

PASCAS VILLAGE

Significant elements graphics:

1. PASCAS UNIVERSITY 5,000 student campus
2. PASCAS SANCTUARY HOSPITAL 300 beds, 12 operating theatres
3. MOVIE CITY 6 studios, 4 production houses, 3D facility
4. PASCAS MUSEUM – JOURNEY of HUMANITY 3 day visitation
5. SANCTUARY PARADISE VILLAGE accommodation and permaculture
6. PASCAS VILLAGE HUB shopping and administration offices
7. PASCAS LIBRARY and COMMUNITY FACILITIES university to public facility
8. PASCAS THEATRE – AUDITORIUM (900 seating capacity)
9. CHALDI TAFE COLLEGE technical and further education
10. CHALDI COLLEGE primary, middle and high school
11. CHALDI CHILD CARE CENTRE pre-school
12. PASCAS PARADISE GARDENS various nationalities represented
13. SPORTING FIELDS for university, school, residents and community
14. PASCAS VILLAGE AQUATICS Olympics and world championships
15. PASCAS CENTRE for ADVANCED TECHNOLOGIES 20 hectare industrial research
16. SUPER MEDICAL CLINIC diagnostics and annexed to hospital
17. PASCAS TELEVISION and INTERNET global communications
18. PASCAS RESIDENCES for medi-hotel, movie production, students and sanctuary
19. CAR PARKS undercover provisioning all elements – pedestrians and bicycles considered
20. SITE WORKS to set the stage and foundations for all of the above.

All of these elements have major subsets, all of these elements inter-link. They need to be harmonised and the environment moulded and presented to be in harmony and at peace with the overarching objective – global awareness that this is where humanity is ending the 200,000 year long Rebellion and Default and how to live Feelings First, should you so please. Our free will is sacrosanct and is to be honoured and respected at all times. And then is the GRAND OPENING!

PASCAS VILLAGE – FIVE SEGMENTS with a HUB:

Preferred Option being A

1. PASCAS UNIVERSITY

Campus for 5,000 students, with a comprehensive subject range, that demonstrates and leads to global implementation of Feelings First education at all levels and in all subjects, having been re-aligned to engage with Feelings First way of living.

2. PASCAS SANCTUARY HOSPITAL

300+ bed private hospital with specialist medical suites to provide full range of high end medical and surgical services. Super Pascas Care Medical Clinic – lead and training centre.

Such a hospital facility would provide tele-medicine support facilities throughout the country and neighbouring environment.

3. MOVIE CITY

Five major film studios with additional studios for 3-dimensional and graphic productions. Focus includes Feelings First theme and educational films.

4. PASCAS MUSEUM – JOURNEY of HUMANITY

Pascas Park takes us back one million years – brings us to today – then takes us on throughout our spirit journey to Paradise and introduces us to our future purpose. A three day visitor edutainment experience.

5. SANCTUARY PARADISE VILLAGE

Outside of structured platforms, individuals and families will be able to immerse themselves in all of what Pascas has to offer without constraints or obligations.

PASCAS VILLAGE CENTRE HUB

Community shops such as local delicatessen, groceries, range of restaurants and whatever is deemed appropriate. Theatre with seating for 900+ guests. Library for the community with meeting rooms to service needs of the four elements as well as local regional residents.

Pascas Child Care, Pascas School and Chaldi TAFE for the community and neighbouring residents. Short, medium and extended term accommodation. Student accommodation, medi-hotel sector, film makers accommodation and short term Sanctuary Paradise lodgings.

PASCAS VILLAGE – FOUR SEGMENTS with a HUB:

1. PASCAS UNIVERSITY

Campus for 5,000 students, with a comprehensive subject range, that demonstrates and leads to global implementation of Feelings First education at all levels and in all subjects, having been re-aligned to engage with Feelings First way of living.

2. MOVIE CITY

Five major film studios with additional studios for 3-dimensional and graphic productions. Focus includes Feelings First theme and educational films.

3. PASCAS SANCTUARY HOSPITAL

300+ bed private hospital with specialist medical suites to provide full range of high end medical and surgical services.

Such a hospital facility would provide tele-medicine support facilities throughout the country and neighbouring environment.

4. SANCTUARY PARADISE VILLAGE

Outside of structured platforms, individuals and families will be able to immerse themselves in all of what Pascas has to offer without constraints or obligations.

PASCAS VILLAGE CENTRE HUB

Community shops such as local delicatessen, groceries, range of restaurants and whatever is deemed appropriate.

Theatre with seating for 900+ guests. Library for the community with meeting rooms to service needs of the four elements as well as local regional residents.

Pascas Child Care, Pascas School and Chaldi TAFE for the community and neighbouring residents.

Short, medium and extended term accommodation. Student accommodation, medi-hotel sector, film makers accommodation and short term Sanctuary Paradise lodgings.

Option B

PASCAS VILLAGE – FOUR SEGMENTS with a HUB:

1. PASCAS UNIVERSITY

Campus for 5,000 students, with a comprehensive subject range, that demonstrates and leads to global implementation of Feelings First education at all levels and in all subjects, having been re-aligned to engage with Feelings First way of living.

2. PASCAS SANCTUARY HOSPITAL

300+ bed private hospital with specialist medical suites to provide full range of high end medical and surgical services.

3. PASCAS MUSEUM – JOURNEY of HUMANITY

Pascas Park takes us back one million years – brings us to today – then takes us on throughout our spirit journey to Paradise and introduces us to our future purpose. A three day visitor edutainment experience.

4. SANCTUARY PARADISE VILLAGE

PASCAS VILLAGE CENTRE HUB

Community shops such as local delicatessen, groceries, range of restaurants and whatever is deemed appropriate.

Theatre with seating for 900+ guests. Library for the community with meeting rooms to service needs of the four elements as well as local regional residents.

Pascas Child Care, Pascas School and Chaldi TAFE for the community and neighbouring residents.

Short, medium and extended term accommodation. Student accommodation, medi-hotel sector, film makers accommodation and short term Sanctuary Paradise lodgings.

Preferred option A is combining B & C within this one location. Site elements are to consider regional requirements.

Option C

1. PASCAS UNIVERSITY

Tutoring other students and practical experience are by far the greatest learning experiences. Life is about experiences and expressing what we feel from those experiences. We are to express what we feel at all times.

Every opportunity is to be provided for small groups of students to gather and discuss between themselves and ‘tutor’ each other. Presentations in formal education venues is to engage students to contribute to the presentation. The lecturer is to slowly enable himself to become redundant.

Meeting pods, pits, inside and out, balconies, garden settings, protected for all weather, in configurations for around 12 people are to be plentiful.

The mind is to second to our feelings, not the way it is today – mind dictating. Our truth is our feelings. This will require a refocusing of the structure of every subject. This will require the profound realisation that we have been led from birth the wrong way – the mind limiting and dead-end way.

Pascas University is to be able to support most students from around the world with scholarships, some with accommodation and even living allowances.

Pascas University is to introduce to the world the New Way, this will be assisted by the refocusing of subject material in a manner that students can consider the mind way or the feeling way of living.

To achieve a universal spread then all core subjects are to be facilitated and that potentially suggests a campus of 5,000 students or more. This will be further expanded by MOOC (massive open online courses) through internet learning.

Consequently, this form of presentation will also extend to the TAFE platform (technical and further education), high school, middle school, primary school and pre-schooling, always being sensitive and focused upon the needs of the student and their ages.

2. PASCAS SANCTUARY HOSPITAL

Firstly, treat the cause rather than just suppress the symptoms. Few have come to understand that our childhood suppression – that begins at conception through to age six years – is the underlying cause of all our illness throughout our adult life to death.

Feeling Healing is a process that benefits all within the family. The more Feeling Healing that we engage in directly benefits our children, thus over generations we can progressively achieve whole of life health and wellbeing.

None of us are free of depression of some degree and form – depression is a consequence of our childhood suppression and ongoing repression – we live our childhood throughout our adult life.

The Sanctuary Hospital will also include a super medical clinic. All of the facilities and professional services are to be structured to support tele-medicine throughout a desired region.

Sanctuary Hospital and Super Clinic, being next to Pascas University, is to be considered as a training hospital to support health carers in remote and emerging communities and as required throughout all locations within a given area.

With 300 beds and up to 12 operating theatres, coupled with a super clinic and its diagnostic systems, this with telemedicine for a large region of the world is a major medical facility.

3. MOVIE CITY

Six sound studios, typically 48 metres by 32 metres and being 15 metres or 18 metres high, are all impressive structures. Add to this the broadcast studios, the four production houses and the 3 dimensional production unit, this is a complex facility for production of film. Then there are the prop assembly factories and storage facilities to support the studios.

Part of the dynamics is that a large array of educational and entertainment material is to be produced engaging multi-ethnic casts providing multiple languages. This is a production program that will not have the barrier of language and cultures frustrate the viewer's needs. Productions of material will be for educational as well as entertainment in most of the humanity's significant languages.

The dissemination of information, guidance and awareness of Pascas WorldCare is about life style – a life style that is essential to bring about the Great U-Turn for all of humanity. What do we mean by the Great U-Turn? It means every family within every community of every country is to have the opportunity to consider the gifts to humanity that has become known. That gift is living feelings first rather than allowing one's mind dominate, and then to heal the damage that generations of mind domination has subjected us all to.

The establishment of Chaldi College as a Massive Open Online Courses (MOOC) will require large volumes of educational material to be assembled as internet ready. Chaldi College is to have a global campus of around one million students and is to primarily focus upon impoverished communities with the needs of women prioritised.

Pascas Media Movie City is to have its own television station which will be internet driven.

Pascas Media Movie City is to have its own radio stations which will be a local community service as well as internet accessible.

4. PASCAS MUSEUM – JOURNEY of HUMANITY

The Journey of Humanity is to commence nearly 1,000,000 years ago with the life of Andon and Fonta. Then we progress to 700,000 years ago with the assignment of the System Sovereign and Earth's Planetary Prince.

The introduction of the six skin colourings 500,000 years ago through the Sangik Family in north-eastern India and the following migration and reduction of colours through war.

The Rebellion by Lucifer and the submission of 37 humanities including Earth 200,000 years ago.

Meanwhile there are cyclical earth change events – micro-novas – and the redevelopment of the human race every 12,000-13,000 years. There have been prior larger populations than today, in some respects, some civilisations were more advanced than today's civilisation, but not overall.

The arrival of Adam and Eve more than 38,000 years ago (three pole-shifts back?) and their history.

Machiventa Melchizedek (4,000 years ago), Jesus and Mary Magdalene (2,000 years ago), and the setting of the stage for the Avonal Age of the coming 1,000 years, thus the ending of Jesus and Mary's age and their involvement with Earth these past 2,000 years.

What the introduction of the Avonal Age is all about, what the Feeling Healing is and what it leads to, that nothing of the systems founded under Lucifer will withstand the Light of Truth that is now coming about.

What is our purpose of being incarnated on Earth is about? How we can embrace a way of living through our Feelings that is ever so freeing and bountiful? These and more to be answered.

What our journey through the spirit Mansion Worlds will entail. Then our journey through the three Celestial Heavens, and then through Nebadon and all the way to Paradise.

We are to become Finaliters, what this means and then what may unfold for us.

This may be a three day visitation for the indepth visitor. There will be additional modules to 'refresh' the experience annually.

Te Papa's Gallipoli: New Zealand National Museum in Wellington, created with help from Weta Workshop, was opened 18 April 2015. With its popularity having pulled in more than 2.5 million visitors by 24 April 2019 (four years), the decision was made to keep it open until at least Anzac Day 2022.

5. SANCTUARY PARADISE VILLAGE

Short term accommodation is to provide living quarters for those engaged within the Pascas University, Pascas Sanctuary Hospital, Movie City and for those who seek an introduction to Living Feelings First within a Paradise Village environment before moving to a Paradise Village for a longer experience.

Permaculture and intensive small cropping is a feature of self-sufficiency that will be facilitated throughout all Pascas Villages. It is a village environment and children will find that they truly have a very large extended family – it takes a village to raise a child.

Pascas provides the knowledge base. Pascas Village provides the platform that functions on the sum of the knowledge base. In short: access to the sum of the knowledge base is always by choice.

Village-ism is the process of physically creating and maintaining all applicable knowledge contained in Pascas so all explicit and tacit knowledge is owned by ‘villagers’. Thus, communication and collaboration proceeds by synergistic effect of feelings first.

By understanding how all the facets of Pascas fit together, each facet helps the new way of living with everyone’s knowledge and talents contributing. Consequently a short term stay within a Pascas Village enables a thorough rounding of all the facets that are presented and accessible to all, that has been shared by our invisible friends, the Celestials, for all of Earth’s humanity since 31 May 1914.

“It would be so good to include some Anastasia influence by landscaping the whole village with living forests and by that I mean planting only trees and plants that can be used for living. Planting fruit trees and bushes, herb gardens, sourcing Siberian Ringing Cedars so the nuts can be harvested and eaten as well as an oil production from the Cedar nuts, harvested in the way Anastasia details. Every plant used in the village can be eaten as you walk around, picking yourself raspberries, strawberries, chives, herbs, apples and so on. Oh my God I would love that, just to be walking around and picking an apple off the tree and eating it so fresh or using the pine nuts and oil on my salads after buying them from the PASCAS PINE NUT PLANTATION. Everything you could possibly need all within the Garden. Pascas Garden of Eden, a living garden maintained by horticultural students at the University.” Sam

PASCAS VILLAGE CENTRE HUB

People from far and wide, from different cultures and customs will be resident, short term to medium term, at Pascas Village. Consequently the guest's traditions and customs are to be acknowledged through the provision of beverages including coffee and tea, breakfast cuisine, national dishes, thus requiring the equipping of kitchens to accommodate for the different food preparation methods. Kitchen administration will need to be appraised of guests' origins and preferences. Kitchen stores will need to be adequate to hold more diverse and wider ranges of ingredients as well as utensils and equipment.

Pascas Café is an open kitchen as well as a Meeting House, a coffee and tea hub, a bake house, with the ability and capacity to consider and provide Asian, Indian, European cuisine, thus to be able to provide for travellers' preferences. There will be popular food options with "Fresh is Best" branding.

Food diversity is to be available outdoors as well as indoors.

The village hub is to provide the traveller with the satisfaction and fulfilment that he or she desires without the need to leave Pascas Village to find what they long for.

The mix of stores and services within the village hub are to be assembled to accommodate the daily needs of several thousand people who may come to the complex daily.

COMMUNITY LIBRARY – GALLERY potential façade looking onto parkland:
Also to be next to the auditorium – theatre.

COMMUNITY THEATRE – AUDITORIUM 900 seating – looking onto parkland:
Also to be next to the library – gallery.

GLOBAL PRESENTER can converse to 24 individuals anywhere in the world in their language simultaneously. They can respond in their own language and it is received in the language of the presenter:

Note that this presenter is writing on an interactive ‘board’ that is conveyed as per the screen:

Pumped 5 of 6 pumps

Flatwater Rowing Course

Max. length 2,300 metres (7,500 feet)

Max. width 170 metres (560 feet)

Average depth 5 metres (16 feet)

PASCAS – Paradise Village is an adjunct for the world headquarters. Paradise Village is to be a residential arrangement for those who intend to focus and live feelings orientated. Pimpama Village is to be the global administration and innovative education centre to dynamical demonstrate the innovations and advances that have been revealed to Pascas throughout its formative years. Now it is to deliver these to the world in multiple formats as well as supporting the application of these evolutionary advances throughout the world, involving every nation and community as and when they welcome us.

A centre piece of Pimpama Village is Pascas University. It is to be a campus that is to expand up to 25,000 students in support of all nations from around the world. The first phase of Pascas University is to accommodate 5,000 students with a teaching faculty of 500 educators (1 / 10 ratio) and this teaching faculty may have a support crew of around 330 (60 / 40 ratio).

Many of these students, educators, support crew and Pascas administration may be accommodated in homes to be part of Pascas Village. Pascas is a Light House of Truth, consequently, the vibrancy and radiance of the structures is to be nothing short of dazzling.

As it is an education centre for the World, being a demonstration of what has been revealed to Pascas over the past decades, the Pascas University is to be complemented with a technical and further education campus (TAFE), a craft creations centre that is focused upon cottage industries and skills for men and women as well as their children, high school, middle school, primary school, pre-school and child care centres. The movie studio complex may include six sound stages plus auxiliary facilities.

Then there is to be a 400 bed private hospital with around 20 surgical operating theatres that will also be a training centre to support medical services and facilities throughout the Pacific Island Nations and elsewhere as appropriate.

As you can see, this is potentially is an instant community of possibly around 10,000 people who mostly will come to Pascas Village from overseas to accomplish their education and training before returning to their home country to carry on, partly in Pascas facilities to be established there.

A unique feature of Pimpama Village will be the minimum of 8 lane Olympic rowing course that will be 140 metres in width, 3.5 metres in depth, and is required to be for races of up to 2,000 metres having provision to assemble to race and then slow down after the race, its length needs to be at least 2,350 metres. All boat classes can row in mild winds, up to 10mph (16klmh). If the wind is out of the east or west, it can blow up to 15 mph, and you may still be able to row, though it will be rough. If the wind speed is in the 15-20 miles per hour range from any direction, you are best off staying on shore. The volume of water is equivalent to 460 Olympic swimming pools! This will create a major water feature that is to be taken advantage of by the people living on location during their endeavours with Pascas. Venue capacity was 16,000 for Tokyo Olympics – mostly at the finish line.

Many gathering points and socialising opportunities will be provided as well as the required catering and services along this boulevard – thus buildings being multi-use in construct.

The far side of the rowing course may provide the white water rafting competition course and many of the sporting facilities for the education units (university, school, hospital, community, etc.). These facilities will be of standards most suitable for international competition.

PASCAS VILLAGE CENTRE for ADVANCED TECHNOLOGIES

Centre for Advanced Technologies

A land area of around 20 hectares (50 acres) is required to establish an Industrial Research Park forming a Centre for Advanced Technologies (CATs) – one of several collaborating around the world.

PASCAS SANCTUARY VILLAGE GARDENS:

Gardens are to feature various nations and be considered appropriate for movie making settings:

GREAT -Turn

Multiple sequels:
 “New Way”
 “End Times”
 “Spirit Earthing”
 “Pathway Home”
 “Never Ending Journey”

GRAND OPENING

MULTIMEDIA
MOVIES AND
MUSIC

Students of the Pascas University may consider evolving a major musical production to be staged upon the opening of a ‘Pascas Village’. Such production to excel in the qualities of the Rocky Horror Show, Jesus Christ Superstar and the Coronation of King Charles III and Queen Camilla. The stage show being then played on all of the continents upon respective openings of further centres, and then even Broadway!

The students from within the faculty of Multimedia, Movies and Music to write the script, the music and choreograph the show. They may engage symphony orchestras to participate. Outside musicians and entertainers to be engaged for prominent parts but students mostly to make up the caste. Opening of the show and participants to involve students from all over the region in which the complex is within. Students are to officiate and be responsible.

Officiating
