The Chairman's review of 2021 is an overview for Pascas Foundation (Aust) Limited's operation within Australia.

The Chairman's review of 2022 is an overview of programs envisaged in specific countries around the world – this is intended to eventually embrace every nation, one by one, around the world.

As with each nation's corporate formation, all are to be not-for-profit entities, being for the people, all the people, of that particular nation.

The overarching initiative within each country is a revelatory up-stepping in the methods of education as well as greatly increasing the country's education capacity. This is clearly moving the education sector to a profession of distinction – teaching is the profession that creates all of the other professions and trades. Thus, through the education profession we are working to resolve all the social issues within each and every nation, or at least bring about an awareness of the pathway to do so.

Considering each Pascas Foundation (nation / region) Ltd engages on average with 25 million people then 320 separate Pascas Foundation entities would be established to support 8 billion people. At a program budget of around US\$3.125 billion each for the first five years, this is already a US\$1 trillion agenda.

# PASCAS FOUNDATION (AUST) Ltd

## PASCAS FOUNDATION (Aust) Limited ABN 23 133 271 593 financial report 2021

### Chairman's Review

Pascas Foundation (Aust) Limited was incorporated as a not-for-profit organisation on 16 September 2008. We are now thirteen years young. AU\$1,560,796 has been provided for activities supported by Pascas in these past thirteen years of which AU\$210,000 being provided during this current financial year ending 30 June 2021.

In some respects, the year gone by has been frustrating, whereas, the reality is that enormous progress and clarity has unfolded on our pathway forward, which now involves the following:

The publication of the array of Pascas Papers that have been coming together this past decade and more. The publication of James Moncrief's books that are of profound importance to all of humanity. The publication of Samantha McCabe's books that are also of profound importance to all of humanity. These all are to be in multiple formats, heirloom quality, hard cover, soft cover, Braille, audio files and then in all the major languages of the world.

They are to be published electronically for access through the internet and also in multiple languages.

And then will follow the audio visual publications. This involves full length movies to documentaries. Again these are to be in all the major languages of the world. Then we have further major projects:

### Significant elements for PASCAS – PIMPAMA VILLAGE includes:

- |     |   |  |
|-----|---|--|
| 1.  | PASCAS UNIVERSITY                       | 5,000 student campus   |
| 2.  | PASCAS SANCTUARY HOSPITAL               | 300 beds, 12 operating theatres  |
| 3.  | MOVIE CITY                              | 6 studios, 4 production houses, 3D facility                                |
| 4.  | PASCAS MUSEUM – JOURNEY of HUMANITY     | 3 day visitation   |
| 5.  | SANCTUARY PARADISE VILLAGE              | accommodation and permaculture   |
| 6.  | PASCAS VILLAGE HUB                      | shopping and administration offices  |
| 7.  | PASCAS LIBRARY and COMMUNITY FACILITIES | university to public facility  |
| 8.  | PASCAS THEATRE – AUDITORIUM             | (900 seating capacity)   |
| 9.  | CHALDI TAFE COLLEGE                     | technical and further education  |
| 10. | CHALDI COLLEGE                          | primary, middle and high school  |
| 11. | CHALDI CHILD CARE CENTRE                | pre-school   |
| 12. | PASCAS PARADISE GARDENS                 | various nationalities represented  |
| 13. | SPORTING FIELDS                         | for university, school, residents and community                            |
| 14. | PASCAS VILLAGE AQUATICS                 | Olympics and world championships   |
| 15. | PASCAS CENTRE for ADVANCED TECHNOLOGIES | 20 hectare industrial research   |
| 16. | SUPER MEDICAL CLINIC                    | diagnostics and annexed to hospital  |
| 17. | PASCAS TELEVISION and INTERNET          | global communications  |
| 18. | PASCAS RESIDENCES                       | for medi-hotel, movie production, students and sanctuary                   |
| 19. | CAR PARKS                               | undercover provisioning all elements – pedestrians and bicycles considered |
| 20. | SITE WORKS                              | to set the stage and foundations for all of the above.                     |

## Summary Overview of a PASCAS PARADISE VILLAGE:

### Core elements of a Pascas Family Shelter:

1. **Paradise Village Sanctuary** – for up to 1,000 women, men and children
2. **Family Shelter** – abused women safe refuge, with or without children
3. **Adolescent’s Community Safe House** – abused children separated from parents
4. **Pascas Craft Creations** – people breaking the hold of addictions, substance abuse healing
5. **Chaldi College** – education of all ages incorporating living feelings first
6. **Pascas Community Hub** – village centre embracing all segments and local community.

It is due to our childhood suppression that we find ourselves being drawn to a:

- **Paradise Village Sanctuary – Feeling Healing**  
For the purpose to be one’s true self and freely express one’s self, to enter to pathway of being true in all aspects of one’s personality. To express the pain of not being who we truly are.
- **Family Shelter – safe from abusive partner or parents**  
Oppressive control addiction by partners or parents requires the extreme steps of establishing a new and free life in an environment safe from aggressive suppression. Again, this is beginning to express our pain and hurt from years of subjection to control by others without due respect and regard for one’s true personality.
- **Adolescent’s Community Safe House – transitioning from oppressive parents to freedom**  
Being able to leave home and be one’s true self takes time – consider two years of focused discovery and self-expression while learning how to integrate into a community.
- **Pascas Craft Creations – escaping from substance abuse**  
We do everything possible to suppress the pain of our childhood suppression. Not only do we have to heal ourselves of our addictions but ALSO heal ourselves of our childhood suppression, both through Feeling Healing.

These four pathways are delivered through on location residency and professional support.

- **Chaldi College – education from pre-school through to seniors**  
Feeling Healing and Living Feelings First is introduced to all avenues of living to everyone who are open to consider the potential that it opens for each of us.

	Total	Women	Men	Children
1. <b>Paradise Scantuary</b> may grow to a population of	<b>1,000</b>	<b>500</b>	<b>200</b>	<b>300</b>
2. <b>Family Shelter</b> family abuse refugee	<b>200</b>	<b>120</b>	<b>20</b>	<b>60</b>
3. <b>Adolescents Community</b> Safe House	<b>100</b>	<b>60</b>	<b>40</b>	
4. <b>Pascas Craft Creations Path</b> substance abuse	<b>200</b>	<b>40</b>	<b>160</b>	
<b>Permanent population</b>	<b>1,500</b>	<b>720</b>	<b>420</b>	<b>360</b>

**The residential configuration may commence with these ratios, however, adjust with need.**

<b>1 bedroom accommodation</b>	<b>30%</b>
<b>2 bedroom accommodation</b>	<b>30%</b>
<b>3 bedroom accommodation</b>	<b>30%</b>
<b>4 or more bedroom accommodation</b>	<b>10%</b>

**Further, the numbers participating in each of the four core programs may widely vary from the above without administrative difficulty due to compatible and over lapping agendas.**

### **PASCAS FAMILY SHELTERS**

Provision of Family Shelter accommodation is to be considered in modules of 10 and then of larger modules of 100. This is to bring about practical support arrangements. Support counsellors are more appropriately engaged in supporting ten women or six mothers with ten children.

When providing educating and training facilities, then the diversity of requirements tend to generate practical utilisation when supporting 100 accommodation units. **Such accommodation units maybe 1, 2, 3 or more beds. Consider a configuration of 30 x 1 bedrooms, 30 x 2 bedrooms, 30 x 3 bedrooms and then 10 units with 4 or even more bedrooms. Essentially the population per unit is not to exceed six persons all being of the one family.**

Consider a budget of AU\$50 million for 100 units with facilities being AU\$500,000 per unit.

Gold Coast City Council population is about 650,000 as of June 2021. Presently, a cluster of 100 units having a combination of 1 bedroom, 2 bedroom, 3 bedroom and larger options (housing for 300) is a priority on the Gold Coast in at least two locations. This emergency shortage relief. Brisbane City population is about 2,650,000. Priority is for six or more locations to be provided with 100 units each. Queensland overall population is more than 5,500,000. Fourteen locations need to established, each with 100 units.

A base need is one such complex for every 330,000 population, thus seventeen Shelter Housing projections would commence to mitigate the pressing need for emergency shelter for domestic violence and homelessness throughout Queensland.

Australia's population is approaching 26 million, that suggests 78 facilities (7,800 units) throughout Australia is now required and then a shortfall will still need addressing. At an average of 3 persons per unit, that equates to provision for 23,400 persons and the known shortfall is being estimated at 520,000. This agenda addresses only 5%.

**Budget AU\$500,000 per unit, a 100 unit complex budget may be AU\$50,000,000. 78 facilities would amount to AU\$3.12 billion and then add community Pascas Cafes as well as medium and smaller shelters for regional communities; then a budget of AU\$5 billion is to provide for establishment and ongoing operating costs until the facilities become financially self funding. The focus of this endeavour is to primarily address the shortfall in housing availability for domestic violence victims and non-residents.**

### **PASCAS FOOD BASKET**

One in five Australians experience food insecurity each year. Food that is rejected for various reasons by commercial outlets can be collected and made available through numerous charities via a central collection warehouse and redistribution centre. Food Bank is well known for its achievements. Pascas Food Basket

is now to be established on the Gold Coast / Tweed area to service those in need of food in amongst the population of 630,000 people.

**PASCAS is a GLOBAL OPERATION:**

**INDIA** – Through the endeavours of the Archbishop of the Church of India, Sri Lanka, Burma and Pakistan, the schools and associated assets that have been purloined by wayward clergy are being returned to their appropriate purposes through the high courts of India. Pascas is to support this endeavour.

**St Mary’s School Lucknow** – due to Covid-19, the 1,000 student campus has reduced to 200 attendees with the balance home schooling. This has decimated resources and highlighted the need for a very significant number of computers and associated assistance throughout the school and for students in their homes. Pascas is to support this endeavour.

**Lucknow School in the Muslim district** – A proposed school is to be built for 3,000 girls and 3,000 boys on a 10 hectare site, two campuses on the same site. Without such a configuration, the girls would not have school facilities. Pascas is to support this endeavour.

**Pascas Sanctuary Village** – this is a project in Uttar Pradesh through the Archbishop’s administration.

**Pascas Clinics and Hospital** – these are also under the administration of the Archbishop or as appropriate.

**PAPUA NEW GUINEA** – A major agenda for universal education throughout Papua New Guinea is to be evolved through professional educators from within PNG. Pascas supports this endeavour.

**VANUATU and SOLOMON ISLANDS** – South Pacific Business Development is to be supported in their delivery of micro-finance loans to women. This will extend throughout the Pacific Island Nations including Papua New Guinea.

There is a great deal coming together for Australia and the rest of the world that Pascas is drawing to its attention and, no doubt, the list will blossom from here.

Now is the time for Pascas to begin in earnest its long term agenda.

Aspiring to Living Feelings First

-----  
Chairman of Directors Allan James Baker

Dated 23 September 2021

# PASCAS FOUNDATION (AUST) Ltd

**PASCAS FOUNDATION (Aust) Limited ABN 23 133 271 593 financial report 2022**

## **Chairman's Review**

Pascas Foundation (Aust) Limited was incorporated as a not-for-profit organisation on 16 September 2008. We are now fourteen years young. AU\$1,770,796 has been provided for activities supported by Pascas in these past fourteen years of which a further AU\$210,000 was provided during this current financial year ending 30 June 2022.

Last year, we outlined the major aspects of what will unfold as a Pascas world headquarters. We referred to it as PASCAS – Pimpama Village.

PASCAS – Paradise Village is an adjunct for the world headquarters. Paradise Village is to be a residential arrangement for those who intend to focus and live feelings orientated.

In recent months, we have explored and structured agendas for several nations. This is devastating in how raw and difficult are the circumstances prevailing within nations that are clearly unique to themselves. When we ask the people of each of these nations what they perceive as needed, they cannot identify their needs. It is as though they cannot see the forest because of the trees. They live within the turmoil and crisis and yet accept it all as being normal – and it is to them.

## **Pascas Foundation (Papua New Guinea) Ltd:**

### **PAPUA NEW GUINEA Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b>		<b>NURSES &amp; MIDWIVES</b>		<b>TEACHER / STUDENT</b>	
	per 1,000 people		per 1,000 people		<b>ratio</b>	
Papua New Guinea	2019	<b>0.1</b>	2019	<b>0.5</b>	2016	<b>36</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

Papua New Guinea's population median age is 22.4 years and the overall Map of Consciousness is 202.

Their education system needs to be doubled in size and then doubled again – as also their health services.

All facets of communication throughout PNG are problematic. Though an island nation with most living on the mainland, the road system is not complete with many regions only accessible by canoe or on foot. There are many tribal groupings and hundreds of languages. Electric power is limited and often in short supply. Thus, we have an ethos of living in survival mode and, corruption thrives.

The national psychic barrier of tribal traditions and suspicions is evident in many unique ways within every province throughout PNG. These barriers need to be addressed – this will take time.

Worldwide, missionaries lifted the people but then development stagnated, their contribution for those they assisted is reflected in MoC of around only 220. Australia calibrates overall at 410. Australia is not a benchmark for the world, however, it is a reference point. Australia has a great deal of issues that it is also to resolve, like every other nation on Earth.

Open and universally free education is to be provided throughout PNG. This is to be free of any direct religion institutional involvement, free from governmental restraints, with the focus being upon the needs of the people for them to evolve and prosper.

#### **Pascas Foundation (Solomon Islands) Ltd:**

##### **SOLOMON ISLANDS Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b>		<b>NURSES &amp; MIDWIVES</b>		<b>TEACHER / STUDENT</b>	
	per 1,000 people		per 1,000 people		<b>ratio</b>	
Solomon Islands	2016	<b>0.2</b>	2018	<b>2.2</b>	2018	<b>25</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

Solomon Islands' median age is 22.5 years and the overall Map of Consciousness is 220.

Again, the workforce is a small percentage with children dominating the population.

The Solomon Islands consist of six major and approximately 900 smaller volcanic islands, coral atolls and reefs, more than 300 of them are inhabited. Thus, boating is the major transportation and this is costly and random in availability. Commercialisation of cottage / village industries has been fragmented and limited.

Traditions and customs reflect psychic barriers that are unique to the nation of the Solomon Islands.

Education services needs to be doubled and through a comprehensive education network embracing the needs of children as well as adults, then the shortages in all professions, particularly health, can start to be addressed.

#### **Pascas Foundation (Ukraine) Ltd:**

##### **UKRAINE Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b>		<b>NURSES &amp; MIDWIVES</b>		<b>TEACHER / STUDENT</b>	
	per 1,000 people		per 1,000 people		<b>ratio</b>	
Ukraine	2018	<b>3.0</b>	2018	<b>6.6</b>	2018	<b>13</b>
Germany	2018	4.3	2018	13.5	2017	12
Australia	2018	3.8	2019	13.2	1999	18

Ukraine's median age is 41.2 years and the overall Map of Consciousness is 330.

**Over 2,000** schools, 500 cultural sites destroyed in Ukraine – Ukraine Defense Ministry (5 August 2022). According to Ukraine's health ministry, **746 medical facilities have been damaged** by Russian attacks since 24 February 2022 — an additional **123 facilities have been completely destroyed** (28 July 2022).

The insane bear is still in town and the mayhem now appears to be a war of attrition with no ending until both sides are exhausted. The damage to both Russia and Ukraine will be enduring.

The high median age of Ukraine is why you see so many soldiers with white beards!

70,000 children were in orphanages before the commencement of the war. Their needs are a priority to be addressed. The existing budget provided per child per day for food is US\$1.53, for medical per month is US\$0.61, and for clothing, etc., is US\$0 per quarter. This is to be supplemented with US\$10 per day for food, US\$285 per month for medical support, and US\$250 for clothing, etc. There is a great deal needed to repair buildings and to address heating issues.

Until the conflict abates, this is a holding situation. The inherent issues throughout Ukraine are now escalating as the destruction unfolds.

**Pascas Foundation (Angola) Ltd:****ANGOLA Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b>		<b>NURSES &amp; MIDWIVES</b>		<b>TEACHER / STUDENT</b>	
	per 1,000 people		per 1,000 people			<b>ratio</b>
Angola	2017	<b>0.2</b>	2018	<b>0.4</b>	2015	<b>50</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

Angola's median age is 16.7 years and the overall Map of Consciousness is 80.

The **Angolan War of Independence** (1961–1974) was followed by the **Angolan Civil War** beginning in 1975 and continuing, with interludes, until 2002. More than forty years of internal conflict has left the population of Angola with a legacy that requires lifting the people out of conditions that prevailed 600 years before the time of Christ of the 1<sup>st</sup> century – at that time the world consciousness was 80!

Due to the extra-ordinary high number of children, there are few with experience and leadership skills to provide for the children, let alone lift the availability and quality of any of the sectors of the nation's economy.

Focus for Angola, for the individual:

Potable water throughout the nation. Sanitation for all homes. Food security. Free and open education for all. Medical clinics in reasonable access. Family planning to be a focus for the medical centres. Hospitals equipped with diagnostic services and operating facilities comparable to institutions worldwide.

Required for the nation:

Hydro-electric power on a scale that not only is reliable but services all people and industries throughout the nation. Then go on and expand the hydro-electric production to export electricity to nations throughout out Africa as far north as the equator. This is to be a national revenue stream for Angola and its people. Presently, **less than 20% of potential hydro power is developed or being developed.**

**Pascas Foundation (India) Ltd:****INDIA Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b>		<b>NURSES &amp; MIDWIVES</b>		<b>TEACHER / STUDENT</b>	
	per 1,000 people		per 1,000 people			<b>ratio</b>
India	2017	<b>1.34</b>	2019	<b>2.4</b>	2017	<b>33</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

India's medium age is 28.7 years and the overall Map of Consciousness is 325.

#	<b>Literate Population 2011</b>	<b>Literacy Rate 2011</b>	<b>Literacy Rate 2021</b>
Persons	763,498,517	72.99%	77.70%
Males	434,683,779	80.89%	84.70%
Females	328,814,738	64.64%	70.30%

School enrolment, secondary, female (% gross) in India was reported at **75.28 %** in 2020, according to the World Bank collection of development indicators, compiled from officially recognised sources. **More than 50%** of girls fail to enrol in school; those that do are likely to drop out by the age of 12. 50% of Indian children aged 6-18 do not go to school. 17 million children in India work as per official estimates.

The caste system, dating back to 1200 BCE, or much further, is a form of discrimination that had been officially outlawed in 1955; however, its influence thrives in India's modern-day education system. On the top of the system is a group called the Brahmins, and at the very bottom are Dalits ("untouchables"). This method has kept many Dalit girls secluded from promising scholastic endeavours. These children are often from their peers segregated during lunchtime and ridiculed by them in class. This rhetoric causes 51% of Dalit children to drop out of elementary school. Another law passed in 1989 was supposed to protect the Dalit caste, but it is not being sufficiently enforced. More than 30% of India's population embrace the caste system.

The survey finds that three-in-ten Indians (30%) identify themselves as members of General Category castes.

The caste system of India is a demonstration of Childhood Suppression on a grand scale firmly entrenched into the dogmas of national religions. This is institutionalised Childhood Suppression through major religions. Its anchor is in the false belief of reincarnation which never happens, cannot happen, is a most unloving belief and a gross error of teachings.

The suppression of women throughout India is readily recognised in population statistics. There is an imbalance with maybe 60 million girls missing due to infanticide.

The Caste System is truly a national psychic barrier that needs to be confronted and addressed. Education is the paramount pathway in addressing all the major issues throughout India's societies.

### Summary:

The nations that we have completed a review of and the nations we are to work with are all unique in their dispositions and conditions. We are observing a great diversity of current situations and also uniqueness in the style of psychic barriers applicable to each nation, all of which will require long term attention to enable the population and subsequently the nation to put aside and evolve beyond these limitations.

The pathway forward for each nation is oddly the same! Clearly, education is to become a profession, rather than a trade. The unique skills of educators who come to embrace the New Way of living feelings first, embracing one's feelings first and having our minds to follow in support, to engage in feeling healing, will require recognition and acknowledgement. Nevertheless, nothing unfolds without education. None of the professions exist without education. The family home crafts do not pass down through the generations without education. And the greatest educator is the doing of what is involved – not the listening to a lecture. Tutoring each other needs to become a national mantra and practice.

We now can recognise that every institutionalised custom, practice and system is subjected to the covert manipulation of hidden controllers and all needs to be dismantled and the truth embraced with the new.

Medicine has recognised more than 10,000 'diseases' and only 'cures' for 500. In fact, Childhood Suppression, commencing at conception and concluding around the age of 6 years, is the underlying cause of all discomfort, pain, illness, disease, childbirth deformities and disease in the child prior and post birth.

While we live mind centric, we are entombing our personality and potential in a steel wrecking ball with no way to evolve beyond 499 on Dr David R Hawkins' Map of Consciousness. This is why we have such an incredible array of insanity being displayed and demonstrated worldwide.

What Pascas is to share worldwide is the pathway beyond MoC 500 and how we are all to evolve here on Earth and beyond. This is the gift now revealed for all of Earth's humanity.

Now is the time for Pascas to begin in earnest its long term agenda. Benchmarking education in each nation is a goal for each Pascas University to be established within every nations.

# PASCAS FOUNDATION (Angola) Ltd

## EXECUTIVE SUMMARY

### THE PRODUCT:

Angola's population is significant (approximately 35,100,000) with 23.5 million people living in urban (67%) regions of Angola as of 2021, while the rural (33%) population exceeded 11.5 million. Angola has 1 city (Luanda) with more than a million people, 6 cities with between 100,000 and 1 million people, and 23 cities with between 10,000 and 100,000 people. .

The product is the consequence of need. The population of Angola calibrates around 80 on Dr David R Hawkins' Map of Consciousness (MoC) scale which is based on the common log of 10. The world population overall is 220 and Australia is 410 MoC.

The **Angolan War of Independence** (1961–1974), began as an uprising against forced cultivation of cotton, and it became a multi-faction struggle for the control of Portugal's overseas province of Angola among three nationalist movements and a separatist movement. It was a guerrilla war in which the Portuguese army and security forces waged a counter-insurgency campaign against armed groups mostly dispersed across sparsely populated areas of the vast Angolan countryside. Many atrocities were committed by all forces involved in the conflict. In the end, the Portuguese achieved overall military victory.

In Angola, after the Portuguese withdrew, an armed conflict broke out among the nationalist movements. This war formally came to an end in January 1975. Informally, this civil war resumed by May 1975, including street fighting in Luanda and the surrounding countryside.

The **Angolan Civil War** was a civil war in Angola, beginning in 1975 and continuing, with interludes, until 2002. The war immediately began after Angola became independent from Portugal in November 1975. The war was a power struggle between two former anti-colonial guerrilla movements, the communist People's Movement for the Liberation of Angola (MPLA) and the turned anti-communist National Union for the Total Independence of Angola (UNITA). The war was used as a surrogate battleground for the Cold War by rival states such as the Soviet Union, Cuba, South Africa, and the United States. (Forty years of national conflict!)

**José Eduardo dos Santos** was the president of Angola from 1979 to 2017. As president, dos Santos was also the commander-in-chief of the Angolan Armed Forces (FAA) and president of the People's Movement for the Liberation of Angola (MPLA), the party that has ruled Angola since it won independence in 1975. He was the second-longest-serving president in Africa.

**João Manuel Gonçalves Lourenço**, is an Angolan politician who has served as the president of Angola since 26 September 2017. Previously, he was Minister of Defence from 2014 to 2017. In September 2018, he became the Chairman of the People's Movement for the Liberation of Angola (MPLA), the ruling party.

Conflict throughout the nation for forty years has resulted in infrastructure either destroyed or left in disrepair. Land mines continue to inflict harm with many children killed annually. All social services are inadequate and national infrastructure is decades behind in development.

Open and free education from primary schooling, through high schooling, technical and further education (colleges) and then university can only be the driver of any society's progress and development – particularly that of Angola. Open and free to all is to be the benchmark. But what little there is in Angola, it is presently mind-centric whereas feeling orientation opens the potential for a far faster development in growth and truth for all engaged.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 MoC. High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, also, our minds are addicted to control of the environment and of others. Consequently, more than 92% of the time we are at war!

FEELINGS are our Supreme Guide!

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (Angola) Ltd is a not-for-profit charity being set up through the Registrar of Companies for Angola. Typically, charitable organisation, naturally, are exempt from taxation by VAT, income and corporate tax. All funds received by a charitable organisation that was used for charity purposes are exempt from taxation. But it requires to obtain a status of a non-profit at the tax authority. Ministry of taxation or justice are the main registration authority for charitable organisation constitution.

Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (Angola) Ltd is being established as a humanitarian entity for all of the people of the Angola and it will be managed by the people of Angola.

## MARKETS & COMPETITION:

### ANGOLA Doctors Nurses Teachers Ratios

	DOCTORS		NURSES & MIDWIVES		TEACHER / STUDENT	
	per 1,000 people		per 1,000 people		ratio	
Angola	2017	<b>0.2</b>	2018	<b>0.4</b>	2015	<b>50</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

Should we work to facilitate the doubling of the number doctors throughout Angola and then double that again, we have barely addressed the shortage.

Should we work to facilitate the doubling of the number of nurses and midwives throughout Angola and then double that again, we have barely addressed the shortage.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture from the front of the room to students tutoring each other, both of these greatly advance learning potential.

All education facilities throughout Angola have, through civil unrest, become grossly inadequate creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout the education and health sectors.

### MAJOR FOCUS for ANGOLA

For the individual:

Potable water throughout the nation. Sanitation for all homes. Food security. Free and open education for all. Medical clinics in reasonable access. Family planning to be a focus for the medical centres. Hospitals and they being equipped with diagnostic services and operating facilities comparable to institutions worldwide.

This requires for the nation:

Hydro-electric power on a scale that not only is reliable but services all the people and industries throughout the nation. Then go on and expand the hydro-electric production to export electricity to nations throughout Africa as far north as the equator. This to be a national revenue stream for Angola and its people. Presently, **less than 20% of potential hydro power is developed or being developed.**

Re-instate to full productivity all the previously developed irrigation areas and then go on to expand irrigation to ensure food security throughout Angola and then for it to become a food basket.

Sand dams are to be installed in appropriate locations, mostly high stress rural areas.

In conjunction with the hydro-electric power water management that will also aid the expansion of irrigation, but this will enable potable water throughout Angola. Also this will facilitate sewerage systems and sanitation availability nationally.

Universal internet and electricity will enable all schools to be connected.

In addition to hydro and solar, there is a substantial opportunity for Angola to develop its wind energy potential. The SEFA appraisal report has indicated that **100 MW could be generated from two to five wind farms in the southern part of the country.**

Legacies from civil unrest remain to be addressed such as the proliferation of land mines yet to be cleared. Debt burden of Angola may be appropriately repatriated, net of appropriately fulfilled delivery and satisfactory construction obligations, net of 'tea money' and other unappropriated practices. Chines Belt and Road Initiative funding presently may exceed US\$23 billion.

### WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be

collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Conscious (Moc) through kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting up gathering points, typically for up to twelve students available throughout education centres. This is a facility that is presently not often provided for within the education sites. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than maybe envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life skills. This is not just a focused endeavour on education and health, this is universal to all of humanity in its application. This is an evolutionary jump in our potential.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of a world-wide program embracing each and every nation in similar manner!

#### **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$1.864 billion. It is anticipated that these funds will be used for land and buildings (US\$1,183 million), plant and equipment (US\$117 million),scholarships granted (US\$91 million), and operating costs with working capital (US\$473 million).

#### **PROFITABILITY:**

As this is a humanitarian exercise for the people of the Angola, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the nation of Angola.

# PASCAS FOUNDATION (Angola) Ltd

## EXECUTIVE SUMMARY – BRIEF

Pascas Foundation (Angola) Ltd is to support the evolution of education and health facilities and procedures throughout Luanda and then all 18 provinces of Angola, thus advancing the standard of education throughout the orphanages, pre-schooling, primary schooling, high schooling, technical and higher education college with the university system, all to have additional new or renewed campuses.

All of this whilst bringing about the awareness of living feelings first as against living mind centric. This option greatly expands the potentials of everyone who embraces their feelings having their mind to follow while also longing to know the truth of what our feelings are drawing our attention to.

This change in the way we may live will enable the people of Angola to greatly up step their consciousness which will progressively mitigate harmful activity against others and see an overall improvement in the general health of children and adults alike, thus alleviating pressures and demands on governmental services.

Pascas Foundation (Angola) Ltd is a not-for-profit, all of these developments are for all the people of Angola. Living feelings first is The New Way of life, it is not a religion nor is it intended to replace or obstruct any religious or spiritual practice. We have had our awareness of feelings suppressed by hidden controllers who have consequently suppressed our potentials. This is about to change for all of humanity.

These programs will require ongoing grants to cover recurrent costs and additional projects until the government of Angola benefits sufficiently to take over responsibility.

Conservative grant requirement projections are:

Year 2023	Year 2024	Year 2025	Year 2026	Year 2027
US\$448 million	US\$400 million	US\$464 million	US\$274 million	US\$277 million

## **PERSONAL BENEFITS for all Children, Women and Men from REVELATIONS**

### **Application: “LIVING FEELINGS FIRST – FEELING HEALING” for Children:**

- Parents who engage in their personal Feeling Healing pass benefits to their children.
- Children by becoming aware of their Feelings enables them to bring their mind and feelings into balance in how they may live – this has been hidden from humanity until now, 2022.
- Children through their feelings awareness can readily bridge the mind ceiling of 499 on the Map of Consciousness thus opening their potential to infinity – this is just incredible.
- Children, through kinesiology muscle testing can confirm what is in truth and what is not.
- Children are not to engage in their personal Feeling Healing until they are adults – maturity is to be reached first.

### **Application: “LIVING FEELINGS FIRST – FEELING HEALING” for Women:**

- It is through women engaging in Feeling Healing that true women’s liberation will unfold.
- Women are closer to their feelings than men generally – women will lead the way.
- Feeling Healing is a long difficult process for everyone. There is no rush – we are to take our time.
- Our childhood suppression comes clearly into sight – thus family relationships may disrupt until the process of healing our suppression and ongoing repression is completed.
- Feeling Healing is a process we will all undergo – be it in the physical or in spirit, or partly in the physical completing when we are in spirit. We can stop and restart later.

### **Application: “LIVING FEELINGS FIRST – FEELING HEALING” for Men:**

- Men may find Feeling Healing more difficult and different to how women engage with it.
- Childhood suppression is compounded by our ongoing repression of our feelings thus creating many layers to find the truth of. We need to always long to understand the truth behind our feelings, both good and bad.
- We are to express our feelings to a companion – women are generally more open to assisting than are men as well as more sensitive and supportive. Our Heavenly Parents will always assist.
- Men being more mind-centric naturally than women may find the Feeling Healing process more difficult.

### **Application: “LIVING FEELINGS FIRST – FEELING HEALING” throughout society:**

- As people grow in numbers progressing through their personal Feeling Healing, the demands on the policing forces, the legal system, courts, prisons and social security systems will abate.
- All our discomforts, illness and diseases are of the consequence of emotional injuries and errors of belief that we each absorb commencing from the moment of conception. Once we complete our Feeling Healing we are free of such discomforts, illnesses and diseases – we no longer need to experience them!

# PASCAS FOUNDATION (Angola) Ltd

⇒ This awareness is where others are not.  
 ⇒ These are new revelations of truth.  
 ⇒ Bringing huge advances to everyone.  
 ⇒ This heralds a new age of peace.

# ANGOLA MoC 80

Map of Consciousness calibration of each province

# ***PASCAS FOUNDATION (Caribbean SIDS) Inc***

## **EXECUTIVE SUMMARY**

### **THE PRODUCT:**

Each community is to be asked to share what they see as to what is most needed for their community and how they would prefer required solutions to be addressed. This is most appropriate to engage with the people directly and invite them to participate in deliveries as the diversity of situations throughout the small island development states (SIDS) of the Caribbean is incomprehensible.

We look firstly to the Organisation of the East Caribbean States (OECS) of which there are 7 state members, then to CARICOM of which there are 15 states members including the OECS members. However there are 28 SIDS including all of CARICOM, but three of these warrant standalone Pascas operations, these being for Cuba, Dominican Republic and Haiti. The standalone nations have populations of around 11 million each as does the combined rest of the Caribbean SIDS.

Then consider the backgrounds of the populations. Colonisation has been by the Portuguese, Spanish, French, Dutch, British and USA. There are indigenous populations from the region and south America. Slavery from Africa dominate many of the populations, then indentured servants were introduced from India, Indonesia and elsewhere. Some of the island states remain as territories of those who colonised them long ago. Consequently, even though the locals may feel commonality between each other, their heritage is complex, rich and amazing. Then you add in the diversity of religions old and newly introduced. English is generally the dominant language but only 15% speak it!

Many of the Caribbean islands changed hands several times before finally being secured as established colonies. The cultural traits of each of the European colonisers were injected into the fabric of the islands they colonised; thus, the languages, religions, and economic activities of the colonised islands reflected those of the European colonisers rather than those of the native people who had inhabited the islands originally. The four main colonial powers in the Caribbean were the Spanish, English, Dutch, and French.

The Caribbean is a tropical paradise, a tourism venue of world renown. But then we are to look behind the thin veneer!

The Caribbean sits on a small continental plate, it is a hotbed of volcanos, earthquakes and tsunamis. Tropical storms consists of cyclones and hurricanes. Natural disaster abound. Some islands suffer extensive droughts and water security is often threatened.

Employment is difficult to find. January 2023, unemployment in Dominica Commonwealth was 11.1% for men and 17.6% for women. Youth unemployment was 40% and in the age group 15 – 24 unemployment was 28% on Dominica (not Dominican Republic). Consequently, Business Training Centre (BTC) of Dominica proposes retraining for employment for 1,000 youth, principally throughout the rural regions of Dominica and with a focus upon young ladies to be an initiating project for Pascas Foundation. This is then to expand to support 5,000 youth throughout Dominica.

### **POVERTY**

**35.4% of the population in main urban areas are poor and 7.7% are extremely poor.** This is 15.6 million and 3.4 million people in poverty and extreme poverty respectively throughout the Caribbean.

### **CHILD SEXUAL ABUSE and CHILD ABUSE**

According to research 20% - 40% of girls in the Eastern Caribbean Area have faced sexual abuse. Up to 70% of our children have experienced some form of physical violence or psychological abuse. In addition, too many young people end up in the juvenile justice system where they are jailed without other, more constructive, options being explored.

**Child sexual abuse and child abuse is greatly under reported and under estimated.**

## HOMELESS KIDS

December 2020, at least 23.4 million children are in need of humanitarian assistance across the region, compared to only 7 million last year. This spike is largely driven by the devastating impacts of the COVID-19 pandemic, the growing migratory flows and an increase of extreme natural disasters exacerbated by climate change, such as hurricanes and droughts.

The region of 36 countries is struggling with one of the longest lockdowns in the world and is also suffering with the biggest contraction in the last 100 years, according to the Economic Commission on Latin America and the Caribbean (ECLAC).

## EDUCATION

The coronavirus Covid-19 pandemic lockdowns have had a critical impact on the educational trajectories of children and adolescents in Latin America.

**Yes, Caribbean education is good.** Caribbean schools are designed based on the British schools standards, and Caribbean universities are accredited by the Caribbean and global authorities. Caribbean education is also more affordable than one in Europe or North America.

## FOOD SECURITY

The Caribbean region continues to be impacted by external factors which threaten livelihoods and the ability of people to meet their basic needs. On average, **food inflation in the English and Dutch-speaking Caribbean has risen by 10.2% across 20 countries as of March 2022.** 16 Sept 2022

The number of people estimated to be facing moderate to severe levels of food insecurity in the English-speaking Caribbean has risen by an alarming 46% over the last six months. Nearly 4.1 million people or 57% of the population now face food insecurity, according to a recent survey conducted by the Caribbean Community (CARICOM) and the United Nations World Food Programme (WFP). 16 Sept 2022

## ELECTRICITY POWER COVERAGE

Haiti power coverage is around 50% with most other island nations having 100% coverage.

## WATER and SANITATION

Water supply and sanitation services in 15 countries and 2 territories in the Caribbean research, access to basic service was found to be relatively high, with access to basic water supply at more than 90% for all but one of the countries – at 65.5%, Haiti is the exception. Access lags in basic sanitation but is accessible for more than 85% of the population of almost every country except Dominica 77.9% and Haiti 34.7%.

## FEELINGS are our Supreme Guide!

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides.** Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 September 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth's humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (Caribbean SIDS) Inc is a not-for-profit, charity, to be incorporated within the Caribbean. Typically, charitable organisations, naturally, are exempt from taxation by VAT, sales tax, income and corporate tax. All funds received by a charitable organisation that is to be used for charity purposes are exempt from taxation. But the entity needs to obtain a not-for-profit status with the taxing authority. Ministry of taxation or justice are the main registration authorities for charitable organisation constitutions.

Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone's religious or spiritual practices. It is a way of living.

Pascas Foundation (Caribbean SIDS) Inc is being established as a humanitarian entity for all of the people of the Caribbean and it is to be managed by the people of the Caribbean.

### **MARKETS & COMPETITION:**

#### **CARIBBEAN SIDS (Small Island Developing States) Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b> per 1,000 people	<b>NURSES &amp; MIDWIVES</b> per 1,000 people	<b>TEACHER / STUDENT</b> <b>ratio</b>

Peru	2018 0.8	2018 3.0	2018 17
Australia	2018 3.8	2019 13.2	1999 18
United States America	2018 2.6	2018 15.7	2017 14
Spain	2018 4.0	2018 6.1	2017 13
Strongest Worldwide	2020 Austria 5.4	2019 Switzerland 18.0	2018 San Marino 7
<a href="https://data.worldbank.org/">https://data.worldbank.org/</a>			
Weakest Worldwide	Africa 27 nations 0.1	Africa 30 nations 1.0	Africa 21 nations 40+

Caribbean OECS needs to double their number of doctors per 1,000 people – and then some – from 1.6 to around 3.6 say.

Caribbean OECS needs to double their number of nurses per 1,000 people – and then some – from 4.7 to around 12 say.

Caribbean OECS needs to improve teacher training and facilities.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture coming from the front of the room to students tutoring each other, both of these greatly advance learning potential.

The education facilities throughout the Caribbean are universally mediocre with students performing low on the scale of the world stage – achieving something like 50% - 60% of potential. This is creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout their own advanced education sectors and also health services.

However, the mode of education is presently focused upon lecture and rote learning – this generates unresponsiveness and stagnation, with no spontaneity and intuitiveness being demonstrated by students throughout their lives. The current format of teaching is retarding development of students and nation.

### **MAJOR FOCUS for CARIBBEAN OECS**

For the individual:

40% or more of the population live on incomes below the level of poverty line. Social housing is not available for many, if not most. Food security is critical in many provinces. Free and open education for all needs to be enhanced. Medical clinics within reasonable access are limited. Family planning needs to be a focus for the medical centres. Hospitals being equipped with diagnostic services and operating facilities comparable to institutions worldwide needs to be available for impoverished. Due to small population pockets, small campuses are required whereas large facilities would be under-utilised.

And these need to be addressed for the nation:

The errors of the past are still all firmly in place with the same underlying management and systems of old. This appears intractable, errors of the past are going to repeat, so a bold stance needs to be considered.

An oversight council of twelve people (if not more) is to oversee the implementation of solutions and changes required throughout the nation and society. The council will at all times consist of at least 50% women. The oversight council members are to be of Caribbean nationals and they are not to have strong political allegiances, nor should they demonstrate a dominating religious bias. Every person living in the Caribbean is to be treated equally. Yes, those in greatest need will be the first to be assisted with the objective that the overall agenda will lead to is equal and fair treatment for all. Boundaries and barriers are to be torn down. The prejudices of all will be exposed for what they are – immoral and grossly unloving.

### **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

We work for the people – and the people do the rest!

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Consciousness (Moc) through kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting-up gathering points, typically for up to twelve students, to be available throughout education centres. This is a facility that is presently not often provided for within education centres. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than may be envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved are great.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life experience. This is not just a focused endeavour on education and health, this is universal for all of humanity in its many facets of life. This is a time of an evolutionary jump.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of a world-wide program embracing each and every nation in similar manner!

### **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$16,241 million. It is anticipated that these funds will be used for land and buildings (US\$12,345 million), plant and equipment (US\$117 million), scholarships granted (US\$91 million), and operating costs with working capital (US\$3,688 million).

### **PROFITABILITY:**

As this is a humanitarian endeavour for the people of the Caribbean, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the appropriate authority of the Caribbean.

# ***PASCAS FOUNDATION (Colombia) Inc***

## **EXECUTIVE SUMMARY**

### **THE PRODUCT:**

Approximately 1.6 million Colombians who, during the pandemic, were knocked out of the middle class and back into poverty.

**The unequal distribution of the country's wealth and welfare resources** affects Colombian people and is a cause of poverty. The country's income concentration is very high compared to the international averages. The per capita income of the richest ten percent is 46 times greater than those of the poorest ten percent.

Colombia poverty rate for 2020 was **38.30%**, an **8.9% increase** from 2019. Poverty headcount ratio at US\$5.50 a day is the percentage of the population living on less than US\$5.50 a day at 2011 international prices.

The economy saw a recovery in 2021, and the national poverty rate dropped to 39.3%. The decline was led by urban areas, with poverty increasing in rural areas (from 42.9% in 2020 to 44.6% in 2021).

The education system is reporting classrooms across the nation with 40 or more students. Class size is **40 to 50 students**. Unlike students in most countries, Colombian students cannot choose their courses. The school day is 7 to 8 hours. Teachers are generally inadequately trained and supported. Consequently, higher education is not being provided with capable students coming through from high school, this is reflected in the quality of students graduating into all fields of industry and commerce.

Then you have the inadequacies throughout all industries not being able to obtain the capable staff required to grow commerce and mitigate the requirements in all areas of commerce and deliver the solutions needed by every sector of Colombian society.

The evolutionary growth of the people of Colombia is hampered by an administration without perception and intuitive initiative. The people of Colombia are very tolerant. Both at the individual and community level, strong emphasis is placed on social acceptance and maintaining social harmony, yet there are large pockets of aggressive discontent. As such, social approval and caring about what others will think, say, or do strongly influence social behaviour. Thus, the people subject themselves to mediocrity whereas a great deal could unfold with freedom of expression and support.

### **CHILD SEXUAL ABUSE and CHILD ABUSE**

<https://childrenchange colombia.org/child-sexual-exploitation-colombia/>

**About 200,000 children are sexually abused every year in the Colombia.**

- 200,000 children in Colombia are sexually abused each year.
- Over 35,000 children are involved in commercial sexual exploitation (CSEC) in Colombia annually.
- More than 13,000 people reported incidents of sexual violence between January and August of 2021.

<https://www.telesurenglish.net/news/40-of-Young-People-in-Colombia-Have-Experienced-Abuse-Report-20190723-0005.html>

The figures on sexual violence were also very high, 15% of girls and 7% of boys reported being a victim of sexual violence, with 72% of sexual abuse incidents happening at home. An alarming figure in the report, that reveals the severity of these statistics, is that every 20 minutes a child in Colombia suffers sexual abuse.

### **SPAIN colonised the COLOMBIA and sold PANAMA to the United States America**

Colombia was 'discovered' by Spain in 1400. It was not until **1525**, however, that the Spanish began a process of colonization of Colombia, leading to it becoming an integrated colony of the Spanish empire.

The **separation of Panama from Colombia** was formalised on 3 November 1903, with the establishment of the Republic of Panama. **When the United States sought to take over the canal project, the**

**government of Colombia proved difficult to work with**, and with the cooperation of French financier Philippe-Jean Bunau-Varilla, Panama simultaneously declared independence from Colombia and negotiated a treaty granting the U.S. the right to construct the Panama Canal. In exchange, Panama received US\$10 million and an annuity of US\$250,000 beginning nine years later.

The Treaty of Paris ending the Spanish-American War was signed on December 10, 1898. In it, Spain renounced all claim to **Cuba**, ceded **Guam and Puerto Rico** to the United States and transferred sovereignty over the **Philippines** to the United States for US\$20 million.

### **STREET KIDS**

Almost a quarter of Colombia's 12 million children between the ages of 5 and 17 do not attend school due to poverty, displacement and violence. A Universidad Externado de Colombia study from 2007 said 35.4% of all children in Colombia did not live with their parents. It is estimated that about 60,000 children live on Colombia's streets – 37% of them in Bogota.

### **EDUCATION**

Tertiary education has been expanding in the last decades, and, in 2020, 25-34 year-old women were more likely than men to achieve tertiary education in all OECD countries. In Colombia, 34% of 25-34 year-old women had a tertiary qualification in 2020 compared to 26% of their male peers, while on average across OECD countries the shares were 52% among young women and 39% among young men.

Across most OECD countries, socio-economic status influences learning outcomes more than gender and immigrant status. In Colombia, the proportion of children from the bottom quartile of the PISA index of economic, social and cultural status (ESCS) achieving at least PISA level 2 in reading in 2018 was 56% lower than that of children from the top ESCS quartile, a larger share than the OECD average of 29%.

Annual expenditure per student on educational institutions provides an indication of the investment countries make on each student. After accounting for public-to-private transfers, public expenditure on primary to tertiary educational institutions per full-time student in Colombia was USD 2,425 in 2018 (in equivalent USD converted using PPPs for GDP) compared to USD 10,000 on average across OECD countries.

Open and free education from primary schooling, through high schooling, technical and further education (colleges) and then university can be the only driver of any society's progress and development – particularly for the Colombians. But what there is throughout Colombia, it is presently mind-centric whereas feeling orientation opens the potential for a more efficient and enduring level of development in growth and truth for all engaged – teachers and students.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 on Dr David Hawkins' Map of Consciousness (MoC). High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, also, our minds are addicted to control of the environment and of others. Consequently, more than 92% of the time we are at war!

### **FOOD SECURITY**

Agriculture makes up 6.9% of Colombia's GDP while offering employment to 15.8% of the population. Less than 30% of its arable land, however, is currently being used. **Government initiatives to solve this issues include building road, irrigation systems, seed distribution networks for previously under-utilised regions and implementing nutrition security programs and agricultural subsidies.**

## **ELECTRICITY POWER COVERAGE**

Access to electricity (% of population) in Colombia was reported at **100 % in 2020**.

## **WATER and SANITATION**

Colombia is a country with vast water resources. It's one of the [nine water-rich territories](#) in the world, yet one-third of its urban population lives under water stress. During the last two decades, due to climate change and population growth, water availability has been declining. From extreme droughts to severe flooding, Colombia is already experiencing symptoms of water insecurity across the country that reflect its problems of “too much, too little, and too dirty” water.

Between 1990 and 2010, access to *improved sanitation increased from 67% to 82%*, but access to improved water sources increased only slightly from 89% to 94%.

## **FEELINGS are our Supreme Guide!**

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

## **THE COMPANY:**

Pascas Foundation (Colombia) Inc is a not-for-profit, charity, to be incorporated within the Colombia. Typically, charitable organisation, naturally, are exempt from taxation by VAT, sales tax, income and corporate tax. All funds received by a charitable organisation that is to be used for charity purposes are exempt from taxation. But the entity needs to obtain a not-for-profit status with the taxing authority. Ministry of taxation or justice are the main registration authorities for charitable organisation constitutions. Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (Colombia) Inc is being established as a humanitarian entity for all of the people of the Colombia and it will be managed by the people of Colombia.

## MARKETS & COMPETITION:

### COLOMBIA Doctors Nurses Teachers Ratios

	DOCTORS		NURSES & MIDWIVES		TEACHER / STUDENT	
	per 1,000 people		per 1,000 people		ratio	
<b>Colombia</b>	2018	<b>3.8</b>	2018	<b>1.3</b>	2018	<b>23</b>

<a href="https://data.worldbank.org/">https://data.worldbank.org/</a>		Africa 27		Africa 30		Africa 21
Weakest Worldwide		nations 0.1		nations 1.0		nations 40+

Colombia appears to have an adequate number of doctors per 1,000 people.

Colombia needs to double their number of nurses per 1,000 people – and double again and plus some.

Colombia needs to double the ratio of teachers per students.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture coming from the front of the room to students tutoring each other, both of these greatly advance learning potential.

The education facilities throughout Colombia are universally inadequate with students performing at the bottom of the scale on the world stage. This is creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout their own advanced education sectors and also health services.

However, the mode of education is presently focused upon lecture and rote learning – this generates unresponsiveness and stagnation, with no spontaneity and intuitiveness being demonstrated by students throughout their lives. The current format of teaching is retarding development of students and nation.

### MAJOR FOCUS for the COLOMBIA

For the individual:

40% of the population live on incomes below the level of poverty line. Social housing is not available for many, if not most. Food security is critical in many provinces / departments. Free and open education for all needs to be enhanced. Medical clinics within reasonable access are limited. Family planning needs to be a focus for the medical centres. Hospitals being equipped with diagnostic services and operating facilities comparable to institutions worldwide needs to be available for impoverished.

And these need to be addressed for the nation:

The errors of the past are still all firmly in place with the same management and systems of old.

This appears intractable, errors of the past are going to repeat, so a bold stance needs to be considered.

An oversight council of twelve people (if not more) is to oversee the implementation of solutions and changes required throughout the nation and society. The council will at all times consist of at least 50% women. The oversight council members is to be of Colombian nationals and they are not to have any political allegiances, nor are they to demonstrate any religious bias. Every person living in Colombia need to be treated equal. Yes, those in greatest need will be the first to be assisted with the objective that the overall agenda will lead to is equal and fair treatment for all. Boundaries and barriers are to be torn down. The prejudices of all will be exposed for what they are – immoral and grossly unloving.

## **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Consciousness (Moc) through kinesiology muscle testing. The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting-up gathering points, typically for up to twelve students to be available throughout education centres. This is a facility that is presently not often provided for within the education centres. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than may be envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved are great.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life experience. This is not just a focused endeavour on education and health, this is universal for all of humanity in its many facets of life. This is a time of an evolutionary jump.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of a world-wide program embracing each and every nation in similar manner!

## **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$16,141 million. It is anticipated that these funds will be used for land and buildings (US\$12,245 million), plant and equipment (US\$117 million), scholarships granted (US\$91 million), and operating costs with working capital (US\$3,688 million).

## **PROFITABILITY:**

As this is a humanitarian endeavour for the people of Colombia, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. ## EXECUTIVE SUMMARY

### THE PRODUCT:

**India**, officially the **Republic of India** (Hindi: *Bhārat Gaṇarājya*), is a country in South Asia. It is the seventh-largest country by area, the second-most populous country, and the most populous democracy in the world. India is bounded by the Indian Ocean on the south, the Arabian Sea on the southwest, and the Bay of Bengal on the southeast, it shares land borders with Pakistan to the west; China, Nepal, and Bhutan to the north; and Bangladesh and Myanmar to the east. It is in the vicinity of Sri Lanka and the Maldives; its Andaman and Nicobar Islands share a maritime border with Thailand, Myanmar and Indonesia.

India's population is significant (approximately 1,406,000,000) with 504 million (35.9%) people living in urban regions of India as of 2022, while the rural population exceeded 902 million (64.1%). The 3 UAs (urbanised areas) with populations of 10 million and above are known as Mega Cities. The census defines the three as **Greater Mumbai UA (18.4 million), Delhi UA (16.3 million) and Kolkata UA (14.1 million)**.

The people of India are a very complex mix of incomprehensible backgrounds and possibilities.

Indigenous population are the most marginalised and vulnerable communities in India which constitutes 8.6% of India's total population, four times higher than the total population of Australia. The state of Jharkhand (north easterly state – land of the forest) accounts for 27.7% of the total indigenous population of India.

According to Census-2011, the number of scheduled tribe members in India is 104,281,034. It is 8.6% of the total population of India. A total of 93,819,162 people belonging to scheduled tribes reside in rural areas whereas 10,461,872 people in urban areas. The scheduled tribes are 11.3% of the total population of rural areas and 2.8% of urban areas. There are more than 705 ethnic groups scheduled as **tribes in India**. So how many Indian languages are there? While India has 22 separate official languages, it is home to a total of **121 languages and 270 mother tongues**. It's also home to the world's oldest language, **Hindi**.

**India** is a union of 28 states and 8 union territories.

Though religious groups grew at uneven rates between 1951 and 2011, every major religion in India saw its numbers rise. For example, Hindus increased from 304 million (30.4 crore) to 966 million (96.6 crore), Muslims grew from 35 million (3.5 crore) to 172 million (17.2 crore), and the number of Indians who say they are Christian rose from 8 million (0.8 crore) to 28 million (2.8 crore).

And wealth inequality is more pronounced. **The poorest half of the Indian population possesses just 5.9% of the country's total wealth, whereas the richest 10% controls 64.7%.**

The top 10% and top 1% in India hold 57% and 22% of the total national income respectively while the bottom 50% share has gone down to 13%. The average national income of the Indian adult population is Rs 204,200 (rupees) (US\$2,552). Here, the bottom 50% of earns Rs 53,610 (US\$670) while the top 10% earns Rs 1,166,520 (US\$14,581), over 20 times more.

The product is the consequence of need. The population of India calibrates around 305 on Dr David R Hawkins' Map of Consciousness (MoC) scale which is based on the common log of 10. The world population overall is 220 and Australia is 410 MoC.

Should universally open and free education at all levels become readily available throughout all of India, then India is now on the verge of achieving great advances in their overall level of consciousness which also translates into stability, prosperity and a significantly happier population.

India's literacy rate is well below desirable levels and education availability for females is far from being equal with the male population.

### **IS INDIA the HUB of HUMANITY?**

The first humans to have a longing for human perfection, Andon and Fonta, lived a little south of the Caspian Sea some 993,500 years ago. Their offspring reached Tasmania, an island state of Australia at its south eastern extremity, more than 950,000 years ago – to do so they would have migrated through India. Andon and Fonta were of a red skin complexion, as are the modern day Eskimos of Canada. It was some 500,000 years ago that the Sangik family of the north eastern tablelands of India introduced a family of six colours – 5 red, 2 orange, 4 yellow, 2 green, 4 blue and 2 indigo – 19 children. It is through this one family that these complexions have emerged around the world. They also featured the brown and black hair and eyes. Conflict between the orange, green and blue colours saw these colours die out.

Concurrent with the appearance of the six Sangik races were the architects of religion. Caligastia has overseen the formation of all of Earth's religions, the major religions as well as the minor denominations. It was Adam and Eve, more than 38,000 years ago, who introduced the crimson coloured skin and complexion, as well as the red and blonde hair and also the blue and green eyes – thus completing the seven colours for Earth's humanity. The children introduced by Adam and Eve were to uplift the human race. All colours are to blend thus ultimately resulting in a general olive skinned race for the world.

Earth's humanity is subjected to a poll reversal around every 12,000 to 13,000 years. This can be an extreme event involving a Sun nova or not so extreme, all involving a reversal of the rotation of Earth. The Earth slows in rotation and then comes to a complete stop before reversing in rotation. This event unfolds over a few weeks. The stop in rotation results in the oceans inundating the landmasses. When you look at the globe, you may notice that India is one of the most protected areas from ocean inundation. Survival may be higher for those living in India.

You may notice that the tribes of India have histories going back more than 50,000 years. Most likely hundreds of thousands of years.

Should we have harmony throughout Earth's humanity, then the population would have blended its colours through inter-marriage between colours, language would be uniform without the vast diversity we have today, education would be open and free to all, particularly between women and men. We would see little or no national boundaries! There would be no militarisation! AND people of all regions would generally calibrate over 500 on Dr David R Hawkins' Map of Consciousness (MoC) scale.

Instead, throughout India, we have a great diversity of languages, diversity in religions and religions within religions. We have a caste system based on the false premise of reincarnation which is unloving and impossible. We have homelessness, massive numbers in orphanages, infanticide with clearly as many as **60 million Indian girl babies** missing. Further, a study in 2018 estimated that **15.6 million** abortions took place in India in 2015. The numbers who are poor are staggering, those living in poverty is a national issue, food insecurity is extreme in numerous regions of India. Safe drinking water is a critical issue in many states, with numerous rural regions in dire straits.

The people of India have survived many global poll reversals and yet it is to be provided with the awareness of how its people are intended to live – Feelings First. The people of India are firmly engaged in the suppression systems imposed upon them thousands of years ago by hidden controllers and one of those systems is the Caste System embraced through the major religions throughout India. Most **Indians (68%)** identify themselves as members of lower castes – this is a comprehensive demonstration of Childhood Suppression! Great changes in understandings will take time for all to comprehend this error and embrace the pathway out from under its deceit.

The Caste System is a false doctrine imposed upon the people of India by hidden controllers who have wanted and succeeded in suppressing the development and growth of the people through such psychic barriers and Childhood Suppression. This the hidden controllers have succeeded in so doing for thousands

of years, not only in India but worldwide in multiple and diverse ways. This doctrine, and many others, is now to be set aside. The people of India are now to flower and progress towards their true potentials.

### **OPEN and FREE EDUCATION:**

Open and free education from primary schooling, through high schooling, technical and further education (colleges) and then university can only be the driver of any society's progress and development – particularly that of India. Education is the over-arching profession. Without education we have none of the professions. Open and free to all is to be the benchmark. But what little there is in India, it is presently mind-centric whereas feeling orientation opens the potential for a far greater and faster development in growth and truth for all engaged.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had previously recognised that being mind-centric, the potential of every student to develop is capped at 499 MoC. High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraining error. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, and also, our minds are addicted to control of the environment and of others. Consequently, more than 92% of the time we are at war!

### **FEELINGS are our Supreme Guide!**

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 September 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth's humanity, both in the physical as well as in spirit.

## THE COMPANY:

Pascas Foundation (India) Ltd is a not-for-profit charity being set up through the Ministry of Corporate Affairs (MCA) for India. Typically, charitable organisation, naturally, are exempt from taxation by VAT, income and corporate tax. All funds received by a charitable organisation that is used for charity purposes are exempt from taxation. But it requires to obtain a status of a non-profit from the taxation authority. Ministry of taxation or justice are the main registration authority for a charitable organisation constitution. Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone's religious or spiritual practices. It is a way of living.

Pascas Foundation (India) Ltd is being established as a humanitarian entity for all of the people of the India and it will be managed by the people of India.

## MARKETS & COMPETITION:

### INDIA Doctors Nurses Teachers Ratios

	DOCTORS		NURSES & MIDWIVES		TEACHER / STUDENT	
	per 1,000 people		per 1,000 people		ratio	
<b>India</b>	2017	<b>1.34</b>	2019	<b>2.4</b>	2017	<b>33</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

The number of teachers throughout India needs to be doubled.

Should we work to facilitate the doubling of the number doctors throughout India we have barely addressed the shortage.

Should we work to facilitate the doubling of the number of nurses and midwives throughout India and then double that again, we have barely addressed the shortage.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture from the front of the room to students tutoring each other, both of these greatly advance learning potential.

All education facilities throughout India have, through civil unrest, become grossly inadequate creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout the education and health sectors.

## MAJOR FOCUS for INDIA

For the individual:

Potable water throughout the nation. Sanitation for all homes. Clean cooking fuel. Food security. Free and open education for all. Medical clinics within reasonable access. Family planning to be a focus for the medical centres. Hospitals and they being equipped with diagnostic services and operating facilities comparable to institutions worldwide.

This requires for the nation:

According to UNICEF, about 25% of children in India have no access to education. The number of children excluded from school is higher among girls than boys. Although women and men are treated equally under Indian law, girls and women, especially in the lower social caste, are considered inferior and are oppressed by their fathers, brothers and husbands. Without education, the lower social caste, are considered inferior and are oppressed by their fathers, brothers and husbands. Without education, the chance of finding a living wage from employment in India is virtually hopeless.

### **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Consciousness (MoC) through kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. Students enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting-up gathering points, typically for up to twelve students available throughout education centres. This is a facility that is presently not often provided for within education sites. Also, to expand this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than maybe envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and their families being involved.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life skills. This is not just a focused endeavour on education and health, this is universal to all of humanity in its application. This is an evolutionary jump in our potential.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of a world-wide program embracing each and every nation in similar manner!

### **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$2.155 billion. It is anticipated that these funds will be used for land and buildings (US\$1,366 million), plant and equipment (US\$117 million), scholarships granted (US\$91 million), and operating costs with working capital (US\$581 million).

### **PROFITABILITY:**

As this is a humanitarian exercise for the people of the India, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the nation of India.

# ***PASCAS FOUNDATION (Indonesia) Inc***

## **EXECUTIVE SUMMARY**

### **THE PRODUCT:**

Despite its impressive economic growth, one fifth of Indonesia's population is vulnerable to falling into poverty, according to World Bank. More than half of the country is urbanised with **one in five urban residents living in slums.**

**The unequal distribution of the country's wealth and welfare resources** affects Indonesian people and is a cause of poverty. The country's income concentration is very high compared to the international averages. According to Oxfam, **“the four richest men in Indonesia have more wealth than the combined total of the [most impoverished] 100 million people.”** This increase in inequality in Indonesia undermines the fight against poverty while slowing the nation's economic growth.

Poverty headcount ratio at US\$5.50 a day is the percentage of the population living on less than US\$5.50 a day at 2011 international prices. **Indonesia poverty rate** for 2021 was **50.20%**, a **0.7% decline** from 2020. <https://www.macrotrends.net/countries/IDN/indonesia/poverty-rate>

The percentage of those below the poverty line – with incomes of less than US\$2.50 per day – fell below 10% (9.82%) at the Indonesian national level for the first time in March 2018. Following the COVID pandemic, there is concern that poverty could once again rise and reverse years of positive work.

Based on a simulation by our team at the National Development Planning Agency (BAPPENAS), without intervention the poverty rate will increase to 10.54% for Indonesia. This would imply a 3.63 million rise in the total number of poor people.

### **CHILD SEXUAL ABUSE and CHILD ABUSE**

**There are an estimated 70,000-80,000 victims of child sex trafficking in Indonesia yearly.**

**Up to 30% of Indonesia's commercial sex workers are female victims of child sex trafficking.**

**Foreign tourists are often complicit.**

**Sometimes friends and family members force children into sex work.**

**Indonesia is a source and destination country for child sex trafficking.**

**Poverty due to natural disasters plays a role.**

**There are 4 million impoverished children at risk.**

**High rates of urban youth homelessness also lead to increased trafficking.**

**The police only enforce laws when under pressure.**

**Child sexual abuse and child abuse is greatly under reported and under estimated.**

### **STREET KIDS**

Indonesia is home to 5.4 million abandoned children. In the last ten years in Bandung (151 kilometres southeast of Jakarta) alone, between 3,000 and 11,000 children were on the streets. Unprotected, these children are vulnerable to mental trauma, addictions, sexual diseases and HIV infection. They receive no education and have little chance of ever living a better life. Homeless girls are especially at risk of trauma and sexual exploitation, potentially leading to pregnancies producing new generations of street people. The few support services there are in Indonesia face major challenges. Funding largely depends on foreign donors and private initiatives.

### **EDUCATION**

Education, nationally, the average class size in primary schools was approximately twenty-seven, while upper-level classes included between thirty and forty students. Indonesians are required to attend 12 years of school. Students must go to school five days a week from 07:30 a.m. until 15.30 p.m. Students can

choose between state-run, non-sectarian public schools supervised by the Ministry of National Education (Kemdiknas) or private or semi-private religious (usually Islamic) schools supervised and financed by the Ministry of Religious Affairs. Students can choose to participate in extracurricular activities provided by the school such as sports, arts, or religious studies.

**In Indonesia, 19% of 25-34 year-olds had a tertiary qualification in 2021** compared to 47% on average across OECD countries.

Indonesia's biggest challenge regarding education is no longer improving access but improving quality. The Indonesian Government hopes to develop a 'world-class' education system by 2025. However, numerous assessments of the country's education performance suggest that it has a long way to go before it will achieve that goal. Many Indonesian teachers and lecturers lack the required subject knowledge and pedagogical skills to be effective educators; learning outcomes for students are poor; and there is a disparity between the skills of graduates and the needs of employers.

### **FOOD SECURITY**

Jakarta (ANTARA) – The National Food Agency (BPN) has noted that according to the 2022 Global Food Security Index (GFSI), **food affordability in Indonesia is at the green level, or very good condition, with a total score of 81.4.** "Many (indicators) of the affordability aspect have been good." 29 Sept 2022

**Indonesia 22.9 million are people are unable to meet their dietary requirements**

**Indonesia 30.8% of children under 5 are stunted**

Indonesia still faces challenges in terms of **limited food access, malnutrition, gender inequality, climate change and vulnerability to natural hazards.** WFP October 2022

### **ELECTRICITY POWER COVERAGE**

Access to electricity (% of population) in Indonesia was reported at **96.95% in 2020.**

### **WATER and SANITATION**

**Water supply and sanitation in Indonesia** is characterised by poor levels of access and service quality. Almost 30 million people lack access to an improved water source and more than 70 million of the country's 275 million population has no access to improved sanitation. Only about 2% of people have access to sewerage in urban areas; this is one of the lowest in the world among middle-income countries. Water pollution is widespread on Bali and Java. Women in Jakarta report spending US\$11 per month on boiling water, implying a significant burden for the poor.

### **FEELINGS are our Supreme Guide!**

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides.** Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (Indonesia) Inc is a not-for-profit, charity, to be incorporated within the Indonesia. Typically, charitable organisations, naturally, are exempt from taxation by VAT, sales tax, income and corporate tax. All funds received by a charitable organisation that is to be used for charity purposes are exempt from taxation. But the entity needs to obtain a not-for-profit status with the taxing authority. Ministry of taxation or justice are the main registration authorities for charitable organisation constitutions. Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (Indonesia) Inc is being established as a humanitarian entity for all of the people of the Indonesia and it is to be managed by the people of Indonesia.

Japan	2018	2.5	2018	12.7	2017	16
		Austria		Switzerland		San Marino
Strongest Worldwide	2020	5.4	2019	18.0	2018	7
<a href="https://data.worldbank.org/">https://data.worldbank.org/</a>		Africa 27		Africa 30		Africa 21
Weakest Worldwide		nations 0.1		nations 1.0		nations 40+

Indonesia needs to double their number of doctors per 1,000 people – and double again and plus some.

Indonesia needs to double their number of nurses per 1,000 people – and plus plenty more.

Indonesia needs to double the ratio of teachers per students.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture coming from the front of the room to students tutoring each other, both of these greatly advance learning potential.

The education facilities throughout Indonesia are universally inadequate with students performing very low on the scale of the world stage. This is creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout their own advanced education sectors and also health services.

However, the mode of education is presently focused upon lecture and rote learning – this generates unresponsiveness and stagnation, with no spontaneity and intuitiveness being demonstrated by students throughout their lives. The current format of teaching is retarding development of students and nation.

### **MAJOR FOCUS for INDONESIA**

For the individual:

40% or more of the population live on incomes below the level of poverty line. Social housing is not available for many, if not most. Food security is critical in many provinces. Free and open education for all needs to be enhanced. Medical clinics within reasonable access are limited. Family planning needs to be a focus for the medical centres. Hospitals being equipped with diagnostic services and operating facilities comparable to institutions worldwide needs to be available for impoverished.

And these need to be addressed for the nation:

The errors of the past are still all firmly in place with the same underlying management and systems of old. This appears intractable, errors of the past are going to repeat, so a bold stance needs to be considered.

An oversight council of twelve people (if not more) is to oversee the implementation of solutions and changes required throughout the nation and society. The council will at all times consist of at least 50% women. The oversight council members are to be of Indonesian nationals and they are not to have strong political allegiances, nor are they to demonstrate any dominating religious bias. Every person living in Indonesia needs to be treated equally. Yes, those in greatest need will be the first to be assisted with the objective that the overall agenda will lead to is equal and fair treatment for all. Boundaries and barriers are to be torn down. The prejudices of all will be exposed for what they are – immoral and grossly unloving.

### **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. # INDONESIA

MoC of each Province

overall calibration: 220

**Provinces of Indonesia** are the 38 administrative divisions of Indonesia and the highest tier of the local government (formerly called **first-level region provinces** or *provinsi daerah tingkat I*). Provinces are further divided into regencies and cities (formerly called second-level region regencies and cities or *kabupaten/kotamadya daerah tingkat II*), which are in turn subdivided into districts (*kecamatan*).

# **PASCAS FOUNDATION (Philippines) Inc**

## **EXECUTIVE SUMMARY**

### **THE PRODUCT:**

In the Philippines 6.1% of the population live on less than US\$1.90 per day, 26% live on less than US\$3.20 per day and **55.1% live on less than US\$5.50 per day** (World Bank Data). Widespread corruption in both Filipino politics and business prevents any opportunities for social mobility and growth. Power is concentrated among a small number of influential families and connected individuals, offering the poor truly little chance of bettering themselves.

The Rural Poverty Portal reports that half of the poor in the Philippines live in rural areas. The poorest of the poor are the indigenous, landless labourers, fishermen, small farmers, mountain folk and women. Deforestation, depleted fisheries, and unproductive farmland are major problems for these people. Rural population (% of total population) in Philippines was reported at **52.32 %** in 2021.

The education system is reporting classrooms across the nation with 50 or more students. Teachers are inadequately trained and supported. Consequently, higher education is not being provided with capable students coming through from high school, this is reflected in the quality of students graduating in all fields.

Then you have the inadequacies throughout all industries not being able to obtain the capable staff required to grow commence and mitigate the requirements in all areas of commerce and deliver the solutions needed by every sector of Philippines society.

The evolutionary growth of the people of the Philippines is hampered by an inwardly looking government and an all-powerful, suppressive, controlling church. The people of the Philippines are a very tolerant. Both at the individual and community level, strong emphasis is placed on social acceptance and maintaining social harmony. As such, social approval and caring about what others will think, say, or do strongly influence social behaviour. Thus, the people subject themselves to such suppressive control.

### **CHILD SEXUAL ABUSE and CHILD ABUSE**

<https://www.cameleon-association.org/contexte-aux-philippines/?lang=en>

**About 7,000,000 children are sexually abused every year in the Philippines.**

More than 70% of sexually abused children are between 10 and 18 years old. Among those victims, 20% are under 6 years old. Cases of child sexual abuse are one of the most common issues that the Department of Social Welfare and Development (DSWD) has to handle after abandonment and neglect. Despite the Anti-Rape Law of 1997, rape remains the most frequent type of sexual abuse, followed by incest and fondling. 98% of rape victims are women. The incest percentage is another alarming data: 33%.

Most children who are sexually exploited for commercial purposes are victims of prostitution or pornography.

Most of the time, Filipino children are raped by their fathers or uncles. Those men usually are 30 to 40 year old, and do not have a stable job. It has been noted that most incest cases take place in the family home when the victim is alone.

### **SPAIN then UNITED STATES AMERICA colonised the PHILIPPINES**

The Spanish conquistadores established a colonial government in Cebu in 1565. They transferred the seat of government to Manila in 1571 and proceeded to colonise the country. The Filipinos resisted and waged Asia's first nationalist revolution in 1896.

When the Spanish-American War ended in December 1898, Spain sold the entire Philippine archipelago to the United States for US\$20 million. The Philippines had acquired or was given a new colonial ruler. The United States had acquired a colony the size of Arizona, located more than 4,000 miles away across the Pacific Ocean. 1898-1933: Philippines was America's Colony.

<b>A CONFLICTED LAND: Rebellions, Wars, and Insurgencies in the Philippines</b>			
<b>1898-1933</b>	<b>1934-1964</b>	<b>1965-1986</b>	<b>1987-2003</b>
<b>America's Colony</b>	<b>War and Independence</b>	<b>The Marcos Years</b>	<b>Reform and Rebellion</b>

And now the people are subjected to the Duterte / Marcos family dynasty of control through a 'democratic' government. Ferdinand Marcos Jr being the son of the Ferdinand Marcos, the dictator of 1965-1986.

### **EDUCATION**

**"We need to hire 147,000 new teachers to be able to lower the class size to 35,"** Dana Beltran, ACT deputy secretary general, said. "We simply cannot do it if our teachers handle six, seven, eight, or more **classes of 50 students each,**" Beltran urged. 28 September 2022

"While it is long overdue for the government to adhere to the United Nation's recommendation of allocating an education budget equivalent to 6% of the country's gross domestic product, now is the best time to finally do it if we aim to salvage our education system from the crisis. **We need to double this year's education budget to really solve the perennial problems in education that drowns us in the quagmire that we are in,**" Beltran said. 28 September 2022

Open and free education from primary schooling, through high schooling, technical and further education (colleges) and then university can be the only driver of any society's progress and development – particularly for the Philippines. But what there is throughout the Philippines, it is presently mind-centric whereas feeling orientation opens the potential for a more efficient and enduring level of development in growth and truth for all engaged – teachers and students.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 on Dr David Hawkins' Map of Consciousness (MoC). High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted

to untruth, consequently 98% of our assumptions are in error, also, our minds are addicted to control of the environment and of others. Consequently, more than 92% of the time we are at war!

### **ELECTRIC POWER**

The **electricity sector in the Philippines** provides electricity through power generation, transmission, and distribution to many parts of the Philippines. The Philippines is divided into three electrical grids, one each for Luzon, the Visayas and Mindanao. However, about 12% of Filipinos have no access to electricity.

### **WATER and SANITATION**

47.46% of Filipinos have access to clean drinking water and 60.64% have access to sanitation.

### **FEELINGS are our Supreme Guide!**

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (Philippines) Inc is a not-for-profit, charity, to be incorporated within the Philippines. Typically, charitable organisation, naturally, are exempt from taxation by VAT, sales tax, income and corporate tax. All funds received by a charitable organisation that is to be used for charity purposes are exempt from taxation. But the entity needs to obtain a not-for-profit status with the taxing authority. Ministry of taxation or justice are the main registration authorities for charitable organisation constitutions. Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (Philippines) Inc is being established as a humanitarian entity for all of the people of the Philippines and it will be managed by the people of the Philippines.

## MARKETS & COMPETITION:

<a href="https://data.worldbank.org/">https://data.worldbank.org/</a>		Africa 27		Africa 30		Africa 21
Weakest Worldwide		nations 0.1		nations 1.0		nations 40+

The Philippines needs to double their number of doctors per 1,000 people and then double them again.

The Philippines needs to double their number of nurses per 1,000 people – plus some.

The Philippines needs to double the ratio of teachers per students – and then add a lot more!

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture coming from the front of the room to students tutoring each other, both of these greatly advance learning potential.

The education facilities throughout the Philippines are universally inadequate with students performing at the bottom of the scale on the world stage. This is creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout their own advanced education sectors and also health services.

However, the mode of education is presently focused upon lecture and rote learning – this generates unresponsiveness and stagnation, with no spontaneity and intuitiveness being demonstrated by students throughout their lives. The current format of teaching is retarding development of students and nation.

### MAJOR FOCUS for the PHILIPPINES

For the individual:

55% of the population live on incomes below the level of poverty line. Social housing is not available for many. Food security is critical in many provinces. Free and open education for all is sub-standard. Medical clinics within reasonable access are limited. Family planning needs to be a focus for the medical centres. Hospitals being equipped with diagnostic services and operating facilities comparable to institutions worldwide needs to be available for impoverished.

And these need to be addressed for the nation:

The errors of the past are still all firmly in place with the same management and systems of old.

This appears intractable, errors of the past are going to repeat, so a bold stance needs to be considered.

An oversight council of twelve people (if not more) is to oversee the implementation of solutions and changes required throughout the nation and society. The council will at all times consist of at least 50% women. The oversight council members is to be of Philippines nationals and they are not to have any political allegiances, nor will they demonstrate any religious alliance. Every person living in the Philippines need to be treated equal. Yes, those in greatest need will be the first to be assisted with the objective that

the overall agenda will lead to is equal and fair treatment for all. Boundaries and barriers are to be torn down. The prejudices of all will be exposed for what they are – immoral and grossly unloving.

### **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Consciousness (Moc) through kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting-up gathering points, typically for up to twelve students to be available throughout education centres. This is a facility that is presently not often provided for within the education centres. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than may be envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved are great.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life experience. This is not just a focused endeavour on education and health, this is universal for all of humanity in its many facets of life. This is a time of an evolutionary jump.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of a world-wide program embracing each and every nation in similar manner!

### **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$2,441 million. It is anticipated that these funds will be used for land and buildings (US\$1,740 million), plant and equipment (US\$117 million), scholarships granted (US\$91 million), and operating costs with working capital (US\$493 million).

### **PROFITABILITY:**

As this is a humanitarian endeavour for the people of the Philippines, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the nation of the Philippines.

## EXECUTIVE SUMMARY

### THE PRODUCT:

**Papua New Guinea**, island country in the southwestern Pacific Ocean. It encompasses the eastern half of New Guinea, the world's second largest island (the western half is made up of the Indonesian provinces of Papua and West Papua).

The islands that constitute Papua New Guinea were settled over a period of 40,000 years by the mixture of peoples who are generally referred to as Melanesians. Historians have dated back to the first settlers in the region, and they believe the first islanders settled there over 50,000 years ago. One of the most interesting facts about Papua New Guinea is just how old it is.

Languages – Papua New Guinea boasts of over 850 different languages and approximately 1,000 different cultures. Population estimate in 2022 is over 9,200,000. Over **80% of Papua New Guinea's population lives in rural areas. Gross domestic product for PNG in 2021 was US\$26.5 billion.**

Unfortunately, the country has some of the world's highest crime rates with many governments advising against leisure travel to the country. Crime rates are high around Port Moresby, Lae, and Goroka, but crime can happen everywhere!

The product is the consequence of need. The population of Papua New Guinea calibrates around 202 on Dr David R Hawkins' Map of Consciousness (MoC) scale which is based on the common log of 10. The world population overall is 220 and Australia is 410. As has been the case around the world, the missionaries from many and diverse religious platforms introduced education systems into communities that did bring about spiritual development and economic growth to a degree and this progress generally then plateaued. This is the scenario generally throughout Papua New Guinea.

Open and free education through primary schooling, through high schooling, technical and further education and then university has been and continues to be the driver of any society's progress and development. Open and free to all.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any religious institution. And free implies that the education service is provided free of cost to the students at all levels. Truth needs to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 MoC. High level controllers 200,000 years ago influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, our minds are addicted to control of the environment and others. More than 90% of the time we have war!

FEELINGS are our Supreme Guide!

**“Feelings are what guide us through our ascension of truth. # PASCAS FOUNDATION (Solomon Islands) Ltd

## EXECUTIVE SUMMARY

### THE PRODUCT:

Solomon Islands' population is small (approximately 720,000) and spread across more than 300 islands of the 900 islands in the archipelago. About 74% of the population live in rural areas, creating challenges for infrastructure and service delivery. Funding is required for telecommunications, energy, water, sanitation, education at all levels, health services, transport and other priority infrastructure projects.

Solomon Islands' economy is heavily weighted towards natural resources, particularly the export of round logs being 70% of all exports, fish, mainly tuna – 7,700 tonnes out of 8,000 tonnes exported, 11% and palm oil and kernels 6%, which are vulnerable to natural disasters and external price shocks. The forestry and logging sector, which has for decades relied on unsustainable harvesting practices, accounts for 13% of GDP.

Solomon Islands is widely considered to have untapped tourism potential, but this will require significant support. Generating less than 5% of GDP at present, even a rapid growth in the tourism industry will not be sufficient to mitigate a substantial slowdown in the logging sector.

Mining is considered a potential future driver of growth, and Solomon Islands is known to have deposits of gold, nickel and bauxite.

The product is the consequence of need. The population of Solomon Islands calibrates around 220 on Dr David R Hawkins' Map of Consciousness (MoC) scale which is based on the common log of 10. The world population overall is 220 and Australia is 410 MoC. As has been the case around the world, the missionaries from many and diverse religious platforms introduced education systems into communities that did bring about spiritual development and economic growth to a degree and this progress then has plateaued. This is the scenario generally throughout the Solomon Islands.

Open and free education through primary schooling, through high schooling, technical and further education and then university has been and continues to be the driver of any society's progress and development. Open and free to all is the benchmark.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 MoC. High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, also, our minds are addicted to control of the environment and others. Consequently, more than 92% of the time we are at war!

FEELINGS are our Supreme Guide!

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides.** Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us**

**feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (SI) Ltd is a not-for-profit charity being set up through the Registry of Companies Authority of the Solomon Islands.

Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (SI) Ltd is being established as a humanitarian entity for all of the people of the Solomon Islands and it will be managed by the people of the Solomon Islands.

### **MARKETS & COMPETITION:**

#### **SOLOMON ISLANDS Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b> per 1,000 people		<b>NURSES &amp; MIDWIVES</b> per 1,000 people		<b>TEACHER / STUDENT</b> <b>ratio</b>	
Solomon Islands	2016	<b>0.2</b>	2018	<b>2.2</b>	2018	<b>25</b>
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15

Should we work to facilitate the doubling of the number of doctors throughout the Solomon Islands and then double that again, we have barely addressed the shortage.

Should we work to facilitate the doubling of the number of nurses and midwives throughout the Solomon Islands and then double that again, we have barely addressed that shortage.

Should we work to facilitate the doubling of the number of teachers throughout the Solomon Islands and then double that again, we have barely addressed this shortage. Presently the education standards and that of teachers is being raised but the resources have not been matched in support!

Higher education facilities throughout the Solomon Islands are grossly inadequate creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout the education and health sectors as noted above.

### **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation

openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, you may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Conscious (Moc) with kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting up gathering points for up to twelve students throughout education centres. This is a facility that is presently not often provided for within the education sites. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than maybe envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life skills. This is not just a focused endeavour on education and health, this is universal to all of humanity in its application. This is an evolutionary jump in our potential.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of an Asian-Pacific program embracing each and every nation throughout this region in similar ways – and further!

#### **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is AUD1.935 billion (US\$1.45 billion). It is anticipated that these funds will be used for land and buildings (AU\$1,256.4 million), hospital ship (AU\$50 million), plant and equipment (AU\$121 million), office building (AU\$5 million), housing accommodation (AU\$75 million), scholarships granted overseas (AU\$90.9 million), and operating costs with working capital (AU\$337.1 million).

#### **PROFITABILITY:**

As this is a humanitarian exercise for the peoples of the Solomon Islands, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the nation of the Solomon Islands.

# PASCAS FOUNDATION (Sri Lanka) Ltd

## EXECUTIVE SUMMARY

### THE PRODUCT:

Sri Lanka's crisis is not just about the economy, but a long history of discrimination against minority groups. Sri Lanka is in the grip of an economic, political and humanitarian crisis. Politicians like Wickremesinghe and Rajapaksa have been put in positions of political power by the majority Sinhalese people due to their Sinhalese Buddhist nationalist ideology, which has resulted in a long history of discrimination and rioting against minorities on the island. This position of power has allowed these leaders to grow their personal wealth, while mismanaging the economy and ultimately bankrupting the country.

Within the Sinhalese Buddhist ideology, anyone who is not Sinhalese-Buddhist is excluded. Since the country's long civil war ended, all major Sri Lankan parties have rejected criticisms of the Sri Lankan state, including international calls for investigations into human rights violations and war crimes committed against the Tamils.

In fact, the Sri Lankan constitution grants Buddhism foremost power, paving the way for ongoing discrimination against marginalised groups. This discrimination began in 1956, when Prime Minister S.W.R.D. Bandaranaike implemented the Sinhala Only Act, making Sinhalese the official language of the island and forcing Tamils out of key employment sectors.

*"It was nationalism that enabled governance rooted in meritocracy to be supplanted by ethnocracy, which over time has led to kakistocracy – governance by a country's worst citizens."* quoted Neil DeVotta

Published on 14 July 2022 by The Conversation

Division is a weapon used with great skill by politicians of most parties in Sri Lanka over the decades.

At the political level, failure to address the past through a reconciliation process will almost guarantee the failure of the future. Division by ethnicity, religion and language must stop today. Sri Lankans are a prudent and resilient people that must not yield to racism, because when things spiral out of control all Sri Lankans are indeed affected. Sri Lankans need to learn both Tamil and Sinhalese, and importantly English. Sri Lankans need to communicate genuinely and reach goals together to benefit the nation. Sri Lanka is now on a victorious path to transformation and true reconciliation. May they take pride in their diversity, and stand up for what is right.

Sri Lankans can are to put aside what divides a beautiful people and a wonderful island nation.

Civil war in Sri Lanka (23 July 1983 – 18 May 2009) being for twenty six years has resulted in infrastructure either destroyed or left in disrepair. Landmines continue to inflict harm with many children killed annually. The northern areas of Sri Lanka are still considered to be one of the most militarised regions anywhere in the world and have **one of the heaviest concentrations of landmines**. The mines blanket much of what would be farmland there, and continue to disproportionately affect civilians. All social services are inadequate and national infrastructure is decades behind in development.

Open and free education from primary schooling, through high schooling, technical and further education (colleges) and then university can only be the driver of any society's progress and development – particularly that of Sri Lanka. Open and free to all is to be the benchmark. But what there is in Sri Lanka, it is presently mind-centric whereas feeling orientation opens the potential for a far faster development in growth and truth for all engaged.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents

of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 MoC. High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, also, our minds are addicted to control of the environment and of others. Consequently, more than 92% of the time we are at war!

FEELINGS are our Supreme Guide!

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (Sri Lanka) Ltd is a not-for-profit charity being set up through the Registrar of Companies for Sri Lanka. Typically, charitable organisation, naturally, are exempt from taxation by VAT, income and corporate tax. All funds received by a charitable organisation that was used for charity purposes are exempt from taxation. But it requires to obtain a status of a non-profit at the tax authority. Ministry of taxation or justice are the main registration authority for charitable organisation constitution.

Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (Sri Lanka) Ltd is being established as a humanitarian entity for all of the people of the Sri Lanka and it will be managed by the people of Sri Lanka.

## MARKETS & COMPETITION:

### SRA LANKA Doctors Nurses Teachers Ratios

	DOCTORS		NURSES & MIDWIVES		TEACHER / STUDENT	
	per 1,000 people		per 1,000 people		ratio	
<b>Sri Lanka</b>	2019	<b>2.3</b>	2019	<b>2.3</b>	2018	<b>22</b>
Singapore	2016	2.3	2017	6.2	2017	15
United States America	2018	2.6	2018	15.7	2017	14
Canada	2019	2.4	2019	11.8	2000	17
Australia	2018	3.8	2019	13.2	1999	18

A fifty per cent increase in the number of doctors needs to be complemented with auxiliary diagnostic and medical equipment.

Should we work to facilitate the doubling of the number of nurses and midwives throughout Sri Lanka and then double that again, we have barely addressed the shortage.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture from the front of the room to students tutoring each other, both of these greatly advance learning potential.

All education facilities throughout Sri Lanka have, through civil unrest, become grossly inadequate, creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout advanced education sectors and health services.

However, the mode of education is focused upon lecture and rote learning – this generates unresponsiveness, stagnation with no spontaneity and intuitiveness being demonstrated by students throughout their lives. The current format of teaching is retarding development of students.

### MAJOR FOCUS for SRI LANKA

For the individual:

Potable water throughout the nation. Sanitation for all homes. Food security. Free and open education for all. Medical clinics within reasonable access. Family planning to be a focus for the medical centres. Hospitals being equipped with diagnostic services and operating facilities comparable to institutions worldwide.

Nearly one million live on plantation estates. Housing, education, health services, water supply, sanitation, electricity and internet services are all at poverty level.

This is now required for the nation:

The errors of the past are still all firmly in place with the same management and systems of old.

This appears intractable, errors of the past are going to repeat, so a bold stance needs to be considered.

An oversight council of twelve people (if not more) is to oversee the implementation of solutions and changes required throughout the nation and society. If their guidance is not being adhered to then funding stops! The council will at all times consist of at least 50% women. The oversight council members will be Sri Lankan nationals and they will not have any political allegiances, nor will they demonstrate any religious alliance. Every person living in Sri Lanka will be treated equal. Yes, those in greatest need will be the first to be assisted with the objective that the overall agenda will lead to equal and fair treatment for all. Boundaries and barriers are to be torn down. The prejudices of all will be exposed for what they are – immoral and grossly unloving.

# PASCAS FOUNDATION (Ukraine) Ltd

## EXECUTIVE SUMMARY

### THE PRODUCT:

Ukraine's population is significant (approximately 44,000,000) with 31 million people lived in urban (70%) regions of Ukraine as of January 1, 2022, while the rural (30%) population exceeded 13 million. The number of towns is increasing. There are currently 454 towns in Ukraine. The population in 37 towns ranges between 100 to 500 thousands.

Since 24 February 2022, nearly 12.8 million people are estimated to have been displaced in Ukraine, most of whom have not left the country. According to the most recent (June 2022) estimates, **7.7 million** people are internally displaced as a result of the conflict, which is equivalent to 17.5% of the entire population.

Some 13 million people are estimated to be stranded in affected areas or unable to leave due to heightened security risks, destruction of bridges and roads, as well as lack of resources or information on where to find safety and accommodation.

One-third of Ukrainians have been forced from their homes. This is the largest displacement crisis in the world today. The UN (United Nations) says that, as of 4 July 2022, more than 5.2 million refugees from Ukraine have been recorded across Europe. More than 3.5 million have applied for temporary residence in another country. The UN says that as of 21 June, there have been over 3 million "cross-border movements" back into Ukraine, but says this number does not refer to individual refugees.

The longer the war continues, **the medium to longer-term needs that conflict-affected people, internally displaced peoples, and returnees will face to rebuild their lives** will similarly rise and require sustained support from the humanitarian and broader international community.

The UN's International Organisation for Migration (IOM) said in May that **more than seven million people remain internally displaced**:

- 27% of refugees were from the Kharkiv region
- 16% from Kyiv
- 16% from the Donetsk region in eastern Ukraine
- 24% indicated their homes had been damaged or attacked in the war.

The International Organisation for Migration (IOM) estimates that more than half of the people who are internally displaced are women. Many are particularly vulnerable because they are pregnant or have small children, have a disability or are a victim of violence.

The product is the consequence of need. The population of Ukraine calibrates around 330 on Dr David R Hawkins' Map of Consciousness (MoC) scale which is based on the common log of 10. The world population overall is 220 and Australia is 410 MoC. As has been the case around the world, institutionalised spiritual and formal education had lifted the consciousness of the people, however, that has plateaued in development.

Open and free education through primary schooling, through high schooling, technical and further education (colleges) and then university has been and continues to be the driver of any society's progress and development. Open and free to all is the benchmark. But it is presently mind-centric whereas feeling orientation opens the potential to infinity in growth and truth.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 MoC. High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our

assumptions are in error, also, our minds are addicted to control of the environment and others. Consequently, more than 92% of the time we are at war!

FEELINGS are our Supreme Guide!

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind follow in assisting us in implementing what our feelings are guiding us to consider and embrace. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Conscious (Moc) through kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting up gathering points, typically for up to twelve students available throughout education centres. This is a facility that is presently not often provided for within the education sites. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than maybe envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life skills. This is not just a focused endeavour on education and health, this is universal to all of humanity in its application. This is an evolutionary jump in our potential.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels. This is part of an world-wide program embracing each and every nation in similar ways!

**FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$1.863 billion. It is anticipated that these funds will be used for land and buildings (US\$1,181 million), plant and equipment (US\$117 million), scholarships granted (US\$91 million), and operating costs with working capital (US\$574 million).

**PROFITABILITY:**

As this is a humanitarian exercise for the people of the Ukraine, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the nation of Ukraine.

## EXECUTIVE SUMMARY

### THE PRODUCT:

The extra-ordinary concentration of wealth in the hands of the few has enslaved the population of United States of America to a silent mantra of consumerism and militarisation. Debt enslavement has reached limits that appear impassable.

Back to 1815, this is the year Nathan Mayer Rothschild makes his famous statement:

"I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets. The man who controls Britain's money supply controls the British Empire, and I control the British money supply."

The total wealth of the 1% reached a record US\$45.9 trillion at the end of the fourth quarter of 2021, said the Federal Reserve's latest report on household wealth. Their fortunes increased by more than US\$12 trillion, or more than a third, during the course of the pandemic.

However, those who hold the wealth that controls the military industrial complexes, the pharmaceutical corporations, the processed food manufacturers, and the financial system conceal their assets, wealth and control. These people do not make themselves known publicly. When new people seemingly come into view with wealth and power, they are mostly puppets who are being 'allowed' to do the begging for the hidden controllers.

Example, should you have an enormous cash pool then you can place it into a bank that has facilities enabling those funds to rotate from one location to the next so that the funds never see the sun set – they never show up on a bank's balance sheet. When they need to be used as collateral then they will 'pause' at an appropriate location at an appropriate time to be used for business transactions. There are numerous fund pools doing this as you read, amounts may be exceeding US\$100 trillion in some cases. The funds are never 'seen' nor are they subjected to 'income taxation'.

The concentration of wealth in the hands of few is a deplorable state of affairs, particularly for such an 'advance' society and people as the United States of America.

Many of the visible 'powerful people' are participants of the Bilderberg Club. They believe they are the elite, but there is a more powerful committee of a few dozen who also believe they are the elite sitting above them. But it goes further with the control being with a dozen or so families who have been in control for generations – long term controllers – then it is their chairman that carries the power.

### THE LAND of OPPORTUNITY and of the FREE:

According to 2018 US Census Data, the highest poverty rate by race is found among Native Americans (25.4%), with Blacks (20.8%) having the second highest poverty rate, and Hispanics (of any race) having the third highest poverty rate (17.6%). Whites had a poverty rate of 10.1%, while Asians had a poverty rate at 10.1%. The US official poverty rate of 11.6% was also not statistically different between 2020 and 2021.

In 2018, the poverty threshold—also known as the poverty line—for an individual was US\$12,784 (US\$245 per week). For two people, the weighted average threshold was US\$16,247 (US\$312 per week).

**5.3% of the population of the people of the United States of America — or 17.3 million people — live in deep poverty, with incomes below 50% of their poverty thresholds.**

**And 29.9% of the population of USA — or 93.6 million — live close to poverty, with incomes less than two times that of their poverty thresholds.**

From the mid-1970s, the share of income to the vast majority of US workers has been suppressed. The share of wealth has been progressively and increasingly syphoned off to the now insanely ultra-wealthy.

Further, safety nets do not exist. The healthcare system is unconscionably expensive and mostly ineffective.

## **EDUCATION**

Open and free education from primary schooling, through high schooling, technical and further education (colleges) and then university can be the only driver of any society's progress and development — particularly for United States of America (USA). Open and free to all is to be the benchmark. But what there is in USA, it is presently mind-centric whereas feeling orientation opens the potential for a far faster and greater level of development in growth and truth for all engaged.

Open implies that it is free from the restraints and dictates of government, that includes liberal and democratic governments as well as authoritarian and oppressive governments. All governments are agents of control. Open also implies free from being dominated by any specific ideology. And free implies that the education service is provided free of cost to the students at all levels. Truth is to prevail.

What has never been understood is that ALL education platforms worldwide are constricting their students' development and potential. No one had recognised that being mind-centric, the potential of every student to develop is capped at 499 on Dr David Hawkins' Map of Consciousness (MoC). High level controllers, 200,000 years ago, influenced the people of Earth to live mind centric and since then we have all suffered the consequences of that restraint. Our minds cannot discern truth from falsehood, our minds are addicted to untruth, consequently 98% of our assumptions are in error, also, our minds are addicted to control of the environment and of others. Consequently, more than 92% of the time we are at war!

## **FEELINGS are our Supreme Guide!**

**“Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”** Kevin 26 Sep 2017

Kevin died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017

We are now to bring our feelings into balance, with our minds following in how we are to live. Otherwise we will all continue living in a stupor, in a kind of zombiism that has no spontaneity and intuitiveness; this will only lead to continuing disease and illness and wars that will eventually destroy the planet and us all – however we now can consider the pathway of living through our feelings!

Our feelings are always in truth, all the truth we need and may want to know is already within us. We are to long for the truth behind what our feelings are drawing our attention to. We are then to have our mind

follow in assisting us in implementing what our feelings are guiding us to consider and embrace. We are to be continually expressing what our feelings bring to our attention – both good and bad.

This sounds easy. It is not. Others have touched upon these points but until now – 2022 – no one had gone deep enough and achieved the healing and growth that comes through living feelings first. Now it has been achieved and can be shared with all of Earth’s humanity, both in the physical as well as in spirit.

### **THE COMPANY:**

Pascas Foundation (USA) LLC is a not-for-profit, charity, to be incorporated within USA. Typically, charitable organisation, naturally, are exempt from taxation by VAT, sales tax, income and corporate tax. All funds received by a charitable organisation that is to be used for charity purposes are exempt from taxation. But the entity needs to obtain a non-for-profit status with the taxing authority. Ministry of taxation or justice are the main registration authorities for charitable organisation constitutions.

Pascas Foundation is not a religion. You cannot join it per-se, it does not have any hierarchy of control, it does not have any rituals, dogmas, creeds, cannon laws, sacraments, special clothing and hair styles, and it does not have a special book. Embracing and living through our feelings can be considered and done within the confines of anyone’s religious or spiritual practices. It is a way of living.

Pascas Foundation (USA) LLC is being established as a humanitarian entity for all of the people of the United States America and it will be managed by the people of United States America.

### **MARKETS & COMPETITION:**

#### **UNITED STATES AMERICA Doctors Nurses Teachers Ratios**

	<b>DOCTORS</b>		<b>NURSES &amp; MIDWIVES</b>		<b>TEACHER / STUDENT</b>	
	per 1,000 people		per 1,000 people		<b>ratio</b>	
<b>United States America</b>	2018	<b>2.6</b>	2018	<b>15.7</b>	2017	<b>14</b>
Mexico	2018	4.8	2019	2.4	2017	27
Canada	2019	2.4	2019	11.8	2000	17
Australia	2018	3.8	2019	13.2	1999	18
New Zealand	2018	3.4	2018	11.1	2017	15
		Austria		Switzerland		San Marino
Strongest Worldwide	2020	5.4	2019	18.0	2018	7
<a href="https://data.worldbank.org/">https://data.worldbank.org/</a>		Africa 27		Africa 30		Africa 21
Weakest Worldwide		nations 0.1		nations 1.0		nations 40+

United States needs to increase their number of doctors per 1,000 people to about double.

United States has an adequate number of nurses per 1,000 people but that is deteriorating.

United States has an adequate ratio of teachers per students, however also deteriorating.

This is a time of great change. The introduction to consider the option of Living Feelings First is unique throughout the world. Further, to move away from the lecture from the front of the room to students tutoring each other, both of these greatly advance learning potential.

The education facilities throughout United States have become progressively marginal, creating shortages in all critical sectors of the economy, possibly nowhere as acute as throughout their own advanced education sectors and also health services.

However, the mode of education is presently focused upon lecture and rote learning – this generates unresponsiveness, stagnation with no spontaneity and intuitiveness being demonstrated by students throughout their lives. The current format of teaching is retarding development of students.

## **MAJOR FOCUS for UNITED STATES AMERICA**

For the individual:

30% of the population live on incomes below twice the level of the poverty line. Social housing is not available for many. Food security. Free and open education for all. Medical clinics within reasonable access. Family planning to be a focus for the medical centres. Hospitals being equipped with diagnostic services and operating facilities comparable to institutions worldwide to be available for impoverished.

This is now required for the nation:

The errors of the past are still all firmly in place with the same management and systems of old.

This appears intractable, errors of the past are going to repeat, so a bold stance needs to be considered.

An oversight council of twelve people (if not more) is to oversee the implementation of solutions and changes required throughout the nation and society. The council will at all times consist of at least 50% women. The oversight council members will be United States American nationals and they will not have any political allegiances, nor will they demonstrate any religious alliance. Every person living in United States is to be treated equal. Yes, those in greatest need will be the first to be assisted with the objective that the overall agenda will lead to equal and fair treatment for all. Boundaries and barriers are to be torn down. The prejudices of all will be exposed for what they are – immoral and grossly unloving.

### **WHAT IS SPECIAL ABOUT THIS BUSINESS? Define Your CONSUMER MONOPOLY:**

Presently, only Pascas Foundation has acknowledged, embraced and documented the revelations that humanity has been provided with commencing on 31 May 1914 and continuing today. Pascas Foundation openly and freely is sharing 100% of the guidance and information that has been and continues to be collated. It dearly loves to see others freely plagiarise all that is readily downloadable from the Library Download page at [www.pascashealth.com](http://www.pascashealth.com)

Through the gift of kinesiology muscle testing, we each may proceed to test for the level of truth of each and every statement, paragraph, page and document within the library. Thus, we do not have to wait for our minds to confuse us. Even this business plan and its executive summaries can be separately calibrated for their levels of truth by reference to the Map of Consciousness (Moc) through kinesiology muscle testing.

The most effective mode of teaching is through students tutoring each other. They enhance this further through embracing their feelings and responding intuitively in discussions. This requires ample meeting-up gathering points, typically for up to twelve students available throughout education centres. This is a facility that is presently not often provided for within the education sites. Also, to commence this mode of education, teachers commence their introductions of topics with around a dozen students, thus requiring even more teachers than may be envisaged. To bring this all about requires universities to embrace these understandings and lead the way. It is a major evolutionary jump in education and the potentials for all of the participants and families involved are great.

These revelations, all relating to The New Way of living and learning apply to all sectors of society, commerce, business and life experience. This is not just a focused endeavour on education and health, this is universal to all of humanity in its application. This is a time of an evolutionary jump in our potential.

Pascas Foundation is to build and deliver free education from pre-school to post-graduate university levels.

This is part of a world-wide program embracing each and every nation in similar manner!

### **FINANCIAL REQUIREMENTS:**

Funding required in the form of grants to commence this national endeavour over five years is US\$15.642 billion. It is anticipated that these funds will be used for land and buildings (US\$11,830 million), plant and equipment (US\$117 million), scholarships granted (US\$91 million), and operating costs with working capital (US\$3,604 million).

**PROFITABILITY:**

As this is a humanitarian exercise for the people of the United States, deficit funding may continue out to a decade before the national accounts start to reflect the economic generators from the installed infrastructure, trained personnel and those having been educated. Thus, then progressively the ongoing recurrent costs may be supplemented by the national government and eventually responsibility for recurrent costs are then to transfer to the nation of United States America.

# The Most Loving Countries in the World

Ah, love — is there any greater feeling? Whether felt for family, friends, partners or pets, it's an emotion that most people have experienced, no matter where they live in the world. But if online displays of affection are anything to go by, are some countries more loving than others?

To find out, we searched for tweets posted in 96 countries containing variations of the phrase "love you" and calculated the proportion of lovey-dovey tweets per 100k local tweets overall. Our data reveals that Guatemala is the most loving country of all, with 2,217 loving tweets per 100k.

"LOVE YOU" TWEETS PER 100K

LEAST 134 MOST 2,217 No Data

**Methodology:** For each country, we searched for geotagged tweets that contained variations of phrases, which denoted loving emotions, e.g., "love you," "I love you," "love u" and more variations of the heart emoji (e.g., 🧡 and 💕) followed by "I" and "you." We then calculated the proportion of loving tweets per 100k overall. Only countries with more than 20k tweets are included.

**Source:** This map is based on the Twitter Search API. © 2019 Twitter, Inc. <https://twitter.com/twitter>

There are 193 independent countries recognised by the United Nations, as well as two observer states (Palestine and Vatican City). When other nations and territories are included, there are 330 individual entities in the world.

For example, while the UN recognises the United Kingdom as one country, its individual nations of England, Wales, Scotland, and Northern Ireland appear on the list of 330 nations but not the United Kingdom. While the British Virgin Islands, or Bermuda, or Moldova's Transnistria, or Australia's Lord Howe Island, or so many others are hardly independent countries, they are sufficiently separate from their country of rule to count as one of the 330 nations.

Further, larger nations may break up in numerous smaller nations thus further increasing the number of independent nations. Conversely, boundaries may come down.
