## PASCAS INTRODUCTION:

Documents assembled by Pascas are provided for your individual assessment and exploration. The contents are sourced from a variety of avenues and publications. Every endeavour is made to determine that the contents are of the highest level of truth and veracity. At all times we ask that you go within yourself, to ascertain for yourself, how the contents resonate with you.

Pascas provides these notes and observations to assist us all in the development and growth of our own pathways and consciousness. Pascas does not hold these contents as dogma. Pascas is about looking within oneself. Much of what we are observing is new to us readers and thus, we consider that you will take on board that which resonates with you, investigate further those items of interest, and discard that which does not feel appropriate to you.

Kinesiological muscle testing, as developed by Dr David R Hawkins and quantified by his Map of Consciousness (MOC) table, has been used to ascertain the possible level of truth of documents. Such tested calibration levels appear within the document. We ask that you consider testing same for yourself. The technique and process is outlined within Pascas documents, such as Pascas Care – Energy Level of Food. From each person’s perspective, results may vary somewhat. The calibration is offered as a guide only and just another tool to assist in considering the possibilities. As a contrast, consider using this technique to test the level of truth of your local daily newspaper.

Contents are not to be interpreted as an independent guide to self-healing. The information sourced herein is not from a doctor or doctors, and any information provided in this document should not be in lieu of consultation with your physician, doctor, or other health care professional. Pascas, nor anyone associated with this document, does not assume any responsibility whatsoever for the results of any application or use of any process, technique, compound or potion as described within this document.

The sources of contents are noted throughout the document. In doing so, we acknowledge the importance of these sources and encourage our readers to consider further these sources. Should we have infringed upon a copyright pertaining to content, graphics and or pictures, we apologise. In such cases, we will endeavour to make the appropriate notations within the documents that we have assembled as a service via our not for profit arm, to our interested community.

We offer all contents in love and with the fullness of grace, which is intended to flow to readers who join us upon this fascinating journey throughout this incredible changing era we are all experiencing.

## What is Light?

Monday, 23 April 2018: Questions from Graeme:  
Good morning James,

I'm now finding that the more I read the more I gain a deeper understanding of God's magnificent creations – including you and me! But I'm also wanting more answers for my inquiring mind.

And the question that is foremost in my mind is, "What is light?"

The term is used in so many different contexts. God's Divine Love comes to us through the Holy Spirit and enters our soul as light?

When Jesus appears at the big celebrations in the spirit world He enters in brilliant blue light. When we ascend into the higher realms the light is more "intense" for spirits in the lower levels?

When Verna describes the music of the flowers she describes the symphony of light she sees, not the sounds. When the Angels assist us and "repair" things in our bodies they use light. When Nature Spirits and Angels ascend to Paradise they do so in Mind = Light?

Why is the book called "Paul – City of Light"?

Then this morning I read, "This is the Trinity, which is at work within us. The universes, just as we are, are composed of many such trinities, the relationship between light (mind and spirit), truth and love."

So would it be OK to ask Verna and/or Nanna Beth about light? Thank you James, and I'm thoroughly enjoying Paul – City of Light. Graeme

James: I'll have a go at answering your question Graeme, and then I'll ask them. For me the Light is Creation – there, that's simple enough, is it not? It's all a part of what we were talking about regarding the flower essences. We incarnate into a world of light. Our sun lights our world and it's the main source of life. And so Paradise is the 'Sun' of Creation, a massive Source of Light. So from that Light comes all Creation. And that Light itself comes from Soul, the Mother and Father's Soul, just as the light of our personality expression, all we create in Creation, comes from our soul.

So what really is this Light, Soul-Light and Creational-Light? And I think that's part of the sixty-million dollar question that the whole of Creation is trying to find the answer to, that one day, something like at the end of eternity – ha, ha, we might get something of a glimpse into.

I mean, how mighty are our Heavenly Parents? And then to understand there are evolving God's coming into being, like the Supreme Being, as a result of all the light that is lived and expressed by all of current Creation.

So Light I guess is what it is – Light, which is for us all to define in our own ways. For me it's the substance that sustains us all. My soul is emitting light into Creation expressing me, one of its 'halves', and all I do produces light, which goes into what makes Creation. And light is particles that can be measured, having frequency, sound, size, weight, wavelengths and so on, big and small. And there are a

range of lights available to us on this physical world, like what you're interested in with the flower essences, and then each dimension, if I can call them that, of spirit, all the way to Paradise, has its frequencies and unique expressions of light. And there are the over all, all-pervading greater lights coming from the Divine Minister in our local universe, up to the Infinite Daughter, the Eternal Son, the Mother and Father. And then all the lights of the angels and mind-created beings, and all the soul-lights from the personalities of truth, like ourselves.

So it's all a play of light. And certain of us are attuned into different aspects of it, so the nature spirits and angels seem more on the actual light itself, whereas some of us perhaps someone like yourself who might be able to hear light as music, would be more attuned to the sounds of light. I personally like the colour, the colours of nature being the best light, I get only a fraction out of music and most sound I find annoying, and I only like the colour put together in certain ways, so only certain art. But I know that music would affect me much more, only the sort of music I really like isn't available here on Earth.

So light is a word to denote energy I guess. That which makes us up, that which gives form to Creation. It's interesting reading Barbara Ann Brennan's work because she talks about being able to see into the various causal planes I think she calls them, in which it's all in the negative. So something happens in them which then gets projected or turned into the positive which we see, not unlike how old picture processing works. And it's all done with light.

Light is an easy way out, just say light and it sounds like you know what you're talking about. Paul and the City of Light really just means, Paul and a City in spirit that is of a higher light than Earth, so if we could see it, it would look brighter and of more light. And so those people of a higher level of truth are emitting a higher light, the Celestials are that much brighter because they are of a higher vibration – more light. So put a Celestial next to someone of the lower Earth plane level of relative darkness, low light and low truth, and the Celestial is so bright it's like looking directly into the sun, they are so bright they are not even there, or so it would seem to the lower light spirit, yet to another Celestial it's just normal.

Jesus comes and gives periodic demonstrations of his light – and why not. He 'lights up' and displays the light of the truth he has within his soul. And wow, how impressive is he! And then as happens in Paul, he can lower his light so that Paul or another spirit doesn't feel impressed, doesn't see the truth that he really is, wouldn't know it was Jesus, Jesus being incognito. And if Jesus came to our world or the lower Earth planes and fully lit up, allowing himself to be in his full greatness, his full expression of all the truth that he is, the full expression of the majesty of his mighty Creator Son Soul, and if he were to come and do that with Mary being her full light, we'll it would like bringing the blazing hot sun down to Earth and frying everything into nothingness.

So the light has a strength to it, a force, a power, it being the power of the truth that we are – the power of our feelings really; or the power of the mind that angels are. So our angels use their mind to manipulate what might be called thought, a series and sequence of energy, basic energy particles that they bring together as light, being able to do things with these light creations in our light bodies – our auras. So the angels can alter anything because everything is of light, whereas we can't, we don't work with the mind like that, we being only of truth.

And so there is a constant interplay of light between the Truth (feelings) and the Mind. We have it

within ourselves, and then we have it in our relationship with the angels, and no doubt they have their version of it within themselves. And that's the interplay between the ES and ID, all under or within the Divine Love, yet another expression of Light, which is our Mother and Father.

Nanna Beth, 3<sup>rd</sup> Celestial Heaven: Light for us Graeme is the Light of our Soul. It shines forth from us and makes us what we are. We have experiences that create light, with that light then affecting our soul, which sends forth more light, giving us new experiences and effectively changing us from one experience-moment to the next. And then as James has said, light is everything else.

Verna, Nature Spirit: Light for us beings of Mind is an extension, or as you would say, and expression of Mind. We Mind therefore we Light. We are Light first and foremost. We can attune ourselves to the various attributes of light – sound, colour, vibration, pattern, sense and so on, and we delight in all the aspects of light we live and how they differ from you. You live – express, the light of your truth, the truth of your soul, differently to how we radiate the light of our minds. We understand you with our mind, but you are yet to understand us with your truth. Light is what it is all about. Light – nothing more needs be said.

## New Cosmic Light:

27 September 2011

Extracts from 'With Verna – a Nature Spirit' by James Moncrief

There is new cosmic light coming to Urantia (Earth) from Paradise, being stepped down in universal harmony through Nebadon; and certainly there is new soul-light being emitted from every soul on the planet, but as to how people choose to react to all of that is a personal choice, and many will fight their natural desire to seek the truth and so heal themselves, choosing instead to keep going in their negative states. And for such people, some will be relatively successful at doing it and keeping abreast of the increasing 'lights', others won't be so successful, failing and then succumbing to their bad feelings. And many will go to their graves feeling very bad about life; other's will want to know why they feel so bad so often, and honour their bad feelings and start looking seriously for the truth. But overall, increasing inner and outer pressure will be brought to bare on humanity as it moves through the next age. A certain level of collective consciousness about it's negative state, and a certain level of desire to heal humanity's evilness needs, both personally and collectively, to be achieved by the end of the next age; and as all things are perfect, it will be.

Everyone at their conception gets their angelic pair as well, just as I did, and they will be with you right the way to Paradise and then possibly beyond too. So it's a wonderful relationship, we have our soulmate and our angel pair each, all the way with us. It is all amazing.

## **MAN and LIGHT:**

On the 2 July 2007, Monday evening, John had, what seemed to be an out of body experience – which was a visionary experience, part of what he reported was:

“The speed of this travel was at such a rate I could see light fall away from behind me. I never considered light to go so incredibly slow. When needing to change course, I did not experience any G-force. There was no feeling of gravity.”

This graphic to the right was a representation of what he could see with his spirit body vision during that experience.

Nuclear Engineer Mehran T Keshe has now published a series of books scientifically detailing the elements of light, which is plasma, and how light is fundamental to our life and our life experiences.

**REFLECTION:**

Notes from: 'The Structure of the Light' by Mehran T Keshe

Light has a plasmatic structure like the plasma of the proton and electron and it is made of a mixture of magnetic field strengths, with the difference that light has a dynamic composite magnetic field strength plasma structure of spiral helixial cylindrical composite matters magnetic fields (mafs) instead of a dynamic spherical composite matters magnetic fields (mafs) structure like the plasma of neurons.

**PLASMA:**

The magnetic and gravitational fields of plasma combine with other plasma. They group together to create minute things, all the way through to creating galaxies. Our thoughts are projections of plasma. Love received is plasma.

Every cell in our body has a plasmatic magnetic field. Our whole body has its own magnetic field. And so it goes on, and on....

### PLASMA:

The three aspects of plasma present themselves in an ever variable degree of concentration and variation.

Matter plasma creates the physical.

Principal matter, antimatter is the energy aspect and the predominant energy of everything that exists.

Dark matter, transition matter restricts light, though transparent, a result is darkness and lack of vibrant energy.

Plasma, in its complete form, is the building block of all that is, however, there appears that there are even finer and even more incredible substances.

A plasma element may be dominated by its Matter aspect, thus being seen as physical matter.

Or it may be dominated by its Principal Matter / Antimatter aspect thus conveying an abundance of energy and love.

Or it may be dominated by its Transition Matter / Dark Matter aspect thus conveying darkness and a lack of love.

Newton's apple has different types of plasma of magnetic fields and plasma matter magnetic fields.

Conversion of the spherical plasma of a neutron into a cylindrical ray of light. Light, in this detail, is clearly visible to one who is in their spirit body, that is, whilst out of body one can see the end beams of light as described here by Mehran Keshe.

**STAGES of MATTER:**

**Matter becomes finer and finer and more incredible within each phase:**

### **SPEED of LIGHT:**

The speed of antimatter / principal light is far higher than the speed of light in man's matter plasmatic magnetic field (pmf) strength environment.

It is *possible to attain speeds faster than the speed of light* in a matter magnetic field strength environment by using the magnetic fields properties of the antimatter plasmatic fields.

The plasma of principal magnetic fields (mafs) matters exists everywhere in the universe, in the centre of the universes, galaxies, stars, planets, plasma of proton and even in the centre of the plasma of the electron and in the lower order plasmatic magnetic fields (pmf) strength environments which have been undetected up to now by man.

In reality in the centre of what is called a black hole in the universe, there is the home of the principal mafs (magnetic fields) matters and principal matter. Therefore black holes should be called principal stars in the centre of galaxies, stars, plasma or protons and other entities like these. Matters refers to all three of principal matter, transition matter, and matter which form plasma.

### **LIGHT:**

Light is not energy but a physical plasma entity like the plasma of a proton or an electron. Therefore it is the interaction and magnetic and gravitational fields (Magravs – magnetic referring to the plasma of magnetic fields created by a dynamic entity as for example referring to the magnetic field of the Earth) positioning of two physical dynamic entities that leads to observation of what is called the bending or lensing of the light near large objects such as a star.

**Golden Rule: that one must always honour another's will as one honours one's own.**

Therefore as light tends to react and bend near objects, like stars, this by itself indicates the important point that light is a composite magnetic field based entity and in order to attract and interact with any other composite magnetically based entity, then the entity has to have both Magnetic and gravitation field forces.

Hence the interaction of the plasma of the light and its environment's magnetosphere leads to the release of plasmatic magnetic fields (pmf) in the human protein Magravs (magnetic and gravitational fields) strength, which manifests itself as visible light.

That is to say, as the magnetosphere of the light interacts with the magnetosphere of its given environment, due to friction of the two fields, residual magnetic fields are created and manifested as visible light or other wavelength of magnetic fields according to human eyes' protein cells plasmatic magnetic fields strength levels in the magnetic fields condition of the Earth environments and in comparable environments.

**Spirit body as it is frequently observed reflecting the ambience of the soul.**

**A spirit person can travel through space at great speed, far faster than the speed of light. Is that because it creates its own magnetosphere space around itself and travels within the secure environment of that space? Mention of travelling within a Merkaba has often been referred to.**

**Possibly the Merkaba is the magnetosphere that spirit people create around themselves when travelling.**

### The STRUCTURE of the LIGHT:

This dynamic elongated cylindrical plasma once in motion due to its new shape can penetrate and move faster in its environment as it has less frontal interface and creates a lesser friction than if it was spherical in shape, allowing faster speed to be attained by the plasma of light in transit from one matter magnetic field (mafs) environment to another, irrespective of whether the plasma matter mafs of the light are in the principal mafs, transition mafs, or matter mafs mediums plasmatic magnetic fields (pmf) strength environment.

This internally dynamic cylindrical plasma of light in its motion creates friction between itself and the Magravs (magnetic gravitational fields) of its environment, which at the point of interaction of the two plasmatic magnetic fields (pmf) Magravs at this interface releases plasmatic magnetic fields that are in the magnetic spectrum detectable in man's protein plasmatic magnetic field (pmf) strength. Through the biological structure of the protein pmfs strength of human visual sensors which can detect this interface interaction pmf strength, these sensors become aware of different pmf strength, its position and condition, and this information is passed to the brain. This method of interface interaction of two Magravs of the rays of light and human protein has become the method for man to be aware of his physical surroundings in his environment plasmatic magnetic field (pmf) strength, and man has called this matter interaction conditioned wavelength the light ray.

The light ray in its interaction with the surrounding magnetic fields in their environment leads to creation of magnetic fields in the range of light visible to man according to the human protein pmf strength of the universal Magravs spectrum, and the shine or the visibility of the light observed arises at the boundary of the magnetosphere of the plasma of light.

Hence the light by natural laws of magnetism possesses mass and a magnetosphere, although not all light rays have the same mass and by the same laws and principles light rays of different intensity and those that can travel longer distances possess a larger mass. Their mass is primarily dictated by the strength of the plasmatic magnetic fields (pmf) of the magnetic fields (mafs) of the principal magnetic fields of the light's components.

Where the plasma of the light gets attracted and absorbed it takes the shape of the matters in the target entity environment as the content of the plasma of the light gets added to the plasma of the target environment and the target entity receives an additional dynamic plasmatic magnetic field of all mafs of the matters of the light. In other words, the target plasma receives additional energy from the plasma of the light.

The light transfers all the mafs of all its matters content to the targeted plasma, then the whole pmfs matters of the plasma of the target plasma increases and then the whole plasma shows signs of increase in plasma content and for example the whole atom structure gets energised.

This is the same as when the plasma of an atom receives an injection of a ray of light and the whole proton and electron get excited and energized, not only the matter components of the plasma.

Note: The plasma of an atom as the whole structure of an atom including its neutron, proton and electron creates its own magnetosphere and it can be considered as one plasma containing plasmas of these particles.

The electron due to its lesser mass shows a more rapid motion and excitation, whereas the plasma of the nucleus absorbs most of the light mafs and adds this to the total mass of all its matters.

If the protons of the nucleus magnetosphere are measured before and after interaction of the light with its atom's magnetosphere, it can be observed that there is a marked increase in the magnetosphere size of the plasma of the proton too, indication that the whole atom absorbs all matters mafs of the light and not only the plasma of the electron, which moves and takes a new position with respect to the proton's Magravs.

The cylindrical structure of the light converts into a spherical plasma and hence the light converts into a tangible spherical matter, and all its matters content fuses and amalgamates with all matters of the same in the new target plasma environment.

The reversal of the helixical motion and cylindrical plasma of the light to the spherical and rotational mode of matter is entirely dependent on and due to the environmental plasmatic magnetic fields strength where the light arrives and it is dependent on the tightness or strength of the magnetic fields of the destination environment.

In this process of pmf (plasmatic magnetic fields) travelling from one point to another in the universe, as the fields of the mafs of transition matters have faster speeds than the matter mafs fields of the light, when the light arrives at the point of its destination where it is to release and convert its fields to the given environments of other plasmas, the conversion from matter mafs to matter fields strength leads to

the creation or release of plasmatic fields in the soft x-ray range, which is the essence of creation of life, and in other magnetic fields strength of magnetic spectrum levels.

In most cases when the light has enough mixture of mafs (magnetic fields) of different strengths, these rays upon their arrival in a given environment convert directly into the complex plasma of a fundamental plasma or what is known as the plasma of the neutron.

In most cases when the light has enough mixture of mafs of different strengths, these rays upon their arrival in a given environment convert directly into the complex plasma of a fundamental plasma or what is known as the plasma of the neutron.

At the same time a collection of smaller fragments of the light's plasmatic magnetic fields arrives at the point of destination, and due to the vacuum level of the environment go through the process of accretion and they create or lead to creation of the fundamental plasma (neutron) in their new environment.

The structure of an atom is due to the total conversion of the light ray's components and the ray of the light does not go through neutron decay conversion for the light to become an atom.

In principle, rays of light get their strength from the inner plasma of their principal mafs rather than from any other part. This is the reason why **light seems to be an energy rather than an entity with mass**. In fact light is a composite of plasmatic magnetic fields of different mafs of matters fields strength and **light is not a single magnetic field structure**.

Thus mafs of matters are transferred and transported in the universe through the mechanism and the use of the plasma of light, and when for example the Magravs (magnetic gravitational fields) of light reach the matter environment they become slowed down enough to reach all content matters' Magravs strength levels. The surplus that is released by the light pmf then becomes the pmf that the targeted pmf receives as additional pmf, or in other words, **it receives energy from the pmf (plasmatic magnetic fields) of the light**.

**The reason why matters can feel the force of rays of light is primarily the momentum of the mass of the light itself and not through absorption of its energy.**

Visible light is only released when two Magravs (magnetic gravitational fields) of different strength collide and when two pmf (plasmatic magnetic fields) of the same strength interact, very little pmf are released in these encounters between compatible pmf strength entities and environments because the interaction of similar pmf leads to and creates very little friction between the pmfs of the light and the environment, hence these interactions release very little light and this is the reason why in the universe, the interaction of the transition mafs of the light rays with the transition matters of the universe creates very little light or a dark light or what can be called the transition translucent light and not a bright visible light, when one looks into the deep cosmos.

The invisibility of the travel path of the ray of light through deep space is in fact due to its ability to change its outer layers according to the environment that it travels through.

When light enters or comes into contact with a plasmatic magnetic environment such as that of the Earth, the interaction of their two dynamic cylindrical and spherical Magravs creates fragments of plasmatic magnetic fields that are in the range of man's protein Magrav's strength so that man's sensory detection tool called the eyes can recognise the interface of the interaction of the two Magravs as visible light.

Light in truth is not one magnetic ray but it is made of a complex of plasmatic magnetic fields of different strengths.

As for the visibility of the light at this point, on the Earth and for the human body, this is dependent on human protein chain maf's strength. It becomes visible to the human eye in the Magrav's strength of the planet's gravitational field and the light appears in matter pmf's strength and as tangible or detectable matter.

The absorption of different rays of light in the universe is environmental dependent and it can be said that the lower maf's strength of the principal matters of the mass of a light ray can become the **seeds of neutrons** or it can be said that the principal maf's of the light as it arrives in a matter magnetic fields strength environment becomes dynamically spherical in structure and then becomes the seed of the creation of a neutron. Hence one can understand how energies, which are defined as "the plasmatic magnetic field in motion", convert to matter in a given Magrav's environment. On its arrival in a given environment each maf's of matters field strength component of the light can then become the seed of one of the components of maf's of the matters of different plasmas.

Then as the matters mafs **unwind** and interact they reach a Magravs level and position **where new plasmas of the sub-components of the atom are created.**

Interactions during the unwinding leading to creation of new maf's and matter.

The reason why giant planets exist and possess most of the gases at the outer boundaries of the solar system is the fact that these gas planets continuously absorb all the freshly created atoms and molecules of the gases and gans that are produced by the **transformation of the light rays to these atoms**, hence these gas and gans atoms and molecules get attracted and pulled around and held or captured by gravitational Magnetic fields and get positioned, for example, in the rings of giant gas planets according to their Magravs (magnetic gravitational fields) strength and Magravs positioning.

Gans: a new state of matter; a molecule of a gas (GAs) which becomes Nano of itself and appears as Solid state of matter: GAs to Nano of Solid and to be called GANS for short.

The collection of ice particles and solids in different rings in the planetary or solar system is primarily due to magnetic fields of static inertia of these objects such as asteroids, and additionally due to Magravs positioning through the Magravs of the gans matters' interaction with the planet or solar system Magravs strength and due to the strength of these planets' fields nearest to the Kuiper belt and Oort clouds.

Thus the light rays of the star are the feeders of the star, planets, meteoroids and asteroid as they rain back inwards into the heliosphere over time and as the star's strong gravitational fields pull every matter and matter mafs in its system back to itself.

Therefore, the light emitted by the star becomes one source of the material which are returned to the star matter for it to carry on with its everlasting existence.

### **The CONVERSION of LIGHT RAYS to the GANS of MATTER:**

The **gans** (GAs Nano Solid) **of matter** is the **state of matter where the atomic gas of matter becomes the single solid atom of itself** or what we have call ‘the gas in nano state of matter’ (in short “gans) of the same element. The gans of matter is internal gravitational and Magnetic field strength dependent and at the same time where the gravitational and Magnetic fields of the matter **are stronger** than its environment Magnetic and gravitational fields strength.

If one pinches one’s flesh or skin, what one holds within the fingers are **gases of oxygen, nitrogen, carbon and hydrogen in the gans state of matter**. Otherwise the body of man would be a balloon of gases and not in the state of matter as one finds between one’s fingers.

At the same time the energy transfer to the already existing cell is due to the transfer of pmf of mafs from one cell of gans of lymph to the existing cell. By the same measure, as the cell uses its appropriate mafs and is left with a wrongly measured amount of mafs for its use, the cell transfers these pmf of mafs to the blood cells for their removal from the body’s systems. This is the reason why for example one does not find residues of urine in the blood, because as the blood passes through a different dynamic gans molecular structure than the kidney, the wrongly measured mafs in the gans blood cells are reconstituted as liquid and appear as urine in the walls of the bladder.

Gans can be consider the **fifth state of matter**. Possibly the next-best purest superconductor and resistor materials of the future.

This condition of gans of matter comes about at ambient temperature and pressure when due to the internal gravitational and Magnetic fields strength of the atom. The atom’s physical appearance changes and the atomic structure of the gas changes to a compact configuration of the solid. The atom of the same gas becomes and behaves like a solid but with totally new properties and characteristics which were never known when the atom was in its other three initially known states (gas, liquid and solid).

This conversion of the light rays to a solid state occurs in the outer regions of the solar system(s) where the gravitational field forces (vacuum) are low and the temperature has no effect on the internal motion of magnetic fields that create this solid state of matter. Then the ray becomes and appears as gas and in a given condition manifests itself as the nano structure of gas (or what is called “gans”) in the same environment due to the atom’s own internal Magnetic and gravitational fields configuration and not due to its environment magnetic fields.

This difference between the state of gans and gas of an atom is the same as between the mass and the weight of an atom respectively, where mass is due to internal atomic interaction of fields of the atom and irrespective of external field forces, while the weight is due to the environmental magnetic fields’ effect on the outside appearance of the same mass.

Humans are familiar with the gans of the molecules and atoms as integral constituents of their own tangible body, where gases at low internal vacuum condition of the body convert gasses into gans or the soft individual solid atom state, but up to now the scientific world has never considered this state of matter, they just dismiss for example the presence of carbon in the protein chain or in the matter of a cell or as part of the structure of a sugar in a leaf and so on.

That is to say for example, when an atom or molecule of a hydrogen gas, which was created from the ray of light, is absorbed by the human body then this gas of the atom changes to the gans of the same atom, and then through the accretion process in the vacuum condition of the human internal operation, this gans particle according to its Magravs strength becomes part of the molecular ganses of the N-C-O-H protein chain of the human and that is why the human body becomes a tangible entity. In the creation of the solid gans in the atom of the gas of the atom, this process in itself is due to the accretion process of all the fields of the mafs of the gas atom itself.

If this change of state of light to gans did not take place, the human body would be a balloon of gases and not solidly tangible with arms and legs and so forth.

In fact light rays in becoming the gans (GAs Nano Solid) of matter then become the source and the cornerstone of creation in all matters levels of the universe. As light changes to atoms and gans, in the right environment, for example, 1G (gravitation field strength of the Earth) as on Earth then the collection of atoms as the molecules in the gans state of matters leads to the creation of beings from single cells to the complex combination of the human body.

Life on Earth is the natural product of the motion of light and its conversion in the internal activity of this planet and solar system.

Life is not and shall not be the exclusivity of this planet and this solar system, which is evident once one understand the principle of creation and motion of the light rays in the universe.

Thus when the transition dynamic helixial cylindrical ray of light slows down in a given environment Magravs strength, this leads to the creation of specific matter in that given Magravs (magnetic and gravitational fields) strength environment.

The water in the solar system is generated by the recycling of the light rays of the Sun itself and by no other source. Water is not the exclusivity of this solar system and is a product of the light rays of the universe in the matter environment.

It is important to realise that all gans have magnetic properties, with the difference that oxygen is one of the few common magnetic materials in the solar system and in most of the universe needed for breaking down the light itself to lower level strength, which can lead to the creation of intelligent life. In some solar systems and galaxies, the pmf strength of the gans of the matter of oxygen is the common magnetic element and the reason why all matters' existence is dependent upon the availability of this matter in the pmf of the environment.

In living bodies in possession of systems like the lungs and gills of fish, the light changes to a molecule of oxygen and is inhaled to keep them alive. In these systems, contrary to present belief, the atoms and molecules of oxygen will never cross the boundary of the structure of the lung or be absorbed by the blood as has been thought and promoted by the scientific world. The fact is that in the process of inhaling or in the case of fish by passing the water through its gills, the atoms of oxygen simply pass a limited value of their matching plasmatic magnetic fields strength to its matching oxygen atom of protein of the blood cell so that the blood cell gets what is commonly called oxygenated in the lung. In

reality no oxygen atom or molecules ever pass the walls of the lung as has been assumed, the oxygen atom transfers its pmf (plasmatic magnetic fields) to the blood's oxygen atom in its protein and then this pmf is carried through and by the same principle, the pmf from the oxygen of the blood protein cell is passed on to other oxygen atoms ganses in the protein chain of other cells in the human body as they come across their corresponding mafs (magnetic fields) strength protein in the blood.

The oxygenation of the red blood cell is primarily another quantum entanglement of the same matching matters strength or entanglement transfer of adequate amount of pmfs to a specific cell of the matters of blood.

The notion that oxygen atoms cross the walls of the lung is so far from the reality of existence as saying a man can walk through a solid wall. This fallacy has been the consequence of the lack of understanding of the real structure of oxygen and its origin in the structure of the light. The matching plasmas of light and atoms can and frequently do entangle and transfer their pmf (plasmatic magnetic fields) up to the level of their mutual strength so that existence can be guaranteed in one form or sub-structure of the same and without the plasma of an actual solid atom crossing the boundaries of the lung.

In fact the red cell is energised through transfer of the pmf of the atom of oxygen and not by the actual transfer of the crossing of oxygen into the blood stream. The brightening of the red cell passing through the lung is like a variable light switch, where as one increases the current through the light fixture the light shines brighter. This is the same process and the same way in which the red blood cells receive the pmf of the oxygen, then the blood becomes brighter or richer in pmfs (plasmatic magnetic fields). When the blood cell transfers its pmf to the appointed cell in the body the pmf strength of the blood cell is reduced in energy and shines less and is dimmer or looks darker as it returns to the lung to be recharged. Man has a lot to learn first about his own body before he can conquer the universes.

The plasma of the light is the basic and common magnetic matter in the universe.

The plasma of the neutron which is created by the conversion of the light ray is the common magnetic matter of the solar system and not atoms of iron, and in reality the light of the Sun and its Magravs (magnetic and gravitational fields) dictates this property of this mafs of matter.

The process of creation and recycling of the light through the full circle of its existence from matter to light and from light back to matters.

The state of gans (GAs Nano Solid) of matter can now explain the truth of life in the universe and this opens new horizons in the world of energy, new materials, production of more natural components of human body parts, production of new medicine and new types of food processing technology that eliminate the need for present farming processes to feed the populations, as protein can be produced from the content of the light or the mixture of composition of light magnetic fields (mafs) in the gas to nano of solid (gans) stat of matter which can lead to the production of solid matter like fresh meat and/or composition of dairy milk and so forth. Thus through the production of gans, dependence on extensive farming in space becomes irrelevant. In deep space by absorbing weak residual mafs of the light and in bringing them together through accretion, then producing the gans of the fundamental plasma, then producing the gans of the fundamental atom, and then through accretion creating composition of ganses of protein, once can produce any food in the span of the universe directly using the matters of the light.

The source of all entities, tangible or not, is magnetic fields and the interaction of at least any two magnetic fields of any strength can lead to the creation of all other effects and matters that are observed in the universe.

Thus the magnetic field is the unifying field and the mother and the seed of all created and creation in the universe, thus the magnetic field is the Holy Grail that the scientific world had been searching for to connect all fields and effects observed in the universe.

### **The LIGHT and its PLANETARY INTERACTION:**

The interaction of different lights of different matters (principal, transition, and matter) can be utilised to create the appropriate magnetic fields and currents and gravitation field forces as is needed for any purpose. This concept of interacting lights is the way that food and energies from the right light mafs (magnetic fields) levels can and will be produced in deep space travels of the future, as one can take the right components and amounts of the mafs in matter field strength needed of any required levels of mafs for nourishment of man's physical body, without man actually eating tangible food.

This conversion and absorption of light rays is in fact what plants and animals do in the Earth environment as they absorb specific plasmatic magnetic field strengths of the light spectrum and due to their atomic and molecular Magravs (magnetic and gravitational) fields strength they create a measured vacuum condition within their structure for transformation of a given pmfs strength of the light to be converted to gans of the mafs in the structure of the plants or animals. These ganses have Magravs equal to Magravs strength of minerals or vitamins levels that the plant produces or the animal needs for existence in a given environment. Understanding the process of production of minerals and vitamins and how light is and can be converted to gans (GAs Nano Solid) in Earth's atmospheric condition will allow the production of the same matters and vitamins by use of the light matters' structure in conjunction with using a simple dilution Magravs positioning reactor anywhere in the universe.

For example, man by eating a given plant absorbs that spectrum of the fields transmitted and absorbed from the spectrum of the light mafs of matters fields for specific use in a specific protein in man's body, and now man has the knowledge to produce the same proteins and minerals from the light rays without the need for plants or animals as an intermediary conversion tool for this process.

In Earth's atmospheric Magravs condition herbs absorb pmf of the higher strength of the same light as normal plants do and the meat can absorb the complex strength magnetic fields of the light. The structure of herbs pmfs attraction and storage is more dependent on the pmf emitted by the light spectrum from the Earth fields as the fruits store most of the light spectrum which enter into the atmosphere from above and that is why each entity has different mafs strength storage and conversion capacity and capability. The same light from space in different distance and interaction will the magnetic fields strength of the light of the Earth leads to creation, storage and production of different pmf spectrum of the light by the same plant and animal DNA.

The ray of light in its entry into the magnetosphere of the Earth and the interaction of the two Magravs leads to release of specific characteristic rays of specific magnetic fields strength, so that this ray through a special process with the hydrogen atom leads to a specific division of energy that can sustain life on this planet.

The rays of light at any strength of its mafs at their entry into any dynamic plasmatic environment have the ability to lead to, or through conversion process cause, the initial chain of reactions needed for the start of life and then the matters produced use the light itself to further create more cell-like beings and then the ray of light's conversion in these cells leads to final step where the light ray becomes a creature like man. Then using light rays and its products man gains intelligence and the intelligent body at this stage acquires its magnetosphere and Magravs or what is known as its spirit body and soul.

**The USE of the PROPERTIES of LIGHT for SPACE TECHNOLOGY:**

**The interaction of atoms and even of the emotions (which are complex, vibrational and rotational based) can be transported from the matter of one atom or light to another across the universe using light entanglement technology.**

In fact, this is how dreams in the inner sanctum of the human brain are created and take shape and give man the image of seeing and communicating even with people they have never physically met or with other Magravs of other beings who in their time of living in that given environment the Magravs of the dreamer and dreamed of have been exposed too.

Light entanglement is a real and correct physical process, where certain cells within the inner brain or thought control systems of the living being have the ability to operate within these pmf mafs strengths and this is the natural part of the operation of the brain of the human beings that the scientific world has not managed to unravel.

In fact the light entanglement communication method called telepathy is the easier way of communication than using the ears or other method of listening and talking and the place for this system is in the inner parts of man's original main brain structure.

*Emotions are Things.....*

### **INSIGHT into the FUTURE USE of the STRUCTURE of the LIGHT:**

If light did not and was not made of the structure of three mafs (magnetic fields) of matters (principal, transition, and matter) then the light would not possess its own gravitational and Magnetic field forces and for example, the light from other stars in the universe would never have been able to reach the Earth as an individual magnetic field due to the characteristic and properties of the magnetic fields interactions and gravitations, as through magnetic interactions all these rays of light would have been absorbed by other magnetic fields and gravitational fields in the universe and the light would have never reached the far distances of the universe. Hence the light as a physical entity which is similar to other physical entities such as the proton, electron, Earth, and the Sun, and the light being in possession of both Magnetic and gravitational fields, the light ray has to find its position with respect to any other object and pmf (plasmatic magnetic field) in the universe as it passes these entities in the universe, and hence in its travels in the cosmos the light ray has to find its Magravs (magnetic and gravitational fields) positioning with respect to them so that this allows the light ray not to be absorbed but to go around these objects. Hence the reason for the physical observation of the lensing or the bending of the light near these objects as the light passes large and strong gravitational objects is purely due to its Magravs and its positioning with respect to these entities in the universe.

Therefore the lensing of the light is the confirmation of its existence as a dynamic composite magnetic field strength physical and tangible entity in possession of Magravs (magnetic and gravitational fields), and light is not a ray of magnetic field in motion nor as has been said that light is an energy. However, the plasma of the light ray in motion can transfer its Magravs (magnetic and gravitational fields) to other matters and thus has the ability to transfer its momentum to other matters and mafs (magnetic fields) as energy.

Hence due to the fact that the light possess both Magnetic fields and gravitational fields and in line with the laws of physics, when the gravity and the Magnetic fields interact, their interaction leads to the creation of an entity in possession of its own mass and its own magnetosphere, the interaction of the light's magnetosphere with the magnetosphere of other objects due to their friction leads to release of residual magnetic fields in the matter magnetic field strength level of human protein, which makes the point of interaction of the two Magravs a detectable pmf (plasmatic magnetic field) field or what is

called visible light to the human eye and its tools and methods of detection of pmfs (plasmatic magnetic fields) in this range of field strength, out of the full magnetic fields spectrum of the universe.

The conversion of the dynamic spherical pmf into a dynamic helixial cylindrical ray of light and its conversion back to a dynamic spherical plasmatic magnetic field (pmf).

The motion of the dynamic spherical plasma of magnetic field as it travels from one point in the universe to another causes and leads to elongation of the dynamic spherical plasmatic magnetic field (pmf), hence the restructuring into a dynamic cylindrical plasma ray of light, and as this plasma of the ray of light reaches the right plasmatic magnetic field (pmf) environment strength so that it slows down enough or loses its strength, at this point the cylindrical plasma restructures back to its spherical structure and leads to the creation of plasmatic magnetic fields (pmf) of matter mags and matter in a given matter pmf strength environment. (Matter refers to the matter element of plasma, whereas matters refers to all three elements of plasma, namely matter, principal / antimatter, and transition / dark.) Hence light has the same structure as the pmf of any other plasma known to man like the plasma of the electron and proton but in elongated form rather than the presently known dynamic spherical shape of tangible matters.

At the same time the plasma of the light in its travels in space can become visible according to the plasmatic magnetic fields of the environment which it travels through and according to the observers' plasmatic magnetic fields strength which in the case of humans is a living Magravs (magnetic and gravitational fields) protein molecule structure.

Different proteins have different plasmatic magnetic fields (pmf) strength for different creatures in the span of the universe, hence what is visible light to one creature in one point pmf strength in one part of universe does not mean that to another protein Magravs (magnetic and gravitational fields) strength in the same environment this can be visible light too. Hence what is visible light in principal matter or mafs strength will be detectible or visible in the transition mafs and matter and in the matter

mafs world in a given matters' magnetic fields environment according to the environment and to each mafs and matter in the binding Magravs of the structure of the observer.

**SPHERES: KINGDOM of MAN – SPIRIT WORLD**

The first 7 spheres have logical and clearly defined end points both at the 6<sup>th</sup> and 7<sup>th</sup> spheres. Therefore a sequence of numbers is useful as a reference. Within each of these lower spheres there are many stations or sub-spheres so to speak through which beings move. There are barriers preventing movement from one to a higher one until the necessary changes have been made. The 6<sup>th</sup> sphere is the ending point for those who are following what has been referred to as the Natural Love Path.

There exists a barrier between the earthly levels and the spirit levels and this is largely man-made. This barrier has been built on fear and is made of belief.

**Spheres:**

**7** The 7<sup>th</sup> sphere is the transitional stage between the lower spheres and up into the Celestial Realms.

**6**

**5**

**4**

**3**

**2**

**1**

There are barriers within the structure of the spiritual realms which constrain beings until they are fit to make the move to a higher level. This is not in anyway competitive or subject to examination but is to ensure that the being concerned does know what they need to know in order to function at the next level. The transition, when it happens, is totally smooth and natural and dependent of the level of knowledge of the being.

**KINGDOM of GOD – CELESTIAL REALMS**

Above the 7<sup>th</sup> sphere we enter into a greater awareness of infinity.

Why attempt to number infinity?

There is a much less clearly defined system of Celestial Spheres with what we could call a blurring of the edges.

Each of us who are within the Celestial Spheres knows who he or she is and knows what we can do. That one might be a little or a lot further along the path makes no difference to the mutual love that we feel or the level of co-operation that is found in every endeavour. If one is further along, that one is then committed to helping all others to come along. There is absolutely no sense of competition. That was left behind long ago.

(Spirit people have difficulty in seeing physical people. That is, a discarnate, being a person who has left his physical body resulting in the death of the physical body, can see the spirit personality of a living human being, but has difficulty in seeing the physical body of that person. As a spirit person progresses up through the spheres, he / she becomes invisible to those in the lower sphere from which the spirit person progressed from. Even though there are many planes within each sphere, the delineation between the spheres is very precise. A spirit person can visit lower spheres and make themselves visible to those within the lower sphere, however, it is not possible for a spirit person to visit a higher sphere without the assistance of a spirit person from within that higher sphere for a short time only.)

The plasma of the light has the ability to present the magnetosphere around itself according to the pmf strength which it is passing through, thus it is the environmental pmf (plasmatic magnetic field) strength which decides the outcome of the magnetic fields (mafs) of the matter of external layer of the plasma of the light and the final presentation of the light in a given environment.

The plasma of the light reduces its losses in its plasmatic magnetic field (pmf) of its matters (matter + principal + transition) and at the same time is able to encounter less resistance in order for it to be able to travel through the same plasmatic magnetic field (pmf) strength and have less or no losses, because the light ray has the ability to change the cover mafs and matters of its structure. Thus it is inevitable to consider and conclude that the light like its larger combination has its own intelligence and its own internal logical magnetic processing that allows it to survive and exist in every dimension (sphere) in the universe that it might travel through or be part of. This gives the light the capability of being able to travel long distances, and at the same time, this allows the light not to have a fixed maximum speed in all the universal magnetic field strength spectrum, opposite to what has been assumed by the scientific world at present.

At the same time, the light becomes more visible or detectable as it travels from stronger matter magnetic fields (mafs) fields strength to a lower matter fields strength environment

Two rays of light with different magnetic fields (mafs) of principal matter strength can pass through the same medium and they can create different brightness intensity and therefore all light rays do not have the same intensity primarily and their strength and intensity is dependent in their internal initial principal mass and strength. Therefore a ray of light can be dimmer or slower compared to another ray primarily due to the magnetic fields (mafs) of principal matters content and their strength.

Light rays have speed according to their lowest common denominator of their environment plasmatic magnetic field (pmf) strength. Therefore, the speed of light in the principal environment due to the stronger field strength of the principal mafs pmf is much faster than the speed of the same plasma in the matter environment, hence the present assumption that the speed of the light as observed by man is the maximum speed of the plasma of the light is incorrect, and hence the plasma of the light has speeds in the principal matter environment far beyond the present assumptions in the matter environment of the Earth and this universe's matters' pmfs strength.

**PLASMA and YOUR WELLBEING:**

Loving emotions attract principal matter / anti-matter to your soul as you grow in love.

Soul

Spirit Body

Loving emotions enhance your life's experiences.

Your soul blossoms and your spirit state is one of beauty.

This way or that way?

Matter aspect of plasma is the energy that you recognise as your physical body. The energy lines of your bodies are enhanced with loving emotions. Negative emotions impede the flow of energy through your bodies and this brings about difficulties and illness. Love is the greatest energy that you can bring to your soul, spirit body, and physical body.

Attracting Antimatter Plasma results in a far healthier and loving life than from attracting Dark Matter Plasma.

Unloving, negative emotions retard the growth of your soul and your life experiences are generally difficult in all aspects of your living.

Unloving emotions cause the soul to lose radiance and to contract in size. Your spirit state experiences are devoid of happiness.

A soul's condition is never frozen. No matter what condition one's soul is in, from there it can grow in love. From the poorest state it can grow to

Spirit Body

In understanding the strength of the principal magnetic fields (mafs) and using this phenomenon for creation of speed of motion of the systems and craft, then one can calculate and understand that travel with speeds hundreds and thousands of times and millions of times faster than the speed of light in the matter environment in the near future will become as conventional as jet liner travels of today. The assumption that the speed of light in the matter world is the ultimate speed in the universe cannot be correct. When using the principal mafs fields as a source of fuel, dynamic plasma dilution gravitational positioning space reactors which have been developed and tested can be used to achieve higher speed than the speed of light in the matter environment.

Through this technology of the use of light gravitational positioning systems, speeds of travel in principal and transition mafs (magnetic fields) strength environments, which are beyond the present understanding of man in the matter universe, are faster than the speed of light in the matter environment.

This division and utilization of light matter magnetic fields (mafs) structure will be the technology which needs a full understanding of the world of creation and once mastered as has been done by other inhabitants of the universe, man will be of the same strength and capability in the understanding of the universe of universes operation, interaction and universal organisation.

When the intelligence of man reaches the full understanding of the potentials of the use of the light magnetic fields (mafs) of matters (matter + principal + transition), then one will be able to travel in different magnetic fields (mafs) of matters environments with use of the magnetic fields (mafs) of principal matters magnetic fields strength as the protection magnetosphere created around the craft in possession of the multiple Magravs (magnetic and gravitational fields) positioning reactors.

The dynamic twin reversal of directional motional shielding system made of and through the use of magnetic fields (mafs) of the principal magnetic fields strength of the light guarantees total non-penetrable protection for travel in all magnetic fields (mafs) and matters (matter + principal + transition) environments in the universe, without leaving any traces of direction of motion and without being visible to the human eyes and any other tools and means of detection of any other creatures in the universe.

This technology can be used for high speed travel in crossing the boundaries of universes and for travel across one universe without spending thousands of light years in travelling time as is currently calculated by human scientists. Thus one can travel with full safety using the highest light's principal Magnetic field strength for every aspect motion in the universe.

Once the concept and the principle structure of the principal mafs and matters and other mafs of matters and lights are fully understood then one can use the knowledge of the light structure in full and the scientific world will be able to use the structure and mafs of light for creating new matters and production of food and nourishment for the life of the passengers and for the space machinery of the future and food producing reactors for man in deep space where light is the only matter available for use and at his disposal.

The mafs of matters of light can be brought to levels that one needs for the body to absorb in order for it to have a pleasurable and comfortable life. Different strength mafs of matters and of light can be used as minerals and vitamins and proteins for man's needs to live.

LIFE OPTIONS:

Soul

Your soul blossoms and your physical life and spirit state are ones of beauty.

The building blocks of our physical / material body consist of plasma which is an endless array of the three fundamental aspects of plasma, called matters. Matters consist of matter, antimatter or principal matter, and dark matter or transitional matter.

As we allow negative or man-made emotions to dominate our soul, that is, emotions that calibrate 200 or less, we are retarding our essence. The quality of our life and health is degraded. Dark matter restricts the flow of light and our ambience is suppressed.

As we grow in love and embrace emotions of love, antimatter or principal matter dominates our soul and essence. Our physical health is generally excellent and our quality of life exudes with pleasure and joy. Light floods our being and our ambience is one of brightness.

Encrusted Soul:  
Soul condition being in a very poor state.

The light magnetic fields (mafs) of matters can be used directly without the need for the plant and animal conversion systems of light magnetic fields (mafs) of matters (matter + principal + transition) to minerals and nourishment for human consumption.

One has to understand that there are lives in the lower plasmatic magnetic fields (pmf) strength of the universe too, and in reality the matter universe is not the lowest level pmf strength in the universe. The light in this universe is the same and operates in the same way.

In the future once we can use light mafs (magnetic fields) of matters (matter + principal + transition) to produce and lower their strength mafs of matters to the pmf (plasmatic magnetic field) for example of sodium or vitamin A or B. Therefore, from this point on one can even produce composition of matters or realise the dream of producing energy and new matters through fusion. Now one can use the principal matter mafs fields strength of the light to fuse elements in the matter environment. In fact fusion is more practical and achievable if one uses the principal mafs and matters field strength of light and their division to create the environment of matter mafs in which the matters can be created. Fusion of pmf of the light mafs is in so many ways easier than physical matter fusion once the light is transferred into a neutron or an atom. The light's mafs of matters fusion is a way for the reproduction of heavier element or their pmfs without creating an enormous amount of heat that one cannot and has no tools or means to control and contain such matter fusion technology.

#### **“How do fission and fusion reactions compare?”**

<http://www.efda.org/faq/how-do-fission-and-fusion-reactions-compare/>

“In fission, energy is gained by splitting apart heavy atoms (uranium), into smaller atoms (such as iodine, caesium, strontium, xenon and barium, to name just a few) whereas fusion is combining light atoms, (in current experiments two isotopes of hydrogen, deuterium and tritium), which forms a heavier one (helium). Both reactions release energy which, in a power plant, would be used to boil water to drive a steam generator, thus producing electricity.

“Fission is triggered by uranium absorbing a neutron, which renders the nucleus unstable. The result of the instability is the nucleus breaking up (in any one of many different ways), in the process producing more neutrons, which in turn hit more uranium atoms and make them unstable and so on. This chain reaction is the key to fission reactions, but it can lead to a runaway process, as in a nuclear bomb.

“Fusion is a much harder reaction to achieve, however it yields more energy than fission. There is no chain reaction involved – hence there cannot be an explosion – the reaction is achieved simply by getting the fuel hot enough and containing it tightly enough for the components to collide and fuse. The temperature has been achieved (over 100 million degrees), however confining the hot fuel plasma using powerful magnetic fields has taken a while to perfect. The behaviour of plasma is now well-understood, and so the building of a power reactor is simply a matter of overcoming engineering hurdles – work is expected to commence on the DEMO fusion reactor in 2030.”

Once man learns the use of the construction of mafs of matters of the light, one will learn that a source of mafs of matters is available in all corners of the universe. On the other hand one does not need to create physical matter to have the properties of physical matter, one can use the pmf strength properties of the given matter in its fusion of the light mafs of matters to achieve the same effect such as the production of energy and food, without ever using fusion of physical matter to achieve the same goal

and actually without ever needing physically to eat and to digest food. Then in the near future man's body will do without the digestion system and in further times man will learn and will do without the physical body to exist and to travel the spans of the universe.

(The spirit body looks just like the physical body, it does not require food in the same way as does the physical body. The spirit body does not need to eat a meal or drink water. The spirit body does absorb the essence of the substances that it desires. The spirit body is of a much finer substance than the physical body.)

When using the mafs (magnetic fields) of matters of the structure of the light rays for communication purposes in the matter environment, the communication system can be set to transfer information in the principal matter mafs strength and once the information arrives at the point of destination the receiving

**PASCAS  
PAPERS**

system can decode the information from the principal mafs strength to matter mafs strength and then the information can become available for whatever purpose it was transmitted for, be it audible, visual, or digital information or transfer of matters. This method of the use of mafs of matters of the light fields strength will eliminate any time delay in communication across the spans of the universe. The delay time which has been observed in the present cosmos communication systems will not exist once using principal mafs strength and then communication becomes instantaneous anywhere in the universe.

Thus switching from one matter mafs strength to another matter mafs strength of the same light will bring into play a totally new technology and facilitate new approaches in the production of tangible matters too. That is to say one can strip the light from one of its mafs of matters for one purpose and use its residual mafs of matters for other purposes. That is to say, by stripping the light off its principal mafs for communication purposes, one can use the mafs of its transition matters and mafs of matters of the same plasma of the light for production to increase in other matters and matters growth or expansion in their given environment or use these for production of energy for human existence in space.

The universal language using the mafs of matters of light and using the same mafs of matters of light for transportation will be the cornerstone of the future transmutation of matter and matters and communication in the universe among other intelligent creatures of the universe(s).

Positrons are created at the point of the creation of the plasma of atoms from the ray of light, and the clockwise motion of these particles is totally and primarily dependent on their internal magnetic fields position. This means that the directional rotational motion of all matters is dependent on the speed of the rotation and position of the mafs of the principal matters and matters with respect to each other, be it the plasma of electron, proton, atom or even stars and galaxies.

The clockwise or anticlockwise rotation of electrons, protons, planets and stars is determined by the principal mafs matters speed of rotation and its distance with respect to the matter mafs and distance between different layers mafs components of the plasma of the entity after the light ray is converted to matter of the electron or the proton and star and its matter content.

In conclusion one has to be aware that the visible light magnetic fields spectrum, which enables man to see his universe, is the same in all pmf strength levels. This means that in every plasmatic magnetic field (pmf) strength environment there are visibility criteria for all created life, but the visibility is dependent on pmfs field strength. Therefore, what is not visible to one being is a visible environment to another using different pmf strength for point of reference as a tool for vision and this applies to all pmf strength mafs of matters and matter universes and environments.

At the same time vision is not through vision tools like the eyes, vision is the openness to receive knowledge through the real means of operation of the universe in the pmf strength of the level of intelligence of the structure of beings. (Spirit people report having 360° all round vision.)

The reality of existence has been measured by the strength of the light which a matter can emit, and the duration and the depth to which the Magravs (magnetic and gravitational fields) of the created light can penetrate its environment. Then the question for Man to ask of his existence is, how does matter like him, who is the user and the producer of the same physical entities as stars, how will his existence shine

and operate in the span of the universe after the demise of his physical life in this matter strength environment?

Maybe it is time for Man to come to understand the true meaning of the light, as all beings in the universe announce their existence through the emission of light into and onto their surroundings.

This technology of the light ray's protection gives man the ultimate knowledge for survival and brings man knowledge and intelligence on a par with and equal to the knowledge known to the rest of the universal manifestations, and thus we have served our purpose in bringing the same to all men of progress.

It would be correct for man to consider his connection beyond his physical existence and through the light of his presence during his time, and hence would the soul of man be of the light as the confirmation of his existence. (One's soul is reflected through their spirit body.)

Be wise to the truth of the creation of man, if the light of wisdom is the light of the soul from the time beginning to the end of time. This light will exist and will be the source of the confirmation of the everlasting existence of his soul. As the light of far distant stars is shining in the deepest part of the universe after billions of years, this has been and shall be the destiny of the soul of Man throughout all times of the existence of the universe.

Thus it can be said:

**Man has come from,  
He exists, operates through and  
He shall return to  
the Light**

**Whilst we are receiving our Heavenly Parents' Divine Love, and that this Love is causing change within our soul and spirit attributes, the greatest Truth known to man and spirit is that this is the way our Mother and Father are actually loving us! When we progress, it is God's way of loving us into love and then we live what we are, love.**

**By living true to ourselves, true to our feelings, we are living true to God. It's that simple.**

**“Every day is a day of devotion.”**

**Please Mother and Father, may I receive Your LOVE.**

**God's Divine Love: Pray for it, ask for it, and receive it.**

**Our salvation IS the embracing of Feeling Healing with Divine Love.**

**LOVING and UNLOVING EMOTIONS:**

They are plasmatic balls of energy.  
Loving emotions are life enhancing.  
Unloving emotions are life retarding.

*Thoughts  
become  
Things.....*

*Emotions are  
Things.....*

Emotional damage can fester and grow should you persist with the issue.

Negative emotions, that are those that calibrate 200 or under on David Hawkins' Map of Consciousness, create energy flow blockages within your meridians that are within your spirit body / etheric body. In the physical, these energy blockages / emotional injuries emerge to disrupt the flow of energy along your nervous system creating mayhem, pain, and ultimately illness. The frequency of the emotional injuries generally relates to the frequencies of specific organs in your body, that is why various emotional injuries are related to various illnesses.

The emotional injuries can be readily removed – permanently.

**PLASMA:**

Antimatter / principal matter is the life giving energy source.  
Dark matter / transitional matter restricts the flow of light.  
Matter is the concentration of these energies resulting in physical matter.  
Plasma is the building block of all.

**NATURAL LOVE or HUMANITY’S ERRONEOUS EMOTIONS:**

Your soul, being your real you, is an emotional being. Your soul, though a thought of God, does not possess anything of the divine within it. It existed in a state of bliss, in a natural love state, pending individualisation which is achieved at conception which is the time of incarnation. Your soul is endowed with natural love emotions noted within the top section of the Map of Consciousness scale, being those emotions calibrating above 200.

MAP OF CONSCIOUSNESS					
God-view	Life-view	Level	Log	Emotion	Process
Self	Is	Enlightenment	700 1000	Ineffable	Pure Consciousness
All-Being	Perfect	Peace	↑ 600	Bliss	Illumination
One	Complete	Joy	↑ 540	Serenity	Transfiguration
Loving	Benign	Love	↑ 500	Reverence	Revelation
Wise	Meaningful	Reason	↑ 400	Understanding	Abstraction
Merciful	Harmonious	Acceptance	↑ 350	Forgiveness	Transcendence
Inspiring	Hopeful	Willingness	↑ 310	Optimism	Intention
Enabling	Satisfactory	Neutrality	↑ 250	Trust	Release
Permitting	Feasible	Courage	↑ 200	Affirmation	Empowerment

Humanity’s erroneous emotions are those calibrating below 200 on the Map of Consciousness. The environment around a newly conceived child progressively degrades the condition of that child’s soul. When the child reaches about the age of 7, the child’s soul condition will reflect the parent’s condition. These negative emotions are like a crust around the pure soul it has within.

SOUL  SPIRIT BODY  MATERIAL BODY  
 PERSONALITY

ASPECTS of LIFE:

The spirit body is composed of a different kind of matter, "finer" or more "ethereal". The fact that its aspect reflects the condition of soul is a clear indication that the soul influences largely its formation, and even more, the soul is indeed the creator of this body, which covers it and provides it with the characteristic of individuality. The formation of the spirit body begins at the moment of incarnation of the soul in the foetus, incarnation which only takes place should there exist a high probability that the spirit of life has found in the new organism a stable biological structure, allowing it to carry out its life-giving function.

P529 Judas of Kerioth 8<sup>th</sup> May 2002

**At the moment of conception, we incarnate, that is, we achieve individualisation and become self aware and we are then able to exercise our free will.**

**At the moment of conception, our soul, being our real self, is creating the newly forming embryo and everything else every step of the way as Judas says above. And our soul utilises our parents' life forces to achieve incarnation.**

**At the moment of conception, there is nothing of the Divine within us. Only as we proceed to ask for and receive Divine Love does our soul slowly and progressively change into the nature of that which is Divine. As our soul receives Divine Love, and embraces Feeling Healing, it will grow, and grow, and grow in brilliance and into that which is Divine.**

## MAN WITHOUT or WITH a SOUL!

Man without a soul is likened to a puppy dog!

The human body (without a soul) calibrates at 200 on Dr David R Hawkins' Map of Consciousness. Domestic animals also calibrate from 200 to 250 on this scale. Without a soul, a human body is incapable of rational thought, speech, or anything human.

The real you is your soul! With the infusion of one's soul becoming connected by cords of light with one's spirit body, which is the template for the physical body, comes one's personality, natural intelligence, memory, and all things human.

Our brain is simply a transceiver of communications from one's mind. The mind is housed within one's spirit body. The thinkingness is done within the spirit body mind. What is held in mind subsequently manifests within the physical body. The functionality of reason calibrates between 400 and 499, thus overriding the physical body as it calibrates around 200 only.

The natural love based soul endeavours to guide the mind (love calibrates at 500 and above). During our physical life, we encrust our soul with emotional injuries and erroneous beliefs thus impeding and frustrating the flow of loving energies from the soul to the spirit body mind, and subsequently the physical body.

It is the love energy of the soul that brings about health of the physical body and a bounteous and blessed life in the physical world.

There is nothing of the divine within our natural love soul, however, should we long for, pray for, ask for, and receive our Heavenly Parents' Love, the Divine Love of our Mother and Father, then we slowly and progressively blend our natural love with that which is Divine, Divine Love. It is this ultimate high-octane super fuel that changes our soul from that which is mortal to that which is immortal and with Feeling Healing, become fitted for the Celestial Heaven; this is the process of being born again!

If you ask for the Divine Love to enter your soul it will be 10 or 100 times more efficient, 10 or 100 times stronger than if you would let the natural love flow through your soul. So it will help to break down "the wall" you've created around your soul 10 or 100 times faster than the natural love would do.

Feeling Healing with this ultimate high-octane super fuel is what dissolves the encrustments of errors and false beliefs around the soul, enabling penetration of loving energies throughout the spirit body, and into the physical body, bringing about health and vibrancy to life.

### The REAL YOU is the SOUL:

One's personality, natural intelligence, memory and human attributes all are soul based. The soul initiates conception so it can start expressing one of its two personalities in Creation. It creates the will, then 'wills' the spirit body and physical body and all that connects them with the will into being. Our soul constantly sustains or expresses us, one of its two personalities, in Creation. The spirit can't separate from the soul because the soul keeps it in existence. We need our spirit and physical bodies to experience our personality through. When the spirit body separates from the physical body, one continues on living in a different form without losing any of the attributes experienced during physical life. Incarnation is the process of individualisation of the soul.

Without a soul, our physical bodies would function and interact similarly to that of a domestic animal. An unsouled human body (thought not possible) would respond like a household puppy! Domestic animals calibrate on Dr David Hawkins' Map of Consciousness between 200 and 250, the human body calibrates at 200. All animals have spirit bodies, these do not survive into the spirit Mansion Worlds. Our SOUL IS NOT ENSOULLED IN OUR SPIRIT BODY. Our soul exists existentially in a whole different level or plane or place or dimension of being – 'soul land'. It doesn't exist in Creation, it's not experiential like Creation is. The soul, all souls, help create their part of Creation by expressing their personalities into Creation, and then by having their personalities do things (further create) in Creation.

**Our first parents, Andon and Fonta (also called Aman and Amon), were the first to exhibit human perfection hunger some one million years ago (993,500 years ago). Adam and Eve, Adamite bestowals, arrived some thirty eight thousand years ago – or earlier.**

**Aman and Amon** were the first True Humans, which means, the first soul expressing its soulmate pair, its two personalities, in Creation – on Earth. From which came forth the rest of us. So they had a soul from the start, which separated them from their animal parents. It's the soul that wants to fully express itself through its two personalities perfectly in Creation, which is the so-called 'human perfection hunger'. It, our soul, wants to be Perfect like its Heavenly Parents, the Soul that Created it. We, focused as personalities, want to be perfect, like the Personalities of our Mother and Father that are Perfect. Our soul wants to be like Their Soul. Our soul wants to ascend us to Paradise so we can be with Them, as physically close to Them on a personality level that we can be, and then see what happens.

There were aunts and cousins, parents and grandparents. But they were not human like Aman and Amon – they were really animals, though of the same species. Aman and Amon wandered off from the family, since they could find no way of relating to them at all. How could they? They were incapable of rational thought, speech, or anything human. Aman and Amon knew that forevermore that they were apart.

Aman and Amon may have been twins. They were indeed a primate species of humanoids. But they, themselves were more beautiful than their animal relatives, and they knew, even from their very appearance, that they were marked even by Nature to be different.

## The CHOICE is OURS to MAKE:

### Celestial Truth:

Truly all-loving;  
Living true to oneself;  
Mind supporting Feelings;  
Living with the Divine Love;

Fully Healed of the Rebellion and Default.

### THE FEELING WAY

Feeling – Ascendance  
Unlimited progression

- Living true to your untruth;
- Honouring all your bad feelings;
- Expressing feelings to uncover their truth;
- Healing the Rebellion and Default within yourself;
- Feeling unloved; being unloving;
- Feeling as bad as you can feel;
- Feeling like you are no one special;
- Longing for the Divine Love.

### THE MIND WAY

Mind – Transcendence  
Limited progression

- Enlightenment, Nirvana, feeling all-loving;
- All false, mind-contrived. Anti-truth, anti-love;
- Still evolving the Rebellion and Default within yourself;
- Feeling and believing you are the Superior One;
- Living with your mind in control of your feelings;
- Living rejecting all your bad feelings;
- Living with your mind contriving you feel loved;
- Rejecting the Divine Love.

All religions, New Age, agnostic,  
atheists, no spiritual interest,  
Living the Rebellion and Default.

Hell:  
Exploiting the Rebellion and Default.

The Feelings are the doer; the Mind the teller. So we are to go with our feelings, which we can't be told to do with our mind. So the longing for the Divine Love, doing our Healing by expressing our feelings and longing for their truth, are all feelings and doing it with longing. Whereas the mind just wants to tell us what to do and how to be, no feelings in it, all how our parents have treated us.

## LIVING THEIR WILL:

We can choose, in each and every experience, to live true to one's self; true to our feelings, and by doing so, we can also choose to live true to God and Their Will. Our Feelings are our Supreme Guides.

Living God's Will means living true to one's feelings, acting on our feelings in the moment, doing what we feel we want to do, while all the time longing for the Divine Love, the Truth, and wanting to live God's Will.

A lot of people, and so-called spiritual systems, speak about living true themselves and following their feelings, but what they don't understand is that whilst we are living in a negative mind and will state those feelings we are feeling and trying to live are not true. One's negative mind, in accordance with one's negative beliefs, are generating 'false' feelings; that is, feelings you believe are true but aren't, being based on erroneous beliefs. And it's only through the process of healing one's soul of all that is not true that we can begin to live feelings that are being generated with support from a positive mind and will. As we heal from one state (the negative) to the other (the positive) we will feel ourself changing, and will know we are becoming progressively truer. We feel our will truly becoming empowered, and it's not an artificial empowerment like many people try to achieve by positive thinking and trying to be positive and wilful using their minds, it's real feelings of ourself, our will, and our wanting to live with God, our Mother and Father.

In the end, as we complete our soul-healing, with a completely healed and self-focused positive will and mind, we will know that we are doing God's Will as we live truly honouring all our feelings. The Father and Mother inspire us through our soul. They don't speak to us in our minds and say do this and do that. They generate feelings, true feelings, to come up in us, feelings we can only know are true when we've healed all that's untrue within us, and it's these feelings that we act on because doing so makes us feel good and happy, and then we are living God's Will. Also we can't live God's Will without the inclusion of Their Divine Love in our soul. We can only live, at best, in a perfected self-willed natural love state. So the partaking of the Divine Love is fundamental to living God's Will, and if you want to live it, if you want God to help you, then They will help you do your soul-healing so eventually you can cross over from being wholly self-willed (without God) to being still wholly self-willed – but with God, and therefore also God-Willed: with your will focused completely on living Their Will.

We don't give up or submit our will to Their Will, as in our will somehow vanishing and Their's taking over. We need our will perfected and not in denial so with all of it we can choose to live Their Will. We wilfully choose with a fully positive will that we want to live with Them. That we want to be at-one with Them. That we want to live the life They have created us to live and we tell Them this is what we want. And the wonderful thing about being able to partake of Their Love is you feel your relationship growing with Them; They become real, 'alive', and so you know, as you are choosing to live Their Will, why you want to do so. And that is because you feel so much love for Them. You want to give something back to Them. You want to live Their Will as a demonstration of your love for Them. They make you feel good, They heal you, They make your life the wonderful thing it should be, and all of this makes you so overwhelmingly grateful to Them that all you want to do is live how They want you to.

**FEELINGS**

And besides, by that time you arrive at this point of knowing through your feelings, you also know that living without – denying – Them; living totally self-willed and with a negative mind and negatively focused will, is no fun. It hurts: it makes you feel bad and causes you great pain, and who'd ever want to do it. It's only that our negative states have been forced on us in our very early childhood that we don't know a different way to be.

## FEELING HEALING

**Note:** The vital difference between emotion and feeling is that emotions have their roots in the past, and feelings relate to the present moment. Emotions represent our feelings which were not previously expressed, and these accumulate with time.

So the first step in living God's Will is longing for and receiving Their Love. The next step is the rectification of your will – doing your **Soul-Healing**. To heal yourself so you're living in a positive mind state rather than a negative one. And then once this has happened you will, with no doubt, wilfully choose with all your heart and soul to live God's Will, and you'll be naturally doing this as you simply follow your feelings throughout the day doing what makes you feel good. It's incredible how They've designed it so we can do all we feel we want to; live with complete freedom of will, and yet still do all They want us to do: live fully honouring Their Love and Will always being happy.

**We have to see the whole truth of our negative or self-denial state before we can heal it and be free of it.**

**The CHILD is to FREELY EXPRESS ITSELF:** Messages from Mary and Jesus 13 May 2003

Mary: The greatest gift you can give your child, is allowing it to be freely able to express itself, helping it to feel good about being able to say and express and communicate all it feels. **THERE IS NOTHING BETTER FOR A CHILD TO FEEL THAN KNOWING ITS PARENTS COMPLETELY WANT IT TO BE EXACTLY HOW IT FEELS IT WANTS TO BE.** To be completely unconditionally accepted for all that it is. Then it feels loved.

This is how we are also to be, as adults!

**To liberate one's real self, one's will, being one's soul, is begun by embracing Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.**

**Firstly, consider discovering the truth of your emotional pain through Feeling Healing. Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing. Primary and most important readings are the writings of James Moncrief. Then consider the Padgett Messages, and then The Urantia Book.**

## U-TURN for HUMANITY:

### Why are we doing a U-Turn?

We are doing a U-Turn **because** the year 2017 heralded the end of the Rebellion and Default. For two hundred thousand years, humanity has been going in the wrong direction.

### What is this fundamental step that will change our way of living?

We are to come to understand / know the foundational cause of all our feelings, both good and bad. As we explore and investigate our feelings, each time they arise, one by one, we are to talk them through, express them to a companion or friend or anyone who will listen. As we express them, while at the same time coming to understand how they have come about, we will find that they will be resolved and that they will not come up again.

We will find that all of our feelings / emotions have their foundations from our childhood. And by childhood, that is from the time of one's conception all the way through to about the age of six. It is the repression of our childhood feelings that is the base or foundational cause of each and every one of our adult personality issues, pains, difficulties, illnesses and distressful life experiences.

**Feeling  
Healing with  
Divine Love is  
the key!**

**We have to see the whole truth of our negative or self-denial state, before we can heal it and be free of it.**

The vital difference between **emotions** and **feelings** is:

- emotions have their roots in the past,
- feelings relate to the present moment,
- emotions represent feelings not previously expressed,
- and these accumulate over time.

Many emotional clearing processes encourage us to look into our feelings, however, none go so far as to drill down into the core foundation of any emotional feeling to the point that we strive to KNOW the core issue, the origin of the feeling, be it good or bad, and actually come to know what it is!

The *Journey Process* is generally known worldwide. It stops short of longing to know, that is asking for the knowing of the events that brought about such a feeling. Yes, we are to acknowledge the feeling, say being angry. Then accept that behind that anger is the feeling of being small, and then look at the underlying reason of why we are feeling small. What is the truth behind that feeling? Ask our Heavenly Parents what is behind all of this feeling. What is the foundation, the origin of the feeling? All the time talking it out, expressing it, with a friend. The expressing of the experience is the release of the emotion / feeling, this is what removes it for ever from within our essence, our **soul**.

**Why ask our Heavenly Parents? I thought God was just God – singular?**

This is part of the revealings that have been unfolding for us very recently – that is – since 2002.

We are made in the image of God. This has been understood for centuries, for 2,000 years. Our soul is duplex. Our soul expresses itself through two personalities. One soul ‘subdivides’ into two, one half always being female and the other half always being male. We are a reflection of how God is. God being one Soul is expressed as Mother and Father. God is two personalities. They are soulmates. And each of us has a soulmate, and our soulmate is always of the opposite sex, because the Mother and Father are the opposite sex.

Thus, when we long for the truth behind a feeling, then we can long to our Heavenly Mother and Father. Only they can tell us. No spirit personality can tell us. No canonised saint can tell us, we may as well ask our next door neighbour. That would be just as productive. Mary and Jesus can’t tell us, as they are also spirit personalities.

### **I was taught that Jesus was God? And what is this about Mary?**

Mary of Magdalene and Jesus of Nazareth were both born free from sin. Neither of them are God. They are both children of God, just like you and me.

History needs to be corrected. Both Jesus of Nazareth and Mary of Magdalene became at one (At-One) with our Heavenly Mother and Father during their physical lives here on Earth in the first century; Jesus in the year 26CE and Mary in the year 33CE, or thereabouts. Jesus died aged 35 (born 7BC died 29CE), and Mary died aged 47 or 48 (born 2BC died 47CE).

Further, their sojourn on Earth was the completion of their process to become the full Regents of the sector of planets that is referred to as Nebadon. The region within our super-universe that is referred to as Nebadon contains 3.8 million inhabited planets. If you look into the night sky, each star / sun potentially has between none to three inhabited planets within its orbit. Within Nebadon, the soulmate pair, namely Mary and Jesus, are our Spiritual Teachers of Truth. Their domain is all 3.8 million physical planets plus their associated spirit worlds. Each physical world has seven associated spirit worlds, which is the case for Earth being one of the 37 that have rebelled.

Some 200,000 years ago, Lucifer with his soulmate and his deputy, Satan with his soulmate, brought about a rebellion on 37 of the inhabited planets within the region called Satania, one of the local universal systems of Nebadon. Earth compounded the situation through the Default of Adam and Eve about 38,000 years ago. Thus the population of Earth, being in the worst condition through the Rebellion and Default, became the location for Mary and Jesus to have their physical experience to complete their ascendancy to full Regency of the local universal system being Nebadon.

Their lives on Earth was the start of the unravelling of the Rebellion and Default. Upon Jesus becoming At-One with our Mother and Father, he was then vested with the authority and power to have the Lucifers and Satans arrested, and they now reside exiled within a prison world.

Notice that there were no records of Jesus and Mary’s teachings and experiences made during their physical life. That was because they did not specifically come here for us, they came for the benefit of all peoples of all planets and spirit worlds throughout Nebadon.

As they are Paradise descending spirits, they have **Spirits of Truth**. Upon Mary and Jesus' death, they released their Spirits of Truth. As spirits, Jesus and Mary are how we will be, once we've finished our Soul Healing. They can only be in one place at any one time. However, it is their Spirits of Truth throughout Nebadon that we can connect with for guidance. It is through their Spirits of Truth that spirit personalities can progress through and out of Nebadon.

Those planets that have Rebelled need further assistance, and they need it on a localised manner. This can only be provided by another bestowal of a **Paradise Pair**, and that is in the form and manner of an **Avonal soulmate pair** who come here specifically for us.

### **What is the purpose of an Avonal pair, and are they here on Earth?**

Unlike Jesus and Mary who were always free from sin and did not experience how to heal themselves, the Avonal pair are to experience all of the extremes of evilness and then proceed to heal themselves. Mary and Jesus through their bestowal on Earth ended the Lucifers spiritual rebellion in Nebadon; the Avonals bestowal is primarily concerned with ending the Default of Adam and Eve by the Avonals themselves personally healing the effects of such a damaging Fall.

The soulmate Avonal pair are to be, and have been, subjected to the extremes of childhood suppression and repression, and then, through their Feeling Healing, are experiencing all the facets of emerging truth as they slowly progress through a protracted and difficult healing process. As they reach specific milestones, this also enables those in the Celestial Heavens, (the three worlds where Celestials reside) to be empowered to assist us in the physical on Earth.

The first considered milestone was the arresting and imprisonment of the Caligastia soulmate pair and the Daligastia soulmate pair. After the arrest of the Lucifers and Satans in the first century, as nothing further occurred, the Caligastias and Daligastias continued on from spirit as if they were kings and queens, suppressing all of humanity and with plans to take over the universe. It was possibly in the early 1990s that they were 'judged' and 'removed'. They were caught unaware that an Avonal bestowal pair were on Earth.

### **How is all this becoming known? Has Jesus and Mary communicated directly to Earth?**

Unlike in the first century, when no records were kept (as the event related to all of Nebadon and it was actually setting the stage for the Avonal bestowal pair to arrive on Earth), every effort to retain records in great detail of this current series of events is now being attended to. Consider this. The New Testament of the Bible is some 300 pages. The records of the Second Coming, which this is, the primary records are possibly 6,000 pages, with direct complementary records increasing that to over 10,000 pages and with all the supplementary records to date, there may be as many as 40,000 pages, certainly well over 30,000 pages of material presently.

Jesus directly communicated through James Padgett from 1914 to 1923. Mary of Magdalene (Mary M) has directly communicated through James Moncrief from 2002 and is ongoing. Jesus has also communicated directly through James Moncrief. Neither have ever directly communicated through any one else, however, some Celestial Spirit personalities have provided information through other

personalities on Earth with the support and approval of Jesus and Mary, thus some confusion, though the quality of the information is very reliable.

**You say this is the Second Coming? You say I am living during the time of the Second Coming?**

Yes you are. And it's more than that. This is the Second Coming, the End Times and the Handover!

In fulfilment of the prophecy in the first century, the Second Coming commenced on 31 May 1914 through the writings with James Padgett and concluded in 2014 through the writings with James Moncrief.

The End Times are well advanced. Mary and Jesus are well advanced in handing over their direct involvement with Earth to those within the Celestial Heavens. When this is completed, the Handover will also occur. **The Hand Over is to the Avonal Bestowal pair** and it is they who will guide the population on Earth through their Feeling Healing processes for the next 1,000 years, being the next spiritual age. The Handover will take place after the Avonal pair complete their personal Healing of the Rebellion and Default. Then will follow with their Spirits of Truth being officially liberated in alignment with Mary M and Jesus' Spirits of Truth upon their death.

Major events have occurred with the progression of the Avonal pair's Feeling Healing, which they are also doing whilst embracing our Heavenly Parents' Divine Love, thus they are doing their Soul Healing.

Early 1990s:	The arrest of the Caligastia and Daligastia soulmate pairs.
22 March 2017:	Negative spirit influence was blocked.
31 March 2017:	Angel assisted healing will become available upon the Avonal pair completing their own Feeling Healing, being with Divine Love, thus it being Soul Healing.
22 May 2017:	Law of Compensation quickening.
2 December 2017:	Psychic Barriers maintaining the Rebellion and Default were cracked.
8 December 2017:	Bring on the money to <b>'house the future of humanity'</b> .
31 January 2018:	Earth and the seven associated mansion worlds (including the two Earth planes) are <b>officially</b> now fully under the control of Celestial spirits. This marks a tangible and real end to the Rebellion and Default.

**How does this all fit into our future way of living?**

**This time, in the history of humanity, is the most exciting time ever experienced.**

**The whole human race is suffering from repressed childhood and mind control.**

Through one's Feeling Healing, and should we embrace our Heavenly Parents' Divine Love, then with their Love we are doing our Soul Healing, and eventually we can live totally in accordance with our soul based feelings and live free from error – no more fear and no more physical illnesses is possible!

**By living true to ourselves, true to our feelings, we are living true to God. It's that simple.**

Our soul is always perfect. In fact, we are the complete package. All that we need to know is within our soul. This knowledge has been denied from us since the time of the Rebellion and compounded by the Default. That is what was brought upon us by the Lucifers and his cohorts. We have always been meant to live true to our soul based feelings but we were taught to embrace our error riddled mind – this was aided by our parents – unknowingly all parents have taught their children to be mind dominant. **This is the Great U-Turn. We are to feel and live by our feelings and express our feelings, our mind will follow in support, not the other way around.**

“Many people look for a person, spirit, angel, even God, for supreme guidance, however it’s all right there already built in – in our feelings. **Feelings** guide us through our **ascension of truth**. So they are really our Supreme Guides. We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it’s there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: **Longing for the truth of our self, because: we are our feelings**. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.”

Kevin of the 1<sup>st</sup> Celestial Heaven 26 September 2017

(Kevin Cooper died 10 August 2012, through Feeling Healing became Celestial on 7 August 2017.)

It is through the assistance of the Spirits of Truth of the Avonal Pair, upon the completion of their Soul Healing, that we will be guided through our Feeling Healing process, and should we embrace our Mother and Father’s Divine Love, then our Soul Healing.

Then should we embrace Mary and Jesus as our Spiritual Teachers of Truth, their Spirits of Truth will lead us on the path through the Celestial Heavens where we will certainly meet up with our soulmate and join our soulgroup, which will eventually consist of twelve soulmate pairs. Then as a soulgroup, the Spirits of Truth of Mary and Jesus will lead us up through and out of Nebadon towards Paradise.

It is then our Mother and Father in Paradise who draw us to them and we will eventually meet our Heavenly Parents.

Meanwhile, while we live on Earth, we will have assistance and guidance previously denied to us throughout the era of the Rebellion and Default. Under the Contract controlling and managing the Rebellion and Default, the powers and capabilities of our Celestial Heaven spirit personalities, all three worlds of them, were heavily restricted and almost of no assistance to us at all. Further, Nature Spirits and our Angels were heavily denied contact with us physical people because of the Rebellion and Default, all of which is soon to change, so we can look directly to them for help concerning healing ourselves and understanding all aspects of nature.

As we embrace our Feeling Healing, Celestial spirits will and can greatly assist us. In fact, during the year of 2017 they have blocked all mind spirits from the Natural Love Mansion Worlds: 1, 2, 4 and 6 from interfering with us. Celestials have taken control of all facets of living and life on Earth. Celestials are those spirits who have completed their Feeling Healing and progressed through Divine Love Mansion Worlds 3, 5 and 7 and now live in the higher Celestial Heavens, 1, 2 and 3 (when we

become At One with our Heavenly Parents then we leave the Mansion Worlds and progress through the next three spheres related to Earth, hence the Celestial Heavens are also referred to as being numbered 8, 9 and 10).

The Nature Spirits of Earth, who live in the third Earth plane, can now directly interact with those who are embracing their Feeling Healing. Nature Spirits are essentially ‘angels in waiting’. They have been on Earth prior to anything that we now see living in nature. When they first started to arrive, there was no life in the seas or on land. They have consequently witnessed everything that has happened on Earth, including all prior human civilisations that we continue to largely remain ignorant of. Their knowledge and assistance is of great importance to us. We are to interact with them on an ever increasing scale. They are to become an invaluable source of information for us concerning how we are best to live with nature.

Further, we may become more aware of our **Indwelling Spirit**, which arrives for each of us during our sixth year, as we now progress with our Feeling Healing, or with Divine Love, our Soul Healing.

And all of this is possible as we embrace our Feeling Healing process, acknowledge and accept the Avonal pair, acknowledge and accept our Spiritual Teachers of Truth, namely Mary and Jesus, and more importantly, grow to love our Heavenly Parents, our true Mother and Father.

We do not need intermediaries, rituals, liturgy, dogmas, creeds, fancy clothing, or institutions. It is our soul based feelings and expressions that we may exchange directly with our Heavenly Parents. Groups may form to assist each other, and that is our choice and within our free will.

**This is the greatest event in the history of humanity.**

This is the Great U-Turn that humanity will embrace throughout the next 1,000 years.

# FEELING HEALING + SOUL HEALING

To heal one's self is to simply look to see what feelings we are refusing to let ourself feel, and accept them instead of denying them. And to fully accept them, one needs to express them, speak about them, let them have their say, rather than pushing them aside, refusing to let them make you feel bad.

Doing this all with the intention of seeking the truth of why you are feeling them, of speaking about and expressing all such feelings; all feelings you have, but ALL WITH the INTENTION of UNCOVERING the TRUTH THEY WANT YOU TO SEE ABOUT YOURSELF. And it's the wanting to see the truth of them that is very important, because if you just look to accept them and speak and express them, but not seek their truth, then that's all you'll be doing, speaking and expressing them, but not healing their causes, so not fixing the things within you that are making you feel bad. And it's the truth part of it, seeking the truth of your feelings, and so, seeking the truth through your feelings, that's vitally important. It's the truth of yourself, life, nature and God, that is the spiritual aspect to it all.

You CAN'T find the truth of yourself, or anything else, through and with only your mind. You HAVE to engage and look to your feelings. And so if you choose to allow your feelings to 'Show You the Way', then the truth will come as you express them. So to do our Soul-Healing consists of these steps, all of which are ongoing until it's done:

- **Admit you are feeling bad.**
- **Accept your bad feelings, identify what they are.**
- **Honour fully your bad feelings by expressing them, speaking about them to someone who is willing to hear you talk about them, or tell them out loud to our Heavenly Parents. Long for the truth of them. Long for the truth of why you feel bad – what deep within you is causing your bad feelings?**
- **And remember, bad feelings are Good! Not bad. They are not to be despised. And as hard as it is to accept them, they are still you, and a very real part of you. And if you persist in denying them and not allowing yourself to fully live them, then you are only going to keep yourself in your errors making things harder for yourself.**
- **All sickness and suffering, all bad things that happen to you, all your problems, all your addictions – your whole feeling-denying and untrue life, is all caused by your denial of bad feelings.**
- **Every problem in the world is brought about because everyone has been brought up to deny feelings, and in particular, most of their bad ones.**

If one is intent on spiritually evolving and growing in truth, then it's vital, and this is the key, that one looks to use one's feelings as the means to gain and have access to the truth of oneself. You CAN'T find the truth of yourself or anything else through and with only your mind. You HAVE to engage and look to your feelings. And so if you choose to allow your feelings to 'Show You the Way', then the truth will come as you express them.

Doing your Soul-Healing with the Divine Love, is really doing your 'Feeling-Healing'. We are designed — created — to be self-revealing of truth, and so we are all to uncover the truth within ourselves and for ourselves, and all being done by living true to our feelings. **If you accept, express and seek the truth of your feelings, then truth will come to you, and you'll grow spiritually. It's as easy as that. Also it is as easy as it is to long for, ask for and receive Divine Love.**

THE HEALING OF YOUR BAD FEELINGS THROUGH THEIR ACCEPTANCE  
AND FINDING THE TRUTH OF THEM, IS THE ACCEPTANCE OF YOUR  
NEGATIVE, REBELLIOUS, EVIL, IMPERFECT MIND AND WILL CONDITION.

To do our feeling-healing we need to become:

Aware of – Acknowledge – and Admit, our bad feelings.

So we can:

Accept – them and allow ourselves to Be them.

And then if we feel to, take:

Action – Express, speak and emote them.

Talk about them.

All being done whilst longing to, really wanting to, see the TRUTH of our feelings.

So it sounds simple.

So I repeat:

We accept our bad feelings by expressing – speaking about them to someone willing to listen to us and take us seriously. And as we speak we long for the truth of them – why we are feeling them – to be made known to us. And when we uncover and see the truth we are FREE! – healed of the causes that have made us feel bad.

Accept, Express – see the Truth, and you're Free!

ACCEPTANCE OF ALL YOU FEEL, THINK AND ARE, IS THE KEY TO DOING  
YOUR HEALING; THAT, AND WANTING TO SEE THE TRUTH OF ALL YOU  
FEEL, THINK AND ARE.

**Release one's pain through expressing one's feelings.**

**in conjunction with**

**Longing for the Truth when also longing for Divine Love.**

## **WE ARE TO BE OUR TRUE SELF – OUR SOUL BASED FEELINGS!**

**We are to use our feelings to uncover the truth of ourselves. Just how important are each of our feelings? Well really, they are ALL as important; as in, nothing else in life even matters other than what we are feeling.**

**We are all so conditioned and used to living with our mind in control of ourselves, that many of our feelings, and mostly so many of our bad feelings, we dismiss or shut out and refuse to deal with. We should go the other way in life, so instead of denying so many of our feelings, trying to acknowledge them all, to bring them all out, every last bad one, even if means stopping everything else and attending to them; and by attending to them is to make sure we express them, speak about them, the whole idea being not to keep suppressing them, to make sure they come up and out of us as we feel them.**

**Along with this: we are to long for the truth of our feelings; as in, the truth they are wanting us to see about ourselves, because apparently hidden or behind or within each feeling, is something it's trying to tell us about ourselves. And that is how God wants us to live – it is to live a true spiritual life.**

**We are not meant to be alone, we are to have someone with whom we can share our whole self with, telling them all we think and feel. If you do not have a companion, talk it out loud to your Heavenly Parents.**

**If you feel a bad feeling, you don't let it pass, you stop with it, focus on it fully accepting it; and with the emotions of it, express it the best you can; and then at the same time, long for the truth of it – want to see what it's all about – why you're feeling it.**

**There are hidden deeper underlying causes in us that will come to light as to why we're really feeling bad. So we might, for example, be angry with something that's happening in our life now, but as we express that anger, longing for the truth of it, it will lead us back into our earlier life connecting with the same anger we felt about other things; and then back even deeper into connecting, or it should be reconnecting, with anger we felt with our parents when our parents treated us badly.**

**That means there will be a lot for us to deal with if the bad feelings we're feeling now are also going to lead us back into buried bad feelings from our past.**

**Sage and the Healing Angels of Light by James Moncrief**

**LIVE TRUE to YOUR FEELINGS:**

A massive insight and realisation, which became my platform for living life, it was really quite simple; all I could do was honour and be true to my feelings. I had to *obey* myself first – my feelings; I was the important one, not my parents and family, not even the Mother and Father. With this truth I learnt the importance of living true, always honouring my feelings. And I realised that if the Father wanted me to do anything He could show or guide me through my feelings.

**It is through our feelings that we know – feel – how to live the Will of God.**

You will come to see why the doing of your soul-healing is so important, to give up your mind's control over you in favour of **allowing your feelings to dictate and dominate your life**. And when you do, then you will **lovingly obey yourself, your feelings, and no one else**. This is all the Mother and Father ask of you, because **when you are living true, then you will be completely honouring Their Laws, Their Way, Their Love**.

**Your bad feelings are real and true**. They are not evil; they only make you feel bad. They can make you feel sick but this is what they are meant to do, because how you are functioning is wrong – you are sick. And **until you have no more repressed bad feelings within you, you are living untrue to your soul, to yourself, and to the Father and Mother**.

The Rejected Ones – Living True to One's Feelings

by James Moncrief

ALWAYS BE TRUE TO YOUR FEELINGS

# Feelings First Spirituality

## The New Way

**Feelings First**  
**FF**  
**Feeling Free**

The New Way, Feelings First Spirituality  
 Learn to live with God through your Feelings

Accept, express and long for the truth of your feelings

Be free in your feelings  
 Free your feelings from your mind's control  
 Live true to your feelings; your feelings are your true self  
 Live true to yourself through your feelings

Live true to yourself by living true to your feelings.  
 Long for the truth of your feelings.

Accept / Express / Bring out ALL of your good, and most importantly,  
 BAD feelings.  
 Want to understand why you're feeling them.  
 Use your surface feelings to take you deeper into your repressed and  
 hidden feelings.

The Feeling Way is the True Way.  
 Your feelings are your spiritual guide.  
 Your feelings will take you to God.

Your feelings will show you the truth of your relationships, including your relationship with God; and if anything is wrong, untrue and unloving, then why it is.

Our feelings are sacrosanct and we should respect them accordingly. And we should NEVER block them out, ignore, override, banish, deny or reject them, because if we do, we're only doing that to ourselves, as Our Feelings Are Our Self.

Our feelings are the gateway to our soul. Our feelings are the closest we can get to our soul. Knowing the truth of our feelings is knowing the truth of our soul, and knowing the truth of God.

Feelings First Spirituality is the True path for humanity.

It embraces all people.

It completely unifies the world.

Everyone can relate to everyone else through their feelings.

And we can all live the truth that comes from our feelings, all sharing the same truths as we express and have the same feelings.

No one need be left out; no one is more special than anyone else – we are all united in Truth through our feelings.

So with and through our truth we live our lives, therefore without the need of any man-made mind-laws, rules and restrictions that limit self-expression as inspired by our feelings.

The New Way, Feelings First Spirituality is what is to replace all man-made, mind-contrived religions that so many people have enslaved themselves to. The New Way, Feelings First Spirituality will set us free of all that control, ending the Rebellion and Default within ourselves as we do our Feeling-Healing, and ending such control and spiritual stagnation in the world.

Bring on the End Times – get it over and done with! Let's all see that Jesus is not going to come again, that Prophecy has failed all the mind-controlled platforms. Allow such false systems of belief to die their long-awaited natural death, they've overstayed their welcome, it's now time they fade away. So let us show such antiquated, erroneous systems of belief the exit and bring on the fresh liberation of discovering the truth of how we are to live for ourselves, each of us personally in our lives, and all by looking to our own feelings for it. Self-revelation through our feelings is the way to go.

The Way of the Mind is ending, and is really the End Times – the End of our mind control, and **it's about time!** With the Way of our Feelings replacing it.

The End Times means the end and therefore a New Beginning. And that new beginning is a whole new Spiritual Age – an age based on self-revelation of truth through one's feelings, coupled with and supported by higher revelations from the Celestial spirits, angels and nature spirits.

The Feelings First Spirituality is the True Way to God because it helps you get to know God, helping you to reach out, connect and be personal with God, and do God's Will, all through your feelings. It is the only true way of getting to know the God of Feelings – our beloved Heavenly Mother and Father, the Great Soul of Divine Love.

Love comes through our feelings and not our mind, as we've all been wrongly led to believe.

**Feelings First; then comes The Truth; then comes Love.**

**LUMINOSITY of the SOUL can be LIKENED to the FOLLOWING:**

**Soul Condition within Planes of Disharmony: MoC 50+/-**  
**The soul condition of a soul that is obliged to spend some time within the ‘hells’ may be no bigger than a dried garden pea. There is no luminosity and the environment is total darkness.**

**The typical soul condition of humanity is such that they generate the luminosity of a single candle. MoC 210**

**A soul that has grown in love and soul condition equivalent to the 8<sup>th</sup> sphere – the point of becoming at one with God, the luminosity of such a soul is equivalent to the midday sun.**

**MoC 1,000+**

LUMINOSITY of the SOUL grows with LOVE:

**DIVINE LOVE is a SUBSTANCE**

Angels actually do not have wings.

One's soul can grow from the condition of a dark dried up pea to that of a Celestial Angel by asking for and receiving Divine Love. Divine Love changes the essence of the soul to that of the Divine. Nothing else can do this.

**CREATOR,  
MOTHER,  
FATHER,  
GOD.**

Divine Love is delivered through the Holy Spirit, should you ask for Their Love.

Your soul can be likened to a plasma ball.

Soul releases errors and negative emotions via one's Feeling Healing with Divine Love.

### **DIVINE LOVE – what does it do?**

The divine gift from asking for and receiving Divine Love will steadily, but with certainty, raise one's quality of life and also of all those around such a person who is seeking and receiving this Love.

The receiving of Divine Love, which is a substance, with certainty, progressively:

- Raises one's love for those around them, whilst embracing one's Feeling Healing.
- Raises one's perception of all things – naturally grows one's intelligence – soul intelligence.
- Enables one to feel and resolve negative emotional issues more readily during Feeling Healing.
- Humility becomes self evident. Humility enables one to feel their errors and emotions.
- Divine Love strengthens one's resolve to express errors, emotional injuries and untruths.
- Divine Love with Feeling Healing to remove emotional errors, enhances one's health.
- Divine Love enables one to become more childlike – not adult serious at all times.
- Divine Love raises one's capability of feeling – no longer needing to be mind controlling.
- By becoming feeling orientated, one no longer is mind / intellectually dominated.
- The strength to fight and overcome sin and error is strengthened through the Divine Love.
- The Law of Compensation process is more resolved by Feeling Healing with Divine Love.
- Receipt of Divine Love grows one's faith, beliefs become faith and then knowing.
- As our faith grows our intensity to ask and then receive Divine Love grows.
- We begin to follow our passions and desires, no longer fear and mind driven.
- Truth being told at all times then progressively becomes a way of life.
- Our quality of life blossoms, our finances and relationships prosper.
- Man creates his own environment, seeking Divine Love can vastly improve one's environment.
- Health carers receiving Divine Love enhance healing outcomes beyond comprehension.
- Receiving Divine Love may assist in bringing a struggling marriage back into harmony.
- You progressively become dependent upon our Heavenly Parents, not self dependent.
- Personal growth in love directly assists the soul condition growth of one's children.
- Divine Love assists one's rate of soul condition to progress whilst embracing Feeling Healing.
- Divine Love is a substance that changes the human soul to that of the Divine.
- Without Divine Love, one cannot progress into the Celestial Spheres (8<sup>th</sup> sphere and higher).
- Divine Love, with Feeling Healing, enables everlasting Love and Life in the Celestial Heavens.

“The Law of Compensation doesn't operate on isolated actions, but on the overall condition of people's souls, because the deeds are the consequence of this condition. Our behaviour is the reflection of our souls. Never see isolated deeds, always see souls whose condition leads to certain deeds. It is the soul condition which determines the motive and consequently the action. It is our lack of trust in God, this ultimate and definitive trust, which only soul development may give us. This lack is why we suffer.”

Judas of Kerioth 5<sup>th</sup> October 2001

As you grow in love, illness issues abate, financial security improves, and your treatment of your fellow man is the same as how you would like to be treated. You grow in natural intelligence, your perception on many subjects becomes profoundly more loving and supportive of and for your way of life and how you interact with your fellow man.

This quality of life and love permeates and extends into every facet of your physical life and continues to grow as you progress on your journey within the spirit world.

Your capabilities to ask for and receive Divine Love is a gift between you and your creator, God. You do not need an intermediary, nor do you need to join with any organisation. This is your own personal journey and experience. You can share this with others, but no one can take it away from you.

This Love will elevate the human soul to a condition that it may perceive the spiritual truths which God has waiting to be revealed to His children who aspire to understand the nature of the divine and what their true relationship to Him and their family of souls is.

“Keep faith with God, and be open to Their Love, and you will overcome with confidence and, indeed, peace of mind, optimism and happiness, those circumstances that seem to mar the fulfilment of your years.” Mary (mother)

## **The Only Prayer That Man Need Offer to the Father:**

**The Prayer for Divine Love**

(as given within the first century)

2 Dec 1916

I am here, Jesus

<http://www.youtube.com/watch?v=Pg6p3rivAZw>

**P.438 Book of Truths through James Padgett / Jesus**

Let your prayer be as follows:

**Our Father, who art in heaven, we recognize that You are all Holy and loving and merciful, and that we are Your children, and not the subservient, sinful and depraved creatures that our teachers of old would have us believe. That we are the greatest of Your creation, and the most wonderful of all Your handiworks, and the objects of Your great soul's love and Tenderest care.**

**That Your will is that we become at one with You, and partake of Your great love which You have bestowed upon us through Your mercy and desire that we become, in truth, Your children, through love, and not through the sacrifice and death of any one of Your creatures.**

**We pray that You will open up our souls to the inflowing of Your love, and that then may come Your Holy Spirit to bring into our souls this, Your love in great abundance, until our souls shall be transformed into the very essence of Yourself; and that there may come to us faith--such faith as will cause us to realize that we are truly Your children and one with You in very substance and not in image only.**

**Let us have such faith as will cause us to know that You are our Father, and the bestower of every good and perfect gift, and that only we, ourselves, can prevent Your love changing us from the mortal to the immortal.**

**Let us never cease to realize that Your love is waiting for each and all of us, and that when we come to You, in faith and earnest aspiration, Your love will never be with-held from us.**

**Keep us in the shadow of Your love every hour and moment of our lives, and help us to overcome all temptations of the flesh, and the influence of the powers of the evil ones, which so constantly surround us and endeavour to turn our thoughts away from You to the pleasures and allurements of this world.**

**We thank You for Your love and the privilege of receiving it, and we believe that You are our Father --the loving Father who smiles upon us in our weakness, and is always ready to help us and take us to Your arms of love.**

**We pray this with all the earnestness and longings of our souls, and trusting in Your love, give You all the glory and honour and love that our finite souls can give.**

**Amen**

**MoC**

Note: The 'false teachers' are our parents, as they are also the 'evil ones'. Also, the evil ones, being those parts of one's mind, that are controlling you.

Our Father, who art in heaven, we recognize:

That Thou Art--art all holy and loving and merciful, and that we are the children of Thy care and not the subservient, sinful and depraved creatures that our false teachers would have us believe.

That we are the greatest of Thy creations and the most wonderful of all Thy handiwork, and that we are the objects of Thy great Soul's love and tenderest care.

That Thy will is that we become at one with Thee and partake of Thy great love which Thou hast bestowed upon us through Thy mercy and desire that we become, in truth, Thy children; and not through the sacrifice and death of any one of Thy creatures, even though the world thinks that one Thy equal and a part of Thy godhead.

That Thou will open up our souls to the inflowing of Thy love, and that then will come Thy holy spirit to bring into our souls, this, Thy love in great abundance until our souls may be transformed into the very essence of Thyself; and that there may come to us faith--such faith as will cause us to realize that we are truly Thy children and that we are one with Thee in very substance and not in image only.

Let us have such faith as will cause us to know that Thou art our Father and the bestower of every good and perfect gift, and that only we, ourselves, can prevent Thy love changing us from the mortal to the immortal.

Let us never cease to realize that Thy love is waiting for each and all of us, and that when we come to Thee with faith and earnest aspirations, Thy love will never be withholden from us.

Keep us in the shadow of Thy love every hour and moment of our lives, and help us to overcome all temptations of the flesh and the influence of the powers of the evil ones who so constantly surround us and endeavor to turn our thoughts away from Thee to the pleasures and allurements of this world.

We thank Thee for Thy love and for the possibility of receiving it, and believe that Thou art our Father--the loving Father who smiles upon us in our weakness, and is always ready to help us and take us to Thy arms of love.

We pray thus with all the earnestness and longings of our soul, and trusting in Thy love give Thee all the glory and honor and love that our finite souls can give.

**A Personal Adaptation of the Prayer for God's Divine Love:**

Joseph Babinsky

*Our Father, who art in heaven, I recognise:*

That You are holy and loving and kind, and that I am the child of Your care.

That I am the object of Your great Soul's love and tender most care.

That Your will is that I become at-one with You and partake of Your great love, which You have given me through Your desire that I become, in truth, Your child.

That You will open up my soul to the inflowing of Your love, and that then will come Your holy spirit to bring into my soul, this, Your great love in great abundance until my soul may be transformed into the very essence of Yourself; and that there may come to me faith – such faith as will cause me to realise that I am truly Your child and that I am one with You.

Let me have such faith as will cause me to know that You are my Father and the giver of every good and perfect gift, and that I only can hinder and stop the river of your inflowing love.

Let me never cease to realise that Your love is waiting for each and all of us, and that when anyone comes to You with faith and earnest aspirations, Your love will never be withheld.

Keep me in the shadow of Your love every hour and moment of my life, and help me to remain completely focused on this, your ever-present and unconditional love.

I thank You for Your love and for the possibility of receiving it, and believe that You are my Father – the loving Father Who smiles upon me always and is always ready to help me and take me to Your arms of love.

I pray this with all the earnestness and longings of my soul, and trusting in Your love give You all glory and honour and love.

**The opening up of the soul permits a permanent exchange with Divinity, a permanent recharge of this healing energy that allows not only the re-establishment of lost health, but the continuity of health, providing such a perfect balance, even in the physical body, that noxious agents like bacteria and virus cannot find any opportunity to unchain pathological reactions, which we commonly call illness.**

**But it is true that people without the benefit of Divine Love would lack the protective shield, which the intrinsic healing energies of Divine Love provide for those who pray for our Heavenly Father's Grace.**

**Judas – August 19<sup>th</sup>, 2001**

**The BEAUTIFUL MIRACLE:**

5 Oct 2012

**The DIVINE UNIVERSE**

The way in which the Spirit conveys the Divine Love into the soul is a beautiful miracle. The attribute of mortal soul prior to incarnation has to it, a potential within it that is part of its formed nature. After the soul incarnates this potential remains part of the soul and even if the forming personality is unaware of such a soul potential, the potential still exists. The Divine Love is entirely suitable in its energy of harmony to be the energy that a mortal soul can utilise. The Spirit covers the spirit body when the individual sincerely asks the Soul of God for the Divine Love and this covering of the spirit body is where the dynamic of this beautiful miracle takes place. From the internal longing of the individual for the Divine Love this activates the Spirit Law that activates the Spirit that is then attracted to the spirit body upon which the Spirit material of the spirit body draws the Divine Love in to its soul and this union completes. The key here is to gain a perceptive insight into realising that the spirit body is not an inert body but that it is living and has activity, recognisable from its first forming from the Spirit Law that materialises a spirit body. The Spirit and the spirit body to give an analogy are like two attracting magnets and when the surface of the spirit body is touched by the Spirit, this causes the automatic response of the Divine Love to permeate into the attribute of soul and so begins the transformation of energy from the natural into the Immortal Divine Harmony. If the individual continues the receipt of Divine Love the energy that is Divine Love actively begins to change the soul and this is felt in the spirit body systems and can produce feelings of love and elation. The spirit-mind begins to change as all spirit body systems are affected by the changed condition now experienced in the soul as the soul becomes living and vital. In one's progression of this Divine transformation, the soul will mature enough from the amount of Divine energy it receives and at that moment the surface of the spirit body and the Spirit are continuously attracted to each other, then one is living in the presence of our Mother and Father in perfect harmony, and this clarifies the truth about what it means to be truly at-one with God.

**Soul within

To liberate one's real self, one's will, being one's soul, is by embracing Feeling Healing so to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.

**Our salvation IS by embracing Feeling Healing with the Divine Love.**

**God's Divine Love: Pray for it, ask for it, and receive it.**

**Please Mother and Father, may I receive Your LOVE.**

**“Every day is a day of devotion.”**

**Follow your heart, follow your love and do that in loving action, your inner love leads in your asking the Soul of God to receive a little of the Love to strengthen one's resolve to heal.**

**“I love you Father.” “Let the Divine Love proclaim its energy into my soul.”**

**“Mother – Father, I desire your Love and I am loving you.”**

**“Soul God, I love you and I love receiving and experiencing your Divine Love.”**

**“True Soul God, I am here, I am aware of your Love. Please hear my aspiration for your Love and as I approach you from my soul, I can feel your Love in the way that you are loving my soul.”**

**Try it; give the Feeling Healing and Love a go! If you want to shine, receive the Love.**

**One can simply receive the Love without following any religious or spiritual teaching taught by man!**

**Emotional errors and injuries cause encrustment around the soul, the soul is never damaged however, the encrustments retard love energy flow to and from the soul. Feeling Healing melts such injuries.**

### **Three Great Truths:**

- **God is Soul, being our Heavenly Mother and Father;**
- **that each individual soul is a duplex – both male and female;**
- **and Feeling Healing with Divine Love is the pathway to Paradise.**

**FEELING HEALING and SOUL HEALING with the DIVINE LOVE:****James Moncrief Publications:****all publications are free downloads:**<http://divinelovesp.weebly.com/my-free-books-and-free-padgett-messages.html>

It is suggested for one to consider reading as follows:

**Speaking with Mary Magdalene and Jesus – books 1 – 4**

These four books encapsulate the second of the revelations with the first having been introduced by James Padgett one hundred years previously. These four books provide a wide range of guidance that has never previously been made available.

**Paul – City of Light**

As a gentle intro into the Divine Love and Healing; being James Moncrief's first novel and it's been criticised as being too heavily clichéd, but that's the point because it's a reflection of how he was back then.

**Ann and Terry**

For an example of people who might want to immediately start working on them selves and doing their Healing.

**Feeling Bad? Bad feeling are GOOD**

For more understanding about our denial of our feelings and why we should not deny our feelings, and it includes how it all came about for James, using himself as an example.

**Feeling bad will make you feel BETTER – Eventually!**

This includes specific examples of Marion and James working on expressing particular bad feelings, again with the hope that it will help others gain something of an idea as to what's involved in doing your Feeling Healing.

**Sage – and the Healing Angels of Light**

Through Sage who's 13 years old, the story is primarily about the two aspects of healing; that being, with the help of our angels, and the full Healing we can do by looking to our feelings for their truth.

**Religion of Feelings  
Feeling Healing**

**Welcome to LOVE – the Religion of Feelings  
you can heal yourself through your feelings**

So these books, including the four Speaking with Mary Magdalene and Jesus books, provide the essence of it all and are examples of James' work. Then it's up to whatever takes one's fancy. Other reading to consider may include:

**The Padgett Messages being published as:****The True Gospel Revealed Anew by Jesus volumes 1 – 4****Book of Truths by Joseph Babinsky****The Urantia Book**

**Release one's pain through expressing one's feelings.**

**in conjunction with**

**Longing for the Truth when also longing for Divine Love.**

**FEELING HEALING with DIVINE LOVE is SOUL HEALING:**

*A collection of 'papers' that draw together specific topics including all of the above and more from other sources of information and revelation designed to help increase one's awareness about why we have the problems we do and how to heal them, all whilst living a more healthy and sustainable life. They provide a brief snapshot of the more complicated topics and issues.*

**Firstly, consider discovering the truth of your emotional pain through Feeling Healing.**

**Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing.**

**Primary and most important readings are the writings of James Moncrief.**

**Then consider the Padgett Messages, and then The Urantia Book.**
