PASCAS CARE CLINIC – INTRODUCTION

Treat the cause rather than the symptoms; this is the focus of Pascas Care.

P.7 Pascas WorldCare – and 500 + Years!

MISSION

Pascas Care is a series of complementary healing centres that extend into education and nutrition in the form of Chaldi College and Pascas Cafes. The healing centres integrate Eastern and Western, ancient and modern-day modalities of healing aimed to aid a patient's / friend's healing from the inside out. The goals of Pascas Care are lead by our desire to treat the cause rather than the symptoms. To achieve these seemingly out of reach goals, we need to bring together the many efficacious modalities that will aid the patient / friend to gainfully proceed down a pathway to health. At all times it is the friend's will and desire that we are to respond to.

ALLOPATHY AND 3 HALVES

Treatment programs will be developed and approved by a patient. The patient / client must take full responsibility for the program and the management of same with the support of the appropriate practitioners. Programs are best structured in a format that encapsulates the elements of:

Western Medicine being Allopathy

+

Energy Medicine being Complementary Therapy

+

Nutrition / Diet Enhancement

+

Emotional Processing

Please note: The last three elements do not conflict with Allopathic practices, they complement western medicine procedures.

| CLIENT / PATIENT - FRIEND | |
|--|-------------------------------------|
| MEDICAL HOLISTIC DIAGNOSTIC TECHNICIAN | |
| PROFESSIONAL MEDICAL TEAMS | COMPLEMENTARY THERAPY FIELDS |
| Neurosurgery | Complete Therapeutic Systems |
| Ears, Nose & Throat - ENT | Oriental Diagnosis |

| Cardiology | Tibetan Medicine |
| Radiotherapy | Traditional Arabic Medicine |
| Medical Services | Emotional Processing |
| Imaging – X-ray – Ultrasound – CAT scan - MRI | |
| Pathology | |
| Streamer – Case Manager | |

EMOTIONAL WELLNESS

There is a special focus in the Pascas Care Clinic on emotional healing. Emotions govern our health in a major way. Every physical ailment that you have is a total reflection of soul condition, emotion that you are holding onto, and each soul condition emotion affects a certain part of the body. Every illness that manifests itself in the physical body can be related back to blocked and suppressed emotions. This is not an exact science, nor need it be. True physical health is attained and maintained by healthy emotions, healthy thoughts and a balanced way of living and working.

A Pascas Care Clinic is to assist those patients / friends to understand the relationship between one's emotions and one's health issues. All blocked and suppressed emotions need to be accessed and released. In doing so, those patients / friends who wish to resolve their emotional issues, to achieve the permanent well being of their own health, as well as of their family in general, will be supported by Pascas in every way possible. Two things will be free at Pascas Care Clinic, Pascas Blue Water and Processing and Clearing Emotions.

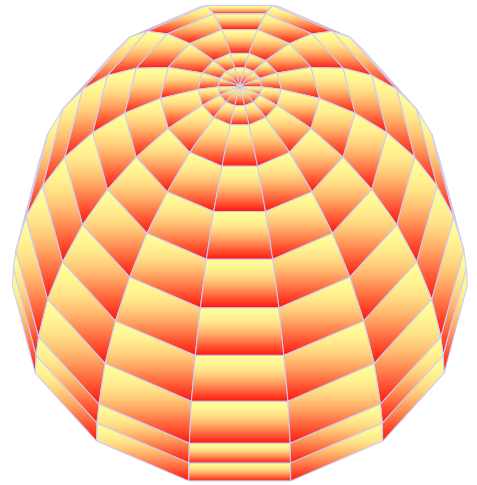

HEALTH DOME

The **Health Dome** needs to be viewed internally as a hologram. It is a metaphor to demonstrate the diversity of health management pathways that are encapsulated within a Pascas Care Centre.

Each health modality interconnects and is complimented and supported by each and every other health modality.

No one process or practice is an exclusive solution.

If you were to say that one practice or solution stands out above and beyond all others at the pinnacle of the **Health Dome** then that would be **Love and Forgiveness**.

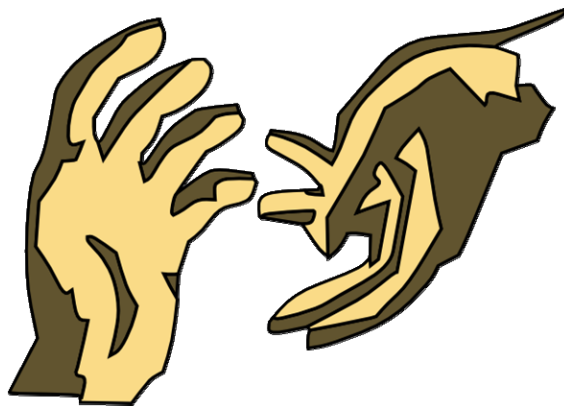

The basic malady found in people is self-hatred stemming from fear. Fear manifesting as self-hatred is the basic inner illness in all of us, but just how that self-hatred and non-acceptance of the self manifests is shown in our different character structures. As we work to understand our dynamics on a daily level, we can learn to accept ourselves through this process. Self-love is the greatest healer, and self-love also requires daily practice.

The broad view of the healer encompasses the totality of the human being. In healing there is no separation between body and mind, spirit, emotions and soul – all need to be in balance to create a healthy human being. The healer focuses on physical, psychological and spiritual malfunction. It is impossible to do healing without affecting the psychological levels of the personality. The more the healer understands the psychodynamics of his/her clients / friends, the more the healer will be equipped to help the clients / friends heal themselves.

Finding the initiating cause of an illness is always a key part of healing.

The objective, from within the Pascas Care Dome, is to treat the cause much more so than just treat the symptoms. Re-occurrence of illness is due to the non-treatment of the cause.

**PASCAS
HEALTH**

**Feeling
Healing with
Divine Love is
the key!**

PASCAS CARE – HEALTH CLINIC – THREE UNITS IN ONE:

The goal of Pascas Care is to establish some 4,000 Pascas Care clinics within more than 40 countries over the next five years. This will establish the capacity to assist friends / patients in many diverse ways. Then expand to all communities within every state within every country on Earth.

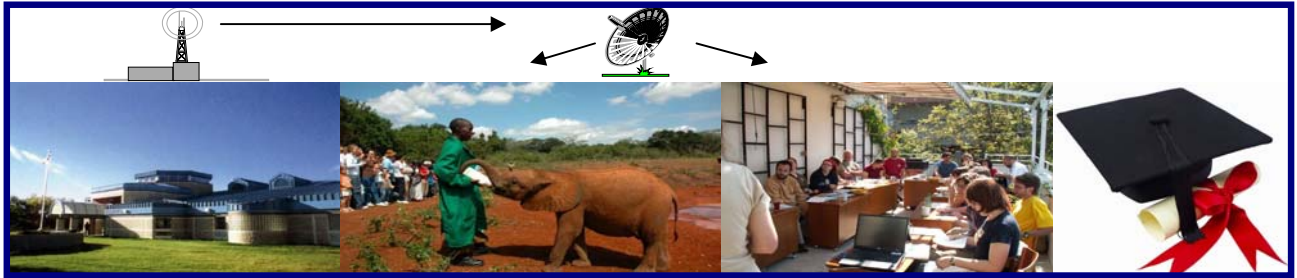

- These facilities will be able to assist more than twenty eight million (28,000,000) friends per annum who are experiencing a life threatening episode such as HIV / Aids, malaria or tuberculosis.
- The overall functionality of the clinics will assist more than twice that number who are experiencing serious health episodes.
- The general structure of the clinic is to bring the friend into a condition of full recovery by assisting him/her with the development and management of their own health regime. This involves understanding the underlying cause of the condition with support to deal with the management and alleviation of that cause, nutrition education, and the making available of job creating enterprises to enable the viable sustainability of the family.

Pascas Care clinic mix:

| | | | | |
|-----------------|----------------|------------|--------------|-----------------------------------|
| Maxi | Clinics | 3% | 120 | |
| Standard | Clinics | 94% | 3,760 | |
| Micro | Clinics | 3% | 120 | In five to ten years 4,000 |

CHALDI COLLEGE

Education is the paramount foundation of a Pascas Care Centre. Within impoverished and suppressed communities, an un-educated girl will have many children. If a girl spends only 2 years at school, she is likely to have more than 7 children. If she spends 6 years at school, she is likely to have around 4 children. If she spends 12 years at school then she will have only 2 children. World poverty is best averted by the tool of education in the first instance.

- Chaldi College, as a segment of a Pascas Care Centre, will provide innovative educational initiatives. These are short course programs and are focused both on the adult as well as the child. Firstly are health education programs.
- The educational platforms will incorporate the capabilities of Steiner Schools as well as Shchetinin Schools. In a small city in southern Russia there is a remarkable Lyceum school established by Dr Shchetinin. Its students come from more than 40 different nationalities. **New approaches to moral and intellectual education allow students to cover the full school curriculum in the space of a few years (3 years), and to earn one or more academic degrees by the time they are 15-17.**
- Through Chaldi College, there will be introduced into regions, new technologies with appropriate training to enable their deployment and the establishment of new industries within the proximity of the Pascas Care Centre. We have had many innovators bring to us their inventions.

PASCAS CAFE

Pascas Café is a nutrition training centre with an emphasis on raw food, thus vegetarian and vegan platforms. Pascas Café is essential with many of the health treatment programs. Appropriate diet is fundamental to the success of the treatments that friends will be considering.

PASCAS CARE CLINIC FUTURE GOALS

The concept of a Pascas Care Centre will become self evident in its efficaciousness. All friends visiting the centres will have their experiences monitored through a secure and private data base. As outcomes are accumulated, the database will be open to researchers to identify for themselves the veracity of the various platforms that Pascas will be introducing. Privacy of users of the clinic's facilities being assured.

With the establishment of Pascas Parks, edu-tainment centres, the capacity for Pascas to reach out to over 500 million friends over a ten year period will be achievable.

All aspects of Pascas are about assisting friends to grow in soul condition, to raise their consciousness, to lift their quality of life and well being. This involves bringing many innovations into their lives and sharing with them the possibilities without favour.

Pascas will not be entering a community unless it is invited to that community. And then its entrance will be conditional upon members of that community embracing aspects of the Pascas agenda and managing those selected programs.

You cannot join Pascas. It does not have a membership. Everyone is free to choose or not choose from any part of the Pascas programs.

As we proceed to evolve and expand our outreach, we will be employing hundreds of thousands of people in various ways. Should you so wish to participate, come tell us how you wish for your personal desires to be met.

“Never can one man do more for another man than by making it known of the availability of the Feeling Healing process and Divine Love.” JD

PASCAS IS US – ALL OF US
