

# The DIVINE UNIVERSE

## Anatomy of a Spirit

*Never can one man do more for another man than by making it known of the availability of the Feeling Healing process and Divine Love. JD*

**Note:** Following the writings of James Moncrief, one could consider that any reference to the Father, by other relevant writers, may be read as a reference to ‘our Mother and Father’. Further, when considering soul healing, then reference to Divine Love could be referred to as ‘Feeling Healing with Divine Love’.

## The DIVINE UNIVERSE:

### *131. A study of awareness in human evolution and survival of the mortal personality*

22-24 November 2012

I have been following your work on the study of awareness in human evolution and survival of the species. I agree with you, that the existence of human awareness is a true sensory attribute that forms part of a human personality. I also have observed that awareness is a sensory vision, and like the other formed senses, have contributed to an overall evolution and survival of the human condition. In fact, when you factor in the attributes of potential and sensory vision such as awareness, the soul and the spirit body, a more complete vision of the human personality is concisely seen as a complete image.

When one includes the attribute of soul and the spirit body, the theory of evolution in humankind becomes more substantial and a truer more universal understanding in the knowledge of such things reveals their true nature. If we add to the theory of evolution in humans, the construct of natural and Divine Love and the relating and extenuating workings of these Loves then, the portrait of evolution and the survival of the human personality is no longer seen in purely a physical and biological series of genetic coding and information. The genetic information that helps form a human individual cannot of its energetic determination cause the existence of a soul into life nor can the genetic disposition of an individual create a spirit body.

Human awareness viewed as a sensory vision of experience is much like the way the other senses act. Each sensory vision acts so that one can relate with the internal and external relationship of environments. As you know, an individual is not born with complete awareness of their true soulful nature or the fact that one is with spirit body. This attribute and potential for awareness, like the other sensory attributes, is something that needs time to progress and mature. Each sense is unique and particular as a formed part in the physical disposition of the individual. Characteristics and diversity of these characteristics help identify how each personality is uniquely individual, even in the experience of identical twins or multiple births. One may have in potential an identical physical image though one will never have an identical personality. The attribute of personality is uniquely particular to a single soul and spirit body being present no matter how many offspring are birthed during that single pregnancy.

Awareness as a sensory vision is present in its forming at the commencement of a forming personality. This sensory vision is with potential, and like all other characteristics of sensory vision, the five senses and the 6<sup>th</sup> sense intuition, are subject to the physical conditions of the physical nature of the energetic determination of the essential human information.

Humans have evolved, and part of this evolution has been the evolution of the human brain.

*Question: Has awareness helped form this evolution or has evolution helped form awareness?*

I believe the answer to be both. Awareness has been part of human evolution and has contributed to this evolution in as much as this evolution has contributed to the potential for awareness. The brain in its forming has the potential for sensory vision and, an attribute of sensory vision is human awareness. This is not the kind of awareness that is simply put as, by simply being aware, the awareness that acts

with sensory vision has real substance as an attribute just as the other senses do and the attribute of awareness helps complete the overall individual nature of a personality.

If human awareness and a potential for continued growing awareness were not to exist as part of a forming personality, then this would severely hamper an individual's ability to perform cognitive functioning and realise any experience of memory or objectivity in contrast with subjectivity. If human awareness were not present in the human species as an active or passive potential, then progression through the accumulation of experiences would virtually be a non-requirement. Without any degree of awareness individually or collectively, the necessary selection for systems and survival in the evolution of the human brain and the human species would be severely compromised.

The potential for memory is a given and understood as a consolidated construct in the forming of human personality. Memory is a sensory vision insofar as the way the brain has evolved to store and record experience. When a memory is recalled one often sees this memory with a degree of vision. Memory also survives the physical death of the brain. We know this because as spirits we can identify with our human experiences relating to a life lived on Earth when one is adjusted into their spirit life. This has been conveyed to you in previous works as the way the spirit-mind interfaces with the human brain so that experience survives as information when the human brain can no longer be to the personality what the personality requires for survival once the physical body is gone and the spirit body takes over.

Awareness, like the memory is also an accumulation of sensory vision derived from human experience, and survives physical death of the brain. When a person transitions into the mortal spirit world at an age where sufficient awareness is identifiable in the personality, like memory, awareness survives this transition and physical end of the human body, continuing to function as an identifiable sense in the personality when the individual is now residing in the spirit world in their spirit body. Human awareness that commenced in the forming of the personality in a physical body is essential because the individual when living in the mortal spirit world is aware with cognitive reason that one has survived their physical death. If the personality when living in a human life did not possess a sensory potential for awareness, then, one could conclude that there would be no need for an existing mortal spirit world. If one were unable to adapt to such change in the transference from a physical human life to a spirit life, then the personality would remain inanimate in a state of limbo nevertheless inanimate if awareness were not present in the personality.

I understand that awareness is self-evident as progressive with each human individual. A person may have no awareness at all about an existing afterlife and yet, when that individual is in the afterlife, they adapt a position of awareness almost instantly. The essence here is that human awareness contributes toward the survival of the personality yet this survival is not contained or constrained by the only physical determination of planetary or organic systems. *Survival must be understood as the survival of the human personality as a conclusive attribute that includes the existence of a mortal soul to it and a spirit body unique to the personality.* Human evolution and the survival of the species is actually confirmed in the reality that survival exists in the life of the mortal soul and that this survival extends beyond the human construct of the physical body in which the attributes of personality commence their forming in.

The ability for humans to have awareness is a physiological fact and does form part of man's evolution. There is individual awareness, and a collective awareness, that forms part of the nature of the human

experience. A collective awareness in its function differs from a collective memory. One has individual memory but a collective memory acts differently than collective human awareness. Collective human awareness is always more contemporary than a collective memory. Awareness can be derived from memory, which helps form an advantage for survival, however, memory at its collective function serves its purpose to the past. Awareness functions in the present. An example of this is the way the world population is currently involved in an emerging world awareness of climate change and technology. If the world were functioning from its collective memory, then the needs for the essential survival would be at the forefront of the global community. Human memory would serve to remind people that **food, water, shelter and respect** form the foundation of any healthy individual or community. Awareness functioning in the present is far more social even to the detriment of a collective memory.

If the peoples of the world had memory and this memory had been learnt from experiences of past human wars and the suffering it causes, then you would think that a present world awareness of such memory would cease any further wars. The amount of resources that such terrible things absorb would go well into forming a better world and community and yet the human species has survived.

The presence of awareness in human personality establishes one real true potential and function that is the human or spirit's ability for change. Without awareness change would have little meaning to the individual. Once one becomes aware of something, change has happened. Change happens at a micro level of experience and at a collective level of experience. People and spirits have the attribute of the memory yet in these memories one does not necessarily change. If you look at the way one becomes aware of the existing nature of the Divine Love, then change is at the forefront of this experience, because the soul does not contain any of the Divine Love in its original forming, the personality doesn't have any memory of it. This is why being aware of the Divine Love for the first time for the individual is an entirely new experience and changes the way one views the words evolution and survival.

One can ask this question, 'Does the brain create the attribute of awareness or is awareness created by another attribute that forms the human personality'? To answer this question we need to include the reality of the spirit body and its related systems that interface with the active energy of an active soul and how these two attributes can, with their sensory vision, form a communication that the brain can receive. Many people have experiences that are spirit-related that exceed the boundary of the more determined functions of the physical and material experience of life. Individuals differ in their amount of emerging awareness and this presents as the balance of life around the world. An infant begins to learn and from these learning experiences memories are formed and the potential attribute of awareness begins to develop. In some instances an individual can have an advanced attribute of awareness beyond the function of their age and yet the memory remains true to their age and lived experiences compressed into their sensory storage in the brain.

Awareness and memory function in the personality in the human and continue to function in the spirit in the spirit world. The spirit-mind has the capacity to house these two sensory attributes so that the identity of the individual and capacity for experience and change continues.

In the theory of evolution or a theory of human evolution, the attribute of awareness need be included as part of the survival of the human species. Awareness contributes toward a potential for survival whilst living in a physical life. Awareness is not the all-determining attribute for survival. I must state, that while human awareness as a functioning sensory vision is a potential and attribute of sense in the

individual, it is not the central attribute that determines the complete evolution and survival of the human species. The soul and the spirit body is the determining factor and this is realised in a complete image of the human personality and its emerging individuality, as continued in the mortal spirit world. Human evolution has many parts to its ultimate progression, selection and survival of its personality and in this work, we have identified a more progressed language that defines what evolution is in humans.

In the mortal spirit world the personality resides in the spirit body and the individual is no longer part of the evolutionary determinations of a planetary or physical environment. It is true to say that a mortal spirit no longer continues evolution and survival, for the spirit environments that are external to the spirit body present an entirely new form of life experience. This is where the attribute of awareness as sensory vision truly comes into focus. Any change that takes place within an individual within a Sphere in the spirit world is derived from awareness and then the aspects that require change or to continue a progression toward a more perfect soul condition happens. The requirements for living have changed.

When we take into account all the attributes that form the sum parts of a unique human personality, we need to see some of these attributes as potentials that are active or dormant, which form the human identity of being a personality. The memory and human awareness are two such attributes of sensory vision that have a significant part in human evolution and survival of the individual and collective survival of humankind. Human memory and human awareness survive death and continue to survive in the personality in the spirit world. If an individual transitions into the spirit world before enough information is formed in the personality, that soul will have memories and awareness still functioning as part of their experience as the personality matures in its capacity for cognitive experience and function. We are unique and wonderfully so and when we add the volition of the Divine Love, then what is naturally created is truly seen in our construct as human individuals and then spirit individuals as we slowly experience change.

Thank you for this collaboration and I have enjoyed it immensely.

Your true Celestial friend,  
*Luke*

**By living true to ourselves, true to our feelings, we are living true to God. It's that simple.**

**Live true to your feelings, and you ARE living true, not only to your own soul, but also true to God's soul. So doing your Healing by honouring all your feelings, IS living the will of God. And being fully Healed, IS living even more truly the Will of your Mother and Father.**

**SOUL, SPIRIT BODY and PERSONALITY remain TOGETHER – FOREVER!**

Natural love and Divine Love are as two loves.

Soul, Spirit Body, Personality stay together.

**Ascension Pathway:**

Our soul remains for ever attached to the spirit body and the personality, these two being created at the time of conception / incarnation. As our soul is imbedded within the spirit body and both having this unique personality, it is impossible to go through the incarnation process again. We never reincarnate.

We are born with natural love, until we ask for and receive Divine Love there is nothing of the Divine within us. When we add Divine Love to our being, only then do we become a complete being. Without Divine Love and Feeling Healing, we are finite, in as much as that while we continue in only our natural love we can only become the perfect man and that restricts our progression to the limits of the 6<sup>th</sup> natural sphere being the mortal domain of man.

Whilst we are receiving our Heavenly Parents' Divine Love, and that this Love is causing change within our soul and spirit attributes, the greatest Truth known to man and spirit is that this is the way our Mother and Father are actually loving us! When we progress, it is God's way of loving us into love and then we live what we are, love.

## The DIVINE UNIVERSE:

### 67. *The Spark*

13 October 2012

Let me begin by saying that the real significant difference between the human life and a spirit life is that a spirit life is without a physical body. The spirit body is 'the' body of life in the spirit world. This is an obvious fact but nonetheless when one really considers this, much about the mortal spirit world comes into focus because for the first time, there is a real context that defines the personality and the soul as being with physical body, then without, then with only spirit body.

When a person tries to imagine what life is like in the spirit world, a person does so utilising their organic brain therefore to identify life in the mortal spirit world is viewed from an organic position. Here in the spirit world, we do not have the organic biological body functioning. The spirit body and its systems are our spirit-logical systems. Try to imagine a functioning reasoning identified human personality acting normally in a spirit body without the organic brain being present. The spirit-mind has taken the place of the brain and has solid property to it in which the personality is situated. Zara mentioned chakras and these centres of light form part of the matrix of energy that exists when the spirit body is with the physical body. The physical body is never separate from the spirit body, the spirit body has energy that relates to all parts of the physical body and the chakra centres or primary energetic centres form part of the structures that are the systems originating and forming the spirit body. Obviously when the spirit body is functioning in the spirit world, these primary energy centres continue to function as the internal spirit systems though without the evidence of the physical body. It must be said here that the spirit body in the spirit world operates with voluntary and involuntary systems just like the physical body has systems to it that operate in this way.

The spirit body also has, and this is a new revealing about the spirit body, an energetic system that continues to form primarily when the physical body is no longer present as the central spirit nervous system of the individual. We have no need for an immune system or for a genetic system. There is a Spirit Law that acts in the spirit body that manifests this central spirit nervous system and this is paramount so that the individual can respond internally to external environments and this central system animates the personality so that feelings and experience in general, has the principle energy that is ... the spark of spirit life.

We cannot grow our own spirit bodies and this should provide you with some ideas as to how the nature of the spirit body forms as it follows the internal systems that form from this spark's blueprint. This happens or begins to happen the moment the soul incarnates and spirit body first formed however, the full dynamic of the energetic systems of the spirit body are truly composed when it is time for the spirit body to take over housing of the personality as being now the principle body for the personality to survive in, as the physical body has served its purpose in the phase of helping make a soul incarnate to begin its individualisation of the personality.

I would like to clarify that the spark belongs to the Spirit Laws of God and that this ingenious spirit genetic coding that is of Spirit Material, is so unidentifiable that it remains one of the most invisible attributes in the experiential creation of human life. It is almost as invisible as the Divine Love is.

A newly individualising soul is just a tiny invisible spark.

The soul nests inside of the spirit body, never to be separated.

The life force for the spirit body and the physical body is via the soul. The spirit body is connected to the soul via cords of light, and in turn, the physical body is connected to the spirit body via cords of light. Should the light cords between the spirit body and the physical body be disconnected then the physical / material body dies. The physical body is our starting point for learning and experiencing our being. Our learning and growth experience then continues through the existence of the spirit body.

**The spirit body from when it is first formed is indestructible. This be said the same for the attribute of soul.** No mortal can de-materialise a formed soul or spirit body. This power rests solely with God. Just as there are Spirit Laws to commence the forming of such attributes, so too are there Spirit Laws that can de-materialise the attribute of soul and the material that forms the spirit body. The vision of this causes one to realise that a formed personality can exist and also can no longer exist. Only such power is with God for when one sets in place the principle Laws that govern the forming of such attributes that are finite, the same in principle can be reversed. This was demonstrated when the Divine Love and the Spirit available and then was withdrawn.

**Tiny invisible soul connects to the spirit body, and through the spirit body, to the physical / material body at the time of conception.**

When we study the nature of universal workings, it requires responsibility from our own discerning perceptions to understand that the First Source, God, truly loves us and loves us loving God. As we explore the dynamics that form the constructs in which mutable personality forms we must always keep in perspective the fact that progression rests in our hands is our choice and that universal realities are substantial as we awaken to their existences.

*Luke*

### **An UNBORN BABY'S 1<sup>st</sup> HEARTBEAT OCCURS 16 DAYS after CONCEPTION:**

A research team funded by the British Heart Foundation (BHF) at the University of Oxford says a baby's first heartbeat is now far earlier than was previously understood. [Dr. Susan Berry](#) 12 Oct 2016

Further research confirms that the heart first starts to beat between days 16 through to 19.

What happens when a child dies. 15 March 2013  
**Speaking with Mary Magdalene and Jesus, book 1**

**From the first heartbeat the incarnating person is technically living a physical life, and so if death occurs, it will move into one of the spirit nurseries. If it should 'die' before the first heartbeat, the soul merely 'withdraws', initiating incarnation when the next opportunity arises for its soul-personality.** And of course as you know, there is no reincarnation, so when your soul starts you in Creation and you achieve your **first heartbeat**, then you're underway, be it on Earth or in spirit to Paradise, this being your ascension of truth.

As soon as the spirit body separates from the physical connections, there is no longer any pain, this of itself as you might well imagine greatly adding to one's good experience. The dying person, be it a child or an adult, has a good experience in death, especially once the pain has gone should there be pain; it's the people they might leave behind on Earth who don't understand this and who are suffering feelings of loss and deep grief, that have the harder time of it.

An unborn child is taken to spirit nurseries to be cared for. And within those nurseries they are looked after through the remaining time of their gestation period; then are 'born' into spirit life; then to carry on growing up as a spirit child of the Mansion Worlds. Many of them, just as with unwanted physical children, are fostered out or adopted by spirits wanting to be parents, this enabling a lot of people (who are now spirits), who for one reason or another couldn't have children on Earth, to have the experience of parenting. Even carrying the child to full term can be simulated so as to give the 'mother' the experience of being pregnant. The 'father' having his experiences as well. And of course lots of people who become spirits love being involved with children and so become spirit parents or simply involved in looking after the infants and young children of the nurseries.

### **The Heart commences to Beat as early as Day 16 after Conception:**

Until now, researchers thought that the first time our heart muscle contracted to beat was at 8 days after conception in mice or around day 21 of a human pregnancy. Now, a team funded by the BHF at the University of Oxford has demonstrated earlier beating of the heart in mouse embryos which, if extrapolated to the human heart, suggests beating as early as **16 days after conception**.

## The DIVINE UNIVERSE:

### 85. *On the nature of soul perceptions*

17 October 2012

I, Luke have returned to convey and expand on the nature of soul perceptions.

The truth about the nature of soul perception, is that by having perceptions or the ability to be perceptive, allows one to perceive the existence of realities involving Love and Spirit. One such example is the ability to perceive the existence of harmony as a real universal principle that forms part of universal nature in all its workings of energy, Love and Spirit. Also, the ability to perceive changed conditions in the soul resulting from the causality of Divine Love and perceptions of the spirit body and the presence of the spirit-mind and some of its voluntary and involuntary systems.

The perceptual aspect to the soul is directly related with the forming spirit-mind. The nature of soul perceptions is a nature that is the relationship between soul and spirit-mind. The spirit-mind has to it as part of its forming, that part of the mind that communicates the language of perceptual reality and experience much like the human brain has parts to its nature that are attributed to speaking, imagination, memory and so forth.

We utilise our perceptual nature as Celestial spirits all the time. It is still difficult to *actualise* an image on the essence of the soul by our spirit-mind. We can perceive attributes that extend from the soul such as these soulful perceptions. Celestial spirits can perceive that another Celestial spirit is living with the Divine Love by the radiance of the spirit body appearance, but, we cannot actually see the substance of Divine Love in another soul.

We do work at trying to perceptually *see* the actual energy of the Divine Love, much as you do, for it is of everyone's interest to gain as much insight, knowledge and understanding of the true nature of this potential Love Divine, for it is this Love that has caused the change within us and it is the Love presented from the First Source, so, it only follows, that part of our time is to try and identify the energetic life of this Love so that a more substantial perception of the First Source ... revealed.

The existence of the mortal soul and spirit body is unequivocally true. These two attributes define all that it is to be human and a mortal spirit, even when the independent personality may not be able to perceive the existence of these two attributes in a human or natural spirit's life.

The existence of the spirit body enables the formed personality to survive physical death and for that personality to survive in the afterlife. Without the inclusion of the soul and spirit body, a personality would not be able to form and survive in the physical body or for that matter, the physical death of that body. The existence of the mortal spirit world is absolutely conclusive in the fact that the spirit body and soul form part of the existing nature of the independent personality. Without a spirit body the personality would not be able to survive and thrive in its continuance in a mortal spirit environment.

When the Divine Love is involved in human life the reality of soul and spirit body begin to have real identity and solid form as in the image that completes the nature of being human. When a person remains solely in their natural love, these two attributes – the soul and spirit body – remain relatively hidden, unseen and unknown from the human or spirit's perception as to the reality of their existence as

part of the forming personality and those attributes that help identify a more complete and substantial reality of man. This in part tells us why the mortal spirit world is so called 'hidden beyond the veil'. The veil is actually the invisibility caused by a person's inability to have any awareness or recognition of their own attributes – that when sufficiently developed – can perceive the reality to an extent of a mortal spirit world and its existence. Some people naturally have a condition of perception and so the spirit-mind can experience the spirit-reality and even to an extent interact and interrelate with it and, perceive with perception the existence of humans now spirits living in this world. It is not so much that the spirit world remains hidden rather than the global development and awareness of humanity is only sufficiently developed so that the invisibility of the soul and spirit body and universal reality of a continuance of life is but a small star shining on the horizon.

This be said the same for the experience of harmony as being part of the nature of God. People have loved God and felt loved by God and they have in deed received the Divine Love without ever knowing the truthful identity of this Love insofar as the truths relating with its causality in the human soul and affect upon the spirit-mind. If all the world of people understood that human nature is formed with soul and spirit body, then one would accept the addition of the Divine Love and that the unseen nature of God as being Soul, would be a truth by which all succeeding generations would evolve in as part of a normal and general human awareness. Then, humankind would understand the universal nature of God, harmony and the beauty that the independent mortal personality is in, in its construct and form, so it can experience a little portion of the harmony, the Divine Love, but, until this happens, until this knowledge is common, much of this story remains unknown and untold.

Along with perceptions, the spirit-mind has the ability for sensory experience. Developed spirits can sense, feel the presence of universal realities and we can and do touch spirit material as if it were solid objects. The various Spheres, both natural and Divine, have spirit material in the form of spirit objects although what you see is that the form of these objects are only as true to the condition of the souls presently living in these Spheres. This is another principle of a Spirit Law at work, simply being that individuals cannot create or form any object with the spirit material to form and shape such objects, that are more universal in appearance than the condition of the souls creating them. This explains why when one visits the very low Spheres the formed objects are small and isolated, for the souls creating them are in such poor soul condition in their natural love that their knowledge of creating anything greater than themselves is not present as knowledge in the condition of their spirit-mind. The difference between the progressive Spheres is very evident as one progresses through the Spheres where the soul condition is greatly improved. The objects formed reflect this in more open and universal form and shape. If one lets their soul perceptions flow to the First Source, then one can see that the perfect soul condition God resides in, demonstrates this Soul's capacity to originate Spirit material as being ... universal creation in form and nature.

Spirits have feelings and we can share these intimate feelings in a relationship. We have the capacity for intimate feelings of love and this takes place as a sensory experience and very fulfilling. We obviously are without a physical body but nonetheless the receptivity of feeling through the spirit body allows our spirit-mind to experience intimacy.

**LUMINOSITY of the SOUL can be LIKENED to the FOLLOWING:**

**1<sup>st</sup> sphere, lower regions – Natural Love MoC 50+/-**  
The soul condition of a soul that is obliged to spend some time within the ‘hells’ may be no bigger than a dried garden pea. There is no luminosity and the environment is total darkness.

The typical soul condition of humanity is such that they generate the luminosity of a single candle.

**1<sup>st</sup> sphere, mid regions – Natural Love MoC 210**

A soul that has grown in love and soul condition equivalent to the 8<sup>th</sup> sphere – the point of becoming at one with God, the luminosity of such a soul is equivalent to the midday sun.

**8<sup>th</sup> sphere – only possible with Divine Love! MoC 1,000+**

Perceptions, senses and our reflective ability are part of our communicative experience. To provide a more reasonable example our spirit-mind acts in the same way a well-formed brain does and all our systems of experience are compiled and organised in the spirit-mind just as the brain has its particular parts that form particular functions so that personality is animated.

For some Celestial spirits, travel happens a lot. There are those of us who work at bringing to light the awareness of Divine Love throughout the natural heavens. We can move quite quickly when we need to, and we travel vast distances. We don't dematerialise our spirit body only to re-materialise it in another Sphere. There are Laws that can materialise forms of spirit material and other such Laws that can dematerialise these forms of spirit material. There is no such Spirit Law present that enables the individual to change their spirit body so that one can materialise or dematerialise their spirit body at will to travel throughout the Spheres. A spirit in the lowest Sphere cannot engage a Spirit Law so that they can dematerialise and then rematerialise in a more advance Sphere. There is a Spirit Law that enables Celestial spirits to materialise their spirit body so that it can appear with real form and visible to the human eye and perceptions. Only the First Source can dematerialise a spirit body so that a personality no longer exists and such creative power in the determination of life rests with the First Source.

We travel freely between the Spheres, our condition of soul allows for this to happen and we frequently do travel. Spirits who do not have the necessary soul condition are limited in their ability to move between the Spheres. A spirit in their natural love in the First mortal Sphere cannot travel to the Divine Love Sphere without the Divine Love forming part of that soul's condition. The movement of all spirits hinges on their soul condition. This forms another part of the harmony that exists between all mortal Spheres. This is the case of spirits in their perfected natural soul condition in what would be the Sixth Sphere of the natural heavens. Some of these individuals do not believe in the existence of a Celestial Heaven because they haven't seen one by the way of travelling there to confirm that such a place exists. As I recall, Socrates provides a good account in his message to James Padgett (8 July 1915). This is a very good example on how travel through and between the Spheres relates directly with soul condition and the condition of the spirit body so that we can, with these spirit senses and perceptions, perceive and sense the reality of the environment that they are travelling through.

It is important to know, that even as Celestial spirits who have progressed sufficiently in our transformation of soul from the Divine Love, we still retain our memories of our human experience. We can recall these memories as one does have memory and such memories are stored in that part of our spirit-mind that is for memory. When progressed in Divine Love, over time our memories of the past are not wiped off the record of our lives, so to speak, for only those memories relating to the causes of our disharmony have dissolved in their effects. We can still recall such causes of our own disharmony though due to our progression we are no longer subjected to these effects or their causes.

A Celestial spirit remains part of the overall extension of humanity only that we have completely accepted the Soul, God. And we no longer live in separation or competition with that Soul, for with the Divine Love ... we live *with* this Soul. This is the telling difference that is recognised when one is living in their natural love as being distinct to those living in *The Spirit of Divine Love*.

Part of the nature of the Divine Love in our souls is that it activates our spirit body systems and soul so that the nature of God is seen and experienced in the living and this places us in touch with the many Spirit attributes that extend from God and have their existence in God. God no longer remains inactive

to us; inert, inanimate, or an unknown but rather a Soul of living energy whose energy in the harmonies of Love and Spirit, is personified as love that we experience. If I can convey the essence about the nature of Divine Love it is that in its energy, exists the harmony and potential so that one can see the potential that this Love brings to bridge the gap of separation between the individual and God by the harmonies of soulfully living.

You have received this message well.

With kind regard,

*Luke*

## The DIVINE UNIVERSE:

### 115. *The anatomy of a spirit*

25 October 2012

I am here, Luke, and I desire to write on the anatomy of a spirit. A spirit's life begins when the soul incarnates and the realisation of the spirit body happens. Everything to do with the reality of a mortal – be on Earth or in the spirit world – revolves around the personality. Without personality there is no soul, nor need of a spirit body. The attribute most visible to one and all is the active or passive nature of the personality.

The Spirit Law that manifest the spirit body has another Spirit Law present, which actively begins building the spirit-organs that form in the spirit body and this energetic spirit essence follows the Law so that the required organ is formed. This example is seen in the forming of the spirit-mind. The spirit-mind is infused in the spirit material that forms what will become the brain if you like, that takes over its operation and effect when the physical brain can no longer continue its survival that will then compromise the survival of the personality. You understand the biomechanics as to the energy that constitutes a physical body, as in water, blood, cells, and DNA so on and so forth, all of which relate to information. The genetic blueprint of a human is a study and work in progress and at its fundamental principle of nature, is energy with identifiable information that then forms specific parts to form the whole human being.

There is a solid substance that acts with identity and information, activated by the Spirit Law that builds the sum parts to form the whole spirit body. All of this happens without the baby human or adult being aware that such forming to the identical physical parts is occurring. What we have ascertained is that whilst the spirit energies that bind the soul to the spirit body and that form the spirit body whilst being perfect, are subject to the diverse physical forming of human bodies. We have also been able to ascertain that any permeation of a forming physical body does not interfere with the attribute of soul or the spirit body, so that when the individual passes into the spirit world, the specific Laws that work to completely form the spirit body are in no way influenced in their outcome.

I say to completely form the spirit body, for when the spirit body regardless of the human age, is received into the spirit world, in the First Sphere, it immediately comes under the influences of several unseen Spirit Laws that act in principles unseen by any human or spirit eye and these principles are of energetic spirit energy that fits out the internal spirit body so that it has form, dimension and perspective as to the shape of a complete mortal.

The personality is perfectly adjusted into the spirit-brain that is basically spirit-mind that has parts to it just as the biological brain has to it. One can see in the spirit world, and so, sight is an attribute that is attributed to that part of the spirit-mind. Obviously the physical body is no longer present and so the Spirit Laws that fit out the spirit body have no need to form many of the organs that belong to the physical body. The organs that are developed in the spirit body are the central nervous system and organs that can process energy as contained in the spirit body are these energies manifested by particular Spirit Laws so that if you like, one is not internally hollow.

The individual spirit has to have the capacity for cognitive ability and function and one needs to move about and relate with the external spirit-physical environment. In the physical body the personality has a

degree of awareness about its own physicality whilst hardly if anything at all, about its spirit body. This changes instantly that the individual is aware that they are living in the afterlife and their presence of awareness is completely situated in a spirit body which has equal form to it and is as real as the physical body once was, though most need to be educated about their new spirit body environment.

Spirits do not age and this has been mentioned in this work before. There is a good reason for this, simply being that the Spirit Laws that serve to construct the spirit body and all relevant material in the make up of that spirit body, are without personality and are ageless. Such attributes in their nature being created and formed by God do not age with time and so the influences that form the spirit body are always acting in the present.

The spirit material that is energy at its principle, that forms the spirit body parts can change and does change. We have seen this in the way the cause of Divine Love effects this energy of the spirit body. These are really intricate systems at work and this will provide you with vision to extend the way one perceives the relationship between the Divine Love, the soul, and the spirit body all comprising a finite personality.

*Luke*

#### ***116. The anatomy of a spirit continued***

I am here with you and it is later in the afternoon. You both received my words on the anatomy of a spirit and this was conveyed to you directly as you did not write the message down on paper first. My description, sufficient enough to provide an image of the energetic constitution of a spirit, conveyed to you directly by the use of vision and perception as I spoke the words and as I will continue to do so now.

The best possible vision to work with these intangible natures from your human perspective is to establish the spirit body as part of the personality just as one understands that the human body is part of the personality and you cannot have one without the other.

There is energetic life within the form of the human body and under normal conditions each attribute in the whole of the body has a function and boundary to its function, each part of the whole of the human body acting to form the whole human being's physical body. The spirit body works much in the same way only that its energetic life is particular to the differing kinds of systems that are formed to function in a spirit environment in which the personality still retains its overall dominance. The internal systems of the spirit body process energy, and quite obviously, this is not organic material such as the human body ingests organic material to make energy. It is an energetic functioning in the spirit body that works solely at processing energy to make energy that nourishes the entire spirit body. This is the great revealing of the life of a spirit as an energetic being. The individual is self-sufficient as an energetic resource and this is one of the normal miracles that are commonplace wonders in the Sphere of the mortal spirit world. Once the spirit body is fully functioning in the First natural Sphere, the Spirit Laws that have set to it its form and internal dynamic, prime it with energy that fires energy to start this continual production of energy flowing. One can see this perfect demonstration in the appearance of the spirit body of individuals whether in poor or good soul condition. The appearance of the spirit body of a soul in poor condition is one of smallness, an almost shadowy figure and emaciated. This individual is starved of energy because their internal combustion of energy in the spirit-body systems – as a capacity

to generate energy – is diminished for the individual's are so out of harmony with the relative Spirit Laws of harmony, so that the energetic determination of the individual is true in equal measure to their soul condition.

In contrast, the individual in a Celestial soul condition has great capacity for internal energy for their soul condition is most harmonious and working and living in accord with the Spirit Laws of harmony so that the outward appearance of the spirit body shines radiantly and is illumined vibrant and full of spirit health. The vision of this reveals how the internal energy resource of the self-sustained individual is completely reliant in a relative scale to the Laws of Harmony and if we take this to its foremost conclusion, the Soul of the First Source, God – the all sustaining principle of the Universal First Cause – has the output of creative resources that are unmatched by any other living thing. ***God is Eternal Energy.***

The internal energetic systems of a mortal spirit reflected in the spirit body reveals immediately on a relative scale, the Spirit Laws that one is subject to and how energetic one is in their ability to do and act in the mortal universe.

*Luke*

#### ***117. Eugene explains a little on Luke's messages***

Luke has moved away for a moment to give you pause for breath, and I am able to speak for a moment. It has been interesting for me and other spirits to see how this communication was going to go, for it deals with a subject matter that almost cannot be put into a physical language. You were at the point where language ends and soul-spirit perceptions take over. Being a spirit I know exactly the forms of energetic determination that Luke was illustrating as I am in constitution, exactly that. Both of your soul perceptions became intensified and were working quickly to extrapolate the necessary information as you sought to understand the relationship between the energetic systems comprising of a mortal spirit body and their relative efficiency in a relative harmony with the necessary Spirit Laws that enable the spirit body systems to generate more energy.

The more one is progressed in their natural condition of love or with the addition of The Divine Love, the more energy can be made manifest in the spirit body by the particular metabolic activity of the system in the spirit body that creates energy as the resource to abundantly nourish and grow the attributes of the soul and spirit body.

The addition of Divine Love as *the* purest form of energy a soul can receive, is an addition of energy that is infused into the spirit body and then into the combustion engine or the core system of the spirit body that is in the solar plexus that then super-charges the normal input and output of a self-sustained energetic system. When a soul is not with the Divine Love then this added energetic infusement of energy is missing or not present and the personality is situated in the normal parameters that one normally associates the natural energy of a spirit life to be. It has been mentioned about the internal nervous system of a spirit and this is how the impulses of energy move and sustain the systems. To say that the energy in a spirit body is electrical, as in impulses from the spirit-mind, is an untruth, as electricity doesn't exist in the spirit world. All I can say is that the organ that is the spirit-brain, which

has all the spirit-mind contained within it is made up of tiny spirit material fibres, which are formed so that information can be relayed.

It is ingenious how the Father has originated the spirit body. The attribute of the finite soul prior to its incarnation is a wonder and equal is the manifestation of the spirit body and how the spirit body houses everything that comprises the individual in the spirit world. I have the attribute of memory in my spirit brain and I can have memory of my life on Earth and I have memory of my lived progression in the spirit world. I have a metabolism that processes energy as previously described and I have feeling which at its centre would be the equivalent of old human heart. I do have emotions but these are more refined now and form strength to my Immortal nature. Above all, I am completely responsive to the energy of love and its causes and perhaps this is the most revealing truth about the spirit body and that is, that everything in it is an economy of form and function that identifies with the energy of love. With the addition of The Love, the spirit body is entirely responsive to the causes of love and that being said, equally responsive to the causes of fear that reside in the personality who has yet to open to the causality of love in Loves' harmonious causes and effects.

I am going to move away now as Saleeba desires to speak and Luke and I are together happy in our collaborative effort. He knows much more than I know and he has taught me much about the nature of the Father from which I have utilised my soul perceptions to gain much insight. I then pass on what I have learnt to less progressed spirits and so on and so forth and in this way, we are all sharing together in the outpouring of knowledge that is freely shared between all Celestial spirits and natural spirits who desire to listen, and in this way we are living examples of a true universal awareness in the presence of mortal and Immortal life.

Thank you, Sincerely, *Eugene*

### **118. A beautiful message to us all**

I am here to conclude this wonderful time by giving you both my love and it was enjoyable to see everyone working together on this intrinsic subject. I might add that the energetic systems are noticeably different in their feel of the masculine and the feminine. As a personality on Earth those thousands of years ago, I was a woman and today after all that time my principle essence in energetic form is quite noticeably feminine.

There is so much vision and learning about the realities of the mortal spirit world and this vision is a freedom for when one has their heart in their faith in the Divine Love, one can soar into such wonders without ever losing their place or feeling disorientated. I never received the Divine Love when I lived on Earth, as it was unavailable for me to receive. My experience in the addition of Divine Love happened here in the mortal spirit world as it has for so many. For those of you who are experiencing the Love and learning about its nature in a human experience, I completely respect this beginning as so few have actualised their faith in Divine Love whilst in the flesh. We celebrate you all for trying your best.

With love and Celestial kisses as we do delight in the celebration of love, your friend and companion to this work,  
*Saleeba*

**Dark spirits, being those with poor soul conditions, are shrivelled up and with little energy to express their bad attitudes. The Law of Non-Interference prevents them from causing harm to other spirit people or to people in physical bodies. They are isolated within the dark Spheres of Disharmony.**

**POOR SOUL CONDITION is DARKNESS:**

Using Kirlian photography, this is an auric photo showing an individual who is a drug addict... notice no connection with God or Source, no love and light.

Such soul condition is reflective of the man-made emotions such as apathy, despair, depression, hatred, loathing, etc.

Even when such a personality is in an environment of bright light and vibrancy, such a personality can still only see and perceive darkness.

It is this darkness of soul that fits the person for an environment that is only of darkness. The locations to which they arrive within are of perpetual darkness and are miserable environments until they, through their own endeavors, grow in love. This may take centuries, or they can embrace the great gift of the Source Soul and ask for the Divine Love.

**SELF CENTRED ACTIONS and AGGRESSION HAS CONSEQUENCES:**

**Any action that causes harm to one's self, or to another, degrades your soul condition. Your soul being your real self.**

**We may have a big powerful physical body, but our real strength is the condition of our soul. Should we assert our unloving nature and desires, then our soul's radiance and energy is progressively degraded. This can extend to the point where our soul's radiance is nothing more than that of a dried up darkened garden pea.**

**Our soul condition is reflected through our spirit body for all to see. Upon entering the spirit world, into the 1<sup>st</sup> sphere, a healthy loving soul will be reflecting out through a spirit body the same size as that of the physical body whose personality has now separated from that body.**

**A degraded soul results in a significant diminishment of the size of the spirit body. The poorer the condition the smaller the spirit body – significantly smaller. Further, there is little to no radiance, therefore, little to no light. There is greatly diminished capability in all aspects of spirit life and a great loss of the capability to move about.**

**In this condition, one is isolated into a very lonely dark environment to begin the long process of recovery and development of love for one's self and for all those around them.**

**One is always being loved, and help is always available, one just has to learn to accept this offer of love.**

**One can always recover and grow in love from what ever condition they may find themselves in.**

**The radiance of a soul in good condition is reflected through the spirit body.**

**A soul in poor condition has very little energy and subsequently is lacking in radiance. The size of the entity is also diminished.**

**We radiate our own light. Not only when a soul in poor condition is lacking luminosity and energy, its capacity to travel is also significantly diminished, as is its physical size.**

## The DIVINE UNIVERSE:

### 62. *The timing of a specific Spirit Law*

12 October 2012

#### *The Immortal Harmony of Divine Love.*

I wish to add, that *The Spirit* that brings, that conveys the Divine Love does not remain part of the soul's transformation, nor does it remain in the spirit body. The purpose of The Spirit is to interface with the surface of the spirit body so that the spirit body itself, attracts The Love into the space where the soul resides close to the spirit-mind. It is the human experience of emotion and feeling that may lead one to believe the soul is actually near your heart or solar plexus. Emotion and feeling relate part to the soul and the reason why the soul form resides near the spirit-mind is because the spirit-mind as an attribute in the spirit body forms in and around the brain. The soul by emotion and feeling is central to the human physical experience however its proximity to the spirit-mind is fixed. The reason for this is simply defined as when the spirit body is released from the human body upon the death of the physical body, just as there are Spirit Laws that are applied to incarnate a soul and form a spirit body to their fixed positions, so too are there Spirit Laws that act to bring the spirit body into the mortal spirit world by firstly releasing the spirit body from its fixed position in and throughout the physical body. A particular Spirit Law acts to disengage the spirit body from the physical body. The timing of these things is always perfect, and the specific Spirit Law that acts to cause the separation of the spirit body from the physical body is always acting at the required timing when it is deemed that the physical body is, or no longer living active energy.

Only this specific Spirit Law knows this timing. The personality and soul of the individual encased in the spirit body and fixed to the spirit-mind by another Law throughout one's life so that in the moment of separation from the human body upon death, then in the time of transition to the spirit world, the sum parts of the individual are not confused or intermingled with each other that could result in disharmony or the individual being disorganised in the reforming of one's self. When one is, by the workings of other specific Spirit Laws, reformed and reconstituted in the environment of the First mortal Sphere, the individual suddenly awakened and one is functioning with all semblances of attribute so that one recognises one's self to be complete and functioning as the living individual only in a new form and environment.

Usually, the transition into the spirit world and the awakening of the individual is a journey unknown, for most humans are still unaware that they exist in their physical life surrounded by a spirit body.

These Spirit Laws work perfectly and harmoniously as demonstrated in the way that everyone who passes from their human experience into the First mortal Sphere, as a personality survives death, and this transition is constant in the sense that God's Spirit Laws have never faulted or failed in the perfection of their work, so that every single individual finite forming personality survives this transition irrespective of the condition of soul or by the way or the means of physical death.

Even if the individual passes over when only an infant or young in age, and even though much life experience has not been derived the same Spirit Laws apply in their working and purposes of ensuring that each incarnated soul, forming personality and spirit body survives physical life, death and transition and the individualising process that commenced with the attribute of soul incarnating as deemed by

having a spirit body formed. The soul survives this incarnation and the necessary Spirit Laws continue to develop the forming personality here in the First natural Sphere, so that the individual grows to maturity even though that maturity has not taken place in the physical condition of a human body and the earthly environment.

A soul having incarnated and spirit body formed around that soul is deemed as having individualised, and never is that soul relocated to another spirit body or retracted out of the spirit body that now forms around it. It may well be said that what it is to be human is to be human by the existence of the soul and spirit body. There are to my knowledge no created Spirit Laws that act in a reversal of incarnation and generally speaking when I say to my knowledge, everyone here understands that to mean that God has not created such an existence of such a thing.

Every provision made throughout the First natural Sphere for the continuance of life and the facilities to receive the spirit body are established to care for every single person who arrives, irrespective of the kind of life they have lived on Earth. The way a forming personality continues to form here is testimony to the fact that the attributes of soul, spirit body and personality continue to survive without the requirements of the organic brain and physical bodily systems. It is to say the least, a miracle at the sheer creative facility that God has created these formed Spirit Laws, that govern all such stages of individualisation and the principles by which these Spirit Laws work in their relative harmony, is nothing but attributes of Love and Spirit and Harmony at work in their ever-present unseen way.

*Jesus of the Celestial Heaven*

160. *The Revelation of the Spirit Body*

8 December 2012

One thing I noticed most clearly and visibly when I first arrived in the spirit world a while ago is the fact there is no confusion that results in the personality as to its form and identity. One may be confused in the fact of a new environment and that one is still alive having survived physical death, however, there is no confusion as to how the personality is exacted to fit one's spirit body.

You are aware that the sheer presence of a physical body presents diversity of experience apparent in human life. The properties of the physical organic body and energetic information set in play vastly contrasting experiences reflected in the unique forming of each human personality and its condition in its related-ness as being in and part of a physical body. In the spirit world, this isn't so. The *Immutable* Spirit Laws that form the systems of the spirit body so that they function as the viable environment and only environment for the functioning personality to be situated and to survive in, is so well constructed and made by these Spirit Laws that at the principle Spirit-Energy in the forming of a spirit body, there is never an error or a disforming in the identity and construct of a spirit body.

This is another fact about mortal life here in the Spheres. In fact, what I have just said and revealed is so true that after the period of adjustment for those who arrive to begin their spirit life, everyone takes their form for granted and its perfect symmetry as the accepted norm. If any confusion exists, then these are the remnants existing in one's memory from their physical human life where the physical body and all related attributes of personality had involuntary or voluntary conditions that formed a condition in one's life.

The spirit body in the spirit world is not allowed to form to its own unique genetic code or inherent information, as is the case in the forming of a physical body and its functions for survival and experience on Earth. What I mean by this is that the spirit body is not subject to any external environment that exists in the Spheres to impact its energetic structure nor the spirit body is impacted in its forming by any exerted influence of the personality residing in it or by any other mortal spirit. The spirit body commences its form as soon as the finite soul incarnates and the spirit body is present as the physical body of the individual begins to form. The point I am illustrating here is the observation of how the spirit body is, as the primary body in which the soul and attributes of personality function in without a physical body present. The spirit body here in the spirit world is no longer subject to the evolutionary forces that a physical body is subject to and, it requires the *Immutable* Spirit Laws to exact and fit to accommodate and fix with universal pinpoint precision in the way a personality and the soul form into a single spirit body. Only God can perform such exactness at the miniscule boundary of attribute and energy, systems and their functioning so that identity, memory and information survive.

The full realisation of the spirit body is a complete revelation. It is *The Revelation* and upon this revealed truth about how the spirit body is the primary body of systems for personality to survive in within the spirit world, will provide the complete vision of how a personality begins and then lives on Earth, and then can progress in the mortal spirit world.

*Eugene*

## The DIVINE UNIVERSE:

### 163. *God's Silent Presence*

9 December 2012

The presence of soul and spirit body enables personality to form, which without the human personality, could not form and so, the attribute of personality would not exist. If the personality were derived purely from the physical body as a fleeting attribute generated by the existence of a physical body, then the experience and event that is the human being would have had an entirely different evolutionary story if such a story were to be the case.

Human history tells the story of how the parameters of evolution have progressed and shaped changes in the physical nature of the human body and how these changes have occurred. When studying the physical human evolution of the body and its survival one must factor light as part of this evolution, as in energy from the sun. With the inclusion of the attributes soul and spirit body, the forming of each human mortal personality can take place. There have been physical changes, variations and diversity to the human body yet the attributes of soul and spirit body and the part they play in the forming of the personality – as in the way these two attributes function directly with personality – have never changed. The system set in place for the original forming of each personality has never changed since the first forming of the first mortal human personality.

From a human perspective what I have just said is hard to quantify, for most humans have lived without any awareness as to the reality and nature of what the soul and spirit-body systems are, and how these two attributes relate in the forming of a personality. Humans know that personality exists whilst they don't know that the spirit body exists. The spirit body is the defining part of personality because it is the system by which the personality will survive physical death to continue living in the mortal spirit world even if that individual does not believe there to be an afterlife. Without the spirit body the personality could not survive in the mortal spirit world and the soul would not be able to be part of the personality. The spirit body is so pertinent in its systems with the personality that their relationship together is the culmination as to why a mortal attribute of soul incarnates in the first place.

People have their beliefs about the spirit world or the existence of no afterlife, even though their spirit body forms part of their personality that allows in their independence to form such beliefs in the first place. If one doesn't believe in god or a spirit world, the diversity of human beliefs in no way determines the outcome in the survival of each personality. God has ordained it that what begins in a human life continues and therefore a system has been set in place so that the personality and soul survive. If one doesn't believe in god or if they do believe in god from a human experience what will happen is that the Immutable Spirit Laws function and the spirit body formed at the beginning of a human life, and when the physical brain and body die, other Spirit Laws take effect so that the personality in the spirit body with the soul present is transferred into the mortal spirit world.

The wonderful thing about the function of these Spirit Laws pertaining to their working and human belief is that whilst one debates whether or not god exists, or whether or not a spirit world exists, the personality that commences its forming in a human body has already commenced to follow God's workings through the forming of the spirit body and incarnation of their soul. God's independent presence continues to be part of the natural forming of men and women and continues to be present in

the functioning Spirit Laws all the way through a human life and through the time of transition from a human life into a spirit life in the spirit world.

These workings are immutable and harmonious even though a forming personality is subject to the physical diversity and variation of the physical conditions of the body and genetic information.

Thank you for receiving this work on the spirit body. I thoroughly enjoyed it. And now, there are many spirits gathering as you are about to receive a very significant message from the Master, Saleeba and other spirits. I will remain present as you can feel an amplification of spirit energy building from the many spirits present.

Your Celestial friend,  
*Eugene*

### 205. *Saleeba confirms the beautiful night*

27 December 2012

It makes such a difference to things when the Divine Love is known and embraced. The manifestation of our spirit energy amplifies the space around us all and you can feel this amplification of Love and Spirit and, you can amplify your energy as well.

We can do this by utilising our individual spirit-energy in our soul. Each soul has this attribute of spirit-energy to it, and with the Divine Love in our soul this provides us with the resource to manifest energy in the senses of our spirit body to generate a substantial amplification of our spirit senses. It is in this way that we shine with illumination. This amplification of energy and our ability to amplify energy from our spirit body enables our senses to experience shared feelings. This happens when we are socialising and when one is being intimate with their companion. Our spirit senses are real and tangible as once were our physical senses and feelings. Our experience of senses is a controlled experience and never do they form a disharmony in the balance of our personality. A Celestial spirit never experiences the effects of anything that can de-stabilise a personality. Our senses are never driven by an emotional or psychological need for something for the lack of something in our being.

Our social exchanges are harmonised from the condition of our soul, and one can of their own accord act independently through their personality and their spirit body. As you have seen, people have a diversity of physical conditions, which affect or influence their senses and the senses of the personality can act without much control or harmony and differing functions can be more prominent than other functions in a human personality.

I cannot stress enough to anyone who may be interested to know and learn, that life here in the Celestial Heaven is purely derived from the true soul condition of the individual. In the Natural Spheres, life is purely social with barely any consideration for the reality of one's true nature or for that matter, why one is where they are. If this were otherwise, then everyone in the natural Spheres would be inclusive insofar as learning about their true nature of being. There has to be a fundamental nature to our existence without this nature being fundamental in the way of our living, of this, our true nature. Our condition of soul reflects everything about us as individuals. And from this condition, the relative harmony present in each individual reflects the *real* and realised mortal truth of the individual. Much

has been explained through this Immortal work about the nature of condition and what condition is in a soul. This vision of soul condition has also been explained through our detailed and informed vision on the nature of personality and the nature of the spirit body.

It has been a pleasure to write with you this morning. Last night I was very busy orchestrating the evening shared by so many. You received direct communication rather than writing the works down, you could both perceive our thoughts and words, and so you conveyed our love down by the spoken word.

All my love to you both,  
Your Celestial friend  
*Saleeba*

## Look for the Good and You'll Find God

Chapter 15, Soul, of Echo Bodine's book, 'Look for the Good and You'll Find God' has these photos.

Immediately after this fatal motor vehicle accident, the investigating police officer took these four photos and some others.

The front seat passenger had transferred to the back seat and had not secured his seat belt when the accident occurred, thus he end on top of the driver in the front seat as of a result of the accident.

Thus, you can now follow the sequence of the spirit body leaving the physical body.

It was only after the photos were developed did the police officer realise what was on the images.

As the energy field of the spirit body of the passenger from the back seat left the physical body, the energy field was destabilised and disturbed by the events. As you will see in the subsequent photo, the spirit body has regathered itself and is now clearly visible and identifiable.

The police officer has given these images to Echo Bodine for her safe custody.  
Echo is a highly recognised clairvoyant from Mineapolis in USofA.

This is the spirit body of the passenger from the back seat.

You can identify the passenger from this photo. Notice his hand in the far right hand top corner.

By looking at the expression on his spirit body face, one can clearly determine that this guy is really upset with the situation.

Echo Bodine presented these photos to a group at which John Doel attended in Las Vegas in July 2007.

### DIMENSIONS of ONE'S EXISTENCE:

Our SOUL IS NOT ENSOULLED IN OUR SPIRIT BODY. Our soul exists existentially in a whole different level or plane or place or dimension of being – 'soul land'. It doesn't exist in Creation, it's not experiential like Creation is. The soul, all souls, help create their part of Creation by expressing their personalities into Creation, and then by having their personalities do things (further create) in Creation.

SOUL exists existentially

Our Physical Body and our Spirit Body are of Creation, being linked together by cords of light as are the two spirit bodies, male and female, to the one Soul.

One's unique personality is soul based. Our unique soul expresses its unique personality through the two spirit bodies and physical bodies expressing both the male and female aspects.

### PERSONALITY

**Our soul is the centre of our personality.  
We are children of our Heavenly Parents.  
Our soul manifests a male and female personality - it is a duplex!**

## The DIVINE UNIVERSE:

### 308. *The study of the spirit body*

19 February 2013

Hello, it is I Eugene Morgan, present with you now. I have been asked by the Master to write a series of works that study the spirit body. You (Nicholas) have with Zara received a comprehensive Immortal work and now we are asking that you commit to these extensive works on the study of the spirit body. Let us begin.

The thing that has enabled you to work out so much about the spirit world, other than living and being aware of the Divine Love, has been your study of the spirit body and the purpose and function of this attribute. Once you both grasped how it works in relationship with the attribute of soul and personality, you could then begin to identify with the way the mortal spirit world is. The construction and formation of the spirit body has provided you with the necessary means to adequately equate how the mortal personality is situated in a physical human experience and how this experience translates into the life of a spirit.

By understanding how the spirit body works, you could then relate how all the necessary attributes of personality survive the human experience, and for the personality to transition into the spirit world to commence living as a personality in the spirit world. By understanding the purpose of the spirit body, has provided the wonderful insight into how the soul changes in its condition by the result of experiencing the Divine Love. The spirit body and its function to maintain personality in the spirit world, has enabled you to see the vision of how soul progression actually happens as the soul relates in its progressive condition with distinct and various changes that assist in this progression. You have studied the spirit body as enthusiastically and as comprehensively as one may study the human physical body. Your study of the spirit body and its related workings has assisted us greatly and has enabled us to freely communicate with you. By learning how the experience of communication with spirits involves the spirit body, and not just the soul or mortal mind, we have together a union of spirit-to-mortal communication.

As you know, this study of the spirit body continues as a more concise and precise understanding and vision of the real and true nature of man, spirit and God, and the spirit world emerges that with your soul perceptions and spirit-senses, provides a true account of the mortal nature and Immortal nature of love and spirit and how the personality individualises this experience as a human and no differently than a spirit.

I am happy to convey this work with you and I will continue with more details.

Your Celestial friend,  
*Eugene*

## The DIVINE UNIVERSE:

### 309. *Details on the workings of the spirit body*

19 February 2012

The spirit body has virtually a non-physical presence as far as it being seen in its' place, situated with the physical body. Most people will never see their spirit body, feel or know its' presence in their human experience. For those who become aware of the Divine Love and experience this Love, may be able to perceive the presence of their spirit body as its' spirit-systems interface with the physical attributes of the body. Its influence is very real as it has a large role in the forming of the human personality and the way the soul is situated in it. We know that the spirit body is virtually unknown in human awareness, because if it were visible and its presence known, then all humans would be easily able to accept, identify and recognise that they are spirits themselves, with the component and attribute of spirit already present through the duration of a physical life! If the spirit body were commonly visible to the naked eye, this would solve the problem as to whether a spirit world exists or not. Can you imagine how beautiful human life would be if the spirit body was seen as it truly is, as part of the visibility of the human form and life experience? This should provide you with an image of how beautiful the natural and Divine Love Spheres are-in their presentation of humanity-seen living their spirit lives in their spirit body.

A spirit body is present in each human life. Each person has one and only ever one spirit body. A single spirit body that is never replaced or reformed or re-used or reincarnated from the spirit world just like each person will only ever have their single attribute of soul present. As you know, the spirit body develops as the physical body matures and the personality forms. The spirit body is never formed then in that original form, to remain static and unchanged in that original form. The systems of the spirit body mature in their form in the harmony of the forming personality. This has to be so, so that the spirit-mind can integrate the developing forming attributes of the individual human personality. This is paramount so that the experience and memories of a human life lived are retained in that part of memory located in the spirit-mind. We have to remember when we study the spirit body, that this body *is perfect* in its function and design to facilitate the human personality and attribute of soul. The energy of the spirit body is infused with the soul and the human body and its systems form part of the human energetic determination that the physical body has as its genetic origin of being. The spirit body has its own information that is entirely sympathetic with the information in a human being, and part of this information is to provide the means for a human personality to survive physical death and to continue to function in the mortal spirit world. The spirit body never interferes or acts independently to cause a malfunction in the forming of the human bio-function of the physical systems and the forming of the individual personality.

When people have near-death-experiences, a common theme is that one "Sees the Light" or experiences other forms of translucent quality that may change a person's perception and awareness about the nature of human life. In a general study of these experiences, individuals who experience NDE's (near death experiences) are in fact experiencing part of themselves, which is the spirit-mind. The awareness of the individual and consciousness of the individual experiences their spirit-mind, which exceeds their normal physical and material awareness. This explains why one finds it so hard to explain why they have had such an experience, because humanity has very little knowledge of how the spirit body functions and is present in a human life.

**P E R S O N A L I T Y**  
**SOUL**  **SPIRIT BODY**  **PHYSICAL BODY**

People have had so little experience of their spirit body that they cannot identify with that part of their soulful nature and therefore one may find it hard to put into words, what one has experienced. When one is in contact with their spirit-mind, time place and space may seem altered and this explains why one may feel or see themselves as being ‘out-of-their-body’ or in touch with spirits present with them during such times of mortal balance. When a human life is hanging in the balance by a thread, human awareness can move from the physical brain to the presence of the spirit-mind. The spirit body is always active in the life of a human being, though its presence and activity is diminished by the function of the brain and the physical condition of the human body. Some people have survived remarkable experiences and yet they have continued to live and this is due to the spirit-systems enabling the human to energetically survive. Why someone survives and another doesn’t, I can only say, this rests with God.

When an individual has an experience of the presence of their spirit body, this introduces a changed awareness that a person is more than what one perceived as being solely limited to the human body. Communication with the spirit world involves the spirit body and the attribute of soul and there are many experiences that happen in human lives that involve the spirit body that people cannot easily

identify or explain. If one studies the spirit body, then a greater image of the human being identified, especially as far as the soul and the personality function in their respective form. Not everyone who has a NDE experiences contact with their spirit-mind however, it does seem that whoever does, has their human awareness changed forever which is in keeping with the fact that they have been in touch with the real spirit-nature that forms part of the human being: form, energy, personality, spirit-mind, soul and self.

When people are in a coma, or deemed brain-dead, and are on a life-support system, the spirit body still remains present as an adjunct to the physical body. Whether one is aware in such a condition of living, that they have a spirit-mind, is another matter. There are no special considerations in the human experience as to the forming and functioning of the spirit body. The spirit body cannot detach itself from the physical body at will, so to speak. One may be in a coma for a considerable length of time but this does not mean, on the grounds of sympathy, that the spirit body suddenly decides on compassionate grounds, to leave the body and take up living in the spirit world. Humans who are compassionate and who try to preserve and save a human life, may keep a person in a coma or extreme physical condition, for a length of time because of the medical advances that enable this to happen. Under normal survival mechanisms such as the conditions of living hundreds or thousands of years ago, people simply didn't survive such conditions. The spirit body can only leave the physical body when that physical body can no longer function. This moment is determined by the Spirit Law of Life and Death. Only God knows this working by the exactness of this very specific Spirit Law and upon this exactness, the same exactness of the Law that first formed the spirit body at the commencement of a human life, along with the incarnation of the soul, can the spirit body leave the human body at the end of that human life. No matter of the human intervention insofar as trying to save a human life, as soon as that Spirit Law recognises the Truth to the living condition of a human life, as far as its continuance is concerned, this Spirit Law knows that death is present by which this Spirit Law acts upon the spirit body and begins to extract the spirit body from the physical body. With the harmony that preserves the forming personality to retain its integrity as it leaves the influence of the physical body, and is now solely subject to the functioning spirit body. The soul, being in the spirit body, moves with the spirit body from the human being and world into the First Sphere of the natural spirit world where living continues.

Once the spirit body is subject to this Spirit Law and complete separation occurs from the physical body, the soul and personality are now enclosed in the spirit body and can never be reinstated back into that deceased body or another human body. There has never been a mistake or error committed by God in the timing of a spirit body being extracted from a physical body and transitioning into the spirit world. People die from all sorts of things under normal and extreme conditions, but regardless of the way a person dies or the time that a person dies with regard to age, the personality survives as does the soul and spirit body, and the sum total of a person's life is constructed into the already formed spirit-systems that enable the personality to continue to function and engage now experiencing spirit life.

As we have previously explained in other works, the spirit body has within it the necessary systems and attributes to maintain the functioning and forming of the human personality. The spirit body changes in the spirit world. It becomes more pronounced with form, substance, image and definition. This continues to happen relative with the soul condition of the individual. If a spirit begins to receive Divine Love, the spirit body begins to change and becomes even more defined and identifiable. Those of us who reside in the Celestial Heaven have real spirit definition compared with the development of the spirit body of those who are predominately living in their natural love soul condition in the social

Spheres. The spirit body cannot exceed the development of the soul that resides in the spirit body. The spirit body only ever receives the energy from the Divine Love when the soul has received this energetic Love. The Divine Love, never conveyed by the Spirit directly into the systems or attributes of the functioning spirit body. This be said the same for when the spirit body forms part of the human physical body. Only can the finite attribute of soul receive the Divine Love. The more the soul is developed in its condition of love, the more this condition will be reflected in the functioning of the spirit body and consequently, the personality. And so, it is true when it is said: "Love and soul come first to which all else follows."

This has been a long and informative message, with much to consider and should prove helpful to those who may desire to study the workings of the spirit body. I will return to write tomorrow.

With love,  
Your Celestial friend,  
*Eugene*

**The DIVINE UNIVERSE:**

**310. *The preservation of the human personality***

20 February 2012

I have returned this morning to write a little more on this engaging subject of the spirit body.

The fact that the spirit body with the soul attributes are involved in physical human experience, reveals how these attributes are subject to the kind of physical experiences that the diversity of human life covers. People put their bodies through all kinds of experience and yet these attributes of soul and spirit body are never compromised or ruined with regard to their integrity. The soul and spirit body are involved in the dynamic of personality even though most humans have little comprehension or awareness of these attributes. When a person becomes a spirit, and the spirit body reflects the condition of the individual soul irrespective of the human experiences lived, each person is suddenly introduced to the awareness that they were more than they thought themselves to be in their human life. Every single person who commences their life in the spirit world realises that they are with a particular kind of body that was unknown to them when they lived life in the flesh.

Nothing made by humans can obliterate the attribute of soul or spirit body or the Spirit Laws that relate with these attributes in a human experience or their environments. The spirit body serves the purpose of the preservation of the attribute of soul and the individual forming personality. The attribute of the spirit body can never be dismantled by human experience and every single human personality will be preserved so that the individual can continue to live upon entering the spirit world.

Your Celestial friend,  
*Eugene*

**In this physical world, many people can see the auric field around one's body, this is the reflection of the spirit body which remains attached to our soul for all time. The soul is not visible to us, nor is it visible to the spirit person with its enhanced senses. The soul, depicted below, reflects through the spirit body which continues as our vessel for future growth upon the separation from our physical body. The separation of the spirit body from the physical body results in the death of the physical body. Your personality continues with the soul and spirit body.**

## The DIVINE UNIVERSE:

### 311. *Optical vision*

21 February 2013

I am here this morning to continue our study of the spirit body. You are in good rapport and Zara has asked a question about 'seeing and sight'.

The spirit body has within it, the attribute of optical vision. The capacity to 'see' is vital just as it is with most humans and their capacity of see with eyesight. In the spirit world everyone has spirit-optical sight and vision. A constant truth in the spirit world that involves us all is that there are no illusions of reality. There has never been anything created or formed here in the entire mortal or Immortal Spheres, by God or any spirit, that may deceive another as to the reality of spirit living. The only thing that is an illusion are the various natural beliefs that spirits have in the natural social Spheres about the nature of God, their life and how these Spheres came into being. These beliefs are a legacy left over from a respective human life. The Spirit Laws that exist here prevent anything from being made or formed by mortals and Immortals that would be out of harmony with the harmony that exists throughout all the Spheres. On Earth people can make an energy source that pollutes people and their environment. In the spirit world this can never happen. No one here can make or create anything that is harmful to another or the environment one lives in. No one can cause injury to another and our environments are pristine as they have been since the dawning of man and the first personalities resided here after the completion of their human life.

The optical ability of each spirit body acts truly and is developed as a potential for optical spirit-vision in the spirit world and this is commenced when the spirit body first forms at the conception of a human life. Whilst a person cannot see with this spirit-optical vision of sight, it is nonetheless present and forms part of the systems of the spirit body. There are other senses such as audio for sound, which also develop along side the physical senses. Most people may never experience these senses of their spirit body during their human experience. Everyone will experience these senses after the completion their of physical human life. Some people have experiences of the spirit-senses from their spirit body and soul in their human experience. When the personality is situated in the spirit body in the First Natural Sphere, these attributes of vision and audio are immediately engaged so that the individual can see and hear and feel connected to their new environment. These senses of the spirit body are automatically engaged and they don't require the individual to activate or cause these senses into action. There are Spirit Laws that do this and for the obvious reason. Most people have little or no idea about their spirit body and so, there is great assistance from God who takes into consideration the workings of the spirit body to ensure mortal life can continue seamlessly without any condition. Individuals learn how to work their spirit-senses as one become familiar with their spirit body and environment that differs from the experience of their previous human life.

If the world knew about the existence of the Divine Love, and for generations this Love actively taught, experienced, socialised, and comprehensively studied, then humans would be well-aware of the relationship between the attribute of soul and spirit body, and how the energy of the Divine Love develops both these attributes. We can theorise that if humans lived a thousand years in the generations of living in the awareness of the Divine Love, then individuals would actively participate with the systems of their spirit body as an adjunct to their living their physical life. This is what the term: Light and Life means. The Spirit Laws that work with the spirit body in the Spheres in the mortal spirit world

are not confined to the spirit world alone. These Spirit Laws have complete accessibility to human life because this follows the Truth that God's Divine Love can be experienced in the soul of people living on Earth.

The optical attribute developed in the spirit body is perfectly suited for spirit living. The light source in each spirit Sphere is generated by the existence of spirit energy that acts as the illuminator and this light is substantially present in each of the Spheres. Our light source is not powered by generators, but by a source of energy, spirit energy, generated by the convergence of various Spirit Laws that cause a spirit-fusion to happen. It is endless in supply and sympathetic to accommodate the soul condition and spirit living for each respective Sphere. We never have darkness, such as night is to Earth, for there is no Sun. We have the ability to close out the light in the environments that we reside in, such as our homes, so that our spirit-senses can rest from the light and we can regenerate from our activities much in the way one needs sleep and rest for the physical body to regenerate.

When a person becomes a spirit it takes a little time to adjust to the spirit body. When the optical ability is familiar, along with the other senses, one can see distance and minute detail. The light that is present in each Sphere is in its energetic presence, perfectly made so that the senses of the spirit body can identify with it. The optical ability in the spirit body never malfunctions and everyone has perfect sight. This is the same with all the other senses of the spirit body.

The only condition that forms part of the functioning spirit body as to its ability to function in the spirit world is the condition of the soul. If the soul condition is poor, then one is limited in their capacity to work with their spirit-senses. Whilst these spirit-senses are perfectly formed, the individual in a weakened soul condition, the individual will have their spirit body functioning with a diminished capacity. As I stipulated before, there are no illusions in the spirit world. No one can make themselves out to be anything other than what they truly are, with regard to their true soul condition. Individuals in a poor soul condition living in their disharmony have optical vision and light fills the Spheres that they reside in. Their spirit-senses are diminished because the various Spirit Laws that assist with harmony, progression and experience, cannot fully operate with harmony upon one's soul condition until that condition of soul, is more sufficiently developed in the responsibility of its natural love.

The spirit body is truly a magnificent creation, a true work of wonder. The optical and other sensory attributes of the spirit body are perfectly suited to interact with the spirit-energy and spirit-material that form each of the distinct and diverse spirit Spheres. The expression: 'light sensitive' really comes to mind to describe the senses of the spirit body. If a spirit in the First Natural Sphere were to visit the Celestial Heaven the optical and sensory condition of that individual would not be developed to the sufficient quality to relate with that Celestial environment. The process of living with the Divine Love develops the soul condition, which in turn, develops the senses of the spirit body so that as one advances in one's condition, the senses of the spirit body are developed to accommodate the changing spirit environments. If you follow the course of this progression, then you will ascertain why it is necessary to receive the Divine Love. Because without it, one will never be able to sufficiently develop their soul condition and thus develop the senses of their spirit body. The spirit body will retain its condition with its' soul that exists in its natural love. Without the Divine Love the spirit body cannot progress beyond the natural condition that each soul resides in. The more the soul condition is in harmony with God, the more the senses of the spirit body mature so that the greater vision and reality of God and love emerges

and any illusion that one may have had about such existences disappears from the social view of mortal belief.

Your Celestial friend,  
*Eugene*

### 312. *Word on the Social Spheres*

22 February 2013

The audio-sense of the spirit body is as real and audible to the individual as the optical-sense is, one is never overwhelmed by sound-sensory input in the spirit Spheres. Our capacity to hear and experience sound is as real to us as it was when we could hear the sounds in our human experience. I can listen to external sound and I can listen to my internal sounds of inner thoughts, voice and feelings. We don't have vocal chords as such, but we do have ability to form sound when we communicate. This is another remarkable aspect of how the spirit body works in relationship with our attributes of personality. We have all the senses to receive external sound and our spirit-mind is highly organised in its form to make sense of the sound-vision we communicate with. If one lived with a disability of being deaf or blind in their human life, in the spirit world one's spirit body will see and hear. There is never any dis-ability in the form and function of the spirit body in the spirit world. Any physical disability caused by the varied conditions of the physical body, are not carried over to continue this disability in the spirit life. The only disability that one is disabled by, in the mortal spirit world, is the disability caused by poor soul condition. This has been explained to you before. The soul condition of the individual determines everything about how well the spirit body and personality functions. The choice to improve one's poor soul condition is always a choice present and a choice when asked for help, this service of help and hope is never withheld! The Spirit Law of Assistance, always present and the opportunity to improve one's soul condition is, ever present.

The spirit body doesn't create spirit waste as the human body has evolved to do. The energy required for the spirit body comes from the Sphere environment itself, is an abundant energy in supply, and like the light present, this energy provided for by God for one and all. This energy is infused by the spirit body and is the energy that sustains the individual. A Spirit Law enables the spirit body to receive this energy as the normal life force of energy that fuels activity in the spirit body. People who are now spirits may believe that they are consuming 'things' to do with the appetites derived from the habit of their physical lives, but the reality is these individuals are only repeating the actions from their memories and derive no energy from it. The spirit body in its form is perfectly suited to living in these Spheres and these Spheres have been created and formed to facilitate the attribute of individual personality that forms part of the spirit body to function. Spirits require energy for they are not self-sustaining and we know this because not all spirits are receiving the Divine Love that is the direct energy for the soul.

The most important thing to understand about spirit life is soul condition. Everything in these Spheres is personality-friendly. In these natural Spheres, soul condition is apparent even though the individuals may not be aware of the existence of their souls. In this work, we have referred these natural Spheres as *social Spheres*. Individuals living in these social Spheres are not consciously developing their soul condition by receiving the Divine Love. The activity in these social Spheres remains very consistent with the socialising of relationships, as once lived on Earth, the knowledge of the soul and why it exists

remains unknown to these individuals just as it is predominantly on Earth, and that one finds it difficult to provide concrete evidence for the existence of the soul.

Why one person or spirit desires to learn about their soul, when another doesn't? The answer is in the social freedom and independent nature of each individual personality. Without sounding judgemental, Celestial spirits include the humanity on Earth as a social environment. There are individuals who are aware of the Divine Love, and individuals who are aware of the Divine Love and are working on their soul condition. All peoples are involved in their social aspects that form and comprise humanity. If one were to see spirit life in the Natural Spheres, one would see how social human nature is and consistent with the differences of beliefs and experiences that make humanity diverse and wonderful. When a person receives a spirit communication from a natural spirit, there will not be much content or substance to any such message, for the soul condition of the spirit will not be sufficiently developed so the communication will more than likely be of a social visit. All the way to the Sixth Natural Sphere, spirits socialise. In the Sixth Natural Sphere, the intellect is the dominant attribute of the personality. Communication by a spirit in the Sixth Sphere with a person may sound like an advanced 'take' on what people already know. This may sound judgemental on my behalf, but I can only report and state what is true. Without the inclusion of the Divine Love, the spirit body can only function to the condition of the soul in its natural love and the personality cannot exceed the condition of the soul and its' spirit body and this is just how it is. I will leave you for a moment as we draw breath. I will return shortly to write more as you are both in good condition.

Your Celestial friend,  
*Eugene*

## The DIVINE UNIVERSE:

### 313. *The silent participator*

22 February 2013

Of course, the personality is now situated in the spirit body as the soul is. For everyone who becomes a spirit this is a new experience. Becoming a spirit doesn't necessarily make one suddenly 'spiritual' or advanced in any special or unique way. Until the spirit body has the active energy of soul engaged and activated by the Divine Love, the individual remains in their natural condition and their soul, the silent participator in their mortal spirit living. The senses of this natural soul condition of the spirit body, is the principle nature of love that the personality functions and experiences one's natural social life.

When a person begins their receipt of the Divine Love in their human experience, whilst the soul and its image with the image of the spirit body may still appear as being 'invisible', the receipt of Divine Love does cause changes in the soul which consequently cause an effect in the spirit body. When that person transitions into the spirit world it does make it easier for that person to continue in their progression, for an awareness of the Divine Love, already known. Spirit living happens when the soul is involved. All the teachings contained within the Padgett Messages (1914 – 1923) reveal this Truth.

The introduction of the term: New-Birth is exactly this. The Divine Love engages the soul, the energy of the soul changes, which in turn progresses the systems of the spirit body, which in turn develops the attributes of the personality. The New-Birth involves the spirit body as much as it does the soul for you cannot change the condition of the soul without causing an effect in the spirit body. This experience of change from the purely natural and mortal into the Divine and Immortal, can take place in a physical life just as it takes place here in the spirit world in a spirit's life. The only difference between a human or spirit beginning their change from the receipt of the Divine Love, is that the physical condition of the human body and the social presence of people in a human life may prevent one from fully recognising that change is happening in their spirit body and soul.

A spirit can visibly see how, with the receipt of the Divine Love, there are visible changes to their spirit body even though the visibility of their attribute of soul remains relatively unknown to them.

Your friend,  
*Eugene*

### 314. *Distinctive Differences*

23 February 2013

Good morning to you both. These messages that I have conveyed to you will add wonderful vision on the nature of the spirit body.

I would like to convey a few things to add to the overall vision and experience of this work. In the human experience people form social laws for living, people live within these laws and the drama of social life goes on. Every person is subject to natural laws such as the field of gravity. People live in different Countries and each Country has its respective social laws that have been implemented as the Country has evolved. This has been the way of things for thousands of years. Humanity lives in the diversity of social laws yet humanity all share in one common law, the field of gravity. People create

social laws and impose these laws and this is how it has been done throughout the mortal Ages. In the Natural spirit Spheres there is no need for this to happen. The humanity of spirits do not create the social laws for living and every single spirit is subject to the status quo of the Spirit Laws for social living that are existent in each Sphere and relate directly with soul condition irrespective of what the ego may desire or think to the contrary. There is a good reason for this. On the face of the Earth, humanity lives with distance and humanity establishes its own social laws for living. The whole of humanity reside on one surface even though humanity has created a diversity of social laws. In the spirit world the humanity of spirits reside on different surfaces, as there are numerous Spheres. Humanity is spread among these Spheres all relative to their soul condition and the invisible Spirit Laws work in their unseen way and impose their attraction so that each spirit person resides in the environment that their soul condition is harmonious to.

We have introduced the reality of the First Natural Sphere. If only this Sphere existed as the mortal spirit world, then the humanity of spirit life would converge in this one giant Sphere and everyone would be together irrespective of soul condition – just as you do when living on Earth. Thank goodness this isn't the case. The Spirit Laws establish the ways of social living just like other Spirit Laws establish the way the soul condition is changed from the mortal into the Immortal by the receipt of the Divine Love.

The Spirit Laws here are greater in their working than any social spirit behaviour. The individual in the spirit world cannot forcibly remove or circumvent by their effort these Spirit Laws to cause or by-pass their effect. One need keep in mind that the entire experience and existence of spirit life involves the personality, the spirit body and the soul condition and so, it is with these Spirit Laws that life is acted upon the soul and not solely on the personality or the spirit body. Most individuals living in the Natural Spheres have little idea or awareness as to the nature of these Spirit Laws. One is not of sufficient soul condition for their spirit body senses to identify the existence of these Spirit Laws. Humanity lives like this on Earth and yet it continues to survive just like natural spirits continue to live like this and they continue to survive. Saleeba, the bright and beautiful, lived in the Natural spirit world for four thousand years before the human life of Jesus and the opportunity to receive the Divine Love. During Saleeba's Earth life she lived as a woman of position with little development or interest in her intellectual pursuits. During her long time in the Natural Spheres her attributes progressed slowly and eventuated in the realisation of the perfection of her intellectual development and in this, Saleeba had perfected her natural love only to advance her soul condition once she became aware that she could, by receiving the Divine Love. And now she is in the Celestial Heaven with all her attributes engaged and activated, with the inclusion of the Divine Love and soul condition and spirit body reflecting this wonderful image. She is working along side you in this work and account of her story and experience previously conveyed in the spirit writings of James Padgett (1914 – 1923).

If one in their experience of this work has ascertained that there is in existence two distinct Loves: the natural love and the Divine Love, then one will ascertain that this forms the structure of the mortal spirit world. The source of the Divine Love is from the Soul, God. In the mortal spirit world there are those who live with God and there are those who don't. There are those who live in their social life in the natural spirit world and there are those who are participating in their relationship with the universal Soul, God. This is a complete image of the whole of the mortal spirit world in its two halves: the mortal and the Immortal Spheres.

There are many distinctions between the Natural and the Divine Love. Learning about mortal and Immortal life involves sorting through these distinctive differences that depict life lived on Earth and life lived in the spirit world. Every single spirit body is unique just as every single soul is unique and every single personality is unique.

There are never twin spirit bodies or identical spirit bodies. Each personality has its unique characteristics that identify that soulful person to be, individually independent. There are no creatures or animals existing in the mortal Spheres. History and biological species that evolve from the Earth remain of the Earth. There are no dinosaurs or sabre-tooth tigers or mosquitoes living in the mortal Spheres. There are historical references but the actual existence of these species, do not reside in some astral form or another. This be said the same for pets and goldfish. One may find this hard to reason why, when people can love creatures and environments but as one progresses in Divine Love, one will realise that it is the content of soul and spirit body consistent with each mortal personality that provides a human or spirit to personalise their individuality with the living and loving Soul, God. There is an energy field that surrounds everything because everything has some component of energy. Until one is aware of what the human and mortal soul is, and how the spirit body is formed and how it functions with personality, people will always place themselves equal with creatures and love them or kill them, nurture or injure them, construct or destroy natural environments and always present from God's perspective is the Law of Compensation.

With much love and blessings to you both, and I have thoroughly enjoyed contributing these works of Love and Spirit and the nature of the spirit body.

Your Celestial friend,  
*Eugene*

## The DIVINE UNIVERSE:

### 104. *The Inflowing Cause*

20 October 2012

The nature of Divine Love can be seen as true perfect cause. Whilst the Divine Love has effects to the condition of the soul and spirit body, and the forming personality and physical body, if one is in a physical body (as I am in my spirit body) these effects are the changed conditions in the soul that are then felt throughout all subsequent spirit body and or physical body systems. The cause in the Divine Love acts perfectly all the time. Cause is a good language to identify the substance of the Love because when the Love is in the soul, this Love causes change. The new birth results from the cause and effects of the cause, though these effects are not from the Love as cause and effect. The Love causes and there is not effect. The effect is the result of the soul changing from the inflowing cause. There is movement in this Cause.

The cause of Divine Love when acting upon goodness only changes this goodness insofar as refining and perfecting that attribute. The cause acts upon any disharmonious condition in the soul, that is caused by the results of one's actions that are hewed out in life, that are in contradistinction from the workings of harmony and love. The Cause of Divine Love changes the soul and the spirit body also, as it grows these attributes toward their personification of these attributes.

The Father in the forming of the Divine Love has created this Love to act in only a singular Cause. This Love is not primed with several or hidden causes as part of its determination and acting. The Love is primed as a singular cause of energy that acts in a singular way in a soul to which everything else that forms the individual *effects* change to and from and in this Inflowing Cause. The Love is singular yet multiple in change and effects as the attributes are revealed toward their refined harmony. The Divine Love is perfect cause because it has no actual effect in its nature as it is as a potential. When the Love is inflowing into a soul, then the cause acts true to its potential and to the potentials that exists in the soul.

One can utilise their soul perceptions to see the extenuating relationship between the causality of the Love and the attributes of individuality as these attributes are in the effects of the Perfect Cause. Also, *harmony as I have mentioned, Immortal Harmony, is in this energetic form of this Cause and this harmony like the cause, that this energy is, never changes which reveals to us that everything will change around the Father.* The individual changes from cause which is the Love that is now in the soul and inflowing into the soul and the effects in this, change the natural love attribute toward perfection due to the Father's Love. The revelation is to see the Truth that the natural love is, in its form, made for the potential of change.

*Jesus of the Celestial Heaven*

**The BEAUTIFUL MIRACLE:**

5 October 2012

**The DIVINE UNIVERSE**

The way in which the Spirit conveys the Divine Love into the soul is a beautiful miracle. Let us go back to the beginning. The attribute of mortal soul prior to incarnation has to it, a potential within it that is part of its formed nature. After the soul incarnates this potential remains part of the soul and even if the forming personality is unaware of such a soul potential, the potential still exists. The Divine Love is entirely suitable in its energy of harmony to be the energy that a mortal soul can utilise. The Spirit covers the spirit body when the individual sincerely asks the Soul of God for the Divine Love and this covering of the spirit body is where the dynamic of this beautiful miracle takes place. From the internal longing of the individual for the Divine Love this activates the Spirit Law that activates the Spirit that is then attracted to the spirit body upon which the Spirit material of the spirit body draws the Divine Love in to its soul and this union completes. The key here is to gain a perceptive insight into realising that the spirit body is not an inert body but that it is living and has activity, recognisable from its first forming from the Spirit Law that materialises a spirit body. The Spirit and the spirit body, to give an analogy, are like two attracting magnets and when the surface of the spirit body is touched by the Spirit, this causes the automatic response of the Divine Love to permeate into the attribute of soul and so begins the transformation of energy from the natural into the Immortal Divine Harmony. If the individual continues the receipt of Divine Love the energy that is Divine Love actively begins to change the soul and this is felt in the spirit body systems and can produce feelings of love and elation. The spirit-mind begins to change as all spirit body systems are affected by the changed condition now experienced in the soul as the soul becomes living and vital. In one's progression of this Divine transformation, the soul will mature enough from the amount of Divine energy it receives and at that moment the surface of the spirit body and the Spirit are continuously attracted to each other, then one is living in the presence of the Father in perfect harmony, and this clarifies the truth about what it means to be truly at-one with God.

**Soul within  
spirit body  
prior to receiving  
Divine Love.**

**Divine Love having been  
assimilated within one's soul,  
now being reflected through the  
radiance of the spirit body.**

## The DIVINE UNIVERSE:

### 179. *The Nature and Stages of Fusion*

17 December 2012

In our writings together in this collaboration we have introduced much experience on the nature of Divine Love. We have conveyed vision and experience to the best of our knowledge and to the best of how our spirit-communications have facilitated this dialogue. We have tried to convey workings of universal Love and Spirit to the best of our ability that dovetails into extending the nature of personality, all of this in the view that the essential truth is always one's relationship with the Soul, God, in faith, love and the Divine Love.

This work first commenced with the life, the human life of Jesus, then continued with the spirit writings of James Padgett. Our current work introduces many themes situated in potentials, harmony and Immortality all the way defining the nature of a mortal personality comprising of its attributes and to illuminate the soul and the spirit body. We have established that the forming personality survives its human life and continues its existence in the mortal spirit world. We have defined what the mortal spirit world is in its function. We have written and communicated from our experience having lived in Divine Love and with your assistance, we have been able to give wide breadth of vision to this work so that another may derive insight, spirit illumination, vision, potential, thought-provoking information and, for one to find solace in. Above all, it is our hope that these works demonstrate the reality that the Divine Love is real along with the attribute of mortal soul and the mortal spirit body, and it is from the understanding of how the personality comprises of these two attributes provides a unified vision of the human experience and earthly world with a spirit's experience in the spirit world culminating and accommodating for the same outcome, which is an acceptance of the Soul, God.

I desire to write on the *Stages of Fusion* a mortal personality experiences when the attribute of soul and spirit body form the individual.

The formed image of the attribute of each unique soul begins with its creation. The originator and First Source of all mortal life, the Soul God, commences a mortal soul life by forming a complete soul. This mortal attribute upon its creation and upon its advent into the Pre-Incarnation Sphere where it awaits incarnation into a human life is subject to a single act upon it as the first stage of fusion. A single Spirit Law that only exists in the Pre-Incarnation Sphere acts upon God's Spirit Will and divides each complete soul. The soul then becomes as it were two distinct and separate attributes or parts and in each part the whole attribute and potential for the receipt of Divine Love and imminent incarnation for individualisation plus other potentials form a complete part of each part of the complete soul. **This first aspect of Fusion** is to actually separate and not to bring together.

The two distinct parts of the complete soul reside in this Sphere until the imminent approach of incarnation. When incarnation occurs, each part will incarnate into one of each human sex and never shall these two independent parts incarnate into the same sex. There is a very good reason for this. When one is aware of the potential of Divine Love and the possibility for a Celestial soulmate companionship, then one understands why it was necessary for the complete soul to fuse apart and form two distinct attributes. Each attribute will always remain independent in the forming of their unique mortal personality and derived human experiences from a human life. Never shall these two distinct attributes incarnate into a single forming personality. I am also aware, and you have written an account

of this before, that each attribute of soul in this Sphere does not have as part of its original forming, any personality other than its attributes and potentials which means that any self-determination or voluntary decision to pick and choose or to select a human life is absent from the soul when the soul resides in the Pre-Incarnation Sphere.

Humans, mortals and Immortal spirits cannot influence the attributes of soul in this Sphere. The Pre-Incarnation Sphere is in God's jurisdiction alone and only selective Spirit Laws act in this mutable and comfortable environment. This Sphere is not a hallowed environment but a Sphere that is only visible to the Eternal Eye of the Soul, God. We have discussed at great lengths the reality of this Sphere because we understand the importance of our beginning. This Sphere is part of our heritage and it is from my and other Celestial spirits' perceptions that we are able to ascertain an image of this Sphere from the Father. It does not surprise us if a person does not believe us. The visibility of soul is near-next-to-nothing in a human experience, so then why would one see the truth of what I convey?

Nonetheless, a mortal soul life needs to begin somewhere and has to begin somewhere and so, it might as well be in a place caused into existence by its originator and nurtured and prepared for what will become **the secondary stage of Fusion**, the beginning of a human life.

Do all attributes of soul exist in the Pre-Incarnation Sphere in one time at one place waiting for incarnation? Has God caused into existence every attribute of soul that will ever incarnate and that will become the whole history of humankind? All these questions that we ask about the advent of a human soul and the environment it begins in, lead us to gather more information into this unique part of universal creation. It would not surprise me in the least to know that God has caused every single attribute of soul to exist prior to the first mortal personalities that commenced the human race. I know for a fact because I reside here, that the entire mortal spirit world including the Celestial Heaven had form, image, working and structure before the first mortal personality arrived here after the death of their life wearing only their spirit body. If God can cause the entire mortal spirit world into existence before a mortal personality has commenced living the first human life, then, to originate all attributes of soul that exist in a Pre-Incarnation Sphere is an entirely possible thing for God to cause into existence. Humans, mortals and Immortals simply don't have the power or resource within our selves to cause such universal and far-reaching realities into existence. This is why the Divine Love is such an integral part of universal life, for it is the only substance and energy that we can individually experience that is part of the universal originator, the Soul God. This may add a new aspect on why it is significant that one may participate with the Divine Love! It is a given that people and spirits can experience – and do experience – God in aspects of universal attributes though I must qualify that only with the Divine Love, will a mortal soul experience the Soul, God.

**The secondary stage of Fusion** is simply defined by the incarnation of the finite attribute of soul to acquire a spirit body and living attribute of personality, which commences the finite soul's individualisation of mortal life experience. This secondary stage is inclusive of the conception of a human being. The entrance of a soul into the physical and material world is a dynamic fusion culminating with various attributes forming the individual personality. To provide you with an image of this dynamic, a specific Spirit Law acts to form the spirit body, another Spirit Law acts to exact the soul into the spirit body and another Spirit Law specific to the adjuncts of mortal personality act to exact the now forming personality to its position of the soul and the spirit body and the human brain. Also, the physical conception forms part of this fusion insofar as the fusion of genetic information from two

separate sources, a sperm and an egg. This is a simplified image though it is enough so that one may gain a perspective on how these attributes culminate to form a human being ready for life, ready for the afterlife and ready for the potential to experience the Immortal Love. There are physical conditions of a voluntary and involuntary nature that form part of the physical being. The main thing is that the spirit body is formed so that the expectation of a human life in terms of its age, will not compromise the now formed personality to survive its creation.

**The third stage of Fusion** in a soul's life is its transition into the First mortal natural spirit Sphere. This stage is defined as the ending of the physical incarnation and the beginning of life in the spirit world. The spirit body acquires the personality in all its attribute and specific Spirit Laws act in their assistance as the physical body falls away from the spirit body and the spirit body takes over as the place and environment that the attribute of soul and attributes of personality now reside and function in. This is an *act of fusion*, for the personality being subject to a greater Law, is exacted to the attributes of the spirit body complete with function and attribute and cognitive experience in the individual's now spirit life. The exacting nature of this Law ensures that no splintering or aspect of the personality is left behind or lost in translation. This is really important for memory and other identifiable aspects and information pertaining to a human life lived. If a human life passes into the mortal spirit world before the individual has any cognitive functioning or capacity to be cognitive, this does not determine any other outcome to the soul other than the personality continues to survive in the spirit body and continues to mature in the First natural spirit Sphere.

This secondary stage is inclusive of each incarnated soul and of every human being for this forms the natural soul system of individual personalisation of experience in natural love.

**The fourth stage of Fusion** involves the Divine Love. This can happen at any time during the natural life experience of the individual. The fourth stage involving the Immortal Divine Love happens when the Divine Love enters the attribute of the soul for the first time and the attribute of mortal soul is now confirmed as living with the Immortality that this Divine Love provides. The Divine Love, having entered the soul, fuses with the soul and the perfect causality of the Divine Love in its cause-effect becomes part of the soul and can never be extracted from that soul nor can this process of Immortality ever be reversed. There is simply not in existence, a Spirit Law that can reverse this fusion and this is why the choice for Immortality is so unique for the individual to make.

Now that the individual has experienced the Immortal Fusion with the Divine Love in their soul, **the fifth stage of Fusion** transpires when the individual progresses in their experience of Divine Love as it transforms their natural love and the necessary changes happen that arrive within the soul condition of the individual to be of Celestial soul quality. Any necessary compensation will have taken affect and the human life or natural mortal life will be with sufficient harmony in the Divine Love to enter the Celestial Heaven. One is now infused with their universal life and the awareness required, to live in the harmony with God no longer illusive to the individual in a solely self-determined mortal life. Without the infusion of the Divine Love in the soul, no Immortality can form in the soul and the soul remains in its natural life experience to a greater or lesser degree of harmony in its condition of natural love.

All the way along these stages of fusion, experience – if it is progressive – infuses the personality with more experience and this allows for more attribute of personality to become functioning and present

within that individual. There is no greater example of this than when the nature of awareness becomes active in the personality from a faith in Divine Love experience.

**Stage six of Fusion** truly demonstrates how the personality is infused with extended attributes of mind-spirit function as the individual progresses from the Celestial Heaven and enters the Eternal Spheres. The individual is infused with Love and Spirit that provides the personality to see the difference between that which is Immortal with all that is Eternal. The individual always remains finite and is never infinite in their condition of soul. The individual residing in the Eternal Spheres is now universally fused with the Eternal experience of the First Source.

**Stage seven of Fusion** of individuality is the transition from the Eternal Spheres to the Spheres of Paradise. Through the experience of Divine Love one has gained their Immortality and progressed through the Celestial Heaven and then to gain an Eternal perspective on the nature of God, as being universal and eternal. In the Spheres of Paradise the individual is now fully fledged in their union with God and can travel around the entire soul Sphere that God is and resides in. The confirmation and completion of all these stages of Fusion happens in the last Sphere of Paradise when the individual can visibly see the image of all that was previously unseen, the Soul, the Eternal Soul and First Source of the individual's creation. Having seen the Eternal Father, the personality of the individual is deemed as being, *perfect* and still in this perfection, one can gently ask for a drop of the Immortal Love.

This concludes my message on Fusion. It is a potential to understand the vision that I have just written and it is a true vision for the Divine Love reveals it so. The wonderful thing is to see how durable the three natures are: the soul, the spirit body and the human personality and how these three components form the destiny of each individual.

Thank you for taking my message.  
Your Celestial friend,

*Luke*

**Feelings first**

**LIVE FEELINGS FIRST**

**FEELINGS FIRST For Kids**

**NATURE and STAGES of FUSION:**

**Seventh stage of Fusion** of individuality is the transition from the Eternal Spheres towards the Spheres of Paradise. The individual is now fully fledged in their union with God and can travel around the entire soul Sphere that God is and resides in.

**Sixth stage of Fusion** truly demonstrates how the personality is infused with extended attributes of mind-spirit function as the individual progresses from the Celestial Heaven and enters the Eternal Spheres.

**Pre-Incarnational Sphere:**

**First stage of Fusion** is the separating of the soul into two, each soul half being complete on their own.

**Fifth stage of Fusion** transpires when their natural love changes and one's soul progresses to the condition to be of Celestial soul quality, one enters the Celestial Heaven.

**Fourth stage of Fusion** involves the Divine Love. This can happen at any time during the natural life experience of the individual. Happens when the Immortal Divine Love enters the attribute of the soul for the first time, either when in the physical body state or spirit body state.

**Second stage of Fusion** is simply defined by the incarnation of the finite attribute of the soul to acquire a spirit body and living attribute of personality, which commences the finite soul's individualisation of mortal life experience.

Spirit body →  
Soul →

**Third stage of Fusion** in a soul's life is its transition into the First mortal natural spirit Sphere. This stage is defined as the ending of the physical incarnation and the beginning of life in the spirit world.

## The DIVINE UNIVERSE:

### 181. *Living in the Love*

19 December 2012

Yes, good morning to you. I have listened to your thoughts on this problem. We here who have contributed to this work are aware of this, and know that you have discussed this at length with Zara. The problem being, that the account of Divine Love provided in this work is largely conveyed by those of us who never lived with an awareness of the Divine Love in our human lives and those of us who did, such as Luke and Eugene, knew very little of the universal workings of Love and Spirit in their Divine Love – human experience. Only the Master knew all that a Divine Love experience meant in a human life as he lived it and was of Celestial soul condition in the public ministry of his life and even then, the event of his life is entirely different and unique to those of you who experience the Divine Love today and tomorrow. Other than the Master, most of us who are contributing to this work from the spirit world commenced our true experience with Divine Love as spirits. Having said this, this in no way diminishes our capacity to convey vision and experience of Love and Spirit and in our collaboration and communication to extend the awareness of a Divine Love experience. Without the Divine Love present in your souls this work could not have transpired.

I have learnt in your shared experience with me, that people struggle to find an acceptance of God because of the fact that in a Divine Love experience, immutable workings of Love and Spirit are involved. Most enjoy their experience in Divine Love remaining independent of thought, action and experience and embrace the Love but only up until the point where the immutable begins to suggest its presence.

The difference between your experience and other people's experience, whilst all being subjective, is that you have both been able to accept the immutable nature of the Divine Love which has led you to understand that from this immutable nature, there are other immutable workings caused into existence by the Soul, God. You have not been afraid to embrace this and so, in your experience of Divine Love, you have been able to accept that you cannot create the way in which these universal workings are caused into effect but rather, you accept the change that these immutable workings cause and this has freed you up so that you can see the vision, the universal vision that God has caused into existence rather than you yourselves trying to create these existences and a determination for yourself.

What you have both realised in your receipt of the Love is that you now have the substance in your soul that has caused an awareness of Spirit and Love to awaken in your spirit body senses so that you can awaken to what and all that is already created and your individuality experiences this in a cognitive progression defined as an awareness of progressive truth. In a way, by receiving the Divine Love into your soul you are receiving an immutable part of the greater universe and so, the Divine Love reveals the workings of the universe in your soul. Your soul with its potentials develops its attributes from the Love and this is perceived in the spirit senses of the spirit body. This is actually how we can see things external to ourselves in the Celestial Heaven. This is another truth about the workings of Divine Love. When you leave the Celestial Heaven and begin life in the Eternal Spheres, one's actual vision will be in that condition as I have just described so that one can 'see' these more progressed environments. You cannot compare the sensory vision that is identified as eyesight, between Celestial spirits and natural spirits with this greater vision. If I were to take a natural spirit from the First natural Sphere to the last Sphere of the Celestial Heaven the individual wouldn't see anything. This provides you with an

example of how the Divine Love, and energy of it, causes the spirit body systems to mature and to continue developing.

The most important thing to us is to help generate and create an awareness for the potential of Divine Love and to help generate more vision and experience for those who live in their awareness of the Divine Love experience. This is all we can do, and it is all that you can do. Most, as I understand, will experience the Love and live a little faith whilst their physical and material life will be one's conclusive experience. I am aware that if you were both to write your experience of Divine Love, as lived in your human experience, then this account would read as an entirely different experience to the work that we are currently collaborating with you.

Your loving Celestial friend,  
*Saleeba*

The main thing following on from Saleeba's input, and from what you have derived from your experience is to help generate the awareness for a potential experience of Divine Love and to contribute toward vision and experience as we do, so that if one embraces the Love, one can enjoy their learning in the workings of the Love. The rest will take care of itself.

*Egln*

All that we require you to do, and all that you have needed to do is to continue what you have been doing, advancing your experience of Divine Love and awakening to the universal realities that sustain finite personality in the infinite reality of potential, and to learn about human nature and the nature of a spirit's experience in the Immortal living of Divine Love.

*Francesco, the Celestial Monk*

**The natural love and Divine Love are not divided when in the soul. The natural love is harmonious in the Immortal greater love, the Divine Love, and so, never shall an Immortal faith and Immortal truth fall.**

*Augustus*

If one looks toward God one may see nothing, another may see everything. The universe in a drop of the Divine Love, a drop of Divine Love awakens the universe of Immortal Harmony in the soul.

*Luke*

The originator and provider of the Divine Love created the mortal personality and its nature with a broad stroke. Slowly by slowly as one evolves, one can see the parts that make up the whole of the mortal personality and the surrounding attributes of love and spirit, identified. We have contributed here in the softness and nurturing capacity of Love and Truth.

**WE ALL ARE BEING GUIDED HOME:**

We need the Spirits of Truth of the Avonal Pair to Heal ourselves; then once Healed, (and for support (overshadowing) as well through your Healing), we need the Creator Pair, Mary Magdalene and Jesus' Spirits of Truth to see us through the Celestial spheres, while at all times embracing our Heavenly Mother and Father.

Until Mary and Jesus died and liberated their Spirits of Truth, no one from any of the worlds could leave Nebadon, because no one knew the way to do so. Nebadon is our local universe containing some 3.8 million inhabited physical worlds and their associated spirit worlds.

When we embrace the truths Mary and Jesus are revealing, and start to do our Feeling Healing, or with Divine Love, Soul Healing, we are then freeing ourselves up from our parental and self control.

Thus our journey to Paradise, to the home of our Heavenly Parents, is of our choosing as to when we progress, however, there is only one way:

**HUM:** Humanity is to ascend. We are self contained. Our soul is always in truth and perfect at all times. **By living true to ourself, true to our feelings, we are living true to God. It's that simple.**

We are to recognise that being engaged and dominated by our mind is the wrong way for us to evolve and grow in truth. We are to discard the mind enslavement that has been imposed upon as by all of our parents. We are to express our feelings, both good and bad and free ourselves of the indoctrination that humanity has embraced worldwide.

Live true to your feelings, and you ARE living true, not only to your own soul, but also true to God's soul. So doing your Healing by honouring all your feelings, IS living the will of God. And being fully Healed, IS living even more truly the Will of our Mother and Father.

**AVO:** We are to embrace the truths and guidance of the Avonal Pair through their Spirits of Truth. It is the Avonal Pair's guidance that will lead us through our Feeling Healing, and with Divine Love, we will be able to ascend through the 7 spirit Mansion Worlds and enter the Celestial Heavens where we also interact with other world's spirits.

**J&M:** We are also to embrace the truths and guidance of the Paradise Pair, Mary and Jesus, who will then lead us through the 3 Celestial Heavens that are aligned with Earth, and then further on through Nebadon where we will then depart beyond on towards Paradise.

**M&F:** Beyond the universal zone of Nebadon, we will be guided by our Heavenly Mother and Father onwards through the universes to Paradise where we will be welcomed by them, home for us all, as we are all Children of God.

**GOD**

**M&F**

**J&M**

**AVO**

**HUM**

**WE ARE Children of God**

**WE ALL ARE BEING GUIDED HOME – NOW, HOW TO COMMENCE THE JOURNEY:**

**GOD**

**M&F**

For 200,000 years, we have been misled into embracing our mind’s distortion of wisdom and truth. All such traditional understandings only lead us in the wrong direction, from which we must turn back from. Our soul based feelings are always in truth. Our minds are to follow our soul based truths and feelings, not the other way round, as we have been brought up to embrace.

We are to connect with our deeper repressed feelings.  
 We are to long for the truth of what we are feeling.  
 We are to live true to our selves; by living true to our feelings.

Use your surface day-to-day feelings to connect with your deeper repressed feelings. Express your surface feelings and your deeper repressed feelings to uncover the truth of yourself.

**J&M**

We all have feelings which we communicate and share with each other. And we all have deeper buried and hidden repressed feelings. Feelings from our early childhood we felt, yet weren’t allowed to express. These feelings are still within us, waiting to have their say. These feelings, because they are repressed, cause us all our problems.

And as we look to uncover, bring out and accept these deeper feelings, so we’re taken into new ways of looking at ourselves, our feelings, and our life. We’re setting ourselves free of the controlling patterns that govern our unloving behaviour.

In this way, we progressively begin to express the personality that our Heavenly Mother and Father gave us, not the one imposed upon us by our physical parents and carers. We are to be our true and real selves.

**By living true to ourself, true to our feelings, we are living true to God. It’s that simple.**

**AVO**

As we, humanity, long for the truth of our feelings, we can also be assisted by the Spirits of Truth of the Avonal Pair who are our spiritual teachers for Earth over this coming 1,000 years, to assist us through the Great U-Turn, away from mind dominance to being soul based feeling lead. They will assist us through the seven levels of the spirit Mansion Worlds.

**HUM**

Then the Creator Pair, Jesus and Mary, will lead us through Nebadon and into the greater universe. Then our Heavenly Mother and Father lead us home to Paradise.

**WE ARE Children of God**

Collectively, should we embrace them all, as we are to, then our pathway home is a journey in the hands of the Spirits of Truth of the Avonal and Paradise Pairs overseen by our Heavenly Parents.

## HOW TO GET TO PARADISE:

Long for the Divine Love  
 Long for the Truth  
 Long for the truth of your feelings  
 Don't deny any feelings: accept, express and want to know the truth of them  
 Know your feelings are the key; your feelings are the Way  
 Want to end your falseness and being untrue  
 Want to understand the truth of your early life  
 Use your surface feelings to move deeper into yourself, bringing up your repressed feelings  
 Want and long to know the whole truth of yourself  
 Want to do it all with God, your Heavenly Mother and Father – long to Them for help.

## The Key

Our longing drives our life. We long with feelings. We can wish for things using our mind, yet long for things with our heart. These things in the pyramid are what to long for. Longing for them, when the longing comes naturally. Longing because you feel you really want them. Long to be true with all your heart. Long to live true to your feelings. Long to understand the whole truth of yourself.

PARADISE TRINITY:

1. **Our MOTHER and FATHER (God) (MF) – Divine Love**  
SOUL (God) – One SOUL that is expressing its two PERSONALITIES, our Heavenly Mother and Heavenly Father (Soulmates)
2. **ETERNAL SON (ES) – Divine Truth**
3. **INFINITE DAUGHTER (ID) – Divine Mind**

Then: The Second and Third Persons of the Paradise Trinity (ES and ID) are stepped down to the local universe trinity (Mary and Jesus, Divine Minister (DM), and her Holy Spirit.

The LOCAL UNIVERSE TRINITY:

**Our MOTHER and FATHER – Love**

1. **MARY M and JESUS – the Living Truth**
2. **DIVINE MINISTER – Mind (and her Holy Spirit)**
3. **HUMANITY – Natural love, sons and Daughters – Truth, and our Angels – Mind**

PLANETS that engage in REBELLION:

1. **AVONAL SOULMATE PAIR – the Feeling Healing process – incarnate**
2. **DAYNAL – TEACHER PAIRS – they do not incarnate**

**So in summary:**

**LOVE**  
Mother and Father

**TRUTH**  
Eternal Son (ES)  
Mary & Jesus (MJ)  
Humanity (H)

**MIND**  
Infinite Daughter (ID)  
Divine Minister and Holy Spirit (DM)  
Angels, Nature Spirits, Nature (A)

**Consider a diamond:**

MF

# Mother and Father Heavenly Parents

Creator Son & Daughter  
Jesus and Mary

Avonals  
as soulmate pairs

Trinity Teachers  
as soulmate pairs

Melchizedeks – who have taken over from the Caligastians and Daligastians being also all as soulmate pairs.

Mortal Souls – human beings who individualise on Earth, then progress through the spirit Mansion Worlds, then into the Celestial Heavens, and beyond.

Mortal Souls – also being ascending spirits, upon completing their Soul Healing, join with their soulmate, then join their soul group of 24 mortal spirits, being 12 soul pairs. It is only as a soulgroup that anyone can progress beyond Nebadon.

The Paradise Pairs are all ONLY concerned with the SPIRITUAL wellbeing and upliftment of the planets and local universe. Currently to do with Earth:

Mary and Jesus – spiritual wellbeing and upliftment of the whole of Nebadon region.

Avonal Pair – Daynal pairs (Trinity Teacher Daughters and Sons) – Spiritual wellbeing and upliftment of individual planets and their associated Mansion Worlds.

The Local universal Sons and Daughters are all about the running of the worlds under their jurisdiction, and ensuring the higher spiritual elements can be employed, or sent astray, as in our cases through the Rebellion and Default.

Lanonandeks – Melchizedeks (and others, such as Life Carriers and Eve and Adam).

As the Lanonandeks all rebelled – the Lucifers, Satans, Caligastias and Daligastias soulmate pairs – so the Melchizedeks have taken over their roles, as well as doing their own.

So the Melchizedeks are the governors, overseers, the administrators and advisors and so on for Earth; they are the ‘controllers’, and they will instigate all that needs to be done to do with the ending of the Rebellion and Default. And they will enlist the willing help of ascending mortal pairs, so the mortal Celestials spirits (soulmates when available, and others waiting to unite with their partner), and at times mortal spirits in the Divine Love Healing Mansion Worlds. And the angels help all of us.

Currently the whole of Creation exists for the ascension of mortal souls from their earth planets to Paradise. It’s all one vast Grand Ascension Scheme. With all the higher and lower spiritual Daughters and Sons, together with all the many different angels and other universal spirit personalities, and even including nature and our very own pets, assisting women and men with their Ascension Journey. It being: and Ascension of Truth. Everything we do is done to help us grow in truth. (Only everything we do in our negative state is to deny ourselves our truth from our feelings, which is why we have to do our Healing.) All women and men are ascending (or growing) in truth through their experiences. And as we grow in truth by looking to our feelings to show us that truth, so we’re ascending, moving inwards and upwards through all the worlds and spheres of the Grand Universe to one day arrive on Paradise and meet our Heavenly Parents. God is providing us, Their children, with this spiritual journey called our Ascension of Truth. And by living true to our feelings, so we are progressing on our true Spiritual Path – our Ascension Path.

Live true to your feelings, and you ARE living true, not only to your own soul, but also true to God’s soul. So doing your Healing by honouring all your feelings, IS living the will of God. And being fully Healed, IS living even more truly the Will of your Mother and Father.

**Humanity** is to pursue the pathway for Truth through one’s soul based feelings, this is the right pathway. However, humanity commences its journey founded on natural love, which we now know is to be perfected through one’s Feeling Healing process and then made divine through asking for and receiving our Heavenly Parents’ Divine Love.

For 200,000 years, **humanity** has pursued the pathway of the Mind, being that of the brain, this is the wrong pathway. The Mind is the pathway for Angels and that of all of Nature.

**CREATION of SOUL and SPIRIT:**

God is *The Paradise Trinity* — the eternal Deity union of the Personalities: the Universal Mother and Father; the Eternal Son of Truth; and the Infinite Daughter Spirit of Mind.

The soul of each human personality (sons and daughters of truth) is existential, driving our personality expression in the experiential. The soul of each human finds truth by embracing one’s feelings and longing for the truth of them. We are to attain the Eternal Son of Truth. We are a creation of Truth.

The soul of angels is experiential, evolving through their experience by continually progressing in mind development. Angels are to attain the Infinite Daughter (Spirit) of Mind. Angels are a creation of Mind. Our soul is duplex (we have a soulmate) and is created by our Heavenly Parents. Through our Feeling Healing we perfect ourselves enabling the union with our soulmate, as we progress in truth up through the Mansion Worlds, celestial heavens and all the way to Paradise.

The soul of angels is also duplex, yet of the mind, and they progress in mind evolution to Paradise. Animals, plants and nature spirits are also creations of Mind.

Neither we nor animals reincarnate. We never die; upon death, we move into the spirit Mansion Worlds on our journey to Paradise. When animals and plants die, be they the tiny microbe to the mighty elephants of the land and the whales of the ocean, their spirit energy returns to the Spirit Collective

Energy. And from this energy are drawn other animals and the nature spirits, who then in turn move onto becoming angels through increasing mind experience.

A nature spirit is an angel in waiting.

**WE EACH have a Nature Spirit pair, Spirit Guide pair, and an Angelic Pair:**

For those doing their Healing or are interested in doing it will from that time have their own personal angels, spirit guides and nature spirits with them, with whom they are to develop their own relationships should they want to. It is not about ‘sharing’ the same angels or guides or nature spirits, it is about you relating specifically to your ‘own’ ones because they are provided for YOU. It’s all for you, to maximise the experiences we each need.

We are all to have our own pure relationships. And it’s the same of course in life with your friends, however over there, in spirit, dealing with Nature Spirits, Spirit Guides, and Angels, it’s more personal and private and ‘JUST FOR YOU’. So we have our own separate, unique relationships.

For example, Nature Spirit Verna has been assigned to be specifically and only with James, and she ain’t going to be assigned to anyone else, so she won’t be sharing herself around.

This is SO IMPORTANT to understand so that in future there won’t be all these people claiming to be speaking with Verna or Mary Magdalene or Jesus or Nanna Beth or anyone else who is part of it all in such capacity. Mary M and Jesus have spoken with James as they have, making it quite clear he is all they are speaking with.

We each have a band of a Nature Spirit pair, Spirit Guide pair, and an Angelic pair, each pair being in their ‘soulmate’ relationship. Even though we are ascending mortals having a soulmate, even our soulmate has his or her own group of six personalities assisting him or her. Our assigned Nature Spirits do not continue with us into spirit, our Spirit Guides may for a time assist upon entry to the spirit Mansion Worlds, however, our personal Angelic pair continues with us to Paradise, and then even possibly being with us throughout eternity.

**Feelings first**

**OUR GUIDANCE to PARADISE, the home of our HEAVENLY PARENTS:**

There are three distinct phases of our progression to the home of our Heavenly Parents which is Paradise that is within the circle of seven Super Universes, each containing many Local Universes.

Once we progress beyond our Local Universe of Nebadon, then we are assisted and guided by our Heavenly Parents, our true Mother and Father all the way home to Paradise.

Before then, once we have completed our soul healing, we are guided through the Celestial Heaven worlds which are those that interact with humanity on Earth, then further on into and then out through Nebadon, our Local Universe. The regents of Nebadon are Mary and Jesus.

However, before then, we are to embrace our healing. That is, we are to realise who we truly are. We are not the personalities that our parents imposed upon us. We are to put aside our childhood suppression and repression and free our true personality that our Heavenly Parents gave us, and to do this we are now able to embrace the guidance of the Avonal Pair who will lead us through our healing here on Earth and through the Spirit Mansion Worlds to be able to enter the Celestial Heavens.

# Feelings First Spirituality

## The New Way

**Feelings First**  
**FF**  
**Feeling Free**

The New Way, Feelings First Spirituality  
 Learn to live with God through your Feelings

Accept, express and long for the truth of your feelings

Be free in your feelings  
 Free your feelings from your mind's control  
 Live true to your feelings; your feelings are your true self  
 Live true to yourself through your feelings

Live true to yourself by living true to your feelings.  
 Long for the truth of your feelings.

Accept / Express / Bring out ALL of your good, and most importantly,  
 BAD feelings.  
 Want to understand why you're feeling them.  
 Use your surface feelings to take you deeper into your repressed and  
 hidden feelings.

The Feeling Way is the True Way.  
 Your feelings are your spiritual guide.  
 Your feelings will take you to God.

Your feelings will show you the truth of your relationships, including your relationship with God; and if anything is wrong, untrue and unloving, then why it is.

Our feelings are sacrosanct and we should respect them accordingly. And we should NEVER block them out, ignore, override, banish, deny or reject them, because if we do, we're only doing that to ourselves, as Our Feelings Are Our Self.

Our feelings are the gateway to our soul. Our feelings are the closest we can get to our soul. Knowing the truth of our feelings is knowing the truth of our soul, and knowing the truth of God.

Feelings First Spirituality is the True path for humanity.

It embraces all people.

It completely unifies the world.

Everyone can relate to everyone else through their feelings.

And we can all live the truth that comes from our feelings, all sharing the same truths as we express and have the same feelings.

No one need be left out; no one is more special than anyone else – we are all united in Truth through our feelings.

So with and through our truth we live our lives, therefore without the need of any man-made mind-laws, rules and restrictions that limit self-expression as inspired by our feelings.

The New Way, Feelings First Spirituality is what is to replace all man-made, mind-contrived religions that so many people have enslaved themselves to. The New Way, Feelings First Spirituality will set us free of all that control, ending the Rebellion and Default within ourselves as we do our Feeling-Healing, and ending such control and spiritual stagnation in the world.

Bring on the End Times – get it over and done with! Let's all see that Jesus is not going to come again, that Prophecy has failed all the mind-controlled platforms. Allow such false systems of belief to die their long-awaited natural death, they've overstayed their welcome, it's now time they fade away. So let us show such antiquated, erroneous systems of belief the exit and bring on the fresh liberation of discovering the truth of how we are to live for ourselves, each of us personally in our lives, and all by looking to our own feelings for it. Self-revelation through our feelings is the way to go.

The Way of the Mind is ending, and is really the End Times – the End of our mind control, and **it's about time!** With the Way of our Feelings replacing it.

The End Times means the end and therefore a New Beginning. And that new beginning is a whole new Spiritual Age – an age based on self-revelation of truth through one's feelings, coupled with and supported by higher revelations from the Celestial spirits, angels and nature spirits.

The Feelings First Spirituality is the True Way to God because it helps you get to know God, helping you to reach out, connect and be personal with God, and do God's Will, all through your feelings. It is the only true way of getting to know the God of Feelings – our beloved Heavenly Mother and Father, the Great Soul of Divine Love.

Love comes through our feelings and not our mind, as we've all been wrongly led to believe.

**Feelings First; then comes The Truth; then comes Love.**

**LOVE is the Religion of Feelings, being:**

**Feelings First Spirituality, The New Way**

my  
**House** is your  
**Paradise**  

**HOME**

## **GIFTS from FRIENDS who have GONE BEFORE US:**

Over the past 100 years, man has been gifted with the receipt of highest level of spiritual truths in all of its history.

Between 1914 and 1923 James Padgett recorded, by automatic writing, some twenty five hundred messages, coming from two hundred and fifty spirit people, many of these spirits being from within the celestial spheres of the spirit world (8<sup>th</sup> sphere and higher). Within the Book of Truths, there are some 866 of those individual messages.

Lost to humanity, by the time of the beginning of the fourth century, were the teachings about Divine Love. James Padgett has been the instrument used to reintroduce these teachings to mankind.

Book of Truths as published by Joseph Babinsky contains the Padgett Messages conveyed from 1914 through to 1923. [www.lulu.com](http://www.lulu.com) [www.amazon.com](http://www.amazon.com) [www.bookdepository.com](http://www.bookdepository.com)

Then followed:

‘New Testament Revelations of Jesus of Nazareth’ via Dr Daniel Samuels (1954 until 1963)

‘Judas of Kerioth’ as edited by Geoff Cutler (2001 thru to 2003) [www.lulu.com](http://www.lulu.com) [www.amazon.com](http://www.amazon.com)  
<http://new-birth.net/samuels-messages/miscellaneous-messages/>

‘The Richard Messages’ Messages from the Celestial Heavens via James Reid (2012 to 2013)

[www.lulu.com](http://www.lulu.com)

‘**The Divine Universe**’ – Spirit Communications – Padgett Messages Continued (2012 to 2013).

via Zara Borthwick and Nicholas Arnold

[www.lulu.com](http://www.lulu.com)

‘**Shining Toward Spirit**’ – Beginnings (2014 – 2015) via Zara and Nicholas

[www.lulu.com](http://www.lulu.com)

James Padgett opened the way, he was highly religious and so was his family. His unexpected gift of automatic writing, discovered shortly after the death of his wife, enabled the commencement of the above five series of teachings.

From James’ recorded messages, Dr Samuels was able to ask for and receive Divine Love which enabled further Celestial messages to be delivered. The Judas of Kerioth messages came through a student of both Padgett and Samuels teachings. Now, in turn, the channels for the Richard Messages and The Divine Universe are all living in Divine Love and the messages continue with ever expanding detail and clarity. Now we have the second major revelation being that of Feeling Healing through James Moncrief.

Within this document, we share with you the construct upon which the beauty, truth and love of this information is clearly of the highest level. Further, we also introduce to you a way of simply being able to ratify the level of the truth of each and every one of these messages, and for that matter, the level of truth of any other material that you may wish to investigate.

As you will now discover: Never can one man do more for another man than by making it known of the availability of the Feeling Process and Divine Love.

**FEELING HEALING and SOUL HEALING with the DIVINE LOVE:****James Moncrief Publications:****all publications are free downloads:**<http://divinelovesp.weebly.com/my-free-books-and-free-padgett-messages.html>

It is suggested for one to consider reading as follows:

**Speaking with Mary Magdalene and Jesus – books 1 – 4**

These four books encapsulate the second of the revelations with the first having been introduced by James Padgett one hundred years previously. These four books provide a wide range of guidance that has never previously been made available.

**Paul – City of Light**

As a gentle intro into the Divine Love and Healing; being James Moncrief's first novel and it's been criticised as being too heavily clichéd, but that's the point because it's a reflection of how he was back then.

**Ann and Terry**

For an example of people who might want to immediately start working on themselves and doing their Healing.

**Feeling Bad? Bad feelings are GOOD**

For more understanding about our denial of our feelings and why we should not deny our feelings, and it includes how it all came about for James, using himself as an example.

**Feeling bad will make you feel BETTER – Eventually!**

This includes specific examples of Marion and James working on expressing particular bad feelings, again with the hope that it will help others gain something of an idea as to what's involved in doing your Feeling Healing.

**Sage – and the Healing Angels of Light**

Through Sage who's 13 years old, the story is primarily about the two aspects of healing; that being, with the help of our angels, and the full Healing we can do by looking to our feelings for their truth.

**Religion of Feelings  
Feeling Healing**

**Welcome to LOVE – the Religion of Feelings  
you can heal yourself through your feelings**

So these books, including the four Speaking with Mary Magdalene and Jesus books, provide the essence of it all and are examples of James' work. Then it's up to whatever takes one's fancy. Other reading to consider may include:

**The Padgett Messages being published as:****The True Gospel Revealed Anew by Jesus volumes 1 – 4****Book of Truths by Joseph Babinsky****The Urantia Book**

**Release one's pain through expressing one's feelings.**

**in conjunction with**

**Longing for the Truth when also longing for Divine Love.**

**FEELING HEALING with DIVINE LOVE is SOUL HEALING:**

*A collection of 'papers' that draw together specific topics including all of the above and more from other sources of information and revelation designed to help increase one's awareness about why we have the problems we do and how to heal them, all whilst living a more healthy and sustainable life. They provide a brief snapshot of the more complicated topics and issues.*

**Firstly, consider discovering the truth of your emotional pain through Feeling Healing.**

**Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing.**

**Primary and most important readings are the writings of James Moncrief.**

**Then consider the Padgett Messages, and then The Urantia Book.**

Pascas Papers, being free, are located within the Library Downloads [www.pascashealth.com](http://www.pascashealth.com)
