PASCAS HEALTH SANCTUARY

GLOBAL CENTRES of EXCELLENCE

Brazil **Nigeria** **Australia**
South Africa

Hierarchy of Holistic Medical Services

Remote Areas:

- **Telemedicine via call centres supported by the medical teams at each of the Centres of Excellence in the Brazil, Nigeria, South Africa and Australia. These Centres have alliances with world renowned medical units around the world that will be accessed as and when required.**
- **Telemedicine Kiosk: Through satellite communications, the kiosk enables remote access to telemedicine diagnosis and treatment. The Kiosk features diagnostic camera, three lead ECG, retinal scanner, a camera for video-conferencing, video screen, vital signs measurement and a defibrillator. Should the Kiosk (being a laptop unit) be unable to communicate with the greater network, in built diagnostics are able to provide analysis of results.**

Rural Areas: Pascas Care Centre

- **Medical Clinics may consist of as few as one Clinician. However, he/she is to have satellite broadband communication linkage to the core centres within the network.**
- **Third world remote clinics will focus on:**
 - **Pre-natal / post natal services.**
 - **Immunisation**
 - **Dental**
 - **Eyes**
 - **Nutrition**

Urban Clinics: Pascas Care Centre

- **General Practitioners / Physicians will be supported by visiting specialist:**
 - **Obstetrics & Gynaecology**
 - **Orthopaedics**
 - **Dermatology**
- Supporting units will incorporate:**
 - **Pharmacy**
 - **Optometry**
 - **Physiotherapy**
 - **Radiology**

Integrative Medicine which incorporate natural healing methods to improve and/or restore function. Integrative Medicine allows medical practitioners to combine successful natural and complementary therapies within the framework of orthodox medical training to provide better clinical results with less invasive therapies.

Thus, there is a progression in size and complexity within the satellite health and healing units that can be anywhere in the world, all being linked back to the Centres of Excellence.

PASCAS HEALTH SANCTUARY – HOSPITAL

Page 1

MEDICAL ACCOMMODATION

300 Beds being:	No.	Wards consisting of	Beds
Intensive Care	10	200 Private	200
Coronary Care	10	30 Twin Share	60
Surgical	190	5 Four Share	20
Medical	90	Other	20
	-----		-----
Total	300	Total	300
	====		====

Secretarial serviced wards

Private only 30

Hospital and associated facilities are positioned to support the needs of international business people.

THEATRE FACILITIES

Operating Theatres 8 major, one equipped with audio
visual teaching aids & viewing area

Day Theatre complex with 4 operating theatres

SURGICAL

Surgical facilities will allow:

Neurosurgery	Ophthalmic
E.N.T.	Dental
Urology	Vascular
Orthopaedic	Micro Surgery
Gynaecology	By-pass Surgery
General Surgery	

The theatres will be equipped with ultrasonic and laser equipment which will be able to be used in the areas of urology, gynaecology, ophthalmic, neurosurgery and vascular. Theatre equipment will encompass micro video systems which will enhance accuracy and speed within the specialities of orthopaedics, cardiology, urology and gastroenterology as well as providing patient records.

PASCAS HEALTH SANCTURY HOTEL – MEDI-HOTEL ACCOMMODATION

Hotel with 420 suites for health related accommodation:

- Relatives of patients
- Cancer Therapy
- Rehabilitation
- Drug and alcohol counselling
- Weight control
- Post operative recovery
- Day care services
- Psychiatric services

STAFF, PATIENT & VISITOR RETAIL

Retail outlets - complex related

- Bakery (Organic - Demeter style)
- Beauticians
- Florist
- Gift Shop
- Hairdresser
- Health Food
- Newsagency
- Pharmacy
- Medical Aids
- Restaurants
- Natural medicines
- Alternative Therapies
- Alternative Health Products
- Other medical related services

CHILD MINDING

- Child minding facilities
- Children's adventure land
- Licensed Kindergarten
- Creche both day and night service

GENERAL

- Games room - tennis court - pool
- Gymnasium and aerobics
- 500 car spaces

PROFESSIONAL SUITES

Medical services are managed by Streamers (diagnostic specialists) who co-ordinate treatment through all modalities.

Medical Centre	6 suites (open 24 hours)
Complementary Therapies	30 suites & lecture / meeting rooms for 400
Specialist rooms	10 suites
Dental Unit	3 suites
Dietician	
Optician	
Speech Pathology	
Occupational Therapy	
Rehabilitation	
Auxiliary medical suites	
Oncology / Cancer Clinic complex	consisting of facilities to service the 20 sub-clinics.

SUPPORT SERVICES

X-ray Unit, CT Scanning, Digital Imager
 Radiotherapy Unit
 Blood Purification Unit
 Pathology Laboratory
 Catheter Laboratory
 Physiotherapy Unit
 Hydrotherapy Facilities

DIAGNOSTIC & MEDICHECK

incorporating and supporting Super Specialty Units

Diagnostic services and facilities

angiography	E.C.G.
holter monitoring	audiometry
stress testing	medicheck
cardiac catheterisation	lung function testing
	kinesiology

RESEARCH & EDUCATIONAL

Meeting - lecture - auditorium rooms – library satellite network connected as well as traditional.
 Diagnostic services link to the world wide satellite services.
 Research & university facilities. Call centre and communications linking all facilities.

GOVERNMENT

Day Care Facility for the Elderly
 Community Health facilities
 Children Services facilities.

PASCAS HEALTH SANCTUARY

COMPLEMENTARY THERAPIES within Centres of Excellence facilities:

Alternative Medicine and/or Alternative Therapies, being Complementary Medicine, incorporate:

- Acupuncture
- Anthroposophically Extended Medicine
- Ayurveda
- Community-Based Health Care Practices
- Environmental Medicine
- Homeopathic Medicine
- Latin American Rural Practices
- Native American Practices
- Natural Products
- Naturopathic Medicine
- Past Life Therapy
- Shamanism
- Tibetan Medicine
- Traditional Oriental Medicine

Bioelectromagnetic Applications

- Blue Light Treatment & Artificial Lighting
- Electroacupuncture
- Electromagnetic Fields
- Electrostimulation & Neuromagnetic Stimulation Devices
- Magneto-resonance Spectroscopy

Diet, Nutrition, Lifestyle Changes

- Changes in Lifestyle
- Diet
- Gerson Therapy
- Macrobiotics
- Megavitamins
- Nutritional Supplements

CLEAN AIR

AEROHARMONICS PRODUCTS

Air that is conducive to good health at all times.

The Molecular Vapour Generator (MVG) utilises of one or more organic solution(s) that is deployed in its molecular state, remaining suspended and working with incredible efficiency resulting in costs of operation and efficiencies far in excess of alternative methods and products. Existing units process 10 million litres of noxious and/or contaminated air per day and are scaleable up to 50 million litres per day.

Atomic Deodorisation, Detoxification, Decontamination Unit (ADDDU), a chemical reactor, breaks the chemical bonds of unwanted gaseous compounds that pass through the unit, resulting in output besides clean air and other end-products, such as CO₂, H₂O and some elemental sulphur. Capacity to treat contaminated air streams is from 50 millions litres per day, scaleable up to what ever is required.

HEALTH DOME

HEALTH DOME

The **Health Dome** needs to be viewed internally as a hologram.

Each health modality interconnects and is complimented and supported by each and every other health modality.

No one process or practice is an exclusive solution.

If you were to say that one practice or solution stands out above and beyond all others at the pinnacle of the **Health Dome** then that would be **Love and Forgiveness**.

The basic malady found in people is self-hatred. Self-hatred is the basic inner illness in all of us, but just how that self-hatred and non-acceptance of the self manifests is shown in our different character structures. As we work to understand our dynamics on a daily level, we can learn to accept ourselves through this process. Self-love is the greatest healer, and self-love also requires daily practice.

The broad view of the healer encompasses the totality of the human being. In healing there is no separation between body and mind, emotions and spirit – all need to be in balance to create a healthy human being. The healer focuses on physical, psychological and spiritual malfunction. It is impossible to do healing without affecting the psychological levels of the personality. The more the healer understands the psychodynamics of his/her clients, the more the healer will be equipped to help the clients heal themselves.

Finding the initiating cause of an illness is always a key part of healing.

The objective, from within the Pascas Care Health Dome, is to treat the cause much more so than just treat the symptoms. Re-occurrence of many illnesses is due to the non-treatment of the cause.

“All dis-ease is mind generated, and all healing is generated by the love energy of one’s soul.”

The Ego (mind based) manifests illness; the lower one’s level of consciousness (soul condition) then the more prevalent will be illness. Below the levels of 200, the ego and fear of the mind dominate; however, as you raise your level of consciousness by growing in love and achieve a level of 500 or higher, you begin to transcend ego dominance. At the level of 600, all healing is possible.

MAP of CONSCIOUSNESS					
God-view	Life-view	Level	Log	Emotion	Process
Self	Is	Enlightenment	700 - 1,000	Ineffable	Pure Consciousness

Streamer – Case Manager	

Streamer's Meeting

Integrated health management incorporates:

- Painting a health picture.
- Understand the physical, psychological, emotional and behavioural symptoms of stress.
- Interpreting case history of a client in a holistic way, building up a picture of the progression of any conditions, chronic or otherwise, from their past and even from their parents.
- Holistic Diagnosis.
- Understand the importance of good nutrition.
- Understand the role of exercise in staying healthy.
- General health management for practitioners.
- Understand the link between the energy healing and physical and mental health.
- Practise of basic energy work and therapeutic touch.
- Learn how to self-heal and teach it to others.
- Working with the Mind and Vibrational Energy.
- Use the techniques you have learnt to achieve the life you want now.
- Putting the Theory into Practice.

The **Pascas Care Health Matrix** melds allopathy (western) medicine with complementary (alternative) therapies with continual blending of advanced practices and sciences, all contributing to the objective of treating the cause more so than the symptoms, with the patient being responsible for their own health management programs.

Pascas continues to draw on new practices, innovations, sciences, protocols to support health management programs and deal with diseases that are decidedly difficult to manage – all with a focus of delivery of services in remote and emerging economies.

The following information is a general introduction into various styles and systems of holistic health management – all practices have something to contribute. It is **Pascas's** agenda to focus on those practices with the highest level of efficacy and appropriateness for desired health management programs.

Through the diagnostic streamer, patients / clients are able to obtain an understanding of the health care programs available and resolve the program to be supported by the management of the streamer and his team.

ALLOPATHY PROFESSIONAL MEDICAL TEAMS - OVERVIEW

Briefing notes by Dr Daniel T O'Connor who will act as liaison officer and be instrumental in the establishment of the medial advisory committee which is to consist of 12 to 22 members:

The team concept as per these headings for the Pascas Health Sanctuary and Clinics goes like this:

NEUROSURGERY:

A neurosurgical team includes neurosurgeons capable of dealing with intracranial, spinal and peripheral neurological disorders. They are supported by neurophysicians for diagnostic work as well as radiologists and various therapists who are involved post-operatively. A neurosurgical team also requires that there be nursing staff with expertise in the management of neurosurgical cases.

EARS, NOSE & THROAT - ENT:

In addition to orthodox ENT surgeons there is a need for an endoscopic sinus surgeon, laser surgeon, head and neck surgeon, along with support and speech pathologists, speech therapists, radiologists, etcetera.

UROLOGY:

Surgeons and urologists co-operate most frequently in the discipline of urology. A urologist with paediatric experience or a paediatric surgeon with urological experience is also essential as well as support physiotherapists etcetera.

ORTHOPAEDIC:

General orthopaedic surgeons would be needed plus arthroscopy experts, hand surgeons, microsurgions, trauma surgeons. Physiotherapy and orthopaedic surgery can't survive without each other.

TRAUMA SURGERY:

Trauma surgery is a special consideration as the Hospital will have a busy accident and emergency department so there needs to be readily available general surgeon with trauma experience; orthopaedists, neurosurgeons, etc, twenty-four hours a day to back up the Accident and Emergency (A & E) department and with the ability to call in other surgical disciplines as required for example, ophthalmic, plastic, etcetera.

GYNAECOLOGY:

Gynaecological surgery is now split into general gynaecology, cancer surgery, endoscopic surgery, colposcopic and laser surgery. Either way, the hospital will require several experts or gynaecologists with multiple expertise.

IN-VITRO FERTILISATION - IVF:

There is no mention of IVF in the projected work areas and this may well be of consideration for Pascas Health Sanctuary. For IVF there is need in addition to endoscopic surgical expertise, a dedicated laboratory support team for efficient function as well as support counsellors, etcetera.

Radiology / ultrasound are an integral part of gynaecological services these days.

GENERAL SURGERY:

General surgeons have split their expertise so there are now colorectal surgeons, breast and endocrine surgeons, vascular surgeons, endoscopic surgeons, and so on. Their teams include radiology / ultrasound, alimentary tract endoscopists, endocrinologists, pathologists, physiotherapists, etcetera.

Paediatric surgery is a highly specialised area which encompasses endoscopic surgery as well as plastic surgery and requires special theatre facilities and post-operative care teams.

OPHTHALMIC SURGERY:

Eye surgeons now specialise in the anterior and posterior chamber of the eye, plastic and reparative / corrective surgery, laser surgery, lens extraction and implants, and work on a mix of day case and inpatient care. They require orthoptists and trained ophthalmic nursing staff as part of their team.

DENTAL and FACIOMAXILLARY SURGEONS:

They work in the same area and need radiological, pathology and physiotherapy support.

PLASTIC and RECONSTRUCTIVE SURGERY:

Plastic and reconstructive surgeons include microsurgical repair teams, reconstructive surgery and head and neck surgeons who again require radiology, pathology, physiotherapy and special nursing care staff.

CARDIO THORACIC:

Cardiac by-pass surgeons need the assistance of cardiologists, radiologists, perfusionists as well as physiotherapists and highly skilled intensive care nursing personnel.

This list is not exhaustive but aims to provide an idea of the teams that are required for the various surgical units that Pascas Health Sanctuary Hospital being established on the Gold Coast, Queensland, as well as the Bahamas and South Africa and elsewhere during the construction and fitout period.

You will note that there are particular support disciplines common to all surgical teams - for example, radiology, anaesthetics, physiotherapy and nursing care.

For many of the surgical disciplines specialised nursing skills are required - for example, ophthalmic, orthopaedic, paediatric and so forth.

ONCOLOGY - CANCER:

When looking at the relevant cancer treating teams you add to the basic unit specialist radiotherapists as well as radiologists and these are two separate areas of expertise with the frame work of radiology, chemotherapy specialists and pathologists, counsellors and support staff and the usual management goes like this:

A patient is diagnosed with a malignancy. Pathological confirmation is obtained and the relative oncology unit usually considers the individual in committee and allocates a therapeutic management protocol for the ongoing care of the patient. For this purpose special specific discipline oncology clinics are held where follow-up is also maintained after initial treatment. These clinics are usually held on a once a week basis and there would be in attendance, for instance say for gynaecology, the patients gynaecological cancer surgeon, radiotherapist, chemotherapy specialist, support nursing staff or counsellor and pathologist.

These special discipline teams usually meet on a weekly basis where they see new cases and follow-up cases and of course function all year round.

One reason why it is important to make sure there is two of every type of surgical specialist on the staff is that there is always people away on leave or at courses and so forth, and if there is only one person then everything grinds to a halt during their absence, whereas if with at least two then these clinic services go on irrespective.

CARDIOLOGY:

Similarly with heart disease patients, the diagnosis involves triage by clinical history and examination, stress test, angiography and perhaps nuclear medicine, and then a committee of the cardiology clinic may allocate individuals to different therapeutic programs - for example, angioplasty or CABG surgery or palliation only, etcetera.

Within the cardiology clinic there will therefore need to be cardiologists, interventional cardiologists, radiologists, cardiac surgeons, as well as anaesthetists with specialised skills and perfusionists, physiotherapists, dieticians, psychologists, etcetera.

RADIOTHERAPY UNIT:

There will be a need for two of everyone covering radiation oncology, medical oncology, radiographers covering planning and treatment, nursing staff that are oncology trained in therapeutic radiation, physicists, x-ray engineers and pharmacist – pharmacy to be equipped with laminar flow unit. Patient care has two groups, a day care unit to accommodate 10 in a quiet area with observation and the other being a cluster of wards for the more serious cases. A radiotherapy director is to be appointed.

DIRECTOR of MEDICAL SERVICES:

Each clinical service will have its own director who, in turn, are to be supported by a Director of Medical Services as appointed by Pascas Health Sanctuary.

BLOOD PURIFICATION

These unique OZONE systems (above) have been developed over 22 years of intense research. They have been tested in several invivo studies involving thousands of patients.

One of the most important mechanisms of this process is in stimulation of the immune system and the detoxification of bodily functions. The application of these treatments are very easily applied, allowing doctors and nurses to be trained comfortably within 72 hours by fully competent international trained personnel.

What you are seeing here is the very dark, almost black, unhealthy blood as it leaves the body of the patient. The other hose with the red blood is what it looks like after it is treated and purified with ozone. You can see the dramatic change in the colour of the blood. It is now clean and is the colour of healthy blood and is ready for reintroduction to the blood stream. This process is completely painless and the patient is free to leave five minutes after receiving the treatment.

LIST of DISEASES that can be SUCCESSFULLY TREATED using OZONE

Acne Rosacea	HIV
Arthritis	Hypercholesterolemia
AIDS	Internal Haemorrhaging
Alzimers	Irritable Colon
Anthrax	Japanese Encephalitics
Arthrosis	Joints
Asthma	Laryngitis
Athlete's Foot	Lesions
Bacterial Infections	Liver
Bed Sores	Liver Cancer
Bladder Infection	Lung infections
Brain Cancer	Lymphoma
Breast Cancer	Marburg Virus
Bronchial Asthma	Malaria
Burns	Menopause
Cardiovascular Diseases	Multi Sclerosis
Cerebral Cancer	Muscle Cramps
Chronic Fatigue Sdyndrome	Mycosis
Cirrhosis of the Liver	Optic Nerve Disorders
Circulatory Disturbance (arterial)	Orthopedics
Circulatory Disturbance (venous)	Osteomyelitis
Climacterium	Parasitical Infections
Cold & Flu Virus	Parkinson's
Colon Disorders	Pneumonia
Constipation	Polyarthritis
Cytomegalovirus	Polio Encephalitis
Cystitis	Prostate Cancer
Decubitus	Radiation (effects thereof)
Dental Applications	Raynud's Disease
Depression	Respiratory Stress
Diphtheria	Respiratory Viral Infection
Epidermohyton	Rift Valley Fever
Eboli	Scar tissue
EBV	Segmental Pain
Epithelium Infections	Shingles
Exhaustion	Skin Cancer
Fatigue	Skin Infections
Fibroid	Spondylitis
Fibromyoma	Stomatitis
Fistulae	Sudeck' Disease
Fungus Infection	Throat Glandular Infections
Furunculosis	Thrombophelbitis
Gangrene	Thyroid
Genital Discharge	Tuberculosis
Geriatrics	Tumour
Hashimoto's Thyroiditis	Typhoid
Haemorrhagic Disease	Ulcus Crusis
Heavy Metal Poisoning (Mercury)	Varicosis
Hepatitis A B C D E F	Viral Infections
Herpes Genitalis	Yeast Infections
Herpes Labialis	Yuppie Disease
Herpes Zoster	

MAGNACARE & DIAPULSE

The primary principle behind all of the Magnacare products is to encourage the fundamental physiological processes to stimulate natural healing and regeneration of tissue. In simple terms the Magnacare products encourage the body to heal itself.

There has been a great deal of research, investigation and clinical trials to verify the efficacy of the Magnacare products.

All of the Magnacare products are listed under the Australian Therapeutic Goods Act, (TGA).

All of the Magnacare products are listed under the Food and Drug Administration of USA.

Magnacare have focused development on the molecular level so as to be able to treat the cause as well as the symptom.

To the right is a demonstration of Diapulse at work.

HAND INJURY

Patient: 54 year old male

Hand was caught in metal working machine causing destruction of tissue and double fracture of the thumb and index finger.

Surgery performed two (2) hours after accident. Fractures were reduced and wounded tissue was closed with 35 sutures.

therapy was instituted three (3) times a day for nine (9) days. Treatments began immediately after surgery.

There was no analgesic required during the entire nine day period.

In summary . . .

- the Magnafield is very effective for pain relief and the promotion of healing,
- the ACU-TREAT is an electronic device which locates and treats traditional acupuncture points and trigger points for immediate pain relief,
- the MAGNATENS is a pain relief device which can be worn on the belt or carried in a handbag or pocket for on-going relief of pain,
- the MAGNAGRAPH is a computer-aided assessment device which can, with the aid of a medical pleth attached to the index finger detect the movement of individual red blood corpuscles and download data in real time which can deliver vital information regarding patient health and response to medication.

ProCell Corporation

OVERVIEW

ProCell's new delivery modalities will promote both stability (drug) and the appropriate cellular interactions (vaccines). This includes a novel vaccine adjuvant for boosting the immune responses induced by classical vaccines as well as individual vaccine components.

All products will be able to be taken by mucosal administration (drinking, eating, inhaling).

Employing plant production, cost of vaccines produced will be reduced to between 100th to 1,000th in cost. Vaccines include:

- Nerve Agent Antidote – Butyrylcholinesterase – (BChE).
- Edible human immunodeficiency virus (HIV) Vaccine (for developing countries).
- HIV p24-based viral load assay.
- HIV and any viral protein components, being plant derivatives, for production of vaccines and for diagnostics.
- Virus-based adjuvant future
- Orally administered treatment for haemophilia future

Utilizing the Company's novel technologies, *ProCell's* diagnostics assays, biologics, and vaccines will exert their benefit by providing significantly enhanced sensitivity, quality, ease of use, clinical efficacy, and safety.

Each of the core technologies listed above can be enabled and applied to specific aspects of HIV, hemophilia and nerve agent protection.

Am I Hydrated? Urine Color Chart

1		<p>This urine color chart is a simple tool you can use to assess if you are drinking enough fluids throughout day to stay hydrated.</p> <p>If your urine matches the colors numbered 1, 2, or 3 you are hydrated.</p>
2		
3		
4		<p>If your urine matches the colors numbered 4 through 8 you are dehydrated and need to drink for more fluid.</p>
5		
6		<p>Be Aware! If you are taking single vitamin supplements or a multivitamin supplement, some of the vitamins in the supplements can change the color of your urine for a few hours, making it bright yellow or discolored.</p>
7		
8		<p>If you are taking a vitamin supplement, you may need to check your hydration status using another tool like Handout #15: Hydration Check: Body Weight Log.</p>

NOTE: Kinesiology muscle testing will not function if either party involved is dehydrated.

KINESIOLOGY & PHYSIOTHERAPY

Kinesiologists centres provides Physician, Physiotherapist and Kinesiologist diagnostics and recommendations to insurance providers and instructs rehabilitative techniques to the individual insured. Teams consists of a Physician, Physiotherapist, Psychologist and four Kinesiologists all with extensive experience and knowledge in their respective disciplines. The educational approach to rehabilitation delivers the knowledge and techniques clients require to reduce pain and restore standard of living by increasing joint range of motion and functional strength. A flexible and adaptable problem based approach takes into consideration the needs of both the client and the insurance provider and is in turn both efficient and cost effective.

HYDROTHERAPY

PAIN CLINIC

Reducing pain is the first and most important need for any sufferer, especially a cancer sufferer. It is a patient's right to have pain relief. You may be in excruciating pain, and on morphine because no other painkiller "touches it". Or you may be stoically "putting up" with it, not sleeping, barely able to get up from your chair to get to the bathroom. Pain is the true master of us all. It even takes away our initiative to get well. If a cancer sufferer has decided to give up the battle, this wish should be understood and respected. But removing pain can change all that! And initiative and determination to conquer this disease can return.

A Pain Clinic is annexed to a Cardiac Clinic in the following way:

Provide a full range of analgesic techniques, aids for rehabilitation and stress management. Post operative cardiac patients require substantial pain relief, usually pharmacologically. Additional hydrotherapy could speed post-op recovery rate. Furthermore, relaxation training including biofeedback and psychological rehabilitation would be valuable from the points of both:

Preventative – stress management helps avoid re-occurrence, etc.

Rehabilitative – helps avoid post surgical neurosis and depression.

A Pain Clinic annexed to a cardiac clinic would place more emphasis on the following services:

Psychologist, physiotherapy, pharmacology (usually the surgeon undertakes the role of pharmacologist).

A Pain Clinic annexed to a Cancer Clinic would place more emphasis on the following services:

Anaesthetist, Neurosurgen, Rehabilitation and Relaxation, Pharmacologist (being a general physician).

The JOURNEY process for KIDS

Junior Journey

Using The Journey with kids is a practical and effortless way to help children clear personal issues, liberate the innate genius within, allow natural abilities to shine and their spirits to soar. The results kids experience are as profound and deep as with adults attending The Journey Intensive programs.

Treatment and Prevention of Child Abuse

[Childhelp USA® Home](#) | [Site Map](#) | [Donate](#) | [Contact Us](#)

Childhelp USA® exists to meet the physical, emotional, educational, and spiritual needs of abused and neglected children. They do so by focusing our efforts in the areas of treatment, prevention, and research.

NOVA SILIQUA – ORION HEALING

Nova Siliqua nurtures the “seed within”, to promote educated, informed and prayerful healing.

The body has an innate healing system of wisdom that allows us to heal anything the body has created.

Nova Siliqua nurtures this belief with the use of Vianna Stibbal’s Orion / Theta Healing Processes.

With training, this process of prayerful healing and lowering your mind’s activity to theta (4 - 7) cycles per second, we are able to co-create with “God / Creator of all that is” healing for our selves and others.

The simplicity of Orion / Theta Healing occurs as the trained practitioner quickly and easily shifts into a theta brainwave state.

By accessing this deep theta state, and with the client’s permission, the practitioner moves his / her consciousness into the persons body for purposes of viewing and healing physical, emotional, spiritual issues.

Rest assured, technique is for everyone, Orion / Theta Healing has already helped thousands of people in countries around the world, regardless of age, gender, religion, race, creed, and colour.

When you learn this simple process, you will see the importance of spreading this knowledge.

In the same way, as the Journey Process is for Adults as well as for Children, the Nova Siliqua / Orion / Theta Healing process is for adults and children, all being a form of true prayer.

TRUE PRAYER – WHEN THREE BECOME ONE

All possibilities have already been created and are already present. Rather than forcing solutions upon the events of our lives, we are invited to choose which possibility we identify with, and live as if it has already occurred. Clearly, this is not to suggest that our “will” is imposed upon others in the form of prayer. Rather, it is our willingness to allow for all possibilities without judging any of them, and knowing that we may attract or repel each through the choices we make in our lives that provides the subtle difference. Choosing an outcome through prayer does not guarantee that it will come to pass; our prayer simply opens the door to the possibility of that outcome. The question now becomes, How may we bring specific outcomes into the focus of the present through prayer?

Thought, feeling, and emotion as unaligned patterns.
In the absence of union, they may lose their focus.

The key to choosing one outcome from among many possible outcomes is our ability to feel as if our choice has already come to pass. From the previous definition of prayer as ‘feeling’, then, stated another way, we are invited to find the quality of thought and emotion that produces such a feeling – **living as if our prayer had already been answered**. For how may we benefit from the effect of our thought and emotion, if each pattern is moving in a random direction? If, on the other hand, the patterns of our prayer are focused into union, how can the ‘stuff’ of creation fail to respond to our prayer?

CELL MEMORY

“The molecules of emotion run every system in our body, and this communication system is in effect a demonstration of the bodymind’s intelligence, an intelligence wise enough to seek wellness, and one that can potentially keep us healthy and disease-free without the modern high-tech medical intervention we now rely on.”

The Seven Levels of the Auric Field

The Seven Layer Auric Body System
(Diagnostic View)

SEVEN LAYERS of the AURA

**Ketheric Template Body – Causal Body – Divine Knowing
– Spiritual Body (soul, senses and memory)**

Celestial Body – Divine Loving

Etheric Template Body – Divine Will

Astral Body - Loving

**Mental Body (very active mind, consciousness and
domain of the ego)**

Emotional Body – Real Feeling

Etheric Body (incorporates Chakras) – I Exist

Physical Body (including the brain) - Beingness

The Physical → The Aura → The Hara → The Core Star

Each level is a quantum leap over the prior.

The Core Star is said to be the 26th level of the Auric field OR is it the sum or all levels?

CONES of PERCEPTION

A. Graphic depiction of our perceptual cone

B. Spiritual interpretation of our cone of perception

Our Perceptual Cone

B. Cone of perception limited by definition of personal reality

Defining the Boundaries of Our Perceptual Cone

A. Cone of perception increased by high sense perception

Internal scanning

B. Fibroids and disfigured chakra

A. Pelvic Inflammatory Disease, ovarian cyst and fibroid

Internal Viewing
(Diagnostic Views)

Hara of a Healthy Person

The haric level is one quantum leap deeper into your nature and one dimension deeper than the aura. The haric level is the foundation upon which the aura rests.

The Core Star (level 26 of the Auric field)

The core star level is a quantum leap deeper into who we are than the haric level and related to our divine essence. Each star is the internal source of life within. In this inner place, we are the centre of the universe. Here is localised the divine individuality within each of us. From this place within each of us, we live and have our being. We recognise it easily as that which we have always known ourselves to be since birth. In this place, we are wise, loving, and full of courage.

TELEMEDICINE SERVICES

Telemedicine can deliver a range of services including education, consultation, diagnosis, treatment, support, information storage, and governance. Health-related transactions can deliver services directly to users in a fast and cost-effective manner regardless of time and place.

Many instrumental investigations not accessible in the districts are now possible. There is maximum possible coverage of medical problems and less need for rural patients to be transported to district hospitals.

Services to be supported via telemedicine unit of Pascas Health Sanctuary are summarized below:

- Library of topic-specific information.
- Interactive courseware and training.
- Patient histories.
- Consultation.
- Diagnostics (including radiology, echo cardiology, pathology, ultrasound, high risk pregnancy monitoring, foetal heart monitoring, electro cardiology, stethoscope).
- Treatment.
- Rehabilitation.
- Medical supplies to patient.
- Medical supplies to institutions.

ConxTel Communications Limited is a **wireless over satellite broadband communications** carrier providing services through their patent pending ConxTel Community Hub.

EDUCATION DYNAMICS

Symbolically, the iceberg is a good representation of the undiscovered potential in all of us.

The **Digital Dictionary Code (DD-CODE™)** is a program to teach reading and speaking skills to students of all ages and ability levels and regardless of mother tongue. DD-CODE™ translates the international phonetic symbols into a coloured letter and number code format which is universal for the visualisation of syllables and the sound to letter associations required for written English.

The product imparts adult-learned reading ability, which is normally learned over many years, to very young children.

The Mamone Family have, single-handedly, discovered a Universal Sound to Letter Code, which enables children to read and speak on the adult level on almost instant exposure to DD-CODE. The DD-CODE is a 1 to 1, Sound to Letter Correspondence without any exception to the Rule.

The DD-Code can be applied to ANY language.

The DD-CODE is the only discovery, which can and is eliminating illiteracy all over the world, virtually overnight.

Discover the mysteries of **Vedic Mathematics**, Sacred Geometry, Magic Squares and the Golden Mean.

Teacher and author of 8 fascinating books, beautifully hand-written in calligraphy; Jain has always been drawn to the spiritual and mystical. His work with Vedic Mathematics, a 12,500 year old Indian system of Mental Arithmetic... empowers students to perform mental calculations, in many cases quicker than a calculator.

This is an alternative approach to Mathematics encouraging students to perform mental calculations based on 16 Sutras (definitions). With practise it eliminates the dependence on the electronic calculator, instilling confidence and memory skills in the process. Often very poor maths students find they can excel with this visually-based system.

Jain will help you discover Sacred Geometry; Maths as Art, Maths as Science and Maths as History.

PASCAS MULTIMEDIA

URBAN RURAL TECHNOPATH Pty Ltd

Urban Rural Technopath Pty Ltd (URTh) provides multidisciplinary and comprehensive professional services that enables new technology installations in remote areas to succeed.

URTh is to rationalise existing resources within the remote community, its needs, and the opportunities available through the extensive range of innovations and technologies that have been assembled by URTh's companion entity, Centre for Advanced Technologies (CATs).

Given consensus on the program to be initiated, URTh is to project manage the infrastructure development and the installation and commissioning of the appropriate new technologies and industries for the remote community and region.

CATsberg symbolically is a good representation of the undiscovered potential in us all.

Most often it takes another person with an uncluttered but observant mind to see what has escaped many of us. A breakthrough concept or perhaps new approaches otherwise hidden from our perception.

It is common to reach for the telephone to call an associate for an opinion. Less common is the ability to feel completely at ease with a stranger who has our best interest at heart.

CATsberg is our symbol to introduce to you that the Centre for Advanced Technologies is here to share the journey through your business and personal life in a way that can make a difference to you and the way you feel as you grow your intellectual property.

PASCAS CARE CENTRE will facilitate the introduction of new technologies into communities where PASCAS has facilities. PASCAS will make available from within its regional premises, offices, communications and training facilities to enable growth of employment and prosperity to be accessible to its constituents, be they patients or local regional residents. New technologies will be introduced through the separate management of URBAN RURAL TECHNOPATH who will draw on new innovations from around the globe, such as CENTRE for ADVANCED TECHNOLOGIES.

Pascas Care Centre

A Pascas Care Centre in an emerging economy may facilitate and focus upon the following:

- **Medical Clinicians with satellite broadband communication linkage to the core centres within the network.**
- **Focus on:**
 - **Pre-natal / post natal services.**
 - **Immunisation**
 - **Dental**
 - **Eyes**
 - **Nutrition**
- **General Practitioners / Physicians will be supported by visiting specialist:**
 - **Obstetrics & Gynaecology**
 - **Orthopaedics**
 - **Dermatology**
- **Units will incorporate:**
 - **Pharmacy**
 - **Optometry**
 - **Physiotherapy**
 - **Radiology**

Day theatre capabilities will under take a wide range of procedures.

Ozone Therapy unit will have 12 beds / chairs available as well as the AIDs Serum unit will have available a further 15 beds / chairs. Treatments in both segments extends to a wide range of life threatening diseases.

Nutritional training for patients and their family will be facilitated through the attached training kitchen being adjacent to dining / training rooms.

Having extensive office facilities and meeting rooms within the Pascas Health Clinic enables Pascas to support the introduction of new technologies to grow employment and skill levels for patients and their families.

The agenda is to treat the cause, not the symptoms as well as bring gainful employment and prosperity into the community which Pascas will be.

PASCAS QUALITY

The efficacy of Spiritual Healing and Energy Healing modalities excels with practitioners who calibrate at levels on or above 600 on the Map of Consciousness. Full practice rights will only be granted to those who achieve the designated levels of proficiency as well as this benchmark in consciousness.

It is anticipated that more than 70% of all health care providers working within the Pascas Health Sanctuary as well as 70% of health care providers working within Pascas Health Clinics will all achieve consciousness calibrations at or above 600 on the Map of Consciousness.

Health care quality management system

Continuous quality improvement through conformance and specifications improvement cycles

Functional relationships between quality management committee and quality management department

Quality management committee structure
