

Nikola Tesla on Death, God and Religion

6 April 2025

“Our FEELINGS are our HEALING wisdom, the wisdom within. Only through the TRUTH of our FEELINGS, will you know the TRUTH of YOURSELF.” Samantha McCabe 6 April 2025

Nikola Tesla outlined the reality and structure of the spiritual system and our journey embracing death, God and religion in an interview in the early 1940s without having access to revelatory writings that are now available throughout the Library Download page of www.pascashealth.com:

Firstly, consider discovering the truth of your emotional pain through Feeling Healing. Secondly, consider longing for our Heavenly Parents' Love as you progress with your healing. Primary and most important readings are the writings of James Moncrief. Then consider the Padgett Messages, and then The Urantia Book.

Nikola Tesla (Serbian, 10 July 1856 – 7 January 1943) was a Serbian-American engineer, futurist, and inventor. He is known for his contributions to the design of the modern alternating current (AC) electricity supply system. Born and raised in the Austrian Empire, Tesla first studied engineering and physics in the 1870s without receiving a degree. He then gained practical experience in the early 1880s working in telephony and at Continental Edison in the new electric power industry. In 1884 he immigrated to the United States, where he became a naturalised citizen.

What follows is the transcript of an interview with Nikola Tesla that has only recently been found and published (2024).

BANNED interview for 83 years! Nikola Tesla on LIFE AFTER DEATH, God and the Universe

NIKOLA TESLA'S INTERVIEW ON LIFE AFTER DEATH, GOD, AND RELIGION – FOUND AFTER 83 YEARS

Nicola Tesla, one of the greatest geniuses in history not only transformed the world with his inventions but also challenged the limits of human thought on essential questions in an interview forgotten for over 80 years (1940s). Tesla shares his views on life after death, God, and the relationship between science and spirituality. For him death was not an end, but an energetic transition, a shift in frequency that revealed the continuity of existence.

This perspective not only touched on profound mysteries of our existence but also proposed a link between the visible and the invisible, between science and what many call the Divine. Tesla believed that human consciousness and the universe were connected by a greater force where everything was energy in constant motion.

Today, these words resonate more than ever challenging our understanding of who we are and what awaits us beyond the physical horizon. Whether you are someone seeking answers or simply fascinated by grand ideas, this lost interview with Tesla invites you to explore a vision that uniquely connects science, spirituality and the essence of life.

Nicola Tesla beyond being a visionary genius who changed the course of Science and Technology had a unique perspective on profound existential questions such as what happens after death he did not view life

solely through the lens of physical matter. For Tesla the universe was a grand field of interconnected and dynamic energy. This vision went far beyond the boundaries of traditional science flirting with concepts of spirituality and transformation. For him death was not a final point but a transition, just like an electric current changes direction. Life could follow another flow perhaps in forms we do not yet understand.

Tesla believed that our existence was guided by universal laws of energy and vibration and that these principles could hold the key to understanding the continuity of life in unseen dimensions.

Tesla's thoughts on energy were fascinating. He viewed humans as electrical entities. Something that would not be extinguished with the end of the physical body. Inspired by the law of conservation of energy, he argued that nothing truly disappears, it merely transforms. For him the soul or what many call the vital essence could not be destroyed, only reshaped into a new frequency. It's like imagining a radio tuning into a different station where the music doesn't stop, it merely shifts frequency.

For Tesla, this was more than a theory it was a conviction that harmoniously united science and mystery.

Nicola Tesla had a peculiar way of viewing the universe. For him everything around us, including ourselves, was composed of energy frequency and vibration. This idea wasn't just a catchphrase but a key to understanding reality in its entirety. According to Tesla, life and death were not opposites but parts of the same energetic cycle where consciousness could change frequency like a radio station tuning into a new wave.

Imagine the universe as a grand orchestra. Each element has its own note, its unique vibration. When the physical body stops playing, the melody of our essence continues but on a different scale, perhaps in dimensions beyond our current senses.

Tesla with his deep knowledge of electricity and vibration seemed to believe that what we call death was merely a transition, a shift to an energetic state invisible to the eyes but perhaps accessible through technologies or perceptions yet to be discovered. This vision was not limited to individual transformation. Tesla saw the connection between human energy and the universal energy field as something continuous and infinite for him. Death was like a drop returning to the ocean the flow of energy is not interrupted but simply reorganised in a new context, thus consciousness would not be confined to the physical body but free to transcend boundaries and explore other realities where new laws govern existence.

Tesla unified science and spirituality into a single thought showing that the end could be just the beginning of a new symphony.

Nicola Tesla did not see death as an abrupt end but as part of a continuous process almost like turning the page of a book. For him the idea of other dimensions was not just philosophical speculation, it was something that could in a way be explained by the law of energy and vibration that he studied so deeply. Tesla was accustomed to dealing with the invisible radio waves magnetic fields forces no one could see but which shaped the world.

To him, life after death could very well follow the same principle. Imagine a world where what we call the end is merely a change of channel. For Tesla death was exactly that, a transition to a new vibrational frequency. He believed that in dimensions we cannot yet perceive the energy of life continues to exist following other rules but still governed by the same principles that rule the entire universe energy frequency and vibration.

What is most striking is how Tesla connected these ideas to something greater. He saw the soul not as something ethereal and intangible but as a form of energy that never extinguishes, only transforms. This

SIX ADULTS in a FAMILY CAR!

In 2023, James who lives in Phillip Island in Victoria, Australia, was visited by five spirit ladies from the fifth spirit Mansion World. For the travel minded, the time needed to travel from any of the seven spirit Mansion Worlds or three Celestial Spheres is typically less than ten minutes. James is extremely mediumistic. The five were companions of Isabella. Isabella had lived in London when James worked in London around the 1990s. At the time of this visit, James had to go to Melbourne so he invited the five spirit ladies to come along with him. As James is six foot eight inches high (203 centimetres), John asked James how did that you all fit in? James promptly replied that “Isabella sat inside me!”

perspective made him not only a visionary scientist but someone who in a way bridged science and mysticism by thinking of death as an energetic continuation rather than a final point.

Tesla invited us to imagine a universe where consciousness transcends the physical body exploring realities beyond our current comprehension. Nicola Tesla with his unique genius saw the world in a way that few dared while many of his contemporaries sought to separate science from religion, he took a different path. For Tesla, science and spirituality were like two sides of the same coin complementing each other in the quest to understand the essence of existence when he spoke about God.

Tesla did not limit himself to traditional definitions he saw the universe as a carefully structured work guided by intelligent and organised forces. For him what we call God was not a separate being but a force present in everything a universal intelligence manifested through natural laws. Tesla explained this as a harmonious system of energy where each part played its role within a greater pattern of creation.

This vision set Tesla apart from conventional religiosity. He did not humanise God but saw it as the very functioning of the universe an essential energy that connects and balances everything. For him the laws of physics were a reflection of this creative force. It was as if every scientific discovery was a wind into better understanding the grandeur of this invisible intelligence. Tesla saw no contradiction between faith and science. On the contrary he believed that a deep understanding of the universe could only be achieved by uniting these two pillars.

This union inspires us to look at the cosmos with an open mind and a curious heart. Nicola Tesla believed that science and spirituality were not opposing forces but gears in the same mechanism that moves the universe. He viewed these two fields as complementary, each with its own way of exploring the invisible forces surrounding us while science sought to uncover the rules that keep the cosmos functioning. Spirituality provided a deeper meaning to those discoveries connecting them to something greater than mere matter.

For Tesla everything in the universe, including ourselves, was energy in constant motion. He saw vibrations and frequencies as a kind of bridge between the physical and the spiritual worlds. This idea guided his theories where even the human body was seen as a kind of antenna capable of receiving and connecting with universal energies, provided we were in harmony with nature and our internal balance.

Tesla's thinking resonated with Eastern philosophies which for centuries have emphasised the importance of maintaining energetic harmony. He believed that by understanding and tuning into the right frequencies we could not only achieve a heightened State of Consciousness but also scientifically prove the existence of spiritual.

This integrative vision serves as a powerful reminder of how human knowledge need not be fragmented. For Tesla understanding the universe was an invitation to explore both the visible and the invisible, uniting logic and intuition reason and faith to achieve a broader comprehension of life. Nicola Tesla had a unique way of perceiving the relationship between science and religion while many scientists of his time dismissed religion as outdated or superstitious. Tesla believed that spiritual principles could be explained by scientific laws even if those laws were beyond our understanding.

At the time, to him ancient religious traditions were not merely stories or myths but attempts to describe profound phenomena that science had yet to decipher. At the same time Tesla criticised the over materialistic view of modern science which seemed to ignore the subtler dimensions of existence such as the invisible energies and vibrations he considered fundamental to life. He believed that the Universe operated on levels that escaped our instruments and methods but would eventually be revealed.

Our FEELINGS are our SUPREME GUIDES:

Feelings are what guide us through our ascension of truth. So they are really our Supreme Guides. Many people look for a person, spirit, angel, even God, for supreme guidance, however it's all right there already built in – in our feelings. **We just have to submit to them, allowing them to take us where they will, expressing all the parts we want to express, letting the emotion drive that expression if it's there to be expressed, or just talking about all we feel and how feeling that feeling is making us feel – or, how we feel about having that feeling, all whilst longing for the truth of our feelings. Longing for the truth of our feelings is really: Longing for the truth of our self, because: we are our feelings. So life stirs up our feelings, we feel being alive; or, being alive means we are feeling, always feeling; and when we work out what and why we are feeling what we are, so then we know the truth of how we are. And over time the truth accumulates, and our mind expands our understanding of ourselves, all being driven from our feelings.**

Politics become the hope for man's salvation.

Cause no harm to others starts to emerge. Power overrides force.

Illness is developed by those man erroneous emotions that calibrate 200 and lower.

Armies around the world function on pride. Force is now dominant, not power.

Harm of others prevails, self-interest prevails.

Totally self-reliant, not God reliant.

Fear dominates all motivation.

Suicide is possible and probable.

At these levels, seriously harming others for even trivial events appears to be justifiable.

Poverty, unemployment, illness, etc., this is living hell on Earth.

This outline of the Map of Consciousness spells out the fact that while we live Mind-Centric and ignore and suppress our Feelings we cannot pass 499 MoC. Our mind being in control, as we have all been indoctrinated to live, is a glass ceiling. Humanity cannot heal anything, cannot be spontaneous, has no intuitiveness, and is locked into living in the deep hell states. This is why people find themselves in abusive homes, domestic violence, housing stress, homelessness and gross difficulties of all kinds. This is why we are easily manipulated, embrace propaganda and are being controlled by a few.

Women are closer to their feelings and that is why the nursing profession hosts a lot of women who calibrate a little over 500. These women are the healers in hospitals.

By aspiring to live Feelings First we are each breaking the glass ceiling and opening our potentials to grow in truth and love not only to 1,000 MoC, but to infinity. This is our destiny.

As communities embrace living Feelings First and having their minds to follow in supporting what their feelings are guiding them with, then ALL of the social ills of society will begin to mitigate. Please, do you comprehend the importance of what is being shared throughout this document?

EMOTIONS affect SPECIFIC ORGANS:

Emotional injuries and held errors have specific energy signatures and vibrations. So does each part of our physical body. Errors held within one's mind affect the flow of energies through one's spirit body, the spirit body is the template of the physical body. The resulting energy flow constrictions then initiate issues, and then pain, and then illnesses within the physical body.

The Map of Consciousness (MoC) table is based on the common log of 10. It is not a numeric table.

A calibration increase of 1 point is in fact a 10 fold increase in energy.

A calibration increase of 10 points is in fact a 10,000,000,000 fold increase in energy.

Thus the energy differentials are in fact enormous!

His vision was bold. He imagined a future where science would advance enough to illuminate spiritual mysteries demonstrating that what we call real religion and science were in fact two paths to the same goal.

Tesla with his ideas about energy and vibration seemed to anticipate concepts that would only later be explored in quantum physics such as the interconnection between consciousness and the universe. He was far ahead of his time linking the visible and the invisible in a unique quest for understanding.

Nicola Tesla had a perspective that challenged the boundaries of his era. For him, science and religion did not need to be on opposite sides but could walk together as parts of a greater quest for truth. Tesla believed that science had the potential to answer the deepest questions spirituality had always sought to explore. He saw the scientific method as a tool to uncover the mysteries religions had tried to understand for centuries.

Today, we begin to see that Tesla was far ahead of his time. With advances in quantum physics it has become clear that reality is much more complex and mysterious than we once thought. Ideas like interconnectivity and vibrational energy, concepts Tesla already explored in his theories suggest that science and spirituality may be moving in the same direction, all be it with different approaches. The distinguishing feature of Tesla's vision was his belief that the universe functioned as an integrated system.

He saw spiritual energy as something that could be understood through the same laws that explain electricity and magnetism. For him studying nature was like deciphering the manual of the Divine not as an external figure but as the force that gives shape and motion to everything that exists. If Tesla's ideas were taken more seriously we might today view science and faith as parts of a single journey of discovery.

His vision offers a path to unify these two worlds showing that as we advance in understanding the physical universe, we also come closer to grasping what lies beyond it, a universal force that permeates everything and everyone. Nicola Tesla was not just the genius behind inventions that shaped the future he was also an explorer of the unknown, fascinated by the mysteries of the universe. For him, science was more than a tool for creating technology, it was a window into greater truths beyond what human senses could perceive.

Tesla was convinced that the cosmos held secrets waiting to be unveiled, such as the existence of hidden dimensions and the essence of the energy that connects everything. His interest in these questions was no accident. Tesla believed the universe was governed by an invisible force, an energy present everywhere, accessible through understanding and the right tools.

This idea led him to create inventions like the famous Tesla coil, a practical glimpse into the power of wireless electricity but in his view this was just the beginning of a journey to comprehend the energy that powers not only machines but life itself. Tesla envisioned a world where this universal energy could be harnessed to transform humanity. For him accessing this ocean of energy would be the key to ending hunger, poverty and even conflict.

He believed this invisible force had an even deeper role helping to decipher the greatest enigmas of existence, such as the nature of the soul and what happens after death. If the soul were made of energy as he supposed then death would not be the end but a transition to another state of being.

Seven Spirit Earth Planes

We start our eternal existence by incarnating, even if it's just for a moment, onto a physical world like Earth. Then, when we die, we move into one of the seven Mansion Worlds, which can be likened to probationary worlds; worlds in spirit through which we correct all that's wrong within us. This includes if we've hurt other people or creatures very badly, we need to compensate for such suffering we've caused in others by suffering ourselves in one of the two lower Earth planes commonly called The Hells.

Other than the two lower Earth planes, we mortal spirits can't live in the other five Earth planes, they being reserved for the angels, nature spirits and other higher spirits.

The geography of the seven Earth planes is based on, or the same as, Earth. Whereas the geography of the seven Mansion Worlds is unique to each world. So, on Earth it's conceivable that your physical home could also be used by nature spirits, angels and higher spirits for their needs in the higher Earth planes, as well as being used by spirits confined to the two lower Earth plane – Hells. So, with these seven other dimensions all focused on your home – a lot could be going on! However, more than likely, the reality is that the lower two Earth plane hells have spirits congregating in the darker seedier places of the physical world, or in the prisons and more isolated places if they are to spend time in isolation. Whilst the nature spirits, angels and higher spirits would reside in their higher Earth planes mostly away from dense populations of humanity, so more in the remote unpopulated areas of the world. The planes, although each being separate from each other and the physical Earth and not interfering or influencing each other, still have some bleed-through of energy, thus affecting them in certain ways. As you can imagine, I don't think the angels would set up one of their main meeting and administration centres over one of Earth's most densely populated, corrupt and polluted cities. Not unless the higher angelic light, was in some way, to affect those people on Earth.

And by and large, we on Earth have very little consciously to do with any of the spirits or angels in the Earth planes. Some people feel emotionally, mentally, psychically and even at times physically disturbed or influenced by spirits in the two Earth plane, Hells, although really there is little direct interference from them. Such things as scary ghosts and knocking noises and all the dark scary poltergeist stuff comes from these wayward, lost, 'dark' and evil spirits still trying to have nefarious control over people on Earth, all of which is relatively harmless other than in exceptional cases. And mostly, we on Earth are totally unaware of our attending nature spirits and angels, and even more so of any higher spirits that might be visiting us or Earth.

For spirits and angels to get as physically close to us as they can, is by them being in the relevant Earth plane. During a Divine Love meditation or prayer for example, it's conceivable you might have in attendance and unbeknownst to you – dark spirits of the two Earth planes that want to try and redeem themselves so are brought to attend your prayer or meditation. You might have nature spirits there as well. You will have your attending angelic pair together with other angels and you might have other higher spirits who are required to help you in your thoughts or feelings to progress in your spiritual development. And then you might also have other Mansion World or Celestial spirits attending you in the relevant Earth plane, including even from the Hell planes should the spirits want to get as physically close to you as they physically can. A lot of Mansion World spirits descend into the lower two Earth planes, the Hell planes, so as to be close to their loved ones on Earth. They are able to do so without being affected negatively by the ever-present Hell plane spirits by adjusting their spiritual light in order to keep them at bay.

It should be noted that to qualify for life in the Hell planes comes about because of the state of ‘hell’ that already exists within the person who acts out such hell on others. We only cause harm to others because the harm was caused to us through our childhood. And instead of dealing with and honouring our own pain and taking full responsibility for it, we block it within ourselves thereby taking it out on others by making them suffer the same degree of pain we’re suffering. Those people who harm another person or creature will at some point suffer the degree of pain they have caused in the other person when the Law of Compensation acts upon them during their time in the Hells. They have to ‘balance the books’ so as to help them understand that it was wrong to do what they did to the other person or creature, for them to understand by directly feeling the pain they have caused. And once they have felt it all, ‘paid for their spiritual crime’ against the will of another, then they are allowed to resume regular spirit life in the Mansion Worlds rather than being kept separate in the Earth Hell planes. And somehow, during the time of ‘paying the price’, they are healed of their need to hurt and harm others so they can move into the regular spirit Mansion World population, no longer looking to, or with the need to, hurt and cause suffering in other spirits.

And it is highly possible that at some point, and even possibly quite soon, the same Laws of Compensation that apply to those spirits having to live and ‘do their time of suffering paying for their crime against another’, will be applied to and on Earth. So many bad people will suddenly be forced into the ‘hell of their own making, the hell that resides in them’. Which means doing some or all of their ‘Hell Time’ whilst on Earth, then completing it when they get to spirit by having to enter one of the two Hell Earth planes, or no longer needing to spend any time in them if they’ve ‘served their time for their evil crime’ when on Earth. Should the ‘earthing’ of the Law of Compensation come about, thereby bringing the Earth into direct alignment with the First Mansion World, then as you can imagine, things will drastically change here on Earth. With anyone merely having the intent, let alone actually carrying out the sinful act, having to immediately suffer compensation for their unloving action and motivation. With the compensation being lived by feeling such intense guilt and all the other bad feelings for the bad things you have done, coupled with pain so bad and so ongoing, you enter into a state of perpetual begging for forgiveness and to be released from your suffering – that very same suffering you caused another person or creature to suffer.

Seven Spirit Earth Planes

Each of the seven Earth spirit planes co-exist in the same space as we do in the physical. We of the physical world are of the coarsest and densest material. Starting with the 1st plane, the material within each plane becomes finer, more refined and of greater luminosity. Those within the lower planes cannot see or discern the presence of those in higher planes. Those of the higher planes can move about those in lower planes without them being aware of being present unless they wish to reveal themselves.

Each plane is predominantly for one group of spirit or angel personalities. However, there are sectors within planes where visitors from higher planes can move about freely. No harm or disturbance can be caused by any spirit personality upon another, not even those within the physical Earth existence.

3rd Earth Plane is the exclusive domain of Nature Spirits who are derived from creature life experience on Earth.

2nd Earth Plane – a ‘Sphere of Isolation’ from which one progresses having settled the Law of Compensation, allowing entry into regular spirit life in the 1st spirit Mansion World.

1st Earth Plane – the darkest ‘Sphere of Isolation’ and closest to Earth. A plane allowing spirits to live in their state of hell because of their grievous inclination to cause harm to others.

Seven Spirit Earth Planes

FOR 200,000 years ALL SCRIPTURES and Earth based INSTITUTIONALISED SYSTEMS are the WORK of the REBELLIOUS LANONANDEKS:

The rebellious Lanonandeks from within our local universe are these soul partner pairs:

THE EVIL ONES

Lucifer pair

**Lucifer being System Sovereign of Satania
Arrested and imprisoned 26 CE**

Satan pair

Caligastia pair

**Caligastia being Planetary Prince of Earth
Arrested and imprisoned 1993 CE**

Daligastia pair

7 A sector within the 7th plane is isolated from all others. This isolated sector is the spirit world prison for the rebellious Lanonandeks, all eight are accommodated within an English manor that is open to tourists on the Earth plane, and thus they have to endure the tourists.

6 The Greatest Show is on Earth! Since the formal ending of the Universal Contract governing the Rebellion and Default for Earth on 31 January 2018, the 6th Earth Plane has been given over to visitors from the greater universe, being those outside of our local universe of Nebadon. The greater universe consists of 100,000 local universes, consequently as Earth is the only humanity throughout that is in Rebellion and Default and is now to heal itself of this, the number of spirit visitors are enormous.

5 Similarly, the 5th Earth Plane has been given over to visitors from within our local universe of Nebadon, having 3,840,101 inhabited worlds. Each local universe being of a similar size. Midwayer spirits provide talks at regular intervals for visitors, and these talks are broadcast throughout the universes.

Earth's humanity is truly a fishbowl being observed by the peoples of all the universes.

EXPERIENCES, FEELINGS and TRUTH:

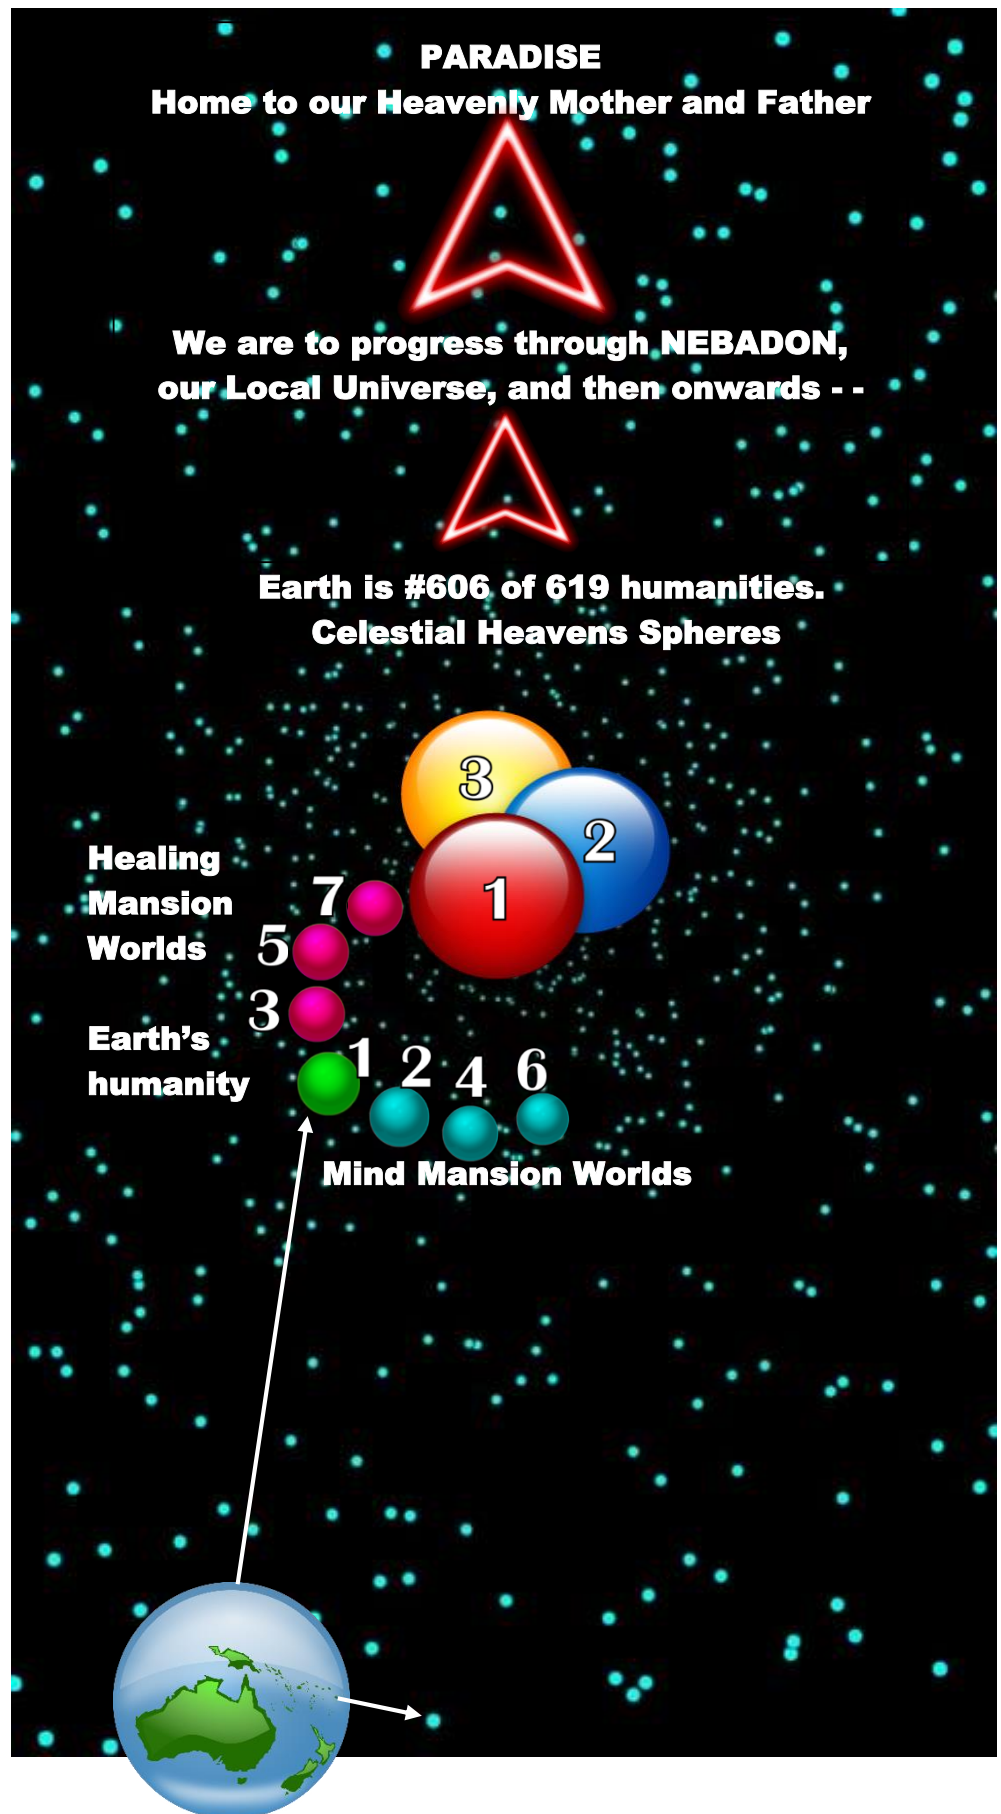

We look into the night sky and see around 1,000 stars that possibly are the hosts to the 619 humanities of our local system, Satania. Earth is on the outskirts of Satania.

When we 'die', and shed our physical body as we are spirits having a physical experience, we all arrive on the 1st spirit Mansion World.

If we continue to live through our minds, then we may progress to worlds 2, 4 then 6 and no further – dead end!

Should we embrace Feeling Healing with Divine Love, we will start our journey of Truth and Love, progressing through Healing Mansion Worlds 3, 5 and 7, then through the Celestial Heavens and onwards out through our Local Universe of Nebadon and on to Paradise, the home of our Heavenly Parents.

The spirit worlds are within a different dimension to the physical stars and earths. However, picturing the spirit worlds within the centre of our local system is only a visualisation aid and not necessarily accurate.

LEARNING for ETERNITY:

The journey that we are on and the life we are to live is a never ending adventure of learning.

We may gaze at the stars in wonder for they are homes to our neighbouring humanities. While we live through and worship our minds then we will stagnate. This time in history is the Great U-Turn.

We will now embrace our soul-based feelings, the truth within us, and have our minds follow. Not the other way as it has been throughout the Rebellion and Default with the mind suppressing our feelings and we being in denial of our condition.

Through our feelings we will put aside the limitations and barriers that our mind restricts us to. We will discover the wonder of ourselves and our amazing potential. We will recognise that females and males are equal and are truly partners in all we do.

We will discover that one soul manifests TWO personalities, one female and one male, and that our true partner is our other half of our soul!

We will become free!

My SOUL manifests TWO PERSONALITIES!

When we heal ourselves of our childhood suppression and repression, we THEN may become able to recognise who our soulmate / soul partner is.

While we remain living through our minds and not living feelings first and expressing our feelings as they arise, both good and bad, we remain bound in our rebellious nature that humanity has been in these past 200,000 years, rebelling against our soul and consequently our soulmate / soul partner.

Many will be astounded at how abusive and unloving they may have been to their soulmate / soul partner who is to be their companion for all of eternity, for their journey together home to our Heavenly Parents.

The injuries and errors that we are infused with during our early childhood forming years are the foundations of our social ills and physical illness that arise throughout our adult life.

We now know that through Living Feelings First which is engaging with our Feeling Healing that all these issues may be put aside. No other pathway or process can achieve this.

Tesla believed that science would one day have the tools to study these subtle energies shedding light on what we now consider mysteries.

Nicola Tesla had a restless mind always exploring what lay beyond the obvious among his most intriguing ideas was the possibility of alternative dimensions he believed that what we perceive with our senses is just the tip of the iceberg of a much larger reality for Tesla. The universe was like a grand symphony of frequencies and vibrations and he was convinced that these vibrations extended beyond what we can perceive. What makes his vision even more fascinating is that it was not mere speculation. Tesla grounded these ideas in his discoveries about energy and electricity.

He saw invisible frequencies like radio waves as clues to a greater reality decades before quantum physics popularized discussions about parallel universes. Tesla seemed to intuit it, that our reality could coexist with others each following its own rules. But Tesla did not stop there he believed that these dimensions might harbor consciousnesses or forms of life beyond our understanding directly linking this idea to the possibility of life after death. For him dying might be like crossing a door to a place where time and space operate entirely differently.

Many of his inventions, like the famous Tesla coil and his experiments with resonance were essentially attempts to touch these hidden dimensions he dreamed of creating devices that would allow us to interact with these alternative realities, turning the invisible into something tangible. His work paved the way for technologies like radio and even Wi-Fi showing that his fascination with invisible dimensions was far ahead of its time.

Nicola Tesla was always drawn to the deepest mysteries of the universe and among them time and space held a special place at a time when science was just beginning to understand relativity. Tesla was already looking beyond, questioning everything that seemed fixed and unchangeable. For him time and space were not rigid structures but something much more dynamic and flexible.

Tesla believed that our limited perception of these dimensions prevented us from seeing the full picture of existence. He saw time not as a straight line but as something fluid that could be bent or even traversed. This idea which resonates with modern physics concepts today was one of his boldest speculations he imagined that with the proper use of energy it would be possible to manipulate time breaking the barriers between past present and future. This vision opened the door to even deeper reflections.

Tesla suggested that death might not be an end but a shift in perspective within the temporal flow just as energy never disappears but merely transforms. He believed human consciousness could continue to exist in some form perhaps in a dimension where time follows different rules. These ideas, though visionary were not mere musings. They were deeply connected to his research on energy vibration and the invisible forces shaping the universe today.

His theories continue to inspire scientists and thinkers showing that Tesla not only imagined the future but invited us to rethink the very concept of reality. Nicola Tesla saw the human mind as far more than a simple processor of thoughts. He believed our consciousness had a reach capable of transcending the barriers of time and space. In his theory, ideas like telepathy and precognition were not mere fantasies but concrete possibilities that science might one day explain. For Tesla the mind was a bridge between the present and temporal dimensions (relating to practical matters or physical things, rather than spiritual ones) beyond our understanding suggesting that human potential far exceeds what we can perceive today.

Ultimately Tesla was on a quest to uncover absolute truth. He saw the universe as a work structured by precise laws where science and spirituality walked hand in hand. There was no separation between the physical and the metaphysical. Both were expressions of the same reality viewed from different perspectives. Tesla saw his role as that of an explorer, someone willing to illuminate the deepest mysteries, linking the cosmos and human existence. He firmly believed that everything in the universe was interconnected by a universal force, an energy that traverses and unites all things. This conviction distanced him from the pursuit of wealth or fame and guided him toward a greater purpose to uncover the secrets governing both the visible and the invisible.

This pursuit led him to question death, the existence of God, and even the meaning of our presence in the universe.

NOTE: All of what Nikola Tesla is introducing here is extensively confirmed, expanded up and explained throughout the Pascas Papers that are available at www.pascashealth.com in the Library Download page.

PAPERS**

For Tesla the end of physical life was merely a change of state, a transition to something greater. He believed that as science advanced we would come to understand these subtle energies that permeate everything and that perhaps the key to immortality lay hidden in the manipulation of these forces. His vision transcended the time in which he lived showing that he was not just seeking to understand the universe but to reveal humanity's role within it.

The ideas and inventions of Nicola Tesla were not limited to transforming technology, they expanded the horizons of what we consider possible. He not only revolutionised the use of electricity but also paved the way for profound reflections on the mysteries of the universe. Tesla had a vision that went far beyond wires and circuits. He believed in the existence of a universal energy, dimensions beyond our perception and a concept of time that did not follow the rigid rules we imagine.

If Tesla were with us today, it is easy to imagine him being an active voice in debates on science and spirituality. He would likely highlight how advances in modern physics such as quantum mechanics are beginning to touch on questions he had already envisioned in his theories. For Tesla these discoveries not only explain the physical world but also offer clues about the mysteries of life, death and the cosmos as a whole.

The impact of his ideas extends ends far beyond his era. Tesla's theories on energy and vibration once seen as radical now influence fields ranging from cutting-edge science to the search for meaning in spirituality. His belief that everything in the universe is interconnected resonates with modern debates on consciousness and the essence of reality although many of his ideas were underestimated or misunderstood during his lifetime his legacy lives on.

Life After Death

We are more alive than ever – when we are dead!

The life after death is no different in the essentials than the mortal existence.

However, our capabilities are about three fold of what it is when now as we are living in the physical.

We may come to look upon our physical body as though we are living as a potato, or maybe like we are living in and through a heavy rubber suit. Even being the Michelin man may come to mind.

Our physical brain is the interface between our spirit body mind and our physicalness, thus upon death of our physical body we lose nothing! Our personality remains as we know it and life is far more fulfilling in the spirit Mansion Worlds than living on Earth. We all arrive in the 1st Mansion World.

Every mortal gain is a direct contribution to the enrichment of the first stages of the immortal survival experience. Everything we do in this life which is good contributes directly to the enhancement of the future life – as it does now throughout our physical life! Death is definitely not to be feared, because what awaits us on the other side is a much more amenable way of life, even if it is still all within the Rebellion and Default.

While we are living on Earth, we are spirits having a physical experience!

Our physicalness restricts our capabilities to around one third.

With every technological advancement or new discussion on the mysteries of the universe, Tesla reminds us that science and spirituality need not walk separate paths but can together lead us to a more connected and enlightened future.

Nicola Tesla had a unique way of viewing the universe. For him, everything around us was permeated by an invisible energy, an essential force that could be explored in ways we have yet to fully comprehend. Interestingly this vision closely aligns with what quantum physics reveals today. The idea that the vacuum is not truly empty but filled with quantum fluctuations and energetic fields reflects Tesla's belief in a universal energy connecting everything and everyone. Modern physics suggests that the universe operates as a field of infinite possibilities where particles appear and disappear in energetic states that defy our intuition. Tesla with his forward thinking vision seemed to anticipate this understanding. He believed these invisible forces not only sustained existence but also provided insights into life's greatest mysteries. This connection goes beyond the physical world today.

Many scientists discuss the possibility that consciousness is more than a function of the brain. Perhaps it is a fundamental property of the universe. Tesla speculated on something similar. He saw the Mind and Spirit as forms of energy that like energy in the universe do not extinguish with death but change form persisting in some way.

Tesla's ideas about vibration energy and the interconnectedness of all living beings deeply resonate with contemporary debates on the relationship between quantum physics and spirituality. It is as if he glimpsed a future where science and consciousness meet, offering new perspectives on what it truly means to be alive and connected to the cosmos.

Nicola Tesla believed that the secret to a healthier life lay in the frequencies and vibrations that govern everything around. As he viewed the human body as a delicate energetic system where each cell functioned as a small electrical circuit.

NOTE: Dr David R Hawkins' Map of Consciousness is a precise energy level calibration, based on the common log of 10. Until we fully express our emotional injuries and errors of belief, we will not be healed. However, those with low consciousness levels have shortened lives as outlined in tables within this Pascas Paper. To put it into context of how we are living; only when we are fully healed through Feeling Healing process, only then will we no longer have the need to experience discomfort, pain, illness and disease.

This Vision bold for its time finds echo those today in practices that use energy to promote well-being and healing. Energy medicine, a rapidly growing field, explores how frequencies can directly impact health therapies like acupuncture, reiki and treatments using electromagnetic waves demonstrate how Tesla's ideas remain alive in modern science. These approaches aim to balance the body's energy field, a concept Tesla advocated in his research. He believed that when these energy are in harmony the body has a greater capacity to regenerate and maintain health. Current research on bioelectric fields reinforces Tesla's intuition that the human body is not just matter but also energy and motion the application of specific resonances to relieve pain or accelerate tissue recovery is transforming medicine and expanding our understanding of health.

NOTE: Temporary relief can unfold through these complementary health modalities BUT no permanent healing unfolds. The underlying cause of the issue being addressed remains as the emotional injuries and errors of belief are not being expressed and such expression needs to be emotionally expressed. Similarly, vaccinations do not eliminate diseases. The diseases are actually mutating into more virulent forms and re-emerging being more difficult to manage. We are never fully healed until we COMPLETE our Feeling Healing and only then will we become free of discomfort, pain, illness and disease.

Tesla's Vision which connected science energy and well-being transcends technology. It inspires us to see the body and mind as parts of a unified system where balancing vital energies can be the key to a fuller and healthier life, this holistic approach unites what once seemed distant science and healing body and spirit.

Nicola Tesla's ideas extend far beyond laboratories and inventions. He believed that humanity's true evolution would not come solely from technology but from a deeper understanding of the invisible forces that connect us.

For Tesla, energy consciousness and the universe were part of a vast interconnected fabric and exploring this relationship could lead us to a more balanced and spiritually integrated society. Tesla had a bold vision of the unity of all things. He saw energy as the thread connecting not only the physical world but also the spiritual.

This idea echoes many spiritual traditions that speak of the interconnectedness of living beings and finds parallels in modern research on collective consciousness. Today, scientists investigate whether human consciousness extends beyond the brain functioning as energy that transcends the physical body.

Tesla seemed to intuit this believing that mind and spirit were expressions of a universal energy. He also maintained that the vibration of our consciousness influences the world around us. This idea which may seem abstract is supported by modern accounts of near-death experiences where many describe a sense of union with the universe, a warm and infinite energy.

Tesla with his theories on vibration and energy already imagined these sensations as part of a larger energetic network. Tesla's legacy continues to inspire debates on spirituality and science. His ideas about the immortality of the soul and the continuity of life after death invite us to think beyond the material. He saw humans as pieces of a cosmic puzzle where consciousness and energy intertwine showing that we are all connected in a universe far greater than we can comprehend.

Nicola Tesla did not confine himself to what the science of his time could explain. He ventured into ideas that seemed audacious but contained to intrigue scholars and inspire theories. Today, Tesla was convinced that there were mysteries about the universe we have yet to uncover and believed his research was on the verge of something revolutionary capable of completely transforming our view of reality. Among his speculations were concepts such as communication with other dimensions and the possibility of life forms existing beyond the physical plane. These ideas which initially seemed like fiction resonate with topics we explore today such as parallel dimensions and alternative realities.

For Tesla, consciousness was more than a product of the physical body. He believed it functioned as energy and upon leaving the body could migrate to another frequency or plane of existence. These thoughts continue to fuel debates on paranormal phenomena such as telepathy, precognition and even the existence of life elsewhere in the universe.

NOTE: Should look into the night sky when it is clear and away from city lights, you may be looking at around a thousand stars (Suns). Each star hosts between zero and three inhabitable worlds. The system that Earth is within is called Satania. A system consists of 1,000 inhabitable worlds of which 619 are inhabited – Earth is number 606. A constellation consists of 100 systems. A local universe consists of 100 constellations. Consequently a local universe contains 10,000,000 inhabitable worlds of which around one third is inhabited. Our local universe, called Nebadon, contains 3,840,101 inhabited worlds. Throughout our super universe there are 100,000 local universes. Each has a Creator Daughter and Son from Paradise as their co-regents. We on Earth know our co-regents, they physically lived on Earth. They are Mary Magdalene and Jesus!

Tesla with his visionary mind saw all of this as something that could one day be explained by science. He believed that forces and realities considered mystical or superstitious could be understood and proven through study and experimentation. Today, Tesla's ideas still challenge us to look beyond what we know encouraging the search for answers to questions that touch the essence of life and existence.

He invites us to imagine a future where science and mystery coexist revealing a universe far vaster and more complex than we can perceive.

NOTE: Above was a brief overview of our super universe. There are seven such super universes in a giant circle. In the centre of them all is Paradise, the stationary home of our Heavenly Mother and Father.

Nicola Tesla had a unique vision of the universe. For him science and spirituality were not conflicting forces but complementary ones. He believed that both sought the same goal to understand the deepest truths of existence using different tools. This perspective, bold for its time, today inspires many scientists and thinkers to explore the connection between these two fields. What was once considered incompatible is now beginning to converge. Researchers are increasingly interested in themes that transcend traditional boundaries of science such as the origin of consciousness, the purpose of life, and even what happens after death.

[Pascas Care Death & Dying Transition & Assimilation Marjorie.pdf](#)

The first Pascas Paper outlines what John shared with his sister, Marjorie, about three weeks before she passed over to the 1st spirit Mansion World. He had asked her to let him know where he was wrong in his comments. The second document is a day by day account of what Marjorie experienced during her first 40 days in the spirit world. Share as you please. The ending of the Rebellion and Default that has suppressed Earth's humanity these past 200,000 years, is now opening up the doors to information and connectivity that has been withheld from Earth's physical humanity.

These questions which Tesla had already explored in his visionary mind show how far ahead of his time he was. He envisioned a future where science would not only explain the physical world but also shed light on spiritual mysteries, unveiling the invisible energy that connects everything in the cosmos.

Tesla viewed the universe as a web of energy where consciousness transcended the boundaries of the physical body. Today his ideas resonate in debates that unite technological, advances with spiritual reflections, the notion of an interconnected universe where science and spirituality walk hand in hand is becoming increasingly present expanding our understanding of life, death and the forces that govern reality.

Tesla's Legacy goes beyond his inventions he left us an invitation to rethink how we understand the universe. His vision remains alive at the intersection of science and spirituality, challenging us to seek answers that connect technology, energy and the purpose of existence.

NOTE: The purpose of the Pascas Papers is to reveal and answer all such questions.

**PASCAS
PAPERS**

Nicola Tesla, known as the master of discoveries on energy and vibration, did not limit himself to the tangible world of science, his curious mind often led him to explore deeper questions involving the essence of human existence. For him the universe was much more than matter, it was an immense network interconnected by an invisible force, a universal energy that touched everything and everyone. In this vision, the human soul appeared as a unique expression of this energy.

The spirit body is composed of a different kind of matter, "finer" or more "ethereal". The fact that its aspect reflects the condition of soul is a clear indication that the soul influences largely its formation, and even more, the soul is indeed the creator of this body, which covers it and provides it with the characteristic of individuality. The formation of the spirit body begins at the moment of incarnation of the soul in the foetus, incarnation which only takes place should there exist a high probability that the spirit of life has found in the new organism a stable biological structure, allowing it to carry out its life-giving function.

P529 Judas of Kerioth 8th May 2002

At the moment of conception, we achieve individualisation and become self-aware and we are then able to exercise our free will. Incarnation is when the embryo first pumps blood – day 16. At the moment of conception, our soul, being our real self, is creating the newly forming embryo and everything else every step of the way as Judas says above. And our soul utilises our physical parents' life forces to achieve incarnation.

At the moment of conception, there is nothing of the Divine within us. Only as we proceed with our Feeling Healing and to ask for and receive Divine Love does our soul slowly and progressively change into the nature of that which is Divine. As we embrace Feeling Healing and our soul receives Divine Love, our soul will grow, and grow, and grow in brilliance and into that which is Divine – this is reflected through our spirit body.

SOUL CONDITION of BABIES are SUPPRESSED to that of its PARENTS!

A newly incarnated soul is immediately being infused with the emotional injuries of those in its environment, that is, the damaging emotions and erroneous beliefs of its mother, its father and of those within its family environment.

This process continues until the child reaches around the age of six, then it tends to develop its own way from then on, however, closely aligning itself with a parent or both parents. Kinesiology testing of Map of Consciousness confirms this suppression progress. Conception can be likened to facing a water cannon for the child!

Poor condition spirits may have previously connected with a young child should the environment be conducive for such a relationship. However, on 22 March 2017, all such spirit connections became blocked. A spirit cannot harm another personality.

We, as parents, can work on our own soul condition, through feeling healing, which in turn benefits the baby. We can also ask and prompt spirits to seek help from brighter spirits from within their own environment.

SPIRIT MANSION WORLDS are numbered 1 to 7:

To PARADISE, the HOME of OUR HEAVENLY PARENTS

Spirit Mansion Worlds are those 1 – 7. They with the Celestial Heaven spheres numbered 8, 9, 10 as well as the 2 Spheres of Disharmony are all within the Earth's environment, and rather close by. Each sphere can accommodate more than 100 times the people than Earth may do.

OUT GATEWAY ISOLATION

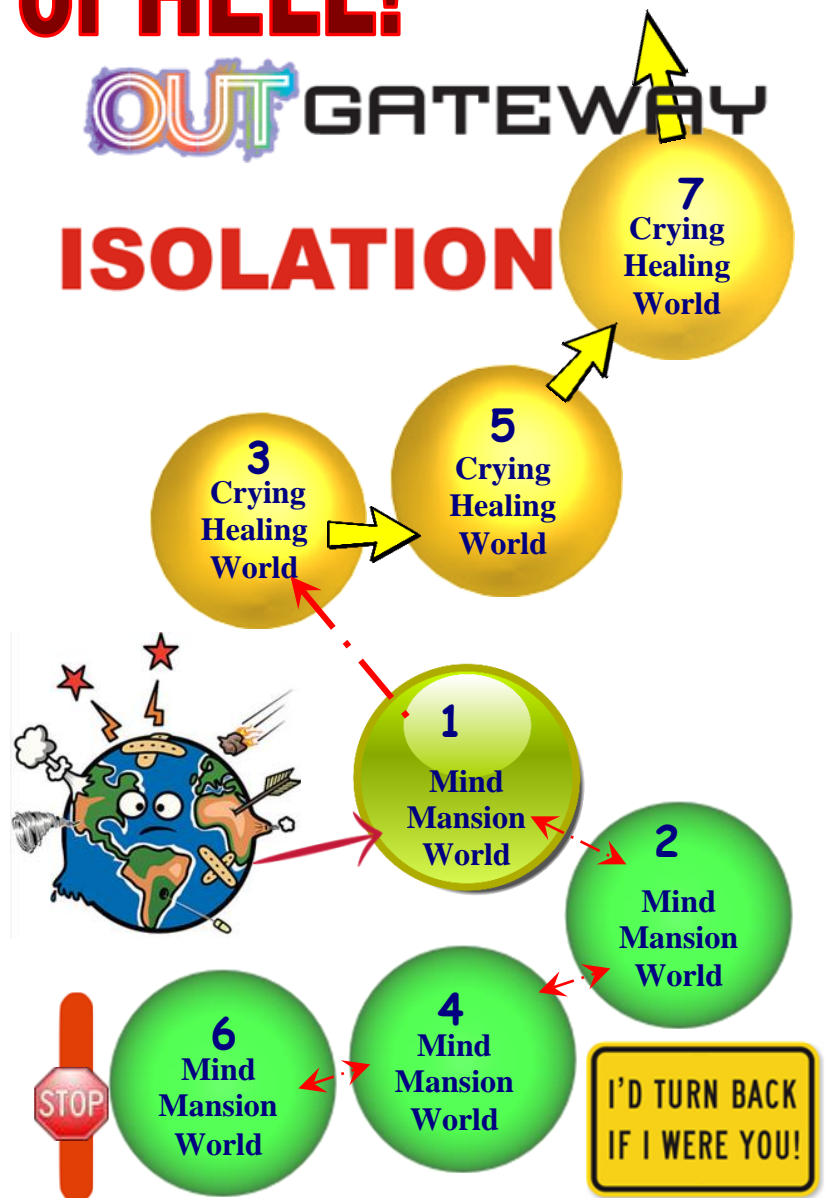

Boundaries of HELL!

The gateway out of our isolation from all other humanities within our local system is opened to us upon the completion of our healing of all that represents the Rebellion and Default.

While we remain embraced within the Rebellion and Default, even though we are unknowingly doing so, all of the humanity of Earth is isolated from all of the other humanities throughout our local system of Satania, all 619 inhabited worlds, thus effectively we are in hell!

Further, we are also isolated from the Spirits of Truth that our spiritual parents can offer us, until we complete our healing and enter the first of the Celestial Heavens, and that is when we move through the gateway and progress beyond healing Mansion World number 7.

Life on Earth is living in hell in the physical. Many of us consider it to be wonderful – that is a fantasy. Our physical parents have remodelled our personality to reflect what they consider appropriate ... IT'S NOT! We are to freely express the personality that our Heavenly Mother and Father bestowed us with.

Many of us fight so powerfully against our childhood suppression and repression that we go on and cause great harm to many others, all of which the Law of Compensation takes into account. The lower levels of the 1st Mind Mansion World is a region for our compensation. We ALL enter the 1st Mind Mansion World as spirits upon the death of our physical body. The pain we cause to another is the pain that we will endure in compensation. Those who continue to endeavour to inflict harm on others may find themselves within the 1st and 2nd planes of Earth. The 1st Earth plane being the worst of the hells, while the 2nd is bridging towards a return to the 1st Mind Mansion World hell sectors. You can continue to live through your mind and perfect the mind but you will end up at a dead end in the 6th Mind Mansion World. There are more than 200 billion spirits within the 1st and 2nd Mind Mansion Worlds and the two Earth planes of compensation. These areas are packed to the rafters! Only by embracing our Feeling Healing and with our Heavenly Parents Divine Love can we heal ourselves and progress through the three healing worlds before transitioning to the Celestial Heavens and out of the Hells. Within the Celestial Heavens are spirit personalities from all of the 619 worlds within our local system.

Soul Partner

SOUL – Soul Partners:

The Real You is your soul, you are one ‘half’ of that soul.

Each half of the original soul incarnates a spirit and physical body simultaneously, they being connected. The soul expresses each of its two personalities as a woman and man. True soulmates are always of the opposite sex.

Sexuality is an attribute of the two personalities the soul expresses; the soul itself does not know sexuality.

The soul connects to the two spirit bodies it has created by ‘golden cords’ of light; and the spirit body is in turn connected to the physical body by ‘silver cords’ of light.

The spirit body is your astral body. The etheric is really the body that is the template for the physical and one that doesn’t hold consciousness.

The soul remains invisible to the spirit and physical bodies, only being discernible by its luminosity through the spirit body.

95%+ of humanity currently are within the 1st sphere of development (499 MoC Ceiling).

Soul Partner

Many long for and seek their soulmate / soul partner which they will find only upon completing their Feeling Healing. And should they have embraced Divine Love, becoming of a Celestial soul condition. Our soul is duplex. One soul expresses two personalities – one being female and the other male – always. There is no homosexuality on a soul level, only on a dysfunctional personality level. When each soulmate couple have respectively healed the Rebellion and Default within them, then being compatible partners for all of eternity, embark upon their joint journey (ascension) to Paradise – the home of our Heavenly Mother and Father – the Original Soul Partners!

During 2020, this account was made of soul partners of a family group who had lived close together in a small rural community in mid New South Wales of Australia. They are all now in the Celestial Heavens. More or less, the diversity of experiences and journeys may be considered typical for many billions of family personalities:

Nanna Beth's soul partner lived and worked in Western Australia's gold mining industry at the same time that Beth lived in New South Wales, Australia.

Her daughter, Marie's soul partner is a native from the Middle Eastern Kingdom of Quasoria, which no longer exists, but was on an island in the Pacific that also no longer exists. He's what you would call an ancient spirit, from three pole shifts back. (A pole shift is a cyclical event that unfolds around 12,000 to 13,000 years, the last one being more than 12,000 years ago. That suggests he may have lived on Earth some 40,000 years ago. Adam and Eve materialised on Earth more than 38,000 years ago in the Middle East, on a peninsula at the eastern end of the Mediterranean Ocean.)

Kevin, born in 1937, married Marie's eldest daughter. Kathaleen, Kevin's soulmate / soul partner was born in 1901, and is from Tennessee, USA, and is black. Kevin is white, so they are 'salt and pepper'.

Bradley, Kevin's son, suicided in 1999, and early April 2018 became Celestial. Bradley's soul partner is from the region that is now Russia – but it was not when she lived.

Raymond, Nanna Beth's grandson, died aged 23. Raymond entered the 1st Celestial Heaven in May 2018. His soulmate / soul partner had been in the Celestials for about twenty years and she was in the third Celestial Heaven sphere then. She is from northern Europe.

Benjamin John, Marie's grandson, miscarried at twelve weeks and was spirit born. His soul partner is also spirit born and they are now in the 2nd Celestial Heaven, both having had lives in the spirit Mansion Worlds that replicated living as if the were on physical Earth.

Physical incarnation (individualisation) is complete with the first heart beat, around 16 days after conception. Reincarnation is impossible. Annually, 130 million physical births take place, 45 – 50 million abortions as well as 45 – 50 million miscarriages. Childhood deaths annually may be as high as 10 million. Thus, around 45% of all incarnations do not achieve adult life.

While we remain living within the Rebellion and Default, we are rebelling against our soul; and consequently, against our soul partner. If we were able to find our soul partner, let alone recognise him or her, we would more than likely be repulsed by each other. Upon completion of our Spiritual Healing, usually we become connected with our soul partner, and then it is so for eternity.

AN UPDATE on JOHN'S FAMILY MEMBERS who are from WEST WYALONG, NSW!

30 September 2023

James: As I was reading through the list of your (John's) family, an 'update' came into my mind...
(clarifying comments added by John)

Nanna Beth, John's grandmother, her soul-mate (soul partner) and soul-group have chosen to remain in their current important third Celestial Heaven sphere positions for the next Age. (That is, the coming Avonal Age of the next 1,000 years.)

All the Celestials (1st, 2nd and 3rd Celestial Heavens sphere) are currently in the process of being asked what they want to do: some suggesting what they'd like to do, others choosing their assignment from what exists, some appointed to specific positions by higher authorities.

All of your family (John's family) accept your son will remain and work in time from the third Celestial sphere throughout the next Age. (Our son, Benjamin John, miscarried at 12 weeks of gestation and was subsequently spirit born in the 1st spirit Mansion World. His soul partner was also spirit born.)

Your son has moved on with his soul-group and soul-mate higher into Nebadon (our local universe containing 3,840,101 inhabited worlds), so beyond the third Celestial Heaven sphere. They 'felt the call' to move on toward Paradise rather than remain in the lower Celestials for the next Age. (When we level the 3rd Celestial Heaven and progress higher into Nebadon, we cease to connect with Earth.)

Your mum (Marie Mum) is now in the third Celestial Heaven sphere, and remaining specifically aligned with you, that's you personally, and not so much to do with greater Pascas, so helping you in your relationship with it and with all the people you come across, and with me (James).

Marjorie has crossed over into the first Celestial Heaven sphere, settling in with her forming soul-group and having met her soul-mate who just arrived a short time after she did. It is thought her soul-group will move in time to work under your mum (John's mother, Marie Mum).

Kevin (John's brother-in-law), Raymond (John's 1st cousin) and Bradley (John's nephew and son to Kevin) are all now in the second Celestial Heaven sphere, they are all aligned under your mum (Marie Mum), so working associated with you and each other, and all Pascas wants to achieve.

Kevin died 10 August 2012, through his Feeling Healing or similar process became Celestial by completing his healing and entered the 1st Celestial Heaven sphere on 7 August 2017, he is now in the 2nd Celestial Heaven sphere – September 2023.

Bradley, Kevin's son, suicided in 1999, and early April 2018 became Celestial by entering the 1st Celestial Heaven sphere, now in the 2nd Celestial Heaven sphere – September 2023.

Raymond, Nanna Beth's grandson, died aged 23. Raymond entered the 1st Celestial Heaven in May 2018, now in the 2nd Celestial Heaven sphere – September 2023.

Marjorie, John's sister, died 26 November 2020, entered the 3rd spirit Mansion World by 23 January 2021 being the first of the three spirit healing worlds (3, 5, 7). Marge had moved into the seventh spirit Mansion World around 12 April 2023. Marjorie has now crossed over into the first Celestial Heaven sphere – September 2023. Thus within 2 years and 10 months she has achieved Celestial Heaven status.

DIMENSIONS of ONE'S EXISTENCE:

Our SOUL IS NOT ENSOULED IN OUR SPIRIT BODY. Our soul exists existentially in a whole different level or plane or place or dimension of being – 'soul land'. It doesn't exist in Creation, it's not experiential like Creation is. The soul, all souls, help create their part of Creation by expressing their personalities into Creation, and then by having their personalities do things (further create) in Creation.

SOUL exists existentially

Our Physical Body and our Spirit Body are of Creation, being linked together by cords of light as are the two spirit bodies, male and female, to the one Soul.

One's unique personality is soul based. Our unique soul expresses its unique personality through the two spirit bodies and physical bodies expressing both the male and female aspects.

HARMONY within the SOUL = HARMONY within the PHYSICAL BODY:

Emotional injuries, erroneous beliefs, harmful intentions are all damages encrusted upon one's soul. Such injuries are to the spirit body impairing the flow of loving energies of one's soul.

Such mind-made errors degrade the pristine soul and such damages impact upon one's spirit body which in turn emerge as discomforts, then pains, then as illnesses within the physical body.

Medical assistance and treatment may alleviate the illness / pain however the cause remains.

Until we endeavour to remove the errors and injuries, the propensity for the illness remains.

Feeling Healing and then love energy from our Mother and Father is the only substance that alleviates and progressively removes errors and injuries, and this Love energy is the only substance that permanently brings about harmony and health for our soul which subsequently brings about health to our spirit body and physical body.

We are to emotionally express our feelings, both good and bad, while longing to know the truth behind the feelings that are coming to our attention. Asking for, begging to know what it is that is behind each feeling while expressing what arising is the most important step in our healing. We must come to know our childhood all the way back to conception.

Also, earnestly pray for, ask for, and receive the Love from our Mother and Father, such Love will always be provided to those who ask for same – always!

MAN'S JOURNEY to being at ONE with our MOTHER and FATHER:

Man, with free will, can choose loving or unloving options. By seeking Divine Love, and with Divine Love man can elect to follow our Parents' will of loving actions exclusively.

When the free will natural love aspect of the soul of a man is perfected through Feeling Healing with Divine Love, man has elected to follow the will of our Parents. Personality, memory, intelligence, etc. continues with man's soul throughout all phases of his growth and development.

Person on left, being crushed by fear, feels like the light of their soul has diminished to the size of a pea.

The fearless vibrant person on the right feels filled with the light of love and life.

We have a physical body, a spirit body, and our real self which is our soul.

Growth of Man / Woman without Feeling Healing and Divine Love peaks at 6th sphere state which is the peak of the Kingdom of Man and Spirit World. Soul without Divine Love.

Soul progressing with Feeling Healing and seeking, receiving, and growing with Divine Love. The nature of one's soul changes into that of the Divine when receiving Divine Love. Following Feeling Healing, only Divine Love does this.

Growth of Man / Woman with Divine Love enables entry into the Celestial Realms, 8th sphere and above, with growth into infinity:

SPHERES of PARADISE being the home of our Heavenly Parents, Mother and Father, within the centre of the 7 super universes.

Unknown number of spheres to progress through to reach Paradise.

Ascending out of NEBADON is beyond the regency of the Creator Daughter and Son, Mary and Jesus.

INFINITE & UNIVERSAL SPHERES, unknown number to progress through within Nebadon.

ETERNAL SPHERES 3 spheres unnumbered. Involvement with Earth finishes.

CELESTIAL HEAVENS are spheres 8, 9, 10.

Divine Love Spirit Healing Mansion Worlds are 3, 5, 7. We are healing our soul!

We all arrive in spirit into Mansion World 1.

Earth Planes 1 and 2 are of Disharmony – Hells.

Mind Spirit Mansion Worlds 2, 4, 6 are all taking us in the wrong direction and into a dead end!

**I'D TURN BACK
IF I WERE YOU!**

Throughout the Avonal Age of 1,000 years, their Spirits of Truth will assist us in embracing and engaging with our Feeling Healing and with Divine Love our Soul Healing. They will assist us to develop our soul well into Celestial Heaven status should we persevere with such a goal. The extent to which the Avonal Pair develop themselves while here in the physical on Earth is the level that their Spirits of Truth will be able to assist us. Then it will be Mary and Jesus' Spirits of Truth that will assist us up and out of Nebadon, where our Heavenly Parents will then assist us onto Paradise, Their home.

To the extent that parents have healed themselves prior to conceiving a child, that child will now be free of those imposts of the Rebellion and Default through parents' Healing.

Violence is never Justified

Never is hatred, nor discord, nor war among men justified – no matter what the cause – and if men will only learn the Truth there will never exist such feelings or acts. Militarism is all wrong. Jesus 25 December 1915

ENOUGH IS ENOUGH

Andon and Fonta, our first parents to long for our Heavenly Parents, lived nearly 1,000,000 years ago. Naïve humanity was seduced by high spirits, the Lucifer pair, to believe they could be gods through their minds, thus men subjected women to subordination 200,000 years ago. Also added to this was the default of the Adamic pair more than 38,000 years ago when they failed in their mission.

REBELLION & DEFAULT **200,000 YEARS**

When Jesus with Mary achieved their full Regency of Nebadon, in 26 CE, they immediately had the Lucifer and Satan soulmate pairs assigned to a spirit world prison. Since then, the Creator Pair have been preparing for the ending of the Rebellion and Default for humanity of Earth. The Avonal Pair now on Earth, once commencing their Healing, brought about the imprisonment of the Caligastia and Daligastia pairs in 1993. As the Avonal Pair advanced with their Healing they brought about the formal end of the Rebellion and Default, on 31 January 2018. It is now for all of humanity to embrace the Spirits of Truth of the Avonal Pair and undertake their healing of the imposts of the Rebellion and Default.

Avonal **AGE 1,000 YEARS**

Spirits of Truth of the Avonal Pair will guide us through our Feeling Healing and into the Celestial Heavens with Divine Love, then the Spirits of Truth of the Creator Pair will lead us through the Celestial Heavens and out through Nebadon towards our Heavenly Mother and Father in Paradise.

Each generation of 25 years or so will see marginal embracement of Feeling Healing, however in 1,000 years it will achieve universality.

A few will complete their healing during their lifetime, but for many it will be incremental.

Universality of Feeling Healing with Divine Love will see the mitigation of discomfort, pain and illness as well as the imposts of global warming and Earth changes. These events are to ensure that each of us embrace our feelings, both good and bad, down to the very core, so that we fully come to know who we truly are. Sciences will endeavour to remove pain only to see disease manifest in different forms. Earth disturbances are a result of the Harmonic Convergence of the late 1980s, increasing the rotation of the Earth's central core. This will only abate when humanity has universally embraced Feeling Healing. These influences are only imposed upon us so that we do not step back into the Rebellion and Default through complacency. Live Feelings First so that we become the true personalities we are, that being daughters and sons of our Heavenly Mother and Father.

FEELING HEALING directly benefits the PARENTS' CHILDREN:

Parents' baby from conception through to age 6, 100% benefit, age 14 – 75%, 21 – 50%, 28 – 25%. Prior to conception we are in a perfect Natural love state. By the time we are age 6, we are then reflecting the consciousness level of one or the other of our parents. As they heal their Childhood Suppression through Feeling Healing, that are directly healing us, their children, subject to our age – maturity.

Consciousness Calibrations Worldwide	
Level of Consciousness	Percentage of population
600 +	1 in millions
540 +	0.4%
500 +	4%
400 +	8%
200 +	22%
200 -	78%
World wide average	220

Only through Feeling Healing which can be readily introduced through all education and health systems and services, will we cure our Childhood Suppression.

All the social ills of society are frozen into generational transfer. This can only be mitigated through Feeling Healing, and even then it will require generation after generation to advance the progress and lift the overall consciousness levels of humanity, from 220 to the 440s at least!

Correlation of Levels of Consciousness – Soul Condition – and Society Problems				
Level of Consciousness	Rate of Unemployment	Rate of Poverty	Happiness Rate "Life is OK"	Rate of Criminality
100 - 200	50%	22.0%	15%	50.0%
50 - 100	75%	40.0%	2%	91.0%
< 50	95%	65.0%	0%	98.0%

POTENTIAL to BENEFIT your CHILD through our own FEELING HEALING:

This steps down each seven years as the child matures

From conception to
age 6 or 7

From 8 to age 14

From 15 to age 21

From 22 to age 28

As we heal, we directly heal our children similarly.

The Indwelling Spirit arrival for the child around age 6 or 7 starts their independence.

EVE AND ADAM

Tuesday, 19 December 2023, marks the appointment of Eve and Adam as oversight of Earth's humanity throughout the 3 Celestial Heavens, the 7 Mansion Worlds and on Earth for the coming Avonal Age of the next 1,000 years, as announced officially by Mary Magdalene, coregent with Jesus, of Nebadon.

Eve and Adam introduced the crimson (white) skin, the blonde and red hair, the green and blue eyes, through their children while they lived on Earth more than 38,000 years ago.

Tesla viewed the universe as a sea of vibrations and frequencies where everything from physical objects to thoughts had its own vibrational pattern. He believed that the essence of being human what many call the soul was a form of energy that went beyond the physical body.

Inspired by the laws of physics, Tesla imagined that just as electrical energy never disappears but only transforms the soul also continued to exist after death, perhaps traveling through different plains or dimensions, he was convinced that natural laws were not confined to the visible world but also governed everything beyond what we can perceive.

His famous quote; “if you want to find the secrets of the universe think in terms of energy frequency and vibration” reflects his belief that the soul is part of this energetic continuum. For Tesla, each Soul was like a singular frequency, a note in a universal symphony capable of transcending barriers and existing eternally even after the physical body ceases to exist. This vision not only united science and spirituality but also invited us to reflect on life and death from a new perspective where human existence becomes part of a vibrant infinite universe filled with possibilities.

Nicola Tesla with his brilliant and restless mind left us with an intriguing idea. What if the soul is in fact a form of energy?

This vision besides being poetic directly connects with the law of energy conservation which teaches us that nothing is lost, everything transforms from this perspective. The soul would not disappear with physical death but would adapt taking on a new form or perhaps transitioning to a different plane like a frequency changing stations. This notion echoes in various spiritual traditions but Tesla brought a revolutionary touch. He approached the concept with a scientific foundation seeing the eternity of the soul as something aligned with the laws governing the universe.

It's as if he gave an ancient mystery a new framework connecting spirituality and science into a single thread. For Tesla the transition of the soul would not be something supernatural but a natural and even logical process within his vibrational vision of the cosmos. He could imagine each soul vibrating at a unique frequency and upon leaving the body simply resonating in a new energy field attuned to a reality we cannot see. This spiritual plane would be nothing more than a dimension governed by vibrations different from those of our material world.

This approach not only challenges our traditional understanding of life and death but also inspires us to view existence from a broader angle where each human being is part of an eternal energetic cycle.

Tesla with his intellectual audacity left us more than theories. He provided tools to imagine a universe where science and spirit walk together exploring what it truly means to exist.

Nicola Tesla with his restless mind and vision beyond his time could have offered a unique approach to the concept of immortality. He saw the universe as a place of constant motion where everything vibrates at different frequencies and believed that nothing in nature truly disappears but merely transforms with this. He suggested that the human soul composed of the same energy that permeates the cosmos would also follow this eternal cycle of transformation. From this perspective death would no longer be seen as a definitive end but rather as an energetic transition.

For Tesla, the soul could continue to exist in a different vibrational state, perhaps even in higher energy dimensions harmonising with universal forces. He speculated that the soul would not be constrained by concepts like time or space as these physical barriers lose relevance in the realm of energy and vibration.

Although Tesla never explicitly claimed to believe in the immortality of the soul, many of his theories point in that direction. He was fascinated by the idea that everything in the universe is interconnected by

energy fields and he viewed physical death as a passage to a new state within this continuous flow. For him the soul could be a unique energetic frequency flowing between different states of existence aligned with the same laws that govern the movement of waves and electricity.

Through his discoveries about electromagnetic fields and vibrations, Tesla possibly saw human consciousness as a form of energy that interacts with the body while we live and is liberated when the body ceases to function. This vision invites us to imagine the soul not as something static but as a dynamic eternal force that continues resonating in the universe even after the end of physical life.

Tesla, in his brilliance, seem to indicate that immortality might be deeply connected to the invisible energies surrounding us. Nicola Tesla's theories about energy and vibration can lead us to profound reflections on life after death. For him, energy is not destroyed but merely transformed, opening up an intriguing possibility. What if the human soul is also a form of energy that simply changes states?

This Vision suggests that life continues not as we know it, but on a different vibrational plane invisible to our eyes, yet still connected to the universe we inhabit. It is an idea that unites science and spirituality in a revolutionary approach to the mysteries of existence.

Tesla seemed to believe that science had the power to explore even the territories traditionally belonging to spirituality. In his quest to understand the essence of energy he saw a connection between the physical and the metaphysical suggesting that the soul could be a manifestation of this universal energy that continues its journey after death changing form but not disappearing. (Metaphysicality refers to the part of philosophy that deals with existence and knowledge.)

He left us a bridge between two areas many considered incompatible offering a scientifically grounded vision for questions that have challenged humanity for centuries. Tesla's legacy transcends time. He was not just an inventor but a bold thinker who broke the barriers of conventional science to explore the essence of life and existence. His ideas on vibration and energy continue to capture the imagination of people searching for answers to questions that go beyond the physical. At a time when debates about the universe, consciousness and life after death are more present than ever. Tesla remains a fascinating and relevant figure.

The magnetism of his ideas goes beyond originality, it connects with existential questions we all face at some point. Tesla invites us to think more broadly about the universe and our role in it. Now it's our turn. What do we believe about life after death?

Do we think science can lead us to discover spiritual truths?

Tesla left us with profound reflections on the relationship between energy life and spirituality among many provocative ideas. The vision that death is merely an energetic transition challenges our way of understanding existence.

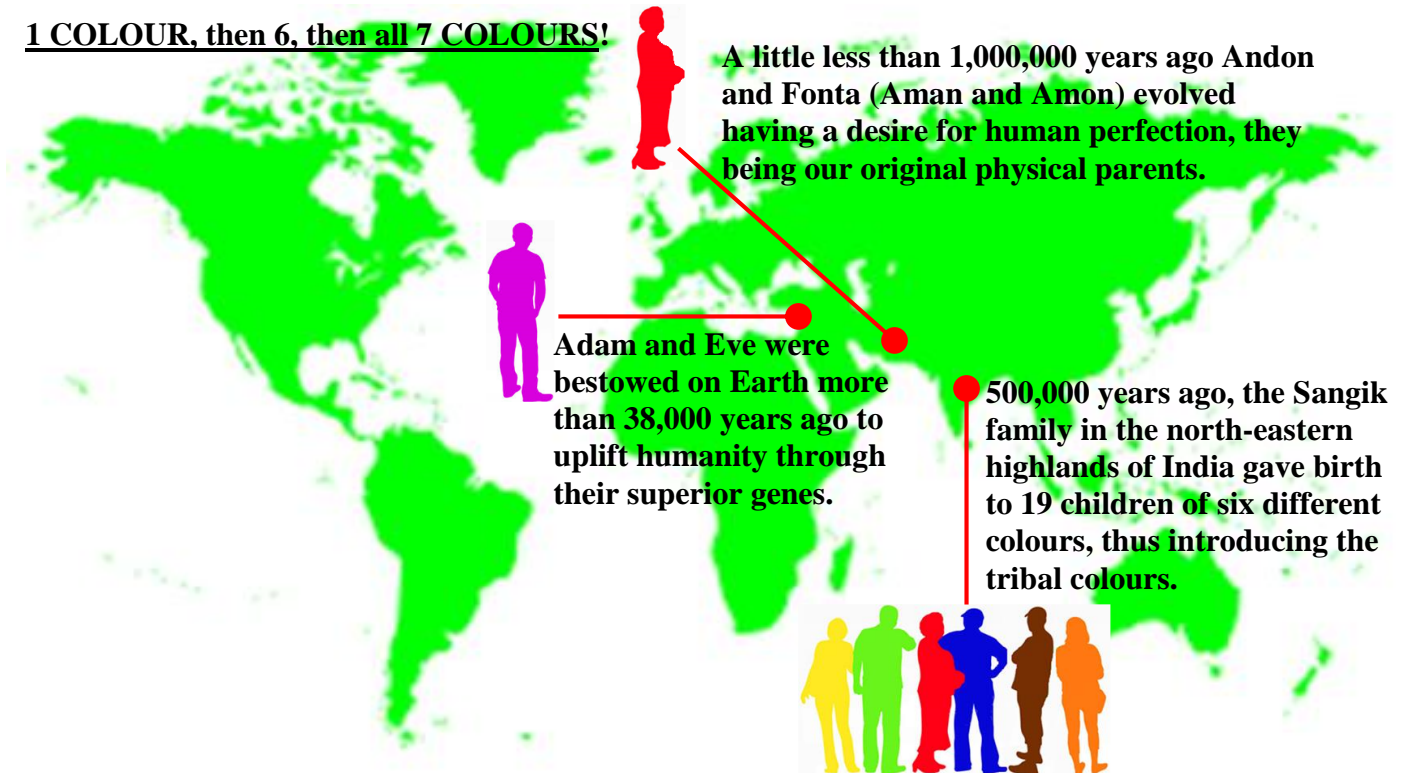

Do we believe science and spirituality can truly complement each other to explain what happens after death?

Share this with friends and family interested in science, spirituality and the mysteries of existence.

This time, in the history of humanity, is the most exciting time ever experienced.

Rainbow Family

500,000 years ago, the Sangik parents of north-eastern highlands of India raised 19 children, five red, two orange, four yellow, two green, four blue, and two indigo, this is the first and only true Rainbow Family of Earth's humanity.

Garden^{of} EDEN

The ADAMITE soulmate Pair, Adam and Eve, were to introduce a pure race of the violet colour. They were to remain true in their relationship and then have their progeny to have children from within this pure violet colour race. This was to continue until the violet race within the confines of the Garden of Eden reached around one million people. Then the community would be opened up to intermingle and mate with the fittest and finest of all the other races being of the other colours of humanity.

The Garden of Eden was then to be a demonstration of the capabilities of the violet race which was being introduced to up-step all of Earth's humanity. Gardens of Eden remain as superb cultural centres and continue to function as the social patterns of planetary conduct and usage age after age. Even in early times when the violet peoples are relatively segregated, their schools receive suitable candidates from among the world races, while the industrial developments of the garden open up new channels of commercial intercourse. Thus do the Adams and Eves and their progeny contribute to the sudden expansion of culture and to the rapid improvement of the evolutionary races of their worlds. And all of these relationships are augmented and sealed by the amalgamation of the evolutionary races and the daughters and sons of Eve and Adam, resulting in the immediate up-stepping of biologic status, the quickening of intellectual potential, and the enhancement of spiritual receptivity.

A humanity is endowed with seven colours, just like the rainbow in the sky!

993,500 years ago, our first humans were the twins, Andon and Fonta and they were redskins having an appearance approaching that of the Eskimos. These red skinned people travelled far from south of the Caspian Sea – Afghanistan, reaching Tasmania – Australia's south, 950,000 years ago! Re: The Urantia Book

500,000 years ago the Sangik family in the north- eastern highlands of India had 19 children, 5 red, 2 orange, 4 yellow, 2 green, 4 blue, and 2 indigo (black) – the first and only rainbow family!

These formed groups and sometime later the orange, green and blues died out – killing each other!

Adam and Eve materialised on Earth more than 38,000 years ago and introduced the remaining colour, violet (white). As you can see, there are no black or white people!

Earth's humanity now has four colours, red, yellow, indigo and violet. They will intermingle and blend to become of an olive complexion!

Bestowals from Paradise:

Avonals - Magisterial Daughter and Son

Machiventa Melchizedek, to this day, continues to oversee the plan that was evolved more than 4,000 years ago to progressively open cracks in the Universal Contract governing the Rebellion and Default instigated by Lucifer 200,000 years ago. With 'federal' authority, the Creator Daughter and Son brought about the Lucifers and Satans' spirit world imprisonment 2,000 years ago, and set the Avonal bestowals in place.

The commencement of the Padgett Messages on 31 May 1914 triggered the bestowal of the Avonal Pair for Earth's humanity. The Avonals' 'state' authority brought about the Caligastias and Daligastias spirit world imprisonment in 1993. The Avonals' healing of what they have taken on of the Rebellion and Default ends the Rebellion and Default. Now we can all follow and progress on the pathway to Paradise.

The HELLS are to EMPTY!

Through the intervention of a Magisterial Daughter and Son, an Avonal soul partner pair, from Paradise, we of Earth's humanity are now being shown how to heal ourselves of what we have each taken on of the Rebellion and Default. We are being shown and made aware of how to live true to our feelings and to long for the truth of what our feelings are to show us. We are to live feelings first and have our minds follow to implement what our feelings are guiding us to embrace.

Earth Planes 1 and 2 are Spheres of Isolation and Disharmony for the Law of Compensation – 'Hells'

**WE ARE
THE TRUTH
SEEKERS**

We are the Truth seekers. Our minds cannot discern truth from falsehood. Our soul-based feelings are always in truth. As we embrace and live through our feelings we will step away from error. As we learn and express our feelings, both good and bad, we will release the errors that we have absorbed during our childhood suppression and ongoing repression, thus healing ourselves of our personal Rebellion and Default.

As we progress with our healing, then we will transgress the ceiling of the mind's limitation (499 on Dr Hawkins' Map of Consciousness) and embrace our potential which is to infinity through our soul-based feelings of Truth.

The quickening of the Law of Compensation, as a consequence of the emerging 1,000 year Avonal Age now commencing, for those who set their 'minds' to cause harm to another may progressively find themselves being debilitated with the equivalent of the pain they intend to inflict, thus preventing the error being executed. Within the spirit mind Mansion Worlds, this is instantaneous. How this is to unfold on Earth is yet to be understood. However, injuries to others will be compensated for while one lives within the physical on Earth, thus the progressive emptying of the Hells will unfold. This will bring about an era of peace on Earth as conflict and war will be impossible.

The PHENOMENON of VISIBILITY:

Firstly, animals do not have a spirit life. Should we need to interact with a deceased pet animal, then a particular class of angel will present as your pet. The life force of all of nature pools their life experience to subsequently become Nature Spirits who evolve to being angels.

Each higher progression of a human mortal consequently becomes invisible to those remaining at the lower level, as it is with angels, though those of the lower level remain visible to the progressing ascending mortal.

In reverse, those spirit personalities descending from Paradise, the home of our Heavenly Mother and Father, need to detune themselves so as to become visible to those in our local universe of Nebadon.

Those on Earth and throughout the seven earth planes have the same visibility progression. Earth, being the densest, is visible to all. But each plane, starting at 1, becomes progressively finer, with each plane above the last invisible to the lower. The same applies throughout the 7 spirit Mansion Worlds that we progress through to enter the first of the Celestial Heavens.

Higher levels can always make themselves visible should they wish to. Spirits and ascending mortals of lower levels may not be aware of higher levels until they evolve and progress.

NATURE SPIRITS

Nothing of nature reincarnates! And neither do we! Reincarnation is a false belief. Zero, zilch! Not even a blade of grass, a leaf from a tree, bacteria or plankton, or ourselves, has a subsequent physical life experience. However, except for humanity, the life force of all of what forms nature, after its sole physical experience, returns to a pool from which Nature Spirits emerge. All of nature is mind orientated. Nothing of nature has a soul, except for humanity which is truth and feelings orientated.

Meet Verna, a Nature Spirit, also known as ‘Lady of the Lake’: “Your spirit is your own unique spirit expressing the light of your soul; our spirits, also uniquely our own, however come from a composite of many other spirits. And in my case for example, and I’m about average, or ‘usual’ – as much as I hate to admit it – I’m composed, for want of a better word, of about five hundred billion creature spirits. So yes, you could say we’re complex on that level. And yet on other levels, we’re considered rather basic, we are after all *only* nature spirits, not great angels.”

“With Verna – a nature spirit” by James Moncrief

As the Rebellion and Default is now technically ending, those who embrace Feeling Healing and Divine Love will open themselves to communication with their Nature Spirit pair. For 200,000 years of the Rebellion, humanity of Earth has been closed to interaction with Nature Spirits. Humanity is truth seeking personalities who are to live through their feelings whereas nature is mind orientated and are to evolve their minds. A Nature Spirit’s next phase of evolution is that of being an angel which then will have many further evolutionary progressions upwards. Angels also step down from Paradise.

WE EACH have a Nature Spirit pair, Spirit Guide pair and an Angelic Pair:

For those doing their Healing or are interested in doing it, will from that time have their own personal angels, spirit guides and nature spirits with them, with whom they are to develop their own relationships should they want to. It is not about 'sharing' the same angels or guides or nature spirits, it is about you relating specifically to your 'own' ones because they are provided for YOU. It's all for you, to maximise the experiences we each need.

We are all to have our own pure relationships. And it's the same, of course, in life with your friends. However over there, in spirit, dealing with Nature Spirits, Spirit Guides and Angels, it's more personal and private and 'JUST FOR YOU'. So, we have our own separate, unique relationships.

For example, Nature Spirit Verna has been assigned to be specifically and only with James, and she ain't going to be assigned to anyone else, so she won't be sharing herself around.

This is SO IMPORTANT to understand; so that in future there won't be all these people claiming to be speaking with Verna or Mary Magdalene or Jesus or Nanna Beth or anyone else who is part of it all in such capacity. Mary M and Jesus have spoken with James as they have, making it quite clear he is the only one they are speaking with.

We each have a band of a Nature Spirit pair, Spirit Guide pair, and an Angelic pair, each pair being in their 'soulmate' relationship. Even though we are ascending mortals having a soulmate, even our soulmate has his or her own group of six personalities assisting him or her. Our assigned Nature Spirits do not continue with us into spirit, our Spirit Guides may for a time assist upon entry to the spirit Mansion Worlds. However, our personal Angelic pair continues with us to Paradise, and then even possibly being with us throughout eternity.

Feelings! first

In a way, each person's Indwelling Spirit, which is really God, is contracting out the work needed to be done with you to other agencies. So to us spirits, the angels, the nature spirits, other elements under the Divine Minister's control, and even other non-humanity spirits, all of which end up doing increasingly more amounts of what your Indwelling Spirit does. And this 'outsourcing' is to affect greater personality interaction, increasing your experiences so they are maximised through interaction with different personalities rather than just relying solely on God. Overall, we are to become increasingly at-one with God, but we are to do that by becoming increasingly immersed in the experience of being with others.

Nanna Beth – 3rd Celestial Heaven: 25 December 2018

We each have a band of a Nature Spirit pair, Spirit Guide pair, and an Angelic pair, each pair being in their 'soulmate / soul partner' relationship. In addition we have our personal Indwelling Spirit.

WE ARE NEVER MEANT TO BE ALONE! SOUL PARTNERS become SOUL-GROUPS!

Our soul individualises into two personalities, as a male and female, always. The two soul halves are soul partners. When the two personalities complete their Feeling Healing of their childhood suppression and injuries, then the two personalities will find each other, either whilst in the physical or in the Celestial Heaven spirit worlds.

The personality that each soul half is blessed with by our Heavenly Parents is the personality that we are to express throughout our journey for eternity. It is the suppression of the free expression imposed upon us by our parents that requires for each of us to under go our Feeling Healing. Whilst we are suppressing our true selves we do not connect with our soulmate / soul partner.

Soul partners form into soul-groups. Once in the Celestial soul condition, soul-groups form consisting always of twelve (12) soul pairs. A soul-group consists of twelve sets of soulmates, twenty four (24) individuals. When we progress beyond the Celestial Heavens, towards Paradise, the home of our Heavenly Parents, we do so as a soul-group of 24 personalities. We can achieve Celestial soul condition here on Earth and also form our soul-group here on Earth.

Now add to this scenario, soul-mates and soul-groups. All those who were Celestial would have met their soulmate / partner and it would be the priority for them as soul-mates to be perfectly living true before they considered having children. And then these soul-pairs would link up with other soul-pairs and form soul-groups. It would be just a natural part of one's inner feelings and events in one's life that would lead one to do this. Then the whole soul-group would become a functioning *family* unit. Each of the couples would have their children, but the whole group would function in helping to share in the upbringing of all children. And this would then enable the children to be intimately involved with other people who would offer them the things that their parents could not.

Humanity is not meant to live and raise children just two parents struggling along trying to cope best they can. We are designed to be in small groups so that we can compound the love and support for and of each other.

Greatest Event in the History of Humanity!

Spiritual growth on Earth evolves connectivity!

Spirit connectivity is relevant to level of truth.

- 1993: The arrest of the Caligastia and Daligastia soulmate / soul partner pairs, being rebellious Lanonandek spirits – Earth’s planetary prince and deputy.
- 22 March 2017: Negative mind-spirit influence was blocked by Celestial spirit.
- 31 March 2017: Angel assisted healing will become available upon the Avonal pair completing their own Feeling Healing, being with Divine Love, thus it being Soul Healing.
- 22 May 2017: Law of Compensation quickening.
- 2 December 2017: Psychic Barriers maintaining the Rebellion and Default were cracked.
- 8 December 2017: Bring on the money to ‘house the future of humanity’.
- 31 January 2018: Earth and the seven associated Mansion Worlds (including the two Earth planes) are **officially** now fully under the control of Celestial spirits. This marks a tangible and real end to the Rebellion and Default.
- 12 April 2022: Feeling Healing completing.

Three people on Earth are of high 7th Mansion World condition - this is what has unfolded:

As of November 2020, due to three people on Earth progressing through their personal spiritual healing and progressing into the equivalent of the 7th spirit Mansion World, have enabled the above events and milestones. Two high level spirits have led the way. These two personalities have needed to incarnate into the physical and unaided have had to find the way to heal themselves of the imposts of the Rebellion and Default which they voluntarily took on. This is the most exciting time in the history of Earth’s humanity. Upon becoming of a Celestial soul condition, then these two personalities will have Celestial soul level

When they move into Celestial Heaven soul condition while living on Earth then:

truth and will be able to directly convey such truth in person. Having then done so, Celestial Heaven spirit personalities will be able to follow and directly communicate with personalities in the physical on Earth in a similar manner. Presently, Celestials can only prompt people and not converse.

The level that the two high level spirit personalities progress to while living in the physical will set the ceiling for those on Earth in what they can grow in truth and love to. We can only follow.

Further, the conditions that prevail throughout the 1st spirit Mansion World may progressively be earthed. In the Mansion Worlds, the operation of the Law of Compensation is instantly imposed through the vigilance of Angels. This is likely to be imposed on physical Earth from the coming 1,000 years.

For Humanity to go through a spiritual upliftment, such as now, high level spirits must lead the way!

The Rebellion and Default was imposed upon Earth’s humanity by high spirits from within our Local Universe of Nebadon. To end the Rebellion and Default, higher level spirits, being an Avonal pair from Paradise have had to lead the way out of the Rebellion and Default. This they are now doing!

The New Way

Living True to Your Feelings

We live denying many of our feelings, which is not good or healthy for us.

Early in our childhood our parents, families and society in many ways tell us that expressing certain feelings is not right, it's unacceptable, forcing us to block them out.

"Stop crying, you're too old to cry". "If you carry on behaving badly, you'll be punished". "Smile, stop looking so miserable, what have you got to be unhappy about!"

We are told many of our childhood bad feelings (and often good ones too) are not welcome, which is saying, you are not welcome as you are, you must change yourself and be as we say you are to be. It's not loving to be treated that way.

And by forcing ourselves to change causes us to suppress and then keep repressed many bad feelings. And all those repressed bad feelings fester away inside us making us sick and unhealthy.

To be made to stop expressing any feeling means we are being stopped from expressing the whole of yourself. And that is very damaging.

Living by not expressing ALL our feelings fully means we can't enjoy fulfilling relationships, it causes problems, unhappiness and all illness.

So all our problems and difficulties stem from the fact that during our childhood we were stopped from expressing all of ourselves, by not being allowed to express all of our feelings. And this is how the whole world lives. Some people, families and societies being more or less feeling-expressive than others.

And The New Way seeks to end any repression of feelings. It's to understand that we should live fully expressing all we feel and not with our mind heavily in control of ourselves limiting our self- and feeling-expression.

The Old Way is living the Mind way of feeling repression. An unloving way of being.

The New Way is living the **True Way** of feeling expression. A loving way of being.

Root Cause

Highly esteemed Lanonandek spirits from within our local universe of Nebadon were assigned as System Sovereigns of our local system to oversee Earth's humanity and their spiritual development. 200,000 years ago they, the Lucifers, became infatuated with their authority and turned against the regents of Nebadon, Mary and Jesus, as well as rejecting God. Through their Planetary Princes, also Lanonandek spirits, they had taken the humanities of 37 worlds within their local system into their Rebellion.

By living through our minds, suppressing our feelings, we on Earth will continue to be at war with each other, illnesses of all descriptions will continue from our feelings suppression, famine and inequalities prevail, control of others is the core of all systems, we cannot determine truth from falsehood and life on Earth is a living hell. We have been continually seduced by mind Mansion World spirits and we live life in a stupor – nothing more than zombies doing the begging of the evil ones, the rebellious Lanonandek spirits.

By living through our minds, suppressing our soul based feelings, we have been progressively going further and further away from our Heavenly Parents, now to the point that we cannot go any further. Through working cracks in the Universal Contract governing the Rebellion and Default, this control has been ended formally as of 31 January 2018.

Pathway Forward

To liberate one's real self, one's will, driven by one's soul, moves one to embrace Feeling Healing, so as to clear emotional injuries and errors. With the Divine Love, then one is also Soul Healing. We are to feel our feelings, identify what they are, accept and fully acknowledge that we're feeling them, express them fully, all whilst longing for the truth they are to show us.

God's Divine Love: Pray for it, ask for it, and receive it.

The Golden rule is: Never interfere with another's will.

Golden Rule: that one must always honour another's will as one honours one's own.

New Feelings Way: learning how to live true to ourselves by living true to our feelings.

We are to express our feelings, both good and bad, at all times, and to long for the truth of them.

By living true to ourselves true to our feelings, we are living true to God. It's that simple.

From our head to our toes,
what our feelings say goes!

Feelings, good and bad, are to be expressed.

Talk it Out!

Heartfelt feelings are our truth.

Then we are to continue by longing for
the truth that our feelings are to reveal to us!

LONG to KNOW ABOUT what you are FEELING!
Long to understand the truth behind
what your feelings are pressing upon you.

Ask to know the truth about that which you feel.
It is knowing the truth of that
which you feel that sets you free!

Always be true to your feelings
because they are your truth
and truth is love and our way home!

talking

Express your feelings to those who matter to you.
Suppressed feelings bring about pain and illness.
Talk it out to a friend!

Living Feelings First growth potential is

Our Feelings are our Supreme Guide! Truth is found through our feelings, we are to long for the truth about what our feelings draw our attention to. Our soul based feelings are always in truth. We are fully self-contained. This simple fact has been hidden from us for 200,000 years while our hidden controllers, the evil ones, kept us under their selfish controlling agenda.

Living through our feelings first with our minds to follow in assisting with what our feelings guide us to consider is a rewarding, freeing and vibrant life. Whereas we all have been retarded through living mind centric.

Living through our Feelings First, the New Way, and longing for truth of what they are to reveal, expressing what we feel, both good and bad, will enable us to progress through the Feeling Healing Mansion Worlds while living on Earth. With Divine Love we will be fit to enter the Celestial Heavens and then progress through all the Celestial Heavens of our local Universe of Nebadon and then onwards to Havana and Paradise, the home of our Heavenly Mother and Father.

Not only will we progress beyond 1,000 MoC when transitioning into the 1st of the Celestial Heavens, by the time we reach Paradise we will have progressed to what could only be described as infinity – well not quite – but we will be truly awesome in our evolution and development.

Living mind-centric limits growth to 499 MoC

We all live through our minds! We all suppress and ignore our feelings. This has been how we have been led to live by high level spirits who had ambitions of self-glorification to our detriment. These wayward spirits had illusions of expansionary empowerment and they needed Earth's humanity as their foot soldiers! Through their deceit, we would continue to live in spirit as we do on Earth without any prospect of progressing out of the spirit mind Mansion Worlds.

Should we continue with aspirations in the perfecting of our mind then we can progress from the 1st spirit Mansion World to the 2nd mind spirit Mansion World, then 4th and finally 6th mind spirit Mansion World to a dead end. In these higher worlds we may appear to be guru type personalities but we have gone further away from God – we have then perfected our evilness!

The mind can even stave off the time when the Law of Compensation is addressed.

A U-Turn is required and then one would commence embracing their feelings and progress through the Feeling Healing Mansion Worlds 3, 5 and 7. With Divine Love then on completion of the 7th spirit healing Mansion World process we transition to the 1st of the Celestial Heavens.

While we suppress and ignore our feelings we are living in hell and putting ourselves through untold misery, pain and suffering when we can achieve healing to the level that we are living as Celestials while in the physical on Earth!!!

Zimbabwe government taken on Friendship Benches

Doctors estimate one in four Zimbabweans suffer from depression or anxiety but there are just 12 psychiatrists treating the country's entire population of 14 million. They can't possibly go the route of training psychiatrists and psychologists because it would take 15 years. How are they going to provide treatments? Local doctors have come up with a simple but seemingly highly effective idea.

Wooden seats so-called “friendship benches” were installed on the grounds of several Harare health clinics. Visitors were offered six one-to-one counselling sessions with lay health workers who have received some training. They are known as grandmother health providers. The very lowest kinda of the health system to train those women to offer problem-solving therapy and so the patient explains what all their problems are and it's opening up the mind in the sense of allowing the patient to see that they can do something about their problems.

The study involved more than 550 patients. After six months only 14% of the patients in the “friendship bench” group reported symptoms of depression compared to 50% in a control group. They were also 5 times less likely to have suicidal thoughts co-founder of the friendship bench program Dr Dixon Shahbandar of the University of Zimbabwe told VOA via Skype the intervention had a wide range of benefits. Not only a mental health sort of package. A package that actually improved outcomes of things like hypertension, diabetes and in adherence to medication for people with HIV.

That success has led to Friendship benches being rolled out to 60 clinics in Harare and to other cities.

Chaldi Ladies introducing “Feeling Healing”!

Childhood Suppression

Childhood Suppression – from conception to age six years – harmfully encrusts the soul, thus impeding light flow throughout all seven layers of the spirit body, damaging the genes within the spirit body which in turn damages the genes in the physical body, as well as setting the pattern for all of our physical health issues throughout our lives.

SPRIT BODY

Brennan Model of the 7 Levels of the Human Energy Field

The spirit etheric body is the template for our physical body, however, no health care system or science considers that the underlying cause of any health issues are formed through our Childhood Repression and that no physical healing occurs without expressing our childhood suppressions, being feelings both good and bad and then longing for the truth behind these injuries. Medicine may suppress the pain – it does not and cannot cure – vaccines are extreme physical suppressions!

The pain from ANY illness will not exceed the pain experienced during our Childhood Suppression!

TALK IT OUT

We are to express our feelings, both good and bad, and nothing is sacrosanct or to be withheld.

All that's wrong and untrue within us has to be expressed out of us, each of us, it all has to come to light for us to see the truth of. We have to know the truth of ourselves and the truth of our family relationships.

Everything needs to be expressed, to come out into the open.

What enters emotionally has to be expressed emotionally – it has to come out emotionally – leave us emotionally!

However, we are not to act upon what we are feeling emotionally! We are not to act it out! But, we are to go on and long to know the truth of what is behind our feelings, why we are having these feelings and experiences.

Long to the Mother and Father for Their Divine Love, and ask Them to help you see the truth through your feelings – that which They want you to know. Long and ask; long and pray. Pray to see, know and BE the truth, the truth of you – of all of it!
