Using Energy Field Imaging to show disease

CBS's PIP energy field tool shows
the effects of CAM modalities.

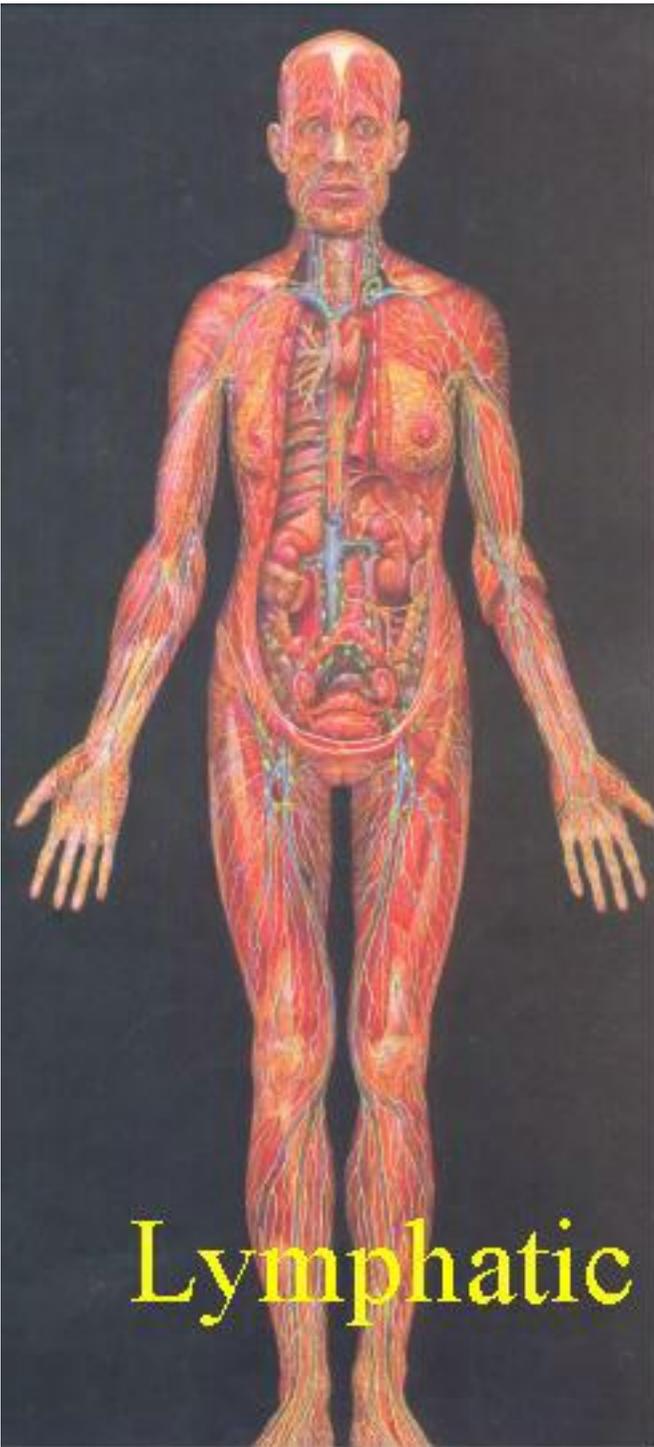

UNESCO Chair World Peace Centre The CBS HQ in Exeter UK

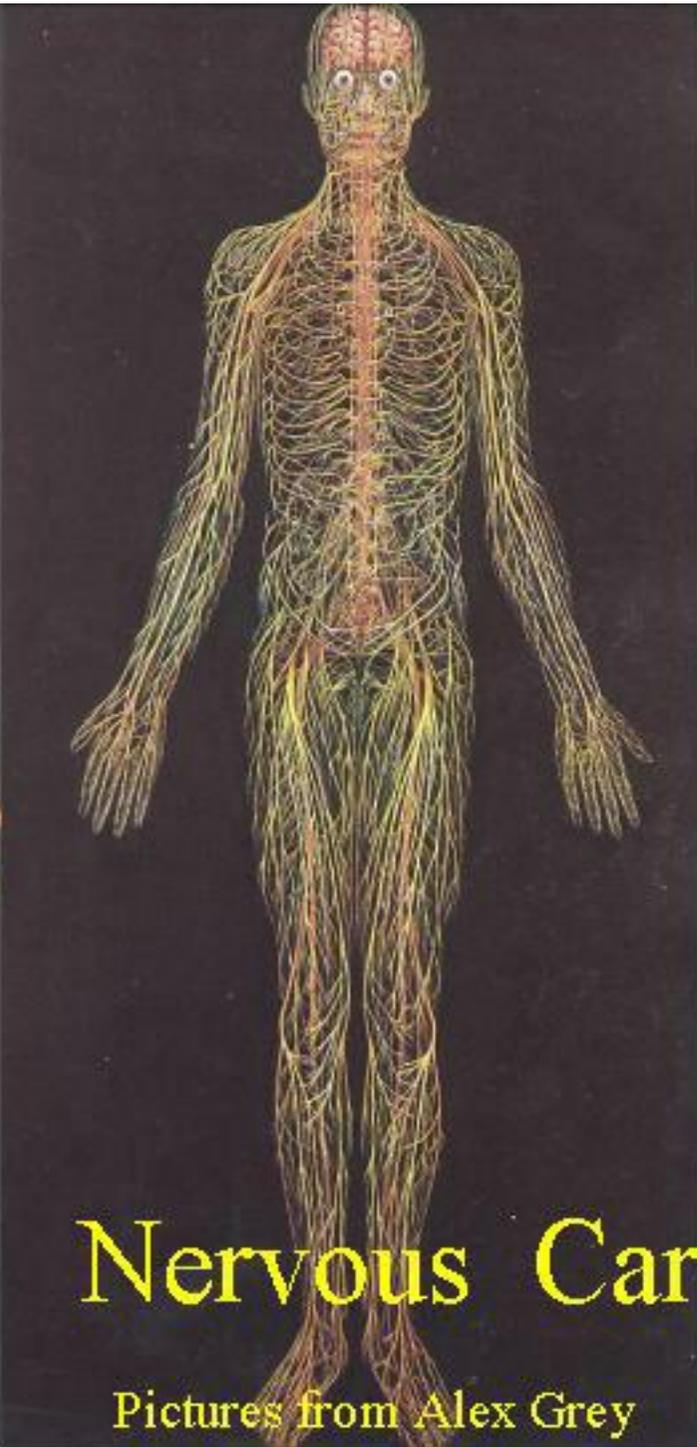

Centre for Biofield Sciences (CBS).

- CBS is creating a tool box of energy field assessment technologies to help assist the integrated therapy team in evaluating or triangulating an individuals health trajectory™
- This process is aided by comparison of scans to CBS's Atlas of HEF and biofield maps and data that details the stage of onset of each disease state.
- We are now moving away from *problem* and *system* based medicine to *solution* based medicine.

Universal concurrence on HEF

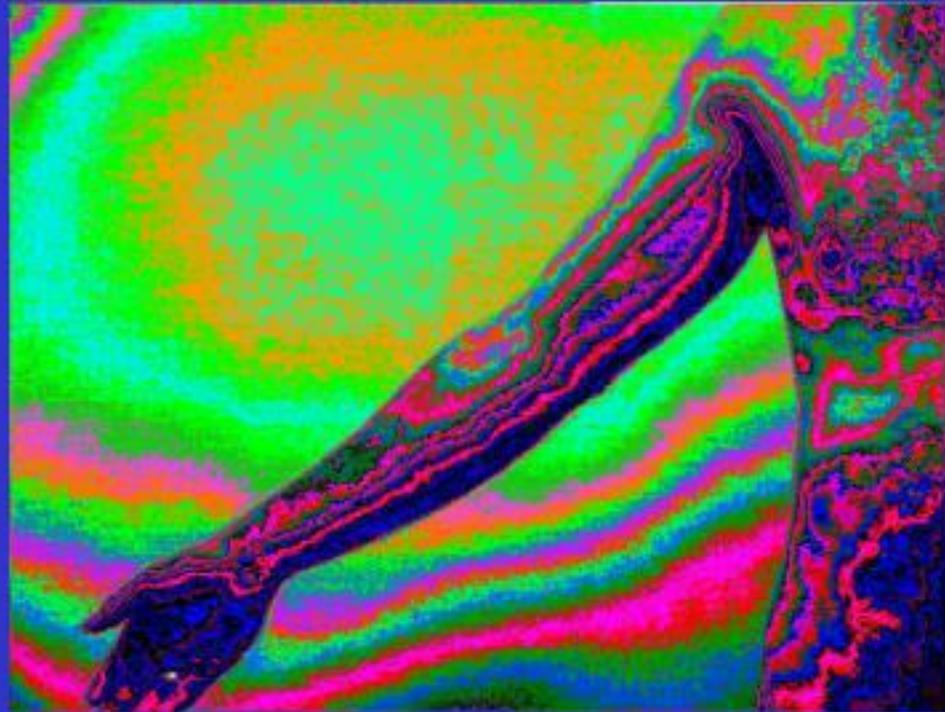

- Anatomy and Physiology of the human body is uniform wherever a Dr. is from.
- In the same way all TCM and CAM practitioners work with the same meridian channels.
- Diverse gnostic and yogic traditions recognize the 7 major plexii or chakras.

The Meridians – *Energy Channels*

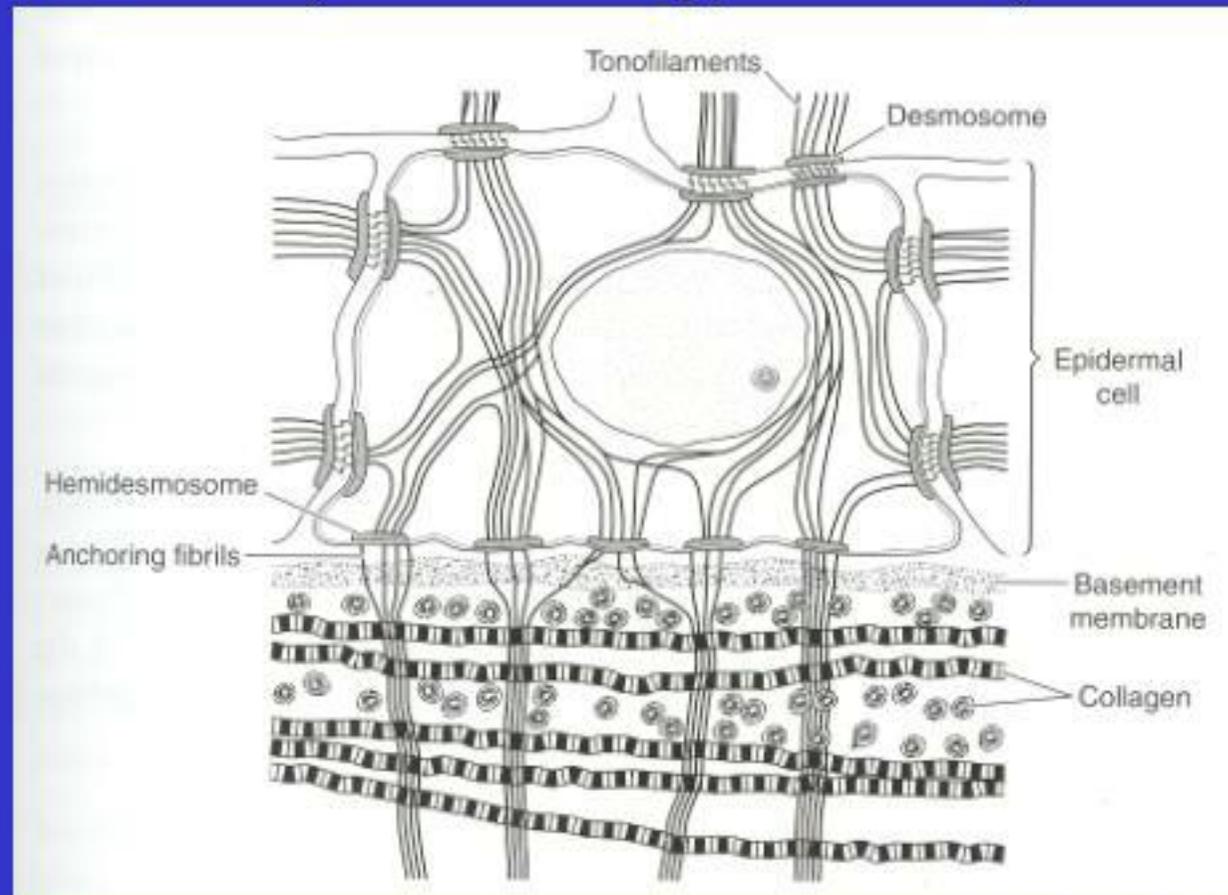

- Pioneering experiments
 - Voll – EAV
 - Becker – DC potential over meridian
 - Pierre de Vernejoul - Injected radioactive tracer into acupoints

PIP image (Filter type: *Monef*) taken of patient's right arm appears to highlight energy channel which may indicate meridian

Collagen fibres – pathway for meridians

- continuous connective tissue running throughout whole body.
- Liquid crystalline - Forms ideal conductor for transfer of many of these bio electromagnetic energies

CBS Has Identified 7 Stages of Each Disease State

- Primary pre-symptomatic
- Secondary pre-symptomatic **Pre-medical**
- Primary Symptomatic
- Symptomatic with pain **medical**
- Acute
- Chronic
- Terminal or remission **Post-medical**

SQUID – John Zimmerman

The fields studied with the SQUID are the same fields that sensitive individuals have talked about for centuries - Oschman

Biolumanetics and VRIC

- Patrick Richards
- Identify relative health of an individual based on the coherence of photo
- Homeopathic applications

Luminator

Acu-point detection

Reinhold Voll – Catalogued many more acupuncture points than classically acknowledged using GSR – EAV 96000 ohms on acupoint – 2 000 000 normal

Acu Scanner/ Acuvision -04

- Reveals induced luminescence of points – Kirlian-based approach
- Can assess biological state

Harry Oldfield developer of PIP and ESM

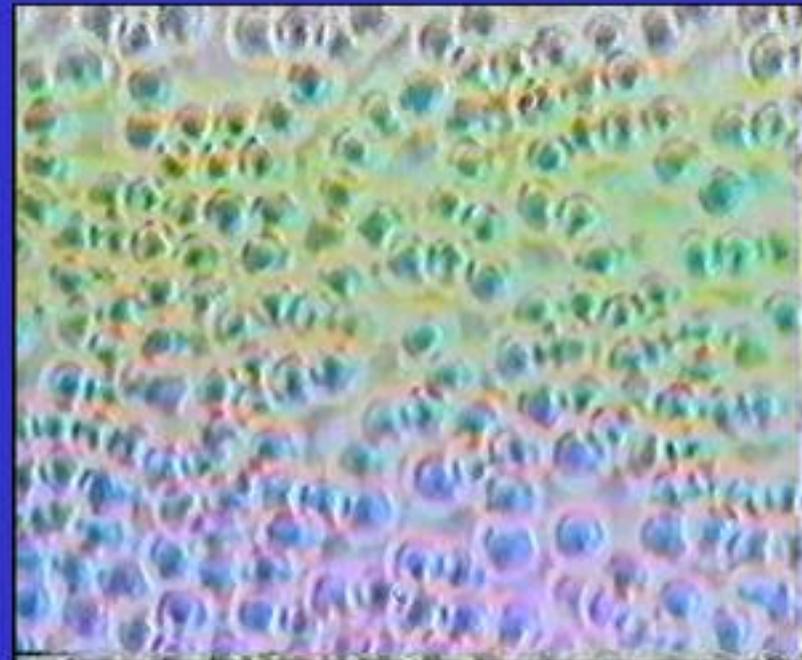

- 2002 elected to the Royal college of microscopy.
- Qualified homeopath.
- Inventor of electro-crystal therapy, poly-contrast interference photography and electro transplant therapy.

'LIGHT & HEALTHY LUNGS'

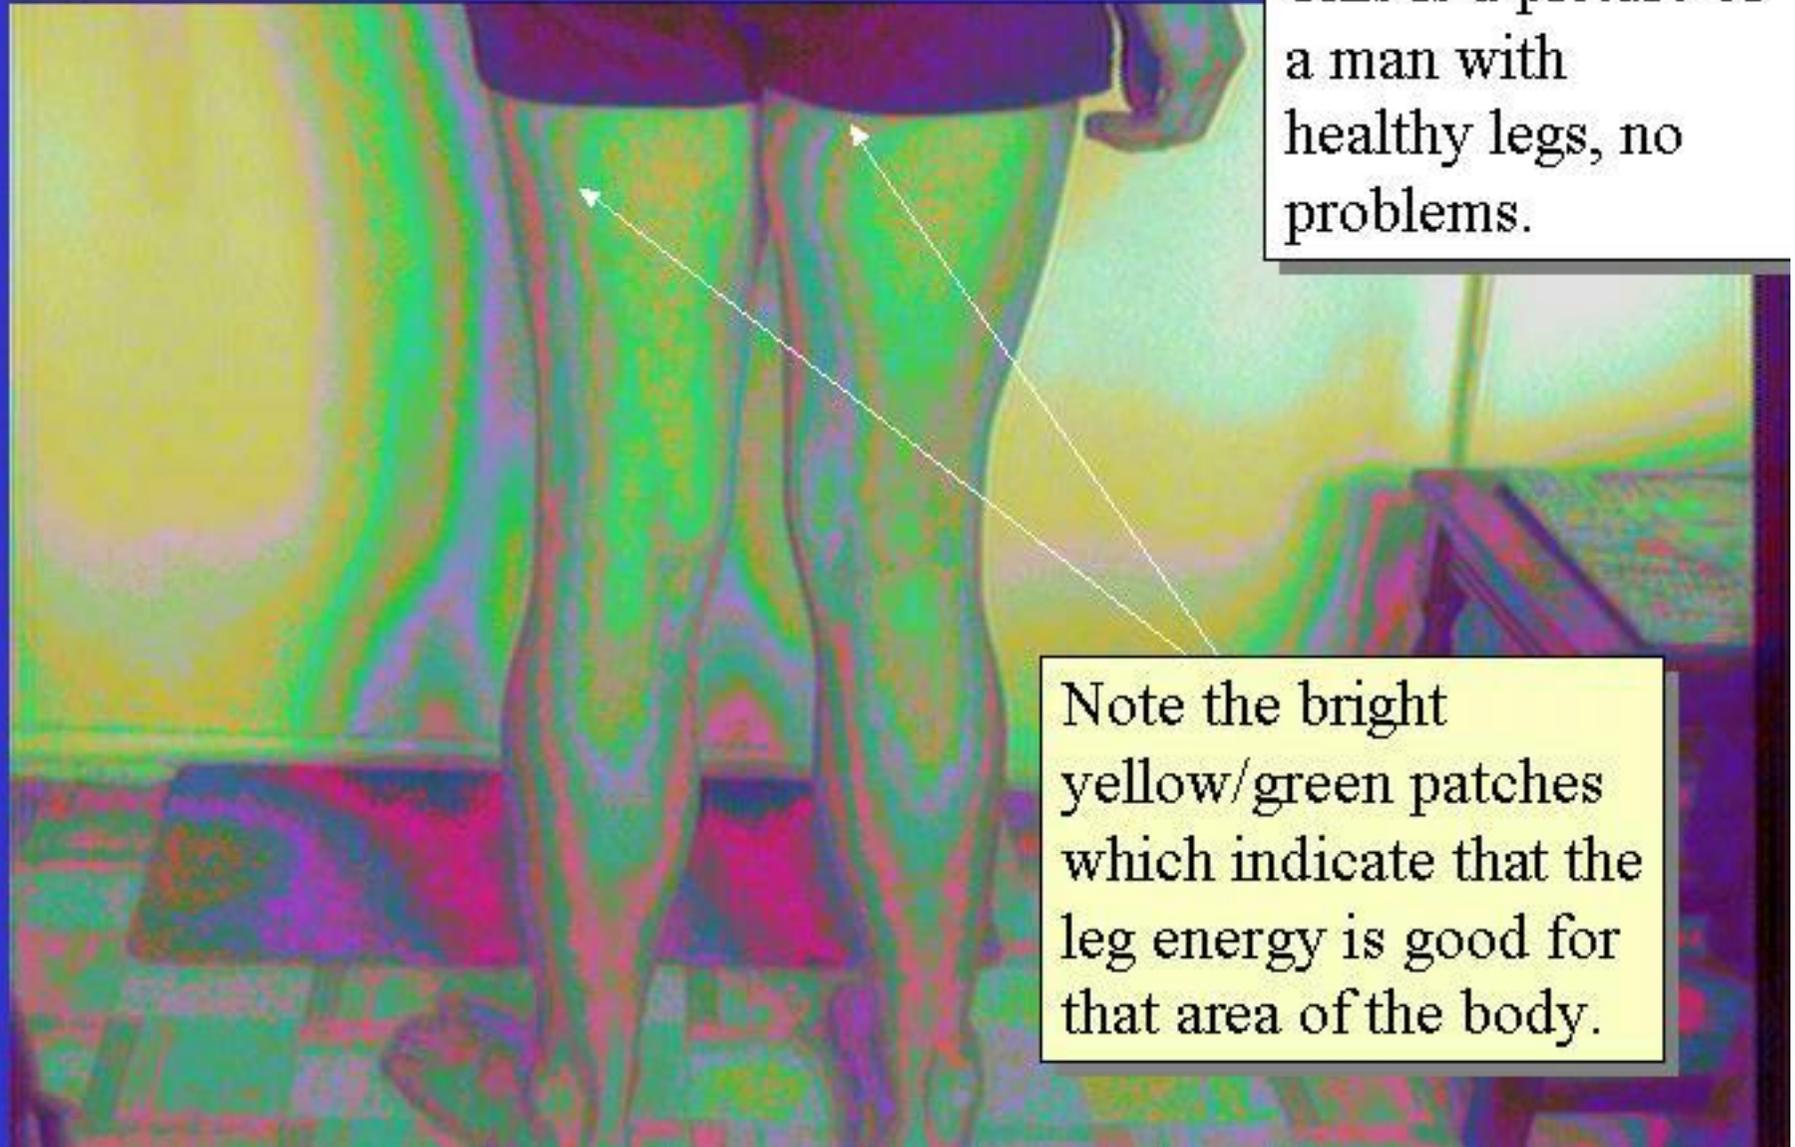

This is a picture of a man with healthy lungs, no problem in that area.

Note the bright yellow/green patches. This indicates that the lung energy is good in that area of the body.

VIBRANT, SYMETRICAL & HEALTHY LEGS

This is a picture of a man with healthy legs, no problems.

Note the bright yellow/green patches which indicate that the leg energy is good for that area of the body.
