PASCAS GLOBAL MOBILISATION – summary

Monday, 20 February 2025

Pascas Foundation (Aust) Ltd is introducing throughout the world what has been revealed through a series of writings that commenced on 31 May 1914 and continues today. This guidance has now been acted upon by a few who have found the veracity of this guidance to be profoundly true and freeing.

Pascas is not about doing what others have done before and expecting different results. Pascas is sharing a way of living that is in contrast to the way that we each have been covertly restrained, suppressed and retarded by those who imposed their controlling wills silently upon us all. The New Way is to embrace our feelings, our soul based feelings which are always in truth, and have our mind to follow in assisting us in applying what our feelings prompt us to consider and do. This enables us, each of us, to break from and then bridge through the ceiling of potential that living mind-centric imposes upon us.

Throughout the past many thousands of years very few have recognised that our minds cannot discern truth from falsehood, that our minds are addicted to untruth, that our minds are addicted to control, control over others and the environment. Utilising our minds we make assumptions. When we do this then we get a small adrenalin rush as a reward satisfying us upon ‘making a decision’. We apply the assumption only to find that it is in error around 98% of the time – the other 2% most likely being flukes. Living mind centric prevents us from progressing beyond 499 on Dr David R Hawkins’ Map of Consciousness (MoC). The scale is based on the common log of 10. Our potential through living Feelings First having our mind to follow while always longing to know the truth of what our feelings are drawing our attention to breaks the ceiling barrier, opening our potential to reach 1,000 on the Map of Consciousness. Should we also long for, ask for our Heavenly Mother and Father’s love, Divine Love, then our potential in growth is infinite.

Living Feelings First, The New Way, is not a religion in as much there is no hierarchy of control, no dogmas, creeds, cannon laws, sacraments, rituals, special clothing or special book. There is nothing to join. Being a way of living then it does fit one of the nearly 500 definitions of what a religion may be. Living Feelings First is very individualistic, it is how each of us will personally experience it. Yes, we are best to have companions to share our experiences on our journey as we are to express what our feelings reveal to us, both good and bad, as we delve into what our feelings draw our attention to.

As we have explored the potentials of living feelings first, a great deal of awareness has opened up. This awareness profoundly has grown the levels of truth that can be introduced to every institutionalised system and structure of living that the world is engaged with. Presently, overall humanity on Earth calibrates at around 220 on Dr Hawkins’ Map of Consciousness. Presently, societal norms, customs, psychic cultural barriers ensure that humanity remains submissive to its imposed restraints and barriers to growth and vibrancy.

Pascas Foundation is now able to introduce a way of life that frees the individual, each person, should they so consider what is being introduced, to embrace a personal way of living that provides them the potential to experience their consciousness grow to levels even beyond that on the Map of Consciousness table. Few have recognised that it is throughout our early childhood forming years, that our Childhood Suppression, that commences at conception and continues through to the age of six years, disrupts the light energy flows

throughout our bodies in such a way that sets in place all the physical discomforts, pains, illnesses and diseases that we experience throughout our whole life. Should we express our emotional injuries and errors of belief, we can heal all of our suppression that we presently keep repressed and eventually become free of the 'need' to experience disease and illness.

This is readily recognised by the fact that communities having the highest levels of Map of Consciousness calibrations have the longest life expectancies, whereas communities with the lowest calibrations have the shortest life expectancies, the lowest incomes, the lowest happiness levels, the poorest education, and the highest crime rates.

It seems simple, lift the consciousness levels of a community and the social issues will begin to be eliminated. Authorities cannot inject that outcome. We, each of us, individually must personally strive to raise our consciousness. It is a personal journey. Presently the world has no idea of this incredibly beneficial alternative that is freely available to be embraced. That is what Pascas Foundation is to do – bring about the awareness so that individuals can consider and embrace as and when they so please.

Psychic Barriers and Issues of Communities

We are each a unique personality. Thus a small or large community is unique in itself from any other. We need to understand the history, the backgrounds, the customs, norms, practices and environment of each society, region, state, nation, etc., before engaging with its people. The end agenda is always the same, and that is to open up and make available the pathway of evolutionary growth which enable individuals to come to understand how their true personality has been distorted by the imposed controls and suppression of parenting, education systems, religious and spiritual imposts, employment, and the many layers of bureaucracy and governments.

We may look at a nation as a whole, such as United States of America. But then we find that the United States are very much UN-united states. USA is potentially 50 states that may break off from each other and become multiple nations. The environment of each state needs to be understood to have a basis from which to address the core social stresses. Societies in cities are different to those in the rural regions.

The natural resources in regions create economic differences and potentials. Education over the years has enormous long term impacts on societies. All growth commences with education. Free and open education that is feelings orientated is the pathway to evolutionary growth should authoritarian interference be kept out of the delivery.

Education We learn by doing. Once we know we cannot unknow!

Kids are to tutor kids. Educators are primarily to introduce the core material and then encourage the students to tutor each other (learning by doing!). This is best considered in modules of twelve students.

Education is meant to be a friendly and enjoyable experience. Living Feelings First escalates the rate of discovering and learning of truth. Mind-centric learning is rote orientated which is tiresome and ineffective education. Feelings are spontaneous and in truth. Mind is subject to the addiction to untruth.

The needs of students from the low socio-economic strata need special consideration. Meals to be provided at school may include lunch as well as breakfast. School materials such as text books, writing material, laptops and access to internet need to be considered. The cost of school uniforms and other clothing, travel costs as well as pocket money may be needed. Assistance with excursions and other costs to be provided.

ALL that a community achieves is founded upon education. Teaching is truly the number one profession.

Housing Safe, secure housing is essential before education can become effective.

Health

Worldwide there are two major medical platforms. Allopathic western medicine is referred to as traditional whereas it has been developed only over the past 200 years. Alternative medicine is really complementary medicine that relates to health practices going back thousands of years. The food we eat is a single concentration of nutrition. Nutraceuticals are generally a fivefold concentration of the nutrition in natural food. Pharmaceuticals are concentrations greater than tenfold generally requiring a medical doctors' supervision and prescriptions – drugs.

A medical clinic generally provides allopathic medical services and diagnostic systems, and is drug orientated. A complementary medical clinic works with mostly very old health modalities and is plant based natural medicines and nutraceuticals.

A **Pascas Family Care Centre** sits between the two systems. It also embraces the modalities engaged by Multicultural Family Organisation. It has no boundaries in the care it provides as long as 'no harm is caused'. Such centres would provide what is most needed for the community.

A **Pascas Family Care Centre / Clinic** is practically orientated.

The **Vision is to Reduce all Kinds of Violence and Promote Respectful Interactions**, thus these specific established programs have been applied by Multicultural Families Organisation (MFO) on the Gold Coast, south east Queensland, Australia, supporting a population of around one million:

The SARA Support Service, a One-Stop-Shop and Wrap-Around Domestic & Family Violence (DFV) Support Service for women from a Cultural and Linguistic Diverse (CALD) background. **MoC 410**

The Women's Office, supports women from a CALD background to achieve their goals by offering Employment Services, Educational Workshops, Social Groups and Creative Projects. **MoC 415**

Sonshine & Wave Forward are Social and Educational Groups for Men and male Youth and provides a safe place to Talk, Listen, Share and Learn. Women are assisted similarly. **MoC 420**

Youth@Promise & The HUB provides Counselling, Education and Activities for disengaging Youth empowering them to reconnect with the community and make positive life choices. **MoC 420**

Love Bites is a program designed to be run for different age groups in schools, and aims to build awareness of what Respectful Interactions look like, and so preventing future DFV and other violence. **MoC 440**

NDIS, the National Disability Insurance Scheme, **SILS**, Social Inclusion and Life Skills, and **Mental Health** support is part of the **Health Care Services**. **MoC 400**

BAG UPP, Bridging the Awareness Gap & Upskill Personal Perception is an educational community program aiming to motivate and guide a major attitudinal and behavioural process, by bringing greater understanding of topics and issues that facilitate or impede positive co-existence. **MoC 440**

At MFO they are constantly working on improving and identifying gaps in different services, to make sure that all residents in need are able to get suitable support. The challenge is to adapt services and bring new awareness to people regardless of their background, a challenge they proudly take on.

LIVING FEELINGS FIRST: Now incorporated within the awareness and support programs is **Living Feelings First**, that is living The New Way by embracing one's feelings while longing to know the truth of what our feelings are drawing our attention to and having our mind follow in support. **MoC 1,000**

Depending on the needs of the community, a **Pascas Family Care Centre** would extend to function as any appropriate medical centre would, as required and appropriate for the community.

Health and Education Innovations Combined

Below is a simple chart that clearly demonstrates that the higher the standard of education, the quality of living is highest in all categories, level of calibration on the Map of Consciousness, life expectancy, human development, happiness and per capita income.

What few have recognised that the higher one's level in truth is (MoC) then the lower is the incidence of illness and disease! Generally, those who calibrate over 700 MoC do not have the 'need' to experience illness! Should we live in Truth and at the same time begin to Live Feelings First, expressing our feelings both good and bad, while longing to know what our feelings are to reveal to us, then we are truly beginning to heal our physical body.

WORLDWIDE relationship of MoC calibration with Life Experiences Life Expectancy, Development, Happiness, Education, Income							
MoC	No. of Countries+ Territories	Average MoC	Average Life Expectancy	Human Development Index	Happiness Index	Education Index	Per Capita Income 2021
400s	22	405	82.2	0.924	7.1	.890	US\$63,032
300s	71	343	77.2	0.794	6.1	.741	US\$30,154
200s	50	251	72.7	0.676	5.3	.610	US\$16,560
High 100s	38	174	70.5	0.659	5.0	.600	US\$12,516
Low 100s	21	119	67.1	0.587	4.6	.501	US\$7,081
Below 100	14	74	65.3	0.565	4.4	.501	US\$6,377
WORLD	216	220	73.3				US\$17,110

Now let us look at this further chart:

Correlation of Levels of Consciousness – Soul Condition – and Society Problems				
Level of Consciousness	Rate of Unemployment	Rate of Poverty	Happiness Rate "Life is OK"	Rate of Criminality
600 +	0%	0.0%	100%	0.0%
500 - 600	0%	0.0%	98%	0.5%
400 - 500	2%	0.5%	79%	2.0%
300 - 400	7%	1.0%	70%	5.0%
200 - 300	8%	1.5%	60%	9.0%
100 - 200	50%	22.0%	15%	50.0%
50 - 100	75%	40.0%	2%	91.0%
< 50	95%	65.0%	0%	98.0%

Should the population generally all calibrate over 500 then no one would pick up a gun. War would not occur. Overall, while the population on Earth calibrates around 220, war is assured! So is worldwide criminality, poverty, high levels of unemployment, disease and short lives – all being the consequence of

the unavailability of universal, free, feelings orientated education that is in Truth and embracing the way we are to live, being feelings first whilst engaging with expressing our feelings, both good and bad, while longing to know what our feelings are to reveal to us. This is the opposite to living mind-centric which is being addicted to untruth, due to the fact that our minds are, further our minds cannot discern truth from falsehood, and our minds are addicted to control. As you go about your day, observe how people and commerce endeavour to impose their will upon you!

Multicultural Families Organisation (MFO) is unique in that over the decades of their operations they have come to recognise the platform of needs that people who present themselves require support and assistance with. These people mostly become lifelong friends of members of the teams in their care and support. All facets of life present themselves and their unique complexities that need resolution and a pathway forward. This MFO has been uniquely successful in doing for thousands of people.

MFO now looks to networking out through society, firstly within its present regional city and then elsewhere around Australia. MFO looks to provide guidance and support around the world. As the people that come to them represent a large number of countries, the opportunity to assist in their country of birth is a welcome opportunity, thus friends of MFO may become ambassadors for MFO and Pascas in their country of origin. So, through the Pascas Family Care centres, MFO's platform may become worldwide.

Housing – Family Shelter – Paradise Village

Orphans, street kids, homeless, domestic violence victims, refugees, people in need, child care centres, all can be accommodated within a comprehensive family shelter facility. If there are large land areas available then the sanctuary centre may become off-grid as well as producing enough food to be self-sustaining. Craft Creations units may provide the training for a host of cottage industries to bring skills that are on the verge of being lost back into society. In an urban setting then food production would be restricted.

However, a **Pascas Family Care Clinic** would be a part of any such family shelter to provide the support and training that is required for each of the friends living there, be it a short time or a long time.

Commerce and Business

Principle overarching guidelines for all involved are:

The Golden rule is: Never interfere with another's will.

God's Divine Love: Pray for it, ask for it, and receive it.

Our Heavenly Parents simply desires for us to ask for Their Love.

The New Way: learning how to live true to ourselves by living true to our feelings.

We are to express our feelings, both good and bad, at all times, and to long for the truth of them.

By living true to ourselves, true to our feelings, we are living true to God. It's that simple.

Microfinance for Small Business Startup

To administer a viable 'book', US\$5 million is a workable pool of funds for many regional areas to be supported. The 'interest' charged on loans is more to cover the costs of ongoing tutoring of their borrowers and guarantors in bookkeeping and business management essentials. This involves monthly and sometimes weekly sessions to assist the ladies who borrow these funds for them to establish a viable operation for themselves and their families.

South Pacific Business Development (SPBD) have been successfully operating microfinance throughout the Pacific Islands, Pascas is aligning to them and will be supported by their experience and successes.

Cooperative Businesses

Given the natural resources of a region, the establishment of cooperatives can take on many forms. Initiatives are to be taken to improve the commerce of the nation overall.

Major infrastructure programs are to be identified and then have governmental involvement.

Pascas is to bring about people awareness and support for these evolutionary steps in society to unfold.

Hub and Wheel Pascas Global Network

Pascas Foundation (Aust) Ltd is a designated gift recipient under the Australian Taxation Authorities, having been incorporated as a company limited by guarantee on 16 September 2008 (ABN 23 133 271 593). Thus Pascas is a not-for-profit, a charity under the eyes of the Australian Federal Government.

Headquarters for global operations, without boundaries and limitations, will be on the Gold Coast in south-east Queensland Australia. Gold Coast has a population in excess of 700,000 and the region around four million having a diverse mix of immigrants from all over the world. Pascas is linking up with foreign nationals now living within the Gold Coast region who are passionate about their home country and are willing to act as ambassadors for Pascas Foundation (Aust) Ltd and work with nationals back in their home country to establish programs that Pascas Foundation (Aust) Ltd promotes and support.

There are a total of 195 countries in the world, of which 193 are UN member states while 2 are non-member observer states – the Vatican and Palestine.

This is a global agenda without boundary restrictions in the order of US\$1 trillion to address foundational errors of truth that retard the evolutionary growth and development of all societies, without exception. We now have been provided with the guidance so that what ails each and every society around the world can be addressed in such a manner that peace, prosperity, ingenuity, spontaneity and truthful free expression of one's true personality can now unfold. It is a Great U-Turn for all in how we live and that is living feelings first with our mind to follow which is in contrast as to how we all have been guided to live for a great many past aeons.

This outline of the Map of Consciousness spells out the fact that while we live Mind-Centric and ignore and suppress our Feelings we cannot pass 499 MoC. Our mind being in control, as we have all been indoctrinated to live mind-centric under a glass ceiling. Humanity cannot heal anything, cannot be spontaneous, has no intuitiveness, and is locked into living in the deep hell states. This is why people find themselves in abusive homes, domestic violence, housing stress, homelessness and gross difficulties of all kinds. Further, this is also why we are easily manipulated, embrace propaganda and are being controlled by a few.

Women are closer to their feelings and that is why the nursing profession hosts a lot of women who calibrate a little over 500. These women are the healers in hospitals.

By aspiring to live Feelings First we are each breaking the glass ceiling and opening our potentials to grow in truth and love not only to 1,000 MoC, but to infinity. This is our destiny.

As communities embrace living Feelings First and having their minds to follow in supporting what their feelings are guiding them with, then ALL of the social ills of society will begin to mitigate. Please, do comprehend the importance of what is being shared throughout this document?

PERSONALITY TRAITS:

Less than two dozen people on planet Earth.

Would not pick up a weapon let alone use it. These people gravitate to the health industry and humanitarian programs.

Debate and implement resolutions without argument and delay. 470

Debate and implement resolutions in due course. 440

Debate and implement resolutions with some degree of follow up generally needed. 410

Management supervision is generally necessary.

Politics become the hope for man's salvation.

Cause no harm to others starts to emerge. Power overrides force.

Illness is developed by those man erroneous emotions that calibrate 200 and lower.

Armies around the world function on pride. Force is now dominant, not power.

Harm of others prevails, self-interest prevails.

Totally self-reliant, not God reliant.

Fear dominates all motivation.

Suicide is possible and probable.

At these levels, seriously harming others for even trivial events appears to be justifiable.

Poverty, unemployment, illness, etc., this is living hell on Earth.
