This Credit Crunch will Beat them all:

By Vern Gowdie

P.45 Gold Coast Bulletin 12 Mar 12

In 1905, Spanish philosopher, George Santayana wrote: “Those who cannot remember the past are condemned to repeat it.”

Within the last century there have been two major credit contractions – The Great Depression and Japan post – 1990. In both cases, investors in “growth” assets shares and property fared badly.

You may not yet realise it but we are in the midst of the greatest credit contraction in history. Individuals are focused on paying down debt. The corporate sector is either reducing debt or hoarding cash. To counteract these forces, the world’s central banks have unleashed the printing presses.

Martin Crutsinger from Associated Press recently wrote: “Never before have the world’s central banks sent so much money sloshing through the global financial system the past three and a half years, the central banks of the United States, Britain, Japan and the 17 countries that use the Euro have pumped out so much money that their balance sheets have reached a combined US\$8.76 trillion.”

To give this context, prior to the Global Financial Crisis (GFC) their combined balance sheets were under US\$2 trillion and in less than four years they have quadrupled this amount.

The majority of these newly minted notes have been used to bail out insolvent banks, which in turn have propped up investment markets and insolvent countries.

As an example, since December 2011 the European Central Bank has released over Euro1 trillion to 800 banks via its long-term refinancing operation.

Did the banks use this money for traditional banking purposes? Not according to the New York Times recent headline that said European banks are “Reluctant to lend to companies in need of cash”.

Instead the cheap, freshly minted euros went straight into the bond market to support their overly indebted governments.

Resource investor Eric Sprott from Sprott Asset Management, estimates 90% of the market’s positive performance is due to “persuasive intervention” by central banks. Based on the evidence, it is hard to argue with Sprott’s observation.

Rather than learning from the past, the egotistical elites have decided they know better. The printing press pedal has been put to the floor and they are taking the world into very dangerous and uncharted territory.

The central bankers persuasive intervention has delivered a reprieve to the investment industry. The share market is industry’s reason for being.

Without the prospect of share markets delivering higher returns than bank interest, why would investors use their products?

The industry's relationship to the share market is like the bimbo girlfriend of a steroidal body builder. Giggly cheering on the ever-increasing body mass and not realising the devastating side effects the artificial stimulant will have on its recipient's mood and vital organs.

What is the smart money doing? China and Russia's central banks are progressively increasing their gold (real money) reserves and reducing their US Treasury Bon (paper money) holdings. They know their history. Follow their lead.

How the Federal Reserve Manipulates the Economy

By Robert Wiedemer

Pick up any financial newspaper or newsletter, including this one, and you're likely to read about the Federal Reserve. But most people don't know much about how the Fed works.

Whether its setting interest rates, printing money, or even more advanced actions like the recent Operation Twist, the mechanics of their actions are not always clear. With that in mind, we wanted to dig deep into the Federal Reserve, providing our readers with an understanding of how this often secretive organization works. Read on to find out how the Fed started, why it behaves the way it does, and — and this is key — what the economic consequences of its activities can be on markets and the world at large.

Origins of the Banking System

Before paper currency, the most readily exchangeable form of money was gold, often in the form of gold coins. Because of its perceived intrinsic value, gold was a reliable way for people of any profession to pay debts for goods and services.

Over time, it became cumbersome for people to keep gold in their homes and carry it around with them to make purchases — think of the frustration we feel at having just a few dollars of change in our pockets and you'll get the idea.

The solution was bank depositories. People could put their physical gold in a depository and, instead of exchanging it directly, they could write checks (cheques) against the gold they had deposited, or exchange paper receipts from the depository (or, as we would call it, *cash*). This process would transfer possession of the deposited gold to the payee.

Eventually the gold depositories figured out that they could print more cash than they had gold deposited and loan it out for interest payments while still backing the loan with the gold in their vaults. After all, very few people ever came to remove their gold from the depository, usually just transferring possession from one person to another through checks and paper money.

From this idea we get our fractional reserve banking system, in which banks only keep a percentage of their deposits in reserve, loaning out the rest for interest payments and effectively creating new money in the process.

This also meant the money supply wasn't quite as dependent on gold mining for growth so it could more easily expand to provide for a rapidly growing economy.

This system works fine. That is, until the paper money becomes increasingly worthless and a large number of depositors suddenly want their deposits back, fearing the bank might become insolvent.

This can easily become a self-fulfilling prophecy, as this fear triggers more fear in other depositors until the bank runs out of reserves and can no longer do business. This is what is known as a *run on a bank*.

It is here that a central bank, such as the Federal Reserve, enters the picture.

Creating a Bankers' Bank

After a series of banking panics in the late 1800s and early 1900s, the Federal Reserve Act of USofA was passed in December 1913 to prevent such runs on banks. However, fears arose of a central federal bank having too much power over state banking systems.

To place a check on the central bank's power and keep it from being too, well, *centralized*, the law established 12 regional Federal Reserve Banks around the country USofA, whose directors are elected by local banks in each region.

Despite that, bank governing power still remained heavily centralized in Washington, D.C. through the Board of Governors, which is comprised of seven members, each appointed by the U.S. president. This centralized-decentralized structure is one of the unique features of the U.S. banking system.

One of the key functions of the Federal Reserve is to act as the bankers' bank. Just like you and I have accounts at a local bank branch and can write cheques / checks or withdraw cash from those accounts, so banks across the country hold accounts with the Federal Reserve.

This allows the Federal Reserve to act as a clearing facility for member banks' checks. It also allows them to convert deposits in the Fed into cash.

If depositors demand money from the bank that the bank has loaned out, the Fed can loan money to meet those depositor demands, thereby preventing a run on the bank.

The Fed has other responsibilities as well, including providing oversight of the banking system, serving as the federal government's bank, and conducting monetary policy.

This last responsibility has become especially important after the U.S. abandoned the gold standard. When dollars were redeemable for a certain amount of gold, and a certain percentage of every dollar in circulation had to be backed by gold, the Fed had limited ability to influence monetary policy.

But today, with no gold standard and essentially unrestrained ability to print money, the Fed has far reaching influence over our monetary policy, with enormous impact on the U.S. and world economy. Although its role as the banker's bank is still very important, its role in controlling monetary policy has become its most significant role, and the one that most affects our day to day lives, especially from an investor's point of view.

Setting Monetary Policy

When it comes to monetary policy, the Fed operates with two main objectives: keeping unemployment low and prices stable. These goals are often at odds with one another. Expanding the money supply will help stimulate the economy.

However, if the Fed expands the money supply too fast, it causes inflation. If the money supply contracts, or doesn't grow enough keep up with the economy, it leads to deflation and recession.

So the Fed's job is to find a balance in which there's enough money in the system to sustain growth, but not so much that the money supply grows faster than the economy and creates inflation.

When economic times are good, this balance is usually easy to achieve. It's when times are tough that this balance becomes quite difficult.

The Fed has three main tools at its disposal to attain this balance:

- First, it sets the percentage of deposits banks are required to hold in reserve.

- Second, it sets the *discount rate*, the interest rate banks pay on loans from the Fed.
- And third, the Fed targets the fed funds rate through *open market operations*. This is its most powerful tool, which we will discuss in more detail later on in this article.

Another tool the Fed has at its disposal, but has only used in recent years, is the ability to pay interest on excess reserves, or the reserves banks hold beyond what is required. Since banks have not held any significant excess reserves for many decades, this has not been an issue.

Now that they're holding huge excess reserves of US\$1.6 trillion, this has become much more important. The Fed has used this tool to dampen the multiplier effect, in which the banks, through the fractional reserve protocol, create “new” money — by paying interest, the government encourages banks to keep cash parked.

Open Market Operations and ‘Money Printing’

When you, I, or any other person or corporation wants to make an investment, we generally have to *have the money* first, or at least borrow it.

But when the Fed wants to pump money into the banking system, it doesn't have to hold a fundraiser or sell off assets. The Fed can effectively create money out of thin air, in a process generally referred to by me and the financial media at large as *money printing*.

As you'll see, that term doesn't *exactly* describe what really goes on, although it does paint the correct picture. Let's take a look at open market operations and how they work.

Inside the Federal Reserve is what's known as the Federal Open Market Committee, or FOMC, which consists of the seven members of the Board of Governors and five of the 12 regional Federal Reserve Bank presidents. The president of the Federal Reserve Bank of New York is always a member, and the other bank presidents serve on a rotating basis.

The members of the FOMC meet eight times a year to discuss the state of the economy and set monetary policy. At these meetings, the committee reaches a consensus for monetary policy in the immediate future, the most important decision being how much to increase the money supply.

The Fed increases the money supply through “open market operations,” the term for the Federal Reserve buying or selling bonds on the open market. It is essentially manipulation of the bond market to move interest rates up or down. Buying bonds lowers interest rates and selling bonds increases interest rates.

Of course, as mentioned earlier, the Fed is buying bonds with “printed money.” Hence, buying bonds increases the money supply and selling them decreases the money supply. I should add that open market operations can also be conducted by lending and borrowing bonds to similar effect.

After the FOMC reaches consensus, it sends a directive to the New York branch of the Federal Reserve. Being the nation's financial centre, the New York branch is the most important and influential of the Federal Reserve and it executes open market operations based on the committee's guidance.

Like any major private brokerage firm, the New York Fed has a bond trading desk. Traders use the FOMC directive to determine how many bonds to buy or sell. They will then contact a handful of primary bond dealers to solicit bids.

The names of the primary dealers are kept secret, but they include a half-dozen to a dozen of the nation's major banks and brokerage firms. Citibank and Morgan Stanley, for example, would almost certainly be among them.

If the Fed is buying bonds, primary dealers will make bids on behalf of their clients who own bonds the Fed wants to buy. Normally they want to buy Treasuries, but sometimes they buy bonds, such as mortgage-backed securities.

Once the traders at the Fed have picked the best bids and made their purchases, their transactions will be entered in the Fed's ledger. Today, this is all done electronically. The bonds themselves are debited from the dealer's electronic bond account at the Fed and the funds to buy the bonds are credited to the dealer's Fed account. The dealer will then adjust the accounts of its clients accordingly.

Before the transactions occurred, this money didn't exist; hence the label *money printing*, though the process doesn't involve physical printing of currency. (The actual process of money printing is done by the Treasury Department's Bureau of Engraving and Printing. The Fed places orders to the Treasury for cash and coins as needed to hold in its vaults, tens of billions of dollars at a time. Such reserves don't count as part of the money supply until they're released into the economy.) Any funds entered in the Fed's electronic ledger, as described earlier, are redeemable at any time for paper and minted currency.

When the Fed sells bonds, the process is reversed. The federal funds account of the primary dealer will be debited for the appropriate amount and credited with the securities purchased. The money is then effectively removed from circulation — the “printed money” disappears.

You may ask, if the Fed has the power to create money at will, **why the need for such a complicated open market operations process?**

The answer is accountability. Because every dollar created can be traced back to a bond purchase, the system is easy to audit.

Open market operations make it difficult for an official at the Fed to create money for his own personal gain or to channel it for illicit purposes. Every bond transaction goes through one of the primary dealers, which itself is brokering the transaction for its clients, making foul play or theft easier to uncover.

The ‘Money Multiplier’

Earlier I mentioned our fractional reserve banking system and the money multiplier in regard to banks’ lending out only a fraction of their gold on deposit. The money multiplier is important today because when the Fed purchases bonds, the increase in the money supply doesn’t come only from the purchase amount, but also from all the potential loans that can be created from that purchase amount.

When the Fed increases the amount of reserves in a bank’s federal funds account, it increases the bank’s lending power. Banking regulations set by the Fed only require banks to hold a certain percentage of their deposits in reserve — usually no more than 10 percent, and sometimes as low as zero percent.

After negotiating a sale of bonds to the Fed, a bank can lend out most or all of the increase in its reserves. Eventually that loan ends up in a deposit account at that bank or another bank, where in turn most of it can be lent out again. That loan is deposited again, and the cycle continues, expanding the money supply with each new loan.

This is what’s called the *money multiplier* and it’s why open market operations can have such far reaching consequences for our money supply.

The money multiplier is why the Fed began paying banks interest on excess reserves after its massive money printing operations (the purchase of more than US\$2 trillion of bonds during the “quantitative easing” operations of QE1 and QE2). Paying banks interest on excess reserves keeps that money multiplier from multiplying printed money, thus postponing the onset of inflation and, more importantly, reducing the amount of inflation.

In essence, the hope is to stimulate the stock market and economic activity without creating too much inflation, at least in the earlier years.

The Fed is trying to have it both ways — lots of stimulus and little inflation. This won’t prevent inflation, but it’ll postpone inflation’s onset and it will dampen the money multiplier effect, which would increase inflation even further.

As we’ve covered at length in the Financial Intelligence Report, the danger of spiralling inflation is of great concern. As the amount of money in the system dramatically expands, the value of each individual U.S. dollar erodes. As with anything, the more abundant it is, the more its value is affected.

So as the Federal Reserve uses its various mechanisms that in turn grow the money supply, all in an effort to boost the economy in what will only be a short-term spike, the devastating threat of inflation grows.

As an investor, you must ask yourself, looking at the leadership of the U.S. economy: Do you think those in charge understand enough about the realities of economics to actually be able to walk the fine line between stimulating economic activity without unleashing massive inflation?

No matter your answer, it's hard not to see it as a perilous gamble, especially coming from a country that has been the world's dominant financial engine for decades.

Keeping a Wary Eye on the Fed as You Plan for Your Future

The Federal Reserve's responsibilities have grown over the course of its nearly 100-year history, and it has gone through many changes in that time, especially as the nature of our currency has changed from a gold-based dollar before the Depression to a completely non-gold-dependent currency by 1971 (when the U.S., under orders of President Richard Nixon, terminated international convertibility of the dollar into gold).

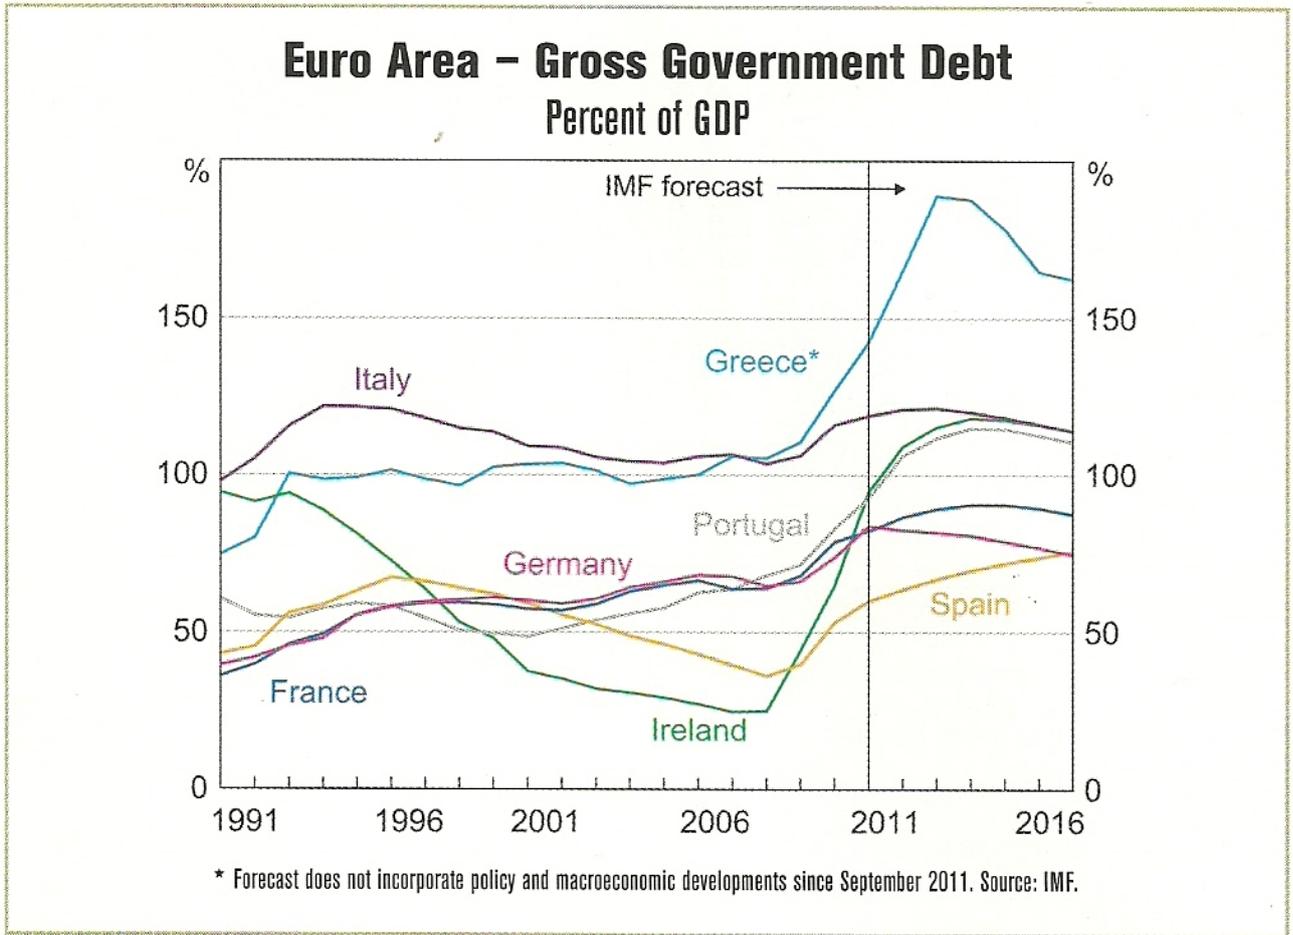

Once the government left the gold standard, the Fed has had greater ability to manipulate the money supply. In my view, greater oversight of that enormously expanded power is needed. More transparent auditing of the Fed's operations would certainly be a step in the right direction.

Not everyone agrees with me. Many economists instead argue that the Fed needs secrecy to operate properly. It's like the old saying that nobody should see how the sausages they're about to ingest are made.

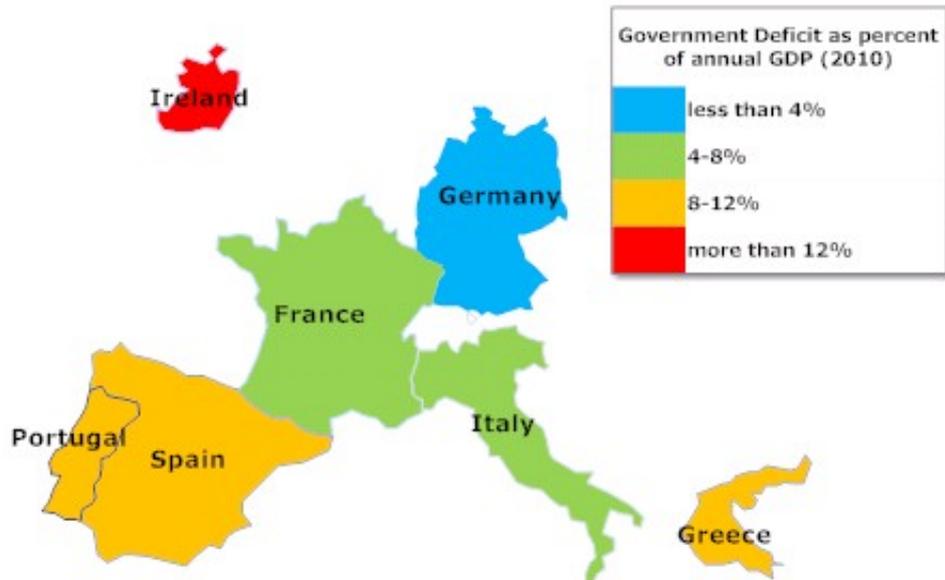

There may be a grain of truth to that view — what's going on behind the scenes may be shocking, and even then, shifting course wouldn't be easy. But, in a democracy, financial transparency is usually better than no transparency, and sausage inspectors are better than no sausage inspectors.

Although transparency would likely help force the government into better decisions, it wouldn't guarantee good decisions. A democracy is quite free to make mistakes, even very big mistakes, as it should be. As a citizen, if you agree with me, you can advocate for more transparency and better financial decisions by government.

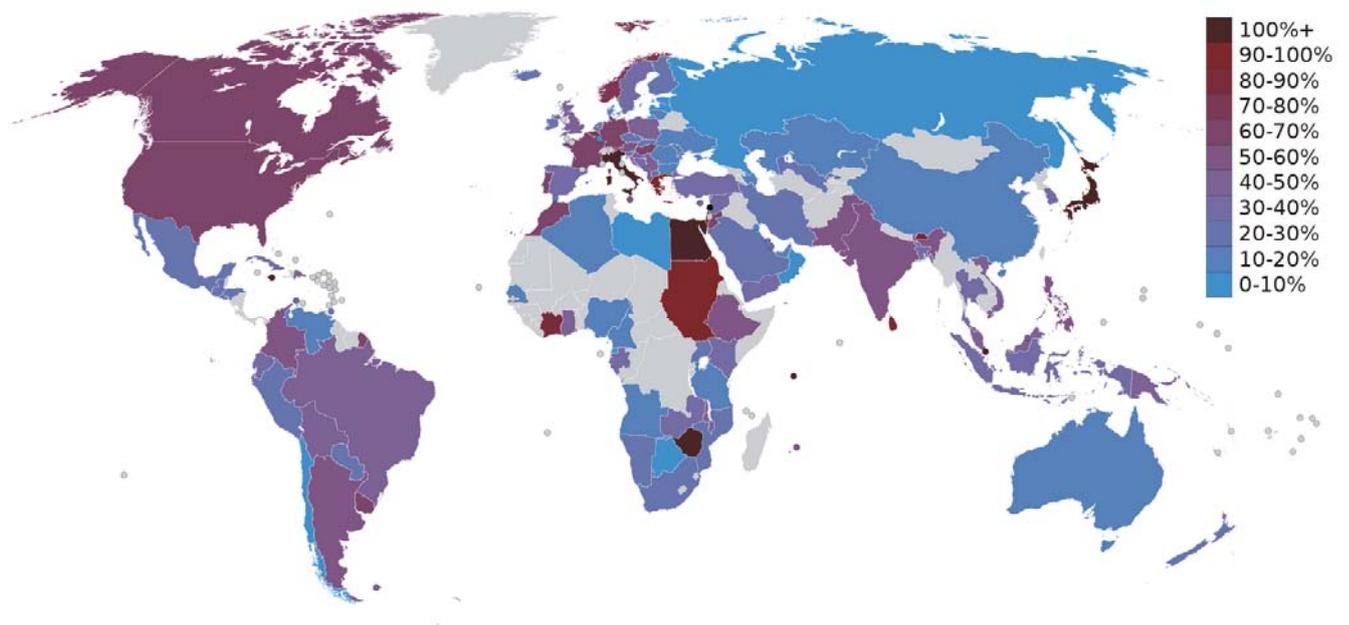

However, as an investor, you can't depend on the government to always make the right decisions. You have to depend on yourself for protection from the government's mistakes.

Nearly 450 years ago the Anglo-Saxon world banking system began with creation of the Vatican Historical Asset Trust Accounts, today known as the Global Collateral Accounts. These funds of sovereign countries were mainly backed by gold reserves of the ancient Chinese Royal Dragon Families. Certain sovereign families of Asia and Europe had pooled their assets into a series of very complex and secretive off-ledger private banking trust accounts. The monies were intended for humanitarian projects to help the world for the better, though they had been fraudulently abused by a corrupt global banking system since at least the late 1600s.

In 1694 this global monetary system which was overseen by a secretive Cabal was being run out of a central bank in England controlled by the Rothschilds family. Baron Nathan Mayer Rothschild once declared, “I care not what puppet is placed upon the throne of England to rule the Empire. The man who controls Britain’s money supply controls the British Empire, and I control the British money supply.”

By the mid-to-late 1700’s of Eastern Europe these dark forces had gained complete control of the planet’s wealth by secretly taking over world assets through an invisible web of usury and fiat finance. The Cabal’s influence upon greedy global leaders led to domination over the world’s military, diplomacy, education, science and media systems.

In 1871 the Cabal created the Corporation of the US to work under orders of the world monetary organizations: International Monetary Fund, World Trade Organization, Bank of International Settlements, North American Union, Council on Foreign Relations, Committee of 300 and the Trilateral Commission. They discarded the US Constitution, manipulated funds of Central Banks across the globe and eventually formed the US Federal Reserve to continue their plunder of global assets.

The privately owned US Incorporated, US Federal Reserve and US Treasury were designed to conform to dictates of those loyal to Masonic Orders such as Skull and Bones, institutions like London’s Crown Temple and the Vatican, plus private families of European Royalty, the Bilderbergs, George Soros, Rothschilds, Carnagies and Rockefellers. Among their ranks were powerful church, government, political, education and business people, bankers, European royals, Vatican hierarchy and former Nazi mind control experts brought into the US, Canada and Australia after World War II upon formation of the CIA.

In a greedy quest for power these global elites were said to attend child exploitation get-togethers in order to blackmail politically-powerful participants, gain power and privilege and thus influence world events. These same global elites were known to work with the Khazarian or Ndrangheta mafias to run criminal enterprises extensively involved in drug and gun running, plus the kidnapping of vulnerable children and youth. Those who kept atrocities on innocent children under wraps enjoyed free manipulation of world monetary funds under protection of the mafia criminal syndicates, with their dirty money freely laundered through the Vatican Bank.

Since 2012 eyewitnesses to this rape, torture, murder, kidnapping and exploitation of children by global elite bankers have testified before the International Common Law Court of Justice in Brussels. Apparently a criminal syndicate based in Italy regularly supplied indigent children for use in Satanically-oriented sex abuse and child sacrifice ceremonies. The kidnapping rings worked through the Vatican office of Catholic Charities, Jesuit Superior General or US, Netherlands and European government and church-owned foster, day care and youth detention centres. One of the most horrific examples was the Canadian child genocide. See the International Tribunal into Crimes of Church and State Head Kevin Annett's award winning documentary film Unrepentant:

For three years survivor-witnesses who went before the six international judges claimed that well-known world leaders regularly sexually abused and killed children in Satanic ceremonies. Their unholy rites were directed by what was known as the Satanic Ninth Circle Child Sacrifice Cult. The Ninth Circle was globally based, centuries old and closely tied to the CIA, Vatican, Nazi Germany, European royalty, prominent world leaders and bankers of the global monetary system.

Apparently the rituals layered in paedophilia and child sacrifice were supported by the international monetary fund with monies funnelled out of the CIA and further filtered through the Vatican Bank. <http://sitsshow.blogspot.ca/2016/05/FEDs-Found-Unbelievable-Amounts-of-Child-Porn-on-National-Security-Computers.html>

The most influential of their Cabal organizations was the privately owned US Federal Reserve. The Fed had functioned as the primary creator of world reserve currency since the 1944 Bretton Woods Conference at the end of World War II. The practice of charging US citizens interest for use of their own money depleted US gold reserves to where none existed in Fort Knox and eventually created the Petro Dollar. Allowing easy credit soon led to a global economy that functioned on currency that was backed by nothing.

The 1999 NESARA Act – the National Economic Stabilization and Recovery Act, also known as the National Economic Security and Reformation Act – was formed to correct the situation. NESARA came about from a 1993 ruling of the US Supreme Court after 30 years of lawsuits by the Farmers

Union. In that successful suit the US banking system and US government were found to be in collusion to defraud US citizens. Yet to this day, NESARA lay hidden in Congressional archives collecting dust. NESARA

By the year 2000 and to avoid a global monetary crisis, an urgent need for a reset of world currencies became apparent. Beginning in 2007 and running through 2015, all countries of the globe except for the US, had joined asset-backed currency of a newly-formed BRICS Alliance. BRICS was an acronym representing the nations of Brazil, Russia, India, China and South Africa. In retaliation to the world's main reserve currency of the fiat US Dollar, the BRICS system supported a country's currency through its natural resources, oil, gold, silver, copper and other precious metals.

This led to the Global Currency Reset of May 2016 – a complicated process concerning a revaluation of world currencies that included removal of the Federal Reserve and certain global elites, along with their Khazarian mafia, from control of the global monetary system. The reset would restore a new US Republic that functioned under NESARA law and within the original Constitution. US citizens would finally be given their own gold-backed currency, along with much needed changes in the US banking and tax systems.

On April 26 2016 the Global Currency Reset began playing out when China formally launched a return to the gold standard through the BRICS system. Completion of the GCR rollout across the world was scheduled to occur the latter part of May of 2016. By this same time the Cabal had bankrupted themselves, plus their privately owned US Federal Reserve Dollar was no longer being accepted for world trade.

The history of that process included formation of the new US Republic, integration of the Federal Reserve into the US Treasury and changes in the US tax system. Initially there would be a revalue of 20 different currencies including the Iraqi Dinar, Vietnamese Dong, Zimbabwe Zim, Indian Ruphia and Iranian Rial. Revaluation of other world currencies was expected to quickly follow.

Higher exchange rates were made available during the first six days of initial exchanges, especially if a good percentage of monies were dedicated to Humanitarian Projects. These projects were said funded in part by gold of the Chinese Royal Dragon families and by US\$800 trillion in US taxpayer monies illegally taken by the Federal Reserve during the Bush Administration, then confiscated during a 1992 Federal Reserve Audit.

Another source of funds was US\$3.8 trillion gained through a negotiated agreement with Soviet Secretary General Mikhail Gorbachev during the fall of the Soviet Union. The \$3.8 trillion had also been illegally held by the Federal Reserve.

It was also found through an intensive investigation that Chief Justice of the US Supreme Court John Roberts and President Bush Sr. had stolen US\$9.1 trillion of USA taxpayers' funds from the US Treasury. The Mastermind behind this heist by Roberts and Bush was said to be Henry Kissinger. By midday on Friday 21st March 2008, John Roberts' control of the USA Treasury had been terminated by a majority vote of the other USA Supreme Court Justices. Three of the Assistant Justices were discovered to have been conspiring with Bush and Roberts in administering the \$9.1 trillion Treasury theft.

On Monday 31st March 2008, Federal prosecutor of the United States Department of Justice Office of Special Counsel Patrick Fitzgerald had a team of one hundred and seventy seven attorneys working uninterrupted all night at the US Treasury and the US Supreme Court. The stolen or miss-applied funds vastly exceeded America's gross annual budget.

During his investigations into the US government wire frauds at the Treasury, Fitzgerald stumbled across an altogether larger legal fraud: Washington DC itself had no right in Constitutional law to run America. Washington DC was a system of corporate scams constructed to milk the American people without their knowing. The United States was not even the United States of America. The data retrieved spelled slow death for the Washington DC ruling class, especially when the US Congress' long lost NESARA legislation was ruled valid by the US Supreme Court. NESARA

Repeated attempts to pay off the US national debt using these \$800 trillion, \$3.8 trillion and \$9.1 trillion of taxpayer monies illegally held by the Federal Reserve had been continually thwarted by the Cabal. At present the funds were in European bank accounts awaiting the Global Currency Reset.

See this soon-to-be released trailer of a documentary about corruption in the Federal Reserve, "Eagle One to Wanta": <http://eagleonetowanta.com/>.

There is also a feature documentary film about the US monetary system and its relationship to the Cabal, CIA, 9-11 (which happened as an initial Global Currency Reset was to take place), Presidents Johnson and Bushes and the assassination of President Kennedy. Right before Kennedy was murdered, he had signed documents which would have closed the Federal Reserve:

History

1. The privately-owned US Federal Reserve system started around 450 years ago with creation of a Vatican Trust account attached to the generational wealth of several nations. This world financial system was set up by and mainly funded through gold of the ancient Chinese Royal Dragon Families of Asia.
2. The ancient Chinese Royal Dragon society was an organization of old families within China and Taiwan who operated above the political divide of the two independent Chinese Governments. The Chinese held that old family ties and functions superseded political arrangements and were inconsequential over the passage of time.
3. Dragon Families were said to abstain from any public view and knowledge, but acted for the benefit of the World in coordination with higher levels of the global financial organizations, Committee of 300 and in particular, the private Federal Reserve System.
4. Dragon Families had accumulated great wealth (with trillions in interest payments still owing), in the form of a variety of notes, bonds and certificates that were an obligation of the Federal Reserve System. These bonds had values ranging in the many thousand of trillions of US dollars.

5. In the last decade the Dragon Family organization attempted to contribute significant billions of US dollars for the purpose of aiding numerous global humanitarian purposes, such as relief during disasters to countries throughout the world, including Hurricane Katrina in the United States, earthquakes in Haiti, China and Indonesia, the Chernobyl nuclear disaster, rebuilding the Republic of Georgia's infrastructure, water and energy supply for the Cayman Islands, Bangladesh and more.
6. In the late 1700s a group in Eastern Europe known as the Cabal began taking control of the global monetary system using fiat or paper currency that was not asset backed. To counter this movement some sovereign families of Asia and Europe dominated by the Chinese Royal Dragon Families, pooled their gold assets into secretive off ledger private banking trusts now known as the Global Collateral Accounts, or Global Debt Facility.
7. On the darker side, Switzerland, the home and legal origin of United Nations charters, housed Cabal organizations of the International Monetary Fund, World Trade Organization and Bank of International Settlements. The Bank of International Settlements in Basel Switzerland controlled all central banks of what was known as the G7 nations. "He who controls the gold, rules the world."
8. In the US, the Cabal-operated monetary system went back to founding of the United States of American Corporation in 1871, re-organization in 1907, Jeckyl Island in 1910 and forming of the privately owned Federal Reserve in 1913. They discarded the US Constitution, manipulated funds of Central Banks across the globe, and used the US Federal Reserve to plunder global assets rather than utilizing the monies for their original Humanitarian purpose, thereby enriching their own and fellow global elites' pockets.
9. Since the US monetary system began it has been subject to the privately owned US Incorporated and US Federal Reserve, plus other Cabal organizations including the Khazarian Mafia. Cabal monies were commonly laundered through the Vatican Bank.
10. The US Federal Reserve functioned under orders of the International Monetary Fund, World Trade Organization, Bank of International Settlements, North American Union, Council on Foreign Relations, Trilateral Commission and Committee of 300.
11. This corrupt system was run by political elite secret society members whose allegiance was to Masonry including those initiated into Skull and Bones, or were associated with the sovereign City of London's Crown Temple, Vatican hierarchy or in private families such as European Royalty, the Bilderbergs, George Soros, Rothschilds, Carnagies and Rockefellers.
12. The private US Federal Reserve System which issued fiat U.S. Federal Reserve Notes, was financially owned and controlled by the Crown Temple BAR in the independent and sovereign City of London.
13. BAR stands for British Accredited Regency. The City of London Crown Temple BAR also controlled the US judiciary system.
14. In the war of 1812 British soldiers had destroyed copies of the Titles of Nobility Amendment (TONA) because it prevented anyone who had ties to the Crown of England from holding public office.

US Attorneys gave oath to the Crown Temple BAR of England in order to become licensed under practices of the US Bar Association.

15. The US Bar Association was owned by the Northern Trust Company which eventually also owned as a holding company, the US taxpayer system of the Internal Revenue Service. For all intents and purposes the IRS and US Bar Association functioned as the same entity under the control of the Vatican and Crown of England.

16. In the American Civil War (1861–1865) both sides were financed by the Crown Temple in London and all subsequent legal and financial settlements were controlled by the Crown Temple for the Vatican.

17. Because of this mutual agreement and ties between the Vatican, London Crown Temple, US Bar Association and the IRS, it became important to have Roman Catholics placed in ruling positions in the Washington DC Corporation and at the Supreme Court (SCOTUS). After all, American BAR attorneys worked for the British Accredited Registry or British Accreditation Registry and legally, American taxes, treasury and resources were chattels of Old Europe.

18. This mess which continued today, came about in 1871 when a privately-owned United States of American Corporation was secretly and covertly founded for the purpose of controlling the US monetary system. The corporation was simply a privately-owned Maritime Corporation out of Puerto Rico using funding of the Royal Dragon families.

19. In 1910 at Jekyll Island Georgia the US Corporation fraudulently put together this monetary system as an omnipotent fiat dollar-making machine. Among the founders were J.P. Morgan and National City Bank President Frank A. Vanderlip. Shunning use of their last names, the group met at a privately-owned railway car in New Jersey.

20. By 1913 this secretive organization had become the privately-owned and Rothschild-dominated Federal Reserve system that served as the US Central bank.

21. The US Congress was said to be bought off as they secretly passed the illegal and un-Constitutional Federal Reserve Act of 1913. A corrupt President [Wilson] signed it into law.

22. In an act of treason the US Congress allowed the privately owned Federal Reserve to print the emerging nation's physical money for the US Treasury.

23. Under the 1913 Federal Reserve Act and the privately-owed Fed, the almighty USD quickly spread as a de facto global reserve currency, replacing the British Pound Sterling.

<http://www.jekyllislandhistory.com/federalreserve.shtml>.

24. The Fed alone was allowed to have full global monetary authority over rest of the world and print as much US dollars as they deemed necessary without any international oversight, except to those private families owning this Central Banking System.

25. The Federal Reserve Bank was not connected to the US government, but composed of a group of privately owned Central Banks with a main interest of serving the Cabal. The Central Banks acted on behalf of sovereign countries to buy bonds backed by the Chinese Royal Dragon family Historical Asset Trust Accounts.
26. The Federal Reserve was also a franchisee of the Khazarian Banking Mafia, know as the Rothschild World Moneychangers. They were notorious for creating money from nothing and lending it to 98% of the World's nations in order to receive pernicious usury in exchange.
27. The Rothschild Khazarian Mafia Banksters not only created about 98% of the World money from thin air, they charged interest to those who used their own money. Usury alone added 40% to the cost of all goods and services in the global community. This was insane for any nation's people to pay a foreign based private bank of Luciferian child murdering paedophile Khazarian Mafia parasites to use what should have been their own money in the first place.
28. For years this Cabal has fought implementation of the Global Currency Reset since it took away a great deal of their power, ongoing monetary gain and was designed to close their privately owned Federal Reserve system by which they controlled the world.
29. The United States was the only country on the planet that did not have its own national currency. One of the purposes of the Global Currency Reset was for the US to secure and use their own asset-backed currency.
30. For several years US Federal Reserve Notes backed by gold borrowed from the Royal Dragon Families, had been used for government and trade purposes. This monetary system functioned under the non-US government-owned North American Union.
31. The Federal Reserve Notes (FRNs) that were used by the common US citizens had no backing at all and were referred to as fiat currency. Fiat currency was any non-asset backed money declared by the government to be legal tender.
32. Thus, since inception of the nation, US citizens had been forced to buy their Federal Reserve Note currency, along with paying interest on it, from the privately owned Federal Reserve.
33. The Federal Reserve Note had interest attached to it which helped create our nation's well over 17 trillion dollar national debt (some would say that the US was well over 100 trillion dollars in debt).
34. Greed ruled the privately owned US Central banking system. The funds from the Chinese Dragon families were originally designed for humanitarian purposes, though US citizens were forced to pay interest on their own money.
35. For these many years the US government has borrowed a huge amount of collateral assets in gold and silver from the Dragon Families. Therefore the US government was able to issue huge amounts of USD as currencies via the Federal Reserve.

36. The likes of William Jennings suggested a new central bank under the US Republic, but like many such proposals to Congress, Jennings' plan never saw the light of day.

37. By Nov. 16 1914 – the time the first World War began – privately owned central banks under this corrupt system had been opened in 12 US cities. The US indirectly financed the war by helping in the flow of trade goods to Europe and more so when they declared war on Germany in 1917.

38. By the 1920s as the world was regaining to normalcy, it was recognized that gold was no longer a central factor in credit control. History of the Federal Reserve System

<http://globalcurrencyreset.net/history-federal-reserve-system/#ixzz4722bKVwM>

39. In March of 1933 President Roosevelt changed Constitutional wording away from Constitutional Law and declared the bankruptcy of the United States.

40. The banks took over our gold and silver money that was backed by a gold standard. The result was more fiat money. Before 1933, paper money was backed by gold. The Federal Reserve Notes (FRNs) were money substitutes backed only by a false belief.

41. In 1934 the US Internal Revenue Service came on shore and was immediately purchased by an attorney firm which incorporated it as the Delaware Corporation.

42. The corrupt financial system came to a head at the end of World War II. A mind control program called MKULTRA was begun upon import of Nazi trained mind control experts into the US, Canada and Australia. The Nazis helped design philosophy behind the creation of the CIA in 1954. The mind control program funded by US tax dollars for the purpose of developing “Super Spies” and assassins, was tightly tied into the world monetary system.

43. George H.W. Bush was influential in forming of the CIA and their mind control program MKULTRA. The Nov. 13 2010 New York Times reported that Dr. Josef Mengele was among the Nazis given a safe haven in the US through the CIA-sponsored Project Paperclip – a pre-runner to MKULTRA.

http://www.nytimes.com/2010/11/14/us/14nazis.html?_r=0

44. MKULTRA was heavily involved in human experiments to torture children into multiple personalities through Satanic ceremonies of paedophilia and child sacrifices. Global elites including those in the banking system, were known to regularly hold the Satanic child exploitation ceremonies for the purpose of gaining power and privilege.

45. A Canadian mind control victim, now in her mid-sixties, gave heart-wrenching details about child genocide during 2012 hearings at the International Common Law Court of Justice in Brussels. She discussed her eyewitness to murders of seven other children during her two year childhood stint at Canadian Air Force base known as Lincoln Park in Calgary Alberta. She was a victim of a CIA-funded mind control program to develop “Super Spies.” <http://www.examiner.com/article/phr-demand-torture-human-experimentation-doctors-cia-investigation>

46. The Brussels ICLCJ court heard this and testimonies of eighteen other witnesses to illegal activities of the Ninth Circle Satanic Child Sacrifice Cult. Children in the CIA mind control program claimed to be victimized by a former Nazi SS doctor referred to as Dr. Green. According to the survivor, the Nazi mind control expert and three Ninth Circle Satanic Child Sacrifice Cult members were working undercover as Canadian military personnel. <http://www.veteranstoday.com/2014/04/13/saturn-eats-his-children/> <http://lincolnparkmkultra.blogspot.com/>

47. These human experiments on children were run at the base between 1956 and 1958. On her website the witness gave tribute to children, like her, who were born into and raised in the CIA mind control program MKULTRA. Children ages 2 to 10 “were put to death,” she said, “due to the severity of injuries sustained during the course of human medical experiments.” <http://threedeadwords.com/?p=9>

48. In both Canada and the US several survivors of the CIA mind control program have identified Nazi mind control expert Josef Mengele as their torturer. He was known by them as a Dr. Green or Greenbaum.

49. Christine Nicola testified about a Dr. Green in 1995 Congressional Hearings on human radiation experiments. In this video the mind control survivor said that beginning at the tender age of four she was terrorized by CIA operatives under the direction of Dr. Green. They were “training” her to be a spy and assassin by subjecting the child to radiation, drugs, electroshock, sexual abuse and mind-control experiments. Dr. Green was able to split her young mind into multiple personalities.

<http://www.youtube.com/watch?v=eXDASDDrDkM>

50. Dr. Green evidently tortured another witness of the 1995 hearings. Claudia Mullen stated in this video that she discovered documents where the US government gave Dr. Green 50 million dollars to run the program with the CIA Science Division, CIA Office of Research Development. Mullen said that from age seven and near Dr. Green’s office she was given electro shock, radiation, drugs, isolated in a tub of water, sexually abused, endured sleep deprivation, burns and all kinds of emotional and physical abuse. She claimed these atrocities were also performed on countless other children. http://www.youtube.com/watch?v=F-ES8Bv0_8w

51. Jenny Hill of Garden Grove California also claimed to be a victim of Dr. Green’s CIA mind control practices. The CIA claimed they closed MKULTRA in 1964, yet Hill’s torture-programming by Dr. Green began a year later in 1965. According to her biography, “Twenty Two Faces” Hill was abused by Dr. Green and others in a Satanic child sacrifice rite that took place on June 21 1965 Summer Solstice. In this video Hill discussed her witness of another six year-old child’s murder. The severe abuse caused a disintegration of her personality.

<http://youtu.be/8SECeoTGRgE><http://www.youtube.com/wat?v=F626Lsrdwg4>

52. In Australia Fiona Barnett also claimed to be a victim of Nazi mind control programming that included Human Hunting Parties where children were raped, hunted down and killed:

<https://independentaustralia.net/profile-on/fiona-barnett,264>

53. The Cabal's Satanic practices and evil purposes under protection of the CIA and mafia lead to the acceptance and availability of easy credit by the privately owned Central Banks and Federal Reserve.

54. The immoral practices soon created a fiat US Dollar that since the 1944 Bretton Woods Conference at the end of World War II, had functioned as the primary world reserve currency. This resulted in the global economy to function on currency backed by nothing.

55. It was not supposed to be that way. At the end of the World War II, with Communist and Kuomintang factions at war in China, the international community and the Chinese assented to their gold being placed under the covert control of Indonesian President Sukarno. As per arrangements agreed in the 1921 Pact of Nations made in London, much of this gold was delivered and hidden in Indonesia and the Philippines in secret bunkers constructed by the Japanese between 1924 and 1945.

56. In June of 1944 a private global monetary control framework was introduced to the world during the Bretton Woods Conference in Bretton Woods, New Hampshire. Since then the Central Banking System has attempted to privatize global wealth, monitoring and restricting the world's money supply, including bonds, banking instruments, stocks, digital, paper and coin currencies.

http://en.wikipedia.org/wiki/Bretton_Woods_system.

57. At this same Bretton Woods Conference NATO introduced a global monetary and military strategy that was agreed to in treaties by 44 allied nations. The allies who won the war, declared that the United States of America was the world's liberator, and therefore should be the world's future military enforcer and top economic power player.

58. Thus, the USA was granted the right to print the de facto global reserve currency, and called it the United States Dollar (USD). All other currencies of the world would be held in par comparison to determine their own international value.

59. In 1944 post World War II at this Bretton Woods Conference the Chinese Elders and Cabal agreed to a transitional truce in order to reset the world's financial system after several gruesome world wars. The Elders would place a minority percentage of the Global Collateral Accounts, specifically gold, into Central Bank vaults worldwide.

60. They physically transferred said gold over a two year period, which established the current financial system in 1946. A common gold standard against currency was to be spot-set daily in the City of London.

61. This benevolent gold was on lease to all good standing sovereign nations for a 50 year period, with a 5 year transition period ending in the fall of 2001.

62. The SWIFT system (Society for Worldwide Interbank Financial Telecommunication banking system) was a private institution based in Belgium composed of the US Federal Reserve Bank (FED), Wall Street banks and the Bank for International Settlements (BIS). The SWIFT system operated in 215 countries and territories. This network was involved in international monetary transfers heavily influenced by the Rothschild family.

63. In 1971, President Nixon allowed the Federal Reserve Bank to print the nation's money without regarding previously agreed to gold standard treaties. This act effectively ignored the 1944 Bretton Woods Agreement and re-valued all US issued debt, past, present and future, against the per barrel price of oil, known as the Petrol Dollar.

64. This instigation of the Petrol Dollar into world currency by President Richard Nixon took the US Dollar off the gold standard, thus further perverting the value of the now-artificial fiat US Dollar.

65. Between the late 1980s and 2016 practically every US President has had their hand in the international monetary fund. The level of corruption saturated every nook and cranny of the entity that we call "USA Inc." These same global leaders were named as perpetrators during Satanic Ritual Abuse survivors' child abuse at exclusive gatherings of Masonic global leaders such as at Bohemian Grove California.

66. By 1979 the US military had started training to re-take the country and eliminate this Cabal shadow government that ruled the corrupt world monetary system.

67. In 1991 Roy Schwasinger went before a senate committee to present evidence of the international bankers and government criminal activity through the Federal Reserve. He informed them how the Corporation of the United States was tied to the establishment of a New World Order which intended to bring about a fascist One World Government ruled by the international bankers.

68. In 1992 a task force was put together consisting of over 300 retired and 35 active US military officers who strongly supported Constitutional Law. This task force was responsible for investigating governmental officials, Congressional officers, judges, and the Federal Reserve.

69. The task force included Chief of Naval Operations Admiral Jeremy Boorda, General David McCloud and former Director of Central Intelligence, William Colby. They uncovered the common practice of bribery and extortion committed by both senators and judges. The criminal activity was so rampant that only two out of 535 members of Congress were deemed honest. More importantly, in 1992 they ordered and carried out the first-ever (and only) audit of the Federal Reserve.

70. The Federal Reserve was accustomed to giving orders to politicians and had no intentions of being audited. However, after they were informed their offices would be raided under military gunpoint if necessary, they complied with the investigation. After reviewing their files the military officers found US\$800 trillion dollars sitting in accounts which should have been applied to the national debt. Contrary to federal government propaganda, they also discovered that most nations owed money to the United States instead of the other way around.

71. These hidden trillions were then confiscated and placed into European bank accounts in order to generate the enormous funds needed to pay a successful Farmers Claims class action lawsuit that helped to instigate the 1992 Federal Reserve Audit. Later this money would become the basis of the Global Currency Reset Prosperity Programs.

72. Despite the death blow of loosing control of US\$800 trillion through a 1992 audit of the Federal Reserve, the now-President and founder of the CIA mind control program MKULTRA George H.W.

Bush garnered the help of the Illuminati to continue on with their plans of global enslavement. This included using mind control torture methods gained from adult and child victims of Nazi Germany concentration camps.

73. In August 1992 the military officers confronted President Bush and demanded he sign an agreement that he would return the United States to Constitutional Law. He was ordered to never use the term New World Order again. Bush pretended to cooperate, but secretly planned to bring about the New World Order anyway using the CIA and their use of mind control to overpower the American public.

74. On December 25, 1992 President George H.W. Bush set out to sign an Executive Order that would have indefinitely closed all banks, giving Bush an excuse to declare martial law. Under the chaos of martial law, Bush intended to install a new Constitution which would have kept everyone currently in office in their same position for 25 years, plus removed all rights to elect new officials. The military intervened and stopped Bush from signing that Executive order.

75. In 1993 members of the Supreme Court, certain members of Congress and representatives from the Clinton government met with high ranking US military officers who were demanding a return to Constitutional Law, reforms of the banking system and financial redress. Clinton, however, was a proponent of the New World Order and the CIA mind control programs. As a result, nothing of substance was done. See CIA mind control salve Cathy O'Brien's books "Access Denied" and "Tranceformation of America."

76. The 1999 NESARA Act – the National Economic Stabilization and Recovery Act, also known as the National Economic Security and Reformation Act – came about after a 1993 ruling of the US Supreme Court after 30 years of lawsuits by the Farmers Union. NESARA

77. In that successful suit the US banking system and US government were found to be in collusion to defraud US citizens.

78. Also in that successful suit it was proven in court that the US office of the Internal Revenue Service that collected taxes from citizens had never been ratified by the US Congress.

79. Initially the Clinton Administration attempted to get the World Court to overrule NESARA, though by 1999 the true NESARA Law was introduced in Congress.

80. NESARA was the most ground breaking reformation to sweep the US. The 1999 Act did away with the Federal Reserve Bank, IRS and shadow US government of the Cabal, plus implemented the following changes:

A. Zeros out all credit card, mortgage, and other bank debt due to illegal banking and government activities. This is the Federal Reserve's worst nightmare, a "jubilee" or a forgiveness of debt.

B. Abolishes the US income tax.

C. Abolishes the IRS. Employees of the IRS will be transferred into the US Treasury national sales tax area.

D. Creates a 14% flat rate non-essential new items only sales tax revenue for the government. In other words, food and medicine will not be taxed, nor will used items such as old homes.

E. Increases benefits to senior citizens.

F. Returns Constitutional Law to all courts and legal matters.

G. Reinstates the original Title of Nobility amendment.

H. Establishes new Presidential and Congressional elections within 120 days after NESARA's announcement. The interim government will cancel all National Emergencies and return us back to Constitutional Law.

I. Monitors elections and prevents illegal election activities of special interest groups.

J. Creates a new U.S. Treasury rainbow currency backed by gold, silver, and platinum precious metals, ending the bankruptcy of the United States initiated by Franklin Roosevelt in 1933.

K. Forbids the sale of American birth certificate records as chattel property bonds by the US Department of Transportation.

L. Initiates a new U.S. Treasury Bank System in alignment with Constitutional Law.

M. Eliminates the Federal Reserve System. During the transition period the Federal Reserve will be allowed to operate side by side of the new U.S. Treasury for one year in order to remove all Federal Reserve notes from the money supply.

N. Restores financial privacy.

O. Retrains all judges and attorneys in Constitutional Law.

P. Ceases all aggressive, U.S. government military actions worldwide.

Q. Establishes peace throughout the world.

R. Releases enormous sums of money for humanitarian purposes.

S. Enables the release of over 6,000 patents of suppressed technologies that are being withheld from the public under the guise of national security, including

81. Not surprisingly, much disinformation about NESARA could be found on the Internet. Wikipedia's article was total disinformation. Dr. Harvey Francis Barnard's NESARA bill was rejected by Congress in the 1990s. Dr. Barnard was a systems philosopher and had tried for years to interest Congress in his monetary reform suggestions. A testimony and articles by Dr. Barnard's close friend, Darrell Anderson, was shown here: http://www.simpleliberty.org/bookshelf/draining_the_swamp.htm

82. Late one evening on March 9, 2000, a written quorum call was hand-delivered by Delta Force and Navy SEALs to 15 members of the US Senate and the US House who were sponsors and co-sponsors of NESARA. They were immediately escorted by the Delta Force and Navy SEALs to their respective voting chambers where they passed the NESARA Act.

83. These 15 members of Congress were the only people lawfully allowed to hold office in accordance with the original 13th Amendment (which made a lawyer's oath to the British Crown).

84. Finally in a March 9, 2000 required meeting, Congress passed NESARA.

85. During the Nov. 8, 2000 US election fiasco in Florida of Bush Jr, the state was approached by 4,000 CIA agents of Bush Sr. Officials were told that they must make Bush Jr. president or there would be civil war in the US.

86. In Oct. 2000 people in military betrayed their agreement to implement NESARA. President Clinton had no interest in signing NESARA into law.

87. On October 10, 2000 and under orders from U.S. military generals, the elite Naval SEALs and Delta Force stormed the White House. Under gunpoint, they forced then-President Bill Clinton to sign NESARA. During this time Secret Service and White House security personnel were ordered to stand down, were disarmed, and allowed to witness this event under a gag order. President Clinton also relinquished his bar registry.

88. From its very inception the promoter of mind control Bush Sr., the corporate government, major bank houses, and the Carlyle group have opposed NESARA. To maintain secrecy, the case details and the docket number were sealed and revised within the official Congressional registry to reflect a commemorative coin. It was again revised even more recently. This is why there was no public Congressional Records about NESARA and why a search for this law would not yield the correct details until after the reformations were made public.

89. Members of Congress will not reveal NESARA because they have been ordered by the U.S. Supreme Court Justices to deny its existence, or face charges of treason punishable by death. Some members of Congress have actually been charged with obstruction over their discussions of NESARA. When Minnesota Senator Paul Wellstone was about to break the gag order, his small passenger plane crashed, killing his wife, daughter and himself. If fear was not enough to keep Washington in line, money was. Routine bribes were offered to government and military officials by the power elite/secret government.

90. The next step was the difficult task of announcing NESARA to the world. Many powerful groups tried to prevent the implementation of NESARA. The NESARA law required that at least once a year, an effort be made to announce the law to the public. Three current US Supreme Court judges have used their authority on the committee in charge of NESARA's announcement to secretly sabotage efforts to reveal NESARA.

91. On 9 Sept. 2001, eighteen months after NESARA became law, the Supreme Court justices ordered the 107th Congress to pass a resolution approving NESARA. That same day Congress passed NESARA.

92. The next day on 10 Sept. 2001, George Bush Sr. moved into the White House to steer his son on how to block the announcement of NESARA.

93. Upon forming the CIA after World War II, Bush Sr. helped to import those Nazi mind control specialists into the US, Canada and Australia. Bush Sr.'s father had ties to Nazi Germany. Bush Sr. helped run the mind control, torture, rape and murder of children by the CIA. Bush Sr. also managed the CIA in Dallas during the Kennedy assassination. It was well known that the CIA controlled the media.

94. The day after Bush Sr. moved into the White House on 11 Sept. 2001 at 10 am EST, Alan Greenspan was scheduled to announce the new US Treasury Bank system, debt forgiveness for all U.S. citizens, and abolishment of the IRS as the first part of the public announcements of NESARA.

95. It was speculated that on September 11, 2001 at 8am EDT, the Cabal, working with the CIA, did the unthinkable in New York City. Two nuclear devices were imploded beneath the Twin Towers.

96. It was alleged that just before the announcement at 9 am on Sept. 11, 2001 Bush Sr. ordered the demolition of the World Trade Center's Twin Towers to stop the international banking computers on Floors 1 and 2 in the North Tower from initiating the new U.S. Treasury Bank system. Explosives in the World Trade Center were said to be planted by operatives and detonated remotely in Building 7, which it is alleged, was demolished later that day in order to cover-up their crime.

97. It was also said that on 11 Sept. 2001 remote pilot technology was used in a flyover event to deliver a payload of explosives into the Pentagon at the exact location of a group of military personnel known as the White Knights. Back in 1871 upon creation of the United States of America Inc. and as a contingency plan, the military had formed an interim government headed by these White Knight military leaders. On 11 Sept. 2001 the White Knights were coordinating activities supporting NESARA's implementation nationwide from their new Naval Command Center at the Pentagon – which was destroyed during the events of 9/11.

98. With the announcement of NESARA stopped dead in its tracks, George Bush Sr. was said to have decapitated any hopes of returning the government back to the people.

99. Between the late 1990s and early 2000s the Bush family crime syndicate was believed to have stolen US\$800 trillion in taxpayer monies through use of the Federal Reserve, plus expanded their operations during the past half-decade.

100. The US\$800 trillion was recovered during a 1992 Federal Reserve audit. More illegally taken taxpayer funds were recovered around 2006.

101. The funds were stored in European accounts awaiting the Global Currency Reset where they were targeted for use in Humanitarian Projects.

102. The illegally taken funds formed the basis for some of the criminal charges to be levied against this broad Bush criminal syndicate. An organization called the New Republic was holding off on these arrests until a series of charges were authenticated and could be acted upon.

103. A major film documentary “Eagle One to Wanta” covered how President Reagan’s secret agent Ambassador Lee Emil Wanta amassed 3.8 trillion through a negotiated agreement with Soviet Secretary General Mikhail Gorbachev during the fall of the Soviet Union. The 3.8 trillion was designed to go back to the American people but was stolen by the Federal Reserve System. Wanta has pledged to eliminate our national debt overnight after a 2006 US District Court mandate was honoured that would return the money. The documentary was scheduled to be released upon announcement of the new US Republic. A trailer of “Eagle One to Wanta”: <http://eagleonetowanta.com/>

104. By 2007 two world wars and several “conflicts” had been funded by the Federal Reserve in a failed yet direct response to give the Royal Dragon Families back their collateralizing assets to a rapidly defaulting Central Banking System.

105. On Friday 18th January 2008 colleagues heard the seventeenth Chief Justice of the Supreme Court John Glover Roberts, a prominent American Roman Catholic, say that the NESARA global prosperity packages would “never be delivered”.

106. By March 2008 it was decided that Chief Justice John Roberts was holding the global prosperity packages illegally in the vaults of the USA Supreme Court in Washington DC.

107. On the evening of Thursday 20th March 2008 John Roberts called a meeting at the US Treasury. Supported by senior American Roman Catholic archbishops and cardinals, the Vatican in Rome and The Crown Temple in London, John Roberts and George Bush Jr, were conspiring to prevent delivery of the Wanta Plan Funds and the NESARA global prosperity packages.

108. John Roberts said to his colleagues: “I run Treasury. I decide what will be done and what I am doing is none of your business. You don’t work for the government and you don’t work for the American people. You work for me and you will do what I tell you to do and what I am doing is none of your business. I am sick and tired of calls from all over the world and my business being reported on the internet by Casper. Anyone caught opening their mouth will immediately be fired.”

109. John Roberts’ problem was that several of his Washington DC colleagues in both the Supreme Court and the Treasury, did not agree that it was right for the Chief Justice to act in open defiance of the American Constitution, the International Court of Justice and the International Monetary Fund.

110. John Roberts and Bush Sr. had stolen US\$9.1 trillion of USA taxpayers’ funds from the Treasury. The Mastermind behind this heist was said to be Henry Kissinger. The stolen or miss-applied funds vastly exceeded America’s gross annual budget.

111. By midday on Friday 21st March 2008, John Roberts’ control of the USA Treasury had been terminated by a majority vote of the other USA Supreme Court Justices.

112. Three of the Assistant Justices were discovered to have been conspiring with Bush and Roberts in administering the US\$9.1 trillion Treasury theft. They were: Samuel Alito (a Roman Catholic with Italian connections), Antonin Scalia (a Roman Catholic with Sicilian connections) and Clarence Thomas (a Roman Catholic with a developed interest in pornography and a public history of sexual harassment).

113. When Roberts' resignation was demanded he quickly signed the letter, correctly dating it the 21st March 2008, but deliberately signing it fraudulently by writing his name as Robert rather than Roberts. Centuries ago, others successfully falsified biblical texts with similar measures.

114. On Tuesday 25th March 2008, it emerged that Sandra Day O'Connor, a recently retired Supreme Court Assistant Justice, was actively involved in attempting to trade the stolen US\$9.1 trillion for Bush and Roberts. O'Connor was regarded as a Farm Claims and NESARA turncoat who was bribed into conspiratorial obedience by the Bush White House.

115. On the morning of Tuesday 25th March 2008, Roman Catholic Patrick Fitzgerald, Federal prosecutor of the United States Department of Justice Office of Special Counsel, returned to the US Treasury to continue his investigation of the stolen monies. A few hours later he was instructed by Chief Justice Roberts to stop his work and leave.

116. By the beginning of April 2008 agents acting for President George Bush Jr and the Vatican had a contract out for Patrick Fitzgerald's assassination and had told him so. Fitzgerald and his co-workers were closely protected with security provided by Interpol and a Chinese Secret Society of which Benjamin Fulford had spoken in 2007, see details [here](#) and [here](#).

117. The Chinese enforcers also had people in place within the inner circles of George Bush Jr, George Bush Sr, Dick Cheney, Bill Clinton and Hillary Clinton, as well as in the special hospitals these people would be taken to in the event of an "accident." If the Chinese bullet didn't work, the Chinese syringe certainly would.

118. On Monday 31st March 2008, Fitzgerald had a team of one hundred and seventy seven attorneys working uninterrupted all night at the US Treasury and the US Supreme Court. The data retrieved spelled slow death for the Washington DC ruling class.

119. During his investigations into the US government wire frauds at the Treasury, Fitzgerald stumbled across an altogether larger legal fraud: Washington DC itself had no right in Constitutional law to run America. Washington DC was a system of corporate scams constructed to milk the American people without their knowing.

120. Fitzgerald also uncovered that the United States was not the United States of America. There were two completely different legal entities operating. There was an illegal President of the US in post, but no legally constituted President of the USA. The US (Washington DC) was not about the government of the people, by the people, for the people. The US was about the control of the people by the corporations for the Crown Temple in London. More details about the legal status of the US / USA were [here](#).

121. All this might have stayed invisible but for NESARA and the American financial depression of 2007-2008. The combination of these two things engendered irresistible pressures which allowed Special Prosecutor Patrick Fitzgerald to uncover the truth about the US monetary system being run by the Cabal.

122. By the time of Fitzgerald's investigation America's money was gone. There was nothing to replace it with except the NESARA world prosperity funds. The politicians were desperate. They didn't want NESARA. NESARA would re-establish Constitutional law and they would be forced out of office to face public Treason charges. They were terminally desperate. In their desperation, they made mistakes via attempted illegal wire transfers and off-shore stealth trades (more details here). Their flailing about caused the whole corporate legal fiction to unwind visibly.

123. Historical detail described here came to the attention of Patrick Fitzgerald. In April 2008 the Bush-Cheney-Clinton junta was in a fight for its political, legal and financial life, but still controlled the mainstream corporate media. Thus, the general population was unaware of anything but a politically understated financial crisis, a collapsing dollar, a rising gold price, and a few million foreclosures on domestic properties.

124. Also by 2008 another proponent of the New World Order, the Obama Administration, was in charge. Obama refused to work under a budget while ballooning the national debt with a stimulus package that didn't stimulate the economy, but more than tripled the national debt.

125. The US fast began losing their influence as the main world reserve currency due to its uncontrollable monetary policies, ever-growing debt and use of fiat currency.

126. These discrepancies built to a head when the Dragons demanded payment for derivatives debts on Lehman Brothers. The Royal Dragon families were very concerned that the US could not even pay the interest on its debt to them.

127. The Dragon families called in their loan on Lehman Brothers, thus causing the 2008 Mortgage Crisis.

128. When Lehman could not pay off the debt call, the US government declared a global financial emergency, borrowing US\$700B from its citizens (T.A.R.P.) in order to maintain repayment schedules negotiated by Federal Reserve Bank to the Chinese Royal Dragon Families.

129. By now nations of the global monetary system had alarming concern about the US national debt and US currency which had no backing, yet was being used as the main world reserve currency. In 2009 the Royal Dragon Families stepped in to form BRICS, an organization of Brazil, Russia, India, China and South African.

130. A 2011 Treaty White Paper informed different global finance ministers of the economical conditions of the world. As a result, Ireland challenged the world monetary system saying, "If you can prove that you loaned us any money, we will gladly pay you. But If you can't, basically 'go pound sand'!" And they held to it. They had that same thing going on with Greece. It was believed that if the right one had gotten elected in Greece they would have done this same thing as did Ireland.

131. In the fourth quarter of 2012 as the Settler on a Econo Trust Lien against the Federal Reserve Bank and to prevent them from rechartering, the Federal Reserve was melded into the new United States Treasury now located in Reno Nevada under what was eventually called the New Republic (formally formed in 2015).

132. By 2015 all the nations of the world except for the US and Japan, had joined BRICS. Japan joined in the Fall of 2015, leaving the US as the lone holdout.

133. BRICS economic resources united together to replace the US as the world's leading economic power, but BRICS had a problem: The fiat US dollar was the global reserve currency by which all other currencies are valued as equal.

134. To solve their problem BRICS re-evaluated the currencies of the world which had joined the BRICS system. They backed all those world currencies with natural resources of the countries and gold reserves of the Dragon Families so as to conform to the IMF's Basil III regulations.

135. By Feb. of 2015 the new US Republic had been formed by concerned Congress people. The Royal Dragon Families had demanded formation of this New Republic as a necessary step before they would back US currency with their gold in the BRICS system.

136. By this time the United States of America Inc. corporation was defunct, bankrupt and operating as a facade.

137. As of March 1, 2015, neither the FED nor the United States of American Corporation (founded in 1871) had liquidity left to satisfy its debt repayments.

138. The Obama Administration had repeatedly refused to join BRICS, thus creating a dangerous situation of fiat currency whereby the US and the even all world economies, could easily collapse.

139. The New Republic went into formal operation on March 1 2015. It was stationed in West Virginia and protected by the US Army.

140. In 2015 Marine Corp. General Joseph Dunford was selected to be the interim President of the New Republic because he had recently been appointed by Congress to be the Joint Chief of Staff at the Pentagon.

141. Also in 2015 when Paul Ryan replaced John Boehner as Senate Majority Leader and Speaker of the House, he did so knowing he might eventually replace Dunford as the interim President of the New Republic. As it turned out, Ryan served in the position for a few months while Dunford served as Republic Vice President, but Ryan eventually declined the new Republic President's job.

142. Under the New Republic the US Government was turned over on an interm basis to military leaders referred to as the White Knights. As the only legally operating entity left of the Republic, the White Knights worked within the US Pentagon to run the country's affairs. This transition had quietly rolled out going back to 4th quarter 2012.

143. In Feb. of 2015 the new US Republic incorporated the 2015 Jade Helm military exercises as part of their movement to take back the original US Constitution.

144. The New Republic had to construct a national currency but they didn't have the gold by which they could comply with the IMF's Basil III. In April 2015 the Chinese Elders leased 100 billion in gold to the New Republic.

145. US Treasury Reserve Notes [TRNs] were created by the New Republic for use at the government level, but were not designed to be used on the street. Since 2015 they have been trading the new TRNs internationally, in Europe and in the Japanese Market.

146. For a monetary system that could be used by the general US public, the New Republic created what's known as United States Notes [USNs]. The only difference between the new US Notes currency and the Federal Reserve Notes was that the new currency would not be charged interest.

147. The new US Note currency was like what President Kennedy had created way back in 1963 when he tried to shut down the Federal Reserve right before he was assassinated.

148. Kennedy's ultimate cost of trying to take down the Federal Reserve using the new US Notes was explained in this documentary about to be released as an introduction to the New Republic:

<http://eagleonetowanta.com/>

149. On April 22 2015 the Chinese Elders began moving the USA into gold backed currency by making the TRNs live on the back screens.

150. In 2015 the New US Republic (charged with protecting the Royal Dragon Family gold that backed the new US currency) located the new US Treasury in Nevada on an Indian Reservation because Indian Reservations had free trade zones.

151. One of the major Royal funding streams for the US Federal Reserve Dollar (which was also the major world's reserve currency) reached its term, with the last of the funding streams cut off at the start of Dec 2015.

152. Patriots like Winston Strout helped the Federal Reserve to be absorbed into the US Treasury. A recent interview with Winston Strout discussing the process could be found here:

<http://www.talkshoe.com/talkshoe/web/talkCast.jsp?masterId=46256&cmd=tc>

153. The Dragon Families excused all US debt when their gold was placed in the new US Treasury in Reno in April 2016. This included excusing debt and derivatives of the Wells Fargo Bank, which is mainly owned by the Dragon Families, plus derivatives of certain other banks. (There is question about excusing debt and derivatives of the Bank of America since it is heavily used by the Cabal).

154. In April 2016 certain patriotic members of Congress formed the new US Republic, US Treasury and US currency notes. The US Notes were backed by the USA's natural resources, plus 100 billion more in gold borrowed from Royal Dragon Families.

155. On Jan.1 2016 and as Senate Majority Leader, Paul Ryan replaced Joseph Dunford as interim President of the New Republic with the charge to remain in place as the interim US President until the Nov. 2016 elections.

156. Dunford stepped down to fill the slot as Vice President of the New Republic.

157. On March 31 2016 the US finally joined BRICS, opening the door for the New Republic to take over and dictate US monetary policy under rules as outlined in the original US Constitution.

158. The New Republic of United States government and Treasury were restored at 6:30 pm Wednesday, March 30, 2016 when the Dragon Family released funding for the New Republic (the real reason for the Chinese visit to the White House that day).

159. The Dragon Family's 100 billion in gold that was leased to the new US Treasury was temporarily stored in Texas.

160. On April 1, 2016 an agreement was signed between old SWIFT system and new BRICS CIPS system. The Cabal financial system of SWIFT which had been used in monetary transactions by over 10,000 financial systems worldwide, was taken over by the BRICS CIPS system.

161. On April 8 2016 Obama, Biden, IMF, Chinese Elders, IMF began a series of emergency meetings in Washington DC that continued through April 14

<https://www.superstation95.com/index.php/world/1144>

162. In the middle of these meetings on April 10 2016, over 100 arrests of bankers were made and charged with funding ISIS.

163. On April 11 2016 Iraq ordered dealers to stop selling Dinar. The Iraqi government payouts were now done in bonds. Iraqi bonds stopped trading on the international market. The Dinar currency was no longer allowed in or out of Iraq.

164. By April 18 2016 a disturbing series of events were in motion along the lines of the last financial collapse. US banks were expected to report their worst financial quarter since the start of the Great Recession. The Fed issued a warning to the biggest bank in the country – JP Morgan Chase – that they couldn't take another hit without incurring an epic disaster. The letter was addressed to Jamie Dimon, the leader of the bank, who seemed to have become completely immune to prosecution, no matter what he did. It is 19 pages and heavily redacted. The Great Recession Blog posted a bullet list. The letter sparked secret meetings among those in power.

165. On April 19 2016 an announcement was made that the Chinese Yuan was now gold backed and China no longer accepted US Federal Reserve Notes in trade.

166. On April 20 2016 Treasury Secretary, Jack Lew announced new USN currency to world via CNN and Fox News. New USN or gold backed currency has been printed with new faces such as Harriet Tubman on the US\$20 bill.

167. On April 21 2016 at 4 pm, US markets closed on the US Federal Reserve notes. They were no longer accepted for world trade and only could be used in the US.

168. On April 21 2016 the Chinese Yuan became a world wide gold backed reserve currency as of 8:30 pm eastern Thursday night.

169. The Zimbabwe dollar price was fixed at a high level as of April 21 2016.

170. On April 26 2016 Pentagon Chief of Staff General Joseph Dunford and the New Republic Military made their way into the White House via the underground tunnel system. "White House on lock down. New Republic Special Forces alongside General Dunford had entered the White House via JFK's tunnel. Papers of surrender and resignation have been issued." OperationDisclosure.Blogspot.Com on April 27th, 2016

171. Between April 26 and April 30th Dunford and his team were involved in negotiations for the surrender of the Cabal and USA Corp. Dunford and the resistance movement knew they could use the threat of exposing the Cabal on a global media live streaming event that was to air on April 30, 2016 for the White House Correspondents Dinner.

172. Also on that April 26 2016, the Global Currency Reset process began playing out when China formally launched a return to the gold standard.

173. Pentagon sources say that the White House was under lock-down April 26 and 27th "as Special Forces led by (General Joseph) Dunford entered via tunnel to demand Obama and Biden resignations." The official version was that the White House was under lock down that day because of a fence jumper.

174. On April 30 2016 Madam Woe declared the Dinar gold backed and exchanges took place in Atlanta Georgia.

175. On the evening of April 30th in Washington, DC just before President Obama was scheduled to speak at his White House Correspondent's Dinner (WHCD), an agreement was reached. The Cabal had functioned on fiat currency through the Federal Reserve and the Federal Reserve was bankrupt. The Cabal had no choice but to surrender and sign the agreements to begin the Global Currency Reset. If the papers weren't signed Obama was threatened that as overseeing "President" Pentagon Head Chief of Staff Joseph Dunford, would push Obama aside at the dinner and publicly announce the New Republic in front of all the world's press corps.

176. The BRICS bank AFIIB, Wells Fargo and HSBC bank put a 10:00 pm April 30 2016 deadline on Citibank to get Basel III compliant or default. A backroom deal was signed at 8:59:59 PM. Citibank defaulted to AFIIB/WF/HSBC and became Basel III compliant and thus Obama was allowed to speak. Security Forces which earlier had been pulled from the Citibank currency center redemption locations, returned by midnight.

177. Obama started his talk at the White House Correspondent's Dinner by saying, "It is my honor to be at my last, and perhaps the last, White House Correspondent's Dinner... hahaha", and he next says, "The END of the Republic never looked better! I am just counting the days before my death panel! I have only 2 words to close with... Obama... Out!" He quickly raises two fingers to his lips (Masonic secret degree sign-his obligation that enjoins secrecy) and with his other hand picks up the portable mic, raises it over his head, and then intentionally drops the mic out of his hand to the ground. A transcription of the Obama speech can be found here at the Washington Post.

178. It was reported that after the WHCD dinner that Obama did not go back to the White House. For several weeks the Obama family had occupied an apartment inside the beltway in order to "keep up appearances" both during his remaining months as "President" and to act as though the Obama family is staying in DC so their 2 girls can finish their education.

179. The plan was to keep everything appearing "status quo" without bringing attention to the change-over in government, currency, banking, and, ultimately, control of the Republic. International rates would change on FOREX without fanfare as well with sovereign rates showing on offsite redemption centers concurrently.

180. By May 2016 the Cabal was bankrupt and their US Federal Reserve Dollar was no longer accepted for trade worldwide. Through this bankruptcy and subsequent backing of the new US Treasury Note by gold of the Royal Dragon families, the USA and 100 Indian Nations were legally separated from the Cabal. Members of the Cabal were being arrested under the US Federal Marshall Program.

181. The Federal Deposit Insurance Corporation told banking giants like JP Morgan, Goldman Sachs, Wells Fargo, New York Mellon Bank and State Street Corp that their bankruptcy plans were not credible. <https://www.rt.com/usa/339518-banks-disaster-readiness-regulators/> To put it another way, some of the top Khazarian cabal banks and owners of the Federal Reserve Board were basically being told they were bankrupt.

182. On May 1 at 8:59 pm EST the cabal surrendered when Citibank defaulted.

183. On May 1 the Zimbabwe note was declared gold-backed and was reported to have a value of \$11.80 in Europe.

184. On that same Sunday May 1 in Iraq US Secretary Lew made the announcement that the US currency was gold backed, along with other world currencies. It was now a brand new financial system around the world. On the new digital BRICS system transactions took place in a matter of seconds instead of days.

185. On Monday May 2 2016 Geneva Switzerland became a ratifying adherent of the China-sponsored Asian Infrastructure Investment Bank (AIIB), making the confederation one of the last countries to complete the membership process.

186. By that same Monday at midnight May 2 2016 Puerto Rico defaulted on their sovereign loans. Puerto Rico was the headquarters of US Incorporated – the Cabal organization fighting the Global Currency Reset.

187. On that Monday the USA Corporation defaulted also. As a result all government agencies created by USA Inc. legally defaulted too, including but not limited to: The Federal Reserve Bank, Internal Revenue Service, Homeland Security, Federal Emergency Management Agency, National Security Agency, Central Intelligence Agency, and National Aeronautics and Space Administration.

188. As of Monday May 2, 2016 the USA and 100 Indian Nations were legally separate from the Cabal. The Cabal (along with their Federal Reserve) was bankrupt. The US Federal Reserve Note was no longer accepted for trade in and outside of the US. Members of the Cabal were being arrested under the Federal Marshall Program. <https://mainerepublicemailalert.com/2016/05/03/global-currency-reset-america-amazing-role-we-are-a-new-nation-state/>

189. On Tues. morning May 3 2016 there was a technical transfers of funds. All sovereign nations had agreed to the new BRICS monetary system including having asset backed currencies under Basil III and Basil IV compliance. Ancient Historic bonds were reconciled of all countries dating back hundreds of years including 1776 in the US.

190. A hand chosen White Hat military leadership, along with White Hat politicians, were positioned and seated in the new Republic government to handle the day to day operations of the United States. This included military and political oversight over all domestic and international matters concerning the country.

191. The new US Republic put out a gold-backed currency called United States Notes (USN). The Republic's sovereign currency Treasury Reserve Notes (TRN) was already being traded on government world markets.

192. All 208 sovereign nations of the world were diplomatically, militarily and financially recognizing the Republic of the United States and their USN/TRN monetary value systems. The USA, Inc was no longer acknowledged on the global stage.

193. Through the USA Inc. bankruptcy and backing of the new US Treasury Note by gold of the Royal Dragon families, the USA and 100 Indian Nations were legally separated from the Cabal.

194. As of May 2016 the CIA plan was to keep Obama as the face of the regime and use him to transition to a possible Donald Trump presidency. The powers behind the US government throne had changed and Obama was no longer living in the White House.

195. The epic events regarding the changeover of the global monetary system was news throughout Europe and Asia, though no mention was made in the Cabal leader George Soros-owned US main stream media.

196. One very visible sign of the US regime change was the fact that Pentagon sources noted, "1500 Yale Skull and Bones documents will be released to expose [US Secretary of State John] Kerry, the Bushes, and other cabal members." <http://www.politico.com/blogs/under-the-radar/2016/05/george-w-bush-white-houses-skull-and-bones-files-due-out-222858>

197. On Tues. May 3 2016 at 12 midnight to 3 am EST the digital world monetary system was put into the new BRICS system to officially begin the Global Currency Reset and RV of world currencies.

198. On May 6 2016 the White House put out a detailed plan for a “peaceful transition of power.”

Gentlemen:

I am forwarding the content of the following synopsis so that you are fully informed:
 In the interest of expediting mutual understanding I have organized the key information:

1. The “United States” that has been causing all the trouble is only “the territories and District of Columbia”. Those “United States” known as the United States of America (Minor) have committed fraud against these United States (Major) and the entire rest of the world.
2. As a result, the United States Major has still not come to the table with regard to the eminent changes in the financial system.
3. The United States Major issued new Sovereign Letters Patent in November 2015 and appointed new Federal representatives. Mr. Jacob Rothschild representing the UN Corporation and Pope Francis as Trustee have both been notified that THE UNITED STATES OF AMERICA, INC. has no contract, is acting on a for hire basis only, and is obligated to honour the terms and conditions of the actual Constitution while doing so.
4. The High Contracting Powers have similarly been informed that none of the ESTATE trusts named after living Americans and created by the UNITED STATES, INC. for its own benefit are contractually

valid. These private contracts have been created and secured under conditions of non-disclosure and semantic deceit.

5. The High Contracting Powers have also been informed that we have acted as the lawful Beneficiaries and Priority Creditors and have authorized the discharge of the “National Debt” owed by the UNITED STATES, INC. against our already accrued “National Credit” so as to put an end to all pretence of conflict with or valid commercial claim against the American People and their actual property assets.

6. The position of the United States Major is one of guarded optimism. Having clearly defined the problem of fraud and misrepresentation by the United States of America Minor, it is now possible to overcome it. That said, we agree that gold has always been the international medium of exchange in modern times and we understand that other nations may desire or require gold in payment for goods and services. We agree that at least for the time being a precious metals standard may serve to restore a degree of honesty and stability to international markets and that new and stringent bank regulatory mechanisms are sorely needed to prevent speculation, insurance scams, commodity rigging and a host of other evils.

7. We draw everyone’s attention to the fact that the United States Major’s lawful money is and has always been the United States Silver Dollar. We see no reason why our currency would be in any way incompatible with the proposed international return to a precious metals-based system.

8. We welcome the understanding and the assistance of the international community as we put our house in order and point out that as we have authorized our Trustees to settle all the debts of the UNITED STATES, INC. there can be no complaints or accusations held against the American People nor any continuing claims against their assets based on the fraudulent misrepresentations of the United States of America, Minor.

9. What remains to be resolved is an arbitration process by which the United States Major is credited back costs which we have incurred by covering the UNITED STATES, INC. debts and which were never agreed to by any fiduciary deputies of ours.

10. We trust that the banks are well-aware of where the accounts actually stand, the fraud that has been committed against the United States Major, and their own fiduciary culpability. A prompt and just settlement of these issues is in the best interests of the entire planet and we stand ready to do our part.

We hope this synopsis of the situation clarifies it for everyone concerned.

Please note the irrefutable evidence of the purposeful fraud that has been perpetuated against the American People contained in the Protocol Manual and attested to by every Protocol Officer which states that the “only purpose” of the Birth Certificate is to naturalize “citizens” into the foreign jurisdiction of the United States defined as the “territories and District of Columbia”.

No such misrepresented and undisclosed process of “naturalization” may be considered valid.

The United States of America (Major) is alive and well despite the gross fraud and unnatural ingratitude of its employees.

I am also enclosing a wet-ink copy of the transmittal forwarded to Pope Francis and the Bank of International Settlements authorizing the transfer of credit from our trust accounts to cover all debts of the UNITED STATES, INC. This was necessary to forestall violence based on false claims and presumptions against the American People and their assets.

Mr. Kerry— you have a choice. You can voluntarily release all of the bogus franchises that have been created in the NAME of living Americans and save us all a lot of paperwork or you can establish and publicize an agreed-upon process to return Americans to their lawful birthright status.

This needs to be done without further obfuscation or obstruction.

Sincerely,

Judge Anna

200. Three days later on May 13 2016 an intelligence alert stated that, “All necessary components of American life and national mechanisms of function are securely within Republic control via the military forces of Commander in Chief General Joseph Dunford.”

201. By May 20 2016 the new US Republic had issued Sovereign Letters (Patented in November 2015) and appointed new Federal representatives. Jacob Rothschild representing the UN Corporation and Pope Francis as Trustee were notified that the United States of America, Inc. had no contract, was acting on a for-hire basis only, and was obligated to honour the terms and conditions of the actual Constitution while doing so.

202. As of Sunday evening May 22, 2016, the Chinese Elders placed their gold to back the entire new BRICS financial system. That included backing US notes of the new US Republic.

203. On Monday May 23, 2016 the Chinese halted all financial extension graces to the ever withering cabal political, financial and military pageant. They eliminated the USA, Inc. No sovereign country in active participation with the BRICS could participate with the USA Inc. on their new gold backed financial system.

204. There were 208 countries which had agreed to use the new BRICS electronic payment system that came online on May 23 2016. The new BRICS CIPS electronic payment system of CIPS was active. The old western banking system called SWIFT would not be able to access and exchange the new gold-backed Yuan.

205. Also on May 23 2016 US financial markets were switched over to the new gold backed money, as was every bank account in the US system of finance. All Americans were now operating safely inside of the new BRICS system with no meaningful or immediate changes to day to day financial activities.

206. On May 24 2016 the new monetary system had still not gone into effect. On that same day a Benjamine Fulford published, “The man who is blocking the new financial system and preventing the use of Asian gold for the benefit of the planet is Baron Jacob Nathaniel Rothschild, according to his close relatives as well as the CIA. Baron Rothschild is the head of the Khazarian mafia referred to as

Octopus that controls the issuance of US dollars, Euros, Japanese yen and many other currencies, not including the Chinese yuan, or the Russian ruble. If Baron Rothschild does not contact the White Dragon Society to negotiate a compromise within 24 hours of this newsletter being published, the WDS will offer 1 ton of gold, available for pick up in Hong Kong, to anybody who can persuade him to get out of the way.”

207. Evidently the glitch in the system was corrected when on May 25 2016 Fulford published, “The Rothschilds have contacted the White Dragon Society so the 1 ton gold offer has been suspended. Negotiations are proceeding.”

208. All 208 sovereign nations of the world were now expected to diplomatically, militarily and financially recognize the Republic of the United States and their US Notes and Treasury Reserve Notes as being gold and asset backed under the new BRICS system.

209. The USA, Inc, and all of its agencies were no longer to be acknowledged on the global stage.

210. Under the new US Republic the US Federal Reserve banking system was closed. The Fed was owned by a British foreign corporation and its monies had not been governed by the people, for the people. There were insufficient federal government controls over detailed physical performance and day-to-day operation of the Federal Reserve Bank for it to be considered a federal agency. Here were excerpts from a court case connected to NESARA that proved the Federal Reserve system’s illegal status.

211. Under that US Supreme Court ruling connected to NESARA it was ruled that US banks should be independent, privately owned and locally controlled corporations. The Fed would be replaced by a system of Treasury Banks which issued the new US Notes and Treasury Notes that were asset and gold-backed.

212. Under the new US Republic the IRS and corrupt judges would be dealt with.

213. Under the new US Republic the Bar Association and all US attorneys would have to renounce their Bar Oath to the Temple Bar of London and become lawyers, but they couldn’t be considered attorneys anymore.

214. Under the new US Republic the individual governments of the 50 states would remain in place.

215. The North American Union would be done and Washington D.C. would be dis-incorporated.

216. Pope Francis has fired five of the Cardinals out of the Vatican Bank which controlled the world currency before instigation of BRICS.

217. The new US Republic Military was in the process of reclaiming all military installations.

218. The purpose of the new US Republic was to function as a restored Constitutional Government as established pre-Civil War.

219. See this trailer of a soon-to-be released documentary about corruption in the Federal Reserve, “Eagle One to Wanta”: <http://eagleonetowanta.com/>.

[Eagle One to Wanta Gibby Media Group , Inc is producing a feature documentary film entitled “Eagle One to Wanta”. It is the compelling story about President Reagan, and how he brought about the fall of the Soviet Union and ended the Cold War without firing a shot. President Reagan and his secret agent, Ambassador Lee Emil Wanta, masterminded a creative way to financially take down the economy of the Soviet Union(Evil Empire) and put together and negotiated an agreement with Secretary General Mikhail Gorbachev. As a result the Russian Federation was born and future generations throughout the entire world have enjoyed more safety from a nuclear holocaust because of this effort. Working directly under President Reagan as a private citizen, there is a man named Ambassador Lee Wanta. Lee was mandated by President Reagan under the Totten Doctrine **[92 U.S. 105, 107 (1875), National Security Decision – Directive Number 166, dated March 27, 1985, inter alia]** as a secret agent to be in charge of this effort. In this process Lee Wanta did amass trillions of dollars that were designated to go back to the American people by President Reagan. In his effort to carry out his mandate, Lee Wanta was imprisoned and the monetary funds that were his to distribute as planned were stolen or converted illegally by an organization known as the Federal Reserve System and used by them to this day.

Later in 2006 a US District Court Judge mandated and ordered that these converted funds be returned back to Lee with interest accruals. It’s hard to understand why, after eight years since this order was given by a US Judge, that these funds are still retained. When Lee Wanta receives his funds back it will be in the amount of 32.8 trillion dollars. He promised under an oath to President Reagan that after he pays his repatriation taxes on this money he earned as director general in his Austrian based company, Lee has pledged to eliminate overnight our national debt (approximately 18 trillion), and our 1.8 trillion International trade deficit at once. He also will pay certain sovereign nations what they were promised in the Reagan-Mitterrand protocols. This includes the French, Chinese, English and Russian Governments, where billions were promised. With the remaining funds left over he plans to develop and create a high speed rail system for our country and develop new innovative businesses that could employ over 2 million people in the USA alone.]
