind centric which is the pathway of all of nature except humanity which is ensouled. We of humanity are to live feelings first with our minds to assist in implementing what our soul based feelings lead us to embrace. We are truth seekers and truth is to be found through feelings.

Higher level personalities than our System Sovereign have now taken on all of the evilness and wrongness of what these rebellious Lanonandek spirits have imposed upon us and have healed themselves of these injuries. Now all systems assembled during the Rebellion and Default, now ending, need to be rebuilt!

Our pathway to Paradise, the home of our Heavenly Mother and Father, is through living embracing our soul based feelings, living feelings first, to express what our feelings draw our attention to and to long for the truth of what our feelings are to show us – both good and bad.

A lady named Samantha found James Moncrief's writings on a website and commenced to engage in her Feeling Healing. This may have been in 2013. Samantha is like all of us, she is an ascending mortal. She has no specialness nor has she had any support other than James' writings on the internet. Samantha has been successful with her healing. She has been very successful. She has now written numerous books outlining her experiences so each and every one of us can follow her example. An ascending mortal, Samantha, has conquered all that the rebellious Lanonandeks, led by Lucifer, have imposed upon us. Samantha is the new mother of humanity in demonstrating to us how to embrace the one and only pathway home to our Heavenly Mother and Father.

# **We have been given a bum steer!**

Every aspect of how we live, our life is one of suppression and misinformation. We all aspire for human perfection yet generation after generation we repeat the errors and failing endeavours of our parents and their parents before them. We are not progressing, irrespective of technology!

Nothing is advancing. No one is evolving into the state that we existed before we were conceived into our physical life. We each are living in a physical hell. We do not even know what hell is – because we are in it! Well, we don't seem to know what anything is.

Global warming! It is a cyclical event. If you want to consider what is a normal temperature on Earth then it is when there is no ice on either of our poles. We are presently moving out of an 'ice age'. Recently, cyclical energy flows into our Sun have now been absorbed into the core of our Earth and it is now slightly warming from within. This has nothing to do with human activities.

Fossil fuels! Yes, coal is a fossil fuel, the result of organic material being pushed together during a pole shift event when the Earth stops spinning, the oceans keep moving and push surface material up against mountain ranges, backwash covers them, but just before that the novering Sun raises the temperature and the extra heat starts the charcoal effect and the rest is the delivery of coal deposits.

Natural gas and oil: Both are the result of chemical reactions deep in Earth. Neither are fossil fuels. Even hydrogen deposits are now found, also being the result of chemical reactions within Earth.

Interesting, there is considered to be six times the volume of oil on the Saturn moon called Titan than all the known reserves on Earth. How is this so when Titan has no organic life? There are large amounts of natural gas and oil on at least six of our neighbours within our solar system.

Why do we have a nuclear energy industry and not thorium reactors? Science could not weaponise thorium so they were influenced to develop the more expensive and dangerous nuclear reactors. We are not meant to engage with nuclear fission! Thorium is safer, much more abundant and cheaper, and all waste can be disposed of safely.

## **Do you get the gist of this?**

Why did dinosaurs die out around 65 million years ago? For the opposite reason why we are presently not now dying out due to starvation!

Carbon dioxide is the 'gas of life'! When CO<sup>2</sup> levels fall below 0.025% of the atmosphere the plants begin to have difficulty going to seed. At around 0.020% plant life essentially ceases. 65 million years ago, the carbon dioxide (CO<sup>2</sup>) levels were around 0.018% – that is why dinosaurs died out in both the northern and southern hemispheres.

In the 1950s the CO<sup>2</sup> levels were around 0.032%. In the 2020s they now are around 0.042%. If the decline had of continued at the same rate as the increase then we would presently have world-wide famine. The Earth's population in 1950 was around 2.5 billion. Now in 2025 the world population is 8.2 billion. That is 3.3 times and yet we have ample food (in most locations)!

At least a third of the increase food production is attributed to increased CO<sup>2</sup> levels. Why? Because carbon dioxide is the 'gas of life'.

Carbon dioxide (CO<sup>2</sup>) is not a greenhouse gas. It is neutral in the atmosphere. Further, it predominantly emanates out of our oceans. Our neighbouring planets have such gases in their atmosphere without any impact on their surface temperatures!

## **We are being masterfully misled**

Truth is always the same! Then why do we have 3,400 significant religions? And then when you add up all the minor denominations associated with these religions we get more than 50,000 options of the one truth! At one a day, that will take us 150 years to figure it them each out!

Some very, very clever covert and hidden controllers have manipulated all to keep us submissive to their self-centred controlling suppression. The uniform link is this. Wait for it. It is simple.

NONE of these platforms as to how we are to live encourage us to embrace our feelings and live following our feelings promptings. Yes, we are to live feelings first.

ALL of these platforms lead us to be mind-centric. Yes, from our first moment our parents are teaching us to literally worship our mind. We are covertly believing that through our minds we can become mini-gods. The egos of some people clearly demonstrate their mind worshipping.

FURTHER, we are to express our feelings, we are to talk them out to a friend. We are to long for the truth behind what our feelings are drawing our attention to. We are to express our feelings, both good and bad and long to know more about what is coming to us. We will be told.

AND we are to ask for, long for, desire and accept / welcome receiving our Heavenly Mother and Father' Love, Their Divine Love. In the first century we were told of this, however by 325 CE, at time of the Nicean Council, that truth was lost to us. It is through the Padgett Messages (1914 – 1923) that this has become known to us again.

OUR FEELINGS are always in truth. It is through the distortions of truth and errors of belief that the flow of light energy through our bodies is impeded resulting in physical discomfort, pain, illness and disease. Through FEELING HEALING, we remove those distortions. When we have fully healed our emotional injuries and errors of belief we have no further need to experience discomfort, pain, illness or disease! You now know the underlying cause of all illness.

EVOLUTIONARY GROWTH follows progressive healing. Whatever little FEELING HEALING that we embrace and undertake directly benefits our children. Depending on their age, your growth passes through to your children. And this pattern then continues on through the generations. This is the greatest event in the history of humanity to have this awareness and opportunity to grow our soul condition, even to the Celestial level, while living here in the physical on Earth.

## **You see ...**

The covert hidden control over humanity has been lifted. In 26CE the System Sovereign and his deputy with their soul partners were arrested and imprisoned. Now in 1993CE the Earth's Planetary Prince and his deputy with their soul partners were also arrested and imprisoned – now all together.

We have now been provided with the awareness and pathway (there is only one pathway) to end the carnage, pain and suffering resulting from the erroneous way that we have been living, that has prevailed these past 200,000 years.

And this does not entail yet another religion. It is simply accepting, welcoming and embracing our feelings, our soul based feelings which are always in truth.

Our mind has an ongoing role, but it is not a leadership role, it is to follow our feelings and to assist in implementing what our feelings prompt us to consider and embrace.

You may come to see that our mind is addicted to control, control over others and our environment. Our mind cannot discern truth from falsehood – in fact it is addicted to untruth. 98% of our assumptions prove out to be wrong. Our thinkingness is equally flawed.

We will come to see that every institutionalised system, custom and norm that is present in our life is covertly manipulated to keep us suppressed, submissive and to live life like a zombie. We can now put that asides.

## **Education**

Education is the paramount profession. Without education we have nothing, nowhere to go and no possibility to evolve individually or collectively.

Education starts with pre-school, then primary school, middle school, high school, then technical and further education, university, post-graduate, and then senior education. However, it start with parents and their parenting. It is never ending. Our learning and ongoing education is that ‘we learn through doing!’

Now we are to begin, and that is what Pascas Foundation in every nation, every community, is to assist with and support. It is all outlined throughout the Pascas Papers.

*We are to express our feelings,  
both good and bad, emotionally!*

# Two Simple Charts:

There you have it: Within the affluence of the Gold Coast with its 40 kilometres of golden beaches and wonderful hinterland, school children in various years and educational platforms reflect that their parents' Map of Consciousness (MoC) calibration dominates the students' calibrations. Around 65% calibrate MoC 200 or less and 20% calibrate MoC 100 or less. The tables below indicate how their life is likely to reflect this and therefore unfold. These tables sum up their life expectations:

## Life through our Feelings is Dynamic and Vibrant!

Aspiring to live feelings first opens our perception to levels of truth never before experienced. Our feelings are us, they are always of truth, and they are always vibrant, dynamic and freeing. Through our feelings we find that the imprisonment of our mind is put aside. We come to see that mind-centricity is claustrophobic, it is our stagnation, and it is our difficulties with all of our environment and what is around us.

Bringing about awareness that living feelings first breaks through the glass ceiling that our mind imposes upon us all, dismantles boundaries and prejudices that underpin conflict and control addictions. Sharing this awareness of the new way we are to live embracing harmony, peace and friendship – borders will dissolve. The need for policing and military abates and over time as we progressively evolve, our life will become simple.

And simple is how we are meant to experience life.

## Feelings First!

## Mind to Follow!

We are to enable our neighbours to become aware and have the option to live feelings first, having their minds to follow in support. Not how it is mostly now, with the mind in control generating conflict and confusion.

It is simple, but difficult, as time is required to discover the joy of this new found freedom through truth.

# CHILD SUPPRESSION

Consider asking the child to talk it out. How does she or he feel about being treated this way? What else does he or she want to talk about this? Ask the child to talk about what they feel, both good and bad. Always ask and look to find the truth to understand more about what happens.

# Root Cause

Highly esteemed Lanonandek spirits from within our local universe of Nebadon were assigned as System Sovereigns of our local system to oversee Earth's humanity and their spiritual development. 200,000 years ago they, the Lucifers, became infatuated with their authority and turned against the regents of Nebadon, Mary and Jesus, as well as rejecting God. Through their Planetary Princes, also Lanonandek spirits, they had taken the humanities of 37 worlds within their local system into their Rebellion.

Through living through our minds, suppressing our feelings, we on Earth will continue to be at war with each other, illnesses of all descriptions will continue from our feelings suppression, famine and inequalities prevail, control of others is the core of all systems, we cannot determine truth from falsehood and life on Earth is a living hell. We have been continually seduced by mind Mansion World spirits and we live life in a stupor – nothing more than zombies doing the begging of the evil ones, the rebellious Lanonandek spirits.

Through living through our minds, suppressing our soul based feelings, we have been progressively going further and further away from our Heavenly Parents, now to the point that we cannot go any further. Through working cracks in the Universal Contract governing the Rebellion and Default, this control has been ended formally as of 31 January 2018.

# Pathway Forward

To liberate one's real self, one's will, driven by one's soul, moves one to embrace Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.

**God's Divine Love: Pray for it, ask for it, and receive it.**

**The Golden rule is: Never interfere with another's will.**

**Golden Rule: that one must always honour another's will as one honours one's own.**

**New Feelings Way: learning how to live true to ourselves by living true to our feelings.**

**We are to express our feelings, both good and bad, at all times, and to long for the truth of them.**

**By living true to ourselves true to our feelings, we are living true to God. It's that simple.**

# POVERTY EXTERMINATION

# Psychic Barriers

Within and throughout any community, we have personalities at all levels on Dr David Hawkins' Map of Consciousness (MoC) scale as of a consequence of the levels of consciousness of their parents own childhood upbringing. Thus the psychic barriers throughout a family are generational. Through childhood suppression we become the level of consciousness of one or the other of our parents.

**MoC scale around 100:** This is survivalist living. To do nothing more than what is necessary to live. It is a continuation of how one's ancestors have lived for many generations before us. Even though being aware of modern developments and practices, one continues with beliefs and practices of hundreds and thousands of years ago. No amount of governmental money can improve our life experiences until we personally move to step away from traditions and improve our potential through personal development.

**MoC scale around 200:** Religions introduced over the past 2,000 years may be embraced and have raised consciousness but little is being achieved other than a neutrality in the way one may be living. Living mind-centric prevails. Humanity overall is calibrating around 220 MoC.

**MoC scale around 300:** Open and free feelings orientated education for all ages and aspirations. Free in cost and free from controlling agendas. Such scenarios over time bring about societal evolutionary growth and instils economic growth and enhanced standards of living. Those of higher levels need to be managers. However, feelings are not presently part of any curriculums.

**MoC scale around 400:** Leadership unfolds that bring about the dynamics to provide global development and prosperity.

**MoC scale around 500:** Until societies recognise that we are to live feelings first having our minds in support of what our feelings are drawing our attention to then very few will grow in consciousness higher than 499 MoC as at that level is the peak that our minds can grow.

Within any group of people all of these levels can exist, living side by side. At each of these levels, what is to be provided is awareness specifically to open the pathway for growth and development to aspire to higher levels of consciousness. It is always for the individual to decide if and when they will seek to embrace their further growth and development. No one can grow or develop consciousness of another.

In recent times, governments have frequently imposed fees upon students engaging in higher education only to find stagnation returning to productivity growth. A counter-productive step for their societies.

Psychic barriers are impositions imposed upon us all to retard and restrain our growth in consciousness and development for the agendas of controlling influences that are now no longer. However, it is up to each of us to recognise our way forward and that is through writings like this. The benefits of living Feelings First will over time address ALL of the social ills throughout society and open the pathway for infinite growth in one's level of consciousness. This is our destiny!

As we 'learn by doing', artificial intelligence is not engaged in the preparation of a Pascas Paper. Further, as the Pascas Papers are 'layered', that is through multiple slow readings more becomes revealed to the reader with each re-reading. Speed reading degrades the reader's comprehension of what is contained herein.

# Psychic Barriers

## 'Submissiveness'

Submissiveness is observable with personalities that calibrate on Dr David Hawkins' Map of Consciousness (MoC) at 200 or below. Though they may be assertive, they readily submit and comply with authority and authoritarian domination.

Those having covert controlling agendas readily take advantage of this trait which is a psychic barrier imposed upon humanity by high level controllers thousands of years ago. These high level controllers imposed upon humanity a way of life and living that was and still is holding back the growth and development of all people on Earth. These high level controllers' agenda was to ensure that a growing number of subservient beings were available for their expansionary controlling agendas elsewhere.

Presently, 2024, the people of Afghanistan – 44 million – calibrate overall at 85 MoC. Of the 34 provinces, the highest is 100 and the lowest 75 MoC. Coincidentally, the population of USA – 330 million – calibrate overall at 405 MoC, however just over 50% of the people calibrate under 200 MoC.

The submissiveness of the Afghanistan people was demonstrated by their acceptance of the Taliban taking over control and government in August 2021 without any significant resistance. The leader of the Taliban calibrates at around 280 MoC. Coincidentally, the Republican Party nominee for President of United States of America also calibrates at around 280 MoC, and his platform is clearly attracting the support of the people of USA who calibrate under 200 MoC!

## 'Mind - Centricity'

Those same high level controllers back thousands of years ago seduced Earth's humanity to live Mind-Centric on the false premise that we could grow through our minds in greatness to become mini-gods!

While we live mind-centric and suppress our feelings and our true self, we cannot progress beyond 499 MoC on the Map of Consciousness. While we live this way, ignoring and suppressing our feelings we will continue to stagnate, engage in wars, incur discomfort, pain, illness and disease, suffering a life of living in a physical hell – we cannot evolve any further than what you see around you now every day.

All institutionalised systems are to be dismantled and through every aspect of life and living we are to consider our feelings which are always in truth. Living Feelings First and having our minds to follow in support of implementing what our feelings are prompting us to embrace will not only see people growing in truth and love, but also advancing beyond 500 MoC. Living feelings orientated has no limit to what we can achieve. Living in a Celestial soul condition state while being here in the physical on Earth is now possible for those who not only live feelings first, but embrace Feeling Healing and our Heavenly Mother and Father's Divine Love. Such a condition of living has now been achieved here on Earth for the first time in the total history of Earth's humanity, being of about 993,500 years.

These psychic barriers of submissiveness and living mind centric can only be put aside by introducing an open and free universal feelings orientated education system at all levels for all societies. This will slowly resolve all social issues and conflicts and bring about living a life of simplicity and truth worldwide.

# Psychic Barriers

**Barriers** to our growth and development are the customs and norms passed down through the generations by our families and heritage. We each are infused with the errors of belief and emotional injuries of our parents and carers, thus, generation after generation calibrate on Dr Hawkins' Map of Consciousness at the same levels as one of our parents, should they calibrate differently.

Thus, until we step away from living like our parents, which is living mind-centric, no evolutionary growth is likely to unfold for societies around the world.

## 'Submissiveness'

'To put lower consciousness levels into context, it is helpful to know that, according to consciousness research: **78%**, if not **85%**, of the people on the planet calibrate below 200 on the Map of Consciousness, and 50% of the United States calibrates below 200 on the Map.'

'**Things are done TO Me**' – that is those calibrating under **200 MoC** who submit to their environment and will of those imposing upon them. They are

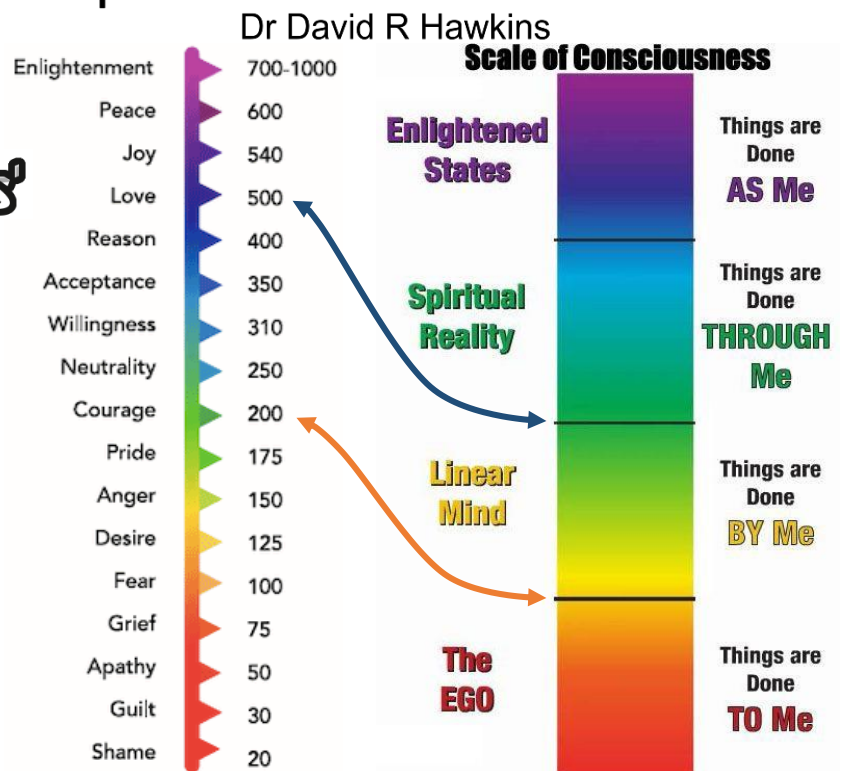

submissive to control and easily capitulate to coercive dominance without resistance. They readily capitulate to untruth and error, thus suffering greatly.

## 'Mind - Centricity'

200,000 years ago we were submissive to the control of high level personalities who induced us to believe we could become mini-gods by believing that our minds could take us to those levels. Women are closer to their feelings and consequently males had to dominate and suppress women. Living mind-centric prevents us progressing beyond 499 MoC. Living mind-centric, **Things are done BY Me**. This glass ceiling can only be bridged by us embracing our feelings and living feelings first. Then through Feeling Healing and by embracing our Heavenly Mother and Father's Divine Love we can progress to Celestial Soul Condition while living here on Earth, which is beyond this Map of Consciousness scale.

Thus, these two distinct psychic barriers outline the cause of social issues and difficulties throughout societies and populations. The worldwide education systems actually prevent any consciousness growth and evolutionary progress. Only open and free universal feelings orientated education can erode these psychic barriers and bring about the freedom and progress that we all long for.

## Map of Consciousness MoC

# Map of Consciousness MoC

## Note:

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.  
 A calibration increase of 1 point is in fact a 10 fold increase in energy.  
 A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.  
 Thus the energy differentials are in fact enormous!

The collective power of those above consciousness level of 200 has the weight to counterbalance the negativity of those below 200 of the world's population – and also to raise the overall consciousness calibration of humanity! 'Power vs Force' Dr David R Hawkins P.234

|                                                 |                                        |
|-------------------------------------------------|----------------------------------------|
| One individual at level 700 MoC counterbalances | 70 million individuals below level 200 |
| One individual at level 600 MoC counterbalances | 10 million individuals below level 200 |
| One individual at level 500 MoC counterbalances | 750,000 individuals below level 200    |
| One individual at level 400 MoC counterbalances | 400,000 individuals below level 200    |
| One individual at level 300 MoC counterbalances | 90,000 individuals below level 200     |

Until humanity begins to embrace their feelings, that is, accept and follow their feelings having their minds to follow in implementing what our feelings are prompting us to consider, then the malaise, the status quo of a hellish existence, will continue. We cannot bridge the glass ceiling of MoC 499 while living mind-centric. Universal, open and free, feelings orientated education worldwide is to be made available to bring about the awareness of living feelings first so that those who embrace can put aside the psychic barriers, the norms of generations gone by, and grow in truth and love thus lifting humanity out of the rebellion and default conditions that have prevailed for 200,000 years.

# Generational Stagnation Cycle to be put Aside

The Mind Way – rejecting the truth of our self by denying feelings, and being restricted forever to a consciousness level of our parents, as they were to their parents and the hundreds of generations preceding. Thus, we find more than 75% of all people living today with a consciousness level that prevailed more than 2,000 years ago!

We each are a mirror reflection of the emotional injuries and errors of belief as of our parents.

We go to school only to be confronted by teachers and educators who are only imposing upon us their personal life and family environment of perpetuated consciousness stagnation.

Then we become teachers and educators imposing the same errors!

All in keeping with the **outworking of the Rebellion and Default**. Humanity is so shut off to anything that one's feelings provide, we are all but minds robotically carrying out instructions; nothing is fluid, intuitive nor feeling-free. Our whole world can't change as it is, because everyone and everything is so bogged down in the mire of artificial laws and procedures.

**WE'VE BEEN SCREWED BY  
LUCIFER REBELLION**

Now that the prison door has been opened, we may each may embrace The Feeling Way – uncover the truth of our feelings and grow in truth and love. Spontaneity and vibrancy unfolds as our feelings are always in truth, whereas our mind cannot discern truth from falsehood and is addicted to untruth and control of others.

Only through the opening of curriculums to feelings and bringing this awareness to children, and also the parents of students, that we can escape the entrapment into dormancy and suppression that has been imposed by controllers many thousands of years ago.

Only through embracing our feelings, longing to know what they are prompting us to understand, then by talking them out to a companion what our feelings are, both good and bad, that we put aside the injuries and errors imposed upon us throughout our childhood. We are to express our feelings emotionally and at the same time ask, long, beg to know the truth behind our feelings. We will be 'told' and we will escape from the entrapment and grow in our personal consciousness.

Map of Consciousness MoC

This a classroom of students with their annual photo anywhere in the world in any year, yet this is what we can determine through this annual record:

The overall consciousness level of the class can be calibrated using kinesiology muscle testing in conjunction with Dr David R Hawkins' Map of Consciousness (MoC). Then each child can be individually calibrated. Further, you then can determine which parent the child is aligned with, M for mother and F for father. That is actually also telling you the calibration of the parent to which the child is more aligned with than the other. When you get an alignment with both (B) parents then you are understanding that the calibration of consciousness (MoC) of both parents is similar.

Understanding the parents' calibrations as well as getting to know the parents then you can easily outline the child's health issues as they will unfold through life, the child's potential financial welfare, the child's social issues and their probable life experience. This potential changes positively in a dramatic fashion should the child begin to become aware and embrace living feelings first.

# Childhood Suppression is the elephant in the room!

**The CHILD is to FREELY EXPRESS ITSELF:** Messages from Mary and Jesus 13 May 2003

Mary Magdalene:

**The greatest gift you can give your child, is allowing it to be freely able to express itself, helping it to feel good about being able to say and express and communicate all it feels. THERE IS NOTHING BETTER FOR A CHILD TO FEEL THAN KNOWING ITS PARENTS COMPLETELY WANT IT TO BE EXACTLY HOW IT FEELS IT WANTS TO BE. To be completely unconditionally accepted for all that it is. Then it feels loved.**

**GOLDEN RULE PERTAINING to CHILDREN:** Messages from Mary and Jesus – Jesus 6 April 2003

We cannot under any circumstances break the Golden Rule: **we cannot impose our will on another forcefully subjecting others to do what we want, even if it is our own little child.** We can, by all means, make respectful offerings of our ways, beliefs and opinions, leaving the onus on the other person to make up their own mind, but once we start intruding we are stepping over the line and that incurs a penalty.

This is the problem we are all saturated with: being coerced and threatened to do everything we do. It is how most parent's parent, coercing and threatening their children so as to get them to do what they want, all so they can maintain their power and control over them. The parent is completely interfering with its child's freedom to express itself.

**As a parent we cannot know one moment to the next how our child should be. It will show you how it will be, not you showing it how it will be. And we need to allow it to show us with as little interference as possible. And this will be a great challenge for parents to face.** The Church and all such systems – our whole world – is for adults, not for children; our world is anti-children, most of what we do is anti-children, even when we believe we are doing it for their good and doing it lovingly. It is not a loving system and it can't be. It can only do what was done to us, and as we weren't loved truly by our parents, then that is the world we know and the world we will create and the world we will choose to live in. The delusion is that we have been led to believe that the world is good and right and true, at least the world we are participating in, but it's not, and this is what our healing will make us see.

# Childhood Suppression

The soul does it all.  
The soul is a duplex,  
two personalities being  
manifested into the  
physical by our soul.

Soul light continually  
flows from the soul  
through our spirit body  
levels and into our  
physical.

Return light being the  
experiences of our  
physical existence.

## Soul

Childhood suppression  
imposed upon us by our  
parents and carers  
causes retarded light to  
return to our soul  
bringing about  
imbalance, reflecting  
emotional injuries and  
errors of belief. This  
imbalance is the cause  
of all our difficulties  
throughout our adult life  
and also all of our health  
issues.

## SPRIT BODY

Brennan Model of the 7 Levels of the Human Energy Field

Every experience is recorded through the light returning through our spirit body and back to our soul. What emotional injuries we experience, commencing from conception, has to be expressed emotionally to heal the imbalance in soul light so that harmony and health can be achieved in our spirit and physical bodies. Childhood Suppression is the underlying cause of disease, illness, etc.

# Childhood Suppression

Childhood Suppression – from conception to age six years – harmfully encrusts the soul, thus impeding light flow throughout all seven layers of the spirit body, damaging the genes within the spirit body which in turn damages the genes in the physical body, as well as setting the pattern for all of our physical health issues throughout our lives.

## SPRIT BODY

Brennan Model of the 7 Levels of the Human Energy Field

The spirit etheric body is the template for our physical body, however, no health care system or science considers that the underlying cause of any health issues are formed through our Childhood Repression and that no physical healing occurs without expressing our childhood suppressions, being feelings both good and bad and then longing for the truth behind these injuries. Medicine may suppress the pain – it does not and cannot cure – vaccines are extreme physical suppressions!

**The pain from ANY illness will not exceed the pain experienced during our Childhood Suppression!**

## EARLY CHILDHOOD SUPPRESSION of our WILL SETS the PATTERN of OUR LIFE!

Samantha is the first person in history to have fully healed herself of her childhood suppression. She is showing the way.

I felt like this most of the time throughout my life; with my parents, boyfriends, husbands, children and most of life's situations. Trapped and overwhelmed by my feelings that I just couldn't express. I was imprisoned by my denied and suppressed feelings; tied up in knots with the pain of not being free to vocalise how I felt, in fear of upsetting someone and having to feel their anger towards me for feeling the way I do.

I just couldn't be truthful with others about how I felt, keeping them happy was my safe option, but at the same time, this was crippling me on every level. My parents never allowed me to express my feelings openly with them. I wasn't allowed to show any anger or disagreement with them. I had to obey their will and to a certain extent be seen and not heard. This paved the way for the rest of my life.

Everybody in my life became my parents, it was always their will, over mine. They were more important than me and the default programme that had been created by my parents, ran through my whole life. I was trapped in the prison of putting everyone's will, before my own, terrified to be myself, terrified to express my own will in fear of upsetting someone and feeling their anger and hatred of me.

I found Divine Love Spirituality and it all changed. I found the courage, through Feeling-Healing, to accept, express and find the truth of my denied and suppressed feelings. I discovered how longing for God's Divine Love would help to set me free.

SAMIA

[Divinelovesp.weebly.com](http://Divinelovesp.weebly.com)

Our childhood suppression sets the pattern of our health experiences that are to unfold throughout our entire life, our relationship experiences, our prosperity and lack of, all that we endure, all unfolds from what we endure from conception through to our sixth year when our Indwelling Spirit arrives.

**EMOTIONS affect SPECIFIC ORGANS:**

Emotional injuries and held errors have specific energy signatures and vibrations. So does each part of our physical body. Errors held within one's mind affect the flow of energies through one's spirit body, the spirit body is the template of the physical body. The resulting energy flow constrictions then initiate issues, and then pain, and then illnesses within the physical body.

## MEDICAL PROCEDURES and RESEARCH

**Sometimes You Can Find a Needle in a Hay Stack!**

**While traditional allopathy medical research focuses only upon the physical body to resolve illness events and health issues, they continue to be like blindfolded mechanics endeavouring to repair motor vehicles.**

**The physical body is animated by the spirit body, and in turn the spirit body is animated by our soul. The spirit body is of much finer substance than the physical body, and the soul is of an even finer substance, hence research technology in the physical world cannot comprehend these bodies.**

**Our soul and spirit body is the home of our emotional injuries and errors. These emotional issues create fissures and damage within our spirit body. Subsequently the injuries within our spirit body generate illness within our physical body, corresponding to the location in the spirit body.**

**Illness is generated by our mind, however, healing is generated by our soul. Releasing the emotional injuries eventually heals the physical.**

# generations

**OUR BLOCKED EMOTIONS FLOW DOWN FROM GENERATION to GENERATION:**

**Childhood illnesses, and illnesses of baby within the womb, stems from blocked emotions passed down from generation to generation, resulting in malfunctions in the foetus.**

**We are a product of all that has come before us.**

**Our own soul condition is reflected in our children.**

**To assist baby, as well as our self, work and pray to express our blocked emotions.**

**Clearing our negative emotions – Feeling Healing – grows our soul condition as well as that of our children.**

**Baby's body, when conceived, is always perfect. Their soul condition is also perfect.**

### GENERATIONAL TRANSFER of EMOTIONAL BLOCKS and INJURY:

As children we are conceived taking on the denial of the seven Mansion Worlds which is passed onto us through our parents and carers. We absorb our parent's emotional injuries and their soul condition, which can typically reflect more of one or the other parent, however both parents' input is of equal importance. As children we continue to mirror our parents' soul condition until we leave home. When we decide to heal our childhood suppression and ongoing repression, we then have to systematically work through all seven worlds of feeling-denial, healing all the unloving influences from our parents. This is doing our Feeling Healing.

In turn, we are a reflection of our parents' soul condition, and their parents' soul condition and so on back through the generations. We can break this cycle by working on our own soul condition, feeling our emotions and expressing our fears and blockages while seeking truth.

These emotional blockages and injuries frequently manifest in our children as illnesses, even before birth or shortly thereafter. It is the accumulation and combination of issues held by past generations that insidiously manifest as life threatening illness episodes within unborn and new born babies. Parents through their own healing can lift illness from their children! Thus, to assist our children, we must firstly resolve emotional issues within ourselves. General emotional injuries or blockages manifest as various health issues. Thus, an illness episode or pain can be generally related to parents' emotional issues.

## **OUR INDUCTION into PHYSICAL LIFE:**

**At our conception, we are welcomed by a relentless infusion of errors and injuries, unknowingly, carried by our parents and carers!**

**Our physical parents do not realise that even before our incarnation we have taken on board their combined emotional errors and misbeliefs. We are now suffering their pain!**

**We are conceived perfect. Our childhood illnesses, deformities and personality distortions are all a cocktail of their injuries. The onslaught is so great that worldwide around 25 million miscarriages occur annually.**

**Only by embracing Feeling Healing will miscarriages, deformities, childhood illnesses and abortions abate worldwide – and then childhood delinquencies will also abate.**

## The VOYAGE for KIDS with LIVING FEELINGS FIRST:

What Do Kids Feel Sad About?

**Being Unloved and Rejected!**

# FEELING HEALING for Kids

We, as parents, endeavour to impose upon our children the personality we desire, in the same manner as our parents did to us, thus perpetuating century old cycles. We substitute the personality that our Heavenly Mother and Father have vested our children with, thus suppressing our children's free will. Through Voyage for Kids with Feeling Healing we are able to bring about Living Feelings First. One can begin to live true to themselves and express their true personality. We are too long for the truth behind our feelings, both good and bad, and express our feelings to a friend, thus steadily shedding our childhood repression and suppression. In this way we will end the cycle of humanity retardation and become free to be whom we truly are.

**Celestial Truth:**

Truly all-loving;  
 Living true to oneself;  
 Mind supporting Feelings;  
 Living with the Divine Love;  
 Fully Healed of the Rebellion and Default.

### **THE FEELING WAY**

Feeling – Ascendence  
 Unlimited progression

- Living true to your untruth;
- Honouring all your bad feelings;
- Expressing feelings to uncover their truth;
- Healing the Rebellion and Default within yourself;
- Feeling unloved; being unloving;
- Feeling as bad as you can feel;
- Feeling like you are no one special;
- Longing for the Divine Love.

All religions, New Age, agnostic,  
 atheists, no spiritual interest,  
 Living the Rebellion and Default.

Hell:  
 Exploiting the Rebellion and Default.

## **The CHOICE is OURS to MAKE:**

### **THE MIND WAY**

Mind – Transcendence  
 Limited progression

- Enlightenment, Nirvana, feeling all-loving;
- All false, mind-contrived. Anti-truth, anti-love;
- Still evolving the Rebellion and Default within yourself;
- Feeling and believing you are the Superior One;
- Living with your mind in control of your feelings;
- Living rejecting all your bad feelings;
- Living with your mind contriving you feel loved;
- Rejecting the Divine Love.

The Feelings are the doer; the Mind the teller. So we are to go with our feelings, which we can't be told to do with our mind. So the longing for the Divine Love, doing our Healing by expressing our feelings and longing for their truth, are all feelings and doing it with longing. Whereas the mind just wants to tell us what to do and how to be, no feelings in it, all how our parents have treated us.

## Our FEELINGS are our SUPREME GUIDES:

**Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides.** Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings.** Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings. Kevin 26 September 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

### **Using our feelings to uncover the whole truth of our negative or anti truth and anti-love state.**

Kevin, 1<sup>st</sup> Celestial Heaven: **So whilst we're of an untrue state, then all we have got to help us understand why we feel bad, why we are wrong, why we are negative and anti-love and truth, is our feelings.** So if we focus on our bad feelings, they will lead us to the truth of why we're feeling bad. Which will be the truth of what happened to us to make us be this wrong way, and how we took on the wrong way and keep it going making us feel bad.

## **FEELING HEALING**

**Note:** The vital difference between emotion and feeling is that emotions have their roots in the past, and feelings relate to the present moment. Emotions represent our feelings which were not previously expressed, and these accumulate with time.

**Note:** Our feelings are soul-based. Our soul is always in truth. It is our soul based feelings, that when allowed to be freely recognised, we will begin to express and be who we are. This takes time and perseverance as we have encrusted our souls with layers upon layers of errors and false beliefs, it is these layers that will confuse the truth that our soul is conveying to us. Only by our progression with our Feeling Healing will our soul's expression of truth become clear and free of all cloudiness and contamination.

“What our soul needs in accordance with our own, individual, **Soul-Light-Plan-Of-Destiny** (your life's true destiny plan), They, being our Mother and Father, will give you as required. The only way we can know truly what we need is to honour and follow our true feelings. They, springing from our soul, literally telling us what we need, and so when we genuinely feel we need something, we apply our will to get it. The hard part is knowing if our feelings are true, and until we have done our whole soul-healing, they won't be clear and totally true.” James – Introduction Course to Divine Love Spirituality

**The CHILD is to FREELY EXPRESS ITSELF:** Messages from Mary and Jesus 13 May 2003

Mary: The greatest gift you can give your child, is allowing it to be freely able to express itself, helping it to feel good about being able to say and express and communicate all it feels. THERE IS NOTHING BETTER FOR A CHILD TO FEEL THAN KNOWING ITS PARENTS COMPLETELY WANT IT TO BE EXACTLY HOW IT FEELS IT WANTS TO BE. To be completely unconditionally accepted for all that it is. Then it feels loved.

This is how we are also to be, as adults!

**To liberate one's real self, one's will, being one's soul, is begun by embracing Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.**

Firstly, consider discovering the truth of your emotional pain through Feeling Healing. Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing. Primary and most important readings are the writings of James Moncrief. Then consider the Padgett Messages, and then The Urantia Book.

Once humanity collectively understands what has happened to them on the higher spiritual level, how the people have been controlled, and that it's over, that control is no longer controlling, it's just legacies of it, all of which the average person can deal with by destroying it in themselves, things will change markedly for the better. And as the people change, so too will how they want to live, it will be a great time of revolution, nothing will be the same. So what you are currently living through is the end of the Rebellion and Default, it literally is, and so once the end is fulfilled and the New starts, then all how it currently is and has been will cease to be.

Nanna Beth (John's grandmother) 3<sup>rd</sup> Celestial Heaven 20 March 2018

# ENOUGH IS ENOUGH

Andon and Fonta, our first parents to long for our Heavenly Parents, lived nearly 1,000,000 years ago. Naïve humanity was seduced by high spirits, the Lucifer pair, to believe they could be gods through their minds, thus men subjected women to subordination 200,000 years ago. Also added to this was the default of the Adamic pair more than 38,000 years ago when they failed in their mission.

## REBELLION & DEFAULT 200,000 YEARS

When Jesus with Mary achieved their full Regency of Nebadon, in 26 CE, they immediately had the Lucifer and Satan soulmate pairs assigned to a spirit world prison. Since then, the Creator Pair have been preparing for the ending of the Rebellion and Default for humanity of Earth. The Avonal Pair now on Earth, once commencing their Healing, brought about the imprisonment of the Caligastia and Daligastia pairs in the early 1990s. As the Avonal Pair advanced with their Healing they brought about the formal end of the Rebellion and Default, on 31 January 2018. It is now for all of humanity to embrace the Spirits of Truth of the Avonal Pair and undertake their healing of the imposts of the Rebellion and Default.

## Avonal AGE 1,000 YEARS

Spirits of Truth of the Avonal Pair will guide us through our Feeling Healing and into the Celestial Heavens with Divine Love, then the Spirits of Truth of the Creator Pair will lead us through the Celestial Heavens and out through Nebadon towards our Heavenly Mother and Father in Paradise.

Each generation of 25 years or so will see marginal embracement of Feeling Healing, however in 1,000 years it will achieve universality.

A few will complete their healing during their lifetime, but for many it will be incremental.

Universality of Feeling Healing with Divine Love will see the mitigation of discomfort, pain and illness as well as the imposts of global warming and Earth changes. These events are to ensure that each of us embrace our feelings, both good and bad, down to the very core, so that we fully come to know who we truly are. Sciences will endeavour to remove pain only to see disease manifest in different forms. Earth disturbances are a result of the Harmonic Convergence of the late 1980s, increasing the rotation of the Earth's central core. This will only abate when humanity has universally embraced Feeling Healing. These influences are only imposed upon us so that we do not step back into the Rebellion and Default through complacency. Live Feelings First so that we become the true personalities we are, that being daughters and sons of our Heavenly Mother and Father.

# Arvonal Revelation . We are to live Feelings First.

- We've been made to use our mind to live against many of our feelings.
- Our mind control commences at conception and is developed through our childhood.
- All the bad feelings we didn't express as we were growing up are still repressed inside us.
- And all such hidden, buried and unwanted feelings have to come out.
- And whilst they remain repressed within us, they will continue to make us feel bad and unloved.
- We get sick, depressed, suffer, have bad things happen to us because of our repressed childhood feelings.
- Humanity was brought into this state of living against itself by higher rebellious spirits.
- These Evil Ones caused the Rebellion and Default.
- We are made to rebel by default – as we have no idea we're doing it through our parenting in wrongness.
- We are all parented unlovingly – against ourselves, against our will.
- Some parenting in the wrongness is done with more love, yet it's all still wrong.
- To heal this unloving state within ourselves we have to do our Healing.
- Our Healing is our Feeling-Healing or Soul-Healing with the Divine Love.
- We can long to God for Their Divine Love, and this will help us with our Healing.
- God is our Heavenly Mother and Father, the Feminine Aspects of God having been kept hidden from us by the Evil Spirits.
- All humanity's religions and spiritual systems are designed to keep the wrongness going, to keep us away from God.
- Only by living Feelings First Spirituality, The New Way, can you become right, and truly find God.
- Long for the Divine Love.
- Long for the Truth of your Feelings.
- Accepting all you feel is accepting all of yourself, it's your greatest act of self-love.
- And wanting to know the truth of your feelings, is your next greatest act of self-love.
- Love yourself through your feeling-acceptance, and the Truth will set you Free!

## Suppression and its Repression:

18 March 2018

We are all living untrue to ourselves. All we do is wrong, even though mostly we believe it is right.

We are living untrue as shown by the denial of many feelings. We don't accept them, particularly our bad ones. And this feeling denial, suppression and repression, causes all our problems.

All pain, suffering, fear, anger, guilt, depression, misery, sadness, feeling alone and lonely, feeling rejected, unwanted, uncared about, unloved, feeling will-less and powerless and unhappy and frustrated because we can't assert ourselves lovingly in life, are all the sorts of bad feelings we do everything we can to deny. And it's the ongoing suppression and rejection of these feelings that cause all our illnesses, problems, relationship difficulties, all that's wrong with us both personally and generally in society.

Right from conception we're all inducted forcibly – against our will – into such feeling-denying systems, we take it on, doing what our parents have taught us, thereby continuing to keep all our childhood pain and bad feelings repressed. And as adults, life cycles us through our various experiences in accordance with these early life established patterns all so we can keep feeling those same bad feelings and keep denying them. And this is our rebelling against ourselves by living untrue to all we feel, all of which we do unknowingly, which is by default.

And the healing of this negative, unloving, anti-self condition can only be done by doing one's Healing, which is Feeling-Healing, or your Soul-Healing with the Divine Love. (Soul-Healing being Feeling-Healing inclusive of the Divine Love.)

How one does their Feeling-Healing is by looking to their feelings for the truth they are to show you. You stop, acknowledge and thereby accept that you are feeling bad (or good), want to express that bad feeling and emotion instead of denying it, all whilst longing for and wanting to uncover the truth such feelings are to show you.

You have to want to FEEL ALL of your feelings, and especially your bad ones. And you have to want to know the whole truth of why you're feeling them.

And to uncover the whole truth of yourself through your feelings, means you are going to be led by your feelings back into the complex dynamics and psychology of the relationships with your early carers and those people who were influential during your childhood, mostly your parents: feeling now as an adult the very same feelings you felt back then that you were forced to deny. So now you end the denial and finally release and express and bring out those long ago buried feelings, all so you can see the truth of what really went on between you and those people from your early life.

Our Healing is bringing out all our repressed childhood feelings, expressing them as fully as we can, as we long for and want to see, understand and know the whole truth of what happened to us to make us have them, how we reacted to having them, how we grew and developed into adults taking on our feeling repression and denial from our parents.

And it's a long, hard process as we strive to liberate all such repressed feelings and at the same time ascend in truth understanding why we are wrong, how as adults we've expressed those unloving, negative, anti-self patterns and how we've passed them onto our own children.

Our Healing is the ONLY way out of our pain. We are to understand the truth of our unloved state. We've begun life in an anti-self and anti-love condition of mind and will, and we are to liberate, or reveal, the truth of this state to ourselves through our feelings. We are to do it ourselves and for ourselves because we want to set ourselves free of our pain. Only by uncovering the truth of that pain, can we finally be liberated from it. Uncovering the hidden (hidden in our feelings) truth, is the only way we can spiritually grow and evolve into becoming fully loving people, this being achieved when we've finished our Healing.

All the answers to humanity's age old questions about why we are not happy and why we're not living life on earth as if it were paradise, will be answered as people start to look to their feelings for the truth of themselves.

### **And to spiritually help us, we are to understand:**

That we are conceived and so born into life being of Natural love. And because we've been brought into a state of deprivation of such love, so we have to Heal ourselves to become of such pure Natural love. And once done (and we can start anytime with our Healing) we can long to God for the Divine Love. The Divine Love coming into our soul via the Holy Spirit, transforming our Natural love soul into a Divine Love soul.

So we can long to God, our Heavenly Parents, for Their Divine Love.

God is our Heavenly Mother and Father; God is one Soul expressing Two distinct Personalities, and Personalities we can get to know personally as we express the truth of our soul. We can ONLY know our Mother and Father personally through our feelings, we can't get to know them with and through our mind as many religions teach. Any truly loving relationship is expressed through feelings and not the mind, and it's no different in our relationship with God.

We are, being of the image of God, one soul that's expressing its two soulmate personalities in Creation. And we begin life at conception coming into being individualising our personality through our life experiences.

However the whole of humanity has been subjected to a high spirit Rebellion and Default, which has stuffed us up, taken us off our true spiritual path, and caused us to rebel by default against ourselves, against our own soul, and against God. So currently humanity is still living in rebellion to the higher spiritual truths, those denied truths being now readily available through feelings, and not by looking to the mind being the arch controller. The higher rebellious spirits that instigated the Rebellion and Default against the Truth, have caused humanity, have caused us all, to use our mind to control our feelings, which we do by looking to our mind to help us deny those feelings we wrongly believe are bad for us.

So our Healing is looking to end the Rebellion and Default personally within ourselves and impersonally for the whole of humanity, as we all come together understanding the dreadful plight we find ourselves in, and deciding that we no longer want to live as we do by looking to our mind though all our mind controlling religions and spiritual belief systems, choosing instead to look to our feelings for the truth they are to show us, and that will break down our controlling mind, setting us free to live true to our feelings.

And we are to understand that we have the freedom of will to live against our true selves by using our mind to control so many of our feelings. And we have the free will to end this mind control. **When we are living true to our feelings, we will be living true to the will of our soul no longer with our mind getting**

**in the way. And so too will we be living True to God's Will. We live God's Will by living fully expressing all we feel as we long for the truth of such feelings. Our feelings are to guide us in life, not our mind; our true feelings are Our Way, which is also: God's Way.**

And we can ask our Mother and Father to help us. We can long to Them to help us embrace and accept and express, and long for the truth of our feelings; and we can long to Them for Their Divine Love.

Our Heavenly Parents have started us off in Creation by incarnating us onto a rebellious planet, one in which we experience what it feels like to go against ourselves and to go against Them. They have wanted us to start life in an unloving way, to live and experience and learn what living untrue to our soul and untrue to Their Soul feels like. And how it makes us all feel bad. We are starting off our lives in Creation in an unloving environment, which some people will find difficult to understand (for within it they do feel some love), and it can also be just as difficult to accept that God wants it this way. And not only that, but God is making you be the unloving person you are, God gave you your unloving parents (and the bits that might be loving), God is purposely making you suffer, God is in control of it all; and when your time comes, God will also help you do your Healing so you can come to understand yourself through your feelings. God will reveal all to you through your feelings. All the bad and all the good. We are all to one day understand what it's all been about for ourselves – and you will, God won't let you down, God will eventually answer all your questions.

So when you feel ready, you can decide that you want to live a Feelings First life. To begin your U-Turn, to start doing your Healing, and to end your pain, suffering and feeling unloved, by looking to the truth of such bad feelings.

And through your Healing you will slowly work your way deeper into understanding the truth of your unloving self- and feeling-denying state, and then once you've uncovered the whole truth of your wrongness, then a Great Change will come to you, and you'll no longer be living according to the negative, anti-self patterns you took on from your parents, you will be completely free of the Rebellion and Default, you will have finished your Healing, so you will be true and happy and wholly loving. And best of all, then you'll start living and learning about what it feels like to live being truly self-loving, loving of others and loving your Mother and Father. All the opposite to how you are living now.

**Long for the truth of your feelings.**

**Long for the Divine Love.**

**By living true to ourselves, true to our feelings, we are living true to God. It's that simple.**

what our feelings say goes!

Feelings, good and bad, are to be expressed.

Talk it Out!

Heartfelt feelings are our truth.

Then we are to continue by longing for  
the truth that our feelings are to reveal to us!

# EMOTIONAL ERRORS are of the MIND

***WHAT ENTERS EMOTIONALLY  
IS TO BE EXPRESSED  
EMOTIONALLY WHILE LONGING  
FOR THE TRUTH TO BE KNOWN  
ABOUT WHAT IS BEING FELT!***

**Enters emotionally - is to leave emotionally!**

# TALK IT OUT

We are to express our feelings, both good and bad, and nothing is sacrosanct or to be withheld.

All that's wrong and untrue within us has to be expressed out of us, each of us, it all has to come to light for us to see the truth of. We have to know the truth of ourselves and the truth of our family relationships.

Everything needs to be expressed, to come out into the open.

What enters emotionally has to be expressed emotionally – it has to come out emotionally – leave us emotionally!

However, we are not to act upon what we are feeling emotionally! We are not to act it out! But, we are to go on and long to know the truth of what is behind our feelings, why we are having these feelings and experiences.

Long to the Mother and Father for Their Divine Love, and ask Them to help you see the truth through your feelings – that which They want you to know. Long and ask; long and pray. Pray to see, know and BE the truth, the truth of you – of all of it!

### Important Points of Feeling-Healing

- Admit you are Feeling bad.
- Accept your bad Feelings, identify what they are.
- Honour fully your bad Feelings by expressing them. Speak about them to someone who is willing to hear you talk about them, or speak them out loud to our Heavenly Parents. Long for the truth of them. Long for the truth of why you Feel bad – what deep within you is causing your bad Feelings.
- And remember, bad Feelings are good! Not bad. They are not to be despised, and as hard as it is to accept them, they are still you, and a very real part of you. If you persist in denying them, and not allowing yourself to fully live them, then you are only going to keep yourself in your errors, making things harder for yourself.
- All sickness and suffering, all bad things that happen to you, all your problems, and all of your addictions – your whole Feeling-denying and untrue life, is all caused by your denial of your bad Feelings.
- Every problem in the world is brought about because everyone has been brought up to deny Feelings, and in particular, the bad ones.

Divine Love Spirituality is a new way of living.

Finding the truth of Ourselves and God, all through our Feelings.

## **FEELING HEALING and SOUL HEALING with the DIVINE LOVE:**

**James Moncrief Publications:**

**all publications are free downloads:**

<http://divinelovesp.weebly.com/my-free-books-and-free-padgett-messages.html>

It is suggested for one to consider reading as follows:

### **Speaking with Mary Magdalene and Jesus – books 1 – 4**

These four books encapsulate the second of the revelations with the first having been introduced by James Padgett one hundred years previously. These four books provide a wide range of guidance that has never previously been made available.

### **Soul Light – books 1 and 2**

A Melchizedek, Zelmar, sums up how we are to heal ourselves and ascend to Paradise.

### **Paul – City of Light**

As a gentle intro into the Divine Love and Healing; being James Moncrief's first novel.

### **Ann and Terry**

An example for people who might want to immediately start working on themselves and doing their Healing.

### **Feeling Bad? Bad Feelings are GOOD**

For more understanding about our denial of our feelings and why we should not deny our feelings, and it includes how it all came about for James, using himself as an example.

### **Feeling bad will make you feel BETTER – Eventually!**

This includes specific examples of Marion and James working on expressing particular bad feelings, again with the hope that it will help others gain something of an idea as to what's involved in doing your Feeling Healing.

### **Sage – and the Healing Angels of Light**

Through Sage who's 13 years old, the story is primarily about the two aspects of healing; that being, with the help of our angels, and the full Healing we can do by looking to our feelings for their truth.

**Religion of Feelings  
Feeling Healing**

**Welcome to LOVE – the Religion of Feelings  
you can heal yourself through your feelings**

So these books, including the four Speaking with Mary Magdalene and Jesus books, provide the essence of it all and are examples of James' work. Then it's up to whatever takes one's fancy. Other reading to consider may include:

**The Padgett Messages being published as:**

**The True Gospel Revealed Anew by Jesus volumes 1 – 4**

**Book of Truths by Joseph Babinsky**

**The Urantia Book**

**Release one's pain through expressing one's feelings.**

**in conjunction with**

**Longing for the Truth when also longing for Divine Love.**

## **FEELING HEALING with DIVINE LOVE is SOUL HEALING:**

*A collection of 'papers' that draw together specific topics including all of the above and more from other sources of information and revelation designed to help increase one's awareness about why we have the problems we do and how to heal them, all whilst living a more healthy and sustainable life. They provide a brief snapshot of the more complicated topics and issues.*

**Firstly, consider discovering the truth of your emotional pain through Feeling Healing.  
Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing.  
Primary and most important readings are the writings of James Moncrief.  
Then consider the Padgett Messages, and then The Urantia Book.**

**This is the Great U-Turn. We are to feel and live by our feelings and express our feelings, our mind will follow in support, not the other way around.**

**Feelings First**, you can be sure about that! **Once women get that message and start living it, then the tide will really change**, with men either deciding to support them by looking to their own feelings or being left on the outer wondering what the fuss is all about.

**By living true to ourselves, true to our feelings, we are living true to God. It's that simple.**
